Organization (WTO). These efforts strengthen Brazil's commitment to multilateralism and growing international alliances.

On 28 February 2025, Brazil partnered with National Defence Canada on the Canada-Brazil Defence Cooperation Agreement, solidifying United Nations peacekeeping and defence procurement between the two countries.²⁷⁸⁹ This partnership aims to promote the representativeness and effectiveness of defence cooperation and bolster UN capabilities.

On 6 March 2025, the European Union and Brazil signed an agreement to strengthen and grow ties between Europol and the Brazilian Government for the prioritization of international security measures.²⁷⁹⁰ This agreement will allow for more effective and coordinated methods to fighting global crime, alongside reinforcing the relationship between Brazil and the EU.

On 13 March 2025, the German Federal Foreign Office published an article on Germany and Brazil's bilateral relations, highlighting their collaboration on the reform of the UN, particularly the expansion of the United Nations Security Council to include new permanent and non-permanent members, as well as cooperation in 30th Conference of the Parties to the United Nations Framework Convention on Climate Change and the UN Human Rights Council in Geneva.²⁷⁹¹

On 28 March 2025, President Luiz Inácio Lula da Silva and Vietnamese President Luong Cuong launched a five-year action plan to collaborate on issues of defense, trade, agriculture, energy and technology as part of a larger plan to strengthen its relations with the Association of Southeast Asian Nations.²⁷⁹² Brazil aims to expand global exports and investments, as well as deepen ties through MERCOSUR.

On 24 April 2025, BRICS under the Brazilian presidency formally included civil society voices in its decision-making process during a meeting in Rio, marking a major step toward more inclusive and participatory governance within the group.²⁷⁹³

On 28 April 2025, Brazil hosted the first day of the BRICS Foreign Ministers Meeting in Rio de Janeiro City, where Minister of Foreign Affairs Mauro Vieira led a discussion on the main themes, including multilateral cooperation for peace and development as well as reforming international institutions for a more representative and long-lasting governance system.²⁷⁹⁴

On 3 June 2025, Minister Vieira spoke about Brazil's concerns about the WTO Appellate Body and dispute settlement systems' diminishing capability to enforce global trade policies and stressed Brazil's goal of promoting inclusive, transparent and accountable trade.²⁷⁹⁵

On 3 June 2025, Minister Vieira emphasized the need to reform the WTO's structures thoroughly, such as by restoring the dispute settlement system's effectiveness to ensure the WTO is able to manage contemporary challenges such as subsidies and violations of the principle of non-discrimination.²⁷⁹⁶

On 4 June 2025, Minister Vieira gave an address at the Ministerial Council Meeting of the Organization for Economic Co-operation and Development (OECD), speaking about the importance of ensuring that the OECD's FDI Restrictiveness Index was operating with transparency and accountability.²⁷⁹⁷

On 5 June 2025, President Lula underscored the need for UNSC reform, particularly on increased representation from countries in Africa, South and Latin America, as well as Japan, Germany and India to French President Emmanuel Macron during his visit to France.²⁷⁹⁸

On 24 June 2025, Brazil released a joint statement with BRICS, calling out the nuclear attacks by Iran and emphasizing the BRICS member states' commitment towards upholding international law and democracy for peace and security, showing Brazil's continued efforts in sustaining and endorsing the principles of the UN system.²⁷⁹⁹

On 1 July 2025, Brazil took on the position of president of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) Advisory Commission.²⁸⁰⁰ This demonstrates Brazil's commitment to multilateralism and cooperation.

On 5 July 2025, finance ministers from the BRICS member nations issued a proposal calling for significant reforms to the International Monetary Fund (IMF) after the BRICS ministerial meeting in Rio de Janeiro.²⁸⁰¹

²⁸¹⁴ Brazil | General Debate, United Nations (New York) 23 September 2025. Access Date: 10 October 2025. <https://gadebate.un.org/en/80/brazil>

On 25 September 2025, Brazil issued a joint statement with Germany, India and Japan on the prospects of the UNSC reform after the G4 meeting, which includes representation of the underrepresented and unrepresented regions and groups, as well as implementation of the UN80 process.²⁸¹⁵

On 26 September 2025, Minister Vieira participated in a trilateral meeting with the Minister of External Affairs of India, Minister in the presidency for Women, Youth, and Persons with Disabilities of South Africa on the sidelines of the 80th Session of the UNGA.²⁸¹⁶ The Ministers underscored the importance of the trilateral partnerships in “safeguarding and advancing the interests of the Global South,” as well as shared commitment of reforming multilateralism, advancing international humanitarian law and promoting sustainable development. They reiterated their support for the comprehensive reform of global governance institutions, namely the staff composition of the UN Secretariat, as well as organizations such as the UNSC, Peacebuilding Commission, UNRWA, WTO, IMF and G20.

On 24 October 2025, President Lula visited the Association of Southeast Asian Nations (ASEAN) Headquarters and ASEAN Secretariat underscoring continued ASEAN-Brazil relations.²⁸¹⁷ During the meeting with Secretary-General of ASEAN, President Lula reaffirmed Brazil’s commitment to strengthening cooperation with ASEAN on shared priority areas including energy, trade and investment and sustainable development. This demonstrates Brazil’s commitment to bolstering the institutional effectiveness of ASEAN.

Brazil has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century. Brazil has taken strong action to reform the UNSC under its BRICS chairmanship and other international organizations, including the OECD, WTO, MERCOSUR and Europol, to increase institutional representativeness, effectiveness and transparency in global governance.

Thus, Brazil receives a score of +1.

Analyst: Rhea Uppal

Energy Agency (IAEA).²⁸³² This demonstrates Canada's commitment to upholding the roles of international organizations and international law.

On 28 July 2025, Secretary of State for International Development Randeep Sarai participated in the "G20 Development Working Group Ministerial Meeting," continuing to foster multilateral ties and cooperating for peace, security and development.²⁸³³

On 28 July 2025, Canada, Mexico and Qatar co-chaired the working group, "Narrative for Peace," during the UN "High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution."²⁸³⁴ The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates Canada's commitment to bolstering the institutional effectiveness of the UN.

On 8 August 2025, Canada, along with G7 members in the G7 Rapid Response Mechanism (RRM), released a statement following the Hong Kong Arrest Warrants.²⁸³⁵ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 9 August 2025, Global Affairs Canada released a statement on "International Day of World's Indigenous Peoples."²⁸³⁶ This statement affirmed Canada's commitment to supporting the work of Canada's Indigenous Working Group on Trade Policy and the UN Permanent Forum on Indigenous Issues. Both bodies aim to further advance Indigenous peoples both domestically and on the global stage.

On 23 September 2025, the G7 Foreign Ministers released a joint statement following the Meeting of the G7 Foreign Ministers on the Margins of the High-Level Week at the United Nations General Assembly in New York.²⁸³⁷ In this statement, the ministers recognized the need for UN reform and committed to participating in those efforts.

On 25 September 2025, Minister Anand met with the Commissioner-General of the UN Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) on the sidelines of the UNGA to underscore

UNRWA's role in providing humanitarian aid.²⁸³⁸ Minister Anand also welcomed progress on UNRWA reforms (including the implementation of the Colonna recommendations).

On 26 September 2025, Minister of International Trade Maninder Sidhu welcomed the World Trade Organization's (WTO) Agreement on Fisheries Subsidies into force and encouraged all WTO members to submit their acceptance of the agreement if they have not yet done so.²⁸³⁹

On 26 September 2025, Minister Anand met with the North Atlantic Treaty Organization (NATO) Secretary General Mark Rutte on the sidelines of the UNGA.²⁸⁴⁰ Minister Anand reiterated Canada's commitment with NATO Allies in countering Russia's incursions in NATO airspace, as well as contributing to NATO and the North American Aerospace Defense Command's (NORAD) efforts in raising awareness about environmental threats in the Arctic region. This demonstrates Canada's commitment to bolstering the institutional effectiveness of NATO.

On 1 October 2025, the G7 Foreign Ministers and the High Representative of the European Union released a statement in support of the reimposition of UNSC sanctions and restrictions against Iran due to the government's failure to meet requirements under the Joint Comprehensive Plan of Action (JCPOA).²⁸⁴¹ This demonstrates the ministers' commitment to bolstering the institutional effectiveness of the UN.

On 8 October 2025, members of the G7 and the Nordic-Baltic 8++ (Belgium, Canada, Denmark, Estonia, European Union, Finland, France, Germany, Iceland, Italy, Japan, Latvia, Lithuania, Netherlands, Norway, Poland, Sweden and the United Kingdom) released a joint statement committing to enhance cooperation and advance efforts on disrupting and deterring global shadow fleet activity.²⁸⁴² Members further reaffirmed their commitment to upholding international law such as the UN Convention on the Law of the Sea and acting in accordance with International Maritime Organization and International Labour Organization conventions and resolutions.

On 12 October 2025, Minister Sidhu participated at the G20 Trade and Investment Ministerial Meeting where he reiterated Canada's commitment to working with international partners to advance trade priorities.²⁸⁴³ This demonstrates Canada's commitment to bolstering the institutional effectiveness of the G20 as a forum to engage with developed and emerging economies.

On 17 October 2025, the G7 Development Ministers convened on the peripheries of the annual World Bank Group and International Monetary Fund meetings in Washington D.C. to identify opportunities for further

collaboration within the G7.²⁸⁴⁴ The Ministers also underscored the importance of reforms to multilateral institutions focus on institutional performance and outcomes such as “structural realignment, mandate streamlining, and enhanced efficiency.”

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).²⁸⁴⁵ The report underscores Canada’s commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 23 October 2025, the Ministers and high representatives of Armenia, Australia, Belgium, Canada, Chile, Colombia, Cyprus, Dominican Republic, Estonia, France, Germany, Iceland, Ireland, Kosovo, Latvia, Liberia, Lithuania, Luxembourg, Mexico, Moldova, the Netherlands, North Macedonia, Norway, Portugal, Rwanda, Slovenia, Spain, Thailand, Ukraine, United Kingdom, Uruguay participated at the 4th Ministerial Conference on Feminist Foreign Policies.²⁸⁴⁶ The Joint Declaration demonstrates Canada’s commitment to upholding the Universal Declaration of Human Rights, UN principles and the UNSC Resolution 1325 (Women, Peace and Security agenda), advancing institutional reform of the UN and strengthening multilateral engagement.

On 24 October 2025, Minister Anita Anand issued a statement on United Nations Day reiterating Canada’s commitment to the UN and collaborating with partners to strengthen the UN system to ensure “that it is representative, accountable and effective in meeting these challenges and delivering the results urgently needed for today and tomorrow.”²⁸⁴⁷

On 29 October 2025, Natural Resources Canada and the Atlantic Council co-hosted the G7 ministerial meeting/2025 Summit on the Future of Energy Security to convene government leaders, civil society and industry representatives to strengthen coordination between stakeholders on energy security initiatives and bolster the institutional effectiveness of the G7.²⁸⁴⁸

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders’ Declaration 2025.²⁸⁴⁹ Leaders

reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

On 2 November 2025, Australia, Canada and New Zealand issued a joint statement after the APEC Ministerial Meeting reiterating their support for Asia-Pacific Economic Council (APEC) and condemning Russia's actions that undermine economic cooperation and the work of the organization.²⁸⁵⁰

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of Korea's cyber and information technology activities that violate UNSCRs.²⁸⁵¹ The report underscores Canada's commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

Canada has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Canada has taken moderate action in reiterating its commitment to reform international organizations such as the WTO and solidify the representativeness and effectiveness of a UN body. However, it has not taken action that meets the criteria of transparency and accountability.

Thus, Canada receives a score of 0.

Analyst: Ngila Stone

China: 0

China has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 19 February 2025, Foreign Minister Wang Yi underscored the importance of reforming the UN Security Council (UNSC) to reflect democratic principles and ensure representativeness of developing countries at the UNSC High-Level Meeting "Practicing Multilateralism, Reforming and Improving Global Governance."²⁸⁵² His remarks reflect China's commitment to address longstanding institutional injustices.

On 1 April 2025, Minister Wang and Russia's Foreign Minister Sergey Lavrov underscored the importance of aligning on international issues within multilateral forums including "the UN, the SCO [Shanghai Cooperation Organisation], BRICS, the G20, APEC [Asia-Pacific Economic Cooperation]."²⁸⁵³ This demonstrates a commitment towards bolstering the institutional effectiveness of various intergovernmental organizations.

On 11 April 2025, China confirmed a USD500,000 contribution to help developing economies enhance their ability to participate fully in the multilateral trading system.²⁸⁵⁴ This action shows China's firm commitment to upholding the WTO while increasing inclusivity and representation in the organization.

On 23 July 2025, Director-General of the Department of Asian Affairs of the Foreign Ministry Liu Jinsong spoke with Director-General of the Department of ASEAN Affairs of the Ministry of Foreign Affairs of Thailand Bolbongse Vangphaen and other representatives.²⁸⁷⁰ This aligns with China's commitment to bolstering the institutional effectiveness of ASEAN through a renewed commitment to future collaboration.

On 24 July 2025, Vice Foreign Minister Sun Weidong discussed with Association of Southeast Asian Nations (ASEAN) Secretary-General Kao Kim Hourn about the necessity of reinforcing inclusive multilateralism and upholding the multilateral trading system.²⁸⁷¹

On 14 August 2025, China discussed the importance of upholding peace and stability in the South China Sea and also emphasized the necessity of strengthening cooperation to comprehensively enforce the Declaration on the Conduct of Parties in the South China Sea (DOC) at the 24th ASEAN-China Senior Officials Meeting on the Implementation of the DOC in Kuching, Malaysia.²⁸⁷²

On 1 September 2025, during the Shanghai Cooperation Organization, President Xi Jinping unveiled the Global Governance Initiative, which serves as a testimony towards China's commitment to strengthening global governance.²⁸⁷³ This is in accordance with President Xi's fourth global initiative, where he pushes for sovereign equality, protecting the rule of law, multicultural representation, people-driven policies and stronger action.

On 24 September 2025, Premier Li stated that China would refrain from using the "special and differential treatment."²⁸⁷⁴ This action is representative of China's support towards WTO reform, as the "special and differential treatment," is one of the items on the WTO reform agenda due to the biased trade treatments it offers certain countries over others.

On 15 October 2025, China's Permanent Representative to the UN Fu Cong called for comprehensive planning, clear direction and real results before concrete steps are taken to reform the UN.²⁸⁷⁵

On 23 October 2025, Ambassador Sun Lei delivered a speech at the Mandate Formulation Consultations of the Ad Hoc Working Group on the UN80 Reform Initiative where he highlighted four key points on how to

²⁸⁷⁵ Prudence should be watchword so UN reform stands test of time, China Daily (Beijing) 17 October 2025. Access Date: 20 October 2025. <https://global.chinadaily.com.cn/a/202510/17/WS68f17ac9a310f735438b5708.html>

balance different priorities in the UN80 reform process.²⁸⁷⁶ He stated that streamlining reform should enhance the efficiency and resilience of the UN system, emphasizing practical results and operations to maximize resource effectiveness. In addition, Ambassador Sun distinguished between the roles of member states and the Secretariat, with the former formulating the mandates while the latter focusing on strengthening technical and analytical supports.

On 24 October 2025, Ambassador Fu delivered a speech at the UNSC Open Meeting on “Looking Forward to the Future of the United Nations.”²⁸⁷⁷ He called on member states to uphold sovereignty and dignity, abide by the international rule of law and the purposes and principles of the UN Charter, practice multilateralism, improve global governance through reform and take an action-oriented approach by delivering practical solutions.

On 27 October 2025, Premier Li participated in the China-ASEAN Summit where he reiterated the importance of strengthening coordinated actions between China and ASEAN countries.²⁸⁷⁸ Premier Li underscored the importance of openness and cooperation in Southeast Asia to bolster development strategies and secure industrial and supply chains.

On 28 October 2025, Ambassador Fu delivered a speech at the 80th UNGA plenary session on the “Necessity of ending the US economic, commercial and financial embargo against Cuba.”²⁸⁷⁹ Ambassador Fu stated how “a few Western countries, including the United States” violate the purposes and principles of the UN Charter, calling on states to comply with established norms and the legitimacy of the UN system. He called on member states to strengthen multilateral institutions and international rules-based order.

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders’ Declaration 2025.²⁸⁸⁰ Leaders reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

China has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law, as China has not taken strong actions to directly reform at least one UN body or other international organization. China has taken moderate actions by verbally affirming and endorsing global institutional reform for the UNSC, World Bank and IMF for representativeness and effectiveness. However, it has not taken strong action that meets the criteria of transparency and accountability.

Thus, China receives a score of 0.

France: 0

France has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 21 November 2024, Deputy Permanent Representative of France to the UN Jay Dharmadhikari reiterated France's commitment to reform of the UN Security Council (UNSC), emphasizing the need to increase representativeness within the UNSC.²⁸⁸¹ He called for the expansion of the Council, with permanent membership to the Group of 4, Germany, Brazil, India and Japan, as well as Africa, to better reflect the current global order and voices within countries.

On 5 December 2024, Minister for Europe and Foreign Affairs Jean-Noël Barrot met and spoke with Minister of State and Foreign Affairs of Portugal Paulo Rangel about the importance of reforming international institutions, particularly to expand the representation of countries in the UNSC and the effectiveness of the UN body.²⁸⁸²

On 6 December 2024, North Atlantic Treaty Organization (NATO) allies including France released a joint statement to the Organization for Security and Co-operation in Europe (OSCE) on Russia's invasion of Ukraine where members reaffirmed their commitment to maintaining channels of communication to "to manage and mitigate risk, prevent escalation and build trust and confidence" and align with the principles of transparency at the OSCE Ministerial Council.²⁸⁸³

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers' Declaration on Maritime Security and Prosperity.²⁸⁸⁴ The ministers reaffirmed the G7's commitment to "a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources." The ministers also reiterated their commitment to tackling the "Emerging Threat on Safe Seas and Freedom of Navigation and Overflight," "Safe Shipping and Supply Chain Security," "Sustainable Stewardship of Maritime Resources" and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7 support for "Ukraine's long-term prosperity and security," "Regional peace and stability in the Middle East," "Cooperation to increase security and resilience across the Indo-Pacific," "Building stability and resilience in Haiti and Venezuela," "Supporting lasting peace in Sudan and the Democratic Republic of the Congo" and "Strengthening sanctions and countering hybrid warfare and sabotage."²⁸⁸⁵ The joint statement reflects the G7's commitment to strengthening the institutional effectiveness of the G7.

On 31 March 2025, the governments of France and Mexico welcomed Armenia's decision to joining their effort in restricting the Security Council's veto powers.²⁸⁸⁶ This declaration reflects France's commitment to reforming the Security Council and promote effective multilateralism.

On 1 April 2025, the French Embassy in India announced that during its presidency of the UNSC for the month of April, France would lead discussions on UNSC reform, which includes giving India a permanent seat.²⁸⁸⁷

On 3 April 2025, Minister Barrot delivered a speech on the NATO Foreign Ministers Meeting underscoring the importance of solidarity between NATO members amid threats to security and defense, and territorial integrity and sovereignty.²⁸⁸⁸

On 25 April 2025, Minister of Economy, Finance, Industrial and Digital Sovereignty Eric Lombard reaffirmed France's engagement to work on approaches for guiding an International Monetary Fund (IMF) quota share realignment under the 17th General review of Quotas during his IMFC statement.²⁸⁸⁹ This demonstrates France's call for increased institutional representativeness at the IMF and the World Bank.

On 29 May 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued a joint statement on unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions.²⁸⁹⁰ The multilateral mechanism aims to monitor and report on sanction measures implemented by the United Nations. This initiative underscores ongoing to advancing the UN's institutional effectiveness.

On 29 May 2025, Deputy Legal Advisor for the Permanent Mission of France to the UN Hugo Wavrin emphasized the need to reform the UNSC to strengthen representation and effectiveness.²⁸⁹¹ He further endorsed the Caribbean Community (CARICOM)'s efforts to increase the number of both permanent and non-permanent seats in the UNSC, as it aligns with the reform model.

On 6 June 2025, France stated its support for the four judges and the ICC, pledging commitment to help sustain the important role of the Court in the international criminal justice system in response to the additional American sanctions against four International Criminal Court (ICC) judges.²⁸⁹²

On 23 June 2025, Permanent Representative of France to the UN Jérôme Bonnafont called for a reform of the UNSC by increasing its representation to better reflect contemporary realities and respond to current

challenges.²⁸⁹³ This echoes the motive of Minister Barrot, in his meeting with the Portuguese Minister of State and Foreign Affairs last year, which showcases France's consistent effort in UNSC reform.

On 30 June 2025, the G7 Foreign Ministers, including France, released a statement endorsing the ceasefire between Israel and Iran and condemning Iran for their use of nuclear weapons under the International Atomic Energy Agency (IAEA).²⁸⁹⁴ This supports France's commitment to upholding the roles of international organizations and international law.

On 10 July 2025, the United Kingdom and France released a joint declaration after the 37th UK-France Summit, emphasizing their commitment to upholding multilateralism and collaborating to reform the UN.²⁸⁹⁵

On 24 July 2025, France worked with 40 other states to investigate the human rights issues faced by Ukrainian prisoners of war in Russia and pledged support for the Ukrainian people.²⁸⁹⁶ France also emphasized Russia's illegal actions under international law, reiterating its commitment to international law and upholding UN principles.

On 25 July 2025, France condemned all independent acts of deep-sea mining as running contrary to international law at the 30th Session of the International Seabed Authority (ISA) Assembly and Council.²⁸⁹⁷ France also emphasized the importance of enforcing transparent ISA rules for member countries, showing its commitment to advancing transparency within the international organization.

On 30 July 2025, Minister Barrot met with UN Secretary General António Guterres and discussed France's recognition of the State of Palestine as well as Iran's nuclear usage, emphasizing the need for a resolution under international law.²⁸⁹⁸ This action aligns with France's commitment to upholding international law rooted in UN principles and advancing the effectiveness of the multilateral system.

On 1 August 2025, Permanent Representative of France to the United Nations in New York Jérôme Bonnafont called for reform of the UN system, particularly in administration and mandates implementation.²⁸⁹⁹

On 8 August 2025, France along with G7 members in the G7 Rapid Response Mechanism (RRM) released a statement following the Hong Kong Arrest Warrants.²⁹⁰⁰ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 11 September 2025, Prime Minister of the UK Keir Starmer in call with President Emmanuel Macron condemned Russia's violation of NATO airspace and reiterated their commitment to defending NATO from Russia's threats.²⁹⁰¹

On 23 September 2025, France, as a part of the G7, released a joint statement following the Meeting of the G7 Foreign Ministers on the Margins of the High-Level Week at the United Nations General Assembly in New York.²⁹⁰² In this statement, the ministers recognized the need for UN reform and committed to participating in those efforts.

On 29 September 2025, France called for the strengthening of multilateralism for more effective, fair and inclusive institutions, for the reform of the UNSC and supported the launch of the UN80 Reform Agenda at the 80th session of the UN General Assembly.²⁹⁰³

On 1 October 2025, the G7 Foreign Ministers and the High Representative of the European Union released a statement in support of the reimposition of UNSC sanctions and restrictions against Iran due to the government's failure to meet requirements under the Joint Comprehensive Plan of Action (JCPOA).²⁹⁰⁴ This demonstrates the ministers' commitment to bolstering the institutional effectiveness of the UN.

On 8 October 2025, members of the G7 and the Nordic-Baltic 8++ (Belgium, Canada, Denmark, Estonia, European Union, Finland, France, Germany, Iceland, Italy, Japan, Latvia, Lithuania, Netherlands, Norway, Poland, Sweden and the United Kingdom) released a joint statement committing to enhance cooperation and advance efforts on disrupting and deterring global shadow fleet activity.²⁹⁰⁵ Members further reaffirmed their commitment to upholding international law such as the UN Convention on the Law of the Sea and acting in accordance with International Maritime Organization and International Labour Organization conventions and resolutions.

On 17 October 2025, the G7 Development Ministers convened on the peripheries of the annual World Bank Group and International Monetary Fund meetings in Washington D.C. to identify opportunities for further collaboration within the G7.²⁹⁰⁶ The Ministers also underscored the importance of reforms to multilateral

institutions focus on institutional performance and outcomes such as “structural realignment, mandate streamlining, and enhanced efficiency.”

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).²⁹⁰⁷ The report underscores France’s commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 23 October 2025, the Ministers and high representatives of Armenia, Australia, Belgium, Canada, Chile, Colombia, Cyprus, Dominican Republic, Estonia, France, Germany, Iceland, Ireland, Kosovo, Latvia, Liberia, Lithuania, Luxembourg, Mexico, Moldova, the Netherlands, North Macedonia, Norway, Portugal, Rwanda, Slovenia, Spain, Thailand, Ukraine, United Kingdom, Uruguay participated at the 4th Ministerial Conference on Feminist Foreign Policies.²⁹⁰⁸ The Joint Declaration demonstrates France’s commitment to upholding the Universal Declaration of Human Rights, UN principles and the UNSC Resolution 1325 (Women, Peace and Security agenda), advancing institutional reform of the UN and strengthening multilateral engagement.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of Korea’s cyber and information technology activities that violate UNSCRs.²⁹⁰⁹ The report underscores France’s commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

France has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. France has taken moderate action in reforming a UN body through verbal affirmation and satisfying the criteria of representativeness and effectiveness. However, it has not taken strong action to reform an international organization and satisfied the criteria of transparency and accountability.

Thus, France receives a score of 0.

²⁹⁰⁹ Multilateral Sanctions Monitoring Team (MSMT): Joint Statement on the Report Covering DPRK Cyber and IT Worker Activities, Federal Foreign Office (Brussels) 4 November 2025. Access Date: 7 November 2025. <https://www.auswaertiges-amt.de/en/newsroom/news/2741814-2741814>

where members reaffirmed their commitment to maintaining channels of communication to “to manage and mitigate risk, prevent escalation and build trust and confidence” and align with the principles of transparency at the OSCE Ministerial Council.²⁹¹⁰

On 29 January 2025, Germany joined the Working Group on the Joint Inspection Unit (JIU) Report on the Governance and Oversight of the Executive Boards of the United Nations Development Programme (UNDP), United Nations Population Fund (UNFPA), United Nations Office for Project Services (UNOPS), United Nations Children’s Fund (UNICEF) and UN-Women (JIU/REP/2023/7) tasked with reviewing the JIU’s recommendations and developing actionable implementation strategies on strengthening governance, oversight and risk management across participating Executive Boards.²⁹¹¹

On 29 January 2025, the Federal Foreign Office published an article, reaffirming the need to reform the UN Security Council (UNSC) to ensure it reflects the current geopolitical context.²⁹¹² The article also highlighted how Germany has been coordinating with the G4 to demand comprehensive reform, such as adding six new permanent and four or five non-permanent members and changing existing working methods more broadly.

On 16 February 2025, Development Minister Svenja Schulze launched an international initiative to support the United Nations Development System at the Munich Security Conference.²⁹¹³ The initiative aims to strengthen multilateralism broadly and support the development work at the UN in response to recent financial cuts and major donor withdrawals.

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers’ Declaration on Maritime Security and Prosperity.²⁹¹⁴ The ministers reaffirmed the G7’s commitment to “a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources.” The ministers also reiterated their commitment to tackling the “Emerging Threat on Safe Seas and Freedom of Navigation and Overflight,” “Safe Shipping and Supply Chain Security,” “Sustainable Stewardship of Maritime Resources” and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7 support for “Ukraine’s long-term prosperity and security,” “Regional peace and stability in the Middle East,” “Cooperation to increase security and resilience across the Indo-Pacific,” “Building stability and resilience in Haiti and Venezuela,” “Supporting lasting peace in Sudan and the Democratic Republic of the Congo” and “Strengthening sanctions and countering hybrid warfare and sabotage.”²⁹¹⁵ The joint statement reflects the G7’s commitment to strengthening the institutional effectiveness of the G7.

On 8 April 2025, Germany hosted the Second Global Voluntary National Reviews (VNRs) workshop in partnership with the UN Department for Economic and Social Affairs (DESA) to facilitate dialogue between VNR countries and stakeholders, bolstering the institutional transparency and accountability of the UN

system.²⁹¹⁶ The initiative features peer-to-peer learning and knowledge exchange to strengthen the evidence-based national reviews of Sustainable Development Goal (SDG) progress and transparent reporting processes through stakeholder engagement.

On 7 May 2025, Germany hosted the “Second Global Workshop” for voluntary national review (VNR) countries in Berlin.²⁹¹⁷ The workshop was an opportunity for representatives from different countries to discuss and learn from each other how to best progress towards Agenda 2030, showing Germany's commitment to bolster the institutional effectiveness of the UN.

On 12 May 2025, Germany hosted the UN Peacekeeping Ministerial in Berlin, which was a forum aimed to discuss reform of UN peacekeeping to enhance the long-term effectiveness of the UN peacekeeping missions and response against current complex geopolitical challenges and conflicts.²⁹¹⁸

On 14 May 2025, Foreign Minister Johann Wadephul attended an informal meeting of NATO Foreign Affairs hosted in Türkiye to discuss defence spending and strengthen defence and deterrence strategies.²⁹¹⁹ The initiative aims to foster collaboration between NATO Foreign Ministers and increase the institutional effectiveness of NATO.

On 27 May 2025, Deputy Permanent Representative of Germany Thomas Zahneisen endorsed a transparent and inclusive process for reviewing global peace operations under the UN’s “Pact for the Future” framework at the UN General Assembly.²⁹²⁰

On 29 May 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, the United Kingdom and the United States as a part of the Multilateral Sanctions Monitoring Team issued a joint statement on unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions.²⁹²¹ The multilateral mechanism aims to monitor and report on sanction measures implemented by the United Nations. This initiative underscores ongoing to advancing the UN’s institutional effectiveness.

On 2 June 2025, Minister for Economic Cooperation and Development Reem Alabali Radovan delivered a speech at the Hamburg Sustainability Conference 2025, where she supported the UN80 initiative calling for a more effective, transparent and inclusive UN.²⁹²²

On 17 June 2025, Germany released the 2025 Voluntary National Review, which specifically called on Germany to lead in taking efforts to advance measures for comprehensive reform of international financial institutions for greater representation of countries in the Global South.²⁹²³

On 19 June 2025, Germany chaired the 2025 Peacebuilding Commission, where Minister of State at the Federal Foreign Office Serap Güler called for structurally integrating peacebuilding and peacekeeping, increasing civil society participation and enhancing institutional coherence across the UN peace structure.²⁹²⁴

On 23 June 2025, Federal Minister of Foreign Affairs Johann Wadephul attended the NATO Summit in The Hague alongside the Federal Chancellor and the Defence Minister, to discuss the crises in the Middle East, Ukraine and sanctions.²⁹²⁵ Germany committed to continuing to uphold international law and provide support and cooperation where needed.

On 30 June 2025, the G7 Foreign Ministers, including Germany, released a statement endorsing the ceasefire between Israel and Iran and condemning Iran for their use of nuclear weapons under the International Atomic Energy Agency (IAEA).²⁹²⁶ This supports Germany's commitment to upholding the roles of international organizations and international law.

On 22 July 2025, Deputy Permanent Representative of Germany Thomas Zahneisen called for the strengthening of the UN Charter so that it may continue to promote international peace and security through multilateralism and the peaceful settlement of disputes at the UNSC Open Debate.²⁹²⁷

On 22 July 2025, members of the German government presented Germany's "Third VNR" at the UN.²⁹²⁸ Parliamentary State Secretary at the Federal Development Ministry Dr. Bärbel Kofler reiterated Germany's commitment to multilateralism and cooperation at the UN to meet the 2030 Agenda and create a sustainable future for the world.

On 8 August 2025, Germany, along with G7 members in the G7 Rapid Response Mechanism (RRM), released a statement following the Hong Kong Arrest Warrants.²⁹²⁹ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 22 September 2025, Foreign Minister Johann Wadephul reiterated Germany's commitment to the rules-based international order and bolstering the institutional effectiveness of the UN at the UN General Debate.²⁹³⁰ Minister Wadephul also stated that Germany will again apply for a non-permanent seat on the UNSC for the 2027/28 term to shoulder additional responsibility.

On 22 September 2025, Development Minister Reem Alabali Radovan participated in the UNGA and conference for a two-state solution where she reiterated Germany's commitment to facilitating the UN reform process.²⁹³¹ Minister Alabali Radovan highlighted Germany's support for the UN80 reform agenda through a series of development-related reforms initiated by the Federal Ministry for Economic Cooperation and Development (BMZ).

On 23 September 2025, Germany, together with the other G7 countries' foreign ministers, issued a joint statement recognizing the fundamental need for UN reform and expressing willingness to participate in the process.²⁹³²

On 25 September 2025, Minister Wadephul issued a joint statement with Brazil, India and Japan on the prospects of the UNSC reform in the G4 countries meeting, including improving the representation of the underrepresented and unrepresented regions and groups and implementing the UN80 process.²⁹³³

On 28 September 2025, Germany called for UNSC reform via the increase of the number of permanent and non-permanent seats to underrepresented regions, such as Africa, Asia and Latin America and supported the implementation of the UN80 process, which echoes its previous joint statement with other G4 countries.²⁹³⁴

On 1 October 2025, the G7 Foreign Ministers and the High Representative of the European Union released a statement in support of the reimposition of UNSC sanctions and restrictions against Iran due to the government's failure to meet requirements under the Joint Comprehensive Plan of Action (JCPOA).²⁹³⁵ This demonstrates the ministers' commitment to bolstering the institutional effectiveness of the UN.

On 8 October 2025, members of the G7 and the Nordic-Baltic 8++ (Belgium, Canada, Denmark, Estonia, European Union, Finland, France, Germany, Iceland, Italy, Japan, Latvia, Lithuania, Netherlands, Norway, Poland, Sweden and the United Kingdom) released a joint statement committing to enhance cooperation and advance efforts on disrupting and deterring global shadow fleet activity.²⁹³⁶ Members further reaffirmed their commitment to upholding international law such as the UN Convention on the Law of the Sea and acting in accordance with International Maritime Organization and International Labour Organization conventions and resolutions.

²⁹³⁶ Joint statement: Shadow Fleet Task Force, Global Affairs Canada (Ottawa) 10 October 2025. Access Date: 28 October 2025. <https://www.canada.ca/en/global-affairs/news/2025/10/joint-statement-shadow-fleet-task-force.html>

On 17 October 2025, the G7 Development Ministers convened on the peripheries of the annual World Bank Group and International Monetary Fund meetings in Washington D.C. to identify opportunities for further collaboration within the G7.²⁹³⁷ The Ministers also underscored the importance of reforms to multilateral institutions focus on institutional performance and outcomes such as “structural realignment, mandate streamlining, and enhanced efficiency.”

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).²⁹³⁸ The report underscores Germany’s commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 23 October 2025, the Ministers and high representatives of Armenia, Australia, Belgium, Canada, Chile, Colombia, Cyprus, Dominican Republic, Estonia, France, Germany, Iceland, Ireland, Kosovo, Latvia, Liberia, Lithuania, Luxembourg, Mexico, Moldova, the Netherlands, North Macedonia, Norway, Portugal, Rwanda, Slovenia, Spain, Thailand, Ukraine, United Kingdom, Uruguay participated at the 4th Ministerial Conference on Feminist Foreign Policies.²⁹³⁹ The Joint Declaration demonstrates Germany’s commitment to upholding the Universal Declaration of Human Rights, UN principles and the UNSC Resolution 1325 (Women, Peace and Security agenda), advancing institutional reform of the UN and strengthening multilateral engagement.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of Korea’s cyber and information technology activities that violate UNSCRs.²⁹⁴⁰ The report underscores Germany’s commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

Germany has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Germany has taken moderate action in reforming a UN body through verbal affirmations to bolster institutional representativeness and effectiveness. However, it has not taken strong action to reform an international organization or satisfied the criteria of institutional transparency and accountability.

Thus, Germany receives a score of 0.

India: 0

India has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 28 November 2024, Minister of External Affairs Subrahmanyam Jaishankar reaffirmed India's engagement in the ongoing Inter-Governmental Negotiations (IGN) towards United Nations Security Council (UNSC) reforms, as well as collaborating with other countries in the G-4 and L.69 Groups to expand representation of countries in the UNSC.²⁹⁴¹

On 20 December 2024, Minister of State Shri Kirti Vardhan Singh reinforced Minister of External Affairs Jaishankar's statement and reiterated that India's top priority was to gain permanent membership in the reformed and expanded UNSC.²⁹⁴²

On 23 December 2024, Minister of External Affairs Jaishankar called for UN reform amid persisting conflicts in his address during the 79th session of the UN General Assembly.²⁹⁴³

On 7 February 2025, External Affairs Minister S Jaishankar and Greek Minister of Foreign Affairs George Gerapetritis reaffirmed their commitment to the United Nations Convention on the Law of the Sea (UNCLOS).²⁹⁴⁴ This reflects India's commitment to strengthening the institutional effectiveness of the UN with respect to sovereignty, maritime security and territorial integrity.

On 19 February 2025, India's Permanent Ambassador to the United Nations Parvathaneni Harish condemned nations that opposed the expansion of UNSC permanent seats.²⁹⁴⁵ Ambassador Harish also outlined three fundamental principles essential to the success of UNSC reform: increase in membership of both permanent and non-permanent categories, as well as the commencement of text-based negotiations and linking ambitious timelines with concrete outcomes.

On 23 February 2025, the Ministry of External Affairs in partnership with the Ministry of Defence and the Centre for United Nations Peacekeeping held the first Conference for Women Peacekeepers, "Women in Peacekeeping – A Global South Perspective."²⁹⁴⁶ This initiative reflects India's commitment to fostering dialogue between relevant stakeholders and bolstering institutional representativeness in the defence and peacekeeping sector.

On 25 February 2025, the government of India in partnership with the United Nations Office for Disarmament Affairs (UNODA) organized the first India-UNODA Capacity Building Programme on the UNSC Resolution

1540 and Strategic Trade Controls for countries in the Asia-Pacific.²⁹⁴⁷ The programme featured 24 government experts and speakers sharing best practices and implementation processes for UNSC Resolution 1540 and Strategic Trade Controls. This initiative reflects India's commitment to bolstering the institutional effectiveness of global non-proliferation efforts.

On 27 February 2025, Ambassador Harish called for UNSC reform during the IGN Plenary and outlined five actions the UNSC should take to improve institutional representation, effectiveness and transparency.²⁹⁴⁸ They include engagement with the wider membership of the UN through a discussion on the Report of the Security Council in the General Assembly, increasing transparency in the working of the subsidiary bodies of the council, implementing peacekeeping mandates that factor in the concerns of the troop and police contributing countries, removing obsolete and irrelevant items from the agenda of the UNSC and considering reform in its entirety rather than in isolation.

On 4 April 2025, Ambassador Harish reaffirmed India's active participation in multilateral processes that address the impact of artificial intelligence (AI) on international security during the UNSC Meeting on "Harnessing Safe, Inclusive, Trustworthy AI for Maintenance of International Peace and Security."²⁹⁴⁹ These include the Disarmament Commission, the Convention on Certain Conventional Weapons, Group of Governmental Experts on Lethal Autonomous Weapons Systems, UN General Assembly mandated Working Groups on Outer Space and on Information and Communication Technologies and under Biological Weapons Convention, Chemical Weapons Convention and non-proliferation export control regimes.

On 15 April 2025, Ambassador Harish delivered a statement on behalf of the G4 during the IGN Meeting on Size of the Future Council and cluster discussion on Regional Representation, calling for an increase of UNSC membership to 25 or 26 with 11 permanent and 14 or 15 non-permanent members, with particular consideration given to Small Island Developing States in the non-permanent category.²⁹⁵⁰

On 30 April 2025, Ambassador K.D. Dewal reiterated the importance of multilateral cooperation in the United Nations and other international institutions including BRICS, the Global Counter Terrorism Forum and Financial Action Task Force in countering terrorism at the 4th Meeting of the India-Egypt Working Group on Counter Terrorism.²⁹⁵¹ Both India and Egypt's delegations underscored their commitment to the adoption of the UN Comprehensive Convention on International Terrorism to bolster cooperation and capacity building efforts of institutions.

On 4 May 2025, Ministry of External Affairs Secretary Dammu Ravi stated that Angolan President Joao Lourenco shared India's urgent calls for UN reform, such as the expansion of UNSC membership to include voices from Africa and developing countries, particularly in the Global South.²⁹⁵²

On 28 May 2025, the Ministry of External Affairs released their address at the Africa Day Celebrations, where the government pledged their support to reforming the UNSC and increasing representation of African countries in global governance institutions.²⁹⁵³

On 16 June 2025, Prime Minister Shri Narendra Modi met with the President of the Republic of Cyprus, H.E. Mr. Nikos Christodoulides, where both leaders reasserted their dedication to multilateralism and reforming global governance institutions, including the UNSC, to be more representative through the Intergovernmental Negotiations on UNSC reform.²⁹⁵⁴

On 18 June 2025, Prime Minister Modi spoke with the Prime Minister of the Republic of Croatia, H.E. Mr. Andrej Plenkovic, in Zagreb about the importance of reforming the UN and other global institutions.²⁹⁵⁵

On 30 June 2025, Minister of External Affairs Jaishankar spoke about India's commitment to collaborating with the G4 members to reform the UNSC in a Special Briefing before Prime Minister Modi visited Ghana, Trinidad & Tobago, Argentina, Brazil and Namibia.²⁹⁵⁶

On 6 July 2025, Secretary Ravi gave a briefing about Prime Minister Modi's participation in the 17th BRICS Summit, where he emphasized the need for comprehensive reform of the UNSC, IMF, World Bank and the WTO, to ensure it remains effective and inclusive against contemporary challenges.²⁹⁵⁷ Prime Minister Modi also reiterated India's commitment to reform the UNSC.

On 24 July 2025, Prime Minister Modi and UK Prime Minister Keir Starmer reiterated their support towards the international order, emphasizing the importance of multilateralism to endorse reform of the UN system.²⁹⁵⁸ They stated the importance of supporting institutions such as the UNSC, the WTO, World Health Organization (WHO), International Monetary Fund (IMF) and the World Bank to advance their effectiveness in the contemporary geopolitical landscape.

On 31 August 2025, Prime Minister Modi traveled to the People's Republic of China to meet President Xi Jinping on the sidelines of the annual summit of the Shanghai Cooperation Organization.²⁹⁵⁹ The leaders affirmed a bilateral partnership between the countries and a mutual advocacy for multilateralism and growing international space for developing countries.

²⁹⁶⁷ Prime Minister's participation in the 22nd ASEAN-India Summit in Kuala Lumpur, Ministry of External Affairs Government of India (New Delhi) 26 October 2025. Access Date: 29 October 2025. https://www.mea.gov.in/press-releases.htm?dtl/40231/Prime_Ministers_participation_in_the_22nd_ASEANIndia_Summit_in_Kuala_Lumpur

India has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. India has taken moderate action in reforming global institutions such as the UNSC through verbal affirmations under the two key criteria of being representative and effective. However, it has not taken strong action to reform institutional transparency and accountability.

Thus, India receives a score of 0.

Analyst: Aditi Malhotra

Indonesia: 0

Indonesia has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 19 December 2024, Indonesia voted in favour of a resolution on the “Request for an advisory opinion of the internal Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States.”²⁹⁶⁸ This demonstrates Indonesia’s commitment to bolstering the institutional effectiveness of the UN.

On 21 February 2025, Deputy Foreign Minister Arrmanatha Nasir, during the G20 Foreign Ministers’ Meeting in Johannesburg, South Africa, highlighted critical issues in current global governance, emphasizing the erosion of multilateralism and calling upon G20 members to support concrete actions toward institutional reform.²⁹⁶⁹ Minister Nasir advocated for the G20’s increased active role in promoting comprehensive reforms within global institutions, endorsing the UN Future Pact as a practical step forward.

On 23 February 2025, Deputy Minister Nasir reinforced Indonesia’s position in a separate address, calling for reforms focused on inclusiveness, equality, solidarity and strengthened partnerships between the G20, the United Nations and other international organizations.²⁹⁷⁰ This reinforced Indonesia’s stance in urging comprehensive and equitable institutional reform to ensure global governance institutions remain effective and legitimate.

On 21 April 2025, Deputy Minister Nasir addressed the 81st session of the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP) in Bangkok, Thailand.²⁹⁷¹ He emphasized the need for a renewed and reformed global governance architecture that empowers the Global South and its 21st-century dynamic. He reaffirmed Indonesia’s support for multilateralism rooted in the principles of the UN Charter and international law, calling attention to the continued imbalance in access to global decision-making spaces and financial systems.

²⁹⁶⁸ Request for an advisory opinion of the International Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States – GA draft Resolution (A/79/L.28/Rev.1) – Revised (Adopted on 19 Dec 2024), United Nations General Assembly (New York) 12 December 2024. On 21 April 2025, Foreign Minister Sugiono reaffirmed Indonesia's commitment to closely cooperating with international organizations such as BRICS, the G20 and the United Nations to enhance global collaboration and multilateralism at the 1st Joint Foreign and Defence Ministerial Dialogue with Chinese Foreign Minister Wang Yi and Chinese Defence Minister Dong Jun.²⁹⁷²

On 25 April 2025, Finance Minister Sri Mulyani Indrawati participated in bilateral discussions with US Treasury Secretary Scott Bessent during the Spring Meetings of the International Monetary Fund and World Bank in Washington D.C.²⁹⁷³ The meeting focused on the future of multilateral trade and financial institutions, with particular attention to proposed reforms at the World Trade Organization. Minister Indrawati advocated for reforms that prioritize developmental equity, capacity-building and inclusive representation.

On 2 May 2025, Minister Sugiono reaffirmed Indonesia's commitment to enhance collaboration in the Association of Southeast Asian Nations on regional and global issues including Myanmar, human trafficking and energy security at a joint press conference of the 10th Joint Commission Meeting Indonesia-Thailand.²⁹⁷⁴

On 22 June 2025, Minister Sugiono requested that the Organization of Islamic Cooperation (OIC) to strengthen its support towards efforts in reforming multilateral institutions and creating a more inclusive and fair international order.²⁹⁷⁵

On 6 July 2025, President Prabowo Subianto attended the plenary meetings of the BRICS 2025 Summit and discussed with the member and partner country leaders about global governance reform.²⁹⁷⁶

On 6 July 2025, Deputy Minister Nasir relayed the inevitability of global institutional reform and President Prabowo's urge for reform in the UN to better represent the Global South at the 17th BRICS Summit in Rio de Janeiro, Brazil.²⁹⁷⁷

On 6 July 2025, Indonesia, as a member of BRICS, adopted the Rio Declaration to reaffirm its commitment towards multilateralism and global governance under Brazil's leadership.²⁹⁷⁸ This declaration called for the increased representation of developing countries as well as the reformation of the UNSC to improve inclusivity, equality and transparency.

On 9 July 2025, President Subianto met with Brazilian President Luiz Inácio Lula da Silva, supporting Brazil's efforts to reform the UN and advocating for increased representation of developing nations in the global

²⁹⁹³ Indonesia urges stronger ASEAN-UN alliance for global stability, Antara News (Jakarta) 28 October 2025. Access Date: 29 October 2025. <https://en.antaranews.com/news/388425/indonesia-urges-stronger-asean-un-alliance-for-global-stability>

Taiwan, Thailand, the United States and Vietnam released the APEC Leaders' Declaration 2025.²⁹⁹⁴ Leaders reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

Indonesia has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Indonesia has taken moderate action in reforming global institutions by verbally affirming reform for the two key criteria of representation and effectiveness. However, it has not taken strong action such as directly contributing to reform meetings or amending organizational processes to bolster institutional accountability.

Thus, Indonesia receives a score of 0.

Italy: 0

Italy has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 5 December 2024, Undersecretary of State to the Ministry of Foreign Affairs and International Cooperation Giorgio Silli attended the 31st Ministerial Council of the Organisation for Security and Co-operation in Europe (OSCE) where he reaffirmed Italy's commitment to "safeguarding the OSCE," the organization's values and principles, as well as initiatives in maintaining Europe's security order.²⁹⁹⁵

On 6 December 2024, North Atlantic Treaty Organization allies including Italy released a joint statement to the Organization for Security and Co-operation in Europe (OSCE) on Russia's invasion of Ukraine where members reaffirmed their commitment to maintaining channels of communication to "to manage and mitigate risk, prevent escalation and build trust and confidence" and align with the principles of transparency at the OSCE Ministerial Council.²⁹⁹⁶

On 15 January 2025, Permanent Representative of Italy to the UN Maurizio Massari reiterated Italy's commitment to advancing the work of the UN including the Pact for the Future and the Global Digital Compact and upholding the UN Charter amid ongoing global security threats at the UNGA Plenary.²⁹⁹⁷

On 29 January 2025, Undersecretary of State to the Ministry of Foreign Affairs Giorgio Silli visited Mexico and discussed collaboration within reform of the UN Security Council (UNSC) with Mexican Undersecretary of Multilateral Affairs and Human Rights, Enrique Javier Ochoa Martínez.²⁹⁹⁸

On 25 February 2025, Italy reaffirmed its commitment to the universal abolition of the death penalty at the United Nations Human Rights Council (UNHRC) Biennial High-Level Panel on the Death Penalty.²⁹⁹⁹ This demonstrates Italy's commitment to bolstering the institutional effectiveness of the UN, as well as international legal systems, human rights-centre penal reforms and advancing human rights and accountability in sentencing processes.

On 10 March 2025, Ambassador Massari and the Italian delegation participated in the 69th Commission on the Status of Women (CSW69) where Italy led events related to “women, peace and security” and “youth, peace and security” in partnership with several UN organizations.³⁰⁰⁰

On 12 March 2025, Undersecretary Silli co-chaired the third session of the Political Dialogue Mechanism with El Salvadoran Deputy Minister of Foreign Affairs Adriana Mira, where they discussed development cooperation, regional issues and UNSC reform.³⁰⁰¹

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers' Declaration on Maritime Security and Prosperity.³⁰⁰² The ministers reaffirmed the G7's commitment to “a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources.” The ministers also reiterated their commitment to tackling the “Emerging Threat on Safe Seas and Freedom of Navigation and Overflight,” “Safe Shipping and Supply Chain Security,” “Sustainable Stewardship of Maritime Resources” and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7 support for “Ukraine's long-term prosperity and security,” “Regional peace and stability in the Middle East,” “Cooperation to increase security and resilience across the Indo-Pacific,” “Building stability and resilience in Haiti and Venezuela,” “Supporting lasting peace in Sudan and the Democratic Republic of the Congo” and “Strengthening sanctions and countering hybrid warfare and sabotage.”³⁰⁰³ The joint statement reflects the G7's commitment to strengthening the institutional effectiveness of the G7.

On 18 March 2025, Ambassador Maurizio Massari on behalf of the Uniting for Consensus (UfC) Group presented a proposal for the reform of the UNSC to facilitate equitable representation and increase in membership to the Council.³⁰⁰⁴ The document proposes expanding the non-permanent category, introducing longer-term re-electable non-permanent seats, prioritizing equitable geographical distribution for underrepresented regional groups, creating special arrangements for cross-regional groups, increasing the

number of affirmative votes for UNSC decisions, abolishing the veto and formalizing rules of procedure and working methods.

On 2 May 2025, Italy reaffirmed that the protection and promotion of human rights to be at the core of its foreign policy objectives during its candidature for the Human Rights Council.³⁰⁰⁵ This demonstrates Italy's commitment to bolstering the institutional effectiveness of the UN.

On 12 May 2025, the Permanent Mission of Italy to the UN, the UN Department of Economic and Social Affairs (UN DESA) and the International Development Law Organization (IDLO) hosted the SDG16 Conference on "Advancing Peace, Justice and Institutions for Sustainable Development."³⁰⁰⁶ This initiative aims to strengthen the transparency and accountability of institutions and support intergovernmental processes.³⁰⁰⁷

On 14 May 2025, Italy reaffirmed its support and role in peacekeeping missions, also providing EUR100,000 for the UN Triangular Partnership Programme during the Berlin Peacekeeping Ministerial.³⁰⁰⁸

On 29 May 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, the United Kingdom and the United States as a part of the Multilateral Sanctions Monitoring Team issued a joint statement on unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions.³⁰⁰⁹ The multilateral mechanism aims to monitor and report on sanction measures implemented by the United Nations. This initiative underscores ongoing to advancing the UN's institutional effectiveness.

On 17 June 2025, Prime Minister Giorgia Meloni met with the Secretary-General of the UN, António Guterres, to discuss the UN80 initiative, which aims to reform the UN to increase the UN system's effectiveness.³⁰¹⁰

On 25 June 2025, Prime Minister Meloni gave an address about the ongoing efforts to ensure a ceasefire between Israel and Iran, as well as in Ukraine, emphasizing the North Atlantic Treaty Organization (NATO) Summit's support for Ukraine.³⁰¹¹ This aligns with Italy's commitment towards upholding multilateralism and using cooperation to solve ongoing crises.³⁰¹²

On 26 June 2025, Undersecretary Silli attended the 55th General Assembly of the Organization of American States (OAS) and in his address, Undersecretary Silli emphasized Italy's commitment towards working with

countries in Latin America and the Caribbean for security and trade relations.³⁰¹³ This action aligns with Italy's commitment to advocating for multilateralism.

On 30 June 2025, the G7 Foreign Ministers, including Italy, released a statement endorsing the ceasefire between Israel and Iran and condemning Iran for their use of nuclear weapons under the International Atomic Energy Agency (IAEA).³⁰¹⁴ This supports Italy's commitment to upholding the roles of international organizations and international law.

On 28 July 2025, Italy and Indonesia co-chaired the working group, "Security for Israelis and Palestinians," during the UN "High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution."³⁰¹⁵ The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates Italy's commitment to bolstering the institutional effectiveness of the UN.

On 8 August 2025, Italy, along with G7 members in the G7 Rapid Response Mechanism (RRM), released a statement following the Hong Kong Arrest Warrants.³⁰¹⁶ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 23 September 2025, Italy, together with the other G7 countries' foreign ministers, issued a joint statement recognizing the fundamental need for UN reform and expressing willingness to participate in the process.³⁰¹⁷

On 25 September 2025, Prime Minister Meloni necessitated reform of the United Nations and its related organizations for better transparency and cost during an address at the 80th session of the UN General Assembly.³⁰¹⁸

On 1 October 2025, the G7 Foreign Ministers and the High Representative of the European Union released a statement in support of the reimposition of UNSC sanctions and restrictions against Iran due to the government's failure to meet requirements under the Joint Comprehensive Plan of Action (JCPOA).³⁰¹⁹ This demonstrates the ministers' commitment to bolstering the institutional effectiveness of the UN.

On 8 October 2025, members of the G7 and the Nordic-Baltic 8++ (Belgium, Canada, Denmark, Estonia, European Union, Finland, France, Germany, Iceland, Italy, Japan, Latvia, Lithuania, Netherlands, Norway, Poland, Sweden and the United Kingdom) released a joint statement committing to enhance cooperation and

advance efforts on disrupting and deterring global shadow fleet activity.³⁰²⁰ Members further reaffirmed their commitment to upholding international law such as the UN Convention on the Law of the Sea and acting in accordance with International Maritime Organization and International Labour Organization conventions and resolutions.

On 17 October 2025, the G7 Development Ministers convened on the peripheries of the annual World Bank Group and International Monetary Fund meetings in Washington D.C. to identify opportunities for further collaboration within the G7.³⁰²¹ The Ministers also underscored the importance of reforms to multilateral institutions focus on institutional performance and outcomes such as “structural realignment, mandate streamlining, and enhanced efficiency.”

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).³⁰²² The report underscores Italy’s commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 24 October 2025, President Mattarella reiterated Italy’s commitment to bolstering the institutional capacity of the UN in its ability to tackle contemporary crises and challenges, supporting the UN80 initiative and calling for the reform of the UNSC to make it more representative, accountable and effective.³⁰²³ In accordance with Article 11 of its Constitution, Italy embraces the core values of the UN Charter as articulated in the three pillars of peace, development and the protection of human rights.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of Korea’s cyber and information technology activities that violate UNSCRs.³⁰²⁴ The report underscores Germany’s commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

Italy has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. It has taken moderate action in reforming UN bodies such as the UNSC by verbally affirming reform for the two key criteria of representation and effectiveness. However, it has not taken strong action to reform both a UN body and other relevant international organizations or advance institutional transparency and accountability.

Thus, Italy receives a score of 0.

Japan: +1

Japan has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 22 November 2024, Minister of Foreign Affairs Iwaya Takeshi reaffirmed Japan's support for UN peacekeeping operations during a meeting with the Under-Secretary-General for Peace Operations at the UN Jean-Pierre Lacroix.³⁰²⁵ This demonstrates Japan's commitment to supporting the institutional effectiveness of the UN and the UN Triangular Partnership Programme.

On 26 November 2024, Minister Iwaya attended the G7 Foreign Ministers' Meeting and session on the "Indo-Pacific and Regional Issues" where he reiterated Japan's commitment to cooperating with G7 members to uphold "free and open international order based on the Rule of Law."³⁰²⁶ This demonstrates Japan's commitment to bolstering the institutional effectiveness of the G7.

On 11 December 2024, Japan, Uruguay and the United Kingdom co-hosted the UN Peacekeeping Ministerial Preparatory Meeting.³⁰²⁷ The meeting facilitated discussions between government officials from over 60 countries, experts, universities and research institutes on capacity-building in Peacekeeping and bolstering the capacities of peacekeepers under the Triangular Partnership Programme. This provided opportunities to bolster the institutional effectiveness and representativeness of the UN.

On 13 December 2024, State Minister for Foreign Affairs Miyaji Takuma held a meeting with Assistant Secretary General of Foreign and Community Relations from the Caribbean Community (CARICOM) Secretariat.³⁰²⁸ Minister Miyagi reaffirmed Japan's commitment to strengthening Japan-CARICOM relations to overcome sustainable development vulnerabilities and continue exchanging dialogue on various international issues.

On 14 December 2024, Minister Iwaya held and co-chaired the Eighth Japan-CARICOM Ministerial-Level Conference.³⁰²⁹ Minister Iwaya reaffirmed Japan's commitment to continued cooperation towards supporting sustainable development and addressing vulnerabilities in the areas of "maritime issues, disaster risk reduction, climate change, and human security."

On 14 December 2024, Director-General of the International Cooperation Bureau from the Ministry of Foreign Affairs of Japan Ishizuki Hideo and Head of the United Nations Industrial Development Organization, Investment and Technology Promotion Office Adachi Fumio signed Japan's grant of JPY730 million for "The

Project for Industrial Development and Technology Transfer in the Member States of the Caribbean Community” following the Japan-CARICOM Foreign Ministers’ Meeting.³⁰³⁰

On 16 December 2024, Senior Deputy Minister of Foreign Affairs Akahori Takeshi committed to strengthening strategic cooperation with the United Nations Development Programme (UNDP) during a meeting with the Administrator of the UNDP Achim Steiner.³⁰³¹

On 16 December 2024, Minister Iwaya committed to further strengthening collaboration with the UNDP and underscored UNDP efforts in facilitating private sector partnership for market development.³⁰³²

On 18 December 2024, Minister Iwaya committed to strengthening Japan’s relationship with the Association of Southeast Asian Nations during a meeting with the Secretary-General of the Kao Kim Hourn.³⁰³³

On 18 December 2024, Minister Iwaya reiterated Japan’s commitment to supporting the International Criminal Court (ICC) and stated the importance of ICC autonomy to fulfill its function as an independent body and strengthen the rule of law during a meeting with President of the ICC Akane Tomoko.³⁰³⁴

On 1 January 2025, Japan and Norway assumed the positions of Co-Chairs for the Women, Peace and Security (WPS) Focal Points Network for a one-year term.³⁰³⁵ The Co-Chairs aim to host several convenings under the theme of “Deepening WPS Commitments for Action: Innovating and adapting to deliver on peace and security.” These initiatives align with the three key priority areas of “Significance of the Development and Implementation of National and Regional Action Plans,” “The role of Women in Peace Mediation and Peacebuilding, and as Human Rights Defenders” and “Further Elaboration of the WPS Agenda, Including Advancing Its Application to Disaster Risk Reduction.” This partnership demonstrates Japan’s commitment to advancing institutional effectiveness and the WPS agenda.

On 14 January 2025, Parliamentary Vice-Minister for Foreign Affairs Eri Arfiya reiterated Japan’s commitment to strengthening cooperation with the UNDP and committed to promoting cooperation efforts focussed on “human dignity, human security in the field of development, and the Humanitarian, Development and Peace Nexus” during a meeting with the Director of the Crisis Bureau of the UNDP.³⁰³⁶

On 16 January 2025, Vice-Minister Eri attended the Organisation for Economic Co-operation and Development (OECD)-Southeast Asia High-Level Panel Discussion in Tokyo.³⁰³⁷ Minister Eri reiterated the

³⁰³⁷ Parliamentary Vice-Minister ERI’s attendance at the OECD – Southeast Asia High-Level Panel Discussion in Tokyo, Ministry of Foreign Affairs of Japan (Tokyo) 16 January 2025. Access Date: 14 June 2025. https://www.mofa.go.jp/press/release/pressite_000001_00925.html

importance of strengthening collaboration between the OECD and Southeast Asia to facilitate development efforts in the region.

On 16 January 2025, Japan held the 18th Japan-North Atlantic Treaty Organization (NATO) High-Level Consultation where both the Japanese and NATO delegation reaffirmed their commitment to strengthen their working relationship.³⁰³⁸

On 17 January 2025, Minister Miyaji reiterated Japan's commitment to resolve development issues between International Atomic Energy Agency (IAEA) member states.³⁰³⁹ He further expressed his commitment to continue cooperation with the IAEA and IAEA Governors.

On 24 January 2025, State Minister for Foreign Affairs Fujii Hisayuki attended the informal ministerial gathering of the World Trade Organization (WTO).³⁰⁴⁰ Minister Fujii underscored the importance of strengthening the WTO system and the dispute settlement reform. Further, he exchanged views with the Deputy Prime Minister and Minister for Trade and Industry of Singapore Gan Kim Yong and the Ambassador and Permanent Representative of the Commonwealth of Australia to the WTO James Baxter on progress for the WTO Electronic Commerce Negotiations. Japan's participation in the Ministerial Gathering demonstrates its commitment to advancing the institutional effectiveness of the WTO.

On 31 January 2025, Minister Iwaya held a meeting with President of the 79th session of the UN General Assembly (UNGA) Philemon Yang.³⁰⁴¹ Minister Iwaya acknowledged progress on United Nations Security Council (UNSC) reform and discussed the revitalization of UNGA. Further, Minister Iwaya underscored the need for the UN to leverage its position to facilitate reconciliation and collaboration amongst increasingly fragmented international community members.

On 3 February 2025, Minister Fujii held a meeting with President of the 79th session of UNGA Philemon Yang.³⁰⁴² Minister Fujii underscored the importance of cooperation and dialogue to resolve international disputes. In addition, he highlighted the significance of "upholding the principles of the UN Charter" and "strengthening multilateralism with the UN at its core."

On 3 February 2025, Japan held the Japan-NATO Conference on Strategic Communications with attendees including officials from the Government of Japan, NATO, Indo-Pacific partners and the EU.³⁰⁴³ The conference facilitated dialogue between participants on challenges related to disinformation and future opportunities for cooperation.

On 26 February 2025, Minister Iwaya reaffirmed Japan's commitment to supporting the integration and building of relations between the Association of Southeast Asian Nations (ASEAN) and ASEAN countries.³⁰⁵¹ Minister Iwaya underscored Japan's commitment to promoting the fundamental principles of the ASEAN Outlook on the Indo-Pacific of "openness, transparency, inclusivity, and a rules-based framework." This reflects Japan's commitment to bolstering the institutional effectiveness and representativeness of ASEAN.

On 26 February 2025, Parliamentary Vice-Minister for Foreign Affairs Ikuina Akiko attended the High-Level Segment of the UN Human Rights Council and the Geneva Conference on Disarmament.³⁰⁵² Minister Ikuina pressed for a "reinvigoration of existing disarmament institutions" and the commencement of negotiations and treaties related to disarmament and non-proliferation. Minister Ikuina also reaffirmed Japan's commitment to upholding international rules-based order in alignment with the Human Rights Council.

On 6 March 2025, Japan held the 40th ASEAN-Japan Forum where participants engaged in discussions on progress related to the "Vision and the Implementation Plan" and various regional and international issues.³⁰⁵³ This initiative reflects Japan's commitment to bolstering the institutional effectiveness and representativeness of ASEAN through promoting constructive dialogue.

On 11 March 2025, Minister Fujii met with Deputy Director-General of the World Trade Organization (WTO) Angela Ellard and discussed the urgent need for reform of the WTO.³⁰⁵⁴ Minister Fujii also pledged Japan's efforts to further collaborate with the WTO to reform and strengthen its system.

On 11 March 2025, Minister Fujii reaffirmed Japan's commitment to strengthening and reforming the WTO system on global trade during a courtesy call with the Deputy Director-General of the WTO Angela Ellard.³⁰⁵⁵

On 12 March 2025, Vice-Minister Eri reaffirmed Japan's alignment with and contribution to UN action on addressing sexual violence in conflict, public-private sector partnership for gender equality and the promotion of the WPS agenda at the 69th Session of the Commission on the Status of Women.³⁰⁵⁶ This reflects Japan's commitment to bolstering the institutional effectiveness and representativeness of the UN in advancing their agenda on women's empowerment and gender equality.

On 13 March 2025, Minister Iwaya reiterated Japan's commitment to collaborating with G7 members, stakeholders and like-minded countries on issues related to maritime security at the G7 Foreign Ministers' Meeting and session on Maritime Security and Prosperity.³⁰⁵⁷ This reflects Japan's commitment to strengthening the institutional effectiveness of the G7.

On 13 March 2025, Minister Iwaya reiterated the importance of the G7 and future collaboration to strengthen the unity of the group on issues affecting the international community at the G7 Foreign Ministers' Meeting and session on "Strengthening the G7 at 50 Years."³⁰⁵⁸

On 13 March 2025, Minister Iwaya requested "understanding and cooperation" from G7 members on North Korea's abductions issue during the G7 Foreign Ministers' Meeting and session on the Indo-Pacific.³⁰⁵⁹

On 13 March 2025, Minister Iwaya reiterated the importance of the G7 in establishing a framework for peace and security during the G7 Foreign Ministers' Meeting and session on Ukraine.³⁰⁶⁰

On 13 March 2025, Minister Iwaya reiterated Japan's position on challenges pertaining to peace and security in the Middle East at the G7 Foreign Ministers' Meeting and session on the Middle East.³⁰⁶¹ Minister Iwaya expressed that Japan aims to expand support for the reconstruction of Gaza through partnering with the Council for the East Asian Promotion for Palestinian Development, support the reconstruction and rehabilitation of Syria and continue dialogue with Iran to address its nuclear development activities. This reflects Japan's commitment to bolstering the institutional effectiveness of the G7 in its humanitarian activity in the Middle Eastern region.

On 13 March 2025, Minister Iwaya stated the importance of increasing the G7's economic presence in Latin America and the Caribbean to further foster public-private partnerships in the infrastructure sector at the G7 Foreign Ministers' Meeting and session on the Americas.³⁰⁶²

On 14 March 2025, Minister Iwaya reiterated the importance of strategic collaboration between G7 members amid contestation and confrontation on issues such as economic security and disinformation, with continued partnerships with European countries on Indo-Pacific security at the G7 Foreign Ministers' Meeting.³⁰⁶³

On 14 March 2025, Minister Iwaya stressed the importance of G7 members strengthening relations with African countries to address regional instability in countries such as the Eastern Democratic Republic of the Congo and Sudan at the G7 Foreign Ministers' Meeting and session on Africa.³⁰⁶⁴

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers' Declaration on Maritime Security and Prosperity.³⁰⁶⁵ The ministers reaffirmed the G7's commitment to "a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources." The ministers also reiterated their commitment to tackling the "Emerging Threat on Safe Seas and Freedom of Navigation and Overflight," "Safe Shipping and Supply Chain Security," "Sustainable Stewardship of Maritime Resources" and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7

³⁰⁸¹ Courtesy call on State Minister for Foreign Affairs FUJII by Ms. Kirsi Madi, Deputy Executive Director of UN Women, Ministry of Foreign Affairs of Japan (Tokyo) 22 May 2025. Access Date: 10 June 2025. https://www.mofa.go.jp/press/release/pressite_000001_01289.html

On 22 May 2025, Parliamentary Vice-Minister for Foreign Affairs Matsumoto Hisashi committed to strengthening Japan's partnership with the UNDP during a courtesy call with UNDP Assistant Administrator and Director of the Regional Bureau for Asia and the Pacific Kanni Wignaraja.³⁰⁸² This reflects Japan's commitment to upholding international rules-based order and promote the UNDP's institutional effectiveness.

On 23 May 2025, Japan held a visit by the UN Under-Secretary-General for Global Communications Melissa Fleming.³⁰⁸³ The visit involves meetings with government officials and representatives from the private sector. This initiative aims to bolster relationships between Japan and the UN in the area of strategic and digital communications on issues related to the Sustainable Development Goals, the climate crisis, public health and misinformation.

On 27 May 2025, the Japan Atomic Energy Commission in the Cabinet Office co-hosted IAEA's Lise Meitner Programme to provide development opportunities and resources for female researchers and professionals in the nuclear science and technology sector.³⁰⁸⁴ This reflects Japan's commitment to promoting the institutional representativeness of international organizations.

On 27 May 2025, Minister Iwaya held a meeting with the Commissioner-General of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) Philippe Lazzarini to highlight the important role UNRWA plays in facilitating humanitarian efforts.³⁰⁸⁵ This reflects Japan's commitment to supporting UNRWA's activities and improvements to its governance structure.

On 28 May 2025, Minister Iwaya held a bilateral meeting with Deputy Prime Minister of Cambodia Prak Sokhonn to reaffirm their commitment to cooperation in ASEAN on regional and international issues.³⁰⁸⁶

On 29 May 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, the United Kingdom and the United States as a part of the Multilateral Sanctions Monitoring Team issued a joint statement on unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions.³⁰⁸⁷ The multilateral mechanism aims to monitor and report on sanction measures implemented by the United Nations. This initiative underscores ongoing to advancing the UN's institutional effectiveness.

On 29 May 2025, Minister Iwaya reaffirmed Japan's commitment to promote WTO reform at the Nikkei Forum 30th "Future of Asia" forum.³⁰⁸⁸

On 23 July 2025, Minister Miyaji met with UN Secretary-General Guterres and expressed Japan's support for strengthening multilateralism at the UN.³¹⁰⁴ Minister Miyaji also expressed his gratitude towards the Secretary-General's efforts in undertaking UN reform through the UN80 initiative.

On 28 July 2025, Japan and Norway co-chaired the working group, "Economic Viability of the Palestinian State," during the UN "High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution."³¹⁰⁵ The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates Japan's commitment to bolstering the institutional effectiveness of the UN.

On 4 August 2025, Minister Iwaya spoke to Executive Secretary of the Comprehensive Nuclear-Test-Ban Treaty Organization (CTBTO) Robert Floyd about strengthening cooperation between Japan and the CTBTO, as well as continuing to maintain the Comprehensive Nuclear-Test-Ban Treaty (CTBT).³¹⁰⁶

On 8 August 2025, Japan, along with G7 members in the G7 Rapid Response Mechanism (RRM), released a statement following the Hong Kong Arrest Warrants.³¹⁰⁷ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 8 August 2025, Minister Iwaya spoke to Executive Director of the United Nations Institute for Training and Research (UNITAR) Michelle Gyles-McDonnough about Japan's interests in cooperating with UNITAR for human resource development.³¹⁰⁸

On 8 August 2025, Minister Iwaya reiterated Japan's support in strengthening international law and the ICC more generally during a courtesy call with the President of the ICC Judge Akane.³¹⁰⁹

On 15 August 2025, Japan announced its decision to provide an Emergency Grant of approximately USD1.8 million to address urgent humanitarian needs along the Cambodia–Thailand border.³¹¹⁰ This assistance will be delivered through the International Organization for Migration (IOM) and the United Nations Children's Fund (UNICEF), focusing on areas such as essential supplies and temporary shelter. This reaffirms Japan's commitment to multilateral institutions and to supporting efforts aimed at easing tensions between Cambodia and Thailand.

UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 27 October 2025, Foreign Minister Motegi Toshimitsu participated in the 28th ASEAN Plus Three (Japan-China-Republic of Korea) Summit.³¹²⁵ Minister Motegi highlighted the potential for further ASEAN+3 cooperation. He reiterated Japan's commitment to leading and enhancing cooperation on the ASEAN+3 Emergency Rice Reserve (APTERR) initiative, and highlighted the successes of the Japan-led Rapid Financing Facility (RFF) and the Disaster Risk Financing (DRF). Minister Motegi reaffirmed Japan's support for the ASEAN Outlook on the Indo-Pacific (AOIP) and "ASEAN Community Vision 2045."

On 28 October 2025, State Minister for Foreign Affairs Horii Iwao held a meeting with Assistant Secretary General (ASG) for Peacebuilding Support from the UN Elizabeth Spehar where he reiterated the importance for the international community to support UN peacebuilding activities including the Peacebuilding Architecture review and furthering collaboration with the ASG Spehar.³¹²⁶ They discussed opportunities to strengthen Japan's support in peacebuilding efforts and increasing the presence of Japanese representatives at the UN.

On 29 October 2025, Minister Motegi participated in the APEC Ministerial Meeting to strengthen regional collaboration on pertinent issues related to trade and investment, strengthening the institutional effectiveness of APEC.³¹²⁷

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders' Declaration 2025.³¹²⁸ Leaders reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of Korea's cyber and information technology activities that violate UNSCRs.³¹²⁹ The report underscores Germany's commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

Japan has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Japan has taken strong action to reform an international organization in its co-chairing of the WPS Focal Points Network. Further, it has taken action in facilitating dialogue and reaffirming its commitment to promoting the institutional effectiveness and representativeness of international organizations such as the UN, the G7, the WTO and the IAEA.

Korea: 0

Korea has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 26 November 2024, Minister of Foreign Affairs Cho Tae-yul attended the Indo-Pacific Outreach Session of the Second G7 Foreign Ministers' Meeting.³¹³⁰ The meeting aimed to provide a platform for dialogue on ways to strengthen Korea-G7 cooperation in foreign policy issues and maintaining rules-based international order. This demonstrates Korea's commitment to bolstering the institutional effectiveness of the G7.

On 6 December 2024, Korea hosted the final Replenishment Meeting of the International Development Association in Seoul, bringing together donor countries to finalize contributions and strategic directions for the next funding cycle.³¹³¹ By convening this high-level event, Korea demonstrated its leadership in fostering transparent and representative governance processes within the World Bank system, with an emphasis on inclusion and accountability in institutional decision-making.

On 24 January 2025, Minister of Trade Inkyo Cheong participated in the informal WTO trade ministers' meeting, where he emphasized Korea's commitment to reforming the WTO so that it is able to address rising challenges that climate change and artificial intelligence pose to trade.³¹³²

On 5 February 2025, Vice Minister of Foreign Affairs Kim Hong Kyun held a meeting with the Association of Southeast Asian Nations (ASEAN) Committee.³¹³³ Minister Kim reaffirmed Korea's commitment to "ensuring stable governance" and strengthening partnerships with ASEAN. He also reaffirmed Korea's commitment to implementing cooperation initiatives in alignment with ASEAN principles and priorities.

On 22 February 2025, Minister Cho attended the G20 Foreign Ministers' Meeting in Rio de Janeiro.³¹³⁴ The meeting focused on strengthening multilateral cooperation and institutional reform, culminating in a Call to Action on Global Governance Reform. Korea endorsed reforms to the United Nations, the World Trade Organization and International Financial Institutions to make them more representative, effective and transparent. Minister Cho reaffirmed Korea's commitment to ensuring multilateral institutions respond equitably to global challenges and give greater voice to developing countries.

On 26 February 2025, Vice Minister of Foreign Affairs Kang Insun attended the High-Level Segment of the 58th Session of United Nations Human Rights Council (UNHRC).³¹³⁵ Minister Kang presented Korea's priorities as a member of the UNHRC including supporting UN human rights mechanisms and capacity

building efforts in developing countries. This demonstrates Korea's commitment to bolstering the institutional effectiveness of the UNHRC.

On 31 March 2025, Korea released a joint statement with Japan and China following the 13th Economic and Trade Ministers' Meeting, pledging support for an inclusive and transparent WTO, through advancing efforts for comprehensive WTO reform.³¹³⁶

On 14 May 2025, Deputy Director-General for International Economic Affairs Lee Jiyeon represented Korea at the Asia-Pacific Economic Cooperation (APEC) Second Senior Officials' Meeting.³¹³⁷ The meeting aimed to provide a platform for APEC member economies to discuss areas for enhanced regional collaboration.

On 16 May 2025, the Ministry of Foreign Affairs attended the 29th ASEAN-Korea Dialogue.³¹³⁸ Deputy Minister for Political Affairs Chung Byung-won underscored the importance of strengthened relationship between ASEAN and Korea in key focus areas such as digital transformation and the environment. In addition, participants discussed various regional and global security challenges. The meeting aimed to facilitate dialogue and align on key focus areas to bolster the institutional effectiveness of ASEAN.

On 19 May 2025, under Minister Cheong, the 2025 Asia-Pacific Economic Cooperation (APEC) Ministers of Trade released a joint statement where they emphasized the importance of comprehensively reforming the WTO to reflect contemporary challenges and landscapes.³¹³⁹

On 21 May 2025, Korea attended the high-level plenary meeting organized by the UN General Assembly (UNGA) on the human rights situation in North Korea.³¹⁴⁰ Ambassador Hwang Joonkook called on UN member states to uphold the principle of non-refoulement. The meeting aimed to bolster the institutional effectiveness of the UNGA by facilitating dialogue between member states.

On 26 May 2025, Minister Kang chaired the working-level coordination meeting for the 2025 APEC Economic Leaders' Meeting.³¹⁴¹ The meeting provided an opportunity for participants from various ministries, government agencies and economic organizations to discuss follow-up implementation measures to bolster the operational capacity across key issue areas.

On 27 May 2025, Vice Minister for Strategy and Intelligence at the Ministry of Foreign Affairs Cho Koo-rae reaffirmed Korea's commitment to strengthening their partnership with the Organization for Security and Co-operation in Europe (OSCE) in countering threats to transnational security during the 3rd Inter-Regional Conference on the Impact of Emerging Technologies.³¹⁴²

On 29 May 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, the United Kingdom and the United States as a part of the Multilateral Sanctions Monitoring Team issued a joint statement on unlawful military cooperation between North Korea and Russia, in violation of United

On 23 July 2025, Korea scheduled the 'Third APEC Senior Officials' Meeting, which will be focused on finalizing pledges and collective action within the four major APEC committees.³¹⁵⁷ Korea's efforts for the APEC 2025 showcase Korea's commitment towards international dialogue and cooperation.

On 28 August 2025, the Republic of Korea provided USD30 million in humanitarian assistance to the Gaza region through the United Nations Development Programme, United Nations International Children's Emergency Fund and the World Food programme to deliver emergency food, health and shelter support to over half a million individuals affected by military conflict in the region.³¹⁵⁸ This coordinate multilateral effort reflects Korea's commitment to institutional accountability and effectiveness through transparent cooperation with UN agencies.

On 2 September 2025, Korea assumed the UNSC Presidency and committed to leading the council under the principles of "efficiency, transparency and inclusiveness" and in align with the three pillars of the UN: peace, development.³¹⁵⁹

On 4 September 2025, Korea contributed USD7 million to the World Food Programme (WFP) under the joint "Responding with Emergency Assistance for Conflict-affected Households" (REACH) project.³¹⁶⁰ The funding provides cash transfers to nearly 90,000 people and nutrition support to 30,000 malnourished children and women in Darfur, Kordofan and Khartoum regions of Sudan, where famine has been confirmed. This initiative bolsters the institutional effectiveness of the WFP.

On 5 September 2025, Korea and the WFP launched the Responding with Emergency Assistance for Conflict-affected Households project in Myanmar, supported by a USD10 million contribution from Korea.³¹⁶¹ The project provides emergency food and cash assistance to 300,000 conflict-affected people and nutrition support to 24,000 women and children. This initiative demonstrates Korea's role in reinforcing multilateral institutional accountability and effectiveness through its partnership with the WFP.

On 9 September 2025, Korea hosted an open debate on future peace operations to provide an opportunity for UN member states to provide their perspectives and engage in broad consultations on avenue for reforming UN peace operations.³¹⁶²

On 23 September 2025, President Lee Jae Myung showed Korea's support towards the UN80 initiative, called for reform of the UN and its organizations including the UNSC, proposing the increase in representation at the UNSC through the increase of non-representative seats.³¹⁶³

On 3 October 2025, Korea and Mexico reaffirmed their commitment to cooperation at the 2025 Busan Global Partnership Forum held in Korea, showing Korea's commitment towards multilateralism.³¹⁶⁴

On 16 October 2025, Deputy Minister for Multilateral and Global Affairs Kweon Ki-hwan and Minister of Foreign Affairs Cho Hyun met with UN High Commissioner for Refugees Filippo Grandi.³¹⁶⁵ The Ministers stated Korea's interest in expanding opportunities for Korean nations within the UNHCR to improve its institutional representativeness.

On 20 October 2025, Vice Minister of Foreign Affairs Kim met with UN Under-Secretary-General and Acting Administrator of the UNDP Haoliang Xu to discuss ways to advance cooperation between Korea and the UNDP.³¹⁶⁶ Vice Minister Kim reiterated Korea's commitment to the Korea-UNDP R.E.V.I.V.E initiative and the implementation of its management measures to respond to global humanitarian crises.

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).³¹⁶⁷ The report underscores Korea's commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders' Declaration 2025.³¹⁶⁸ Leaders reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of Korea's cyber and information technology activities that violate UNSCRs.³¹⁶⁹ The report underscores Germany's commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

Korea has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Korea has taken moderate action through its financial leadership, high-level diplomatic engagement and public endorsement of institutional reform agendas across the G20, G7, APEC, ASEAN and the UN. Korea has clearly demonstrated

its support for multilateralism that is representative, effective and transparent and accountable. However, Korea has not taken strong action to reform a UN body or another international organization.

Thus, Korea receives a score of 0.

Analyst: Beisen (Sam) Gao

Mexico: 0

Mexico has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 28 November 2024, Mexico chaired the General Conference of the Agency for the Prohibition of Nuclear Weapons in Latin America and the Caribbean (OPANAL).³¹⁷⁰ Mexico reiterated its commitment to upholding the United Nations Charter and the key principles underlying international humanitarian law. This demonstrates Mexico's commitment to bolstering the institutional representativeness of OPANAL through facilitating dialogue between OPANAL representatives, international organizations and civil society participants. In addition to its commitment to bolstering the institutional effectiveness of OPANAL.

On 9 December 2024, the Mexican delegation consisting of Foreign Ministry Legal Advisor Pablo Arrocha, Mexico's Ambassador to the Netherlands Carmen Moreno, Deputy Chief of Mission at the embassy Alfonso Ascencio and Legal Advisor at the embassy Patricia Pérez requested an advisory opinion on States' climate change obligations during a hearing held by the International Court of Justice (ICJ).³¹⁷¹ The Mexican delegation advocated for the ICJ to strengthen the international legal framework by incorporating a human rights and gendered lens for tackling the climate crisis. Mexico also stated the importance of accountability mechanisms when States fail to meet obligations. This demonstrates Mexico's commitment to bolstering the institutional effectiveness and transparency and accountability of the ICJ.

On 21 February 2025, Undersecretary María Teresa Mercado reaffirmed its commitment to strengthening multilateralism and underscored diplomacy and international law as the key principles of global security at the G20 Foreign Ministers' Meeting.³¹⁷²

On 31 March 2025, Mexico and France welcomed Armenia's decision to joining their effort in restricting the veto powers of the UN Security Council (UNSC).³¹⁷³ This declaration reflects Mexico's commitment to reforming the UNSC and promote effective multilateralism.

On 9 April 2025, officials from Mexican government agencies and UN representatives developed a new Mexico Sustainable Development Cooperation Framework 2026-2031.³¹⁷⁴ The framework includes four strategic areas:

³¹⁷⁰ Mexico chairs OPANAL General Conference, Secretaría de Relaciones Exteriores (Mexico City) 28 November 2024. Access Date: 15 June 2025. <https://www.gob.mx/sre/prensa/mexico-chairs-opanal-general-conference?idiom=en>

³¹⁷¹ Mexico calls on ICJ to establish clear guidelines for States' climate change obligations, Secretaría de Relaciones Exteriores (Mexico City) 9 December 2024. ³¹⁷⁴ Technical Teams from Mexican Government Agencies and UN Mexico Work on New 2026-2031 Cooperation Framework, Secretaría de Relaciones Exteriores (Mexico City) 9 April 2025. Access Date: 15 June 2025. <https://www.gob.mx/sre/prensa/technical-teams-from-mexican-government-agencies-and-un-mexico-work-on-new-2026-2031-cooperation-framework?idiom=en>

1) Governance and Rule of Law, 2) Social Inclusion and Substantive Equality, 3) Inclusive and Resilient Economy and 4) Environment and Climate Change. This collaboration demonstrates Mexico's commitment to strengthening strategic alliances, promoting multilateralism and bolstering the UN's institutional effectiveness.

On 10 April 2025, Undersecretary for Multilateral Affairs and Human Rights Enrique Ochoa and State Secretary for Foreign Affairs of Norway Andreas Motzfeldt Kravik released a joint statement which included the two countries' support for the ongoing efforts to reform the UN.³¹⁷⁵ The two countries also pledged their full cooperation and advocacy to ensure the reforms are implemented under the UN80 initiative.

On 13 May 2025, Foreign Affairs Secretary Juan Ramón de la Fuente called for an evaluation of the progress on UN reforms, to advance reform efforts which will allow the UN to maintain its critical role in the international system.³¹⁷⁶

On 30 May 2025, Undersecretary for Multilateral Affairs and Human Rights Enrique Ochoa met with the UN Office at Nairobi Director-General Zainab Bangura to discuss strengthening operations at the African UN headquarters during the Second Session of the UN-Habitat Assembly in Nairobi.³¹⁷⁷ This demonstrates Mexico's commitment to bolstering the institutional effectiveness of the UN.

On 9 July 2025, Mexico reiterated its commitment to upholding human rights mechanisms by cooperating with the UN Human Rights Council, bolstering international law and UN systems.³¹⁷⁸

On 11 July 2025, Mexico maintained its pledge to the Global Partnership to End Violence Against Children by hosting a regional meeting and advancing policies to eliminate violence against children by 2030.³¹⁷⁹ In collaboration with the Executive Secretariat of the National System for the Protection of Children and Adolescents, the UN and UNICEF, Mexico highlighted progress made since the Partnership's launch in Bogotá in November 2024, showing its commitment towards multilateralism.

On 18 July 2025, Secretary De la Fuente emphasized the need for UN reform on the basis of representation and effectiveness at the Multi-Stakeholder Local Dialogue Meeting.³¹⁸⁰ In the meeting, he also discussed Mexico's ongoing cooperation with the UN for sustainable development through the establishment of a 2026-2030 Cooperation Framework for Sustainable Development, which aligns with Sustainable Development Goals (SDGs), such as poverty reduction.³¹⁸¹

On 28 July 2025, Mexico, Canada and Qatar co-chaired the working group, “Narrative for Peace,” during the UN “High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution.”³¹⁸² The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates Mexico’s commitment to bolstering the institutional effectiveness of the UN.

On 15 August 2025, Member States of the Economic Commission for Latin America and the Caribbean (ECLAC) who participated in the XVI Regional Conference on Women in Latin America and the Caribbean (organized by the Mexico) approved the Tlatelolco Commitment.³¹⁸³ The Commitment accelerates measures that promote gender equality in labour markets. This demonstrates Mexico’s commitment to advancing the institutional effectiveness of UN Women.

On 3 October 2025, Mexico and South Korea reaffirmed their commitment to cooperation at the 2025 Busan Global Partnership Forum held in South Korea, showing Mexico’s commitment towards multilateralism.³¹⁸⁴

On 8 October 2025, the Mexican Ministry of Foreign Affairs hosted a gathering for the UN Food and Agricultural Organization’s 80th anniversary and World Food Day.³¹⁸⁵ The attendees reinstated their importance of multilateralism and international collaboration for food security and sustainable agriculture, showing Mexico’s commitment towards multilateralism.

On 23 October 2025, the Ministers and high representatives of Armenia, Australia, Belgium, Canada, Chile, Colombia, Cyprus, Dominican Republic, Estonia, France, Germany, Iceland, Ireland, Kosovo, Latvia, Liberia, Lithuania, Luxembourg, Mexico, Moldova, the Netherlands, North Macedonia, Norway, Portugal, Rwanda, Slovenia, Spain, Thailand, Ukraine, United Kingdom, Uruguay participated at the 4th Ministerial Conference on Feminist Foreign Policies.³¹⁸⁶ The Joint Declaration demonstrates Mexico’s commitment to upholding the Universal Declaration of Human Rights, UN principles and the UNSC Resolution 1325 (Women, Peace and Security agenda), advancing institutional reform of the UN and strengthening multilateral engagement.

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders’ Declaration 2025.³¹⁸⁷ Leaders

reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

Mexico has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Mexico has taken moderate action through engaging in efforts to limit veto powers in the UNSC and strengthening the institutional effectiveness of the UN. It has also taken moderate action in bolstering institutional representativeness and effectiveness through chairing and facilitating dialogue with intergovernmental organizations such as OPANAL. However, it has not taken strong action to reform the UN or other international organizations or met two of the key criteria of institutional representation or transparency and accountability.

Thus, Mexico receives a score of 0.

Analyst: Christina Carballo

Russia: -1

Russia has not complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 5 December 2024, Foreign Minister Sergey Lavrov attended the 31st Meeting of the Organization for Security and Cooperation in Europe (OSCE) Ministerial Council where he attributed institutional weaknesses at the OSCE to Western and North Atlantic Treaty Organization (NATO) expansionism.³¹⁸⁸ Although Minister Lavrov stated Russia's critiques of the organization, he offered no tangible actions to bolster institutional representativeness, effectiveness and transparency and accountability.

On 20 December 2024, Deputy Minister of Foreign Affairs Sergey Vershinin reiterated its support for United Nations Security Council (UNSC) reform including extending permanent member status to India.³¹⁸⁹

On 23 January 2025, Minister Lavrov held a meeting with the Secretary-General of the Shanghai Cooperation Organisation (SCO) Nurlan Yermekbayev where the two parties emphasized strengthening the role of the SCO in Eurasia and facilitating dialogue and cooperation with international organisations, in particular, the UN, Collective Security Treaty Organization, Commonwealth of Independent States (CIS), Eurasian Economic Union (EAEU) and Association of the Southeast Asian Nations (ASEAN).³¹⁹⁰

On 27 January 2025, Minister Lavrov participated in a meeting with the ambassadors of the ASEAN member states where they discussed opportunities to enhance Russia-ASEAN collaboration and mutually construct a sustainable security framework for the Asia-Pacific region that aligns with international law.³¹⁹¹ This

³¹⁹⁰ Press release on Foreign Minister Sergey Lavrov's meeting with SCO Secretary-General Nurlan Yermekbayev, The Ministry of Foreign Affairs of the Russian Federation (Moscow) 23 January 2025. Access Date: 17 June 2025. https://mid.ru/en/foreign_policy/news/1992636/#sel=4:9:V,4:9:V

³¹⁹¹ Press release on Foreign Minister Sergey Lavrov's meeting with the ambassadors of the ASEAN Moscow Committee, The Ministry of Foreign Affairs of the Russian Federation (Moscow) 27 January 2025. Access Date: 17 June 2025. https://mid.ru/en/foreign_policy/news/1993158/

demonstrates Russia's commitment to bolstering the institutional effectiveness and representativeness of ASEAN.

On 4 February 2025, Minister Lavrov released an article for Russia in Global Affairs magazine, "The UN Charter as the legal foundation of a multipolar world," where he stated the significance of the UN as an institution for maintaining international peace and security, promoting dialogue between Member States and upholding international law and order.³¹⁹²

On 18 February 2025, Russia participated in a ministerial-level open debate "Practicing Multilateralism, Reforming and Improving Global Governance" at the United Nations Security Council (UNSC).³¹⁹³ This engagement underscored Russia's commitment to enhancing multilateral cooperation and advocating for reforms in global governance structures.

On 20 February 2025, Minister Lavrov called attention to NATO's expansionism policies as undermining the principles and goals of intergovernmental organizations like ASEAN and threaten security in the Asia Pacific and Middle Eastern regions.³¹⁹⁴ Minister Lavrov also reiterated the importance of cooperation through upholding principles of the UN Charter and strengthening collaboration through multilateral partnerships in BRICS, the SCO, the EAEU, the African Union, the League of Arab States (LAS) and the Community of Latin American and Caribbean States (CELAC). He also expressed South Africa's leadership in the G20 will achieve progress towards "reforming the Bretton Woods institutions and the WTO [World Trade Organization] and expanding the representation of Asia, Africa and Latin America – and them alone – at the UN Security Council." While Russia's remarks demonstrate a commitment to bolstering the institutional effectiveness and representativeness of the UN and other relevant intergovernmental organizations, it is also openly critical of NATO.

On 20 February 2025, Minister Lavrov and China's Foreign Minister Wang Yi reiterated their commitment to a strategic partnership to bolster the institutional effectiveness and transparency and accountability of the UNSC, the SCO, BRICS, ASEAN and the G20 on the sidelines of the G20 Ministerial Council meeting.³¹⁹⁵

On 21 February 2025, Minister Lavrov held a press release following the G20 ministerial meeting where he stated the urgency of reforming international economic institutions and highlighted opportunities to stabilize multilateral frameworks through the "SCO, EAEU, African Union, LAS, CELAC, and others."³¹⁹⁶ However, Minister Lavrov attributed loan and credit agreements provided by the International Monetary Fund (IMF) and World Bank to be undermining global stability. While Russia's remarks in part demonstrate its commitment to bolstering the institutional effectiveness of intergovernmental organizations, its position regarding the IMF and World Bank are antithetical to the commitment.

³¹⁹² Russian Foreign Minister Sergey Lavrov's article for Russia in Global Affairs magazine, «The UN Charter as the legal foundation of a multipolar world», February 4, 2025, The Ministry of Foreign Affairs of the Russian Federation (Moscow) 4 February 2025. On 24 February 2025, Russia voted in favor of UNSC Resolution 2774 which called for an end to the conflict in Ukraine without assigning blame.³¹⁹⁷ This action reflects engagement with multilateral processes and a willingness to support neutral diplomatic resolutions. The resolution's lack of accountability and Russia's ongoing role in the conflict limit the extent of compliance.

On 26 February 2025, Permanent Representative of the Russian Federation to the United Nations office Gennady Galitov released a statement in response to claims of withdrawing from the ratification of the Comprehensive Nuclear-Test-Ban Treaty (CTBT) during the high-level segment of the UN Conference on Disarmament.³¹⁹⁸ Representative Galitov reiterated Russia's commitment to upholding the principles of the UN and international law despite UN Member States expressing concern with Russia's cooperation with countries such as Belarus and Iran, and Russia's remarks targeted towards "Western delegations" for undermining disarmament efforts. While Russia reaffirmed their commitment to bolstering the institutional effectiveness of the UN, its withdrawal from the ratification of the CTBT is antithetical to the commitment.

On 26 February 2025, Deputy Foreign Minister and Russian BRICS Sherpa Sergey Ryabkov participated in the BRICS sherpas/sous-sherpas meeting.³¹⁹⁹ The meeting aimed to facilitate dialogue on "maintaining continuity in BRICS operations" and bolstering its institutional effectiveness in addressing key priority areas.

On 11 March 2025, Minister Lavrov held a meeting with the OSCE Secretary General Feridun Sinirlioglu.³²⁰⁰ Minister Lavrov and Secretary General of OSCE discussed the potential for OSCE to "become a building block of the new security architecture."³²⁰¹ In addition, Minister Lavrov affirmed Russia's commitment to bolstering transparency across OSCE institutions.

On 31 March 2025, Minister Vershinin met with UN Under-Secretary-General and the UN Secretary-General's Special Envoy for Digital and Emerging Technologies Amandeep Singh Gill to highlight the role of the UN in regulating information and communication technologies.³²⁰²

On 1 April 2025, Minister Lavrov and China's Foreign Minister Wang Yi underscored the importance of aligning on international issues within multilateral forums including "the UN, the SCO, BRICS, the G20, APEC [Asia-Pacific Economic Cooperation]."³²⁰³ This demonstrates a commitment towards bolstering the institutional effectiveness of various intergovernmental organizations.

On 2 April 2025, Russian representatives challenged findings from the Arria-formula meeting of the UNSC.³²⁰⁴ Russia challenged the legitimacy of international bodies such as the Office of the UN High Commissioner for Human Rights and the international Criminal Court. Russia also attributed inconsistencies to Western narratives relying on “information manipulation, distortion of public consciousness, and the suppression of facts.” These remarks demonstrate Russia taking actions directly and explicitly antithetical to the commitment.

On 28 April 2025, Minister Lavrov told the Brazilian newspaper O Globo that Russia believes the UNSC must be reformed to better reflect broader representation from the Global South and East, including countries in Asia, Africa and Latin America.³²⁰⁵

On 28 April 2025, Minister Lavrov and China’s Foreign Minister Wang Yi reaffirmed their commitment to strengthening coordination in the UN, the SCO, BRICS and other international organizations.³²⁰⁶

On 29 April 2025, Minister Lavrov participated in the BRICS foreign ministers’ meeting.³²⁰⁷ The meeting aimed to facilitate dialogue between ministers and further cooperation in key strategic partnership areas while reforming the international system.

On 27 May 2025, Minister Lavrov reaffirmed its commitment to the Comprehensive Nuclear-Test-Ban Treaty and expanding the Treaty as a universal tool during a meeting with the Executive Secretary of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organisation (CTBTO).³²⁰⁸ This demonstrates Russia’s commitment to bolstering the institutional effectiveness of the CTBTO.

On 27 May 2025, Minister Vershinin stated the importance of implementing a permanent mechanism on the existing international information security negotiation process during a meeting with the Permanent Representative of Singapore to the UN Burhan Gafoor.³²⁰⁹ This demonstrates Russia’s commitment to bolstering the institutional effectiveness of the UN.

On 27 May 2025, the Permanent Representative of the Russian Federation Gennady Gatilov released a Joint Statement between the Russian Federation and China on “Global Strategic Stability” at the Plenary Meeting of the Conference on Disarmament where they reaffirm their commitment to implementing and strengthening international agreements and preserving the role of the UN in the area of “arms control, disarmament and non-proliferation.”³²¹⁰ This underscores Russia’s commitment to promoting cooperation and dialogue to strengthen global strategic stability and international security.

On 6 July 2025, Minister Lavrov met with the WTO Director-General Ngozi Okonjo-Iweala and discussed the importance of advancing WTO reform efforts on the principles of inclusion, non-discrimination and transparency.³²¹¹

On 7 July 2025, Minister Lavrov spoke about the importance of reforming Bretton-Woods institutions, particularly the WTO, International Monetary Fund (IMF) and the World Bank (WB), to reflect contemporary realities and challenges at the second session of the 17th BRICS Summit.³²¹²

On 7 July 2025, Minister Lavrov spoke about coordinating BRICS efforts towards WHO reform, to make the organization more effective and inclusive, at the 3rd session of the 17th BRICS Summit.³²¹³

On 10 July 2025, the Russian Foreign Ministry responded to UN Secretary-General Guterres's remarks on the war in Ukraine by calling out their comments as false and biased.³²¹⁴ The Russian Foreign Ministry stated that the UN continues to ignore the international legal violations Kiev has caused, undermining the organization as a whole and being antithetical to the commitment.

On 10 July 2025, Minister Lavrov emphasized the relationship between Russia and ASEAN and reiterated Russia's commitment to working in line with the UN Charter and its principles at the Russia-ASEAN ministerial meeting held in Kuala Lumpur.³²¹⁵

On 10 July 2025, Minister Vershinin met with the Secretary General of the International Federation of Red Cross (IFRC) and Red Crescent Societies Jagan Chapagain and promised continued contribution towards the IFRC budget.³²¹⁶

On 11 July 2025, Minister Lavrov attended the 15th Meeting of Foreign Ministers of the East Asia Summit (EAS) and the 32nd ASEAN Regional Forum (ARF) on Security, participating in discussions around topical issues in the Asia-Pacific region.³²¹⁷

On 13 July 2025, Minister Lavrov met with Foreign Minister of the People's Republic of China Wang Yi ahead of the Shanghai Cooperation Organization's (SCO) Foreign Ministers Council Meeting, and discussed strengthening cooperation between the two countries at the UN, UNSC, SCO, BRICS, the G20 and APEC.³²¹⁸

On 15 July 2025, Minister Lavrov participated in the Council of Foreign Ministers of the Shanghai Cooperation Organization, where the parties reaffirmed their commitment to working together in the SCO, in line with the UN, on regional and global issues.³²¹⁹

On 23 July 2025, Russia suspended a draft press statement on the UN Regional Centre for Preventive Diplomacy for Central Asia (UNRCCA) about the centre's promotion of peace and security in Central Asia, after strong opposition from Western states towards multilateral frameworks.³²²⁰

On 26 July 2025, Deputy Minister of Foreign Affairs Aleksandr Pankin recognized the importance of the Global South on the global stage and called for the reform of international financial institutions such as the IMF and the World Bank to allow the Global South to participate in decision-making.³²²¹

On 28 July 2025, Director of the Department of Economic Cooperation of the Russian Ministry of Foreign Affairs Dmitry Birichevskiy recognized the importance of South Africa's G20 Presidency and stated that he looks forward to discussions and cooperation with BRICS to eliminate 'Western dominance' within the Bretton Woods institutions.³²²²

On 29 July 2025, Minister Vershinin discussed with UN Secretary-General Antonio Guterres about the situation in the Middle East as well as the ongoing efforts towards UN reform.³²²³

On 4 August 2025, Foreign Ministry Spokeswoman Maria Zakharova denounced the "Western rules-based order" as infallible following the Organization for Security and Co-operation in Europe conference.³²²⁴

On 26 August 2025, the Foreign Ministry held consultations among Collective Security Treaty Organisation (CSTO) member states regarding the agenda of the UNGA.³²²⁵ The members discussed approaches to reform the UN, and reiterated their commitment to strengthening regional integration into and coordination with UN peacekeeping operations.

On 17 September 2025, Minister Lavrov delivered a speech at the ambassadorial roundtable discussion regarding Ukraine and the UN Charter.³²²⁶ He issued a series of statements on the partiality and manipulation

of the UN Secretariat, undermining the transparency and accountability of the UN. Minister Lavrov stated that “UN officials must strictly adhere to Article 100 of the Charter and refrain from taking instructions from any government or external actor.” However, this action is antithetical to the commitment as Minister Lavrov repeatedly discredits UN impartiality and justifies Russia’s rejection of UN decisions and resolutions as critical of the organization’s conduct.

On 19 September 2025, the Foreign Ministry issued a statement on the UNSC vote to reimpose sanctions on Iran, attributing the draft resolution as reflective of the “provocative and unlawful nature of the actions taken by the European participants in the JCPOA and by the South Korean UNSC presidency.” The statement is antithetical to the commitment as it delegitimizes the UNSC’s internal processes.

On 25 September 2025, Minister Lavrov met with UN Secretary-General António Guterres on the sidelines of the High-level Week of the 80th Session of the UN General Assembly where he emphasized the importance of safeguarding the UN organization’s foundational structure amid transformations.³²²⁷ He also stated the need to maintain a clear division of labour among the UN’s principal organs, ensuring oversight remains with member states. Minister Lavrov highlighted the independence within the UN Secretariat and reaffirmed Russia’s commitment to supporting the UN in upholding its central role in global governance.

On 26 September 2025, Minister Lavrov participated in the BRICS foreign ministers’ meeting to discuss proposals to revisit the structure of international organizations to foster an inclusive body for developing countries.³²²⁸

On 26 September 2025, the Foreign Ministry issued a statement outlining reasons for Russia’s refusal to participate in the 14th Conference on Facilitating the Entry into Force of the Comprehensive Nuclear-Test-Ban Treaty (CTBT) held on the sidelines of UNGA.³²²⁹ The statement rejected the final declaration due to criticisms of the Democratic People’s Republic of Korea, refusing to endorse multilateral consensus-based solutions due to political disagreements. This action is antithetical to the commitment as it undermines the institutional effectiveness of the UN.

On 27 September 2025, Minister Lavrov delivered a speech at the UN General Debate during the 80th UN General Assembly to advocate for reform of the UN system.³²³⁰ He proposed changes to the structure and working methods of core bodies to refine them into more equitable and entities.

On 10 October 2025, Head of the Delegation of the Russian Federation, Director of the Department for Non-Proliferation and Arms Control of the Ministry of Foreign Affairs of the Russian Federation Oleg Postnikov delivered a statement at the General Debate in the First Committee of the 80th session of the UNGA.³²³¹ He reaffirmed Russia’s commitment to preserving its position as a UN founding state and a permanent member of the UNSC, as well as strengthening the role of the UN on the global stage.

On 15 October 2025, Head of the Russian Delegation to the Vienna Negotiations on Military Security and Arms Control Yulia Zhdanova delivered a statement on the Russian delegation's position on how their "opponents are trying to build up 'resilience'" in the context of adapting to military threats at the 1117th Plenary Meeting of the OSCE Forum for Security Cooperation.³²³²

On 16 October 2025, the Group of Friends in Defence of the UN Charter with Russia's contribution drafted the a document as a follow-up to the UNGA Resolution 79/115 Eradication of Colonialism in All its Forms and Manifestations.³²³³ This demonstrates Russia's commitment to bolstering the institutional effectiveness and representativeness of the UN, with regards to its agenda on decolonization and engagement with 23 co-authors from multiple regions.

On 17 October 2025, the Foreign Ministry issued a statement on the expiration of UNSC Resolution 2231.³²³⁴ While the statement stressed that "the matter falls within the exclusive purview of the UN Security Council," thus reinforcing the primacy of formal UN processes and procedural compliance; the Foreign Ministry accused the UN Secretariat acted in violation of Article 100 of the UN Charter by posting "false information."

On 23 October 2025, Deputy Head of the Russian Delegation and Deputy Director of the Russian Foreign Ministry's Department for Non-Proliferation and Arms Control Konstantin Vorontsov responded to remarks from "Western countries'" delegations on military-biological activities in Ukraine.³²³⁵ The statement is antithetical to the commitment as it delegitimizes existing Confidence-Building Measures of the Biological and Toxin Weapons Convention BTWC and UN mechanisms by implying they have "elicited no substantive response."

On 23 October 2025, Deputy Head Vorontsov issued a series of remarks in response to accusations made regarding Russia's obligations under international humanitarian law the First Committee of the 80th Session of the UNGA.³²³⁶ He stated that NATO members violate international legal obligations and commitments to the UN. These remarks undermine the legitimacy of multilateral legal institutions instead of strengthening their institutional effectiveness, representativeness or transparency and accountability.

On 25 October 2025, Prosecutor General of the Russian Federation Alexander Gutsan represented President Vladimir Putin and the Russian delegation at the signing of the UN Convention against Cybercrime.³²³⁷ The initiative serves as a new global standard and legal instrument for cooperation against cybercrime. He urged all UN members to sign and ratify the Convention to strengthen the UN's capacity to respond to digital threats.

On 27 October 2025, Deputy Head Vorontsov delivered a speech at the First Committee of the 80th UNGA Session on Cluster III Outer Space (Disarmament Aspects).³²³⁸ Deputy Head Vorontsov criticized the U.S.-Japan draft UNSC resolution, claiming it undermined UN disarmament venues. He stated that the Russian delegation submitted a comprehensive draft resolution and reiterated Russia's commitment to begin negotiations.

On 27 October 2025, Deputy Head Vorontsov called for improvements to the effectiveness of the UN disarmament mechanisms including the Conference on Disarmament and First Committee.³²³⁹ As a part of the Russian delegation's proposal, they also sought to expand transparency and confidence building measures (TCBMs) in outer space activities to improve the UN's institutional transparency and accountability mechanisms.

On 27 October 2025, Deputy Head Vorontsov reiterated Russia's support for the UN Open-Ended Working Group (OEWG) on ICTs 2021-2025 as a consensus-building mechanism.³²⁴⁰ He also endorsed the establishment of the new Global Mechanism (GM) as successor to the OEWG, promoting the continuity and institutionalization of discussions on international security within the UN system. Deputy Head Vorontsov underscored the importance of decision-making by consensus and equal participation of all UN members. He also criticized the move of discussions on "military AI" to a separate forum, advocating for reforms that consolidates the UN institutional structure on emerging technologies and armed control.

On 30 October 2025, Deputy Foreign Minister Dmitry Lyubinsky called upon G20 members and partner organizations to scale up international anti-corruption action within binding legal frameworks and the current G20 Anti-Corruption Action Plan.³²⁴¹ He further reiterated Russia's commitment to contributing to the institutional effectiveness of the G20.

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders' Declaration 2025.³²⁴² Leaders reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

Russia has not complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Russia has taken moderate action in reforming a UN body through meeting participation and voting procedures that advance institutional

Saudi Arabia: 0

Saudi Arabia has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 19 December 2024, Saudi Arabia voted in favour of a resolution on the “Request for an advisory opinion of the internal Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States.”³²⁴⁴ This demonstrates Saudi Arabia’s commitment to bolstering the UN’s institutional effectiveness.

On 11 February 2025, Saudi Arabia officially assumed the presidency of the Global Operational Network of Anti-Corruption Law Enforcement Authorities (GlobE Network).³²⁴⁵ In their opening address, they focused on the need for greater international cooperation and also promised to ensure a fair, just and sustainable governance system.

On 17 February 2025, the Asian Infrastructure Investment Bank (AIIB) and Saudi Arabia forged a partnership with the New Sustainable Investment Program and signed a joint declaration of intent at the Conference for Emerging Market Economies in Al-Ula, Saudi Arabia.³²⁴⁶ The partnership aims to foster greater cooperation, international economic integration and connections between Africa, the Middle East and Asia.

³²⁴³ This score of non-compliance was determined after consulting the following sources: <http://government.ru/en/>, <https://www.mid.ru/en/>, <https://www.mea.gov.in/index.htm>, <https://www.securitycouncilreport.org/>, <https://www.un.org/en>, <http://www.g77.org/> and <https://www.themoscowtimes.com/>.

³²⁴⁴ Request for an advisory opinion of the International Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States – GA draft Resolution (A/79/L.28/Rev.1) – Revised (Adopted on 19 Dec 2024), United Nations General Assembly (New York) 12 December 2024. On 23 February 2025, Minister of Foreign Affairs Faisal bin Farhan bin Abdullah participated in the second session of the G20 foreign ministers meeting.³²⁴⁷ He gave a speech titled “Restructuring Global Governance,” where he emphasized the necessity of making multilateral frameworks more effective and coordinated. He highlighted multilateral trade and investment, stating that reform is necessary to reduce disparities in the international system and restore credibility to international institutions.

On 2 April 2025, President of the General Court of Audit Hussam Alangari attended the International Organization of Supreme Audit Institutions Development Initiative Board Meeting hosted in Thimphu, Bhutan.³²⁴⁸ The discussion focused on adjustments to guidelines and ways to enhance ongoing programs. This aligns with Saudi Arabia’s commitment to creating greater functionality within international bodies and reform which supports greater global development.

On 7 July 2025, the Ministry of Foreign Affairs released a statement on the Minister's attendance at the BRICS Summit to discuss international development efforts.³²⁴⁹

On 29 July 2025, the Ministry of Foreign Affairs released a statement on the two-state solution conference at which Prince Faisal bin Farhan bin Abdullah served as a co-chair.³²⁵⁰ As co-chair, Saudi Arabia facilitated discussions on the role of the UN and international bodies in the Israel-Palestine conflict as well as Palestinian recognition.

On 16 August 2025, the Ministry of Foreign Affairs released a statement on the meeting between US President Donald Trump and Russian President Vladimir Putin on Friday.³²⁵¹ This statement reaffirmed Saudi Arabia’s commitment to utilizing mediation and dialogue as a means to resolve international conflicts.

On 27 September 2025, the Ministry of Foreign Affairs released a statement following the meeting between Minister of Foreign Affairs Faisal bin Farhan bin Abdullah and the UN Secretary-General.³²⁵² During this meeting they discussed methods by which the work of the UN can be better supported in order to create a truly unifying platform for humanitarian causes.

On 27 October 2025, Saudi Arabia hosted the High-Level Coordination Meeting of the Global Alliance for the Implementation of the Two-State Solution.³²⁵³ Participants reiterated their support for the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA).

Saudi Arabia has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Saudi Arabia

South Africa: 0

South Africa has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 21 November 2024, Deputy Minister of International Relations and Cooperation Thandi Moraka participated in the Second Meeting of the Association of Southeast Asian Nations (ASEAN)-South Africa Joint Cooperation Committee.³²⁵⁴ The meeting aimed to facilitate dialogue on progress on existing ASEAN-South African partnerships and opportunities for future collaboration. This demonstrates South Africa's commitment to bolstering the institutional representativeness and effectiveness of ASEAN.

On 19 December 2024, South Africa voted in favour of a resolution on the "Request for an advisory opinion of the internal Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States."³²⁵⁵ This demonstrates South Africa's commitment to bolstering the UN's institutional effectiveness.

On 21 January 2025, President Ramaphosa reiterated South Africa's commitment to reforming the UN, the World Trade Organization (WTO), as well as other international financial organizations on areas of better representation and responsiveness at the World Economic Forum on South Africa's G20 priorities.³²⁵⁶

On 12 February 2025, the South African government announced that the focus of the First Foreign Ministers meeting under South Africa's G20 Presidency would be on current geopolitical tensions as well as global governance reform.³²⁵⁷

On 20 February 2025, President Ramaphosa called for the reform of the United Nations Security Council (UNSC) and other international financial institutions to have better representation and suitability to contemporary realities and challenges at the G20 Foreign Ministers' Meeting.³²⁵⁸

On 24 February 2025, South Africa voted in favour of a United Nations General Assembly (UNGA) resolution which reiterated the purpose of the UN to “maintain international peace and security and to peacefully settle disputes” as outlined in the UN Charter during a meeting commemorating the anniversary of the conflict between Russia and Ukraine.³²⁵⁹ This demonstrates South Africa's commitment to bolstering the UN's institutional effectiveness.

On 12 March 2025, President Ramaphosa met with President of the European Commission Ursula von der Leyen and President of the European Council António Costa where the leaders issued a joint statement on a renewed commitment to multilateral cooperation of international organizations at the 8th Summit between the EU and South Africa.³²⁶⁰ The leaders committed to strengthening the G20, reforming the UN Security Council to include underrepresented regions and reforming the World Trade Organization to improve its governance and align with today's realities.

On 13 March 2025, President Ramaphosa reaffirmed South Africa's commitment to reforming global governance institutions to ensure better representation of members as well as the current geopolitical landscape at the South Africa-European Union Summit Joint Press Conference.³²⁶¹

On 27 March 2025, South Africa attended a G20 Dialogue Session that took place in Addis Ababa, Ethiopia, bringing together African ambassadors, the African Union Commission (AUC) and the United Nations Development Programme.³²⁶² The discussions focused on prioritizing African participation in G20 processes, mainly regarding international financial systems. This session showcases a collective African effort to strengthen engagement within global governance.

On 3 April 2025, in his capacity as G20 Sherpa for the South African presidency, Director-General of the Development of International Relations and Cooperation (DIRCO) Zane Dangor chaired the Second Meeting of the G20 Sherpas.³²⁶³ He reiterated the importance of collaborating with multilateral institutions such as the UN.³²⁶⁴

On 25 May 2025, South Africa hosted the 3rd G20 Development Working Group (DWG) meeting whereby discussions centred around collaborative efforts to address key issues areas: illicit financial flows, resource mobilization, inclusive social protection and aligning development finance with the Sustainable Development Goals (SDGs).³²⁶⁵

On 30 May 2025, Deputy Minister of International Relations and Cooperation Alvin Botes delivered a speech at the G20 Multi-Stakeholder Dialogue on Illicit Financial Flows (IFFs), Domestic Resource Mobilisation and Financing for Development.³²⁶⁶ Minister Botes reiterated the importance of inter-agency cooperation and information-sharing to address IFFs and developing robust legal instruments and tools to address transnational crimes.

On 26 June 2025, Minister of International Relations and Cooperation Ronald Lamola gave a speech at the High-Level Session of the Third G20 Sherpa Meeting, emphasizing the need to reform existing global governance institutions.³²⁶⁷

On 3 July 2025, Minister Lamola restated South Africa's call for reforming the UN, Bretton Woods institutions and other international financial institutions at the Pre-Budget Department of International Relations and Cooperation Media Briefing.³²⁶⁸

On 6 July 2025, President Ramaphosa stated the importance of reforming the UNSC to be more representative of different regions of the world and accountable due to existing institutions failing to accurately represent contemporary challenges and realities.³²⁶⁹ President Ramaphosa also mentioned the importance of collaboration between BRICS nations to support the reform of global institutions at the 17th BRICS Leaders' Summit.

On 7 July 2025, President Ramaphosa emphasized the importance of collective advocacy to push for reforming international financial institutions to be more representative of developing economies at the 17th BRICS Leaders' Summit.³²⁷⁰

On 16 July 2025, South Africa co-chaired the Bogotá Conference of the Hague Group with Colombia to take "unprecedented measures" to stop the Gaza genocide under international law in a Joint Statement, which began

with 12 countries and calls on others to join by 20 September 2025.³²⁷¹ This demonstrates South Africa's commitment to bolster the institutional effectiveness of the Hague Group.

On 21 July 2025, Minister in the Presidency for Planning, Monitoring and Evaluation Maropene Ramokgopa delivered opening remarks at the 4th G20 meeting on the Development Working Group.³²⁷² She called on delegates to strengthen multilateral order and transparent decision-making, aligning collective action with the theme of South Africa's G20 Presidency: "Solidarity, Equality, and Sustainability."

On 22 July 2025, the South African Department of Small Business Development and the International Trade Centre (ITC), a joint agency under the WTO and the UN, co-hosted the first Global Small and Medium-sized Enterprises (SME) Ministerial Meeting convening over 50 ministers to align and strengthen SME development, bolstering the institutional effectiveness of the ITC.³²⁷³

On 29 July 2025, Minister Ramokgopa participated in the United Nations Sustainable Development Cooperation Framework (UNSDCF) Strategic Prioritisation Retreat.³²⁷⁴ The initiative facilitates the development and execution of UN development activities, as well as regional cooperation between UN agencies and the South African government.

On 29 August 2025, Minister in the Presidency for Women, Youth and Persons with Disabilities Sinidisiwe Chikunga spoke about the importance of reforming international institutions to particularly ensure women are included at the table, during the G20 Women to Africa event.³²⁷⁵

On 8 September 2025, President Ramaphosa underscored the need to reform key international organizations such as the WTO and the United Nations, and emphasized the efforts of the BRICS in leading discussions for reform.³²⁷⁶

On 23 September 2025, President Ramaphosa delivered a statement during the General Debate at the 80th United Nations General Assembly, in which he solidified South Africa's call for comprehensive Security reform and transparency in the multilateral system.³²⁷⁷

On 25 September 2025, Minister Lamola, in his closing remarks for the second G20 Foreign Ministers' Meeting, restated the importance of reforming international financial institutions, which was discussed extensively by the Foreign Ministers in the meeting.³²⁷⁸

On 26 September 2025, DIRCO published the BRICS Foreign Ministers Joint Media Statement, in which ministers addressed UN reform and revamping the UN security council to better contemporary relations.³²⁷⁹

On 9 October 2025, President Ramaphosa reaffirmed South Africa and the EU's working relationship, as well as their shared commitment towards multilateralism, UN reform as well as protecting and upholding the principles of the UN Charter such as human rights, sustainability and peace.³²⁸⁰

On 9 October 2025, President Ramaphosa spoke about the need to cooperate on the reform of international financial institutions to be more effective against current challenges at the Global Gateway Forum held in Brussels, Belgium.³²⁸¹

On 23 October 2025, South Africa issued a statement in response to the International Court of Justice's (ICJ) findings on Israel's obligations with respect to the Occupied Palestinian Territory.³²⁸² The statement reaffirmed South Africa's support for bolstering UN humanitarian operations.

On 30 October 2025, the Department of International Relations and Cooperation (DIRCO) in partnership with the University of South Africa hosted a G20 Townhall Outreach Programme under the theme of "Inclusive Economic Growth and Just Transition for Sustainable Societal Development" to engage civil society groups, academic, businesses and communities in global economic decisions.³²⁸³ This initiative enhances the institutional representativeness of the G20.

South Africa has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. South Africa has taken strong action in advancing the institutional effectiveness of UNGA in through voting in favour of an UNGA resolution which reiterated the purpose of the UN to "maintain international peace and security and to peacefully settle disputes" as outlined in the UN Charter. It has also taken moderate action to reform other relevant international organizations including the G20 and ASEAN through reiterating its commitment to bolstering their institutional representativeness, effectiveness and accountability and transparency. However, South Africa has not taken strong action to reform international organizations, nor has it taken actions in the areas of institutional representativeness and institutional transparency and accountability.

Türkiye: +1

Türkiye has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 6 December 2024, the North Atlantic Treaty Organization (NATO) allies including Türkiye released a joint statement to the Organization for Security and Co-operation in Europe (OSCE) on Russia's invasion of Ukraine where members reaffirmed their commitment to maintaining channels of communication to "to manage and mitigate risk, prevent escalation and build trust and confidence" and align with the principles of transparency at the OSCE Ministerial Council.³²⁸⁴

On 17 February 2025, Türkiye signed a USD5 billion memorandum of understanding with Asian Infrastructure Development Bank to finance public-sector sustainability and green developmental projects.³²⁸⁵ This action strengthens effective and inclusive international financial institutions and directly fulfills the G20 Rio commitment of institutional reform that promotes sustainable development through multilateral cooperation.

On 19 February 2025, Türkiye's Permanent Representative to the United Nations Ambassador Ahmet Yıldız reiterated its call for reforming the UN Security Council (UNSC) to be more democratic, accountable, and representative at a high-level UNSC meeting on multilateralism and global governance reform.³²⁸⁶ Ambassador Yıldız reaffirmed the importance of the UN and its bodies in the international order and the need to include more countries.

On 24 February 2025, Türkiye reaffirmed its support for multilateral diplomacy and a rules-based international order at the G20 Foreign Ministers' Meeting.³²⁸⁷ Türkiye emphasized the need for UN reform and more equitable representation for developing countries and demonstrated commitment to building more representative global institutions.

On 10 April 2025, Minister of Foreign Affairs Hakan Fidan hosted the Arab-Islamic ministerial committee meeting for the Organization of Islamic Cooperation (OIC) and the Arab League Ministerial Committee.³²⁸⁸ This demonstrates Türkiye's commitment to bolstering the institutional effectiveness and representativeness of the OIC through fostering multilateral dialogue.

On 11 April 2025, Minister Fidan and the Ministers of Foreign Affairs and Representatives of the Ministerial Committee on Gaza of the League of Arab States and , and the Representatives of Ireland, Norway, China and Russia released a joint statement on the Israeli-Palestinian conflict where they reiterated their support for the

United Nations Relief and Works Agency for Palestine Refugees (UNRWA) and ongoing collaboration with the UN and other international organizations.³²⁸⁹ The ministers further reiterated their commitment to bolstering international efforts through upholding international law and the efforts of the UN. This demonstrates Türkiye's commitment to bolstering the UN's institutional effectiveness.

On 13 April 2025, President Recep Tayyip Erdoğan used the Antalya Diplomacy Forum to call for reform of the international system and emphasized the need for a more representative UNSC.³²⁹⁰

On 14 May 2025, Minister Fidan hosted the Informal Meeting of NATO Ministers of Foreign Affairs.³²⁹¹ The meeting aims to provide a platform to discuss areas to strengthen "Allied deterrence and defence."³²⁹² This demonstrates Türkiye's commitment to bolstering the institutional representativeness and effectiveness of NATO.

On 2 July 2025, Türkiye reaffirmed its commitment to international cooperation and the principles of UNESCO for maritime resource and environment management upon re-election to the Executive Council of the Intergovernmental Oceanographic Commission (UNESCO/IOC).³²⁹³

On 28 July 2025, Türkiye and Ireland co-chaired the working group, "Preserving the Two-State Solution," during the UN "High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution."³²⁹⁴ The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates Türkiye's commitment to bolstering the institutional effectiveness of the UN.

On 15 August 2025, Türkiye reaffirmed its commitment to the UN Charter, specifically Article 2, paragraph 4, which is the prohibition on the use of force and condemned the actions of Israel in the Palestinian territory, aligning with Türkiye's commitment to the UN and UNSC.³²⁹⁵

On 20 September 2025, Communications Chief Burhanettin Duran delivered remarks at the Turkevi Centre panel "Search for Justice in the International System" to call for the reform of the UN to curtail its veto power and expand its representation.³²⁹⁶

³²⁹⁶ Türkiye's calls for reforms have become voice of oppressed, global conscience' Anadolu Agency (Antalya) 20 September 2025. Access Date: 10 October 2025. <https://www.aa.com.tr/en/turkiye/turkiye-s-calls-for-reforms-have-become-voice-of-oppressed-global-conscience-communications-chief/3693550>

On 22 October 2025, the Ministry of Foreign Affairs released a statement regarding the advisory opinion of the International Court of Justice (ICJ) on the “Obligations of Israel in Relation to the Presence and Activities of the UN, Other International Organizations and Third States in and in Relation to the Occupied Palestinian Territory.”³²⁹⁷ Türkiye reiterated its commitment to supporting the ICJ’s position and efforts to ensure the implementation of legal order and accountable mechanisms for Israel’s violations of international law.

Türkiye has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. Türkiye has taken strong action to bolster the institutional effectiveness of international organizations through a funding scheme. Türkiye has also taken moderate action to advance institutional representation and effectiveness through verbal affirmations and hosting multilateral meetings.

Thus, Türkiye receives a score of +1.

Analyst: Eimaan Khurram Raja

United Kingdom: 0

The United Kingdom has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 21 November 2024, the government pledged up to GBP310 million in flexible, multi-year core funding to the World Health Organization (WHO) as part of its first Investment Round.³²⁹⁸ This funding supports the WHO’s 14th General Programme of Work and its internal “Transformation Agenda,” including reforms aimed at improving operational agility, transparency and global health responsiveness. Minister for Development at the Foreign, Commonwealth and Development Office for Women and Equalities at the Department for Education Anneliese Dodds described the pledge as an investment towards making WHO stronger and more effective, underscoring the UK’s support for transparent and accountable multilateral health governance.

On 28 November 2024, the UK announced a GBP1.98 billion pledge to the World Bank’s International Development Association (IDA) for the 2025–2027 cycle.³²⁹⁹ This represents a 40 per cent increase over the UK’s previous contribution and restores the UK as a leading IDA donor. In negotiations, the UK also successfully introduced the first-ever “water security” performance target into IDA’s results framework, ensuring measurable progress on clean water and sanitation in the world’s poorest countries. These actions advance both financial effectiveness and outcome-based accountability within multilateral development institutions.

On 6 December 2024, the North Atlantic Treaty Organization (NATO) allies including the United Kingdom released a joint statement to the Organization for Security and Co-operation in Europe (OSCE) on Russia’s invasion of Ukraine where members reaffirmed their commitment to maintaining channels of communication to “to manage and mitigate risk, prevent escalation and build trust and confidence” and align with the principles of transparency at the OSCE Ministerial Council.³³⁰⁰

On 9 December 2024, Deputy Permanent Representative to the UN James Kariuki stated the importance of strengthening coordinated humanitarian assistance of the UN with a focus on funding, the international architecture to predict and prevent crises and aligning political and diplomatic priorities.³³⁰¹ This demonstrates the UK's commitment to bolstering the institutional effectiveness of the UN's humanitarian activities.

On 19 December 2024, Ambassador Kariuki voted in favour of a resolution on the "Request for an advisory opinion of the internal Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States."³³⁰² This demonstrates the UK's commitment to strengthening the institutional effectiveness of the UN system and upholding international law and rules-based order.³³⁰³

On 15 January 2025, Permanent Representative to the United Nations Ambassador Barbara Woodward stressed the importance of upholding the rule of law and facilitating cooperation and peace at the UN during the United Nations General Assembly (UNGA) briefing on 2025 priorities.³³⁰⁴ Ambassador Woodward reiterated the UK's commitment to fulfilling their responsibilities as a Permanent Member of the UN Security Council (UNSC) in enhancing meaningful participation in peace and decision-making processes in line with the Women, Peace and Security (WPS) agenda. Ambassador Woodward also underscored the importance of bolstering the institutional representativeness of the UN. She reiterated the UK's commitment to revitalizing UNGA and reforming the UNSC.

On 17 January 2025, Ambassador Woodward commended efforts of the United Nations Interim Force in Lebanon (UNIFIL) in maintaining transparent operational activities and supported the UNIFIL's role at the UNSC meeting on the United Nations Disengagement Observer Force and the UNIFIL.³³⁰⁵

On 21 January 2025, Ambassador to the General Assembly Archie Young committed to defending freedoms and civic space within the UN system and support the decision-making capacity of the UN at the opening session of the UN Committee on Non-Governmental Organisations (NGOs).³³⁰⁶ Ambassador Young called on increased meaningful civil society inclusion in UN operations. This demonstrates the UK's commitment to bolstering the institutional representativeness of the UN.

On 21 January 2025, Ambassador Kariuki stated the importance of collaboration between UN agencies, regional organizations, governments and civil society organizations in Africa to address the threat of terrorism and bolster security interventions at the UNSC meeting on Counterterrorism in Africa.³³⁰⁷ This demonstrates the UK's commitment to bolstering the institutional representativeness and effectiveness of the UN in counterterrorism efforts.

On 23 January 2025, Ambassador Kariuki committed to supporting coordination between UN and the League of Arab States (LAS) on issues related to international peace and regional security and development at the UNSC meeting on cooperation between the UN and the LAS.³³⁰⁸ This demonstrates the UK's commitment to bolstering the institutional effectiveness and representativeness of the UN and the LAS.

On 23 January 2025, Ambassador Kariuki highlighted the role of the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) in supporting essential services during the UNSC meeting on Children in Gaza.³³⁰⁹ Ambassador Kariuki called on the Council to support the UNRWA in delivering essential education and healthcare services.

On 27 January 2025, Ambassador Kariuki highlighted the function of the role of the International Criminal Court (ICC) in holding perpetrators accountable for war crimes committed in Darfur, Sudan, at the UNSC Meeting on the ICC's investigations in Sudan.³³¹⁰ Ambassador Kariuki welcomed the establishment of "structured dialogue between the Office of the Prosecutor and Civil Society Organisation" to bolster institutional representativeness and institutional transparency and accountability.

On 30 January 2025, Head of the United Kingdom's Delegation to the organization for Security and Co-operation in Europe (OSCE) Neil Holland underscored the UK's commitment to collective action and strengthening democracy.³³¹¹ Ambassador Holland further reiterated the importance of leveraging the capabilities of the OSCE in strengthening democracy through election monitoring and supporting OSCE members in meeting their commitments.

On 18 February 2025, Ambassador Kariuki the importance of bolstering UN Peacekeeping Operations through implementing contingency plans, improving intelligence and communications and countering disinformation and misinformation at the Special Committee on Peacekeeping Operations (C-34).³³¹² This demonstrates the UK's commitment to supporting the institutional effectiveness of the UN.

On 18 February 2025, Ambassador Woodward reiterated the country's deep support for reforming UNSC membership at the UNSC meeting on practicing multilateralism and reforming and improving governance.³³¹³

On 20 February 2025, Foreign Secretary David Lammy reiterated the importance of upholding international law and the principles of the UN Charter with regards to global geopolitical challenges at the G20 Foreign Ministerial Meeting in South Africa.³³¹⁴

On 27 February 2025, Minister Counsellor Fergus Eckersley reiterated the UK's commitment to bolstering the United Nations Police (UNPOL) capabilities to facilitate peace and security, while addressing emerging challenges.³³¹⁵

On 14 March 2025, Ambassador Neil Holland reiterated the UK's support for the OSCE's human dimension commitments on human rights violations committed by Russia and Belarus.³³¹⁶ Ambassador Holland stated the importance of addressing ongoing human rights challenges, upholding the rule of law, renewed partnerships and a commitment to openness towards civil society.

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers' Declaration on Maritime Security and Prosperity.³³¹⁷ The ministers reaffirmed the G7's commitment to "a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources." The ministers also reiterated their commitment to tackling the "Emerging Threat on Safe Seas and Freedom of Navigation and Overflight," "Safe Shipping and Supply Chain Security," "Sustainable Stewardship of Maritime Resources" and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7 support for "Ukraine's long-term prosperity and security," "Regional peace and stability in the Middle East," "Cooperation to increase security and resilience across the Indo-Pacific," "Building stability and resilience in Haiti and Venezuela," "Supporting lasting peace in Sudan and the Democratic Republic of the Congo" and "Strengthening sanctions and countering hybrid warfare and sabotage."³³¹⁸ The joint statement reflects the G7's commitment to strengthening the institutional effectiveness of the G7.

On 24 March 2025, Ambassador Woodward reiterated the UK's support for UN peace operations and areas of adaptation during a UNSC meeting on UN peace operations.³³¹⁹ Ambassador Woodward highlighted three areas to strengthen peacekeeping efforts: 1) adapting peace operations to the political and security contexts informed by local realities and communities, 2) equipping peace operations to address modern challenges to

security including misinformation and technological innovations through leveraging intelligence, digital tools and “data-driven decision-making” and 3) fostering regional, national and global collaboration with organizations, civil society and across the UN system to improve the service delivery of UN peace operations. This demonstrates the UK’s commitment to bolstering the UN’s institutional effectiveness and representativeness.

On 26 March 2025, Ambassador Kariuki reiterated the UK’s commitment to upholding the principles of the UN Charter with regards to peace and security in Ukraine during a UNSC Meeting.³³²⁰

On 3 April 2025, Foreign Secretary Lammy reiterated the UK’s support for the NATO Alliance and the need to bolster the institutional capacity of NATO through collective defence spending to address shared security threats.³³²¹

On 8 April 2025, Minister Counsellor Eckersley reiterated the UK’s support for UN peacekeeping and key functions including implementing and monitoring ceasefires at the UNSC meeting on UN peacekeeping operations.³³²² This demonstrates the UK’s commitment to bolstering the institutional effectiveness of the UN.

On 29 April 2025, UK Spokesperson to the UN Letisha Lunin stated the importance of protecting the integrity of the UN amid disinformation about Peacekeeping operations and committed to support the UN’s Mis and Disinformation in Peacekeeping Settings Project.³³²³ This demonstrates the UK’s commitment to reinforcing the institutional transparency and accountability of UN Peacekeeping operations.

On 7 May 2025, Foreign Secretary Lammy proposed convening a global conference in Autumn 2025 to reform the international aid architecture.³³²⁴ This conference aims to address the strategic use of limited aid funds and respond to significant US-led cuts to international aid and the UN budget and seeks to ensure that multilateral aid institutions like the UN remain effective and representative.

On 7 May 2025, Ambassador Kariuki reiterated the UK’s commitment to the principles of international peace and security and the UN Charter at the UN General Assembly meeting.³³²⁵ This demonstrates the UK’s commitment to maintaining the institutional effectiveness of the UN.

On 13 May 2025, Ambassador Woodward refused to “support any model” that undermines the operations and capacity of the UN in its ability to operate independent of political or military objectives in a joint statement

resolutions.³³³³ The multilateral mechanism aims to monitor and report on sanction measures implemented by the United Nations. This initiative underscores ongoing efforts to advancing the UN's institutional effectiveness.

On 29 May 2025, Ambassador Holland reiterated the UK's commitment to upholding international rules-based order and upholding the guiding principles and practices of the UN during the UK/EU Summit.³³³⁴ Ambassador Holland recognized the importance of a renewed partnership between the UK and the EU, furthering the principles and commitments of the OSCE. This demonstrates the UK's commitment to bolstering the institutional effectiveness of the OSCE.

On 25 June 2025, the UK joined the Multi-Party Interim Appeal Arbitration Arrangement (MPIA), a temporary dispute settlement mechanism under the World Trade Organization (WTO) framework established to preserve the functioning of the WTO's appellate system following the paralysis of its Appellate Body.³³³⁵

On 26 June 2025, Ambassador Woodward reaffirmed the United Kingdom's commitment to collaborating with the UN Secretary-General and Member States to advance reform at UN80 to create a more effective UN system.³³³⁶

On 27 June 2025, the UK's Permanent Representative to the WTO and the UN Simon Manley reaffirmed the UK's support for reforming the WTO and interest in partaking in efforts towards comprehensive reform measures.³³³⁷

On 30 June 2025, Australia and the United Kingdom announced a joint statement after their second Strategic Dialogue on Gender Equality.³³³⁸ In the statement, both governments highlighted the importance of UN80 reforms in creating greater gender equality and called for transparent reforms to allow the UN system to make progress on global gender equality and equity.

On 30 June 2025, the G7 Foreign Ministers, including the United Kingdom, released a statement endorsing the ceasefire between Israel and Iran and condemning Iran for their use of nuclear weapons under the International Atomic Energy Agency (IAEA).³³³⁹ This supports the UK's commitment to upholding the roles of international organizations and international law.

On 8 July 2025, the Director of Defence and International Security, Foreign Commonwealth and Development Office Stephen Lillie addressed the importance of the UNSC's chemical weapons programme and reaffirmed the UK's commitment to supporting the efforts to coordinate a solution with Syria.³³⁴⁰

On 9 July 2025, Chief Executive and Comptroller-General of the UK's Intellectual Property Office Adam Williams reaffirmed the UK's commitment towards fostering an inclusive and effective World Intellectual Property Organization (WIPO) at the 66th session of the WIPO Assemblies.³³⁴¹

On 10 July 2025, the United Kingdom and France released a joint declaration after the 37th UK-France Summit, emphasizing their commitment to upholding multilateralism and collaborating to reform the UN.³³⁴²

On 14 July 2025, Ambassador Woodward reaffirmed the UK's commitment to helping the UN deliver its peace process through its missions in Yemen.³³⁴³

On 17 July 2025, UK Ambassador and Head of the United Kingdom's Delegation to the Organization for Security and Co-operation in Europe (OSCE) Neil Holland urged an agreement of the "Unified Budget" commitment that aims to stop programme cancellations.³³⁴⁴ Holland endorsed the OSCE's mission to Serbia's work on democratic governance, media freedom and monitoring rights.

On 22 July 2025, Minister for Africa and the UN Ray Collins underscored the importance of the UNSC and supporting multilateralism through foreign policy, especially when contemporary violations by Russia in Ukraine and by Israel in Gaza test the international rules-based order.³³⁴⁵ He also stated the importance of strengthening the UN system as the UN approaches its 80th anniversary.

On 24 July 2025, Ambassador Holland briefed the OSCE Permanent Council on the UK's Global Irregular Migration Sanctions Regime and on using OSCE platforms to adapt tools for organized immigration crime.³³⁴⁶ This demonstrates the UK's commitment to updating multilateral toolkits and coordinated enforcement across institutions.

On 25 July 2025, UK Foreign Secretary Lammy and Defence Secretary John Healey committed to joint initiatives and advocacy on multilateral reform, including support for the UN Secretary-General's UN80 initiative to modernize UN structures and delivery.³³⁴⁷

On 25 July 2025, the UK released a joint statement with Australia after their Ministerial Consultations, which included an emphasis on reforming international institutions such as the UN system through the UN80 Initiative, the WTO and the Green Climate Fund (GCF) to strengthen effectiveness and representation.³³⁴⁸

On 28 July 2025, the UK and Egypt co-chaired the working group, "Humanitarian Action and Reconstruction," during the UN "High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution."³³⁴⁹ The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates the UK's commitment to bolstering the institutional effectiveness of the UN.

On 30 July 2025, UK Deputy Political Coordinator Caroline Quinn spoke about the need to ensure that UN peacekeeping operations have the tools to deliver effective political solutions, which the UK is ready to support.³³⁵⁰

On 6 August 2025, Deputy Political Coordinator Quinn urged full implementation of United Nations Security Council Resolution (UNSCR) 1540 and offered UK assistance to improve national legal and regulatory controls over chemical, biological, radiological and nuclear materials.³³⁵¹

On 7 August 2025, Deputy Political Coordinator Quinn pressed for coordinated regional and UN action to prioritize security, growth and prosperity across West Africa and the Sahel region at the UN Security Council, reinforcing multilateral crisis-management architecture.³³⁵² This demonstrates the UK's support for UN-regional organization coordination to improve institutional effectiveness.

On 8 August 2025, the UK, along with G7 members in the G7 Rapid Response Mechanism (RRM) released a statement following the Hong Kong Arrest Warrants.³³⁵³ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 8 August 2025, the UK's Permanent Representative to the WTO and UN Kumar Iyer reaffirmed the UK's commitment to ensure that the WTO could continue to be an effective international financial organization.³³⁵⁴

On 10 August 2025, Ambassador Kariuki condemned Israel's escalation in Gaza at the UN Security Council, showing the United Kingdom's ongoing commitment towards meeting the principles of the UN Charter and international law.³³⁵⁵

On 11 August 2025, Ambassador Kariuki stated the UK's commitment to work with the International Maritime Organization (IMO) at the UN Security Council on Maritime Security. Kariuki stated that the UK is leading member states of the IMO and the maritime industry to develop a maritime cyber code to strengthen the resilience of ports, ships and the digital ecosystem.³³⁵⁶

On 29 August 2025, the UK voted in favour of the UNSC resolution on the mandate of the United Nations Interim Force in Lebanon (UNIFIL) allowing UNIFIL to operate for an additional 16 months before orderly withdrawal.³³⁵⁷ Ambassador Kariuki expressed disappointment in the Council's decision to withdraw before the full implementation of the resolution despite evidence-based assessment on the impact of UNIFIL's withdrawal posing a security risk.

On 9 September 2025, Ambassador Kariuki underscored the importance of UN peace operations in advancing international peace and security during the UNSC meeting on the future of Peace Operations.³³⁵⁸ He provided recommendations to improve the performance of UN peace operations including providing training and equipment, upholding performance and conduct standards. Ambassador Kariuki reiterated the UK's commitment to bolstering UN peace operations.

On 11 September 2025, Prime Minister of the UK Keir Starmer in call with President Emmanuel Macron condemned Russia's violation of NATO airspace and reiterated their commitment to defending NATO from Russia's threats.³³⁵⁹

On 23 September 2025, the UK, together with the other G7 countries' foreign ministers, issued a joint statement recognizing the fundamental need for UN reform and expressing willingness to participate in the process.³³⁶⁰

On 24 September 2025, UK Deputy Prime Minister David Lammy addressed the UN Security Council on artificial intelligence, urging global cooperation to ensure AI strengthens peace and security.³³⁶¹ He welcomed the UN Secretary-General's report on military AI, reaffirming international law as the foundation for responsible use and highlighting the UK's leadership through the AI Security Institute and International AI Safety Report, demonstrating the UK's commitment to institutional reform and rules-based multilateralism within the UN system.

On 25 September 2025, UK Foreign Secretary Yvette Cooper reaffirmed the UK's commitment to multilateralism and institutional reform at the G20 Foreign Ministers' Meeting in New York.³³⁶² Cooper emphasized defending the UN Charter and strengthening cooperation for global peace and prosperity. These actions demonstrate the UK's commitment to institutional representativeness and effectiveness within the multilateral system.

On 1 October 2025, the G7 Foreign Ministers and the High Representative of the European Union released a statement in support of the reimposition of UNSC sanctions and restrictions against Iran due to the government's failure to meet requirements under the Joint Comprehensive Plan of Action (JCPOA).³³⁶³ This demonstrates the ministers' commitment to bolstering the institutional effectiveness of the UN.

On 1 October 2025, UK Deputy Permanent Representative to the United Nations James Kariuki reaffirmed the United Kingdom's support for UN-led diplomacy and multilateral conflict resolution during the UN Security Council meeting on Gaza.³³⁶⁴ Kariuki noted the UK's reiterated condemnation of Hamas' actions and Israel's disproportionate military response and urged Israel to lift aid restrictions in line with international humanitarian law. He also reaffirmed the UK's recognition of the State of Palestine as part of its commitment to a two-state solution. These actions demonstrate the UK's support for rules-based multilateralism and institutional effectiveness within the UN system.

On 6 October 2025, Ambassador and Permanent Representative Kumar Iyer stated the importance of WTO reform and remains committed to supporting the focus of the MC14 as a reform Ministerial Conference during

the WTO General Council.³³⁶⁵ He reiterated the UK's priorities for WTO reform being decision-making, Special and Differential Treatment (S&DT) and market-distorting practices.

On 7 October 2025, Deputy Director Partnerships Rurik Marsden delivered a statement at the 76th session of the UNHCR Executive Committee.³³⁶⁶ He reiterated the UK's commitment to endorsing the UNHCR's role in upholding protection standards and the UNHCR's sustainable responses initiative. Deputy Director Marsden highlighted integrating the UN80 and Humanitarian Reset proposals into the UNHCR to modernize its operations.

On 7 October 2025, UK Ambassador to the General Assembly Archie Young reaffirmed the UK's commitment to strengthening United Nations – African Union cooperation during the United Nations Security Council meeting on Cooperation between the United Nations and the African Union.³³⁶⁷ Ambassador Young endorsed closer coordination under the UN80 reform agenda, supported the implementation of Resolution 2719 on African-Union-led peace operations, and announced the United Kingdom's USD22 million contribution to the African Union Support and Stabilization Mission in Somalia. These actions demonstrate the UK's commitment to institutional effectiveness, representativeness, and accountability through strengthened regional and multilateral partnerships.

On 8 October 2025, members of the G7 and the Nordic-Baltic 8++ (Belgium, Canada, Denmark, Estonia, European Union, Finland, France, Germany, Iceland, Italy, Japan, Latvia, Lithuania, Netherlands, Norway, Poland, Sweden and the United Kingdom) released a joint statement committing to enhance cooperation and advance efforts on disrupting and deterring global shadow fleet activity.³³⁶⁸ Members further reaffirmed their commitment to upholding international law such as the UN Convention on the Law of the Sea and acting in accordance with International Maritime Organization and International Labour Organization conventions and resolutions.

On 16 October 2025, Minister for Development Jennifer Chapman issued a series of remarks on institutional legitimacy and governance at the Development Committee plenary during the World Bank Group (WBG) and International Monetary Fund (IMF) 2025 Annual Meetings.³³⁶⁹ She reiterated the importance of the Shareholding Review, reconfiguring the Committee to give more voting power to low-income countries and developing long-term foresight to safeguard the Bank's legitimacy.

On 17 October 2025, the G7 Development Ministers convened on the peripheries of the annual World Bank Group and International Monetary Fund meetings in Washington D.C. to identify opportunities for further collaboration within the G7.³³⁷⁰ The Ministers also underscored the importance of reforms to multilateral

institutions focus on institutional performance and outcomes such as “structural realignment, mandate streamlining, and enhanced efficiency.”

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).³³⁷¹ The report underscores the UK’s commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 22 October 2025, Ambassador Iyer underscored the importance of revitalizing the multilateral trading system through reforming the WTO and modernizing the UN Trade and Development (UNCTAD) on behalf of the JUSCANZ Group at the 16th UN Conference on Trade and Development.³³⁷² He further reiterated the Group’s support for the UN80 reform initiatives that re-align the UN on its core priority areas.

On 23 October 2025, the Ministers and high representatives of Armenia, Australia, Belgium, Canada, Chile, Colombia, Cyprus, Dominican Republic, Estonia, France, Germany, Iceland, Ireland, Kosovo, Latvia, Liberia, Lithuania, Luxembourg, Mexico, Moldova, the Netherlands, North Macedonia, Norway, Portugal, Rwanda, Slovenia, Spain, Thailand, Ukraine, United Kingdom, Uruguay participated at the 4th Ministerial Conference on Feminist Foreign Policies.³³⁷³ The Joint Declaration demonstrates the UK’s commitment to upholding the Universal Declaration of Human Rights, UN principles and the UNSC Resolution 1325 (Women, Peace and Security agenda), advancing institutional reform of the UN and strengthening multilateral engagement.

On 23 October 2025, Ambassador Holland underscored the role of the OSCE as a platform for participating States to engage in “deterrence and risk-reduction messaging” and a “forum for genuine dialogue” in response to Russia’s use of OSCE to spread disinformation.³³⁷⁴

On 24 October 2025, Ambassador Kariuki reiterated the UK’s commitment to reforming the UNSC to be “more representative of the world today,” through extending permanent membership status for Africa and permanent seats for Germany, Japan, India and Brazil.³³⁷⁵ Minister Kariuki underscored the importance of all UN member states’ obligation to act in compliance with the UN Charter.

³³⁷⁵ The UN’s founding purposes and principles are as essential today as they were 80 years ago: UK statement at the UN Security Council, Foreign, Commonwealth & Development office (New York) 24 October 2025. Access Date: 5 November 2025. <https://www.gov.uk/government/speeches/the-uns-founding-purposes-and-principles-are-as-essential-today-as-they-were-80-years-ago-uk-statement-at-the-un-security-council>

On 30 October 2025, UK Legal Adviser at the UNGA Sally Langrish reiterated the UK's support for the ICJ.³³⁷⁶ She commended the ICJ's handling of contentious cases, its role in advisory proceedings and "the Court's impartiality, independence and legal rigor" to maintaining the credibility of the international legal system. Legal Adviser Langrish called on States to accept the Court's jurisdiction, bolstering the institutional effectiveness of the ICJ.

On 30 October 2025, Permanent Representative to the WTO and the UN Kumar Iyer reiterated the urgency in WTO reform during the UK Closing Statement at the UK's Trade Policy Review at the WTO.³³⁷⁷

On 31 October 2025, Ambassador Kariuki reiterated the UK's support for the UN Verification Mission and called on UNSC members to voting for the resolution on the Colombia UNSCR.³³⁷⁸

On 31 October 2025, Ambassador Kariuki reaffirmed the UK's support for UN Support Mission in Libya's (UNSMIL) efforts to advance a Libyan-led and Libyan-owned political process.³³⁷⁹ He further encouraged all parties to engage with the UN roadmap towards "free, fair, transparent, and inclusive elections."

On 4 November 2025, UK Spokesperson and Counsellor Letisha Lunin issued a statement on information integrity and the role of the UN at the UN Fourth Committee on Information Integrity.³³⁸⁰ She reiterated the responsibility of UN member states to protect the integrity of the UN as a trusted source of information. Spokesperson Lunin reaffirmed the UK's commitment to protecting the integrity of the UN by exposing Russian disinformation and sanctioning the Russian state-funded Social Design Agency.

On 5 November 2025, UK Minister Counsellor Jennifer MacNaughtan reiterated the UK's support for UN Interim Security Force for Abyei (UNISFA) at the UNSC meeting.³³⁸¹ She highlighted the critical role of the UNISFA in community peace initiatives. Counsellor MacNaughtan stated the UK's commitment to further engaging in the renewal of the UNISFA's mandate for maintaining peace in South Sudan.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People Republic of

Korea's cyber and information technology activities that violate UNSCRs.³³⁸² The report underscores Germany's commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

On 5 November 2025, Defence Minister Alistair Carns and Minister for Europe, North America and Overseas Territories Stephen Doughty stated the UK Carrier Strike Group will strengthen NATO Security through exercises in the Mediterranean and the Indo-Pacific Region.³³⁸³ This initiative aims to strengthen NATO's air capabilities and boost the effectiveness of the Alliance.

The United Kingdom has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. The UK has taken moderate action in reforming UN bodies and international organizations such as NATO and OSCE. It has also taken steps to address the key criteria of institutional representation, institutional effectiveness and institutional transparency and accountability. However, it has not taken strong action to reform a UN body or a relevant international organization.

Thus, the United Kingdom receives a score of 0.

Analyst: Beisen (Sam) Gao

United States: –1

The United States has not complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 6 December 2024, North Atlantic Treaty Organization (NATO) allies including the United Kingdom released a joint statement to the Organization for Security and Co-operation in Europe (OSCE) on Russia's invasion of Ukraine where members reaffirmed their commitment to maintaining channels of communication to "to manage and mitigate risk, prevent escalation and build trust and confidence" and align with the principles of transparency at the OSCE Ministerial Council.³³⁸⁴

On 20 January 2025, President Donald Trump issued an Executive Order pausing US foreign aid for 90 days, affecting approximately USD5 billion in governance and transparency-related programs globally.³³⁸⁵ Secretary of State Marco Rubio subsequently approved selective waivers but drew criticism for interrupting these critical programs, impacting nearly 280 US-assisted governance and transparency initiatives worldwide.

On 4 February 2025, President Donald Trump issued an executive order stating that the US would not participate in the United Nations High Commissioner for Refugees (UNHRC), would conduct a review of its membership in the United Nations Educational, Scientific and Cultural Organization (UNESCO) and would not make any payments to the United Nations Relief and Works Agency for Palestine Refugees in the Near

East (UNRWA).³³⁸⁶ Additionally, a review of all international intergovernmental organizations such as the World Bank and the International Monetary Fund (IMF) were to be reviewed within 180 days.

On 6 February 2025, the White House announced the implementation of sanctions against the International Criminal Court (ICC) due to its illegitimate actions, which are deemed to unfairly target the United States and Israel.³³⁸⁷ The White House also added that the U.S. would oppose actions taken by the ICC against the U.S., running counter to the purposes and principles of the UN Charter and international law.

On 18 February 2025, Ambassador Dorothy Shea emphasized reform at a UN Security Council debate.³³⁸⁸ She criticized inefficiencies in UN institutions, including those managing multi-billion-dollar humanitarian aid programs, explicitly urging greater transparency and fiscal accountability.

On 22 February 2025, Secretary of State Marco Rubio did not participate in the G20 Foreign Ministers' Meeting.³³⁸⁹ This action is antithetical to the commitment and undermines global governance initiatives.

On 4 March 2025, US representative on the United Nations Loss and Damage Fund board Rebecca Lawlor announced the US's withdrawal from the board of the fund, which is a multilateral climate finance mechanism established to compensate vulnerable countries for climate-induced losses.³³⁹⁰ The decision involved the resignation of the primary and alternate US board members without replacement. This withdrawal undermines the operational legitimacy of the fund and weakens global efforts to ensure equitable climate governance.

On 8 March 2025, the US formally announced that it would deny all future funding to the United Nations Population Fund (UNFPA), citing the Kemp-Kasten Amendment as legal justification.³³⁹¹ This decision terminated over USD335 million in humanitarian health grants, eliminating one of the most significant funding streams for maternal care, reproductive health and gender-based violence prevention in over 20 conflict-affected countries.

On 13 March 2025, Counselor for Economic and Social Affairs at the US Mission to the UN Edward Hartney announced the US rejects the United Nations Sustainable Development Goals, citing concerns over national sovereignty.³³⁹² This decision marked a significant departure from international commitments to address global challenges collectively, such as poverty, inequality and climate change.

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers' Declaration on Maritime Security and Prosperity. The ministers reaffirmed the G7's commitment to "a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources." The ministers also reiterated their commitment to tackling the "Emerging

Threat on Safe Seas and Freedom of Navigation and Overflight,” “Safe Shipping and Supply Chain Security,” “Sustainable Stewardship of Maritime Resources” and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7 support for “Ukraine’s long-term prosperity and security,” “Regional peace and stability in the Middle East,” “Cooperation to increase security and resilience across the Indo-Pacific,” “Building stability and resilience in Haiti and Venezuela,” “Supporting lasting peace in Sudan and the Democratic Republic of the Congo” and “Strengthening sanctions and countering hybrid warfare and sabotage.” The joint statement reflects the G7’s commitment to strengthening the institutional effectiveness of the G7.

On 2 April 2025, President Trump announced a sweeping tariff policy dubbed “Liberation Day,” imposing a universal ten per cent tariff on all imports, with higher rates for specific countries, including a 54 per cent effective tariff on Chinese goods.³³⁹³ This move, justified under a declared national emergency, undermines the World Trade Organizations’ (WTO) principles and escalates global trade tensions.

On 25 April 2025, Treasury Secretary Scott Bessent participated in bilateral discussions with Indonesian Finance Minister Sri Mulyani Indrawati during the G20 and IMF Spring Meetings in Washington D.C. ³³⁹⁴ The meeting focused on the future of multilateral trade and financial institutions, with particular attention to proposed reforms at the WTO.

On 27 May 2025, Argentine Minister of Health Mario Lugones and U.S. Health and Human Services Secretary Robert F. Kennedy Jr. and released a joint statement about their withdrawal from the WHO, citing the lack of reforms, transparency, excessive economic demands and increased politicization of the WHO as reasons for their withdrawal.³³⁹⁵

On 29 May 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, the United Kingdom and the United States as a part of the Multilateral Sanctions Monitoring Team issued a joint statement on unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions.³³⁹⁶ The multilateral mechanism aims to monitor and report on sanction measures implemented by the United Nations. This initiative underscores ongoing to advancing the UN’s institutional effectiveness.

On 4 June 2025, the U.S. vetoed a UNSC resolution because it was deemed to target Israel.³³⁹⁷ Secretary Rubio emphasized that the U.S. would not support a resolution that does not condemn Hamas, asking Hamas to leave Gaza or disarm, as well as not respect Israel’s right to self-defence and called on the UN to return to its original principles of promoting peace and security.

On 6 June 2025, Secretary Rubio announced the sanctioning of four ICC judges, including Solomy Balungi Bossa, Luz Del Carmen Ibanez Carranza, Reine Adelaide Sophie Alapini Gansou and Beti Hohler, citing their “abuse of power” during cases related to Afghanistan and Israel for their decision, rejecting international law.³³⁹⁸

On 25 June 2025, Secretary Rubio met with the G7 foreign ministers ahead of the NATO Summit to discuss Iran’s nuclear proliferation and cooperating to work towards a free and open Indo-Pacific region.³³⁹⁹

On 30 June 2025, the G7 Foreign Ministers, including the U.S., released a statement endorsing the ceasefire between Israel and Iran and condemning Iran for their use of nuclear weapons under the International Atomic Energy Agency (IAEA).³⁴⁰⁰

On 10 July 2025, Secretary Rubio emphasized the importance of the ASEAN-U.S. partnership and reiterated the U.S.’s commitment to working with ASEAN on regional and global issues at the ASEAN Post Ministerial Conference.³⁴⁰¹

On 15 July 2025, Donald Trump’s pick for US Ambassador to the United Nations, Mike Waltz, spoke before the Senate Foreign Relations Committee.³⁴⁰² Waltz emphasized the need for sweeping reforms at the UN, including staff reductions of around 20 per cent, as outlined in Secretary-General Guterres’s UN80 reform plan. He framed the UN as having strayed from its founding mission of peacekeeping and vowed to aggressively counter China’s influence while demanding greater transparency.

On 22 July 2025, the Trump administration announced that the US would withdraw from UNESCO again, the second such exit, citing misalignment with US values and claims of the agency advancing “woke” or anti-Israel positions.³⁴⁰³ This withdrawal is scheduled to take effect at the end of December 2026. Director-General Audrey Azoulay expressed regret but noted the move was anticipated and that the agency had taken steps to buffer financial impacts.³⁴⁰⁴ This decision further diminishes US influence in global cultural diplomacy and could open space for rivals like China to expand their role.

On 8 August 2025, the US, along with G7 members in the G7 Rapid Response Mechanism (RRM) released a statement following the Hong Kong Arrest Warrants.³⁴⁰⁵ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 23 September 2025, the United States, together with the other G7 countries' foreign ministers, issued a joint statement recognizing the fundamental need for UN reform and expressing willingness to participate in the process.³⁴⁰⁶

On 23 September 2025, President Donald Trump addressed the UN General Assembly and declared that climate change is “the greatest con job” in the world, rejecting global projections and warning of negative impacts from climate policy.³⁴⁰⁷ This public skepticism diminishes the U.S.'s representation and moral authority in climate governance.

On 1 October 2025, the G7 Foreign Ministers and the High Representative of the European Union released a statement in support of the reimposition of UNSC sanctions and restrictions against Iran due to the government's failure to meet requirements under the Joint Comprehensive Plan of Action (JCPOA).³⁴⁰⁸ This demonstrates the ministers' commitment to bolstering the institutional effectiveness of the UN.

On 17 October 2025, the G7 Development Ministers convened on the peripheries of the annual World Bank Group and International Monetary Fund meetings in Washington D.C. to identify opportunities for further collaboration within the G7. ³⁴⁰⁹ The Ministers also underscored the importance of reforms to multilateral institutions focus on institutional performance and outcomes such as “structural realignment, mandate streamlining, and enhanced efficiency.”

On 22 October 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, South Korea, United Kingdom and United States as a part of the Multilateral Sanctions Monitoring Team issued their second joint statement on the unlawful military cooperation between North Korea and Russia, in violation of UNSC resolutions (UNSCRs).³⁴¹⁰ The report underscores the US's commitment to the full implementation of UNSCRs. Further, the report calls on the UNSC to reimplement the Panel of Experts to maintain international security and hold the North Korea accountable in its violation and evasion of UN sanctions.

On 1 November 2025, APEC Leaders from Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, the United States and Vietnam released the APEC Leaders' Declaration 2025.³⁴¹¹ Leaders reiterated their commitment to advancing structural reforms that strengthen innovation, productivity and economic vitality.

On 4 November 2025, Australia, Canada, France, Germany, Italy, Japan, Netherlands, New Zealand, Republic of Korea, United Kingdom and United States issued a joint statement on the Democratic People's Republic of

Korea's cyber and information technology activities that violate UNSCRs.³⁴¹² The report underscores Germany's commitment to the full implementation of UNSCRs. Further, the report called on the UNSC to re-establish the Panel of Experts to bolster the institutional effectiveness of the UN.

The United States has not complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. The G20 member has verbally committed to reforming governance structures, however, policy shifts and widespread withdrawals from multilateral organizations and meetings undermine are actions antithetical to the commitment.

Thus, the United States receives a score of -1 .³⁴¹³

Analyst: Lou Cardot

African Union: 0

The African Union has partially complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 10 December 2024, the African Union (AU) delegation represented by Legal Counsel of the AU Hajer Gueldich and Makan Moïse Mbengue delivered a statement at the International Court of Justice (ICJ) on the obligations of states with regards to the legal consequences of failing to address climate change.³⁴¹⁴ The AU delegation affirmed the application of the principle of common but differentiated responsibilities and accountability mechanisms for major emitting states. The address demonstrates the AU's commitment to bolstering the international legal order and the institutional effectiveness of the ICJ.

On 23 February 2025, the AU delegation attended the G20 Foreign Ministers' Meeting where they stated key areas of focus under South Africa's G20 Presidency: 1) "Inclusive Economic Growth, Industrialization, Employment, and Inequality," 2) "Food Security and Agriculture," 3) "Artificial Intelligence, Data Governance, and Innovation," 4) "Compact with Africa (CWA)," 5) "Cost of Capital Commission" and 6) "G20 @20 Review Process."³⁴¹⁵ This highlights the AU's commitment to bolstering the institutional effectiveness in global governance and decision-making processes of the G20.

On 17 April 2025, Chairperson of the AU Commission Mahmoud Ali Youssouf met with the Executive Director of the United Nations Office for Project Services (UNOPS) where they discussed enhancing strategic

cooperation between the AU and UNOPS in the areas of “peace & security, governance, health systems strengthening, infrastructure and pandemic preparedness.”³⁴¹⁶

On 28 April 2025, AUC Chairperson Youssouf met with the UN Special Envoy for the Great Lakes Region Huang Xia where they reaffirmed their commitment to an AU-UN partnership and focusing on coordinated regional and international peacekeeping efforts to pursue peace and stability.³⁴¹⁷

On 7 March 2025, members of the bureau of the Committee of the Directors general of the National Statistics offices and representatives from the African Union Institute for Statistics (AU STATFRIC) participated in the 56th session of the United Nations Statistical Commission.³⁴¹⁸ This demonstrates the AU’s commitment to supporting the work of the UN Statistical Commission in setting global statistical standards and its role in wider UN processes.

On 7 March 2025, the AU and the United Nations Development Coordination Office (UNDCO) signed the Spotlight Initiative Africa Regional Programme 2.0 (SIARP) Agreement to formalize the AU-UNDCO strategic partnership.³⁴¹⁹ This agreement builds on SIARP 1.0 on driving action towards gender equality and promoting women’s empowerment. It aims to consolidate cooperation between the AU, the EU and the UN through policy harmonization and capacity building. This initiative demonstrates the AU’s commitment to multilateral cooperation and bolstering the institutional effectiveness of the UN.

On 11 March 2025, the African Union Economic, Social and Cultural Council, the United Nations on the Status of Women and the European Economic and Social Committee reaffirmed their commitment to the Beijing Declaration and Platform for Action.³⁴²⁰ This demonstrates the AU’s commitment to gender equality policy frameworks and bolstering the institutional effectiveness of the UN.

On 3 May 2025, Representatives for the AU Hajer Gueldich and Mamadou Hébié addressed the ICJ regarding actions committed by Israel that violate international laws and the operation of international organizations such as the United Nations Relief and Works Agency.³⁴²¹ This demonstrates the AU’s commitment to bolstering the institutional effectiveness of the UN.

On 16 May 2025, AUC Chairperson Youssouf met with the Secretary-General of the UN António Guterres where they reaffirmed enhancing strategic partnerships between the AU and the UN focusing on political processes, preventive diplomacy and peace support operations.³⁴²²

On 22 May 2025, the AUC on International Law (AUCIL) invited media representatives to their 11th Forum, which focused on Africa's efforts towards WTO reform.³⁴²³

On 24 May 2025, the AU and the World Health Organization (WHO) renewed their strategic partnership through the signing of a Memorandum of Understanding at the 78th World Health Assembly in Geneva.³⁴²⁴ This agreement reaffirms the AU's commitment to bolstering the institutional effectiveness of the WHO in advancing health security, strengthening regulatory harmonization and responses in humanitarian crisis and emergencies and implementing frameworks for disease prevention and control.

On 4 June 2025, Zambia's Foreign Minister Mulambo Haimbe emphasized the importance of reforming the UNSC, especially for fairer representation, as Africa is the only continent without permanent representation at the UNSC at the 13th Ministerial Meeting of the African Union's Committee of Ten (C10).³⁴²⁵

On 4 July 2025, AUC Chairperson Youssouf met with the President of the International Criminal Police Organization (INTERPOL) Ahmed Naser Al-Raisi where both parties reiterated their commitment towards strengthening their partnership to tackle transnational crime and international law in Africa.³⁴²⁶

On 7 July 2025, Angolan President and Chairperson of the African Union João Lourenço emphasized the importance of reforming global governance institutions to better reflect the changes the geopolitical landscape and international order have gone through since the UN's inception.³⁴²⁷

On 22 July 2025, AUC Deputy Chairperson Selma Haddadi met with UN Under-Secretary-General for Operational Support Atul Khare and emphasized the importance of strengthening ties between the AU and UN through knowledge exchange and strategic partnerships.³⁴²⁸

On 24 July 2025, the AU delegation attended the Third G20 Sherpa Meeting ahead of the 2025 G20 Summit, where there were discussions about reforming the international financial system, including the G20 Common Framework for Debt Treatment.³⁴²⁹

On 28 July 2025, AUC Chairperson Youssouf met with the World Food Programme (WFP) Executive Director Cindy McCain and reiterated the AU's interest in working with the WFP to address challenges around food security.³⁴³⁰

On 29 July 2025, AUC Chairperson Youssouf met with the UN Deputy Secretary-General Amina Mohammed and reiterated their commitment to the AU-UN Framework Agreement, which aims to strengthen partnership for peace and security.³⁴³¹

On 29 July 2025, AUC Chairperson Youssouf met with Director General of the Islamic Organization for Food Security (IOFS) Ambassador Berik Aryn and discussed bolstering AUC-UN cooperation to tackle food security and transform agriculture, which are a part of the AU Agenda 2063.³⁴³²

On 29 June 2025, the AU released details for the 13th High-Level Dialogue on Human Rights, Democracy and Governance.³⁴³³ The rationale for this year's theme, "Justice for Africans and people of African Descent through reparations," aims to allow AU member states to discuss how to bolster stronger relations within the UN system.

On 8 August 2025, Deputy Chairperson Haddadi met with WHO Africa's Director Mohamed Yakub Janabi to discuss strengthening collaboration between the AU and WHO.³⁴³⁴

On 13 August 2025, the AU, with South Africa, the AU Commission, the AU-Continental Africa Water Investment Programme (AIP), AU-AIP International High-Level Panel on Water Investments for Africa and the African Union Development Agency–New Partnership for Africa's Development convened the 2025 AU-AIP Water Investment Summit in the context of South Africa's G20 Presidency, aiming to accelerate investments into African water and sanitation programmes by promoting a pipeline of investible projects and enabling an environment for landmark investment partnerships and transformative financing.³⁴³⁵ This demonstrates the AU's commitment to advancing efforts towards inclusive and sustainable economic growth and social advancement.

On 21 September 2025, the UN, EU and AU reaffirmed their commitment to peace and sustainable development in Africa and to multilateralism as "the most effective way to address today's challenges."³⁴³⁶ They also pledged deeper trilateral cooperation to advance African-led solutions to peace and security challenges.

On 7 October 2025, the AU participated in the AU-EU 20th Human Rights Dialogue in Brussels.³⁴³⁷ The Dialogue concluded with the release of a Joint Communiqué that reaffirmed the principle of universality and mutually reinforcing nature of all human rights to continue guiding the EU's and AU's joint efforts in the multilateral sphere to strengthen the right to development. They underlined the importance of joint programs addressing youth and continuing the Dialogue annually to jointly assess the state of Human Rights in Europe and Africa.

On 20 October 2025, the AU and the UN held the Third Retreat of the AU Special Representatives/Permanent Representatives of the Chairperson of the Commission SRCCs/PRs and the UN Special Representatives/Special Envoys/Personal Envoys of the Secretary-General (SRSGs/SESGs/PESGs) under the theme of “Strengthening Collaboration in Conflict Prevention and Resolution in Africa.”³⁴³⁸ Participants underscored the importance of reforming global governance architecture such as the UNSC and Bretton Woods institutions.

The African Union has partially complied in its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. The African Union has taken moderate action to reform international organizations such as the ICJ, the WHO, the G20 and relevant UN bodies. In addition, it has taken steps to meet the key criteria of institutional effectiveness. However, it has not taken strong action to reform other international organizations or advocate for reform under the criteria of transparency and accountability.

Thus, the African Union receives a score of 0.

Analyst: Natalie Lan

European Union: +1

The European Union has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the United Nations Charter and international law, with renewed institutions and a reformed governance that is more representative, effective, transparent and accountable, reflecting the social, economic and political realities of the 21st century.

On 24 November 2024, Commissioner for Justice Didier Reynders delivered a statement at the 13th UN Forum on Business and Human Rights.³⁴³⁹ He stated the importance of international frameworks including the UN Guiding Principles on Business and Human Rights and the Organisation for Economic Co-operation and Development (OECD) Guidelines. Commissioner Reynders further supported the development of a Legally Binding Instrument on Business and Human Rights at the UN level to bolster institutional effectiveness and institutional transparency and accountability.

On 5 December 2024, the EU and the Southern Common Market (MERCOSUR) reached an agreement on a partnership agreement.³⁴⁴⁰ This initiative promotes the institutional effectiveness of MERCOSUR through advancing and removing barriers to economic growth and sustainable development.³⁴⁴¹ It bolsters the institutional transparency and accountability of MERCOSUR through the implementation of a dispute settlement mechanism involving external representatives and a commitment towards regulatory transparency for Small and Medium-sized Enterprises (SMEs). The partnership aligns with international standards and regulations, upholding the legitimacy and effectiveness of the International Labour Organization (ILO).

On 6 January 2025, Commissioner for Trade and Economic Security; Interinstitutional Relations and Transparency Maroš Šefčovič stated the EU’s commitment to revitalizing the World Trade Organization

(WTO) through strengthening rules-based trade; promoting the WTO's role on industrial policies; a level-playing field and economic security.³⁴⁴²

On 19 January 2025, Commissioner for Defence and Space Andrius committed to strengthening cooperation with North Atlantic Treaty Organization (NATO) and implement information sharing mechanisms on NATO capability targets at the meeting of the North Atlantic Council.³⁴⁴³ This demonstrates the EU's commitment to bolstering the institutional effectiveness and institutional transparency and accountability of NATO.

On 21 January 2025, Commissioner Kubilius reaffirmed the EU's support for and collaboration with NATO and the European Defence Agency in assessing defense capabilities and setting defense targets.³⁴⁴⁴

On 4 February 2025, the European Economic and Social Committee (EESC) and the International Labor Organization (ILO) held a joint high-level conference: 'Social Justice in the Digital Era: AI's impact on work and society' with the agenda of 'how AI can contribute to inclusive labor markets, decent work, and social justice.'³⁴⁴⁵ The conference concluded with a call for multilateral cooperation. The EESC and ILO also committed to continued collaboration with the Global Coalition for Social Justice, ensuring that AI governance remains a key priority for policymakers across Europe and beyond.

On 8 February 2025, President of the European Commission Ursula von der Leyen stated the importance of bolstering collective efforts between the EU and NATO to secure critical network infrastructure at the joint press conference at the Synchronisation Baltic Connectors opening event.³⁴⁴⁶ President von der Leyen outlined four key priorities including prevention, detection, fast response and repair and deterrence. This demonstrates the EU's commitment to bolstering the institutional effectiveness of NATO defense capabilities.

On 10 February 2025, Commissioner for Democracy, Justice, the Rule of Law and Consumer Protection Michael McGrath reaffirmed the EU's support for the International Court of Justice (ICJ) as the principal judicial organ of the UN and its contribution to maintaining international rules-based order.³⁴⁴⁷ Commissioner McGrath further reiterated the binding force of and compliance to ICJ decisions. This demonstrates the EU's commitment to bolstering the institutional effectiveness of the ICJ.

On 11 February 2025, the European Commission adopted the 2025 work programme where the EU committed to investing strategically through NATO partnership to "enhance crisis anticipation and resilience" and reinforce collective defense and security.³⁴⁴⁸

On 12 February 2025, Commissioner for Climate, Net Zero and Clean Growth Wopke Hoekstra stated the importance of increasing system compatibility and collaboration with NATO to address global geopolitical challenges at the Munich European Conference.³⁴⁴⁹

On 11 March 2025, Foreign Policy Chief Kaja Kallas called for multilateralism and urged reform of the UN Security Council (UNSC) in a speech at the annual session on UN-EU cooperation.³⁴⁵⁰ She reaffirmed the EU's commitment to multilateral solutions and held reform of the Security Council as a necessary condition for the fulfillment of the responsibilities of ensuring the maintenance of international peace and security.

On 12 March 2025, President von der Leyen and President of the European Council António Costa met with President of South Africa Cyril Ramaphosa where the leaders issued a joint statement on a renewed commitment to multilateral cooperation of international organizations at the 8th Summit between the EU and South Africa.³⁴⁵¹ The leaders committed to strengthening the G20, reforming the UNSC to include underrepresented regions and reforming the WTO to improve its governance and align with today's realities.

On 14 March 2025, G7 Foreign Ministers released the G7 Foreign Ministers' Declaration on Maritime Security and Prosperity. The ministers reaffirmed the G7's commitment to "a free, open, and secure maritime domain based on the rule of law that strengthens international security, fosters economic prosperity, and ensures the sustainable use of marine resources." The ministers also reiterated their commitment to tackling the "Emerging Threat on Safe Seas and Freedom of Navigation and Overflight," "Safe Shipping and Supply Chain Security," "Sustainable Stewardship of Maritime Resources" and partnerships. This reflects their commitment to promoting dialogue between G7 members and stakeholders and bolstering the institutional effectiveness on matters related to maritime security and prosperity. They also released a joint statement that reaffirmed G7 support for "Ukraine's long-term prosperity and security," "Regional peace and stability in the Middle East," "Cooperation to increase security and resilience across the Indo-Pacific," "Building stability and resilience in Haiti and Venezuela," "Supporting lasting peace in Sudan and the Democratic Republic of the Congo" and "Strengthening sanctions and countering hybrid warfare and sabotage." The joint statement reflects the G7's commitment to strengthening the institutional effectiveness of the G7.

On 3 April 2025, the EU, Kazakhstan, the Kyrgyz Republic, Tajikistan, Turkmenistan and Uzbekistan signed a joint declaration following the first EU-Central Asia Summit, committing to upholding the principles of the UN Charter and the principles of the Organization for Security and Co-operation in Europe.³⁴⁵² This demonstrates the EU's commitment to bolstering the institutional representativeness and effectiveness of the UN and the OSCE through engaging with Central Asian countries and strengthening cooperation.

On 4 April 2025, President Costa and President von der Leyen reaffirmed their support for the accession of Uzbekistan and Turkmenistan to the WTO.³⁴⁵³ This demonstrates the EU's commitment to bolstering the institutional representativeness of the WTO.

undergoing reform through Gavi Leap, is an effective model to follow for pursuing reform for global health institutions.³⁴⁶¹

On 2 July 2025, Commissioner for the Mediterranean Dubravka Šuica spoke about the importance of women's economic empowerment in Europe and recognized the UN system for being instrumental in the effort to ensure gender equality.³⁴⁶² Commissioner Šuica also emphasized the EU's willingness to partner with the UN through the UN Spotlight Initiative to continue working towards ending violence against women and girls.

On 22 July 2025, the EU released a joint statement after the EU-Japan Summit, which emphasized both parties' commitment towards working with others to solve international challenges and foster an effective, representative and fair global governance system, in particular through upholding multilateralism, international law and the UN Charter.³⁴⁶³

On 23 July 2025, President von der Leyen and President Costa discussed matters of trade, investment, market access, export controls, the Russia-Ukraine War and climate change with President of China Xi Jinping during the EU-China Summit.³⁴⁶⁴ Both parties committed to finding pragmatic solutions despite differences, and the EU reaffirmed its readiness to enhance bilateral cooperation.

On 27 July 2025, Commissioner Šuica expressed support for the two-state solution for Palestine, citing that it aligns with international law.³⁴⁶⁵ Commissioner Šuica also pledged the EU's support to both Israel and Palestine to work together in ensuring a fair and effective end to the war.

On 28 July 2025, the EU and the Arab League co-chaired the working group, "Peace Day Effort," during the UN "High-level International Conference for the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution."³⁴⁶⁶ The high-level plenary meeting and working groups facilitated discussions and consensus-building on concrete steps for international engagement and humanitarian action. This demonstrates the EU's commitment to bolstering the institutional effectiveness of the UN.

On 8 August 2025, the EU, along with G7 members in the G7 Rapid Response Mechanism (RRM) released a statement following the Hong Kong Arrest Warrants.³⁴⁶⁷ This statement highlighted the role of the G7 RRM as a protection for state sovereignty and the need for the RRM to protect these rights and freedoms.

On 29 August 2025, the Ambassador of the EU to the UN Stavros Lambrinidis reaffirmed continuing political, financial, economic, humanitarian, military and diplomatic support to Ukraine and stated that Russia should be held fully accountable for its acts of aggression in violation of the UN Charter and international law at the UN

Security Council on Maintenance of Peace and Security of Ukraine.³⁴⁶⁸ This demonstrates the EU's commitment to upholding accountability in multilateral institutions and its commitment to bilateral partnerships.

On 12 September 2025, the EU Delegation along with 48 other countries issued a joint press statement condemning the largest violation of Polish airspace by Russian drones since the beginning of the war in Ukraine and called for the Russian Federation to abide by the obligations enshrined in the Charter of the UN, showing the EU's commitment towards upholding international law and the principles of the UN Charter.³⁴⁶⁹

On 17 September 2025, Australia and the EU released a joint press statement following the 7th Australia-EU Joint Committee Meeting.³⁴⁷⁰ In this statement, Australia and the EU committed to cooperating in order to deeply reform the World Trade Organization.

On 21 September 2025, the UN, EU and the African Union (AU) reaffirmed their commitment to peace and sustainable development in Africa and to multilateralism as “the most effective way to address today's challenges.”³⁴⁷¹ They also pledged deeper trilateral cooperation to advance African-led solutions to peace and security challenges.

On 22 September 2025, the Africa-Europe Women Leaders Network meeting occurred to jointly drive a shared agenda for the 7th AU-EU Summit and build on the group's current advocacy efforts for sustainable development and finance.³⁴⁷²

On 23 September 2025, the European Union, together with the G7 countries' foreign ministers, issued a joint statement recognizing the fundamental need for UN reform and expressing willingness to participate in the process.³⁴⁷³

On 23 September 2025, Indian External Affairs Minister Jaishankar attended an informal meeting of EU Foreign Ministers hosted by the EU High Representative of Foreign Affairs Kaja Kallas at the UNGA to discuss Ukraine conflict, Gaza situation, multilateralism, energy and India-EU relations.³⁴⁷⁴

³⁴⁷⁴ Jaishankar meets EU ministers at UNGA, discusses Ukraine, Gaza, The Federal Voice of the States (New York) 23 September 2025. Access Date: 8 October 2025. <https://thefederal.com/category/news/jaishankar-eu-ministers-unga-ukraine-gaza-trade-208118>

On 23 September 2025, the EU Directorate-General for Communication stated that the focus of EU engagement in the 80th UNGA is to renew its commitment to multilateralism based on international law and to deepen partnerships across regions.³⁴⁷⁵

On 26 September 2025, European Council President Antonio Costa affirmed the EU's stance in favor of multilateralism at the 80th session of the UN General Assembly in New York, vowing that the EU "will remain a steadfast defender of multilateralism" and warned against a chaotic and violent future in the absence of multilateralism.³⁴⁷⁶

On 7 October 2025, the AU-EU 20th Human Rights Dialogue happened in Brussels, resulting in a Joint Communique that reaffirmed the principle of universality and mutually reinforcing nature of all human rights to continue guiding EU's and AU's joint efforts in the multilateral sphere to strengthen the right to development.³⁴⁷⁷ They underlined the importance of joint programs addressing youth and continuing the Dialogue annually to jointly assess the state of Human Rights in Europe and Africa.

On 8 October 2025, members of the G7 and the Nordic-Baltic 8++ (Belgium, Canada, Denmark, Estonia, European Union, Finland, France, Germany, Iceland, Italy, Japan, Latvia, Lithuania, Netherlands, Norway, Poland, Sweden and the United Kingdom) released a joint statement committing to enhance cooperation and advance efforts on disrupting and deterring global shadow fleet activity.³⁴⁷⁸ Members further reaffirmed their commitment to upholding international law such as the UN Convention on the Law of the Sea and acting in accordance with International Maritime Organization and International Labour Organization conventions and resolutions.

On 9 October 2025, President Ramaphosa reaffirmed South Africa and the EU's working relationship, as well as their shared commitment towards multilateralism, UN reform as well as protecting and upholding the principles of the UN Charter such as human rights, sustainability and peace.³⁴⁷⁹

On 15 October 2025, the European Commission and the High Representative proposed the "Preserving Peace – Defence Readiness Roadmap 2030" to strengthen European defence capabilities, which in turn advances NATO capability targets.³⁴⁸⁰

The European Union has fully complied with its commitment to work for a reinvigorated and strengthened multilateral system, rooted in the purposes and principles of the UN Charter and international law. The European Union has taken strong action to reform international organizations such as MERCOSUR and aligned with the key criteria of institutional effectiveness and transparency and accountability. It has taken several moderate actions to bolster the OSCE, G7, NATO, UNSC and ICJ through verbal reaffirmations.

Background

Since 2012, the G20 has made tackling climate change and its related challenges a primary objective, with mitigating greenhouse gas emissions becoming an increasingly vital element in efforts to address this global issue.³⁴⁸¹ Robust emissions reduction strategies are crucial for a resilient and sustainable future, as evidence shows that unchecked emissions exacerbate global warming and extreme weather conditions, disproportionately affecting disadvantaged communities.³⁴⁸²

Considering this objective, participants of the 21st session of the Conference of the Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC) adopted the Paris Agreement on 12 December 2015, in Paris, France.³⁴⁸³ The Paris Agreement aims to keep global average temperatures below 2°C above pre-industrial levels, with parties of the agreement pledging to take efforts to prevent an increase in global average temperatures beyond 1.5°C above pre-industrial levels. The implementation of the Paris Agreement has been mentioned at every G20 summit since it entered into force on 4 November 2016.

³⁴⁸³ The Paris Agreement, United Nations Framework Convention on Climate Change (Bonn) n.d. Access Date: 14 March 2025. <https://unfccc.int/process-and-meetings/the-paris-agreement>

At the 2012 Los Cabos Summit, G20 leaders reiterated their commitment to address climate change and welcomed the outcome of the 17th session of COP to the UNFCCC.³⁴⁸⁴

At the 2016 Hangzhou Summit, G20 leaders reaffirmed their commitment to the Paris Agreement and pledged to bring it into force through the emphasis of equity, climate finance, clean energy access and investment in low-greenhouse gas (GHG) energy.³⁴⁸⁵ G20 leaders also committed to strengthening international cooperation on climate mitigation and adaptation.

At the 2017 Hamburg Summit, G20 leaders declared the Paris Agreement irreversible and adopted the Climate and Energy Action Plan.³⁴⁸⁶ The leaders committed to implementing their countries' Nationally Determined Contributions (NDCs) and supporting developing countries. Leaders pledged financial and technological support for sustainable growth and low-emission strategies.³⁴⁸⁷

At the 2019 Osaka Summit, G20 leaders stressed the need for inclusive climate finance and clean technologies.³⁴⁸⁸ They committed to strengthening climate adaptation and mitigation efforts, supporting developing countries and aligning financial flows with the Paris Agreement. G20 leaders also reaffirmed their commitment to NDCs, with a goal to communicate, update or maintain their NDCs by 2020.

At the 2020 Riyadh Summit, G20 leaders reiterated their commitment to tackling climate change while ensuring energy security and economic growth.³⁴⁸⁹ Paris Agreement signatories reaffirmed their commitment to full implementation, stressing financial support for developing countries.

At the 2021 Rome Summit, G20 leaders pledged to accelerate climate mitigation, adaptation and finance, reaffirming the Paris Agreement.³⁴⁹⁰ They emphasized net-zero emissions by mid-century, strengthened NDCs and promoted clean energy access. G20 leaders also committed to scaling up climate finance, aiming to provide USD100 billion for this objective to developing countries.

At the 2022 Bali Summit, G20 leaders reaffirmed their commitment to the Paris Agreement and pledged to strengthen its implementation.³⁴⁹¹ They aimed to align NDCs with global temperature goals and scale up climate mitigation, adaptation and loss and damage efforts. G20 leaders also stressed the need for finance, technology and sustainable consumption to support climate action.

At the 2023 New Delhi Summit, G20 leaders resolved to accelerate efforts toward the Paris Agreement and pursue inclusive, sustainable growth.³⁴⁹² They committed to stronger NDC targets, reaffirmed their net-zero commitments and called for enhanced climate finance. G20 leaders also stressed ambitious, science-based action to limit the global average temperature increase to 1.5°C.

At the 2024 Rio de Janeiro Summit, G20 leaders emphasized sustainable development as key to tackling climate change and biodiversity loss.³⁴⁹³ They reaffirmed the Paris Agreement’s global average temperature goals and committed to net-zero emissions by 2050. G20 leaders also welcomed the outcome of the 28th session of COP, emphasizing the UAE Consensus and the first Global Stocktake of the Paris Agreement (GST-1).

Commitment Features

At the 2024 Rio de Janeiro Summit, leaders committed to “recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.”³⁴⁹⁴ This commitment is informed by the Paris Agreement which is a “legally binding international treaty on climate change” that calls on members to address global climate change, in accordance with national circumstances.³⁴⁹⁵ One of the overarching goals of the Paris Agreement, which was adopted on 12 December 2015 and entered into force on 4 November 2016, is focused on “holding the increase in the global average temperature to well below 2°C above pre-industrial levels and pursuing efforts to limit the temperature increase to 1.5°C above pre-industrial levels, recognizing that this would significantly reduce the risks and impacts of climate change.”³⁴⁹⁶ This goal can be seen as informing G20 members’ commitment to deep, rapid and sustained reductions in greenhouse gas emissions. Overall, this scope of this commitment is limited to climate mitigation and does not include climate adaptation or financing.

Definitions and Concepts

“Need” is understood to express an obligation and can be interpreted as “we commit to.”³⁴⁹⁷

“Climate change” is understood to mean “a change of climate which is attributed directly or indirectly to human activity that alters the composition of the global atmosphere and which is in addition to natural climate variability observed over comparable time periods.”³⁴⁹⁸

“Greenhouse gas emissions” are “gases which exist in earth’s atmosphere and trap the sun’s radiation, producing heat and allowing for life to exist on earth. These gases include water vapour; carbon dioxide; methane nitrous oxide and ozone. Human activity of burning fossil fuels, deforestation and intense agriculture and animal husbandry, all add huge quantities of greenhouse gases in the atmosphere, trapping earth’s heat and exacerbating climate change.”³⁴⁹⁹

According to the Intergovernmental Panel on Climate Change, “broad transformations in the energy; industry; transport; buildings; and agriculture, forestry and other land-use (AFOLU) sectors” are necessary to reduce greenhouse gas emissions in line with 1.5°C pathways.³⁵⁰⁰ Across sectors, mitigation measures to reduce greenhouse gas emissions focus on “decreasing the amount of emissions released into the atmosphere and...reducing the current concentration of carbon dioxide (CO₂) by enhancing sinks.”³⁵⁰¹ “Sinks” can be

³⁴⁹³ G20 Rio de Janeiro Leaders’ Declaration, G20 Information Centre (Toronto) 18 November 2024. Access Date: 5 March 2025. <https://www.g20.utoronto.ca/2024/241118-declaration.html>

³⁴⁹⁷ Compliance Coding Manual for International Institutional Commitments, Global Governance Program (Toronto) 12 November 2020. Access Date: 8 March 2025. https://www.g7.utoronto.ca/compliance/Compliance_Coding_Manual_2020.pdf

³⁴⁹⁸ Compliance Coding Manual for International Institutional Commitments, Global Governance Program (Toronto) 12 November 2020. Access Date: 8 March 2025. https://www.g7.utoronto.ca/compliance/Compliance_Coding_Manual_2020.pdf

³⁴⁹⁹ Compliance Coding Manual for International Institutional Commitments, Global Governance Program (Toronto) 12 November 2020. Access Date: 8 March 2025. https://www.g7.utoronto.ca/compliance/Compliance_Coding_Manual_2020.pdf

³⁵⁰⁰ Global Warming of 1.5°C, Intergovernmental Panel on Climate Change (Geneva) 2018. Access Date: 29 March 2025. https://www.ipcc.ch/site/assets/uploads/sites/2/2022/06/SR15_Full_Report_HR.pdf

³⁵⁰¹ Introduction to Mitigation, United Nations Framework Convention on Climate Change (Bonn) n.d. Access Date: 29 March 2025. <https://unfccc.int/topics/introduction-to-mitigation>

understood to mean “reservoir[s] (natural or human, in soil, ocean, and plants) where a greenhouse gas, an aerosol or a precursor of a greenhouse gas is stored. Note that UNFCCC Article 1.8 refers to a sink as any process, activity or mechanism which removes a greenhouse gas, an aerosol or a precursor of a greenhouse gas from the atmosphere.” Examples of sinks include forests, oceans, soils and wetlands as well as carbon capture and mineral sequestration technologies.³⁵⁰²

“Deep” is understood to mean “intense, profound; great in measure or degree.”³⁵⁰³ For this commitment, “deep” refers to substantial reductions in greenhouse gas emissions that support the target of net-zero carbon emissions by 2050 and reduce emissions for other major greenhouse gases like methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons and sulphur hexafluoride.³⁵⁰⁴ Net-zero carbon emissions “are achieved when anthropogenic CO₂ emissions are balanced globally by anthropogenic CO₂ removals over a specified period. Net zero CO₂ emissions are also referred to as carbon neutrality.”

“Rapid” is understood to mean “moving, progressing, or occurring with speed.”³⁵⁰⁵ Any actions taken during the compliance period for the Rio de Janeiro Cycle will be seen as satisfying the rapid component of the commitment.

“Sustained” is understood to mean “continuing for a long time.”³⁵⁰⁶ As sustained greenhouse gas emissions are difficult to measure in the short-term, this commitment will rely on the criteria for “deep” emissions reductions to measure compliance. However, actions that outline long-term commitments or plans can be seen as advancing sustained reductions in greenhouse gas emissions.

“1.5°C pathways” is understood to mean “pathway[s] of emissions of greenhouse gases and other climate forcers that [provide] an approximately one-in-two to two-in-three chance, given current knowledge of the climate response, of global warming either remaining below 1.5°C or returning to 1.5°C by around 2100 following an overshoot.”³⁵⁰⁷ In this sense, “overshoot” refers to the “temporary exceedance of a specified level of global warming, such as 1.5°C. Overshoot implies a peak followed by a decline in global warming, achieved through anthropogenic removal of CO₂ [carbon dioxide] exceeding remaining CO₂ emissions globally.”

“Global” refers to, or involves, “the entire world.”³⁵⁰⁸

“National circumstances” are understood to mean “the national or, as relevant, regional development priorities, objectives and circumstances that serve as the basis for addressing issues relating to climate change.”³⁵⁰⁹ These may include geographical characteristics, population, economy, education, information relating to Articles 4.8, 4.9 and 4.10 of the United Nations Framework Convention on Climate Change and any additional information considered relevant. National circumstances are “critical for understanding a country’s vulnerability, its capacity and its options for adapting to the adverse effects of climate change, as well as its options for addressing its GHG emissions within the broader context of sustainable development.”

³⁵⁰⁹ REPORTING ON CLIMATE CHANGE user manual for the guidelines on national communications from non-Annex I Parties, United Nations Framework Convention on Climate Change (Bonn) n.d. Access Date: 14 March 2025. https://unfccc.int/resource/userman_nc.pdf

“Nationally determined manner” refers to NDCs, which are an integral part of the Paris Agreement, per Article 4 paragraph 2 of the agreement.³⁵¹⁰ In NDCs, parties to the Paris Agreement outline their plans to reduce national emissions and address the impacts of climate change. NDCs take into account national circumstances, especially for developing countries, to ensure that the Paris Agreement is implemented in a “facilitative, non-intrusive, non-punitive manner, respectful of national sovereignty, and avoid placing undue burden on Parties.”³⁵¹¹

General Interpretive Guidelines

This commitment requires G20 members to support “deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.”³⁵¹² This commitment is understood to have three dimensions and several sub-parts requiring deep or substantial 1) reductions in carbon emissions to support net-zero carbon emissions by 2050, 2) reductions in the following major non-carbon greenhouse gas emissions: a) methane, b) nitrous oxide c) hydrofluorocarbons, d) perfluorocarbons and e) sulphur hexafluoride and 3) greenhouse gas reductions in the following sectors: a) energy, b) industry, c) transport, d) buildings and e) agriculture, forestry and other land use.

Full compliance, or a score of +1, will be given to a G20 member that takes strong action across all three commitment dimensions for deep 1) reductions in carbon emissions to support net-zero carbon emissions by 2050, 2) reductions in the following major non-carbon greenhouse gas emissions: a) methane, b) nitrous oxide c) hydrofluorocarbons, d) perfluorocarbons and e) sulphur hexafluoride and 3) greenhouse gas reductions in the following sectors: a) energy, b) industry, c) transport, d) buildings and e) agriculture, forestry and other land use.

To fulfil the requirements for full compliance, the G20 member must take strong action across Part 1 and most of Parts 2 and 3 of the commitment. Examples of strong action include schemes to dramatically reduce energy usage or advance clean energy transitions in transportation systems, investment programmes to increase carbon sequestration in soils to support carbon dioxide removal, expanding forest areas or other carbon sinks, capturing methane emissions from landfills, projects to increase solar, wind or other renewable energy capacities and bilateral partnerships to improve energy efficiency in the industry and building sectors.

Partial compliance, or a score of 0, will be given to a G20 member that takes strong action across Part 1 of the commitment and at least four of the ten sub-parts outlined in Part 2 and Part 3, or if the G20 member takes weak action across most of the commitment criteria. Examples of weak actions include verbal reaffirmations towards the commitment, releasing statements that acknowledge the importance of reducing greenhouse gas emissions, participating in bilateral meetings where the topic is discussed, or taking actions that have insignificant impacts on the reduction of greenhouse gas emissions.

Non-compliance, or a score of -1, will be given to a G20 member that fails to take action towards the commitment or only takes weak action across a few of the commitment criteria or takes action that is directly and explicitly antithetical to the commitment.

³⁵¹⁰ Nationally Determined Contributions (NDCs), United Nations Framework Convention of Climate Change (Bonn) n.d. Access Date: 8 March 2025. <https://unfccc.int/process-and-meetings/the-paris-agreement/nationally-determined-contributions-ndcs>

³⁵¹¹ The Paris Agreement, United Nations Framework Convention on Climate Change (Bonn) n.d. Access Date: 14 March 2025. <https://unfccc.int/process-and-meetings/the-paris-agreement>

³⁵¹² G20 Rio de Janeiro Leaders' Declaration, G20 Information Centre (Toronto) 18 November 2024. Access Date: 5 March 2025. <https://www.g20.utoronto.ca/2024/241118-declaration.html>

Scoring Guidelines

-1	The G20 member has failed to take action towards the commitment or has only taken weak action across a few of the commitment criteria or has taken action directly and explicitly antithetical to the commitment.
0	The G20 member has taken strong action across Part 1 and at least four of the then sub-parts in Parts 2 and 3 of the commitment, or the G20 member has taken weak action across most of the commitment criteria.
+1	The G20 member has taken strong action across most of the commitment criteria to support deep 1) reductions in carbon emissions to support net-zero carbon emissions by 2050, 2) reductions in the following major non-carbon greenhouse gas emissions: a) methane, b) nitrous oxide c) hydrofluorocarbons, d) perfluorocarbons and e) sulphur hexafluoride and 3) greenhouse gas reductions in the following sectors: a) energy, b) industry, c) transport, d) buildings and e) agriculture, forestry and other land use.

Compliance Director: Divvy Gupta
Lead Analyst: Candace Sara Ciju

Argentina: -1

Argentina has not complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 2 December 2024, Argentina announced that Transportadora Gas del Sur will expand the Perito Moreno Gas Pipeline to increase natural gas transportation in the country.³⁵¹³ This action is expected to result in the transportation of an additional 14 million cubic meters of gas per day. This is antithetical to the commitment which requires strong action to reduce carbon emissions to support net-zero emissions by 2050.

On 24 January 2025, the Energy Secretariat of the Ministry of Economy announced Resolution 15/2025 which further deregulates the Liquefied Petroleum Gas market.³⁵¹⁴ While this action intends to increase competitiveness and reduce barriers, it also eliminates regulations preventing fracking in certain areas and establishing maximum gas quotas. This action is antithetical to the commitment which requires strong action to reduce carbon emissions as it is expected to result in increased production, with less sustainable regulations.

On 5 February 2025, President Javier Milei stated that he is considering withdrawing Argentina from the Paris Agreement.³⁵¹⁵ President Milei also called the agreement a “fraud,” rejecting the idea that human activities impact climate change.

Argentina has not complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Argentina has not taken any action to advance the commitment. However, it has taken actions that are antithetical to the commitment which is focused on the reduction of greenhouse gas emissions.

³⁵¹⁵ Milei says he's considering taking Argentina out of Paris Agreement, Buenos Aires Times (Buenos Aires) 6 February 2025. Access Date: 1 July 2025. <https://www.batimes.com.ar/news/argentina/milei-says-hes-considering-taking-argentina-out-of-paris-agreement.phtml>

Thus, Argentina receives a score of -1 .³⁵¹⁶

Analyst: Purvaai Bhatnagar

Australia: +1

Australia has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 21 November 2024, the Department of Agriculture, Fisheries and Forestry announced AUD1.8 million in grants through the Carbon Farming Outreach Program.³⁵¹⁷ These grants will go towards research and development to determine how to reduce emissions within the agricultural sector.

On 28 November 2024, Parliament passed three bills under the Future Made in Australia agenda.³⁵¹⁸ The laws establish the voluntary Guarantee of Origin scheme to certify renewable energy and low-emissions products, help Australian producers accurately represent embedded emissions and facilitate investment in clean energy projects.

On 6 December 2024, the Department of Climate Change, Energy, the Environment and Water released its First Nations Clean Energy Strategy.³⁵¹⁹ Developed with input from First Nations individuals, the Strategy provides a five-year national framework to guide investment, influence policy and support First Nations participation in the clean energy transition.

On 6 December 2024, the Clean Energy Finance Corporation (CEFC) allocated AUD50 million to Bank Australia as part of the Household Energy Upgrades Fund program.³⁵²⁰ This funding will enable up to AUD100 million in green loans, including a lean Energy Home Loan, to increase the use of renewable energy.

On 9 December 2024, the CEFC invested USD75 million in “global alternative investment manager Resource Capital Funds” to support Australia’s emerging critical mineral supply chain.³⁵²¹ This investment will help decarbonize Australia’s critical mineral supply chain while advancing clean energy.

On 11 December 2024, Minister for Climate Change and Energy Chris Bowen announced 19 renewable energy projects expected to increase renewable energy capacity by 6.4 gigawatts.³⁵²² These projects will focus on solar, hydro and hybrid technologies with many incorporating battery storage facilities.

³⁵¹⁶ This score of non-compliance was determined after consulting the following sources:

³⁵²² Australia’s clean energy transformation boosted by 19 projects, Department of Climate Change, Energy, the Environment and Water (Canberra) 11 December 2024. Access Date: 29 June 2025. <https://www.dcccew.gov.au/about/news/australias-clean-energy-transformation-boosted-by-19-projects>

On 18 December 2024, the CEFC announced AUD100 million for three new clean energy assets.³⁵²³ The assets are expected to increase renewable energy capacity by 1.3 gigawatts and battery storage capacity by 611 megawatts. This will advance the net zero transition by increasing clean energy capabilities.

On 16 January 2025, the CEFC announced an AUD100 million investment for an innovating financing mechanism called the built-to-rent strategy.³⁵²⁴ This strategy focuses on building energy efficient and electric homes which can be powered with renewable energy. This action contributes to an equitable energy transition.

On 20 January 2025, Australia unveiled plans for a new Green Aluminium Production Credit facility, investing AUD2 billion “to support aluminum smelters in transitioning to renewable electricity sources before 2036.”³⁵²⁵ This plan aims to support decarbonization in Australia’s aluminum industry.

On 21 January 2025, the Australian Government accelerated funding for a range of clean energy initiatives, underlining its commitment to creating a supportive environment for net-zero aligned investment.³⁵²⁶

On 23 January 2025, Australia allocated an additional AUD2 billion to the CEFC.³⁵²⁷ These funds will support initiatives for Australia’s green transition and renewable energy projects.

On 31 January 2025, the CEFC announced AUD300 million in co-financing with the National Australia Bank to reduce costs associated with the net zero transition.³⁵²⁸ Of note, the Bank’s Green Finance for Vehicles and Equipment program will receive AUD200 million from the CEFC to support investment discounts for the manufacturing of “key components used in renewable energy generation” and net zero vehicles and for recycling facilities.

On 7 February 2025, the Department of Climate Change, Energy, the Environment and Water announced AUD2.4 million in funding to enhance the electric vehicle charging infrastructure in Australia.³⁵²⁹ This funding will be provided through the Australian Renewable Energy Agency and support the Driving the Nation program which aims to encourage electric vehicle adoption.

On 14 February 2025, Department of Climate Change, Energy, the Environment and Water announced AUD1.85 million for Allegro Energy.³⁵³⁰ This will support the creation of reliable battery storage technology.

On 10 February 2025, the Department of Climate Change, Energy, the Environment and Water announced that the federal government and Western Australia government are launching a joint Western Australia Social

Housing Energy Performance Initiative.³⁵³¹ The initiative aims to upgrade 4,300 homes to be more energy efficient and use less energy.

On 10 February 2025, the Ministry for Infrastructure, Transport, Regional Development and Local Government and Korea's Ministry of Oceans and Fisheries signed a Memorandum of Understanding to establish a green shipping route between the countries.³⁵³² This will help to advance the net zero transition in the marine transportation sector.

On 20 February 2025, the Department of Agriculture, Fisheries and Forestry announced AUD3 million in funding for the Zero Net Emissions Agriculture Cooperative Research Centre.³⁵³³ Over the next ten years, this funding will enable the energy transition within agriculture, advance “methane-free cattle and sheep” and focus on low-emissions options for plants.

On 5 March 2025, the Department of Climate Change, Energy, the Environment and Water announced an AUD20 million investment by the CEFC for green loans for healthcare providers.³⁵³⁴ This initiative aims to encourage healthcare providers to use rooftop solar, electric vehicles, energy-efficient fixtures and other ecologically friendly technologies.

On 17 March 2025, the CEFC announced a partnership with Lannock Strata Finance “to develop a green strata loan product for residential strata properties via the Household Energy Upgrades Fund.”³⁵³⁵ The partnership will improve the affordability of installing solar panels on residential buildings, enabling the energy transition by encouraging clean energy adoption.

On 19 March 2025, the CEFC invested AUD160 million for the real estate credit market, in partnership with the Real Estate Credit Partners IV fund.³⁵³⁶ This investment will help develop debt facilities aimed at increasing sustainability and decreasing carbon emissions within real estate.

On 21 March 2025, the Australian Renewable Energy Agency launched a call for proposals for round two of the Powering the Regions Fund: Industrial Transformation Stream.³⁵³⁷ Selected projects will receive a total of AUD70 million to support decarbonization in industry, with a focus on developing and implementing innovative technologies and solutions.

On 21 March 2025, the Department of Climate Change, Energy, the Environment and Water announced up to AUD814 million in funding for Western Australia's Murchison Green Hydrogen project.³⁵³⁸ This funding is being provided through the Hydrogen Headstart program to develop a solar and wind powered hydrogen

and ammonia production facility with a 1,500 megawatts capacity. This project will help advance renewable energy and the net zero transition.

On 25 March 2025, Australia released the 2025 Federal Budget.³⁵³⁹ The budget highlights the government's continued investment in the Future Made in Australia Innovation Fund, allocating AUD500 million for renewable energy and AUD250 million for clean energy technologies. Additionally, the CEFC will receive a AUD2 billion to fund renewable energy, lower emissions, support energy efficiency technologies and build a green economy, aiming to unlock AUD8 billion more in private co-investment for Australia's clean energy sector.

On 28 March 2025, Minister Bowen and Assistant Treasurer and Minister for Financial Services Stephen Jones announced that the Albanese Government will allocate AUD24.5 million in investments towards Boral, a New South Wales cement supplier.³⁵⁴⁰ This investment will allow Boral to "adopt new technologies that lower emissions" while sustaining business growth.

On 5 May 2025, the CEFC confirmed that it will allocate AUD750 million in investments via the Rewiring the Nation Fund towards the Central-West Orana Renewable Energy Zone (REZ) which is Australia's largest renewable energy zone.³⁵⁴¹ The construction of REZ will allow additional renewable energy power to reach users in New South Wales.

On 21 May 2025, Minister Bowen announced AUD1 billion in investments through its Solar Sunshot program for a local Adelaide solar manufacturing facility.³⁵⁴² Additionally, AUD46 million was granted by the Australian Renewable Energy Agency to 5B, a local solar company, to expand its production of solar units in Adelaide.

On 18 June 2025, Minister for the Environment and Water Murray Watt and Member for Lyons Rebecca White announced the construction of a new solar farm in Bothwell, Tasmania.³⁵⁴³ The facility is expected to reduce 44,000 tonnes of carbon dioxide emissions annually once complete. It will include approximately 4,000 solar panels and a 144 megawatts battery storage capacity.

On 23 June 2025, the CEFC announced that it will allocate AUD20 million in investments to CommBank's Home Energy Upgrades service through the Household Energy Upgrade Fund.³⁵⁴⁴ This support aims to lower household energy bills by helping more Australians "access low-interest loans for solar panels, battery systems and electric vehicle chargers".

On 4 July 2025, the CEFC announced that it had allocated AUD6 million in investment towards getting more Battery Electric Trucks on roads.³⁵⁴⁵ As electrifying the transport sector poses operational and logistical challenges, this investment will allow diesel vehicles to be replaced easier and help reduce emissions.

On 4 July 2025, the Department of Infrastructure, Transport, Regional Development, Communications, Sport and the Arts, along with the Korean Ministry of Oceans and Fisheries, announced that a “preliminary feasibility study for building a Korea-Australia green shipping route” will be conducted.³⁵⁴⁶ The study is a follow-up to the signing of a Memorandum of Understanding in February 2025, and will begin by analysing eco-friendly fuel supply chains, port trends, port infrastructure systems and ships suitable for operation.

On 4 July 2025, Minister Bowen and Member for Newcastle Sharon Claydon announced AUD432 million in funding for Orica’s Hunter Valley Hydrogen Hub through the Australian Renewable Energy Agency.³⁵⁴⁷ This project will increase renewable energy capacity through increased green hydrogen and support the development of green ammonia for the agriculture, mining and manufacturing sectors.

On 9 July 2025, ARENA pledged AUD60 million in funding for solar research and development to accelerate the next generation of innovation in ultra-low-cost solar.³⁵⁴⁸ This funding round supports ARENA’s vision of reducing installed solar costs to 30 cents per watt and bringing the levelized cost of electricity below AUD20 per megawatt hour by 2030.

On 11 July 2025, Minister Bowen, Minister for Foreign Affairs Penny Wong and Minister for Pacific Island Affairs Pat Conroy announced AUD16.4 million in funding to support Palau in increasing renewable energy for its electricity grid.³⁵⁴⁹ This action will advance the reduction of carbon emissions and use of renewable energy technologies like solar and hydro power.

On 24 July 2025, ARENA announced AUD44.9 million in funding to Calix to build a new demonstration plant using its Zero Emissions Steel Technology.³⁵⁵⁰ The plant, powered by renewable electricity and hydrogen, will produce up to 30,000 tonnes of low-carbon hydrogen, direct reduced iron and hot briquetted iron annually. The project will also support early work on a larger commercial-scale plant, promoting Australia’s capacity in low-emissions metals.

On 29 July 2025, Export Finance Australia committed USD75 million to the Vietnam Prosperity Joint Stock Commercial Bank as part of a USD350 million loan facility coordinated by Sumitomo Mitsui Banking Corporation, with participation from British International Investment, FinDev Canada and the Japan International Cooperation Agency.³⁵⁵¹ The funds will expand climate finance for Vietnam’s green transition,

including renewable energy, clean transport, and energy efficiency projects that support the country's net-zero pathway.

On 5 August 2025, the Australian Government, through ARENA, announced the rollout of more than 50 new community batteries across Adelaide and regional South Australia.³⁵⁵² The projects will deliver over 13 megawatts of storage, supporting grid stability and lowering peak demand while powering up to 12,000 homes.

On 6 August 2025, ARENA announced AUD45.5 million in funding to boost domestic solar manufacturing.³⁵⁵³ AUD34.5 million was awarded to Tindo to upgrade its Mawson Lakes facility in South Australia, scaling annual production from 20 megawatts to 180 megawatts. A further AUD11 million was allocated to Solquartz, Energus and Stellar to conduct feasibility studies into local polysilicon, ingot and wafer production. The funding aims to strengthen Australia's solar PV industry, create new jobs and build resilient renewable energy supply chains.

On 11 August 2025, the Federal Government and New South Wales Government announced a partnership with 22 Community Housing providers to deliver energy upgrades to more than 2,300 social housing homes, with AUD18 million in joint funding.³⁵⁵⁴ Planned upgrades include rooftop solar panels, reverse cycle air conditioning, energy-efficient hot water systems, insulation, window shading and LED lighting.

On 14 August 2025, ARENA announced a AUD9 million grant to BluVein to support the trial of its new "hammer and rail" dynamic charging technology for heavy mining vehicles.³⁵⁵⁵ The technology aims to reduce mining emissions, improve worker safety and optimise efficiency by enabling electrification powered by renewable energy.

On 14 August 2025, ARENA pledged AUD3.6 million in funding through its Regional Microgrids Program to Horizon Power for the Blackstone Hybrid Energy Project in Papulankutja, Western Australia.³⁵⁵⁶ The project will deploy up to 778 kilowatts of solar photovoltaic, a 2 megawatt-hour battery energy storage system and 400 kilowatts of diesel generation to transition the First Nations Community away from high-cost diesel. The project intends to serve as a scalable blueprint for delivering clean and reliable energy to other remote First Nations communities.

On 19 August 2025, ARENA launched the AUD500 million Battery Breakthrough Initiative (BBI) to accelerate battery manufacturing across Australia.³⁵⁵⁷ The program will create clean energy manufacturing opportunities, strengthen local supply chains and support Australia's transition to net zero emissions. Developed in consultation with the Department of Industry, Science and Resources and aligned with the Future Made in Australia policy agenda, BBI will provide capital grants, production incentives and other funding options.

³⁵⁵⁷ Supercharging battery manufacturing in Australia, Australian Renewable Energy Agency (Canberra) 19 August 2025. Access Date: 22 October 2025. <https://arena.gov.au/news/supercharging-battery-manufacturing-in-australia/>

On 4 September 2025, Minister Bowen and Minister Wilson committed AUD150 million under the Solar Sunshot Program to strengthen Australia's solar manufacturing industry.³⁵⁵⁸ The funding will help expand domestic capability across key areas of the solar supply chain, including framing, solar glass, junction boxes and deployment technologies. The initiative aims to create new local jobs, support regional communities and build a more secure and resilient clean energy industry.

On 11 September 2025, ARENA announced AUD12.3 million in funding to Mondo Power for Australia's first shared electric truck charging hub in Laverton North, Melbourne.³⁵⁵⁹ The project will develop, construct and operate a dedicated hub featuring 14 dual plug chargers purpose built for heavy battery electric trucks. The project aims to support the transition of the heavy transport sector toward low-emission freight operations.

On 17 September 2025, Australia committed AUD1.1 billion to launch the Cleaner Fuels Program, a ten-year initiative to accelerate Australian production of low carbon liquid fuels such as renewable diesel and sustainable aviation fuel.³⁵⁶⁰ The program aims to strengthen domestic supply chains, reduce emissions in hard-to-abate sectors like transport and construction and support farmers and regional industries that supply feedstocks such as canola, sugar and waste.

On 18 September 2025, the Department of Climate Change, Energy, the Environment and Water announced its 2035 emissions reduction target and released the Net Zero Plan as the next step toward achieving net zero emissions by 2050.³⁵⁶¹ The target aims to cut emissions by 62 to 70 per cent below 2005 levels by 2035. The Plan outlines five priorities: clean electricity, electrification and efficiency, clean fuels, new technologies and carbon removals. This project aims to grow the economy, attract investment, and ensure all Australians benefit from the transition to net zero.

On 20 September 2025, Minister Bowen and Minister Wilson committed AUD40 million through its Net Zero Plan to expand Australia's electric vehicle charging network.³⁵⁶² The funding will help deliver new public kerbside and fast-charging stations nationwide, strengthening Australia's electric vehicles ecosystem and support deployment in both urban and regional areas.

On 25 September 2025, ARENA opened the third round of its Industrial Transformation Stream Program, offering AUD180 million to help regional industries reduce emissions and adopt cleaner energy.³⁵⁶³ The funding supports projects that use innovative or proven low-emission technologies, such as electric heat pumps or biogas recovery and can be scaled across industries.

On 30 September 2025, ARENA committed over AUD12 million to help McCain Foods, Sugar Australia and Blackmores decarbonise their manufacturing operations through low-emission process heat technologies.³⁵⁶⁴ McCain Foods will install two heat recovery systems to reduce natural gas use by 22 per cent, while Sugar

Australia will replace gas evaporators at its sugar refinery with an electrically driven mechanical vapour recompression system. Blackmores will cut gas consumption by 25 per cent by replacing a boiler with a high-efficiency heat pump using renewable electricity and refrigeration condensate.

On 9 October 2025, Minister Bowen pledged over AUD600 million through the Capacity Investment Scheme to support 20 renewable energy projects across the National Electricity Market.³⁵⁶⁵ The projects will deliver 6.6 gigawatts of new renewable generation capacity by 2030. The projects have committed AUD291 million in community benefits and AUD348 million in First Nations benefits, including funding for local infrastructure, energy rebates, biodiversity initiatives and partnerships with schools.

On 10 October 2025, ARENA launched the second round of its Hydrogen Headstart Program, offering up to AUD2 billion in funding to accelerate the development of large-scale renewable hydrogen projects across Australia.³⁵⁶⁶ The program will support projects that reduce the cost of renewable hydrogen production and target high-priority use cases, including innovative plant construction, improved electrolyser efficiency, flexible operations and enhanced end-use infrastructure for sectors such as green ammonia, iron and steel, alumina and long-distance heavy transport.

On 14 October 2025, Minister Wilson announced the expansion of the Commercial Building Disclosure (CBD) program.³⁵⁶⁷ The expansion aims to reduce energy costs and emissions for more Australian businesses. To expand the CBD program, the Australian government has invested AUD10 million. An additional AUD10 million will be dedicated to “increase the range of energy ratings tools and services for the world-leading National Australian Built Environment Rating System.”

On 24 October 2025, Australia, under the national environment law, approved a new wind farm in Western Australia.³⁵⁶⁸ The 108-megawatt wind farm is set to produce enough electricity to power nearly 70,000 homes and reduce greenhouse gas emissions by 286,000 tonnes of carbon dioxide annually.

On 29 October 2025, Australia approved a 400-megawatt battery energy storage system project.³⁵⁶⁹ The project aims to provide electricity to up to 101,500 households for four hours during peak demand. Additionally, the project aims to enhance grid stability and minimize energy wastage from nearby solar farms and renewable projects by capturing surplus energy.

On 4 November 2025, Minister Bowen introduced Solar Sharer, a new retail energy offer that will provide homes with free solar during the day.³⁵⁷⁰ The launch of Solar Sharer is currently set for 2026 through the Default Market Offer and will require retailers to provide households with free electricity for a minimum of three hours in the middle of the day, coinciding with peak solar generation.

Australia has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Australia has taken strong actions to reduce carbon

³⁵⁷⁰ More Australian homes to get access to solar power, Minister for Climate Change and Energy (Canberra) 4 November 2025. Access Date: 11 November 2025. <https://minister.dcceew.gov.au/bowen/media-releases/more-australian-homes-get-access-solar-power>

emissions to support net-zero carbon emissions by 2050 through investments through the Carbon Farming Outreach Program, funding by the CEFC for clean energy projects, green loans and debt facilities for the building sector, financing industrial decarbonization projects and advancing a green hydrogen project. In doing so, it has taken strong action across the energy, industry, building, transportation and agriculture, fisheries and other land use sectors and has supported reductions in methane.

Thus, Australia receives a score of +1.

Analyst: Xingze Guan

Brazil: +1

Brazil has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 10 December 2024, the National Energy Policy Council (CNPE) approved the establishment of a permanent technical committee to regulate the Fuel for the Future legislation announced in October 2024.³⁵⁷¹ The law aims to advance green diesel, sustainable aviation fuel and biomethane, carbon storage and capture and other mechanisms to advance sustainable low-carbon energy.

On 10 December 2024, the CNPE approved a resolution that sets mandatory targets for the reduction of greenhouse gases in Brazil between 2025 and 2034.³⁵⁷² This resolution is set through the Brazilian National Biofuel Policy and focuses on decarbonizing the transport sector to ensure sustainable energy security, expand Brazil's renewable energy supply chains and ensure sustainable development. The resolution aims to reduce greenhouse gas emissions by 11.37 per cent by 2034 based on 2018 levels.

On 12 December 2024, President Luiz Inácio Lula da Silva signed Law 15.042 to establish a carbon credit market as well as set a limit on total greenhouse gas emissions.³⁵⁷³ This new carbon market will have two sections, regulatory and voluntary. Under the regulatory section, decarbonization targets are set based on economic sectors and under the voluntary market, companies can choose to buy carbon credits to meet their own company emissions goals.

On 20 December 2024, the Brazilian Development Bank (BNDES) approved BRL94.8 million in funding to acquire 87 electric buses for São Paulo.³⁵⁷⁴ Provided through the Severance Indemnity Fund and Climate Fund, this financing will promote Brazil's decarbonization process while improving urban mobility.

On 10 January 2025, President Lula signed a law authorizing offshore wind farm development.³⁵⁷⁵ This law supports Brazil's energy transition and includes provisions to consult with local communities.

On 31 January 2025, the Ministry of Mines and Energy and the Brazilian Nuclear and Binational Energy Holding Company allocated BRL100 million for government buildings to transition to using renewable energy via renovations and installations of “local renewable energy generation technologies.”³⁵⁷⁶ This supports reliable and responsible energy transition technologies with financial transparency measures and partnerships with local energy producers.

On 2 February 2025, the Ministry of Mines and Energy and the Uruguayan Ministry of Industry, Energy and Mining signed a Memorandum of Understanding to promote electrical energy transfer from the Presidente Médici Power Substation in Uruguay to Brazil’s Candiota II SE in Rio Grande do Sul.³⁵⁷⁷ This partnership aims to promote energy integration while supporting renewable energy.

On 18 February 2025, the CNPE approved Brazil’s participation as a member in the International Energy Agency and International Renewable Energy Agency and as a participant country in the Charter of Cooperation between Oil Producing Countries.³⁵⁷⁸ This will help Brazil advance its leadership and involvement in the energy transition.

On 18 February 2025, the CNPE approved the creation of a Working Group focused on diversifying raw materials and supporting small biofuel producers including family farms.³⁵⁷⁹ This action aims to advance clean energy across the supply chain including in the transportation sector.

On 21 February 2025, the Ministry of Science, Technology and Innovation announced plans to allocate BRL500 million towards the Sustainability and Renewable Energy Program for Artificial Intelligence.³⁵⁸⁰ The funding will support solar, wind, hydroelectric, biomass and other renewable energy projects aimed at decreasing carbon emissions and advancing the net zero transition.

On 28 February 2025, Vice President of Brazil and Minister of Development, Industry, Commerce and Services Geraldo Alckmin announced BRL3 billion in financial credits for 2025-2026.³⁵⁸¹ These credits will support energy efficiency and decarbonization within the industrial sector, helping to advance the net zero transition.

On 7 March 2025, the BNDES approved BRL150 million from the Climate Fund for the Piracanjuba Group to produce biogas.³⁵⁸² This investment will allow the Piracanjuba Group to replace fossil-fuel-run boilers and build wastewater treatment plants with biogas production. This project aims to “transform liquid waste management into a valuable source of clean energy.”

On 12 March 2025, the National Council of Export Processing Zones approved a green hydrogen and ammonia project aimed at producing three gigawatts per year.³⁵⁸³ The council also approved a project to use wooden pellets as a renewable fuel alternative to coal and a project aimed at producing renewable aviation kerosene. The projects are expected to have BRL35 billion in investments altogether.

On 13 March 2025, the Brazilian Development Bank (BNDES) approved a BRL241.8 million loan to support Stellantis Automóveis Brasil Ltd. in developing technologies for the production of hybrid and electric vehicles at its Betim plant.³⁵⁸⁴ This initiative will help the company develop engine technologies for the Brazilian market.

On 14 March 2025, the BNDES approved BRL264 million in loans for the city of Salvador to acquire 250 buses, compliant with European emissions standards.³⁵⁸⁵ This will support carbon emissions reductions in the transportation sector.

On 26 March 2025, the BNDES approved BRL690 million for the construction of two wind farms.³⁵⁸⁶ The facilities will be part of the Serra do Tigre Wind Complex which has a total capacity of 756 megawatts.

On 28 March 2025, President Lula met with President of Vietnam Luong Cuong to announce and sign the “Action Plan for 2025-2030” which includes increased cooperation for renewable energy development and implementation.³⁵⁸⁷ This supports the diversification of renewable energy technologies as well as research partnerships in semiconductors, artificial intelligence and energy.

On 8 April 2025, the Steering Committee of the National Fund on Climate Change approved BRL11.2 billion in funding for the 2025 Annual Resource Application Plan.³⁵⁸⁸ This funding will support climate mitigation and adaptation through projects for the energy transition and green services, including within the transport sector.

On 15 April 2025, Minister of Mines and Energy Alexandre Silveira inaugurated an innovative biofuel production unit which will produce green fuel to replace diesel. This facility will receive a BRL80 million investment for research, development and construction. In addition, Minister Silveira also announced construction for a new industrial unit which will produce up to 210 million liters of wheat ethanol per year as well as 153,200 tonnes of animal feed.³⁵⁸⁹ This facility will receive BRL1.1 billion in funding.

On 11 May 2025, Minister Silveira, China's Windey Energy Technology Group and SENAI CIMATEC signed a Memorandum of Understanding to develop energy storage, advance wind energy and green hydrogen in Brazil, promote renewable energy in rural agricultural areas and promote renewable energy within the electrical grid.³⁵⁹⁰ The two-year partnership ultimately aims to advance renewable energy and low-carbon technologies.

On 12 May 2025, the BNDES provided BRL156 million in loans from the Finem program and the Climate Fund to finance the construction of 16 mini-generation solar power plants across four regions in Brazil.³⁵⁹¹ This project is expected to reduce carbon emissions by 844,000 tonnes over 30 years.

On 13 May 2025, Minister of Environment and Climate Change Marina Silva and China's National Forestry and Grassland Administration President Liu Guohon signed a Memorandum of Understanding to restore carbon sinks and vegetation in both countries.³⁵⁹² The partnership will include a focus on sustainable forest and vegetation management, restoration, protection and cultivation of forests and other natural lands, addressing land degradation, measuring carbon sinks and promoting sustainable use and alternatives. This action will support the reduction of carbon emissions through the agriculture, forestry and other land use sector.

On 28 May 2025, the BNDES approved financing worth BRL131.1 million for a "carbon dioxide purification and liquefaction" unit in Rio.³⁵⁹³ This will be Brazil's first green carbon dioxide and biomethane plant, reducing potential methane emissions and increasing renewable energy.

On 30 May 2025, the BNDES and Ministry of the Environment and Climate Change approved BRL77 million in financing through the Climate Fund for a silviculture project based in southern Bahia.³⁵⁹⁴ This project will focus on native species within the Atlantic Forest region and aims to preserve biodiversity while generating carbon credits.

On 6 June 2025, the Ministry of Mines and Energy and the French Ministry of Economy, Finance, and Industrial and Digital Sovereignty signed a Declaration of Intent focusing on low-carbon hydrogen.³⁵⁹⁵ Minister of Mines and Energy Alexandre Silveira noted that this agreement aims to strengthen green reindustrialisation and technological innovation within Brazil, supported by France.

On 25 June 2025, the CNPE approved a policy which will increase the blend of ethanol in gasoline by 3 per cent and biodiesel in diesel by 1 per cent.³⁵⁹⁶ This mandatory blend will take effect on 1 August 2025 and aims decrease Brazil's reliance on fossil fuels.

On 1 July 2025, Minister of Environment and Climate Change Marina Silva hosted meetings during the London Climate Action Week to mobilize public and private individuals and institutions to support climate action, as proposed by the countries, members of the public and financial institutions to join forces in climate action proposed by the 30th Conference of the Parties (COP30) to the United Nations Framework Convention on Climate Change.³⁵⁹⁷ Minister Silva called for European countries to commit to the COP30 goal of a 1.5 C target and to implement climate agreements.

On 10 July 2025, Minister of Energy and Mineral Resources of Indonesia Bahlil Lahadalia announced Indonesia's commitment to deepen cooperation with Brazil on bioenergy, including technology transfer, joint research, and capacity building for bioethanol and other biofuels, during Indonesian President Prabowo Subianto's visit to Brasília.³⁵⁹⁸ The partnership will develop joint pilots and standards, strengthen sustainable feedstock supply chains, and expand skills training. It seeks to cut transport emissions, reduce fuel imports and create opportunities for rural producers as Indonesia advances its clean energy transition.

On 16 July 2025, the BNDES announced the guidelines for the Joint Action to Promote the New Brazilian Industry (NIB).³⁵⁹⁹ The NIB is a federal government initiative that plans to invest BRL10 billion in projects aimed supporting the energy transition and storage, the bioeconomy, green hydrogen, a green data centre and other needs.

On 24 July 2025, BNDES approved BRL76.4 million for Biometano São Leopoldo S.A. of Grupo Solvi to build a biomethane plant in São Leopoldo, Rio Grande do Sul.³⁶⁰⁰ The project will purify landfill biogas from CRVR to produce up to 32,400 cubic meters per day of biomethane, displacing diesel and natural gas in industry and transport, and is expected to avoid more than 80,000 tonnes of carbon dioxide equivalent each year. The

financing uses Fundo Clima and Finem resources and supports Brazil's clean energy transition and emission reduction goals.

On 25 July 2025, BNDES approved BRL199.9 million to finance the Cajuína B19 and Cajuína B20 wind parks, with 23.6 megawatts and 29.5 megawatts respectively, in the Cajuína II complex in Bodó, Rio Grande do Norte, including the associated transmission system.³⁶⁰¹ In operation since the second half of 2024 with nine turbines, the parks generate enough electricity for about 150,000 homes. The credit operation will be contracted with Ventos de São Ricardo 01 and 02, using Fundo Clima resources of BRL 159.5 million and Finem resources of BRL 40.4 million. The investment expands renewable generation, supports the energy transition, and reduces reliance on fossil fuels.

On 28 July 2025, BNDES approved BRL1 billion for Atlas Renewable Energy to build 11 photovoltaic plants in Arinos, Minas Gerais, forming the Draco Solar Complex with 505 MWac of capacity and an associated 500 kilovolts substation and 15-kilometer transmission line to the national grid.³⁶⁰² The project will supply power equivalent to about 569,000 homes, is expected to create about 2,100 direct jobs during construction and uses Finem and Fundo Clima resources in line with Brazil's National Climate Change Plan to expand clean generation and cut emissions.

On 1 August 2025, Brazil put into effect countrywide biofuel blend mandates approved by the National Energy Policy Council, raising the mandatory content of anhydrous ethanol in gasoline from 27 per cent to 30 per cent and the biodiesel share in diesel from 14 per cent to 15 per cent.³⁶⁰³ The measure advances national energy transition goals by reducing dependence on fossil fuels and supporting domestic biofuel production.

On 11 August 2025, BNDES approved BRL625 million for São Martinho S.A. to expand the Boa Vista unit in Quirinópolis, Goiás with a new corn ethanol plant.³⁶⁰⁴ The package combines BRL500 million from Fundo Clima and BRL125 million from BNDES Finem and covers 53 per cent of a total investment of 1.18 billion reais, alongside BRL102.8 million from Finep. The project will process up to 635,000 tonnes of corn per year and produce about 270,000 cubic meters of ethanol per year, with expected avoidance of about 380,000 tonnes of carbon dioxide equivalent per year, supporting Brazil's clean fuels transition.

On 14 August 2025, BNDES presented in Recife a public call offering BRL10 billion in credit to industrialize the Northeast under the Nova Indústria Brasil policy.³⁶⁰⁵ The call prioritizes projects in energy storage, bioeconomy with emphasis on pharmaceuticals, green hydrogen, green data centers, the automotive sector, and technologies for family farming, with support from partner federal banks and technical backing from Sudene

and Consórcio Nordeste. The initiative aims to accelerate innovation, reindustrialization, and sustainable development that reduces emissions and strengthens regional resilience.

On 26 August 2025, the Ministry of Mines and Energy and Saudi Arabia's Ministry of Energy launched an action plan for energy cooperation to strengthen collaboration in renewable energy, low-carbon hydrogen³⁶⁰⁶□ The plan outlines initiatives in oil, gas, renewable energy, petrochemicals and sustainability and establishes technical working groups to develop projects that advance energy security and a just, inclusive transition in both countries.

On 17 September 2025, the BNDES approved BRL317.08 million from the Fundo Clima Machines Verdes line to finance the purchase of 100 battery electric buses and 50 charging units for Belo Horizonte under the Refrota program within the Novo PAC.³⁶⁰⁷ The vehicles will be new and domestically manufactured, supporting cleaner urban transport, lower operating emissions and progress toward Brazil's energy transition goals.

On 22 September 2025, the BNDES supported the delivery of 120 battery electric buses to São Paulo, advancing cleaner urban transport and helping cut operating emissions; the city estimates the rollout will avoid about 10.4 thousand tonnes of emissions annually.³⁶⁰⁸

On 22 September 2025, the Ministry of Mines and Energy announced that the Panorama Photovoltaic Complex entered operation in Ribeiro Gonçalves, Piauí, with 300 megawatts of installed capacity across three plants and 99 generating units.³⁶⁰⁹ The project, part of the Novo PAC program, connects to the national grid via the Ribeiro Gonçalves substation and holds supply contracts through 2040. By adding large scale solar capacity, the complex advances Brazil's clean energy transition and helps reduce power sector emissions.

On 23 September 2025, Brazil and the State of California signed a memorandum of understanding to deepen climate cooperation on carbon markets, low emission transport, clean energy, nature-based solutions, climate resilience, circular economy, air quality and protection of cultural heritage.³⁶¹⁰ The five-year partnership will be implemented through dialogues, technical exchanges, joint workshops and sharing of regulatory best practices, with an action plan to be developed by the Ministry of the Environment and Climate Change and California Environmental Protection Agency.

On 6 October 2025, the Ministry of Mines and Energy announced that the Dunamis Photovoltaic Complex entered operation on 24 September, 2025 in Santana do Matos, Rio Grande do Norte, totalling 117.54

megawatts across four plants with 36 generating units and an estimated investment of BRL569 million.³⁶¹¹ By adding new solar capacity to the grid, the project advances the country's clean energy transition and helps cut power sector emissions.

On 6 October 2025, the Ministry of Mines and Energy reported a preparatory meeting of the Brazil Spain Investment Working Group at the Spanish Embassy in Brasília to strengthen cooperation and mobilize new investment in the electric sector.³⁶¹² The dialogue highlighted opportunities in generation and energy storage, innovation, and industrial supply chains, with policy signals to encourage projects such as batteries and hydropower storage that enhance grid flexibility and security of supply. The initiative aims to convert bilateral discussions into concrete projects that modernize Brazil's power system and support the clean energy transition.

On 22 October 2025, the Brazilian Industrial Research and Innovation Company, under the Ministry of Science, Technology and Innovation, announced the launch of the Center of Competence to boost clean hydrogen production.³⁶¹³ The launch of the research center aims to advance the low-carbon sector by promoting cleaner production and greater use of renewable energy in a safe and efficient manner. Brazil invested BRL60 million into the center through the the National Fund for Scientific and Technological Development.

On 22 October 2025, the BNDES approved BRL120 million in credit limit to support investments which will be made by ION Energia.³⁶¹⁴ This funding, which focus on battery energy storage systems and renewable energy generation, will be directed towards purchasing machinery and equipment that reduces emissions and enhance climate adaptation.

On 3 November 2025, the Ministry of Mines and Energy held the first National Energy Transition Forum meeting.³⁶¹⁵ The forum aims to foster cross-sector dialogue and advance diversity, innovation and sustainability in shaping Brazil's energy future. Additionally, it also aims to be a democratic and permanent platform for collaboration between the Brazilian government, productive sector and civil society.

Brazil has fully complied with its commitment to has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Brazil has taken strong action to support the deep reduction of carbon emissions for the energy, industry, transport, buildings and agriculture, forestry and other land use sectors through legislation to decrease carbon emissions, funding for renewable energy transitions in government buildings, a partnership with China for carbon sinks, investments for solar, wind, biofuel and hydroelectric power, a focus on industrial decarbonization and other initiatives. It has also supported the reduction of methane emissions through the BNDES' investment for a

green carbon dioxide, corn ethanol, photovoltaic and biomethane plants, credits for energy storage and emissions reductions projects across multiple sectors and funding for wind parks.

Thus, Brazil receives a score of +1.

Analyst: Purvaai Bhatnagar

Canada: +1

Canada has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 28 November 2024, Minister of Energy and Natural Resources Jonathan Wilkinson announced CAD7.5 million in funding for five clean energy technology projects that aim to support the energy transition in British Columbia's industrial sector.³⁶¹⁶ This includes CAD2.5 million for British Columbia Biocarbon Ltd., CAD1.8 million for Arca Climate Technologies Inc. and CAD1.5 million for the University of British Columbia.

On 3 December 2024, Minister Wilkinson and Member of Parliament for Calgary Skyview George Chahal announced over CAD2,600,000 in funding for seven projects in the Prairies under Natural Resources Canada's Climate Change Adaptation Program (CCAP).³⁶¹⁷ These projects will support small, rural and Indigenous communities by providing training, tools and resources to help them adapt to climate change. The funding is part of a CAD39,500,000 investment through the CCAP and Climate-Resilient Coastal Communities program which aims to reduce climate risks and strengthen community resilience under Canada's National Adaptation Strategy.

On 5 December 2024, Canada announced CAD256.7 million for eight projects to advance renewable energy and emissions reductions in Saskatchewan.³⁶¹⁸ This includes CAD42 million for Indigenous-led clean energy projects, over CAD12.4 million for solar projects and CAD56.89 million for SaskPower's battery energy-storage system at the Fleet Street station.

On 12 December 2024, Environment and Climate Change Canada set a 2035 greenhouse gas emissions reduction target of 45 to 50 per cent below 2005 levels.³⁶¹⁹ This target reaffirms Canada's dedication to addressing the global climate crisis and sets the direction for the next decade of climate action.

On 13 December 2024, Member of Parliament George Chahal announced CAD215 million in funding for nine Albertan clean energy projects including a focus on solar, wind and grid infrastructure upgrades.³⁶²⁰ These projects will support reliable, affordable and responsible supply chains for energy transitions, increasing the clean energy capacity with for an additional 170,000 homes.

On 20 December 2024, Minister Wilkinson announced an investment of up to CAD20 million for Foran Mining Corporation to build a hydro transmission line.³⁶²¹ This will support the electrification of the McIlvenna Bay mine as part of Canada's efforts to support a responsible supply chain for energy transitions.

On 30 December 2024, Canada published its Biennial Transparency Report under the Paris Agreement, reaffirming Canada's dedication to international climate commitments by setting its 2025 emissions reduction target.³⁶²² The report highlights that Canada has reduced emissions below 2005 levels and decreased its economy's carbon intensity by 31 per cent through energy efficiency improvements, electricity grid carbonization and economic transitions.

On 7 January 2025, Member of Parliament Marcus Powlowski announced over CAD11 million to strengthen Canada's clean and alternative energy sectors.³⁶²³ This funding will be divided between eight projects to support reliable and sustainable supply chains for the energy transition.

On 28 January 2025, Minister of Innovation, Science and Industry François-Philippe Champagne announced CAD169.4 million in funding for the Linamar Corporation.³⁶²⁴ This funding will go towards the development of green technologies for automobiles including electric vehicle parts manufacturing. This initiative aims to reduce greenhouse gas emissions and accelerate the net zero transition.

On 28 January 2025, Minister of Agriculture and Agri-Food Lawrence MacAulay announced the expansion of the On-Farm Climate Action Fund to provide an additional CAD300 million to 13 recipients over the next three years.³⁶²⁵ This funding will go towards nitrogen management, methane-reduction practices and other climate resilience strategies.

On 28 February 2025, Minister MacAulay announced over CAD116 million for 119 projects under the Agricultural Clean Technology Program.³⁶²⁶ These projects will support the reduction of greenhouse gas emissions with a focus on clean energy, precision agriculture and bioeconomy solutions.

On 5 February 2025, Minister of Transport and Internal Trade Anita Anand announced up to CAD25 million in funding for the Halifax Port Authority.³⁶²⁷ This financing will go towards the development of a hydrogen production facility, "electrifying port equipment to reduce emissions" and other clean port initiatives.

On 12 February 2025, Parliamentary Secretary to the Minister of Energy and Natural Resources Marc Serré announced CAD14.2 million for carbon capture and storage.³⁶²⁸ This will help advance the commitment objective of reducing carbon emissions.

On 12 February 2025, Parliamentary Secretary Serré announced over CAD14 million in funding for six carbon management projects.³⁶²⁹ These include a focus on carbon capture and storage technologies and large-scale carbon sequestration.

On 13 February 2025, Minister Wilkinson announced that Canada has joined the Global Offshore Wind Alliance in addition to the Governments of Nova Scotia and Newfoundland and Labrador.³⁶³⁰ This action demonstrates Canada's commitment towards offshore wind energy generation as part of the energy transition.

On 24 February 2025, Canada announced CAD500,000 in funding for Phase Two of the Global Initiative for Transitioning Remote Communities to Renewable Energy.³⁶³¹ In partnership with the International Renewable Energy Agency, phase two will focus on helping remote communities develop ways to transition towards reliable, sustainable and affordable clean energy.

On 5 March 2025, Minister Wilkinson announced several investments for nuclear energy as part of Canada's commitment towards the clean energy transition and facilitating a low-carbon economy.³⁶³² This includes a CAD304 million agreement with AtkinsRéalis to develop a "natural uranium-fuelled Canadian deuterium uranium" (CANDU) nuclear reactor, CAD55 million for Ontario Power Generation's Darlington New Nuclear Project which aims to develop three new small modular reactors (SMRs) that produce no greenhouse gases during use and CAD52.4 million for other SMR and CANDU reactor projects that advance decarbonization in Saskatchewan, Alberta and Ontario.

On 6 March 2025, Member of Parliament Yasir Naqvi announced CAD1.6 million in funding for Carleton University, on behalf of Minister Guilbeault.³⁶³³ This will support the reduction of 2,900 tonnes of carbon emissions by 2030 by funding the replacement of the university heating system's natural gas steam boiler with an electric boiler.

On 13 March 2025, Minister of Environment and Climate Change Steven Guilbeault, Parliamentary Secretary Serré and Member of Parliament for Sudbury Viviane Lapointe announced up to CAD1.48 million in funding

for IAMGOLD Corporation.³⁶³⁴ This financing will support the company to reduce approximately 7,500 tonnes of carbon dioxide emissions by 2030 at its Sudbury Côté Gold mine.

On 18 March 2025, Natural Resources Canada announced CAD11 million to support clean energy projects in Indigenous communities.³⁶³⁵ This supports Canada's commitment to use responsible energy transition technologies.

On 21 March 2025, Environment and Climate Change Canada announced approximately CAD150 million in funding for 38 decarbonization projects.³⁶³⁶ The projects will focus on developing green technologies and energy across various sectors. Recipients include the McCain Foods manufacturing line in Manitoba, Koch Fertilizer Canada which aims to reduce methane emissions by replacing its ammonia converter and York University which will receive CAD798,000 to upgrade energy efficiency in 12 buildings on its Keele campus.

On 11 June 2025, Natural Resources Canada announced CAD4.9 million in additional funding for the Anahim Lake Solar Project, bringing Canada's total contribution to about CAD17 million.³⁶³⁷ The project is expected to reduce the Ulkatcho First Nation's reliance on diesel power by approximately 64 per cent annually, thereby supporting emissions reductions.

On 17 June 2025, Housing, Infrastructure and Communities Canada announced CAD28.6 million in joint investments from the federal government, the Government of Yukon and the First Kaska Utilities LP will be allocated to the Sâde Solar Initiative project.³⁶³⁸ This project will develop a 2.85 megawatts solar power facility paired and a battery energy storage system, supporting increased renewable energy use and decreased diesel reliance in Watson Lake.

On 2 July 2025, Minister of Environment and Climate Julie Dabrusin announced CAD13.3 million in funding through the Low Carbon Economy Fund for five projects in the Northwest Territories and Alberta.³⁶³⁹ Minister Dabrusin stated that these projects are essential to reducing greenhouse gas emissions, generating clean growth and building a clean Canadian economy.

On 4 July 2025, Minister of Energy and Natural Resources Tim Hodgson announced CAD21.5 million in funding for Canadian carbon capture and storage facilities.³⁶⁴⁰ This financing will support the modernization of the energy industry.

On 8 July 2025, Minister Dabrusin announced CAD40 million in funding through the Low Carbon Economy Indigenous Leadership Fund for “13 Indigenous-owned and -led clean energy projects across Canada.”³⁶⁴¹ This action will support renewable energy projects including the installation of solar panels, electric vehicle charging stations and electric heat pumps, decreasing carbon emissions in various sectors.

On 11 July 2025, Minister Hodgson announced approximately CAD16 million in funding for energy projects supporting affordable, reliable and clean energy in the Maritime provinces.³⁶⁴² This includes the advancement of carbon capture and clean technologies, the delivery of affordable energy and expanding renewable energy capabilities.

On 29 July 2025, FinDev Canada committed USD75 million to the Vietnam Prosperity Joint Stock Commercial Bank as part of a USD350 million loan facility coordinated by Sumitomo Mitsui Banking Corporation, with participation from British International Investment, Export Finance Australia and the Japan International Cooperation Agency.³⁶⁴³ The funds will expand climate finance for Vietnam’s green transition, including renewable energy, clean transport, and energy efficiency projects that support the country’s net-zero pathway.

On 30 July 2025, Minister Hodgson announced more than CAD21 million in funding through the Natural Resources Canada’s Energy Innovation Program On-road Transportation Decarbonization call for proposals for nine research, development and demonstration projects to reduce greenhouse gas emissions in the transportation sector.³⁶⁴⁴ These projects will improve system efficiency, support the adoption of zero-emissions vehicles and address barriers for medium-to heavy-duty, low or zero-emissions vehicles. Minister Solomon also announced CAD4.97 million for the City of Toronto to convert 60 waste-collection vehicles to hybrid electric-compressed natural gas systems, cutting emissions, fuel consumption and operational noise.

On 6 August 2025, the Governments of Canada, Ontario and the City of North Bay announced a joint investment of CAD9.5 million in public transit infrastructure under the Public Transit Infrastructure Stream of the Investing in Canada Infrastructure Program.³⁶⁴⁵ This includes the replacement of eight conventional transit buses with hybrid buses, which aims to reduce greenhouse gas emissions.

On 8 August 2025, Minister Hodgson announced a CAD2.5 million investment through the Energy Innovation Program to aid Ottawa-based TerraFixing in developing carbon management technology.³⁶⁴⁶ The project aims to improve direct air capture systems for cold climates by scaling up CO₂ capture beds to trap carbon more efficiently. Through this project, Canada seeks to strengthen its position as a clean energy superpower while reducing greenhouse gas emissions and supporting economic growth.

On 13 August 2025, Parliamentary Secretary to the Minister of Energy and Natural Resources Claude Guay announced more than CAD25 million for 33 projects to expand electric vehicle charging, decarbonize freight transportation and develop clean technologies for medium and heavy-duty trucks.³⁶⁴⁷ Through the Zero Emission Vehicle Infrastructure Program, recipients will install hundreds of Level 2 and fast chargers across Canada. Under the Energy Innovation Program, firms will advance batteries and charging solutions for heavy-duty vehicles. The Green Freight Program will support companies in acquiring natural gas-powered trucks to reduce emissions and fuel costs.

On 22 August 2025, the Ministry of Environment and Climate Change and the Federation of Canadian Municipalities announced CAD5.2 million for 70 municipal projects through the Green Municipal Fund's Local Leadership for Climate Adaptation initiative.³⁶⁴⁸ The projects will help municipalities develop climate adaptation plans, climate-focused asset management strategies and community-wide climate risk assessments.

On 26 August 2025, Environment and Climate Change Canada committed CAD2.5 million from the Low Carbon Economy Fund to Metro Vancouver's Waste to Energy District project in Burnaby, which will capture steam from the existing facility to provide clean heating and hot water for up to 50,000 homes and is expected to cut up to 70,000 tonnes of greenhouse gases per year.³⁶⁴⁹

On 26 August 2025, Natural Resources Canada committed over CAD33 million through the Smart Renewables and Electrification Pathways Program to the Indigenous owned Wicehtowak Solar Project near Regina, Saskatchewan.³⁶⁵⁰ The 32-megawatt solar farm, developed by George Gordon First Nation through Wicehtowak Solar Ltd., will help reduce power sector emissions and advance Indigenous-led clean energy.

On 27 August 2025, Natural Resources Canada committed nearly CAD22.7 million for eight projects to expand electric vehicle charging in British Columbia, funding more than 480 chargers along highways, in public places, at workplaces, and in multi-unit residential buildings to accelerate zero-emission vehicle uptake.³⁶⁵¹

On 8 September 2025, Natural Resources Canada committed CAD5.8 million to innovative carbon capture and storage projects in British Columbia, including CAD1.3 million for Svante to expand testing facilities, CAD2 million for Anodyne Chemistries to scale industrial carbon dioxide-to-chemicals processes and CAD2.4

million for Agora Energy Technologies to advance carbon capture and use using impure flue gas.³⁶⁵² The funding, delivered through the Energy Innovation Program, aims to cut industrial emissions and accelerate commercialization of Canadian carbon management technologies.

On 11 September 2025, Natural Resources Canada committed CAD3.2 million through the Toward Net Zero Homes and Communities Program to five clean energy projects across Western and Northern Canada that will train trades workers and Indigenous participants to build affordable energy-efficient homes, improve residential efficiency, and support Inuit communities working to transition away from fossil fuels.³⁶⁵³

On 12 September 2025, Natural Resources Canada launched the Canada Greener Homes Affordability Program and signed the first agreement with Manitoba, providing nearly CAD30 million to Efficiency Manitoba to deliver no-cost home retrofits for low to median-income households, including insulation, air sealing, heat pumps, solar panels and high-efficiency windows and doors.³⁶⁵⁴

On 3 October 2025, Natural Resources Canada committed nearly CAD17 million to major Indigenous clean energy projects in Quebec, including CAD14.9 million for the 7.5 megawatt Innavik Remote Hydro Project in Inukjuak and over CAD1.7 million to explore a 17-megawatt hydro plant at the Matawin dam near Saint Michel des Saints.³⁶⁵⁵ The investments will reduce diesel reliance, cut emissions and advance Indigenous energy sovereignty.

On 3 October 2025, Natural Resources Canada committed over CAD5 million through the Zero Emission Vehicle Infrastructure Program to install 157 new electric vehicles chargers across Atlantic Canada, including workplaces, on-street parking, multi-unit residential buildings and two Indigenous-led sites serving a highway retail hub and Halifax International Airport.³⁶⁵⁶ The investment expands charging access in Nova Scotia, New Brunswick, Newfoundland and Labrador, and Prince Edward Island to accelerate zero-emission vehicle adoption and cut transport emissions.

On 8 October 2025, Housing, Infrastructure and Communities Canada committed CAD141,712 through the Zero Emission Transit Fund, alongside CAD35,428 from Fredericton, for a CAD177,140 planning project with CUTRIC to develop a comprehensive strategy to transition Fredericton's public transit fleet to zero-emission vehicles.³⁶⁵⁷ The work will assess technologies, costs, benefits and implementation pathways to cut transport emissions and advance cleaner transit.

On 17 October 2025, Minister of Environment and Climate Change Julie Dabrusin and Manitoba's Minister of Environment and Climate Change Mike Moyes announced up to CAD32 million in joint federal and

provincial funding to lower energy costs for Manitobans and cut greenhouse gas emissions.³⁶⁵⁸ Through the new Manitoba Climate and Economy Solutions Program, Canada and Manitoba will invest CAD23 million to support projects that advance the province's low-carbon transition and net-zero goals. The program, supported by the Low Carbon Economy Fund and an additional CAD4.5 million from the provincial government, will finance stationary equipment retrofits for fuel switching, energy efficiency upgrades, vehicle retrofits and renewable energy and fuel production.

On 17 October 2025, Secretary of State Buckley Belanger, on behalf of Minister Hodgson, announced that over CAD1.9 million in federal funding will be dedicated towards a “state-of-the-art smart microgrid” to serve the communities of La Plonge and Poplar House District in northern Saskatchewan.³⁶⁵⁹ This project, led by Aurora Renewables, will combine solar power and battery storage to enhance energy resilience, strengthen grid stability, and boost renewable energy generation in these communities.

On 29 October 2025, Canada co-hosted the second annual Energy Innovation Forum alongside the International Energy Agency to discuss innovative energy technologies and enhance their impact on global energy systems and security.³⁶⁶⁰ Minister Hodgson announced that over CAD11 million has been dedicated towards “cutting-edge, made-in-Canada carbon utilization and storage technologies”. These projects aim to enhance the safety and efficiency of subsurface carbon storage while advancing innovation in carbon utilization.

Canada has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Canada has taken strong action to reduce greenhouse gas emissions including carbon and methane across the energy, transport, buildings, industry and agriculture sectors through funding for decarbonization projects through Environment and Climate Change Canada, financing for the Côté Gold mine, funding for Carleton University and York University, investments in methane reduction projects and support for the Halifax Port and electric vehicles. Additionally, it has allocated funding for the research, development and expansion of greenhouse gas emissions reductions in the transportation sector and invested in carbon management technology.

Thus, Canada receives a score of +1.

Analyst: Xinze Guan

China: +1

China has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 29 November 2024, China's Sinoma EC International Investment and Uzbekistan's Ministry of Investment, Industry and Trade signed an investment agreement for a solar power plant in Uzbekistan.³⁶⁶¹ The agreement also includes the construction of an energy storage plant.

On 23 January 2025, the China Energy Investment Corporation's subsidiary Guohua Energy Investment deployed “hydrogen-powered passenger vehicles” in the energy golden triangle, Beijing-Tianjin-Hebei region

and Yangtze River Economic Belt's economic zones.³⁶⁶² This action is part of China's hydrogen mobility plan and aims to advance the low-carbon and green energy transition in the transportation sector.

On 17 February 2025, the Ministry of Industry and Information Technology shared a new action plan dedicated to the energy storage manufacturing sector.³⁶⁶³ This includes upgrading lithium batteries, new technological innovations and energy storage methods.

On 21 February 2025, the Ministry of Ecology and Environment expanded the China Certified Emission Reduction program to include carbon credits "for projects that utilize low-density coal mine gas and adopt energy-efficient streetlights in highway tunnels."³⁶⁶⁴ These credits aim to incentivize the use of low-density coal mine gas which has a methane concentration of eight per cent or lower, thus helping to reduce methane emissions.

On 27 February 2025, China and Laos celebrated the launch ceremony of the China-Laos power interconnection project.³⁶⁶⁵ This project will advance the transmission of clean electricity between China and Laos. The project is part of the larger China-Laos Economic Corridor and will strengthen energy cooperation.

On 26 March 2025, the Ministry of Ecology and Environment announced that the State Council approved expansions to China's carbon emission trading market to include the steel, cement and aluminum smelting industries.³⁶⁶⁶ This expansion aims to reduce carbon dioxide emissions as well as carbon tetrafluoride and carbon hexafluoride which are both perfluorocarbons.

On 27 March 2025, China and France issued a joint statement on climate change committing to increased cooperation to advance climate action, decrease greenhouse gas emissions in line with the Paris Agreement and advance decarbonization in the industry, trade, energy and construction sectors.³⁶⁶⁷ They also agreed to other biodiversity and marine protection targets.

On 23 April 2025, President Xi Jinping spoke at the Leaders' Summit on Climate and Just Transition.³⁶⁶⁸ In his speech, he reiterated China's commitment to decarbonization and a fair energy transition.

On 27 April 2025, the State Council approved over CNY200 billion in funding for ten new nuclear reactors across the country.³⁶⁶⁹ This will help advance nuclear energy capacity while supporting greenhouse gas emissions reductions.

On 11 May 2025, China's Windey Energy Technology Group, SENAI CIMATEC and Brazil's Minister of Mines and Energy Alexandre Silveira signed a Memorandum of Understanding to develop energy storage,

³⁶⁶⁹ China tops global ranking of overall nuclear power capacity, report says, China Daily (Beijing) 28 April 2025. Access Date: 29 June 2025. <https://www.chinadaily.com.cn/a/202504/28/WS680f9880a310a04af22bcace.html>

advance wind energy and green hydrogen in Brazil, promote renewable energy in rural agricultural areas and promote renewable energy within the electrical grid.³⁶⁷⁰ The two-year partnership ultimately aims to advance renewable energy and low-carbon technologies.

On 13 May 2025, National Forestry and Grassland Administration President Liu Guohon and Brazil's Minister of Environment and Climate Change Marina Silva signed a Memorandum of Understanding to restore carbon sinks and vegetation in both countries.³⁶⁷¹ The partnership will include a focus on sustainable forest and vegetation management, restoration, protection and cultivation of forests and other natural lands, addressing land degradation, measuring carbon sinks and promoting sustainable use and alternatives. This action will support the reduction of carbon emissions through the agriculture, forestry and other land use sector.

On 27 May 2025, the China Energy Investment Corporation provided renewable hydrogen to power 88 buses daily in Beijing.³⁶⁷² This is expected to reduce carbon emissions by 14.08 metric tonnes per day.

On 29 May 2025, the China Development Bank announced that it has provided over CNY400 billion in green loans for the Yangtze River Economic Belt since January 2025.³⁶⁷³ These loans will support clean energy, green infrastructure and pollution reduction projects including the Longxu Railway project which aims to advance green infrastructure and plant forests for carbon sinks. The Huaneng Taicang project will also receive funding to advance ultra-supercritical coal-fired power generation units which will decrease carbon emissions by 690,000 tonnes annually.

On 15 July 2025, the Chinese-owned Ningxia Tengger Company finished installing its first wind turbine as part of the Ningxiang DC support project.³⁶⁷⁴ The project is expected to have an installed capacity of 1,000 megawatts, producing approximately two billion kilowatt hours of electricity per year, through solar and wind energy.

On 31 July 2025, the Ministry of Industry and Information Technology convened a Beijing symposium on advancing green and low carbon development in the industrial and information sectors.³⁶⁷⁵ The meeting set 2025 priorities and outlined ideas for the 15th Five Year plan, committing to intensify energy saving and carbon reduction, raise resource efficiency and circular use, upgrade the green manufacturing system, cultivate green low carbon industries, and strengthen sector governance with coordinated progress on cutting carbon, reducing pollution, expanding green, and supporting growth.

On 25 August 2025, the General Office of the Communist Party of China Central Committee and the General Office of the State Council issued a guideline to accelerate China's green and low-carbon transition and advance

³⁶⁷⁵ 推动工业和信息化领域绿色低碳发展座谈会在北京市召开，Ministry of Industry and Information Technology of the People's Republic of China (Beijing) 31 July 2025. Translation provided by Google Translate. Access Date: 30 August 2025. https://www.miit.gov.cn/xwfb/gxdt/sjdt/art/2025/art_41fe55b4603847da9cf238068301c124.html

the development of the national carbon trading market.³⁶⁷⁶ The guideline highlights that by 2027, the carbon trading system will cover all major industrial sectors and the national voluntary greenhouse gas emission reduction market will be expanded to include all key areas. By 2030, China aims to have fully established a national carbon trading market based on a cap-and-trade mechanism with both free and paid allocations.

On 2 September 2025, CHN Energy reported that it has commissioned 167 new energy storage projects totalling 6,568 megawatts and 14,798 megawatt hours, including the nation's largest 1,000 megawatt hour coal power plus molten salt heat storage project at the Suzhou Power Plant.³⁶⁷⁷ Nearly 90 per cent of the projects are paired with new wind and solar to improve renewable integration and grid stability, supporting China's green and low-carbon transition.

On 24 September 2025, President Xi Jinping announced China's 2035 Nationally Determined Contribution.³⁶⁷⁸ The plan emphasizes reducing economy-wide net greenhouse gas emissions by 7 to 10 per cent from peak levels, increasing the share of non-fossil fuels in total energy consumption to over 30 per cent and expanding the installed capacity of wind and solar power to more than six times the 2020 level.

On 24 September 2025, CHN Energy commissioned China's first railway power supply system deeply integrated with renewable energy along the Baoshen Railway between Baotou and Shenmu.³⁶⁷⁹ The demonstration couples' solar generation, battery storage, and grid connection to supply traction power for heavy haul freight, improve peak shaving and stability and cut transport-related emissions by displacing fossil-based electricity.

China has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. China has taken strong action to advance deep reductions in carbon emissions to support net-zero carbon emissions through renewable hydrogen for buses, green loans for clean energy and green infrastructure including carbon sinks, a partnership with Brazil to restore and enhance carbon sinks, funding for new nuclear reactors, expanding the carbon emission trading market and Certified Emission Reduction program and launching an energy storage project in Uzbekistan. In doing so, it has addressed six of the ten sub-parts outlined in parts two and three of the commitment by taking action to reduce greenhouse gases in the energy, industry, transport and agriculture, forestry and other land use sectors and addressing methane and perfluorocarbons emissions.

Thus, China receives a score of +1.

Analyst: Xinze Guan

France: +1

France has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 20 November 2024, Proparco and the German Investment and Development Company announced a EUR115 million green loan to support Turkish power producer Enerjisa Enerji Üretim A.Ş. in its clean energy

transition.³⁶⁸⁰ This financing will enable Enerjisa “to develop nine onshore wind power plants with a combined capacity of 750” megawatts (MW), helping to advance renewable energy capacity in the country. Proparco will provide EUR75 million for this project with EUR40 million provided by the German Investment and Development Company.

On 10 December 2024, the French Development Agency (AFD)’s non-governmental organization committee approved EUR21 million in funding for 23 civil society organizations.³⁶⁸¹ Of this, EUR2 million will support an energy transition project for Ukraine’s agriculture, health and education sector and EUR1,627,920 will go towards a natural resource management and energy management in agriculture project for Senegal, Chad and Benin.

On 13 December 2024, the Ministers for European Affairs of France, Germany and Poland met within the Weimar Triangle framework to discuss key issues including EU enlargement and climate action.³⁶⁸² They reaffirmed their commitment to strengthening the EU’s green transition and resilience, advocating for green reforms as integral to European competitiveness and sustainability.

On 16 January 2025, the Ministry of the Economy announced its selection of a winning tender to develop a biomethane production facility and reiterated its commitment to accelerating national biomethane production.³⁶⁸³ The facility will produce 36 gigawatt hours of energy per year.

On 23 January 2025, Proparco announced EUR500,000 in funding for Netis, a telecommunications company developing hydrogen-based electricity production equipment.³⁶⁸⁴ This funding will enable Netis to test this clean energy solution which aims to reduce the carbon footprint.

On 5 February 2025, the AFD, European Union, Indonesian Ministry of Energy and Mineral Resources and the National Electricity Company launched the 2025-2030 Indonesia Energy Transition Facility, under the Just Energy Transition Partnership Framework.³⁶⁸⁵ This project will focus on developing and implementing renewable energy and transmission projects and ensuring appropriate public policies for the energy transition. The AFD will provide EUR4.1 million for this initiative and the EU will provide EUR10.6 million.

On 10 February 2025, the AFD and Watt for Change Foundation signed a three-year partnership agreement whereby France will provide EUR860,000 in funding to support access to energy in Benin, Mauritania and

Madagascar.³⁶⁸⁶ The funding will be divided amongst French associations aiming to advance projects for solar pumping, clean cooking methods and other needs.

On 14 February 2025, France signed a new strategic sector contract for the “New Energy Systems” industry, covering the period 2024–2027.³⁶⁸⁷ Under this initiative, France is partnering with industry actors to develop industries related to the energy transition, with plans to study heat recovery technologies, energy flexibility and alternative fuels.

On 18 February 2025, Minister of Industry and Energy Marc Ferracci reaffirmed France’s support for its offshore wind industry.³⁶⁸⁸ Minister Ferracci also announced an EUR170 million investment to manufacture wind turbines and adapt port infrastructure, while reaffirming France’s goal to produce 18 gigawatts of offshore wind power by 2035 and 45 gigawatts by 2050.

On 27 February 2025, the AFD and Arab Bank for Economic Development in Africa signed a four-year partnership agreement to increase cooperation for climate, food, sustainable infrastructure and businesses and entrepreneurship.³⁶⁸⁹ The agreement includes collaboration for renewable energy and energy efficiency projects with a focus on Africa.

On 2 March 2025, France initiated a public consultation on the third Multiannual Energy Program for the 2025–2035 period, which remained open until 5 April 2025.³⁶⁹⁰ The draft plan sets ambitious targets for offshore wind and marine renewable energy development, aiming to reduce dependence on fossil fuels and transition to a decarbonized energy mix.

On 11 March 2025, the AFD and Moldova signed an agreement for the INSPIREE project which aims to save energy by improving energy efficiency in public buildings in Moldova.³⁶⁹¹ The project will receive EUR30 million in co-financing by the AFD, Germany’s KfW Development Group and Moldova.

On 18 March 2025, Proparco and the Equity Group Foundation signed a EUR1 million agreement for its Climate Resilient Agri-Food Systems project.³⁶⁹² Proparco will provide this funding to advance climate-smart agriculture for small-scale farmers in Kenya with a goal of reducing greenhouse gas emissions in the sector.

On 26 March 2025, Proparco, the German Investment and Development Company and Standard Charter announced USD60 million in joint financing for Indonesia's Saguling floating solar photovoltaic power plant under the Just Energy Transition Partnership.³⁶⁹³ Once complete, the plant will support the energy transition by decreased Indonesia's carbon emissions by 63,100 tonnes per year and increasing solar electricity generation in the country by 13 per cent.

On 26 March 2025, the AFD and Nacional Financiera signed a EUR100 million credit financing agreement aimed at enhancing sustainable infrastructure in Mexico.³⁶⁹⁴ Of this, the AFD will provide EUR75 million for energy efficiency projects with a goal of reducing carbon emissions in the country.

On 9 April 2025, France hosted its first National Carpool Day to promote energy efficiency and encourage reductions in greenhouse gas emissions.³⁶⁹⁵

On 15 April 2025, France published an updated version of its National Hydrogen Strategy.³⁶⁹⁶ New measures include a EUR4 billion support mechanism for low-carbon hydrogen production, government support for the development of hydrogen technologies across the supply chain, support for the deployment of hydrogen-powered vehicles and support for studies on synthetic fuel. France also announced that it will support two energy and industry sector decarbonization projects and a value chain development project aimed at producing low-carbon hydrogen.

On 18 April 2025, Minister of Economy, Finance, Industrial and Digital Sovereignty Eric Lombard and Minister of Industry and Energy Marc Ferracci relaunched five calls for proposals for projects supporting decarbonization.³⁶⁹⁷ France will allocate up to EUR30 million to projects selected under the Biomass Heat for Industry, Agriculture and the Tertiary Sector aimed at decarbonizing these sectors as well as funding for several projects aimed at supporting decarbonization in the industrial sector.

On 12 May 2025, the AFD Group and Office Chérifien des Phosphates (OCP) Group announced a EUR350 million financing agreement to support the OCP Group in transitioning towards 100 per cent renewable energy

by 2027.³⁶⁹⁸ Additionally, this funding will enable the group to produce and promote decarbonized fertilizers, develop green hydrogen and green ammonia and increase clean energy and non-conventional water production. This partnership aims to support Morocco's low-carbon transition and promote sustainable agriculture in Africa.

On 26 May 2025, Prime Minister François Bayrou held the Interministerial Committee for the Sea 2025.³⁶⁹⁹ This conference discussed strategies for decarbonizing its maritime sector and increasing marine renewable energies.

On 26 May 2025, the AFD and Viet Nam Electricity National Power Transmission Corporation signed a EUR67 million credit facility agreement to support the construction of 500 kilovolt transmission lines in Vietnam's Binh Duong and Dong Nai provinces.³⁷⁰⁰ The project will support the integration of renewable energy in Vietnam's transmission networks, thereby supporting the reduction of greenhouse gas emissions.

On 27 May 2025, the AFD, representing itself, Proparco, the European Investment Bank, the Japan International Cooperation Agency, Germany's KfW Development Bank and Italy's Cassa Depositi e Prestiti, signed a Memorandum of Understanding with Viet Nam Electricity, committing up to EUR480 million to support the construction of a 1200 megawatts Pumped Storage Hydropower project in Vietnam.³⁷⁰¹ The EU will also provide EUR10 million in technical assistance for the project, managed by the AFD. The project aims to increase the integration of renewable energy in Vietnam's energy grid.

On 6 June 2025, the Ministry of Economy, Finance, and Industrial and Digital Sovereignty and the Brazilian Ministry of Mines and Energy signed a Declaration of Intent focusing on low-carbon hydrogen.³⁷⁰² The agreement aims to strengthen green reindustrialization and technological innovation within Brazil, with France's assistance.

On 6 June 2025, the AFD and Banco Regional de Desenvolvimento do Extremo Sul announced EUR120 million in joint investments for environmental and climate impact projects in southern Brazil.³⁷⁰³ These projects will focus on the production of clean and renewable energy while addressing other environmental concerns. The AFD stated that it aims to support Brazil's transition toward a "low-carbon, resilient, and equitable model" through this initiative.

On 27 June 2025, the AFD, French Environment and Energy Management Agency and the Banque des Territoires signed an agreement to strengthen their collaboration in advancing energy and ecological transitions

in the Réunion region.³⁷⁰⁴ Key areas of cooperation include improving energy efficiency in public and private buildings and infrastructure, diversifying electricity and expanding energy storage capacities.

On 11 July 2025, France and the United Kingdom announced a new Industrial Strategy partnership aimed at investing in clean energy industries, supporting the net zero transition and accelerating growth.³⁷⁰⁵ This partnership came into effect following the 37th UK-France Summit.

On 11 July 2025, Minister Ferracci and Secretary General for Investment Bruno Bonnell announced project calls “for investment projects to produce tomorrow’s road vehicles and their components in France” and “CORAM 2025.”³⁷⁰⁶ Through this initiative, France aims to decarbonize the automotive sector and support manufacturers who are at the forefront of emission-free transitions.

On 26 July 2025, France collaborated with the United Kingdom to launch the MicroCarb satellite that will map and monitor carbon dioxide emissions.³⁷⁰⁷ The satellite was launched from Kourou, French Guiana. This project aims to understand carbon emissions in cities which are responsible for 70 per cent of total emissions. The satellite will also monitor natural carbon sinks, including forests and oceans, in order to support carbon capture and storage initiatives.

On 29 July 2025, Minister Ferracci proclaimed seven new measures to accelerate the development of geothermal energy in France.³⁷⁰⁸ France’s objective is to double the installation rate of geothermal heat pumps while also increasing deep geothermal operations by 40 per cent through projects set to be launched before 2030.

On 4 September 2025, the Kenyan Ministry of Energy and Petroleum and the AFD signed a cooperation agreement to accelerate the development of geothermal energy across East Africa.³⁷⁰⁹ The partnership between Kenya, Tanzania, Uganda and France aims to position East Africa as a regional leader in renewable energy by combining Kenya’s expertise in deep geothermal power generation with French experience in direct geothermal heat applications. The initiative aims to enhance climate resilience, stimulate green growth and advance sustainable development.

On 8 September 2025, the EU, France and Ethiopia signed a EUR120 million agreement to modernize Ethiopia’s electricity and digital infrastructure under the Renewable Integrated Sustainable Energy and

Digitalisation programme.³⁷¹⁰ This initiative seeks to strengthen Ethiopia's electricity grid, expand renewable energy generation and enhance access to affordable digital connectivity.

On 16 October 2025, the AFD signed two agreements to support North Macedonia's energy transition.³⁷¹¹ In partnership with RTE International, the agreement between the AFD and North Macedonia's energy transmitter, MEPSO, aims to "modernize and digitize the national electricity transmission network". This project will enhance the security and efficiency of energy supply and enable the integration of more renewable energy.

On 17 October 2025, the AFD signed a contribution agreement with the Global Energy Alliance for People and Planet to fund feasibility studies for a battery energy storage system project in Togo.³⁷¹² The Togan government has set goals such as achieving universal access to electricity by 2030 and reducing its dependence on energy imports. The feasibility studies will outline a 55 megawatts pilot energy storage project and develop a countrywide roadmap for deployment.

France has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. France has taken strong action to reduce carbon emissions in the energy, industry, buildings, transport and agriculture sectors through clean energy investments for Enerjisa, Netis, the OCP Group, Mexico and Indonesia, funding for emissions reductions in agriculture in Kenya and Ukraine, funding for Moldova's energy efficiency improvements in public buildings and the updated National Hydrogen Strategy which includes financing for hydrogen-powered vehicles and industrial decarbonization. It has also advanced reductions in methane through a biomethane production facility.

Thus, France receives a score of +1.

Analyst: Siya Duggal

Germany: 0

Germany has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 20 November 2024, the German Investment and Development Company and France's Proparco announced a EUR115 million green loan to support Turkish power producer Enerjisa Enerji Üretim A.Ş. in its clean energy transition.³⁷¹³ This financing will enable Enerjisa "to develop nine onshore wind power plants with a combined capacity of 750" megawatts (MW), helping to advance renewable energy capacity in the country. Proparco will provide EUR75 million for this project with EUR40 million provided by the German Investment and Development Company.

On 28 November 2024, State Secretary at the Ministry for Economic Cooperation and Development Jochen Flasbarth reaffirmed Germany's commitment to accelerating the energy transition in South Africa.³⁷¹⁴ He also revealed that Germany will provide EUR200 million in repayable loans to South Africa for this cause.

On 11 December 2024, the Federal Cabinet approved amendments to the 2023 Renewable Energy Sources Act to increase flexibility for use and funding for biogas plants.³⁷¹⁵ This aims to ensure the full potential of bioenergy.

On 13 December 2024, the Ministers for European Affairs of Germany, France and Poland met within the Weimar Triangle framework to discuss key issues including EU enlargement and climate action.³⁷¹⁶ They reaffirmed their commitment to strengthening the EU's green transition and resilience, advocating for green reforms as integral to European competitiveness and sustainability.

On 17 December 2024, the European Commission approved a EUR3 billion scheme funded by Germany and the Netherlands to produce "renewable fuels of non-biological origin."³⁷¹⁷ This will help advance the net zero transition and help the EU achieve its climate and hydrogen goals. Germany will provide EUR2.7 billion for this initiative which is expected to produce a minimum of "1.875 GW of electrolysis capacity" globally.

On 21 January 2025, Germany, Italy, Austria, Algeria and Tunisia signed a Joint Declaration of Intent to develop the Southern Hydrogen Corridor.³⁷¹⁸ This initiative aims to establish a 3,500-4,000-kilometre pipeline transporting renewable hydrogen from North Africa to Europe and is expected to deliver up to 163 terawatt-hours of hydrogen annually to Europe.

On 12 February 2025, Germany announced joint initiatives with the African Development Bank to accelerate energy access across Africa.³⁷¹⁹ The initiatives include increasing funding for renewable energy projects and supporting regional power integration programs.

On 13 February 2025, the Ministry for Economic Cooperation and Development announced funding to support green hydrogen production in Morocco, through its PtX Development Fund.³⁷²⁰ PtX will provide a EUR30 million grant to support the construction of a green hydrogen plant which is expected to reduce carbon

emissions by 300,000 tonnes per year by producing 100,000 tonnes of green ammonia to be used for climate-friendly fertilizers.

On 11 March 2025, the French Development Agency (AFD) and Moldova signed an agreement for the INSPIREE project which aims to save energy by improving energy efficiency in public buildings in Moldova.³⁷²¹ The project will receive EUR30 million in co-financing by the AFD, Germany's KfW Development Group and Moldova.

On 18 March 2025, Deputy Chancellor and Minister for Economic Affairs and Climate Action Robert Habeck and Minister of Foreign Affairs Annalena Baerbock led discussions on the global energy transition at the Berlin Energy Transition Dialogue.³⁷²² The conference focused on advancing renewable energy, energy efficiency and phasing out of fossil fuels in line with goals from the 28th Conference of the Parties of the UN Framework Convention on Climate Change. Emphasizing international cooperation, Germany reinforced its commitment to sustainable energy partnerships and highlighted economic opportunities, including the growth of hydrogen markets and clean technology investments.

On 25 March 2025, the Ministry for Economic Affairs and Climate Action announced that the KfW Development Group is providing EUR172 million in financing as the first installment for the construction of a hydrogen core network.³⁷²³ Once complete, the network will extend 9,040 kilometres and support a climate-neutral transition.

On 26 March 2025, the German Investment and Development Company, Proparco and Standard Charter announced USD60 million in joint financing for Indonesia's Saguling floating solar photovoltaic power plant under the Just Energy Transition Partnership.³⁷²⁴ Once complete, the plant will support the energy transition by decreased Indonesia's carbon emissions by 63,100 tonnes per year and increasing solar electricity generation in the country by 13 per cent.

On 11 April 2025, the Ministry for Economic Affairs and Climate Action announced the opening of a green hydrogen plant to produce carbon dioxide-free iron in Namibia.³⁷²⁵ The plant will reduce 20,000 tonnes of carbon emissions per year and produce 15,000 tonnes of green iron per year. Germany provided EUR13 million for this project which will support the industrial sector.

In May 2025, the German Society for International Cooperation allocated EUR456,000 for a project to support "the introduction of emissions trading systems" and the Carbon Border Adjustment Mechanism in Brazil and

Türkiye's public and private sectors.³⁷²⁶ The project aims to support the reductions of greenhouse gas emissions in the long-term. It will be implemented by adelphi global gGmbH, the National Service for Industrial Training, the Union of Chambers and Commodity Exchanges of Türkiye and the United Nations Industrial Development Organization Austria until December 2025.

On 27 May 2025, the AFD, representing itself, the KfW Development Bank, the Japan International Cooperation Agency, Proparco, the European Investment Bank and Italy's Cassa Depositi e Prestiti, signed a Memorandum of Understanding with Viet Nam Electricity, committing up to EUR480 million to support the construction of a 1200 megawatts Pumped Storage Hydropower project in Vietnam.³⁷²⁷ The EU will also provide EUR10 million in technical assistance for the project, managed by the AFD. The project aims to increase the integration of renewable energy in Vietnam's energy grid.

On 20 May 2025, the German Society for International Cooperation and the German Environment Agency on hosted a two-day online event on behalf of the Ministry for the Environment, Nature Conservation, Nuclear Safety and Consumer Protection.³⁷²⁸ The 2025 Green Cooling Summit aimed to highlight solutions to reduce buildings emissions using technologies that replace hydrofluorocarbons.

On 25 June 2025, Germany announced that 514,000 emission certificates would be withdrawn from the European Emissions Trading System to phase out coal.³⁷²⁹ This measure follows the closure of two power plant units under the Coal Phase-Out Act, which led to a reduction of about 890,000 tons of carbon dioxide emissions in 2023.

On 3 July 2025, Germany announced that an additional EUR400 million in investments for climate-friendly shipping and ports.³⁷³⁰ Over the next four years, this funding will be used to modernize its maritime economy, supporting low-emissions ships and other measures.

On 4 July 2025, the Ministry for Economic Affairs and Energy announced a draft law to accelerate the development of geothermal plants, large-scale heat pumps, thermal storage systems and district heating networks.³⁷³¹ The law, if approved by Parliament, will simplify approval regulations for related projects.

On 11 July 2025, the Federal Council approved a draft law to accelerate the energy transition.³⁷³² This law amends the Renewable Energy Directive 2023/2413 (RED III), simplifying and accelerating project requirements for onshore wind and energy storage and promoting the expansion of renewable energy.

On 17 July 2025, Germany and the United Kingdom signed the Treaty on Friendship and Bilateral Cooperation.³⁷³³ Through this treaty, both members agreed to work on 17 priority projects, including the Strategic Science and Technology Partnership which focuses on “sustainable energy solutions” and the North Sea Energy Infrastructure Project which aims to accelerate hydrogen and carbon dioxide infrastructure.

On 25 July 2025, Minister for Economic Cooperation and Development Reem Alabali Radovan and the Government of South Africa agreed to expand renewable energies, during the G20 Development Ministers’ Meeting.³⁷³⁴ Through a EUR500 million loan, South Africa will advance reforms in its energy sector to attract private investment. The loan will support grid expansion for solar and wind power plants, stabilize the power supply and create new business opportunities for German companies.

On 6 August 2025, the Federal Cabinet approved a draft bill amending the Carbon Dioxide Storage Act to enable the use of Carbon Capture and Storage and Carbon Capture and Utilization.³⁷³⁵ Through this law, Germany aims to support industries with unavoidable process emissions, such as cement and lime production, by creating a legal framework for carbon dioxide transport, storage, and infrastructure development.

On 6 August 2025, the Federal Cabinet passed six major energy sector laws as part of the emergency program of the Ministry for Economic Affairs and Energy.³⁷³⁶ The package includes the abolition of the gas storage levy and new laws to accelerate geothermal projects, heat pumps and heat storage facilities. Additionally, the EU Renewable Energy Directive in the areas of offshore wind energy and electricity grids was implemented, and the Energy Industry Act was amended to strengthen consumer protection and expand digitalization. Together, these measures aim to ease the burden on businesses and households and accelerate renewable energy expansion.

On 7 August 2025, the federal and state governments committed EUR100 billion from a EUR500 billion special fund to climate protection.³⁷³⁷ They are directing the investment towards state-of-the-art technologies such as carbon capture and storage and carbon capture and utilisation to address industrial and power plant emissions

that are difficult to avoid. The plan also accelerates geothermal and offshore wind energy expansion through designated acceleration areas and streamlined authorisation processes.

On 1 October 2025, the Federal Cabinet approved the draft Hydrogen Acceleration Act to speed the rollout of hydrogen infrastructure by simplifying and digitizing permitting, shortening deadlines and declaring hydrogen projects to be of overriding public interest across the full value chain from production and imports to storage, pipelines, and terminals.³⁷³⁸ By cutting red tape and providing clearer, faster procedures, the measure aims to bring low carbon hydrogen to market sooner, support industrial decarbonisation and strengthen energy security.

Germany has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Germany has taken strong action to reduce carbon emissions in the energy, buildings, transport, industry and agriculture sectors through funding for Enerjisa and South Africa's clean energy projects, investing in Moldova's energy efficiency project for public buildings, funding for the hydrogen core network and Morocco's project to develop green ammonia to be used for climate-friendly fertilizers and the opening of a green iron plant in Namibia. Germany has also passed new energy laws to support carbon dioxide storage, accelerate geothermal projects and advance renewable energy. However, it has not taken action across six or more of the sub-parts in parts two and three of the commitment.

Thus, Germany receives a score of 0.

Analyst: Meghry Karagouzian

India: 0

India has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 28 November 2024, the National Hydroelectric Power Corporation Limited and Global Green Growth Institute signed a Memorandum of Understanding for clean energy including green hydrogen and agrivoltaics.³⁷³⁹ The memorandum outlines cooperation for research and development for renewable energy technologies and solutions, including for agriculture and investments for green projects.

On 6 December 2024, India's International Solar Alliance and the United States Agency for International Development signed a Memorandum of Understanding to advance grid interconnection.³⁷⁴⁰ This partnership seeks to expand the use of renewable energy and strengthen energy interconnections across regions, supporting the development of a unified grid. These initiatives will enhance the sustainability and reliability of energy transition technologies.

On 10 December 2024, the Ministry of New and Renewable Energy amended the Approved Models and Manufacturers of Solar Photovoltaic Modules Order to include solar photovoltaic under the framework.³⁷⁴¹ Effective 1 June 2026, this action aims to enhance India's renewable energy industry.

On 13 December 2024, Minister for Steel and Heavy Industries, Haradanahalli Devegowda Kumaraswamy announced the adoption of a roadmap to advance green steel manufacturing in line with India's goal of achieving net zero by 2070.³⁷⁴²

On 10 January 2025, Minister of Commerce and Industry Piyush Goyal inaugurated the Bharat Cleantech Manufacturing Platform which will provide collaboration and innovation opportunities to Indian companies.³⁷⁴³ The platform is focused on developing India's clean technology supply chains for the solar, wind, hydrogen, and battery storage sectors.

On 17 January 2025, the Indian Renewable Energy Development Agency, SJVN Limited, GMR Energy Limited and the Nepal Electricity Authority finalized an agreement for a hydroelectric project in Nepal.³⁷⁴⁴ The project will have a 900 megawatts capacity, helping to advance the net zero transition.

On 24 January 2025, the Bureau of Energy Efficiency, Ministry of Power and the Energy and Resources Institute signed a Memorandum of Understanding to open a Centre of Excellence for Energy Transition.³⁷⁴⁵ The centre will conduct research on greenhouse gas emissions reductions, energy efficiency and low-carbon technologies across the mining, buildings, transport, power, industrial and enterprise sectors.

On 28 January 2025, Minister Goyal concluded a two-day trip to Oman to discuss bilateral cooperation for a number of sectors.³⁷⁴⁶ In part, he and Minister of Commerce, Industry, and Investment Promotion of Oman Qais bin Mohammed Al Yousef discussed increased cooperation for renewable energy.

On 24 February 2025, the Ministry of New and Renewable Energy's Solar Energy Corporation of India Limited and Government of Madhya Pradesh signed a Memorandum of Understanding to establish a solar project and battery storage project in Madhya Pradesh.³⁷⁴⁷ The solar project will have a capacity of up to 200 megawatts and the battery storage project will have a 1000-megawatt hour capacity.

On 3 March 2025, the Ministry of New and Renewable Energy announced five pilot projects under the National Green Hydrogen Mission.³⁷⁴⁸ These projects aim to advance 37 hydrogen-powered buses and trucks

³⁷⁴¹ MNRE Announces Significant Amendment to ALMM Order 2019 to Advance Solar Manufacturing, Ministry of New and Renewable Energy (New Delhi) 10 December 2024. Access Date: 29 June 2025. <https://www.pib.gov.in/PressReleasePage.aspx?PRID=2082901>

and establish nine hydrogen refueling stations. The government will provide INR2.08 billion for this project over the next two years.

On 25 March 2025, Parliament passed the Finance Bill which includes India's budget allocations of the 2025 fiscal year.³⁷⁴⁹ The budget was presented by Minister for Finance and Corporate Affairs Nirmala Sitharaman on 1 February 2025 and includes INR200 billion for research and development for at least five Small Modular Reactors to advance nuclear energy, the exemption of over 50 additional capital goods used for electric vehicle and mobile batteries manufacturing and the establishment of a National Manufacturing Mission supporting energy transition technologies.³⁷⁵⁰

On 15 May 2025, India and the European Union announced two new climate initiatives under the India-EU Trade and Technology Council framework.³⁷⁵¹ The second initiative will receive EUR9.3 million in funding from the Ministry of New and Renewable Energy and EUR10 million from the EU to advance the development of hydrogen from agricultural, forestry-related, municipal, sewage and industrial biogenic wastes. This project aims to support the reduction of greenhouse gas emissions.

On 29 May 2025, NLC India Renewables Limited and Mahatma Phule Renewable Energy and Infrastructure Technology Limited signed a joint venture agreement for renewable energy in Maharashtra.³⁷⁵² The agreement outlines cooperation to develop solar, wind, hybrid, floating solar, Battery Energy Storage System, pumped storage and solar parks projects with a 2000 megawatts capacity.

On 20 June 2025, Ministry of New and Renewable Energy (MNRE) Secretary Santosh Kumar Sarangi announced the City Accelerator Program at the National Conference on Skill Development for Renewable Energy Workforce.³⁷⁵³ In collaboration with Shakti Sustainable Energy Foundation, the program aims to increase rooftop solar use in India.

On 21 June 2025, the MNRE, the National Institute of Solar Energy and StartUp India announced the launch of a start-up challenge for rooftop solar and renewable energy technologies projects.³⁷⁵⁴ The challenge aims to boost the adoption of affordable, resilient, inclusive and sustainable renewable energy. Selected applicants will receive a total of INR23 million.

On 23 June 2025, the Solar Energy Corporation of India and MNRE issued a tender to purchase green ammonia to help accelerate the reduction of carbon emissions in India's fertilizer industry.³⁷⁵⁵ Under the Strategic Interventions for Green Hydrogen Transition Scheme, the tender aims to produce and supply 724,000 tonnes of green ammonia annually.

On 4 July 2025, Minister for Coal and Mines Kishan Reddy released the Copper Vision Document at the International Conference on Sustainable and Responsible Mining through Best Mine Closure Practices,

³⁷⁵⁵ SECI's Landmark Green Ammonia tender set to decarbonize India's fertilizer sector, Ministry of New and Renewable Energy (New Delhi) 23 June 2025. Access Date: 7 August 2025. <https://www.pib.gov.in/PressReleasePage.aspx?PRID=2138823>

organised by the Indian National Committee of the World Mining Congress in Hyderabad.³⁷⁵⁶ The document provides a long-term strategy to meet growing domestic demand while ensuring raw material security by focusing on scaling up secondary refining, enhancing domestic recycling and reducing dependence on open-market imports by securing overseas mineral assets through global partnerships.

On 16 July 2025, the Union Cabinet approved a special exemption for NLC India Limited (NLCIL) from existing investment guidelines for Navratna Central Public Sector Enterprises.³⁷⁵⁷ The decision allows NLCIL to invest INR70 billion in its subsidiary, NLC India Renewables Limited (NIRL) and enables NIRL to directly invest in projects or form joint ventures without prior approvals. This exemption from the 30 per cent net worth ceiling aims to accelerate NLCIL's renewable energy expansion, supporting India's target of 500 GW non-fossil fuel capacity by 2030 and its net zero emissions goal for 2070.

On 29 July 2025, the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry and Ather Energy Limited signed a Memorandum of Understanding under the Startup Policy Forum's "Build in Bharat" initiative to strengthen India's EV manufacturing and clean mobility ecosystem.³⁷⁵⁸ The partnership will support deep-tech startups through strategic mentorship, infrastructure support, joint innovation programs and skill development initiatives. It aims to accelerate India's transition to sustainable transport and create new opportunities for the manufacturing sector.

On 12 August 2025, the Cabinet Committee on Economic Affairs approved an investment proposal of INR81.46 billion for the construction of the 700 megawatts Tato-II Hydro Electric Project in Shi Yomi District of Arunachal Pradesh.³⁷⁵⁹ The project will strengthen both the state's power supply and the national grid. The project will also deliver socio-economic benefits, including 12 per cent of free power to the state, construction of essential infrastructure, local employment opportunities and community development initiatives.

On 25 August 2025, Minister of Power and Housing and Urban Affairs Manohar Lal and Japan's Minister of Economy, Trade and Industry Yoji Muto held the 11th Japan-India Energy Dialogue.³⁷⁶⁰ During the meeting, the two ministers discussed achievements and collaboration and reaffirmed intent to collaborate in the areas of clean hydrogen and ammonia through a joint declaration.

On 27 August 2025, the Ministry of Environment, Forest and Climate Change announced a 21-member National Designated Authority, headed by the Union Environment Secretary, for implementation of provisions related to carbon trading to achieve its climate targets under the Paris Agreement.³⁷⁶¹ Its work will broadly be related to greenhouse gas mitigation and carbon removal activities.

On 11 September 2025, Minister of Consumer Affairs, Food and Public Distribution of India Pralhad Joshi inaugurated the first Annual Green Hydrogen Research and Development Conference in New Delhi and

³⁷⁶¹ India sets up National Designated Authority to implement provisions of carbon trading under Paris Agreement, The Times of India (New Delhi) 27 August 2025. Access Date: 8 October 2025. <https://timesofindia.indiatimes.com/india/india-sets-up-national-designated-authority-to-implement-provisions-of-carbon-trading-under-paris-agreement/articleshow/123549828.cms>

launched a INR1,000,000,000 Call for Proposals supporting start-ups in hydrogen innovation.³⁷⁶² The event showcased 25 start-ups and highlighted India's progress under the National Green Hydrogen Mission, including 23 research and development projects, pilot projects in ports and industries, hydrogen buses and the first green ammonia auction.

On 10 October 2025, the Ministry of New and Renewable Energy formally recognized the Deendayal Port Authority in Gujarat, V.O. Chidambaranar Port Authority in Tamil Nadu and Paradip Port Authority in Odisha as Green Hydrogen Hubs under the National Green Hydrogen Mission.³⁷⁶³ The designation will support the development of integrated hydrogen ecosystems, strategic infrastructure and innovation programs at these ports.

India has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways through several verbal commitments, such as draft policies. India has taken strong action to reduce carbon emissions across the energy, transport, industrial and agricultural sectors through partnerships for renewable energy in agriculture, clean energy projects and waste-to-green hydrogen development, funding for nuclear energy advancement, electric vehicle incentives and the creation of a National Manufacturing Mission through the annual budget, a solar and battery storage project in Madhya Pradesh, pilot projects for hydrogen-powered buses, trucks and fuelling stations and the Centre of Excellence for Energy Transition. However, it has not taken strong action to reduce greenhouse gases other than carbon.

Thus, India receives a score of 0.

Analyst: Samardeep Sandhu

Indonesia: 0

Indonesia has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 3 December 2024, Minister of Energy and Mineral Resources Bahlil Lahadalia announced that Indonesia is accelerating its use of nuclear energy as part of its commitment to diversify energy.³⁷⁶⁴ This action contributes to Indonesia's target of 23 per cent renewable energy by 2025 and ultimate goal to achieve a net zero energy sector.

On 16 December 2024, Indonesia announced a plan to construct 20 nuclear power plants to help achieve net zero emissions by 2050.³⁷⁶⁵ The government awarded a contract to ThorCon to develop a 500 megawatts nuclear facility with a Thorium Molten Salt Reactor as the first contract in this plan. It will receive an investment of USD1.06 billion.

On 20 December 2024, the Ministry of Energy and Mineral Resources unveiled regulations to support the development of Carbon Capture and Storage technology.³⁷⁶⁶ These regulations unlock various opportunities and incentives to enhance Indonesia's position as a regional hub for carbon storage.

On 3 January 2025, Minister Lahadalia announced that Indonesia's has modified its biofuel regulations to require diesel fuel to include 40 per cent palm oil-based biofuel instead of 35 per cent, as of 1 January 2025.³⁷⁶⁷ This regulation aims to reduce foreign imports of diesel while supporting the net zero transition by reducing carbon emissions by 41.46 million tonnes per year.

On 20 January 2025, the Ministry of Environment, Environmental Control Agency, the Financial Services Authority and the Indonesia Stock Exchange launched Indonesia's first carbon trade in line with Article Six of the Paris Agreement.³⁷⁶⁸ This initiative aims to incentivize greenhouse gas emissions reductions.

On 20 January 2025, President Prabowo Subianto launched 37 electricity projects based at the Jatigede Hydroelectric Power Plant.³⁷⁶⁹ The initiation of the projects was spread across 18 provinces in Indonesia, illustrating the government's commitment to green energy transition and building sustainable energy infrastructure.

On 12 February 2025, the Ministry of Energy and Mineral Resources announced cooperation with the Ministry of Energy and Natural Resources of Türkiye to accelerate clean energy development in Indonesia, including the signing of a Memorandum of Understanding.³⁷⁷⁰ This collaboration will bolster Indonesia's commitment to clean power generation.

On 6 February 2025, Minister of Investment and Downstreaming and Head of the Investment Coordinating Board Rosan Roeslani shared that President Prabowo Subianto wants to accelerate the electric vehicles supply chain to advance the net-zero transition.³⁷⁷¹ Minister Roeslani commitment to further action for this development.

On 26 February 2025, the Ministry of Energy and Mineral Resources signed a Memorandum of Understanding with the Ministry of Environment to collaborate on environmental protection, environmental management

³⁷⁷¹ President seeks to expedite net-zero plan through EV push, Antara Kantor Berita Indonesia (Jakarta) 6 February 2025. Access Date: 29 June 2025. <https://en.antaranews.com/news/343973/president-seeks-to-expedite-net-zero-plan-through-ev-push>

and energy and mineral resources.³⁷⁷² This agreement will increase oil and gas lifting and aid the expedition of bureaucratic reforms.

On 10 March 2025, the National Research and Innovation Agency and PT Alam Semesta Integra signed an agreement for research and development of “microalgae-based photobioreactor technology to support renewable energy and reduce greenhouse gas (GHG) emissions.”³⁷⁷³

On 6 April 2025, Minister Lahadalia announced that he asked Indonesian company PT Perusahaan Listrik Negara to build a Geothermal Power Plant in Maluku.³⁷⁷⁴ The plant is expected to have a 40 megawatts capacity, supporting clean energy and access to energy for the country.

On 14 April 2025, the State Electricity Company PT PLN (Persero) and the Masdar signed two agreements to advance solar energy in Indonesia.³⁷⁷⁵ The agreement focuses on “floating solar power deployment” to support the clean energy transition.

On 17 April 2025, Minister of Environment and Head of the Environmental Control Agency Hanif Faisol Nurofiq and the United Kingdom’s Parliamentary Under-Secretary of State for Climate Kerry McCarthy met to discuss their commitment towards carbon neutrality in line with the Paris Agreement.³⁷⁷⁶ Indonesia highlighted its actions to strengthen the national carbon market to advance the net zero transition.

On 8 May 2025, the Ministry of Environment and Gold Standard Foundation signed an agreement to strengthen Indonesia’s carbon market.³⁷⁷⁷ This partnership will help improve the reliability and efficiency of carbon trading to help advance greenhouse gas emissions reductions.

On 9 May 2025, Minister of Industry Agus Gumiwang Kartasasmita announced that the government will expand the energy transition in the industrial sector.³⁷⁷⁸ The Ministry is preparing new regulations for green financing to support the transition with a focus on cement, metals, transportation equipment, ceramics, chemicals, food, paper, fertilizer and nickel smelters.

On 22 May 2025, Minister Lahadalia invited domestic and international oil and gas Production Sharing Contractors to participate in Indonesia's carbon capture and storage industry.³⁷⁷⁹ Minister Lahadalia noted that supporting regulations under the Ministry of Energy and Mineral Resources have been finalized and aid in carbon dioxide capture.

On 13 June 2025, Indonesia and Singapore signed three Memorandums of Understanding regarding renewable and sustainable energy.³⁷⁸⁰ The countries agreed to build a sustainable industrial zone in the Riau Islands and collaborate on green energy.

On 26 June 2025, President Subianto and Minister Lahadalia announced the inauguration of 55 renewable energy projects across 15 provinces.³⁷⁸¹ These projects will contribute to Indonesia's national energy supply, thereby reducing reliance on non-renewable energy sources.

On 10 July 2025, Minister Lahadalia announced Indonesia's commitment to deepen cooperation with Brazil on bioenergy, including technology transfer, joint research, and capacity building for bioethanol and other biofuels, during President Subianto's visit to Brasília.³⁷⁸² The partnership will develop joint pilots and standards, strengthen sustainable feedstock supply chains, and expand skills training. It seeks to cut transport emissions, reduce fuel imports and create opportunities for rural producers as Indonesia advances its clean energy transition.

On 26 July 2025, Indonesia reaffirmed its commitment to reaching net-zero emissions using international climate diplomacy to accelerate finance and technology cooperation.³⁷⁸³ Vice Minister Diaz Hendropriyono spoke at the Indonesia Net Zero Summit 2025 in Jakarta and highlighted active engagement in multilateral forums, support for stronger nationally determined contributions, and work with BRICS and the New Development Bank to expand funding for adaptation and low-carbon development. These actions aim to speed emission reductions, strengthen resilience, and signal Indonesia's intent to move faster on its net zero pathway.

On 14 August 2025, Indonesia took its first steps toward a 100 gigawatts solar photovoltaic build-out by deepening cooperation with Chinese manufacturers.³⁷⁸⁴ Minister of Energy and Mineral Resources Bahlil Lahadalia met Trina Solar to expand domestic solar supply chains and the national solar ecosystem, including support for the joint venture PT Trina Mas Agra Indonesia in the Kendal Special Economic Zone, which

³⁷⁸⁴ Langkah Awal Realisasi PLTS 100 GW, Menteri Bahlil Temui Perusahaan Solar PV di Tiongkok, Kementerian Energi dan Sumber Daya Mineral (Jakarta) 14 August 2025. Translation provided by Google Translate. Access Date: 30 August 2025. <https://www.esdm.go.id/id/media-center/arsip-berita/langkah-awal-realisasi-plts-100-gw-menteri-bahlil-temui-perusahaan-solar-pv-di-tiongkok>

operates at one gigawatt and plans to reach 3 gigawatts within two to three years. This effort aims to cut import dependence, speed deployment of utility-scale and village-level solar and strengthen energy security.

On 16 September 2025, Indonesia signed a Mutual Recognition Agreement with the Global Carbon Council and Plan Vivo Foundation and announced cooperation with Gold Standard, to align Indonesia's greenhouse gas reduction certificates with leading international standards.³⁷⁸⁵ The step strengthens the integrity and interoperability of Indonesia's carbon market, supports emission reductions toward its 2030 targets and builds a credible pathway for Indonesian projects to access global voluntary carbon markets.

Indonesia has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Indonesia has taken strong action to reduce carbon emissions in the energy sector through a nuclear contract with ThorCon, Geothermal Power Plant in Maluku, solar energy agreements with Masdar and the launch of its carbon trading market. It has also taken weak action to advance greenhouse gas emissions reductions in various sectors through discussions with the United Kingdom, commitment to accelerating electric vehicles supply chains, agreement with Türkiye and modifications to its biofuel and Carbon Capture and Storage regulations.

Thus, Indonesia receives a score of 0.

Analysts: Candace Sara Ciju and Tara Van de Wall

Italy: 0

Italy has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 22 November 2024, the Ministry of the Environment and Energy Security (MASE) announced a call for project proposals aimed at advancing electricity for at least 230,000 residents in Italy.³⁷⁸⁶ The government will provide a total of EUR393,156,440.30 for this initiative, with a focus on increasing electricity through renewable energy to advance the net zero transition.

On 26 November 2024, MASE presented the National Hydrogen Strategy which focuses on low-carbon hydrogen and decarbonization in various sectors including industry, transport and energy.³⁷⁸⁷ The strategy focuses on achieving net zero by 2050 through a transition towards renewable energy, development of Carbon Capture Storage, biofuel, biomethane, hydrogen and potentially nuclear.

On 29 November 2024, MASE and the Jordanian Renewable Energy and Energy Efficiency Fund's Joint Committee approved two solar thermal projects.³⁷⁸⁸ The first project will receive EUR3.1 million from the Ministry of Environment and Energy Security to advance energy efficiency through solar energy in 33 public hospitals. The second project will receive EUR3.7 million from the ministry to improve efficiency through solar in residential buildings, with a focus on low-income families.

³⁷⁸⁸ Comitato Congiunto Italia-Giordania, quasi 7 milioni dal MASE per due progetti di transizione energetica, Ministero dell'Ambiente e della Sicurezza Energetica (Rome) 2 December 2024. Translation provided by Google Translate. Access Date: 29 June 2025. <https://www.mase.gov.it/portale/-/comitato-congiunto-italia-giordania-quasi-7-milioni-dal-mase-per-due-progetti-di-transizione-energetica>

On 13 December 2024, Prime Minister Giorgia Meloni chaired the closing meeting of Italy's G7 Presidency.³⁷⁸⁹ During the meeting, she reiterated Italy's commitment to green energy development through the Energy for Growth in Africa initiative. The program supports the implementation of infrastructure for the production and distribution of renewable energy, contributing to the expansion of energy transition technologies.

On 14 January 2025, Minister of Environment and Energy Security Gilberto Pichetto and Minister of Energy of Saudi Arabia, Abdulaziz Bin Salman Al-Saud signed a Memorandum of Understanding for energy.³⁷⁹⁰ The countries will collaborate to advance the energy transition and energy security through the advancement of renewable energy, decreasing methane emissions, carbon capture and storage and supporting supply chain projects in developing countries.

On 15 January 2025, Prime Minister Meloni visited Abu Dhabi and participated in the signing of a trilateral agreement between Italy, the United Arab Emirates and Albania for the development and export of renewable electricity from Albania to Italy.³⁷⁹¹ The agreement involves the construction of an undersea power cable, contributing to regional integration and strengthening Italy's infrastructure for clean energy.

On 21 January 2025, Italy, Germany, Austria, Algeria and Tunisia signed a Joint Declaration of Intent to develop the Southern Hydrogen Corridor.³⁷⁹² This initiative aims to establish a 3,500-4,000-kilometre pipeline transporting renewable hydrogen from North Africa to Europe and is expected to deliver up to 163 terawatt-hours of hydrogen annually to Europe.

On 26 January 2025, CEO of Italy's Investment Bank Cassa Depositi e Prestiti (CDP) Dario Scannapieco signed a protocol with the Saudi Fund for Development and a second protocol with ACWA Power.³⁷⁹³ These agreements include a focus on renewable energy initiatives in Africa.

On 30 January 2025, the Ministry for the Environment and Energy Security (MASE), Comatito Italiano Gas and Gruppo Hera signed a protocol to launch pilot projects for hydrogen use in civil applications.³⁷⁹⁴ By integrating green hydrogen into heating, cooking and small industrial processes, this collaboration aims to reduce carbon emissions from the built environment and accelerate Italy's transition to a low-carbon energy system.

On 12 February 2025, Minister Pichetto announced a cooperative climate and energy framework between Italy and Kurdistan.³⁷⁹⁵ This joint development promotes knowledge transfer of carbon reduction strategies and supports regional decarbonization efforts.

On 21 February 2025, MASE announced EUR38 million in funding for innovative renewable energy projects in Italy.³⁷⁹⁶ These include projects that combine energy plants with carbon storage facilities and projects that encourage “self-consumption of energy.”

On 24 February 2025, Minister Pichetto signed two strategic agreements with the United Arab Emirates.³⁷⁹⁷ The first agreement supports bilateral cooperation on hydrogen, decarbonization and renewable energy.

On 24 February 2025, CDP and the United Arab Emirates signed three agreements to cooperate for renewable energy and waste management projects in Africa.³⁷⁹⁸ These agreements aim to advance the Mattei Plan for Africa.

On 27 February 2025, MASE brought the “FER-X Transitorio” decree into force.³⁷⁹⁹ This will establish a provisional support mechanism for renewable energy plants such as solar photovoltaic, wind, hydroelectric and biogas from wastewater treatment through both direct access incentives for installations up to one megawatt and competitive auctions for larger projects. By guaranteeing market-near cost support and simplifying access procedures, the decree accelerates the deployment of clean power capacity, directly reducing greenhouse gas emissions and advancing Italy’s transition to a low-carbon energy system.

On 13 March 2025, MASE announced that it will provide EUR232 million for energy sustainability in Italian cities beginning on 8 April 2025.³⁸⁰⁰ This will support projects to advance renewable energy, reduce consumption and finance “photovoltaic and solar thermal systems, heat pumps, relamping systems, high-efficiency fixtures and hybrid solutions” in public buildings.

On 31 March 2025, MASE announced a pilot program to blend up to 20 per cent green hydrogen into residential natural gas networks and launch innovative experimentation sites across select municipalities.³⁸⁰¹ This action aims to reduce carbon emissions from residential heating and cooking, advance low-carbon gas solutions and pave the way for wider deployment of hydrogen as a clean energy carrier.

On 7 April 2025, MASE announced a call for project proposals aimed at technological innovation for renewable energy and clean hydrogen.³⁸⁰² Selected projects will receive a total of EUR200 million for “non-programmable renewable sources, flexibility and energy storage, data and digitalization of networks, electrolyzers and networks, biohydrogen and biofuels” to advance the net zero transition within the industrial and economic sectors.

On 4 May 2025, President of the CDP Giovanni Gorno Tempini and Vice President of the Asian Development Bank Roberta Casali signed a Memorandum of Understanding to develop co-financing for climate change, sustainable in the agri-food sector, the blue economy and other related topics.³⁸⁰³ CDP’s Director for International Development Cooperation Paolo Lombardo and Executive Vice President of Corporate Finance of Indonesia’s State Electricity Company PT PLN (Persero) Maya Rani Puspita also signed a Memorandum of Understanding under the Just Energy Transition Partnership framework to advance Indonesia’s energy transition.

On 16 May 2025, MASE announced two G7-backed initiatives in partnership with the United Nations Development Programme Rome Centre to promote sustainable energy and climate adaptation in Africa.³⁸⁰⁴ These efforts are designed to increase clean energy access, build adaptive capacity against climate impacts and drive greenhouse gas reductions across the region.

On 20 May 2025, MASE approved the operational rules governing expressions of interest and participation in competitive calls under the Renewable Energy Facility (FER-X).³⁸⁰⁵ These rules establish clear procedures and eligibility criteria for project developers to bid on grants and incentives aimed at deploying new renewable energy installations. By streamlining the competitive process, FER-X is set to accelerate the addition of clean power capacity, such as solar and wind projects across the country, directly contributing to the reduction of greenhouse gas emissions.

On 27 May 2025, the French Development Agency (AFD), representing itself, the CDP, Germany’s KfW Development Bank, the Japan International Cooperation Agency, Proparco and the European Investment Bank, signed a Memorandum of Understanding with Viet Nam Electricity, committing up to EUR480 million to support the construction of a 1200 megawatts Pumped Storage Hydropower project in Vietnam.³⁸⁰⁶ The EU will also provide EUR10 million in technical assistance for the project, managed by the AFD. The project aims to increase the integration of renewable energy in Vietnam’s energy grid.

On 29 May 2025, MASE announced that the Italian Climate Fund will provide EUR100 million in funding to support decarbonization and sustainability initiatives in Tashkent, Uzbekistan.³⁸⁰⁷ This funding will be available as policy-based financing with a goal of accelerating the green transition in the economy.

On 13 June 2025, Minister Pichetto announced that Italy was appointed as Chair of the Clean Energy Ministerial Biofuture Platform, a multilateral initiative promoting the global use of sustainable biofuels.³⁸⁰⁸ Minister Pichetto stated that Italy will lead efforts to expand biofuels across sectors, including road transport, through international cooperation and science-based policies.

On 16 June 2025, Minister Pichetto announced that Italy officially joined the EU Nuclear Alliance during a meeting held on the sidelines of the Energy Council in Luxembourg.³⁸⁰⁹ Minister Pichetto stated that this decision aligns with Italy's strategy to reassess the role of nuclear energy as a decarbonised, reliable and programmable energy source.

On 16 June 2025, Minister Pichetto stated that Italy considers biofuels "one of the cornerstones of our climate strategy for reducing emissions also in road transport."³⁸¹⁰ Minister Pichetto added that Italy is pursuing a science-based approach and intends to work with the European Commission to establish effective compliance tools across the biofuel supply chain.

On 17 June 2025, Minister Pichetto stated that Italy supports flexibility in meeting the 2040 decarbonisation target, including allowing reductions from projects carried out in third countries to count towards the target.³⁸¹¹ Minister Pichetto added that such flexibility is essential to ensure the feasibility and credibility of the commitment.

On 30 June 2025, MASE approved a draft law which aims to establish a legislative framework that regulates carbon capture and storage, the governance in the hydrogen sector, and the implementation of the EU Regulation 2024/1787 on methane emissions.³⁸¹² Minister Pichetto stated that this step is crucial to achieving carbon neutrality, and a "clear regulatory framework" is essential for complex industrial sectors to decarbonize.

On 9 July 2025, MASE announced that EUR379 million will be allocated to selected investment projects aimed at increasing the share of renewable energy within the national transmission network.³⁸¹³ This public notice by MASE encourages the construction of new smart grids or upgrades to existing ones in Basilicata, Calabria, Campania, Molise, Puglia, Sardinia and Sicily.

On 9 July 2025, MASE announced that its Investment Support and Technical Assistance Platform, developed with the United Nations Development Programme Rome Centre for Climate and Energy Transition, was recognised in the "Seville Compromise for Action" as a preferred vehicle for Multilateral Development Banks

Access Date: 4 August 2025. https://www.mase.gov.it/portale/-/mase-avviso-pubblico-da-379-milioni-per-la-selezione-di-progetti-di-investimento-sulla-rete-elettrica-di-trasmissione-nazionale-rtn-nelle-regioni-meno-sviluppate?p_l_back_url=%2Fportale%2Fweb%2Fguest%2Farchivio-notizie-1

to support low-carbon and climate-resilient economies in developing countries.³⁸¹⁴ The platform is designed to mobilize investment and provide technical assistance for sustainable infrastructure, including high-impact climate projects and will be strengthened to attract additional funding and expertise.

On 9 July 2025, MASE issued a public notice for investment projects in the national electricity transmission grid in less-developed regions.³⁸¹⁵ The notice allocates EUR379 million under Action 2.3.2 - “Modernization and digitalization of the transmission grid”. The funding is targeted at Terna, the grid concessionaire, to build new transmission lines and upgrade existing infrastructure in regions such as Basilicata, aimed at enabling smart grid integration of distributed renewable energy generation. This action supports sustained reductions in greenhouse gas emissions in the energy sector.

On 17 July 2025, MASE published new operating rules to expand access to National Recovery and Resilience Plan funding for Renewable Energy Communities and collective self-consumption, extending eligibility to projects in municipalities of up to fifty thousand inhabitants.³⁸¹⁶ The updated rules clarify eligibility criteria and streamline procedures for capital grant applications. This action supports sustained reductions in greenhouse gas emissions in the energy sector.

On 29 July 2025, Minister Pichetoo signed a decree to amend the “Energy Release” mechanism following the approval from the EU Commission.³⁸¹⁷ Previously enacted in 2024, the mechanism allows industrial sectors with high energy consumption to receive an “advance payment of energy at a controlled price”, in return for a commitment to develop renewable plants that will repay the energy over the next twenty years. The new decree introduces a competition within energy-intensive companies and hopes to “maintain the economic sustainability of the operation for beneficiaries”.

On 30 July 2025, Deputy Minister of Environment and Energy Security Vannia Gava announced that the Unified Conference approved both the FER X decree providing incentives for renewable energy systems and updated minimum energy performance criteria for buildings, encouraging renewables and electric vehicle charging infrastructure.³⁸¹⁸ The measures align regulatory frameworks with the energy and buildings sectors to promote clean energy deployment and efficiency improvements.

On 5 August 2025, Deputy Minister Gava announced that the Unified Conference approved the Thermal Account 3.0, allocating EUR900 million annually to support energy efficiency and renewable energy in public

Access Date: 8 August 2025. <https://www.mase.gov.it/portale/-/energia-intesa-in-conferenza-unificata-su-fer-x-e-criteri-minimi-edifici-.gava-spinta-concreta-alla-transizione->

and non-residential buildings.³⁸¹⁹ The program covers 65 per cent to 100 per cent of eligible costs for measures including thermal insulation, heat pumps, solar thermal systems and electric mobility infrastructure. This action supports deep and sustained reductions in greenhouse gas emissions in the buildings sector.

On 6 August 2025, MASE published a study on carbon capture, use and storage (CCUS) to support framework regulation and development of the national supply chain.³⁸²⁰ The study provides a regulatory review, cost analysis, mapping of potential users and exploratory lines for future developments, laying the technical groundwork to enable CCUS sector growth in line with decarbonisation objectives set out in the National Integrated Climate and Energy Plan. This action supports sustained and deep reductions in greenhouse gas emissions in the energy and “hard-to-abate” sectors.

On 8 August 2025, MASE adopted a decree regulating non-repayable incentives for the purchase of electric vehicles, funded with EUR597 million from the National Recovery and Resilience Plan.³⁸²¹ The measure targets individuals and microbusinesses in urban areas with over 50,000 inhabitants, requiring the scrapping of a Euro 5 or older combustion vehicle. The initiative aims to accelerate the transition to zero-emission mobility and reduce urban pollution.

On 12 September 2025, MASE, the Ministry of Business and Made in Italy and the Ministry of Infrastructure and Transport jointly signed a Prime Ministerial Decree to phase out coal in Sardinia.³⁸²² The decree identifies priority projects and infrastructure to advance the island’s decarbonization, including the expansion of renewable energy generation, the installation of energy storage systems and the strengthening of electricity interconnections with the mainland and Sicily. These actions contribute to sustained reductions in greenhouse gas emissions in the energy and industry sectors in alignment with Italy’s National Integrated Energy and Climate Plan.

On 18 September 2025, Minister Pichetto reaffirmed Italy’s commitment to achieving emission reductions through a principle of technological neutrality during the EU Environment Council in Brussels.³⁸²³ Minister Pichetto emphasized that all technologies contributing to emission reduction including renewables, nuclear, storage, carbon capture and storage, carbon capture and utilization, geothermal, hydroelectric and sustainable biofuels must remain part of the European transition framework. The statement supports a science-based approach to decarbonization, enabling sustained reductions in greenhouse gas emissions across multiple sectors.

On 18 September 2025, MASE and the Western Sicilian Sea Port System Authority organized a national event in Palermo focused on the inclusion of the maritime sector in the European Emissions Trading System.³⁸²⁴ The event gathered national and European experts to discuss the new regulatory framework and funding opportunities under the Innovation Fund to support decarbonization projects. This initiative promotes emission reductions in the transport sector by integrating maritime operations into carbon pricing mechanisms.

On 25 September 2025, Deputy Minister of the Environment and Energy Security Vannia Gava reaffirmed Italy's commitment to accelerating the global clean energy transition during the United Nations General Assembly in New York.³⁸²⁵ Deputy Minister Gava highlighted Italy's collaboration with the International Energy Agency (IEA) to strengthen cooperation on digitalization for energy efficiency and greener systems. She emphasized the central role of the 3DEN initiative, promoted by MASE with the IEA and UNEP, in supporting developing countries to decarbonize and modernize their energy systems through digital technologies. The initiative finances innovative projects that make energy systems more flexible, resilient and low carbon, contributing to emission reductions and lower costs for consumers.

On 10 October 2025, CDP joined other members of Team Europe in signing a joint declaration on energy security during the Global Gateway Forum in Brussels.³⁸²⁶ Promoted by the European Commission, the declaration supports the ASEAN Power Grid, a regional initiative aimed at enhancing grid efficiency, expanding renewable energy capacity and strengthening electricity security across Southeast Asia.

On 30 October 2025, Minister Gava announced that EUR75 million in finance will be allocated towards more than 400 projects in the CSE 2025 – Comuni per la Sostenibilità e l'Efficienza Energetica.³⁸²⁷ This funding will support additional energy projects aimed at enhancing the efficiency of public buildings and reducing energy consumption, thereby improving service quality and promoting the environmental sustainability of communities.

Italy has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Italy has taken strong action to reduce carbon emissions in the energy, buildings, transport, agriculture and industry sectors through funding for clean electricity projects in Italy, two solar thermal projects with Jordan, co-financing with the African Development Bank for low-carbon growth and sustainable farming, trilateral cooperation to construct an undersea power cable to ensure energy connectivity, funding for energy sustainability in public buildings, carbon storage and technological innovation for renewable energy and clean hydrogen in the industrial and business sectors. Italy has also taken less strong action to reduce methane emissions through mentions of biomethane in its National Hydrogen Strategy and a Memorandum of Understanding with Saudi Arabia to decrease methane emissions. However, it has not taken strong action across most of parts two and three of the commitment.

Thus, Italy receives a score of 0.

Analysts: Divya Gupta and Harleen Kaur

Japan: +1

Japan has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 26 November 2024, Minister for Foreign Affairs Miyaji Takuma attended the Ministerial Conference on Nuclear Science, Technology and Applications and the Technical Cooperation Programme.³⁸²⁸ The conference discussed the use of nuclear science in various areas, including addressing climate change, where State Minister Miyaji expressed hope to work with Ghana Special Envoy on Climate Change Kwaku Afriyie in the field of nuclear energy.

On 29 November 2024, the Cabinet allocated JPY11.175 billion to converting buildings to zero-emissions buildings, promoting decarbonization in commercial buildings and improving energy efficiency and management in its supplementary budget for fiscal year 2024.³⁸²⁹ The budget was approved by Parliament on 17 December 2024.

On 4 December 2024, Minister of Economy, Trade and Industry Muto Yoji, Minister for Energy, Business and Industry and Deputy Prime Minister of Sweden Ebba Busch signed a Memorandum of Cooperation on Energy and Innovation Cooperation and discussed further collaboration in green transformation and the nuclear power field.³⁸³⁰

On 20 December 2024, Minister Muto attended the Association of Southeast Asian Nations-Japan Economic Co-Creation Forum hosted by the Ministry of Economy, Trade and Industry.³⁸³¹ Participants at the meeting discussed energy transitions and decarbonization in the automobile industry.

On 24 December 2024, Japan and the United States agreed to strengthen cooperation in the development and deployment of advanced clean energy technologies.³⁸³² This includes floating offshore wind, clean hydrogen and derivatives such as ammonia and synthetic fuels, carbon capture and recycling and small modular reactors. Japan also committed to collaborate on resilient mineral supply chains and methane emission reductions in the Indo-Pacific. Japan and the United States also co-hosted a session involving private sector representatives to boost public-private collaboration in the energy transition. Participants exchanged views on emerging clean energy markets, including synthetic methane and hydrogen, to meet the growing demand for clean electricity in the digital age.

On 25 December 2024, Minister Takeshi and Minister of Foreign Affairs of China Wang Yi held a Japan-China Foreign Ministers' Meeting.³⁸³³ During the meeting, both sides looked to the future and discussed cooperation in the environment and energy conservation.

On 27 December 2024, Prime Minister Ishiba Shigeru held the 52nd meeting of the Global Warming Prevention Headquarters and discussed the Plan for Global Warming Countermeasures which outlines government steps to reduce government greenhouse gas emissions.³⁸³⁴

On 27 January 2025, Prime Minister Ishiba announced new domestic financing to support the green transformation.³⁸³⁵ This includes a supplementary budget allocating over JPY900 billion to enhance productivity and wage growth and a bill aimed at creating a carbon pricing framework to attract more than JPY150 trillion in green investment.

On 8 January 2025, Minister for Foreign Affairs of Japan Fujii Hisayuki and Deputy Minister of Foreign Affairs of Turkmenistan Ahmet Gurbanov discussed the potential for Turkmenistan as a partner to Japan in energy projects with the ultimate goal of achieving net-zero.³⁸³⁶

On 11 January 2025, Prime Minister Ishiba held a press conference concerning a visit to Malaysia and Indonesia and stated that the countries have will collaborate to achieve decarbonization through using "hydrogen, ammonia, carbon dioxide capture, utilization and storage, geothermal energy and mineral resources."³⁸³⁷ This partnership is in line with the Asia Zero Emission Community.

ON 17 February 2025, Minister Miyaji and Minister of Foreign Affairs of Nepal Arzu Rana Deuba met during the eighth Indian Ocean Conference.³⁸³⁸ Minister Miyaji affirmed Japan's continued cooperation in aiding the Nepalese in the area of climate change.

On 21 January 2025, Prime Minister Ishiba and Prime Minister of the Lao People's Democratic Republic Sonexay Siphandone held a summit meeting.³⁸³⁹ Prime Minister Ishiba discussed Japan's commitment to supporting a clean power supply in Laos.

On 17 February 2025, Japan attended the fourth meeting of the Joint Crediting Mechanism (JCM) Global Partnership.³⁸⁴⁰ The meeting discussed renewable energy, decarbonization and the use of JCM credits for Nationally Determined Contributions (NDCs) under the Paris Agreement. The Ministry of the Environment affirmed a commitment to decarbonization and reducing greenhouse gas emissions, aiding partners in achieving their NDCs and supporting sustainable development.

On 18 February 2025, the Cabinet approved a plan to implement measures to reduce greenhouse gas emissions including carbon and fluorocarbons.³⁸⁴¹ This plan aims to advance energy conservation, solar energy and net-zero buildings to advance the clean energy transition.

On 20 February 2025, Minister Muto and Minister of Industry and Director General of the International Atomic Energy Agency Rafael Mariano Grossi met to discuss collaboration on nuclear energy usage.³⁸⁴² Minister Muto emphasized Japan's commitment to using renewable energy, nuclear energy and collaboration to use decarbonized energy.

On 25 February 2025, the Japan International Cooperation Agency (JICA) and Bhutan signed a loan agreement worth up to JPY13.688 billion for a hydro power plant construction project in line with sustainable development and decarbonization in South Asia.³⁸⁴³

On 26 February 2025, a Joint Committee meeting on the JCM between Japan and Uzbekistan was held.³⁸⁴⁴ Japanese officials discussed recent JCM actions and Japanese companies outlined wind power generation projects in Uzbekistan.

On 26 February 2025, Minister Muto and Minister of Industry and Trade of Vietnam Nguyen Hong Dien met to discuss the promotion of nuclear power cooperation under the Asia Zero Emission Community.³⁸⁴⁵

On 7 March 2025, the Cabinet Office, the Ministry of Land, Infrastructure, Transport and Tourism and the Ministry of the Environment released a decision on the Bill for the Act of Partially Amending the Act on Promoting the Utilization of Sea Areas for the Development of Marine Renewable Energy Power Generation Facilities.³⁸⁴⁶ The decision will designate areas for installing marine renewable energy facilities and allow research to be conducted on the marine environment, in line with the bill's aim to achieve carbon neutrality by 2050.

On 17 March 2025, Minister Muto and Deputy Prime Minister and Minister of Foreign Affairs of the Republic of Kazakhstan Murat Nurtleu confirmed support for renewable energy initiatives using the JCM.³⁸⁴⁷

On 24 March 2025, JICA and the Philippines signed a loan agreement worth up to JPY35 billion for a climate change action program.³⁸⁴⁸ The program aims to increase climate resilience, low-carbon pathways and climate action strength.

On 25 March 2025, the Japan Bank for International Cooperation, Citibank NA Tokyo Branch and the Nishi-Nippon City Bank Ltd signed an BRL1.077 billion loan agreement with the Brazil Development Bank to finance Brazilian energy transmission and biofuel initiatives aimed at reducing greenhouse gas emissions.³⁸⁴⁹ Eligible projects will include those relating to biofuels, energy transmissions and renewable energy sources.

On 26 March 2025, Prime Minister Ishiba and President of Brazil Luiz Inácio Lula da Silva spoke in a summit meeting regarding the Strategic and Global Partnership Action Plan Japan-Brazil.³⁸⁵⁰ Prime Minister Ishiba expressed a reaffirmed commitment to continue cooperation under the Japan-Brazil Green Partnership Initiative to aid in recovering degraded pasture, protection of the Amazon and collaborative decarbonization efforts in response to climate change.

On 27 March 2025, Prime Minister Ishiba and Executive Director of the International Energy Agency Fatih Birol had a courtesy call.³⁸⁵¹ During the call, the two discussed the importance of nuclear power in addressing energy security in Japan.

On 15 April 2025, Minister Muto and CEO of the Abu Dhabi National Oil Company, the United Arab Emirates (UAE) Minister of Industry and Advanced Technology and Special Envoy to Japan Ahmed Al Jaber held a meeting.³⁸⁵² During the meeting, the two discussed further collaboration between Japan and the UAE in decarbonization in terms of the energy field.

On 15 April 2025, Minister Muto and Deputy Chairman of the Cabinet of Ministers and Minister of Foreign Affairs of Turkmenistan Rashid Meredov held a meeting.³⁸⁵³ During the meeting, the two discussed furthering collaboration in energy and revised and presented a memorandum of cooperation on Japan-Turkmenistan energy transitions. The revised memorandum includes details to support renewable energy and energy conservation, methane reductions, carbon capture and storage and hydrogen to advance the net zero transition.

On 28 April 2025, the Ministry of Economy, Trade and Industry of Japan signed a Memorandum of Cooperation with the Ministry of Industry and Trade of Vietnam on clean energy transitions.³⁸⁵⁴ The agreement reaffirmed both parties' commitment to the Asia Zero Emission Community principles and aimed to promote investment and technology exchange to support decarbonization pathways.

On 3 April 2025, the Ministry of Environment announced an open call for project proposals aimed at advancing decarbonization, renewable energy heat utilization, factory waste heat utilization and renewable energy.³⁸⁵⁵

Selected projects across the industry, agriculture and other sectors will receive grants of up to JPY10 million through this initiative.

On 1 May 2025, the Ministry of Environment announced that it selected a project to develop electric agricultural riding movers to advance decarbonization in the transportation sector.³⁸⁵⁶ The project will receive up to JPY10 million per year for the next three years.³⁸⁵⁷

On 1 May 2025, the Ministry of Environment announced a call for project proposals which will be funded under the 2024 fiscal year's supplementary budget and 2025 fiscal year budget.³⁸⁵⁸ Selected projects will receive a maximum total of JPY80 million annually for photovoltaic power generation equipment to support solar energy generation in homes and buildings.³⁸⁵⁹

On 19 May 2025, the Ministry of Economy, Trade and Industry published a press release outlining a pathway for Japan to achieve carbon neutrality by 2050 through the transportation sector.³⁸⁶⁰ The press release highlights the importance of focusing on the transportation sector, which produces around 20 per cent of carbon dioxide emissions and discusses methods the government will support to achieve decarbonization, including hydrogen fuel-cell vehicles.

On 26 May 2025, the Ministry of Economy, Trade and Industry held the Asia Zero Emission Community (AZEC) Leading Action Forum, with participants including country officials from the AZEC, the Asian Development Bank and the Economic Research Institute for the Association of Southeast Asian Nations and East Asia in attendance.³⁸⁶¹ Participants discussed energy transition and decarbonization in the areas of power, transport and industry, as well as using Japan's energy transition technologies.

On 27 May 2025, Prime Minister Ishiba and President of Iceland Halla Tómasdóttir held a meeting to discuss achieving carbon neutrality.³⁸⁶² During the meeting, both leaders expressed support for exploring geothermal power as a means toward carbon neutrality and discussed the possibility of collaboration in this area.

On 27 May 2025, the French Development Agency (AFD), representing itself, JICA, Proparco, the European Investment Bank, Germany's KfW Development Bank and Italy's Cassa di Risparmio di Roma, signed a Memorandum of Understanding with Viet Nam Electricity, committing up to EUR480 million to support the construction of a 1200 megawatts Pumped Storage Hydropower project in Vietnam.³⁸⁶³ The EU will also

provide EUR10 million in technical assistance for the project, managed by the AFD. The project aims to increase the integration of renewable energy in Vietnam's energy grid.

On 28 May 2025, Minister of Environment Keiichiro Asao and Tanzania's Minister of State in the Office of the Vice President for Environment and Natural Resources Hamad Masauni signed a Memorandum of Understanding establishing a Joint Credit Mechanism.³⁸⁶⁴ Under the JCM, Japan will support Tanzania in reducing greenhouse gas emissions.

On 29 May 2025, Prime Minister Ishiba and President of Laos Thongloun Sisoulith met during the Japan-Laos Summit.³⁸⁶⁵ During the meeting, the two discussed bilateral cooperation in decarbonization as part of the AZEC's goal.

On 29 May 2025, Prime Minister Ishiba and Crown Prince of Kuwait Sheikh Sabah Khalid Al-Hamad Al-Sabah held a meeting to sign a Memorandum of Cooperation (MOC).³⁸⁶⁶ The MOC outlines bilateral cooperation in "electricity, water and renewable energy." During the meeting, the two expressed a continued commitment to clean energy and decarbonization, especially in the field of electricity and desalination.

On 30 May 2025, the Ministry of Environment announced that a call for project proposals for the United Nations Industrial Development Organization's the African Joint Crediting Mechanism.³⁸⁶⁷ Selected projects will receive grants of up to USD1.5 million for renewable energy and energy efficiency equipment projects and grants of up to USD500,000 for methane emissions reductions using the Fukuoka Method.

On 30 May 2025, Prime Minister Ishiba and Prime Minister of Cambodia Samdech Moha Borvor Thipadei Hun Manet met and affirmed their commitment to clean energy as part of AZEC's development of the Sihanoukville Port.³⁸⁶⁸

On 9 June 2025, Prime Minister Ishiba and President of Lithuania Gitanas Nausėda met and discussed further collaboration in the field of renewable energy.³⁸⁶⁹

On 10 June 2025, Minister of Economy, Trade and Industry (METI) Koga Yuichiro attending the signing ceremony for Memorandums of Understanding between private companies including GE Veronova, Eurus Energy and Mitsubishi Electric to expand renewable energy infrastructure and semiconductor-based electrification.³⁸⁷⁰ The Ministry and GE Veronova also launched a focus group to promote innovation in hydrogen, nuclear and carbon capture and storage technologies.

On 17 June 2025, Prime Minister Ishiba spoke at the G7 Kananaskis Summit Session on “Energy Security.”³⁸⁷¹ During the session, Prime Minister Ishiba highlighted Japan’s commitment to using renewable energy sources and committed to using new technologies including hydrogen, ammonia and carbon dioxide capture and storage to achieve decarbonization.

On 19 June 2025, Director-General for International Policy on Carbon Neutrality from the Agency for Natural Resources and Energy Kihara Shinichi attended the 2025 Asia Zero Emission Community Senior Officials Meeting held by METI and Malaysia’s Ministry of Economy.³⁸⁷² During the meeting, Director-General Kihara outlined future initiatives based on the AZEC Ministerial Meeting, and METI reaffirmed collaboration with AZEC partner countries toward the goal of decarbonization.

On 23 June 2025, the Ministry of Environment announced that it is accepting applications for subsidies for projects facilitating zero energy buildings (ZEB) and carbon dioxide conservation, carbon dioxide facility projects and sustainable warehouse businesses.³⁸⁷³ Through these subsidies, the Ministry hopes to promote ZEB and carbon emissions reductions in buildings.

On 24 June 2025, the Ministry of Environment announced that it is accepting applications for subsidies for projects focused on solar power generation and charging facilities.³⁸⁷⁴

On 27 June 2025, METI presented its 2025 White Paper on International Economy and Trade to the Cabinet.³⁸⁷⁵ The White Paper included a point emphasizing the importance of creating new policies in line with green transformation both in and outside of Japan.

On 27 June 2025, Vice-Minister for Global Environmental Affairs Yutaka Matsuzawa attended the 16th Japan-Mongolia Environmental Policy Dialogue.³⁸⁷⁶ Vice-Minister Matsuzawa discussed efforts to address climate change, including continued commitment to “international standardization of national emission estimation methods” using the Greenhouse Gases Observing Satellite.

On 1 July 2025, the Ministry of the Environment, the National Institute for Environmental Studies and the Japan Aerospace Exploration Agency launched the Global Observing SATellite for Greenhouse gases and the Water cycle. The satellite will help in observing greenhouse gas emissions.³⁸⁷⁷

On 10 July 2025, Minister for Foreign Affairs Takeshi Iwaya and Singapore’s Minister of Foreign Affairs Vivian Balakrishnan co-chaired the ASEAN-Japan Foreign Ministers’ Meeting.³⁸⁷⁸ During the meeting, Japan

expressed their desire for cooperation with the Asia Zero Emission Community (AZEC) to collaboratively achieve decarbonization.

On 11 July 2025, the Japan Bank for International Cooperation (JBIC) signed a Memorandum of Understanding with Indonesia's Badan Pengelola Investasi Daya Anagata Nusantara to strengthen strategic cooperation that identifies and supports projects in decarbonization, the circular economy, critical minerals, communications and digital infrastructure and healthcare, to advance environmental preservation and Indonesia's 2060 carbon neutrality goal.³⁸⁷⁹

On 15 July 2025, Director-General for Energy and Environment Policy, Ministry of Economy, Trade and Industry Kihara Shinichi and Permanent Secretary of the Ministry of Energy Thailand Prasert Sinsukprasert discussed energy policies during the seventh Japan-Thailand Energy Policy Dialogue.³⁸⁸⁰ Both sides reaffirmed commitment to the AZEC goals and discussed cooperation in helping Thailand reach carbon neutrality in the fields of carbon capture utilisation and storage, hydrogen and ammonia, liquefied natural gas (LNG) and renewable energy. Furthermore, both sides signed Memorandums of Understanding regarding decarbonization pathways in Thailand. Lastly, participants observed an LNG facility in Thailand and discussed decarbonization and reducing greenhouse gases within the facility.

On 18 July 2025, JBIC signed a general agreement to open a credit line of up to EUR75 million with the Government of Benin, with JBIC providing EUR 45 million, under its GREEN operations.³⁸⁸¹ The facility will finance environmental preservation projects that support Benin's Nationally Determined Contributions, aiming to cut greenhouse gas emissions while advancing sustainable development and creating opportunities for Japanese companies.

On 22 July 2025, Vice-Minister for Global Environmental Affairs Kentaro Doi attended the event "Strengthening Climate and SDG Synergies for Accelerated Momentum Toward 2030."³⁸⁸² During the session, Vice-Minister Doi stated Japan would continue to be a leader in climate change synergies and sustainable development.

On 22 July 2025, Japan's Ministry of the Environment opened applications for a subsidy program to promote ZEB in non-residential buildings, supporting the introduction of systems and equipment for both new and existing facilities.³⁸⁸³ The call runs from 22 July to 22 August 2025, and the program advances Japan's goals of net zero by 2050 and a 46 percent reduction in greenhouse gas emissions by 2030 compared with 2013 levels.

On 23 July 2025, Prime Minister Ishiba, President of the European Council António Luís Santos da Costa and President of the European Commission Ursula von der Leyen jointly held the 30th Japan-EU Summit.³⁸⁸⁴ The two sides agreed on Japan-EU collaboration in areas including climate change.

On 29 July 2025, the Ministry of the Environment jointly convened the 22nd Workshop on Greenhouse Gas Inventories in Asia in Cambodia.³⁸⁸⁵ During the meeting, the participants attended workshop sessions regarding greenhouse gas inventories and discussed how to increase transparency related to greenhouse gases.

On 29 July 2025, the Japan International Cooperation Agency committed USD100 million to the Vietnam Prosperity Joint Stock Commercial Bank as part of a USD350 million loan facility coordinated by Sumitomo Mitsui Banking Corporation, with participation from British International Investment, Export Finance Australia and FinDev Canada.³⁸⁸⁶ The funds will expand climate finance for Vietnam's green transition, including renewable energy, clean transport, and energy efficiency projects that support the country's net-zero pathway.

On 6 August 2025, Japan signed and exchanged notes for an official development assistance loan of up to JPY39.105 billion to finance the Southern Region Transmission System Reinforcement Project in Angola.³⁸⁸⁷ The loan will fund a 220 kilovolts transmission line and related substations between Lubango and Moçâmedes, enabling the Namibe region to shift from diesel generation to cleaner power from the central and northern grid, mainly hydropower. The project is co financed with the African Development Bank and advances the Africa Green Growth Initiative announced at TICAD 8, supporting green growth and lower greenhouse gas emissions.

On 25 August 2025, Minister of Economy, Trade and Industry Yoji Muto and India's Minister of Power and Housing and Urban Affairs Manohar Lal held the 11th Japan-India Energy Dialogue.³⁸⁸⁸ During the meeting, the two ministers discussed achievements and collaboration, and reaffirmed intent to collaborate in the areas of clean hydrogen and ammonia through a joint declaration.

On 29 August 2025, Minister of the Environment Asao Keiichiro released a statement regarding the signing of a Memorandum of Cooperation between Japan and India regarding the Joint Crediting Mechanism.³⁸⁸⁹ Minister Asao identified several areas Japan aims to help India with regard to the Paris Agreement, including "compressed biogas, green hydrogen and ammonia, transition in high-emission industries" and "carbon capture and storage." The aim of this cooperation is to address the common challenge of climate change.

On 29 August 2025, the Japan Bank for International Cooperation signed a loan agreement of up to JPY60 billion, including a JPY36 billion JBIC portion, with India's Power Finance Corporation Limited under its GREEN operations to finance Assam Bio Ethanol Private Limited's bamboo-based biofuel and power project in Assam.³⁸⁹⁰ The project will produce bioethanol for gasoline blending in line with India's E20 target, reduce lifecycle emissions by substituting fossil fuels, and raise rural incomes by creating a market for sustainably cultivated bamboo.

On 2 September 2025, Minister of the Environment Asao Keiichiro joined the third ASEAN-Japan Ministerial Dialogue for Environment and Climate Change in Malaysia.³⁸⁹¹ During the Dialogue, Japan and the other ASEAN Member States jointly updated the Strategic Program for ASEAN Climate and Environment, which included new commitments to improve greenhouse gas reporting accuracy, support Low Emissions Development Strategy and Nationally Determined Contributions.

On 5 September 2025, the Ministry of the Environment and the Coordinating Ministry for Economic Affairs of Indonesia held a forum to discuss Indonesia's carbon market.³⁸⁹² During the forum, both sides discussed the use of Carbon dioxide Capture and Storage.

On 16 September 2025, Minister Muto held the second "Central Asia plus Japan" dialogue alongside ministers from the Republic of Kazakhstan, the Kyrgyz Republic, the Republic of Tajikistan, Turkmenistan and the Republic of Uzbekistan.³⁸⁹³ During the dialogue, Minister Muto announced the new "Roadmap to Carbon Neutrality for Central Asia" in line with Japan's commitment to the Paris Agreement. The ministers agreed on continuing collaborative energy transition projects and the importance of addressing climate change through decarbonization.

On 19 September 2025, the Japan International Cooperation Agency and Masdar IPH Wind S.A.E. signed a loan of USD60.7 million to support a wind farm project in Ras Ghareb.³⁸⁹⁴ The aim of the loan is to help reduce greenhouse gas emissions in Egypt by constructing wind power plants to provide renewable energy.

On 22 September 2025, Minister of Economy and Development, Embassy of Japan in the Republic of India Yamazaki Fumio and Joint Secretary, Ministry of Environment, Forest, and Climate Change of the Republic of India Nameeta Prasad co-chaired the first Joint Crediting Mechanism meeting.³⁸⁹⁵ During the meeting, the parties discussed how to apply the use of the JCM toward the Paris Agreement and opened up submissions for decarbonization projects.

Japan has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Japan has engaged in deep and sustained efforts to reduce greenhouse gas emissions and support international climate initiatives. Japan has taken strong action to reduce carbon and methane emissions across the energy, buildings, transport, agriculture and industry sectors through funding for projects advancing renewable energy and methane emissions reductions, investments in photovoltaic power generation equipment for buildings and homes, funding a project for electric riding movers and agreements through JICA.

Thus, Japan receives a score of +1.

Analysts: Lindsay Liu and Tara Van de Wall

Korea: +1

Korea has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 1 December 2024, Korea's Development Finance Bureau's Green Climate Policy Division and the United Nations Framework Convention on Climate Change Secretariat signed a statement of intent to develop a global voluntary carbon mechanism.³⁸⁹⁶ In line with the Paris Agreement, this will help companies trade carbon credits on the international carbon market, boosting efforts to offset greenhouse gas emissions through international cooperation.

On 1 January 2025, the Ministry of Environment and the Ministry of Trade, Industry and Energy announced a 20 per cent additional subsidy for young citizens purchasing an electric vehicle as their first car, as well as a KRW1-3 million subsidy for multi-child households purchasing an electric vehicle.³⁸⁹⁷ This encourages Koreans to adopt greener transportation methods which can help advance the country's greenhouse gas emissions target.

On 1 January 2025, Korea announced that an increased budget of KRW196.3 billion will be invested to install more than 64 hydrogen charging stations, with a target of over 450 cumulative stations.³⁸⁹⁸ This initiative supports the adoption of hydrogen vehicles and the development of related infrastructure.

On 1 January 2025, the Ministry of Environment initiated the Green Transition Guarantee Project and pledged to allocate KRW1.5 billion to small and medium climate technology companies.³⁸⁹⁹ This will allow greater climate financing options for emerging green technology enterprises, whose technologies aim to reduce greenhouse gas emissions and achieve net-zero carbon economies.

On 1 January 2025, the Ministry of Environment expanded the type of market participants in Korea's emissions trading system, as well as increased flexibility in market trading through brokerage companies.⁴ This expansion allows investment businesses, banks, insurance companies and fund managers to participate in the country's cap-and-trade program, which works to achieve Korea's greenhouse gas emissions reduction target.

On 3 January 2025, the Ministry of Science and Information and Communications Technology announced its plan to invest KRW86,200,000,000 into climate and environmental research and development projects focused on the industrial sector in 2025.³⁹⁰⁰ This funding will support the development of climate adaptation and mitigation innovations such as carbon capture technology, hydrogen energy storage and artificial intelligence climate forecasting.

On 10 February 2025, the Ministry of Oceans and Fisheries and Australian Ministry for Infrastructure, Transport, Regional Development and Local Government signed a Memorandum of Understanding to

establish a green shipping route between the countries.³⁹⁰¹ This will help to advance the net zero transition in the marine transportation sector.

On 12 February 2025, the Ministry of Ocean and Fisheries announced KRW222.3 billion in funding to increase sustainable shipbuilding.³⁹⁰² This funding will enable the construction of 34 electric or hybrid vessels, 15 vessels with “diesel particulate filters...to remove diesel particulate matter or soot from the exhaust gas of a diesel engine,” 20 additional vessels constructed by the private sector and environmental upgrades to 12 vessels. This will contribute to decreased greenhouse gas emissions in the transportation and marine sectors.

On 21 February 2025, Korea outlined a new energy mix plan for 2038 which includes constructing two large nuclear power plants and one small modular reactor.³⁹⁰³ The country aims to increase its nuclear power generation and boost renewable energy, targeting an average of seven gigawatts annually until 2030. Overall, carbon-free power generation, including nuclear and renewables is expected to reach 70 per cent by 2038.

On 24 February 2025, the Ministry of Land, Infrastructure and Transport announced an increased fuel subsidy for hydrogen buses starting 1 March 2025.³⁹⁰⁴ This subsidy encourages eco-friendly mobility options by decreasing fuel costs for hydrogen bus operators and promotes Korea’s efforts to meet its 2030 greenhouse gas reduction target.

On 27 February 2025, the Ministry of Agriculture, Food and Rural Affairs announced a five-year plan to promote the research, development and expansion of smart farming in Korea.³⁹⁰⁵ This plan includes research and development for energy efficiency, greenhouse gas emissions reductions and renewable energy in the agricultural sector.

On 4 April 2025, the Ministry of Science and Information Communication and Technology launched the Carbon Capture and Utilization (CCU) Initiative, which included the creation of a consultation board along with a short and long-term CCU action plan.³⁹⁰⁶ In the short-term, the Ministry intends to launch a CCU Strategic Research Lab and a Global Flagship Project, while in the long-term, it intends to launch large-scale CCU projects and develop next-generation Direct Air Capture and capture-free conversion technologies. The CCU Initiative will help implement CCU technologies into Korea’s petrochemical, cement and steel industries to achieve carbon neutrality by 2050.

On 22 April 2025, the Ministry of Environment, the Korea Environment Corporation and Jeju Special Self-Governing Province signed a business agreement to fund the 2025 Bio-Gas-Based Clean Hydrogen Production Project.³⁹⁰⁷ The government agreed to provide KRW9,100,000,000 by 2026 to build hydrogen production

facilities in Jeju, Korea. This will help advance methane and other greenhouse gas emissions reductions by converting biogas, made of methane and carbon dioxide, to clean hydrogen.

On 9 May 2025, the Ministry of Land, Infrastructure and Transport launched KRW32.1 billion research and development pilot project to develop hydrogen electric trains.³⁹⁰⁸ The project aims to advance Korea's goal of commercializing hydrogen electric trains by 2038 to advance the net zero transition.

On 12 May 2025, the Ministry of Land, Infrastructure and Transport announced new financial incentives to advance the net zero transition in the buildings sector.³⁹⁰⁹ Effective immediately, energy savings in buildings will receive up to a 7.2 per cent preferential interest rate with an additional 3.5 per cent available "based on individual reductions in electricity use."

On 9 May 2025, the Ministry of Trade, Industry and Energy opened the hydrogen bidding market which allows actors to purchase and supply hydrogen-generated electricity.³⁹¹⁰ Additionally, the market implements a fixed exchange-rate mechanism, allowing suppliers to offer electricity at a fixed exchange rate over the entire contract period. Furthermore, the ministry introduced a "hydrogen volume borrowing system," permitting electricity allocated for next year to be used in the present. Both mechanisms offer flexibility and stability to promote carbon reductions in the energy sector.

On 18 June 2025, the Ministry of Environment held its second briefing session on the European Union Carbon Border Adjustment Mechanism (CBAM) for small and medium enterprises (SMEs).³⁹¹¹ This session informed SMEs on carbon tariffs in European trade and provided free measurement, reporting and verification software to aid in the implementation of CBAM policies.

On 20 June 2025, Minister of Land, Infrastructure and Transport Park Sang Woo stated that newly constructed private multi-unit housing will face an energy efficiency rating system from 30 June 2025.³⁹¹² This rating system is equivalent to achieving a Zero Energy Building Grade Five certification. In alignment with the revised Standards on Energy-saving Eco-friendly Housing Construction, this certification was developed to reduce energy consumption and encourage the generation of energy from renewable energy facilities.

On 4 July 2025, the Ministry of Oceans and Fisheries and Australia's Department of Infrastructure, Transport, Regional Development, Communications, Sport and the Arts announced that a "preliminary feasibility study for building a Korea-Australia green shipping route" will be conducted.³⁹¹³ The study is a follow-up to the

signing of a Memorandum of Understanding in February 2025, and will begin by analysing eco-friendly fuel supply chains, port trends, port infrastructure systems and ships suitable for operation.

On 10 July 2025, President Lee Jae Myung announced the proposal of a new law which would build industrial complexes that use 100 per cent renewable energy.³⁹¹⁴ The construction of such parks would deeply reduce carbon emissions in the industry sector.

On 22 July 2025, Minister of Environment Kim Sungwhan announced the first supply shipment of green hydrogen at the Seongnam Water Purification Plant.³⁹¹⁵ This will support the transition to hydrogen vehicles and reduce carbon emissions in the transport sector.

On 12 August 2025, the Ministry of Trade, Industry and Energy signed a Memorandum of Understanding (MoU) with Vietnam's Ministry of Industry and Trade to promote cooperation in renewable energy.³⁹¹⁶ The agreement will support joint projects in solar power, wind power and energy storage systems, as well as help corporate investors overcome business barriers. In addition, Korea Electric Power Corporation and Petrovietnam signed an MoU on human resources training for nuclear power to strengthen bilateral cooperation in nuclear plant development.

Korea has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Korea has taken strong action to reduce carbon and methane emissions in the energy, transport, buildings, industry and agriculture sectors through funding for the biogas to clean hydrogen project, a pilot project to develop hydrogen electric trains, a five year plan to promote smart farming, plans to construct two large nuclear power plants and one small modular reactor, investing in sustainable ships, funding small and medium climate technology companies and environmental research on carbon capture and storage and hydrogen and financial incentives for energy savings in the building sector.

Thus, Korea receives a score of +1.

Analyst: Kaitlin Yan

Mexico: 0

Mexico has partially complied with its commitment recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 10 December 2024, the Federal Electricity Commission issued MXN10 billion in sustainable bonds.³⁹¹⁷ This action is expected to support investments for renewable energy, energy efficiency, electricity and infrastructure projects in Mexico.

On 24 December 2024, the Association of Hydrogen, Storage and Sustainable Mobility and the Ministry of Energy announced plans to fund 18 clean hydrogen projects.³⁹¹⁸ This initiative aims to reduce greenhouse gas

³⁹¹⁸ Green hydrogen projects worth US \$21B in Mexico's Pipeline, Mexico News Daily (San Miguel de Allende) 24 December 2024. Access Date: 10 May 2025. <https://mexiconewsdaily.com/business/green-hydrogen-mexico/>

emissions and foster a green hydrogen industrial sector in Mexico. The total investment is projected at USD 21 billion.

On 6 January 2025, President Claudia Sheinbaum launched Olinia, a manufacturer of mini electric vehicles.³⁹¹⁹ The government is partnering with academic institutions and private companies to develop the technology and support regional manufacturers to develop affordable electric vehicles. The government will allocate MXN25 million to the National Polytechnic Institute and the National Institute of Technology of Mexico in 2025 for this initiative.

On 5 February 2025, President Sheinbaum shared the Federal Electricity Commission's 2025-2030 National Electric System Strengthening and Expansion Plan.³⁹²⁰ The plan includes 51 energy projects including seven wind farms, nine photovoltaic plants with a 1,673 megawatts capacity, five combined cycle projects and one internal combustion project. These projects will receive a total investment of MXN22.377 billion.

On 23 February 2025, the Federal Electricity Commission and the National Institute of Indigenous Peoples announced an investment of MXN421 million for off-grid solar and grid extensions for Indigenous households.³⁹²¹

On 4 March 2025, the Federal Electricity Commission's Board of Directors approved four combined cycle projects aimed at increasing the reliability of Mexico's grid network.³⁹²² These projects will receive MXN2.317 billion in funding and are expected to reduce carbon emissions by eight million tonnes annually. However, the Board also approved a natural gas internal combustion project with a 240 megawatts capacity and MXN272 million in funding.

On 28 March 2025, Undersecretary for Planning and Energy Transition Jorge Islas announced that all future Mexican wind and solar plants will require battery storage up to 30 per cent of their original capacity.³⁹²³ This promotes energy transition technologies and storage.

On 29 March 2025, President Sheinbaum approved the Federal Electricity Commission's Sol del Norte project which will install 5,500 rooftop solar photovoltaic panels in the city.³⁹²⁴ The government will provide MXN200 million for this initiative which is expected to decrease carbon emissions by 4,864 tonnes annually.

On 9 April 2025, Secretary Luz Elena Gonzales Escobar announced a MXN624 billion investment in the electric sector, of which MXN430 billion will be used to increase generation capacity.³⁹²⁵ This investment supports Mexico's plans for increasing access to electricity while contributing to the energy transition.

On 13 August 2025, Secretary Escobar signed a Collaboration Agreement between the Agency for Safety, Energy and Environment and Petróleos Mexicanos to improve environmental protection in the hydrocarbon sector.³⁹²⁶ The agreement covers mobile laboratories, educational programs, workshops and the exchange of technical and scientific data. This initiative supports President Sheinbaum's Commitment 93 to reduce air pollution and Goal 4.3 of the 2025–2030 National Development Plan, ensuring the energy sector remains a driver of development while promoting sustainability and environmental stewardship.

On 26 August 2025, President Sheinbaum announced an MXN800 million investment for the construction of two solar thermal power plants in Baja California Sur to strengthen Mexico's clean energy capacity and reduce dependence on fossil fuels.³⁹²⁷ This project supports Mexico's target of generating 35 per cent of its electricity from clean sources by 2030 and advances Goal 4.1 of the National Development Plan by promoting sustainable growth, energy sovereignty and technological innovation in the power sector.

On 29 September 2025, Minister of Environment and Natural Resources Alicia Barcena and President Sheinbaum outlined measures to accelerate the country's energy transition and expand sustainable infrastructure.³⁹²⁸ Initiatives include train and component production, the expansion of dual education programs and ten public transport electrification projects across Nuevo Leon, CDMX, Jalisco, Guanajuato, Michoacan, Tamaulipas, Aguascalientes, Guerrero and Oaxaca.

On 3 October 2025, the Government of Mexico published the regulations for six secondary energy laws in the Official Gazette of the Federation, strengthening the country's regulatory framework and advancing the transformation of its energy system.³⁹²⁹ Developed through coordinated efforts by decentralized bodies, sectoral entities and federal departments under the leadership of the Ministry of Energy, these regulations govern activities in the hydrocarbon, electricity, biofuels, geothermal and energy planning and transition sectors.

Mexico has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways through several verbal commitments. Mexico has taken strong action to reduce greenhouse gas emissions in various sectors through funding for combined cycle, wind and solar projects, investments in the energy sector and for solar rooftops on residential buildings, an initiative for mini electric vehicles and its plan for clean hydrogen projects.

Thus, Mexico receives a score of 0.

*Analyst: Samardeep Sandhu***Russia: –1**

Russia has not complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 25 November 2024, Russia announced new investments in clean energy initiatives aimed at improving energy efficiency and reducing environmental impact.³⁹³⁰ These investments include the construction of a Green Cyber Farm.

On 5 December 2024, Russia approved measures to enhance safety for nuclear technologies, in line with International Atomic Energy Agency recommendations.³⁹³¹ This action is part of Russia's long-standing commitment to nuclear energy development. Additionally, Russia launched the Green Cyber Farm project which promotes sustainable agriculture through automated platforms powered by renewable energy. This project seeks to address environmental sustainability in agriculture, leveraging technological innovation to support green energy use in the farming sector.

On 12 December 2024, Russia held a strategic session to discuss increasing the energy and resource efficiency of the national economy.³⁹³² This session discussed ongoing efforts to modernize infrastructure, transition boiler stations to more efficient fuel sources and expand the use of alternative and renewable energy.

On 19 February 2025, Deputy Prime Minister of Russia Alexander Novak met with the Kenyan Presidential Special Envoy for Climate Change to discuss their countries' efforts in implementing the goals of the Paris Agreement.³⁹³³ Deputy Prime Minister Novak stressed the need for a smooth and gradual transition to a zero-emission economy and shared that Russia has already succeeded in reducing emissions by 70 per cent compared to 1990 levels.

On 14 April 2025, Russia approved its Energy Strategy for 2025-2050, outlining plans to ensure energy security and competitiveness, ensure the success of the “the oil, gas, coal sectors, electric power industry” and incorporate more renewable energy.³⁹³⁴

On 14 May 2025, the Ministry of Energy announced that a modernized hydroelectric unit has begun operation at the Krasnoyarsk hydroelectric plant.³⁹³⁵ This unit has a capacity of 500 megawatts which will increase the plant's annual electricity generation by 5 per cent.

On 29 May 2025, Deputy Minister of Energy Petr Konyushenko and Kazakhstan's Vice Minister of Energy Alibek Zhamaurov discussed cooperation for gas and oil, including the development of new oil fields,

³⁹³⁵ Модернизированный гидроагрегат увеличит среднегодовую выработку электроэнергии Красноярской ГЭС до 5%, Минэнерго России (Moscow) 14 May 2025. Translation provided by Google Translate. Access Date: 23 June 2025. <https://minenergo.gov.ru/press-center/news-and-events?news-item=modernizirovanny-gidroagregat-velichit-srednegodovuyu-vyrabotku-elektroenergii-krasnoyarskoy-ges-d>

transportation and supplies.³⁹³⁶ The pair also discussed the construction of thermal power plants and future opportunities for renewable energy cooperation.

On 3 July 2025, the Ministry of Energy announced the opening of a new coal mine in Neryungrinsky district, Yakutia with a capacity of 750,000 tonnes of grade “K” coal per year.³⁹³⁷ This action is antithetical to the commitment as coal is a major source of greenhouse gas emissions.

On 16 July 2025, Minister of Energy Serget Tsivilev and Representative of the Executive Authority of St Petersburg Valentina Matviyenko launched public facilities which will be connected to natural gas in four regions in Russia.³⁹³⁸ Natural gas is viewed as more environmentally friendly than other fossil fuels but still emits greenhouse gases.

On 22 July 2025, RusHydro, Russia’s largest hydroelectric company, launched the Tower Hydroelectric Power Station in the Chechen Republic.³⁹³⁹ The power station is estimated to be capable of generating 52 million kilowatt-hours of electricity per year, approximately enough to power 10,000 households. Furthermore, RusHydro designed the station to minimize environmental impacts, preserving the course of the Argun River and surrounding land.

On 4 August 2025, the Ministry of Energy and regional representatives of the Donbas region held discussions focused on the support and development of the coal industry in the Luhansk and Donetsk People’s Republics.³⁹⁴⁰

On 4 August 2025, Prime Minister Mikhail Mishustin announced the allocation of approximately RUB5.5 billion under a national project to deploy around 2,000 new charging stations and hubs for electric vehicles within the next three years.³⁹⁴¹ He highlighted that expanding this infrastructure across the country is essential to ensure convenient charging for owners and to stimulate greater demand for electric vehicles.

On 6 August 2025, President Vladimir Putin signed a decree setting Russia’s maximum allowed greenhouse gas emissions to 2 billion tonnes of carbon dioxide by 2035, a one-fifth increase compared to 2021 levels.³⁹⁴² This reflects the dependence of the Russian economy on oil and gas exports and the Russian government’s lack of action to phase out fossil fuels despite its aim to achieve net zero emissions by 2060.

On 12 September 2025, the Ministry of Energy took part in the 29th Council of the International Renewable Energy Agency Council in Abu Dhabi and outlined plans to scale renewables, including a fourfold increase in planned solar and wind generation by 2042 with more than 17 gigawatts to be built, using market based support models without direct subsidies to select the most efficient projects and cut power sector emissions.³⁹⁴³

On 18 September 2025, the Ministry of Energy announced an import substitution strategy for the fuel and energy complex that prioritizes domestic technologies to sustain oil, gas and coal development.³⁹⁴⁴ This approach reinforces long-term reliance on fossil fuels, risks locking in high-carbon infrastructure. This is antithetical to the commitment which aims to cut greenhouse gas emissions and align with global climate goals.

On 26 September 2025, Minister Tsivilev announced that nuclear power accounts for approximately 20 per cent of Russia's electricity generation, with plans to increase it to 25 per cent by 2050.³⁹⁴⁵ Minister Tsivilev further described plans for the construction of further nuclear power plants in the Far East, the Urals and Siberia.

On 10 October 2025, Deputy Minister of Energy Roman Marshavin reaffirmed Russia's plan to maintain its reliance on traditional energy sources, namely hydrocarbons, while simultaneously increasing its production of renewable energy, including nuclear energy and hydrogen energy.³⁹⁴⁶

On 10 October 2025, Russia's Ministry of Energy participated in the International Atomic Energy Agency Ministerial Conference on Nuclear Power and in the G20 ministerial session on the energy transition, presenting plans to expand nuclear generation and deepen international cooperation on fuel cycle services, workforce training, and new build projects.³⁹⁴⁷ The ministry framed nuclear power as a key low carbon source to cut power sector emissions and strengthen long term energy security.

Russia has not complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Russia has taken some actions towards the commitment including opening a modernized hydroelectric plant, discussing opportunities for renewable energy cooperation, mentioning increasing renewable energy in its Energy Strategy, emphasizing the need for a net zero economy and launching the Green Cyber Farm project. However, Russia has also outlined plans to increase oil and gas sector activities in its Energy Strategy and during a meeting with Kazakhstan and indicated

its support to develop the coal industry. Additionally, it has not taken sufficient action to qualify for partial compliance.

Thus, Russia receives a score of -1 .³⁹⁴⁸

Analyst: Isebel Sousa

Saudi Arabia: 0

Saudi Arabia has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 22 November 2024, the Ministry of Energy announced that Saudi Arabia had joined the International Partnership for Hydrogen and Fuel Cells in the Economy to promote clean hydrogen development.³⁹⁴⁹ The decision was made to support Saudi Arabia's goal to reduce greenhouse gas emissions and achieve net-zero through the circular carbon economy approach.

On 3 December 2024, Saudi Arabia hosted the fourth Saudi Green Initiative Forum and announced USD60 million in new funding for climate and environmental initiatives.³⁹⁵⁰ This funding will support renewable energy projects, protection of natural ecosystems and reducing desertification. Saudi Arabia also announced SAR225 million for new five new climate initiatives aimed at advancing reforestation efforts to reduce air pollution, increase biodiversity and reduce carbon emissions.

On 3 December 2024, Saudi Arabia signed deals with EDF Renewables and Total Energies for the construction of 1.7 gigawatts (GW) of solar projects.³⁹⁵¹ EDF will develop the 1 GW Al-Masaa and 400 megawatts (MW) Al-Henakiyah 2 plants, while Total Energies will undertake the 300 MW Rabigh 2 project.

On 12 February 2025, the Saudi Electricity Company, ACWA Power and Korea Electric Power Corporation signed a SAR15 billion power purchase agreement with the Saudi Power Procurement Company for two power generation projects.³⁹⁵² The projects will add 3.6 GW of capacity using cleaner gas turbine technology to help reduce emissions and support economic growth.

On 14 January 2025, Minister of Energy Abdulaziz Bin Salman Al-Saud and Italy's Minister of Environment and Energy Security Gilberto Pichetto signed a Memorandum of Understanding for energy.³⁹⁵³ The countries will collaborate to advance the energy transition and energy security through the advancement of renewable energy, decreasing methane emissions, carbon capture and storage and supporting supply chain projects in developing countries.

³⁹⁴⁸ This score of non-compliance has been determined after consulting the following websites: <https://minenergo.gov.ru>, <http://government.ru/>, <http://www.mnr.gov.ru> and <https://mintrans.gov.ru>.

On 26 January 2025, Chief Executive Officer of Italy's Investment Bank Cassa Depositi e Prestiti Dario Scannapieco signed a protocol with the Saudi Fund for Development and a second protocol with ACWA Power.³⁹⁵⁴ These agreements include a focus on renewable energy initiatives in Africa.

On 8 February 2025, a Memorandum of Understanding (MoU) was signed between the Saudi Electricity Company and Hitachi Energy to adopt advanced electrical switch technology free from sulfur hexafluoride.³⁹⁵⁵ The proposed alternatives aim to reduce emissions of this greenhouse gas while maintaining technical performance and safety, contributing to environmental sustainability in the energy sector and supporting Saudi Arabia's clean energy transition.

On 10 February 2025, a MoU was signed between the Oil Sustainability Program and Alternative Energy Solutions Limited to support environmental sustainability in mobile energy systems.³⁹⁵⁶ The agreement aims to advance carbon emission reduction technologies and promote research, innovation, and technology transfer, contributing to long-term greenhouse gas mitigation in the energy sector.

On 12 February 2025, Minister of Industry and Mineral Resources Bandar Alkhorayef met with United States Secretary of Energy Jennifer Granholm to discuss enhancing cooperation between Saudi Arabia and the United States in clean energy and sustainable mining.³⁹⁵⁷ The ministers focused on boosting trade in non-oil exports, encouraging investment in mining projects and supporting climate-oriented goals under the Saudi Green Initiative which aims to address climate change and promote sustainability in the energy and industry sectors.

On 12 February 2025, the Transport General Authority launched Saudi Arabia's first hydrogen-powered bus as part of efforts to develop sustainable intercity transport.³⁹⁵⁸ The bus will operate between Dammam and Al-Ahsa, covering 359 kilometres daily with a capacity of 45 passengers. This trial supports the National Transport and Logistics Strategy by promoting eco-friendly technology and reducing carbon emissions in transportation, in alignment with the Saudi Green Initiative.

On 12 February 2025, Minister of Energy Prince Abdulaziz bin Salman bin Abdulaziz met with Japan's Minister of Economy, Trade and Industry Yoji Muto to advance bilateral energy cooperation.³⁹⁵⁹ The ministers reaffirmed joint commitments to energy transition and welcomed progress under the Manar Initiative, a Saudi-Japanese collaboration initiative in the clean energy field, launched in 2023.

On 20 February 2025, the Saudi Electricity Company and ACWA Power signed a Power Purchase Agreement with the Saudi Power Procurement Company for the Qurayyah Independent Power Plant Expansion Project.³⁹⁶⁰ The expansion will develop a Combined Cycle Gas Turbine power plant with a capacity of 3,010 MW and readiness for a carbon capture unit. The total project value amounts to SAR13.4 billion. This approach will phase out oil-based power generation in favour of clean energy sources, contributing to emissions reduction in line with Saudi Vision 2030.

On 4 March 2025, the National Energy Services Company and Qassim University launched a solar photovoltaic project to install panels across the university's buildings and facilities.³⁹⁶¹ The project will generate 5,137 kilowatts of power and prevent 4,000 metric tonnes of carbon emissions.

On 20 March 2025, the majority-government owned company Saudi Aramco launched Saudi Arabia's first direct air capture test unit to remove carbon dioxide from the atmosphere.³⁹⁶² The facility, developed in collaboration with Siemens Energy, was designed to support Aramco's net-zero strategy and aims to advance carbon capture technologies that contribute to sustained reductions in greenhouse gas emissions in the energy sector.

On 24 March 2025, Saudi Aramco, a majority government-owned company, completed the acquisition of a 50 per cent stake in the Jubail-based Blue Hydrogen Industrial Gases Company, a joint venture with Air Products Qudra.³⁹⁶³ Saudi Aramco Executive Vice President of Strategy and Corporate Development Ashraf Al Ghazzawi said the investment will help build a hydrogen network in the Eastern Region to reduce emissions and diversify energy.

On 27 March 2025, Saudi Arabia celebrated the second annual Saudi Green Initiative Day, highlighting progress on national climate and energy goals, including substantial investments in renewable energy and emissions reductions.³⁹⁶⁴

On 8 April 2025, Chief Executive Officer of the Saudi Fund Development Sultan bin Abdulrahman Al-Marshad signed a SBD10 million loan agreement with Solomon Islands Minister of Finance and Treasury Manasseh Sogavare to finance a renewable energy project.³⁹⁶⁵ This project will develop solar power stations to reduce the Solomon Islands' reliance on conventional energy sources, supporting the transition to renewable energy.

On 22 May 2025, Saudi Aramco being operating a megawatt-scale iron-vanadium flow battery system to support renewable energy storage for gas well operations.³⁹⁶⁶ The system was developed as part of Aramco's net-zero strategy and intends to reduce greenhouse gas emissions and improve energy efficiency in the energy sector.

On 17 June 2025, the General Authority of Civil Aviation signed a MoU with Airbus to strengthen cooperation in environmental sustainability within the aviation sector.³⁹⁶⁷ The agreement outlines joint efforts to reduce carbon emissions through low-carbon and sustainable aviation fuels and supports knowledge-sharing initiatives to build specialized environmental capacity.

On 15 August 2025, Director General of Asia Operations of the SFD Saud Ayid Alshammari attended the signing ceremony of consulting contracts for SFD-funded development projects in Pakistan.³⁹⁶⁸ The ceremony marked the start of consulting services for the Shauntar Hydropower Project, financed by an SFD development

loan of USD66 million and the Jagran-IV Hydropower Project, financed by an SFD development loan of USD35 million. These projects aim to enhance Pakistan's renewable energy capacity, promote sustainable power generation and strengthen bilateral cooperation.

On 26 August 2025, Saudi Arabia's Ministry of Energy and Brazil's Ministry of Mines and Energy launched an action plan for energy cooperation to strengthen collaboration in renewable energy, low-carbon hydrogen and energy transition.³⁹⁶⁹ The plan outlines initiatives in oil, gas, renewable energy, petrochemicals and sustainability, and establishes technical working groups to develop projects that advance energy security and a just, inclusive transition in both countries.

On 7 October 2025, President of King Abdulaziz City for Science and Technology Munir Eldesouki reaffirmed Saudi Arabia's commitment to achieving net-zero emissions by 2060 through a national innovation strategy focused on clean energy and carbon reduction technologies.³⁹⁷⁰ The announcement outlined initiatives to cut 278 million tons of carbon emissions annually, capture 44 million tons of carbon dioxide each year by 2035 and reach a 50 per cent clean energy mix by 2030. The statement also referenced projects on carbon capture, large-scale energy storage and green hydrogen production. These actions support deep and sustained reductions in greenhouse gas emissions in the energy and industry sectors.

Saudi Arabia has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Saudi Arabia has taken strong action to reduce carbon emissions in the energy, buildings, transportation and agriculture, forestry and land use sectors through funding for reforestation efforts aimed at increasing carbon sinks, launching a solar photovoltaic project for buildings and a hydrogen-powered bus and funding solar projects. It has also taken weak action towards the commitment by discussing energy cooperation with Japan and committing to collaboration with Italy on methane emissions reduction and carbon capture. However, Saudi Arabia has not taken strong action across most of the commitment.

Thus, Saudi Arabia receives a score of 0.

Analysts: Candace Ciju and Harleen Kaur

South Africa: 0

South Africa has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 26 November 2024, the South African National Treasury responded to the International Monetary Fund's (IMF) Article IV Consultation for South Africa.³⁹⁷¹ The IMF outlined South Africa's areas of improvement for economic growth, which included reducing its carbon emissions. In its response, the National Treasury reaffirmed its commitment to implementing the IMF's recommendations.

On 4 December 2024, the National Treasury released an online survey for citizens to provide feedback on renewable energy tax incentives.³⁹⁷² The survey is used to assess the success the solar energy tax credit and the enhanced deduction for renewable energy investments which aim to encourage green energy technologies.

On 23 December 2024, Minister of Electricity and Energy Kgosientsho Ramokgopa announced bidders for the Renewable Energy Independent Power Producer Procurement Programme.³⁹⁷³ This program is designed to facilitate the procurement of up to 5,000 megawatts of renewable energy capacity.

On 3 January 2025, President Cyril Ramaphosa signed into law a 150 per cent tax deduction on investments in electric and hydrogen-powered vehicles.³⁹⁷⁴

On 15 February 2025, Minister of Environment, Forestry and Fisheries Dion George attended the Committee of African Heads of State and Government on Climate Change in Ethiopia.³⁹⁷⁵ During the meeting, participants discussed greenhouse gas reduction, climate adaptation and mitigation strategies.

On 12 March 2025, President Ramaphosa, President of the European Commission Ursula von der Leyen and President of the European Council António Costa signed a joint statement on various issues including supply chains and energy transition technologies.³⁹⁷⁶ The members agreed to launch negotiations for a “Clean Trade and Investment Partnership.” This partnership will include investment in raw materials supply chains and renewable energy projects.

On 13 March 2025, President Ramaphosa spoke at the eighth South Africa-European Union Summit, where he welcomed the European Union’s EUR4.7 billion Gateway Investment Package and announced their Clean Trade and Investment Partnership.³⁹⁷⁷ These initiatives will support South Africa’s green hydrogen and renewable energy development, allowing the country to export sustainable aviation fuel and electric vehicles to the EU.

On 26 March 2025 Minister George represented South Africa at the Petersberg Climate Dialogue in Berlin, Germany.³⁹⁷⁸ He participated in international discussions on climate change, including implementing actions to meet the Paris Agreement and the Global Stocktake.

On 28 March 2025, the Cabinet approved the South Africa Renewable Energy Master Plan. This plan pursues a target of developing three to five gigawatts of energy generation to support domestic manufacturing.³⁹⁷⁹ The plan also outlines strategies to boost job creation and economic growth in solar, wind and battery manufacturing, maintain market competition and facilitate reliable and affordable energy.

On 13 June 2025, the Ministry of Electricity and Energy launched the South African Renewable Energy Masterplan (SAREM) during the Africa Green Hydrogen Summit.³⁹⁸⁰ SAREM aims to industrialize the renewable energy and battery storage sector, ensuring a just energy transition and creating jobs within the sector.

On 21 July 2025, Minister George approved the publication of the National Greenhouse Gas Carbon Budget and Mitigation Plan Regulations draft.³⁹⁸¹ This allows public commentary on South Africa's carbon reduction strategy from stakeholders such as civil society, businesses and academics.

On 30 July 2025, Minister Ramokgopa delivered the Opening Address at the third Energy Transitions Working Group meeting under South Africa's G20 Presidency.³⁹⁸² Minister Ramokgopa called on the G20 to advance Sustainable Development Goal Seven by mobilizing climate and development finance and support Africa's energy aspirations through practical interventions and partnerships. He further underscored the need for a technology-inclusive approach that balances decarbonisation with reliability and affordability.

On 28 October 2025, Minister of Transport Barbara Creecy announced the launch of the government-owned Passenger Rail Agency of South Africa (PRASA)'s Renewable Energy Project.³⁹⁸³ Through this project, solar power systems will be installed at key PRASA stations and facilities across South Africa.

South Africa has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. South Africa has taken strong action to reduce greenhouse gas emissions through tax deductions for electric and hydrogen vehicles and the Renewable Energy Independent Power Producer Procurement Programme. It has also taken weak action through the South Africa Renewable Energy Master Plan, partnership with the EU, participation in the Petersberg Climate Dialogue and reaffirming its commitment to carbon emissions reductions. However, it has not taken strong action across most of the commitment.

Thus, South Africa receives a score of 0.

On 27 November 2024, Minister of Energy Alparslan Bayraktar discussed strategies for energy transitions with Germany and private stakeholders at the German-Turkish Energy Forum.³⁹⁸⁴ Minister Bayraktar called for German investors to partner in Türkiye's efforts to increase wind and solar capacity and several memoranda of understanding were signed between Turkish and German organizations.

On 29 November 2024, Minister of Energy and Natural Resources Alparslan Bayraktar shared Türkiye's "plans to increase its capacity in wind and solar energy from 30 gigawatts to 120 gigawatts in line with the 2035 roadmap in Renewable Energy."³⁹⁸⁵ Minister Bayraktar noted that Türkiye will invest TRY108 billion for this initiative and the United Kingdom will provide a GBP2 billion investment to increase renewable energy capacity, offshore wind energy and Renewable Energy Resource Areas (YEKA) projects.

On 22 January 2025, Türkiye revealed that it is planning to present its first "Climate Law Proposal" at the Turkish Grand National Assembly.³⁹⁸⁶ The proposal is expected to include measures to include renewable energy and designate responsibilities to ministries to achieve the net zero transition by 2053.

On 4 February 2025, Minister Bayraktar announced TRY500 billion in funding for 67 YEKA projects aimed at advancing solar energy capacity in the country.³⁹⁸⁷ These projects are expected to "generate 1.5 billion kilowatt-hours of electricity per year," supporting various sectors including industry and buildings.

On 11 February 2025, President Recep Tayyip Erdogan reaffirmed the partnership between Malaysia and Türkiye during a visit to Malaysia.³⁹⁸⁸ The countries recognized "the need to cooperate in the field of energy transition" and committed increasing cooperation for biotechnology and renewable energy.

On 12 February 2025, the Ministry of Energy and Natural Resources and Indonesia's Ministry of Energy and Mineral Resources announced cooperation to accelerate clean energy development in Indonesia, including the signing of a Memorandum of Understanding.³⁹⁸⁹ This collaboration will bolster Indonesia's commitment to clean power generation.

On 21 February 2025, Türkiye presented the country's first climate law proposal in Parliament.³⁹⁹⁰ The draft law proposes the creation of a carbon market board and an emissions trading system, sets fines of TRY500,000 to TRY10,000,000 to entities that fail to submit verified greenhouse gas emissions reports.

³⁹⁹⁰ Türkiye's first climate law submitted to parliament, Hürriyet Daily News (Ankara) 21 February 2025. Access Date: 24 March 2025. <https://www.hurriyetdailynews.com/turkeyes-first-climate-law-submitted-to-parliament-206091>

On 7 May 2025, President Erdoğan announced a commitment to invest USD80 billion by 2035 to ensure Türkiye's energy transition to renewable energy.³⁹⁹¹ Türkiye aims to raise its wind and solar power capacity to 120,000 megawatts by 2035.

On 2 July 2025, the Turkish Grand National Assembly adopted the country's first climate law.³⁹⁹² The law seeks to ensure greater energy efficiency in the country and the development of new technologies. It also establishes a federal Emissions Trading System required companies will be to obtain greenhouse gas emission permits within three years of the statute's entry into force.

On 31 July 2025, Türkiye signed an energy deal with Iraq to facilitate the transportation of crude oil.³⁹⁹³ This action is antithetical to the commitment as crude oil is a greenhouse gas emitter.

On 2 August 2025, Türkiye began supplying natural gas to Azerbaijan and Syria via the Kilis-Aleppo pipeline. 2 billion cubic meters of natural gas is set to be exported annually.³⁹⁹⁴ This action is antithetical to the commitment as natural gas is a greenhouse gas emitter.

On 24 September 2025, President Erdogan announced Türkiye has increased its total renewable energy capacity to over 60 per cent in the past year.³⁹⁹⁵ President Erdogan cited this as in line with Türkiye's 2053 zero emissions target. Erdogan also announced upcoming Turkish initiatives aimed at reducing greenhouse gas emissions, "including plans to establish an emissions trading system, implement a green finance strategy and create a national green taxonomy."

On 9 September 2025, the Ministry of Energy announced that state pipeline company BOTAŞ signed natural gas supply agreements totalling about 8.7 billion cubic meters with BP, Eni, and Shell.³⁹⁹⁶ Expanding long-term fossil gas procurement risks locking in new greenhouse gas emissions, delaying investment in zero-carbon alternatives, and running counter to commitments to reduce reliance on fossil fuels.

Türkiye has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. Türkiye has taken strong action to reduce greenhouse gas emissions through investments for renewable energy including solar and wind and weak action through its Climate Law proposal and cooperation with Indonesia, Malaysia, Germany and the United Kingdom. However, it has not taken strong action across most of the commitment. It has also taken antithetical action by signing an energy deal to transport crude oil and supplying natural gas to Azerbaijan and Syria.

Thus, Türkiye receives a score of 0.

United Kingdom: +1

The United Kingdom has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 21 November 2024, the United Kingdom and Taiwan co-hosted the sixth UK-Taiwan Energy Dialogue, focusing on energy security and the offshore wind sector.³⁹⁹⁷ This dialogue facilitated bilateral cooperation for renewable energy development with a focus on energy diversification and tackling supply chain risks.

On 21 November 2024, Prime Minister Keir Starmer delivered a statement to the House of Commons, highlighting the United Kingdom's commitment to addressing global challenges such as climate change at the G20 and COP29.³⁹⁹⁸ The United Kingdom also announced a new emissions reduction target of 81 per cent by 2035, while advocating for global collaboration through initiatives like the Global Clean Power Alliance and advocating for low-carbon investments.

On 22 November 2024, the United Kingdom announced GBP239 million in funding to assist forest-rich countries including Colombia and Indonesia in combating deforestation and supporting global climate change efforts.³⁹⁹⁹ This funding is part of the United Kingdom commitment to the 26th Conference of the Parties (COP) to the UN Framework Convention for Climate Change and is aimed at protecting carbon sinks and improving carbon market integrity.

On 28 November 2024, the United Kingdom announced plans to enhance its Emissions Trading Scheme.⁴⁰⁰⁰ The proposal includes adding the maritime sector to the scheme to reduce emissions from shipping and recognizing non-pipeline transport for carbon capture and storage to further decarbonization in the industry sector. These actions are part of the UK's broader strategy to meet net-zero targets while encouraging investment in clean technologies.

On 29 November 2024, Türkiye's Minister of Energy and Natural Resources Alparslan Bayraktar noted that the United Kingdom will provide a GBP2 billion investment to support Türkiye's "plans to increase its capacity in wind and solar energy from 30 gigawatts to 120 gigawatts in line with the 2035 roadmap in Renewable Energy."⁴⁰⁰¹ This partnership will focus on renewable energy capacity, offshore wind energy and "Renewable Energy Resource Areas" projects.

On 9 December 2024, the United Kingdom, the United States and Tokamak Energy announced a joint fusion energy project for lithium research which is essential to diversify the energy sector to include fusion energy.⁴⁰⁰² Fusion energy, once commercially available, has the potential to provide ample clean electricity. This project

⁴⁰⁰² UK and US announce first joint project in fusion energy innovation, Department for Energy Security and Net Zero (London) 9 December 2024. Access Date: 23 June 2025. <https://www.gov.uk/government/news/uk-and-us-announce-first-joint-project-in-fusion-energy-innovation>

will be supported by GBP40.5 million in funding of which the United Kingdom and United States will each provide GBP13.5 million.

On 10 December 2024, UK Export Finance offered JDR Cables a GBP30 million bond support for a project in the floating winds sector.⁴⁰⁰³ JDR Cables is a British power-cable company that installs subsea cables for electricity. This financial assistance will support the technology development of green energy solutions and public-private partnerships for renewable energy sources in the United Kingdom.

On 10 December 2024, contracts for the East Coast Cluster in Teesside were signed.⁴⁰⁰⁴ This is part of the United Kingdom's carbon capture, usage and storage project and is aligned with the government's Plan for Change environmental policy. The Teesside project will capture carbon emission from regional industries and provide the contractors of the East coast Cluster with GBP4 billion to be used in technological innovation, energy security and supply chain development.

On 16 December 2024, the United Kingdom and Norway announced their Green Industrial Partnership to advance clean energy, carbon capture and storage and economic growth.⁴⁰⁰⁵ This partnership will focus on several sectors including industry, transport and energy.

On 9 January 2025, the United Kingdom announced GBP51.9 million in grants to support 25 businesses across the UK in cutting their carbon emissions.⁴⁰⁰⁶ The funding is part of the Industrial Energy Transformation Fund and aims to enable companies to implement innovative technologies such as heat pumps and carbon capture and storage to advance the net zero transition, particularly in industrial sectors like manufacturing and cement.

On 23 January 2025, the Department for Environment, Food and Rural Affairs and Department for Transport announced GBP86 million for 117 new low and zero-emission buses in Greater Manchester.⁴⁰⁰⁷ This investment will help decrease nitrogen dioxide pollution in the air.

On 29 January 2025, Climate Minister Kerry McCarthy visited Brussels to discuss enhancing cooperation on energy with the EU, particularly focusing on the North Seas.⁴⁰⁰⁸ The talks focused on accelerating offshore wind, hydrogen and carbon capture projects to position the North Seas as a key green energy hub for Europe.

On 5 February 2025, Foreign Secretary David Lammy announced GBP17 million in funding to support round two of the InnovateUkraine initiative.⁴⁰⁰⁹ Projects selected through this initiative will advance low-carbon

energy solutions for Ukraine with a focus on renewable energy, smart grids, industrial decarbonization and green fuels.

On 13 February 2025, the Department for Energy Security and Net Zero launched the Clean Industry Bonus to support the development of low-carbon manufacturing and clean energy projects.⁴⁰¹⁰ The initiative focuses on encouraging offshore wind developers to invest in industrial communities.

On 21 February 2025, the United Kingdom proposed reforms to its flagship Contracts for Difference scheme to accelerate the deployment of clean power by 2030.⁴⁰¹¹ These reforms aim to streamline planning consent for offshore wind projects, increase funding efficiency and extend contract terms to advance the net zero transition.

On 25 February 2025, Future of Roads Minister Lilian Greenwood announced that the Department for Transport is extending the “Plug-in van grant” to provide an additional GBP120 million for the transition to zero emissions vans in the UK.⁴⁰¹² Grants of GBP2,500 to GBP5,000 will be given to drivers that buy electric vans, based on vehicle size.

On 7 March 2025, Climate Envoy Rachel Kyte announced additional support for South Africa’s energy transition through the Just Energy Transition Partnership.⁴⁰¹³ The UK committed over GBP330,000 to assist the Energy Council of South Africa in analyzing and implementing wholesale electricity market reforms. This funding will support emissions reductions and promote renewable energy.

On 11 March 2025, the Department for Energy Security and Net Zero introduced the Planning and Infrastructure Bill which will help expedite green electricity project initiatives.⁴⁰¹⁴ This bill will bring “ready-to-go” infrastructure projects at the front of the grid connection queue instead of approving projects on a first come first serve basis. This shift in policy framework will aid the timeline of renewable energy projects and bring the UK closer to its decarbonization goals in the Clean Power 2030 Action Plan.

On 11 March 2025, the Department for Energy Security and Net Zero announced GBP11 million in funding for energy upgrades in homes in England with a focus on social housing and low-income dwellings.⁴⁰¹⁵ Funding will support energy efficiency and clean energy heating upgrades for up to 170,000 homes.

On 14 March 2025, Secretary of State for Energy Security and Net Zero Ed Miliband visited Beijing to re-launch climate discussions with China.⁴⁰¹⁶ The talks focused on reducing global emissions, clean energy cooperation and sharing expertise on emerging technologies.

On 21 March 2025, Secretary Miliband announced a GBP200 million investment from the Department of Energy Security and Net Zero and Great British Energy to advance renewable energy in schools and hospitals across the UK.⁴⁰¹⁷ As part of the Plan for Change, this initiative will lead to the installation of rooftop solar panels on schools, hospitals and other public buildings to decrease energy costs and increase renewable energy, develop community-led offshore wind projects and increase hydropower.

On 21 March 2025, Great British Energy announced a GBP10 million partnership with Metro Mayors to support local clean energy projects.⁴⁰¹⁸ This funding will support renewable initiatives such as solar for building rooftops, onshore wind and hydropower, benefiting local communities by reducing energy costs and promoting job creation.

On 27 March 2025, the UK Atomic Energy Authority announced GBP3.5 million in funding for 13 organizations to “develop robust sensing technologies for use in future fusion power plants.”⁴⁰¹⁹ These technologies are essential to diversifying the energy sector to include fusion energy.

On 31 March 2025, the United Kingdom proposed an extension to the ban on burning vegetation on upland deep peat, aiming to protect an additional 146,000 hectares of carbon-rich habitat.⁴⁰²⁰ This proposal aligns with the Plan for Change by strengthening nature-based climate solutions and promoting healthier, more secure communities.

On 2 April 2025, the Maritime and Coastguard Agency (MCA) advanced maritime decarbonisation by supporting the sixth round of the Clean Maritime Demonstration Competition.⁴⁰²¹ Selected projects will receive a total of GBP30 million to advance clean technologies in the maritime sector.

On 7 April 2025, the Department for Energy Security and Net Zero shortlisted 27 hydrogen projects as part of the next step of the government’s hydrogen plan.⁴⁰²² This initiative is another step in the decarbonization process and creates investment opportunities for the private sector to engage in the implementation process for these hydrogen projects. This action contributes to reducing greenhouse gas emissions in the industrial sector.

On 8 April 2025, the United Kingdom held the inaugural meeting of the Artificial Intelligence (AI) Energy Council to align AI development with its energy transition goals.⁴⁰²³ The Council established five core priorities including using AI to support net zero, improving grid flexibility and promoting renewable integration. By committing to quarterly meetings and rapid progress, the Council aims to ensure that AI supports and benefits from a decarbonized energy system.

On 15 April 2025, the United Kingdom and the National Energy System Operator announced a grid reform plan to prioritize clean energy projects for electricity connections.⁴⁰²⁴ This project is expected to be supported by GBP40 billion in annual investment, mainly from the private sector.

On 17 April 2025, the Department for Energy Security and Net Zero and the Department for Environment, Food and Rural Affairs launched plans to strengthen voluntary carbon and nature markets.⁴⁰²⁵ The initiative aims to establish the UK as the global hub for green finance by clarifying standards for high-integrity carbon credits and promoting transparency in sustainability reporting. This action unlocks private finance for climate mitigation and enables businesses to contribute to emissions reductions through credible market mechanisms.

On 17 April 2025, Parliamentary Under-Secretary of State for Climate Kerry McCarthy and Indonesia's Minister of Environment and Head of the Environmental Control Agency Hanif Faisol Nurofiq met to discuss their commitment towards carbon neutrality in line with the Paris Agreement.⁴⁰²⁶ The United Kingdom allocated GBP2.8 million in funding over the next three years to support Indonesia in developing its carbon trading to advance the net zero transition.

On 24 April 2025, the Department for Energy Security and Net Zero and energy company Eni agreed to a deal that will create GBP2 billion in supply chain contracts for the Liverpool Carbon Capture and Storage Project.⁴⁰²⁷ This deal will increase investment in the United Kingdom's green energy industry and is a major commitment to the decarbonization process of the region.

On 12 May 2025, the Medicines and Healthcare products Regulatory Agency approved a new “triple combination inhaler for adults with moderate to severe chronic obstructive pulmonary disease.”⁴⁰²⁸ This version of Trixeo Aerosphere is made with “a fluorinated gas with near-zero global warming potential,” replacing the previous version of the inhaler which used tetrafluoroethane, a hydrofluorocarbon, as the propellant. This will help reduce greenhouse gas emissions from inhalers which are used by 1.2 million people in the United Kingdom.

On 14 May 2025, the Department for Energy Security and Net Zero announced a Great British Energy scheme with GBP4 million in funding for Scottish clean energy projects.⁴⁰²⁹ Selected projects will focus on community-based clean energy projects including onshore wind, solar and hydropower.

On 29 May 2025, the United Kingdom and European Union, as co-leads of the International Partners Group (IPG)'s Vietnam Just Energy Transition Partnership (JETP), welcomed French President Emmanuel Macron's visit to Vietnam, supporting renewable energy in the country.⁴⁰³⁰ They also shared their support for the French Development Agency and six IPG Development Finance Institutions' EUR547 million contribution for energy transition in Vietnam.

On 10 June 2025, Minister of Energy Michael Shanks directed the Nuclear Decommissioning Authority (NDA) to explore clean energy development on land at Moorside in Cumbria.⁴⁰³¹ Working with the Cumberland Council, the NDA will assess options for privately backed nuclear, solar and wind projects, supporting long-term energy security and renewable energy.

On 11 June 2025, the Department for Science, Innovation and Technology and the Department for Energy Security and Net Zero allocated GBP100,000 in seed funding and GBP60,000 in compute credits to the ten finalists of the Manchester Prize.⁴⁰³² This will support artificial intelligence innovations to cut greenhouse gas emissions, reduce household bills and accelerate the clean energy transition, with one project to receive a GBP1 million prize in 2026.

On 12 June 2025, the United Kingdom announced GBP2.5 billion in funding for fusion energy, including support for the Spherical Tokamak for Energy Production prototype fusion power plant in Nottinghamshire.⁴⁰³³ Delivered by UK Industrial Fusion Solutions, the plant will use deuterium and tritium fusion to generate clean electricity, marking a transition from fossil fuels to advanced sustainable energy.

On 13 June 2025, the United Kingdom announced that over GBP500 million in investments will be allocated towards its hydrogen infrastructure.⁴⁰³⁴ As part of the United Kingdom's Plan for Change, this investment will "create the UK's first regional hydrogen transport and storage network" and support the delivery of clean energy.

On 17 June 2025, Minister of Industry Sarah Jones announced over GBP250 million in funding for green aerospace technology projects by companies including Rolls-Royce and Airbus.⁴⁰³⁵ This investment will support reductions in aviation emissions, zero-emissions aircraft technologies and increased energy efficiency.

On 23 June 2025, the United Kingdom published its Energy Industries Sector Plan to help boost the clean energy economy.⁴⁰³⁶ The plan allocates an additional GBP700 million in funding for Great British Energy, to support clean energy supply chains while creating job opportunities in the energy sector.

On 25 June 2025, Secretary Miliband addressed the Climate Innovation Forum during London Climate Action Week and announced the launch of consultations on mandatory 1.5 degrees-aligned transition plans for major companies and financial institutions.⁴⁰³⁷ Secretary Miliband emphasized that strong transition planning and sustainability reporting will ensure public and private investors drive the shift toward clean energy.

On 30 June 2025, the United Kingdom convened the second meeting of the Artificial Intelligence (AI) Energy Council to prepare the energy system for rapid AI expansion.⁴⁰³⁸ Secretary Miliband and Secretary for Science, Innovation and Technology Peter Kyle led talks with major technology firms to discuss increasing compute capacity, with a focus on AI growth through sustainable sources.

On 4 July 2025, Secretary Miliband approved the development of the Mona offshore wind farm in the Irish sea.⁴⁰³⁹ This project is estimated to power one million homes using clean energy.

On 7 July 2025, the Treasury committed GBP28.6 million through the National Wealth Fund to the Peak Cluster carbon capture project.⁴⁰⁴⁰ This investment supports the development of a carbon dioxide pipeline linking cement and lime plants in the Peak District to the Morecambe Net Zero offshore storage site in the Irish Sea, with an expected reduction of more than three million tonnes of carbon dioxide each year and a clear contribution to industrial decarbonisation.

On 10 July 2025, UK Export Finance announced that a EUR146 million Buyer Credit Guarantee will be allocated to an offshore wind farm project in the Taiwan Strait.⁴⁰⁴¹ This project will produce a renewable energy capacity worth 632 megawatts, supporting the low-carbon transition.

On 10 July 2025, the United Kingdom established the Science and Technology Advisory Council to provide expert, evidence-based advice for the clean power mission.⁴⁰⁴² Comprising 16 academic and industry leaders, the council will guide decisions on climate science, engineering, energy networks and emerging technologies, ensuring policies are informed by the latest research.

⁴⁰⁴² Expert panel to put science and tech at the heart of clean power, Department for Energy Security and Net Zero (London) 10 July 2025. Access Date: 10 August 2025. <https://www.gov.uk/government/news/expert-panel-to-put-science-and-tech-at-the-heart-of-clean-power>

On 11 July 2025, the United Kingdom and France announced a new Industrial Strategy partnership aimed at investing in clean energy industries, supporting the net zero transition and accelerating growth.⁴⁰⁴³ This partnership came into effect following the 37th UK-France Summit.

On 13 July 2025, the United Kingdom announced a GBP63 million funding package to expand electric vehicle infrastructure.⁴⁰⁴⁴ As part of the Plan for Change, this funding will be used to expand access to affordable charging and electrify ambulances and medical fleets.

On 15 July 2025, the Department for Transport and the Office for Zero Emission Vehicles launched a GBP650 million Electric Car Grant that offers discounts of up to GBP3,750 at the point of sale for new eligible battery electric cars priced at or under GBP37,000.⁴⁰⁴⁵ Manufacturers can apply from 16 July 2025, with funding available until the 2028 to 2029 financial year. The measure supports the commitment to phase out the sale of new petrol and diesel cars by 2030, lowers upfront costs for drivers, and accelerates emissions reductions from road transport.

On 17 July 2025, the United Kingdom and Germany signed the Treaty on Friendship and Bilateral Cooperation.⁴⁰⁴⁶ Through this treaty, both members agreed to work on 17 priority projects, including the Strategic Science and Technology Partnership which focuses on “sustainable energy solutions” and the North Sea Energy Infrastructure Project which aims to accelerate hydrogen and carbon dioxide infrastructure.

On 17 July 2025, Secretary Miliband confirmed that the United Kingdom will become the first country to develop fusion-specific planning rules.⁴⁰⁴⁷ By including fusion in the Nationally Significant Infrastructure Project regime and introducing a National Policy Statement, the government will give developers clearer site guidance, faster approvals and greater investment certainty. These changes will accelerate projects such as the STEP fusion power plant in Nottinghamshire, supporting thousands of jobs and advancing the deployment of limitless clean energy that can replace high-emission power sources.

On 22 July 2025, the United Kingdom approved its final investment decision for the Sizewell C nuclear plant.⁴⁰⁴⁸ The government will take an initial 44.9 per cent in the plant which is expected to supply clean electricity for the equivalent of 6 million homes for at least six decades once operational.

On 22 July 2025, the Department for Transport committed GBP63 million to 17 UK companies to accelerate sustainable aviation fuel production through the Advanced Fuels Fund, aiming to cut lifecycle aviation emissions by around 70 per cent compared with fossil jet fuel and advance the goal of net zero aviation.⁴⁰⁴⁹

⁴⁰⁴⁹ £63 million lift off for clean aviation fuels, Department for Transport (London) 22 July 2025. Access Date: 30 August 2025. <https://www.gov.uk/government/news/63-million-lift-off-for-clean-aviation-fuels>

On 23 July 2025, the United Kingdom launched the Oil and Gas Transition Training Fund to support Aberdeen's workforce in moving into clean energy roles.⁴⁰⁵⁰ Backed by GBP900,000 in funding, the programme provides careers advice and training for current and former oil and gas workers in sectors such as offshore wind, hydrogen and carbon capture and storage.

On 23 July 2025, the Department for Energy Security and Net Zero authorized the construction of the first commercial-scale green hydrogen projects under the Hydrogen Allocation Round.⁴⁰⁵¹ Ten projects will supply heavy industry with domestically produced low-carbon hydrogen, enabling sectors such as steel, glass and heavy transport to replace fossil fuels. This programme advances the transition toward a clean energy economy by reducing the reliance on energy sources with substantial greenhouse gas emissions.

On 24 July 2025, the Department for Transport and Innovate UK committed GBP30 million through the Clean Maritime Demonstration Competition to support the development and demonstration of clean maritime fuels and technologies, including ammonia, hydrogen, methanol, electric and solar solutions.⁴⁰⁵² The funding aims to cut emissions from sea travel, accelerate progress toward net-zero shipping by 2050, and support deployments such as port charge point networks, an electric crew transfer vessel, and a green hydrogen shore power system.

On 29 July 2025, British International Investment committed USD50 million to the Vietnam Prosperity Joint Stock Commercial Bank as part of a USD350 million loan facility coordinated by Sumitomo Mitsui Banking Corporation, with participation from Export Finance Australia, FinDev Canada and the Japan International Cooperation Agency.⁴⁰⁵³ The funds will expand climate finance for Vietnam's green transition, including renewable energy, clean transport, and energy efficiency projects that support the country's net-zero pathway.

On 4 August 2025, Highlands and Islands Enterprise and Great British Energy signed a partnership agreement to accelerate the United Kingdom clean energy transition in the Highlands and Islands.⁴⁰⁵⁴ The agreement sets shared objectives for delivery of clean power generation and storage, development of supply chains, and support for community energy projects. The parties will also explore Great British Energy investment in the region using HIE networks of projects and developers, with opportunities linked to offshore wind and the Inverness and Cromarty Firth Green Freeport.

On 5 August 2025, the United Kingdom advanced new projects within the HyNet carbon capture cluster in North Wales and Northwest England.⁴⁰⁵⁵ The Connah's Quay Low Carbon Power project will supply enough clean energy for the equivalent of 900,000 homes while capturing emissions, and the Ince Bioenergy with Carbon Capture and Storage project will remove 217,000 tonnes of carbon dioxide annually by turning waste wood into low-carbon power. By expanding infrastructure to transport and store captured carbon under the seabed, the initiative will support 2,800 skilled jobs and cut industrial emissions.

On 7 August 2025, the United Kingdom invited Guatemala to join the Powering Past Coal Alliance, a global coalition promoting the shift from coal to clean energy.⁴⁰⁵⁶ During a meeting in Guatemala City, the British Ambassador outlined how membership would support Guatemala's Paris Agreement commitments through international collaboration and energy expertise sharing. By encouraging the phase-out of coal and exploring UK-backed investment of up to GBP5 billion in clean power projects, the initiative advances global emissions reduction while opening new opportunities for sustainable growth.

On 27 August 2025, the United Kingdom partnered with the Kyrgyz Republic to develop a flexible financial model that helps the government assess and manage sovereign guarantees for renewable energy projects, aiming to unlock foreign direct investment and accelerate deployment of solar, wind, and small hydropower.⁴⁰⁵⁷ The project runs from July to December 2025 and includes training for officials to use the model, improving transparency and enabling a bankable pipeline that supports emissions reduction and energy security.

On 3 September 2025, Special Representative for Nature Ruth Davis visited the Philippines to launch the Climate and Ocean Adaptation and Sustainable Transition Facility and Innovation Grant Fund, offering grants of up to GBP500,000 for local projects.⁴⁰⁵⁸ The initiative, part of the UK's Blue Planet Fund, supports sustainable fisheries, aquaculture, blue finance and nature-based coastal solutions.

On 10 September 2025, Special Representative Davis and Brazilian Deputy Agricultural Minister Cleber Soares signed a Memorandum of Understanding to make fertilizer use more sustainable.⁴⁰⁵⁹ The partnership focuses on research, innovation and supply chain resilience while reducing fertilizer-driven greenhouse gas emissions, which account for five per cent of global totals.

On 15 September 2025, the UK announced over GBP1.1 billion for the maritime sector, including GBP448 million in public funding under UK SHORE to develop and deploy clean shipping technologies and fuels, alongside GBP700 million in private investment for ports and shoreside power.⁴⁰⁶⁰ The package aims to cut shipping emissions, expand shore power and zero emission vessel projects, and strengthen coastal energy infrastructure.

On 16 September 2025, the Department for Energy Security and Net Zero set objectives for Great British Energy to develop, invest in, and own clean power projects across the UK, with a requirement to become self-financing by 2030 and reinvest profits into new clean energy.⁴⁰⁶¹ The update notes about GBP200 million already invested in solar on schools, hospitals, and public buildings, and confirms work with partners to mobilize GBP1 billion for offshore wind supply chains, supporting faster deployment that cuts power sector emissions and strengthens energy security.

On 25 September 2025, the Department for Energy Security and Net Zero confirmed final contracts for two carbon capture projects that are now ready to begin construction: Heidelberg Materials' Padeswood cement

plant in Flintshire and Encyclis' Protos energy from waste facility in Ellesmere Port.⁴⁰⁶² Together, they are expected to capture about 1.2 million tonnes of carbon dioxide each year and will connect to the HyNet Liverpool Bay transport and storage network via the Low Carbon Contracts Company agreements, advancing industrial decarbonization in North Wales and Northwest England.

On 26 September 2025, British Ambassador Hamish Cowell and Lebanon's Minister of Energy and Water Joe Saddi launched the National Renewable Energy Action Plan 2025–2030 at the Lebanon Grand Energy Event.⁴⁰⁶³ Backed by UK technical support since 2024, the updated roadmap sets out Lebanon's renewable energy priorities to boost resilience, energy independence and climate commitments.

On 26 September 2025, the Department for Energy Security and Net Zero and Great British Energy announced the installation of solar panels at five National Health Services (NHS) sites and three schools, with eight more schools to follow in autumn.⁴⁰⁶⁴ Backed by GBP180 million in public investment, the project will reduce lifetime energy costs for hospitals and schools by GBP3.8 million and redirect savings into textbooks, teachers and frontline healthcare.

On 1 October 2025, the Department for Energy Security and Net Zero and Great British Energy confirmed up to GBP75 million in new funding to expand solar installations across military sites, schools and hospitals.⁴⁰⁶⁵ The scheme will now total GBP255 million, supporting around 250 schools, more than 270 NHS sites and 15 Ministry of Defence locations, including remote training grounds where solar panels and micro-wind turbines will cut energy bills.

On 6 October 2025, British International Investment committed USD60 million to the Green Investment Partnership, a USD510 million blended finance vehicle managed by Pentagreen Capital to scale renewable energy, e-mobility, storage, circular economy, and other low-carbon infrastructure across Southeast Asia.⁴⁰⁶⁶ The commitment seeks to crowd in private capital and close the region's climate finance gap, accelerating projects that cut greenhouse gas emissions.

On 14 October 2025, the United Kingdom approved the Tillbridge Solar Farm project.⁴⁰⁶⁷ This project is expected to provide clean energy to over 7.5 million homes, support 1,250 jobs and boost the country's energy security.

On 14 October 2025, Secretary Miliband delivered a speech at the Energy UK conference 2025, focusing on the importance of the country's transition to clean energy.⁴⁰⁶⁸ Secretary Miliband highlighted that "building

clean energy is the right choice” and announced the Clean Energy Jobs Plan which will create thousands of new jobs in the energy sector by 2030.

On 15 October 2025, the United Kingdom approved GBP30 million in joint funding to boost innovation within the automotive industry.⁴⁰⁶⁹ Toyota, alongside several project partners, will lead the “cutting-edge match-funded project to boost zero-emission vehicle innovation.” This investment aims to advance electric mobility solutions to meet the rising demand for zero-emission vehicles in the United Kingdom, while supporting the government’s Plan for Change.

On 29 October 2025, the United Kingdom announced the Carbon Budget and Growth Delivery Plan, which outlines the country’s plans to continue reducing emissions in a manner that reduces energy costs and creates jobs, in accordance with the landmark 2008 Climate Change Act.⁴⁰⁷⁰ With the support of trade unions, civil society organisations and leading businesses, this framework is expected to create a “stable environment for investment in clean energy.”

On 30 October 2025, the Department for Science, Innovation and Technology approved a GBP55 million long-term backing for the United Kingdom’s research agencies and bodies.⁴⁰⁷¹ It was noted that additional investments will be provided to bodies that make technological and scientific breakthroughs, including the clean energy industry.

On 30 October 2025, Scottish Secretary Douglas Alexander confirmed that GBP17.3 million in funding will be dedicated towards boosting Aberdeen’s Energy Transition Zone.⁴⁰⁷² The funding aims to accelerate the development of a renewables business hub and encourage the creation and growth of clean energy companies. This development will allow Aberdeen South Harbour to position itself as a key hub for offshore renewable projects and attract investment, while expanding its renewables supply chain.

The United Kingdom has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. The United Kingdom has taken strong action to reduce carbon emissions in the energy, industry, buildings, transport and agriculture, forestry and other land use sectors through funding for home energy upgrades, renewable energy in public buildings including schools and hospitals, grants for electric vehicles, investments in renewable energy projects including solar, wind, nuclear and fusion, the Clean Industry Bonus and InnovateUK initiative and funding for forest carbon sinks. It has also supported the reduction of hydrofluorocarbons through the introduction of a new low-carbon inhaler that reduces greenhouse gas emissions. Additionally, the United Kingdom has expanded sustainable aviation fuel production, focused on developing fusion-specific planning rules, supported clean maritime fuels and technologies and engaged in international partnerships to advance the commitment’s objectives.

Thus, The United Kingdom receives a score of +1.

Analyst: Meghry Karagouzian

United States: 0

United States has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 3 December 2024, the United States reaffirmed its support for Angola's goal of generating 73 per cent of its energy from clean sources by 2027, while addressing both current and anticipated energy needs along the Lobito Trans-Africa Corridor.⁴⁰⁷³ President Joe Biden also announced USD560 million in additional funding for the corridor, supporting infrastructure, clean energy and supply chains, agriculture and other needs.

On 9 December 2024, the United Kingdom, the United States and Tokamak Energy announced a joint fusion energy project for lithium research which is essential to diversify the energy sector to include fusion energy.⁴⁰⁷⁴ Fusion energy, once commercially available, has the potential to provide ample clean electricity. This project will be supported by GBP40.5 million in funding of which the United Kingdom and United States will each provide GBP13.5 million.

On 13 December 2024, the White House announced that it held a roundtable earlier in the week to enhance the voluntary carbon market for nature-based solutions.⁴⁰⁷⁵ This engagement brought together stakeholders from government, industry and environmental organizations to discuss strategies for strengthening market integrity to promote carbon sequestration, biodiversity conservation and climate mitigation.

On 19 December 2024, President Joe Biden announced a new climate target for the United States, aiming for a 61-66 per cent reduction in net greenhouse gas emissions by 2035 from 2005 levels.⁴⁰⁷⁶ The strategy includes leveraging investments from the Inflation Reduction Act and Bipartisan Infrastructure Law, implementing federal standards and mobilizing private capital. This commitment supports the sustainability and responsibility of energy transition supply chains by promoting clean energy initiatives and reducing emissions.

On 20 December 2024, the Department of Energy and Environmental Protection Agency announced a combined commitment of USD850 million to reduce methane pollution in the oil and gas sector.⁴⁰⁷⁷ This initiative is designed to support advanced technologies and regulation to capture and prevent methane emissions.

⁴⁰⁷³ FACT SHEET: Partnership for Global Infrastructure and Investment in the Lobito Trans-Africa Corridor, The White House (Washington D.C.) 3 December 2024. Access Date: 13 April 2025. <https://bidenwhitehouse.archives.gov/briefing-room/statements-releases/2024/12/03/fact-sheet-partnership-for-global-infrastructure-and-investment-in-the-lobito-trans-africa-corridor/>

⁴⁰⁷⁷ DOE and EPA Announce \$850 Million to Reduce Methane Pollution from the Oil and Gas Sector, U.S. Department of Energy (Washington D.C.) 20 December 2024. Access Date: 13 April 2025. <https://www.energy.gov/articles/doe-and-epa-announce-850-million-reduce-methane-pollution-oil-and-gas-sector-0>

On 20 December 2024, the Department of Energy announced a USD517 million investment to advance innovative transportation technologies.⁴⁰⁷⁸ This funding is aimed supporting electric vehicles, alternative fuels and electrification solutions that can significantly reduce greenhouse gas emissions.

On 20 December 2024, the Binational Industrial Research and Development Energy program announced a USD7.5 million investment for Israel-US clean energy projects.⁴⁰⁷⁹ This investment aims to accelerate the development of renewable energy to lower greenhouse gas emissions and advance the net zero transition. Projects include the development of green ammonia which is used for green fertilizers, “dual-thermal energy storage for residential buildings” and hydrogen as a marine engines fuel.

On 19 December 2024, the Department of Energy announced USD15 million in awards under the Solve It Prize, recognizing communities that are spearheading innovative solutions to drive clean energy progress.⁴⁰⁸⁰ This initiative aims to support projects that enhance energy efficiency, reduce greenhouse gas emissions and foster sustainable practices at the local level.

On 20 December 2024, the Department of Energy unveiled its updated Hydrogen Program Plan which aims to increase hydrogen production, storage and distribution technologies.⁴⁰⁸¹ This plan aims to accelerate decarbonization in the US’ energy sector.

On 24 December 2024, the United States and Japan agreed to strengthen cooperation in the development and deployment of advanced clean energy technologies.⁴⁰⁸² This includes floating offshore wind, clean hydrogen and derivatives such as ammonia and synthetic fuels, carbon capture and recycling and small modular reactors. Japan also committed to collaborate on resilient mineral supply chains and methane emission reductions in the Indo-Pacific. The United States and Japan also co-hosted a session involving private sector representatives to boost public-private collaboration in the energy transition. Participants exchanged views on emerging clean energy markets, including synthetic methane and hydrogen, to meet the growing demand for clean electricity in the digital age.

On 16 January 2025, the Department of Energy announced an investment of nearly USD14 million in federal funding for four projects aimed at advancing the large-scale conversion of carbon dioxide emissions into valuable products.⁴⁰⁸³ These projects focus on developing technologies that transform carbon emissions into fuels, building materials and other carbon-based products, contributing to the sustainability and responsibility of energy transition supply chains by reducing greenhouse gas emissions and promoting innovative uses of captured carbon.

⁴⁰⁷⁸ DOE Invests \$51.7 Million to Advance Innovative Transportation Technologies, U.S. Department of Energy (Washington D.C.) 20 December 2024. Access Date: 13 April 2025. <https://www.energy.gov/eere/articles/doe-invests-517-million-advance-innovative-transportation-technologies>

⁴⁰⁸³ DOE Invests Nearly \$14 Million to Advance Technologies That Transform Carbon Emissions into Valuable Products, U.S. Department of Energy (Washington D.C.) 16 January 2025. Access Date: 29 March 2025. <https://www.energy.gov/fecm/articles/doe-invests-nearly-14-million-advance-technologies-transform-carbon-emissions>

On 17 January 2025, the Department of Energy's Loan Programs Office announced USD584.5 million in loan guarantees for Convergent Energy and Power Incorporation's subsidiaries.⁴⁰⁸⁴ This guarantee will support the development of a solar photovoltaic and integrated battery energy storage system and three additional battery energy storage systems in Puerto Rico. The solar plant is expected to provide 200,000 megawatt hours of energy annually with the three stand-alone energy storage systems having a capacity of 900 megawatt hours.

On 12 February 2025, Secretary of Energy Jennifer Granholm and Saudi Arabia's Minister of Industry and Mineral Resources Bandar Alkhorayef met to discuss enhancing cooperation between Saudi Arabia and the United States in clean energy and sustainable mining.⁴⁰⁸⁵ The ministers focused on boosting trade in non-oil exports, encouraging investment in mining projects and supporting climate-oriented goals under the Saudi Green Initiative which aims to address climate change and promote sustainability in the energy and industry sectors.

On 14 February 2025, Secretary of Energy Chris Wright and President Donald Trump announced "a new export authorization for the Commonwealth LNG (liquefied natural gas) project proposed for Cameron Parish, Louisiana."⁴⁰⁸⁶ The project is expected to help the US export over 1.2 billion cubic feet of LNG per day, once constructed, increasing the use and reliance on LNG which is a greenhouse gas emitter.

On 28 February 2025, the Department of Energy reversed the Biden-Harris Administration's order to allow LNG to be used as fuel for marine vessels.⁴⁰⁸⁷ This action is directly and explicitly antithetical to the commitment as LNG is a source of greenhouse gas emissions and this action is expected to increase LNG use. However, LNG is a cleaner source of energy than coal or oil and can help facilitate a low-carbon transition.

On 21 March 2025, the Department of Energy reallocated USD365 million in funding for rooftop solar and battery storage to advance reliable energy in Puerto Rico.⁴⁰⁸⁸ While this action supports Puerto Rico, it takes financing away from clean energy initiatives. Thus, it is antithetical to the commitment.

On 24 March 2025, the Department of Energy re-issued a USD900 million "solicitation to support the deployment of small modular reactors."⁴⁰⁸⁹ This will enable energy transition to cleaner alternatives to meet demand forecasts driven by artificial intelligence data center growths.

On 8 April 2025, President Trump signed an Executive Order to designate coal as a critical mineral, lift barriers on coal mining and require agencies to rescind any policies that seek transition away from coal.⁴⁰⁹⁰ This action is contrary to the commitment as coal is a major greenhouse gas emitter.

⁴⁰⁸⁴ DOE Announces \$584.5 Million Loan Guarantee to Subsidiaries of Convergent Energy and Power Inc. to Build Solar PV and Energy Storage in Puerto Rico, U.S. Department of Energy (Washington D.C.) 17 January 2025. Access Date: 30 June 2025.

⁴⁰⁹⁰ Fact Sheet: President Donald J. Trump Reinvigorates America's Beautiful Clean Coal Industry, The White House (Washington D.C.) 8 April 2025. Access Date: 19 May 2025. <https://www.whitehouse.gov/fact-sheets/2025/04/fact-sheet-president-donald-j-trump-reinvigorates-americas-beautiful-clean-coal-industry/>

On 22 April 2025, the Department of Energy released the third loan disbursement to Holtec for the reopening of the Palisades Nuclear Plant.⁴⁰⁹¹ When completed, it is expected to provide 800 megawatts of affordable, reliable baseload power in Michigan.

On 30 May 2025, the Department of Energy removed barriers on alternative fuel sources for the agriculture sector.⁴⁰⁹² In doing so, the Department of Energy aims to advance the use of ethanol from corn wet-milling, natural gas from coal-mine methane and other sources of bioenergy to support farmers.

On 30 May 2025, the Nuclear Regulatory Commission approved a small modular reactor design with a 77 megawatts-electric design.⁴⁰⁹³ This approval aims to advance nuclear energy in the US.

On 30 May 2025, Secretary Wright announced the termination of 24 clean energy projects aimed at advancing carbon capture and sequestration and decarbonization.⁴⁰⁹⁴ This announcement takes away USD3.7 billion in funding from clean energy initiatives aimed at advancing the net zero transition. Thus, this action is directly and explicitly antithetical to the commitment.

On 4 July 2025, President Trump enacted the One Big Beautiful Bill Act (OBBBA), with sections 70501-70510 terminating clean energy subsidies previously accorded by the Green New Deal, including the clean vehicle credit, residential clean energy credit and energy efficient home improvement credit.⁴⁰⁹⁵ Section 70511 will also eliminate the clean hydrogen production tax credit by 2028 and section 70512(a) terminated clean energy production credits for wind and solar facilities that produce electricity after December 2027. These terminations undermine the commitment's focus on reducing greenhouse gas emissions.

On 12 August 2025, the Secretaries of State, Commerce, Energy, and Transportation issued a joint statement rejecting the International Maritime Organization's Net Zero Framework for shipping, stating that it is a global carbon tax on American consumers and industry.⁴⁰⁹⁶ The statement commits to opposing the adoption of the framework, warning that the proposed fuel standards and fees would raise energy and transport costs for Americans.

On 29 September 2025, the Department of Energy announced a USD625 million package to reinvigorate and expand the coal industry, including funds to recommission or retrofit coal units and extend plant lifetimes.⁴⁰⁹⁷ This action is antithetical to the commitment which aims to reduce greenhouse gas emissions.

⁴⁰⁹⁷ Energy Department Announces \$625 Million Investment to Reinvigorate and Expand America's Coal Industry, U.S. Department of Energy (Washington D.C.) 29 September 2025. Access Date: 28 October 2025. <https://www.energy.gov/articles/energy-department-announces-625-million-investment-reinvigorate-and-expand-americas-coal>

On 2 October 2025, the Department of Energy terminated 321 financial awards supporting 223 energy projects, canceling about USD7.56 billion in funding.⁴⁰⁹⁸ Halting awards across renewables, hydrogen, grid upgrades and other clean energy areas risks slowing decarbonization and is antithetical to the commitment's objective of reducing greenhouse gas emissions.

United States has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. The United States has taken strong action to reduce greenhouse gas emissions in the transport, energy, agriculture and buildings through funding for innovative transportation technologies, methane reduction, green ammonia production, rooftop solar, fusion energy and the nuclear sector. However, it has also taken actions that are directly and explicitly antithetical to the commitment including removing funding from clean energy initiatives and advancing LNG use, designating coal as a critical mineral, investing in coal, terminating significant funding for renewable energy initiatives and opposing the International Maritime Organization's Net Zero Framework.

Thus, United States receives a score of 0.

Analyst: Tara Van de Wall

African Union: 0

The African Union has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 5 December 2024, at the African Union's Specialized Technical Committee on Transport and Energy, African ministers from 39 countries endorsed the Climate Resilient and Smart Infrastructure Policy.⁴⁰⁹⁹ This policy focuses on sustainable and low-carbon aviation in line with net-zero transport emission goals, green hydrogen and sustainable climate-resilient infrastructure. The ministers also approved a Continental Strategy for Sustainable Aviation Fuels and Low Carbon Aviation Fuels aimed at increasing sustainable fuels for transportation, the African Green Hydrogen Strategy and Action Plan to increase renewable energy and advance the net zero transition and the African Energy Efficiency Strategy and Action Plan focused on energy efficiency and clean energy in the power, transport, energy, buildings, agriculture and industry sectors.

On 27 January 2025, the African Union, African Development Bank, World Bank Group and Tanzania co-hosted the Mission 300 Africa Energy Summit.⁴¹⁰⁰ Twelve AU countries presented their National Energy Compacts at the summit, detailing renewable energy and energy access targets. Participants also agreed to advance renewable and clean energy, electrification and accessible and affordable energy through the Dar es Salaam Energy Declaration.

On 20 January 2025, Commissioner for Infrastructure and Energy Amani Abou-Zeid attended the World Economic Forum Annual Meeting to discuss Africa's role in the global energy transition.⁴¹⁰¹ Commissioner Zeid highlighted Africa's potential to lead in clean technologies, sustainable development and sustainable mining for climate change, as well as the development of equitable climate-resilient energy systems.

⁴⁰⁹⁸ Energy Department Announces Termination of 223 Projects, Saving Over \$7.5 Billion, U.S. Department of Energy (Washington D.C.) 2 October 2025. Access Date: 28 October 2025. <https://www.energy.gov/articles/energy-department-announces-termination-223-projects-saving-over-75-billion>

⁴¹⁰¹ African Union at the World Economic Forum, African Union Commission (Addis Ababa) 20 January 2025. Access Date: 28 March 2025. <https://au.int/en/pressreleases/20250120/african-union-world-economic-forum>

On 13 February 2025, the African Energy Commission and Denmark launched a project to enhance energy efficiency and sustainable development within the AU.⁴¹⁰² The project will focus on improving energy capacity and advancing sustainable and reliable supply chains in line with the energy transition.

On 16 February 2025, the African Union adopted the Continental Strategy for Sustainable Aviation Fuels, Low Carbon Aviation Fuels and the African Green Hydrogen Strategy at the 38th African Union summit.⁴¹⁰³ The first and second strategy aims to decrease the carbon output of aviation through the creation of a sustainable aviation fuels industry providing aircrafts with non-carbon fuel sources. The third initiative verifies that financial and technical advancements in hydrogen are at the forefront of Africa's green hydrogen plan which is in line with ensuring energy security in the African Union. The African Union also endorsed the Dar Es Salaam Energy Declaration which aims to advance renewable and clean energy in Africa.⁴¹⁰⁴

On 25 March 2025, the African Union and the European Union celebrated 25 years of partnership, which will emphasize the four key pillars of their partnership.⁴¹⁰⁵ One of the four key pillars involves collaboration on sustainable trade and growth as well as green transitions.

On 12 June 2025, Commissioner for Infrastructure and Energy Lerato Matoboge spoke at the African Green Hydrogen Summit.⁴¹⁰⁶ Commissioner Matoboge highlighted the significance of developing green hydrogen policies in line with the AU's African Green Hydrogen Strategy which aims to expand renewable energy in Africa.

On 31 July 2025, Commissioner for Agriculture, Rural Development, Blue Economy and Sustainable Environment Moses Vilakati issued a statement ahead of the Second Africa Climate Summit (ACS-2).⁴¹⁰⁷ In the statement, Commissioner Vilakati discussed Africa's comparatively small contribution to global greenhouse gas emissions, and disproportionate climate risks. He expressed hope for the ACS-2 to act in climate issues and solution, focusing on renewable energy.

On 4 August 2025, the Department of Electricity and Energy's representative Robert Kwindia attended a workshop held by the African Energy Commission. The workshop included training sessions on South Africa's national energy management.⁴¹⁰⁸ He remarked that the workshop training would help in enhancing South Africa's ability to track emissions in line with international goals. Overall, the workshop supports Africa's aims of accurate carbon emissions tracking.

The African Union has partially complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. The African Union has taken weak actions across most of the commitment components to support the reduction of greenhouse gas emissions and advance the net zero transition. This includes policies endorsed by the Specialized Technical Committee on Transport and Energy and approved by the African Union for hydrogen, sustainable aviation fuels and energy efficiency, the Dar Es Salaam Energy Declaration endorsed by the AU and reaffirmed commitments towards clean technologies and sustainable development.

Thus, the African Union receives a score of 0.

Analyst: Lindsay Lin

European Union: +1

The European Union has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways.

On 24 November 2024, the European Investment Bank allocated up to EUR80 million for Nortegas Renovables to develop biomethane plants in Spain.⁴¹⁰⁹ These plants will use agricultural waste to create biomethane, reducing methane and other greenhouse gas emissions. The plants are expected to produce 3.5 trillion-watt hours of energy annually by 2030.

On 5 December 2024, European Union and Mercosur concluded negotiations on a new EU-Mercosur agreement which includes increasing support in renewable energy sectors, diversifying supply chains and securing raw materials for the green transition.⁴¹¹⁰

On 17 December 2024, the European Commission approved a EUR3 billion scheme funded by Germany and the Netherlands to produce “renewable fuels of non-biological origin.”⁴¹¹¹ This will help advance the net zero transition and help the EU achieve its climate and hydrogen goals.

On 18 December 2024, the European Commission allocated EUR2.7 billion in funding for 39 projects across eight EU member states.⁴¹¹² The projects include renewable energy integration in Bulgaria, photovoltaics and energy storage production in Croatia, reducing carbon emissions in Czechia, renewable energy for public and multi-apartment buildings in Latvia, energy savings in buildings in Lithuania and greenhouse gas emissions reductions in Slovakia.

On 1 February 2025, the European Commission allocated EUR645 million from the Connecting Europe Facility towards Denmark and Germany’s offshore wind energy project.⁴¹¹³ The Bornholm Energy Island project aims to integrate 3 gigawatts of wind energy within the European electricity grid by the next decade. This will support energy efficiency, the renewable energy transition and energy security within Europe.

On 5 February 2025, the European Union, French Development Agency, Indonesian Ministry of Energy and Mineral Resources and the National Electricity Company launched the 2025-2030 Indonesia Energy Transition Facility, under the Just Energy Transition Partnership Framework.⁴¹¹⁴ This project will focus on developing and implementing renewable energy and transmission projects and ensuring appropriate public policies for the energy transition. The EU will provide EUR10.6 million and AFD will provide EUR4.1 million for this initiative.

On 6 February 2025, the European Climate, Infrastructure and Environment Executive Agency allocated EUR422 million towards 39 projects aimed at advancing the net zero transition in the transportation sector.⁴¹¹⁵ These projects include the construction of “2,500 electric recharging points for light-duty vehicles and 2,400 for heavy-duty vehicles along the European TEN-T road network, 35 hydrogen refuelling stations for cars, trucks and buses, the electrification of ground handling services in 8 airports, the greening of 9 ports and 2 ammonia and methanol bunkering facilities.”

On 11 February 2025, representatives of the European Union and Colombia met for a second High-level Dialogue on Climate and Environment in Bogotá, Colombia.⁴¹¹⁶ They agreed to continue to collaborate on the green energy transition and climate neutrality as well as reaffirming their joint commitment to the 1.5°C temperature benchmark.

On 19 February 2025, the European Climate, Infrastructure and Environment Executive Agency announced EUR7.8 million in awards to advance the net zero transition in the marine transportation sector.⁴¹¹⁷ Funded through the Horizon Europe programme, projects will focus on green shipping including through the use of solar panels, batteries and wind energy to reduce emissions by 40 per cent.

On 19 February 2025, the European Environment Agency published the second progress report on climate and environmental objectives laid out in the 8th Environment Action Programme, demonstrating that the EU is partially on track towards its 2030 climate and environmental goals.⁴¹¹⁸ The report noted that the EU is “likely on track” to meet the target of cutting net greenhouse gas emissions by at least 55 per cent from 1990 levels by 2030.

On 27 February 2025, European Investment Bank loaned EUR430 million to Portugal for a renewable hydrogen project and a biofuels project.⁴¹¹⁹ The renewable hydrogen production unit project will be one of the first major operational hydrogen production units in the EU.

On 12 March 2025, President of the European Commission Ursula von der Leyen, President of the European Council António Costa and President of the Republic of South Africa Cyril Ramaphosa signed a joint statement

⁴¹¹⁹ Portugal: EIB finances Galp's Renewable Hydrogen and Biofuels projects in Sines with €430 million, European Investment Bank (Luxembourg City) 27 February 2025. Access Date: 29 March 2025. <https://www.eib.org/en/press/all/2025-107-eib-finances-galp-s-renewable-hydrogen-and-biofuels-projects-in-sines-with-eur430-million>

on various issues including supply chains and energy transition technologies.⁴¹²⁰ The members agreed to launch negotiations for a “Clean Trade and Investment Partnership.” This partnership will include investment in raw materials supply chains and renewable energy projects.

On 23 March 2025, the European Commission approved EUR5 billion for Germany’s scheme to advance decarbonization in the industrial sector.⁴¹²¹ This will contribute to decreased carbon emissions and increased energy efficiency through electrification, hydrogen and carbon capture, storage and use.

On 14 April 2025, the European Commission approved EUR400 million for Spain’s renewable hydrogen initiative.⁴¹²² This project is aimed at accelerating decarbonization in the industrial sector, in line with the Clean Industrial Deal.

On 25 April 2025, European Investment Bank and PGE Polska Grupa Energetyczna signed a EUR525 million loan agreement for Poland’s energy transition.⁴¹²³ The deal includes investments in photovoltaic installations and storage units. This supports Poland and the EU’s energy transition.

On 30 April 2025, the European Climate, Infrastructure and Environment Executive Agency announced EUR52.4 million in funding for nine renewable energy projects in Finland and Estonia.⁴¹²⁴ Funded through the EU Renewable Energy Financing Mechanism, the projects will develop seven solar photovoltaic parks and plants in Finland and an onshore wind project and wind farm in Estonia.

On 11 May 2025, European Union and Japan held the third Digital Partnership Council to reinforce their technology cooperation.⁴¹²⁵ Both members agreed to collaborate on semiconductors, Artificial Intelligence and 5G/6G research. This will support both members diversification of responsible semiconductor supply chains.

On 15 May 2025, the European Union and India announced two new climate initiatives under the India-EU Trade and Technology Council framework.⁴¹²⁶ The second initiative will receive EUR10 million in funding from the EU and EUR9.3 million from India’s Ministry of New and Renewable Energy and to advance the development of hydrogen from agricultural, forestry-related, municipal, sewage and industrial biogenic wastes. This project aims to support the reduction of greenhouse gas emissions.

On 19 May 2025, the European Commission approved EUR1.2 billion for the Netherlands’ industrial decarbonization initiative.⁴¹²⁷ This initiative will reduce greenhouse gas emissions through the use of “secondary

or bio-based raw materials” instead of fossil fuels, with each selected project under the initiative reducing emissions by 100,000 tonnes or more.

On 29 May 2025, the United Kingdom and European Union, as co-leads of the International Partners Group (IPG)’s Vietnam Just Energy Transition Partnership (JETP), welcomed French President Emmanuel Macron’s visit to Vietnam, supporting renewable energy in the country.⁴¹²⁸ They also shared their support for the French Development Agency and six IPG Development Finance Institutions’ EUR547 million contribution for energy transition in Vietnam. This includes EUR480 million co-funded by the EIB, French Development Agency (AFD), Proparco, the Japan International Cooperation Agency, Germany’s KfW Development Bank and Italy’s Cassa Depositi e Prestiti for the construction of a 1200 megawatts Pumped Storage Hydropower project in Vietnam. The EU will also provide EUR10 million in technical assistance for the project, managed by the AFD. The project aims to increase the integration of renewable energy in Vietnam’s energy grid.

On 3 June 2025, the European Commission and EIB agreed to renew their Project Development Assistance agreement under the Innovation Fund to strengthen technical and financial advisory services for innovative decarbonisation projects that were not selected by the Fund or are still in the application process.⁴¹²⁹ The renewed agreement will increase funding for EIB Advisory from EUR24 million to EUR90 million, aiming to “further accelerate the deployment of cutting-edge decarbonisation technologies across Europe.”

On 5 June 2025, the European Commission and Bulgaria signed an agreement which allows EIB Advisory to help decarbonize Maritsa East Complex, one of Europe’s largest open-pit coal mines.⁴¹³⁰ The complex generates a maximum of 35 per cent of Bulgaria’s electricity. EIB Advisory will work in collaboration with Bulgaria to ensure that projects to promote renewable energy are implemented in a timely manner.

On 16 June 2025, the EIB pledged EUR1.6 billion in investments to support the construction of the Bay of Biscay electricity interconnection.⁴¹³¹ This project between Spain and France will boost the Iberian Peninsula’s interconnection capacity with the rest of continental Europe, supporting reliable, clean and affordable electricity.

On 25 June 2025, the European Commission implemented a new State aid framework which supports the Clean Industrial Deal (CISAF).⁴¹³² The CISAF helps Member States develop clean energy and technology, in line with EU state aid rules by simplifying the rules in the following five areas: renewable energy and low-carbon fuels, temporary electricity price relief, decarbonisation, clean tech manufacturing capacity and investment de-risking in clean energy and technology. This will be in effect until 31 December 2030.

On 2 July 2025, the European Commission proposed an amendment to the EU Climate Law, setting a target of 90 per cent reductions in net greenhouse gas emissions by 2040.⁴¹³³ The proposal includes new elements of past goals, including allowing up to 3 per cent of international carbon credits to meet their emissions goal.

⁴¹³³ EU’s Climate Law presents a new way to get to 2040, European Commission (Brussels) 2 July 2025. Access Date: 3 July 2025. https://ec.europa.eu/commission/presscorner/detail/en/ip_25_1687

On 3 July 2025, the European Commission and the EIB announced that EUR3.66 billion from the Modernisation Fund has been allocated to 34 energy related projects across nine EU Member States.⁴¹³⁴ To help these Member States meet their climate and energy targets, these investments will reduce the EU's imports of fossil fuels, reduce greenhouse gas emissions and improve energy efficiency.

On 3 July 2025, the European Union announced a EUR427,905 grant for an energy upgrade in the Czech Republic's Usti region, alongside a EUR1.7 million loan from the National Development Bank of the Czech Republic which is acting as an intermediary for the EIB.⁴¹³⁵ The project plans to increase the use of renewable energy sources within the Usti region and advance a low-carbon economy.

On 4 July 2025, the European Commission allocated EUR852 million in grants from the Innovation Fund for six electric vehicle battery cell manufacturing projects.⁴¹³⁶ The selected projects will accelerate Europe's green transition and the EU's battery manufacturing industry.

On 8 July 2025, the EIB allocated EUR150 million in loans will be allocated to several Croatian companies and public entities focused on climate action and sustainability.⁴¹³⁷ A minimum of 30 per cent of this funding will be allocated toward green investments such as renewable power, sustainable construction materials and clean transportation.

On 8 July 2025, the EIB stated allocated over EUR244 million in loans for energy and healthcare upgrades in Moldova.⁴¹³⁸ EUR143.5 million will be allocated to upgrading Chisinau's district heating system, while the remaining will be used for healthcare purposes. The system upgrade is set to reduce energy consumption by 25 per cent, reducing greenhouse gas emissions and lower heating bills.

On 8 July 2025, the European Commission issued informal guidance confirming that a sustainability agreement among port terminal operators for joint purchasing and common technical specifications for battery electric container handling equipment can be compatible with EU competition rules.⁴¹³⁹ The guidance is intended to speed the shift from diesel to electric equipment in European ports, reduce carbon dioxide emissions, and provide clarity on safeguards including caps on pooled demand, voluntary participation, and strict limits on sensitive information exchange.

On 10 July 2025, the EIB Group and the European Commission committed almost EUR600 million to support Ukraine, including EUR120 million to restore major hydropower plants, EUR100 million for municipal district heating via Ukrainian banks, EUR134 million to repair roads, bridges and border crossings and new loans and EU guarantee to expand credit for small and medium sized enterprises.⁴¹⁴⁰ 10 EU Member States also joined

⁴¹⁴⁰ EU expands support for Ukraine with new financing of almost €600 million for energy, transport and business resilience, European Investment Bank (Luxembourg) 10 July 2025. Access Date: 30 August 2025. <https://www.eib.org/en/press/all/2025-282-eu-expands-support-for-ukraine-with-new-financing-of-almost-eur600-million-for-energy-transport-and-business-resilience>

the InvestEU Ukraine Export Credit Pilot to back exports to Ukraine, and the Ukraine FIRST project preparation programme was launched to speed well prepared investments.

On 11 July 2025, the EIB and the Institut Català de Finances signed a EUR100 million loan to expand finance for small and medium sized enterprises investing in sustainability and climate change adaptation and mitigation in Catalonia.⁴¹⁴¹ This is the first tranche of an approved EUR200 million facility and will support projects in renewable energy, energy efficiency, electric vehicles, the circular economy and efficient and sustainable waste management.

On 22 July 2025, the European Union and Japan affirmed a joint commitment to accelerate a global and just green transition, contribute to a successful COP30, and deepen cooperation on energy on multiple pathways toward net zero.⁴¹⁴² They agreed to strengthen and diversify critical minerals supply chains, promote and protect critical and emerging technologies, and launched the EU-Japan Competitiveness Alliance to enhance joint competitiveness. The statement also recognises the triple planetary crisis of climate change, biodiversity loss and pollution and reaffirms cooperation under the EU-Japan Green Alliance.

On 22 July 2025, the European Climate, Infrastructure and Environment Executive Agency confirmed six additional Innovation Fund projects from the 2023 general call reserve list, awarding nearly EUR319 million in grants financed by the EU Emissions Trading System.⁴¹⁴³ The projects in hydrogen, hydro and ocean energy, energy storage, and refineries and chemicals aim to avoid 24.1 million tonnes of carbon dioxide equivalent in their first ten years and include the first Innovation Fund project in Luxembourg. This commitment advances the Net Zero Industry Act and the Clean Industrial Deal and supports Europe's transition to climate neutrality.

On 23 July 2025, the European Union and China issued a joint press statement on climate at the EU-China Summit in Beijing, committing to uphold the United Nations Framework Convention on Climate Change and the Paris Agreement, submit 2035 nationally determined contributions before COP30 that cover all sectors and gases, accelerate global renewable energy deployment and access to green technologies, strengthen adaptation support, and deepen bilateral cooperation on energy transition, methane emissions management, carbon markets and green and low carbon technologies.⁴¹⁴⁴

On 24 July 2025, the EIB and Eni signed a EUR500 million 15-year finance agreement to convert the Livorno refinery in Tuscany into a biorefinery that will include a biogenic pre-treatment unit and a 500,000 tonne per year Ecofining plant to produce hydrotreated vegetable oil (HVO) diesel, HVO naphtha, and bio-liquid petroleum gas, with future flexibility to produce sustainable aviation fuel.⁴¹⁴⁵ The project supports decarbonisation of the transport sector and Italy's targets for pure biofuels.

On 28 July 2025, the European Commission approved a EUR36 million Danish State aid scheme to boost the use of sustainable aviation fuel on domestic flights, marking the first sustainable aviation fuel (SAF) scheme

cleared under EU State aid rules.⁴¹⁴⁶ The measure which will run until 31 December 2027 provides monthly direct grants set by competitive bidding to cover the price gap with kerosene and related airport infrastructure costs. It aims to support at least one domestic route using 40 per cent SAF and at least twenty weekly one-way operations and includes safeguards to prevent overcompensation.

On 28 July 2025, the EIB approved up to EUR264 million for Snam to integrate biomethane into Italy's gas network, with a first tranche of EUR140 million allocated that day. The project will build 240 kilometres of dedicated pipelines to connect biomethane plants to the national transmission system, enabling transport of up to 12,000 gigawatt hours per year, equal to about 1.13 billion cubic metres.⁴¹⁴⁷ The financing aligns with the EU taxonomy and supports the National Recovery and Resilience Plan and REPowerEU by cutting reliance on imported fossil gas and advancing the clean energy transition.

On 29 July 2025, the European Commission endorsed a positive preliminary assessment of Czechia's fourth payment request for EUR1.83 billion under the Recovery and Resilience Facility, moving forward with disbursements that support reforms and investments in the country's Recovery and Resilience Plan and advance the EU's green and digital transition.⁴¹⁴⁸

On 1 August 2025, the EIB, the European Bank for Reconstruction and Development and SEB committed almost EUR85 million to Sunly to build four solar parks in Latvia with 329 megawatts of capacity, enough to power up to 180,000 households.⁴¹⁴⁹ The package includes EUR35.2 million from the EIB, EUR35.2 million from the EBRD, and EUR14.4 million from SEB, with projects due by early 2027 in Valmiera, Krāslava, Madona, and Saldus municipalities. The investment accelerates Latvia's clean power deployment, strengthens energy security and supports decarbonisation.

On 6 August 2025, the Directorate-General for Energy of the European Union launched an open public consultation on the 2026 Strategic Roadmap for digitalisation and artificial intelligence, stressing that green and digital transitions should complement each other.⁴¹⁵⁰ There is also an emphasis on preparing the EU's energy system for the impacts of increasingly heavy energy consumption of data centres.

On 7 August 2025, the European Commission disbursed EUR42.8 billion to five Member States under the Recovery and Resilience Facility, with Spain receiving EUR23.1 billion as its fifth payment and additional disbursements to Italy, Portugal, Cyprus and Malta to support reforms and green and digital investments.⁴¹⁵¹

On 21 August 2025, the European Union confirmed it will continue its investment in Türkiye's transition to green energy, with the aim of achieving net zero emissions by 2023.⁴¹⁵² These investments will be made in the form of Instrument for Pre-Accession Assistance funds, supporting Türkiye to expand its electric charging networks, establish green public transport and increase renewable energy.

⁴¹⁴⁶ Commission approves €36 million Danish State aid scheme to boost use of sustainable aviation fuel, European Commission (Brussels) 29 July 2025. Access Date: 30 August 2025. https://ec.europa.eu/commission/presscorner/detail/en/ip_25_1928

On 5 September 2025, the EIB and EDF signed a EUR500 million financing contract to support the modernization and resilience of the public electricity grid managed by Enedis in France.⁴¹⁵³ The funding will allow Enedis to strengthen the network against climate change impacts and connect decentralised renewable energy sources. The financing will partially fund the connection of seven gigawatts of renewable generation capacity and the burying or replacement of 2,500 kilometres of power lines to enhance grid resilience.

On 8 September 2025, the EIB committed EUR17.5 million to Joltie, a Greek electric vehicle charging operator to expand its public charging network in Greece and Cyprus.⁴¹⁵⁴ The fund will support the installation of around 2,200 new charging points by 2029. The project accelerates the deployment of sustainable mobility infrastructure, contributes to EU climate goals and reduces greenhouse gas emissions and strengthens economic cohesion in Southeast Europe.

On 11 September 2025, the EIB Group committed EUR17.5 billion to support energy efficiency improvements by more than 350,000 small and medium-sized enterprises across Europe over the next three years.⁴¹⁵⁵ The programme also teams up with the Solar Impulse Foundation to promote energy efficiency as a service, enabling SMEs to adopt energy-saving technologies without upfront costs. The initiative aims to reduce energy bills, strengthen business competitiveness and accelerate Europe's green transition.

On 16 September 2025, the European Commission announced over EUR318 million in funding under Horizon Europe to support new energy research projects across the EU.⁴¹⁵⁶ This program aims to accelerate the twin green and digital transitions, enhance energy security and increase the competitiveness of European economies while advancing climate neutrality by 2050.

On 22 September 2025, the European Commission awarded EUR76.3 million in funding to three cross-border renewable energy projects under the CEF Energy programme.⁴¹⁵⁷ The package includes over EUR18.7 million for the Unified Network for Innovative Transition in Energy Decarbonisation of Heating connecting Zgorzelec (Poland) and Görlitz (Germany), EUR32.5 million for the ULP-RES Wind Park spanning Estonia and Latvia and EUR25 million for pre-construction studies of the Saare-Liivi Offshore Wind Park in Estonia. The projects will enhance cross-border cooperation, expand renewable energy deployment and support the EU's energy and climate goals.

On 23 September 2025, the EIB provided EUR25 million to Tecnocap to finance sustainable investments aimed at improving energy efficiency and developing renewable energy self-generation at industrial plants primarily in Italy and also in Czech Republic.⁴¹⁵⁸ The funding will support projects primarily at Tecnocap's

⁴¹⁵⁸ Italy: EIB provides €25 million to finance Tecnocap's sustainable investments, European Investment Bank (Luxembourg) 23 September 2025. Access Date: 22 October 2025. <https://www.eib.org/en/press/all/2025-341-eib-provides-eur25-million-to-finance-tecnocap-s-sustainable-investments>

plants in Italy, including the installation of state-of-the-art photovoltaic systems, while enhancing competitiveness and accelerating the company's transition toward a low-carbon production model.

On 24 September 2025, La Banque Postale and the European Investment Bank committed an initial EUR100 million to finance energy-efficient renovations of social housing and public buildings in France, as part of a broader EUR300 million package.⁴¹⁵⁹ The financing supports social landlords, local public enterprises, associations and healthcare stakeholders to renovate nearly 1.8 million energy-inefficient social housing units and public buildings to meet France's climate and resilience law and RE2020 environmental standards.

On 26 September 2025, European Commission President Ursula von der Leyen announced a EUR545 million Team Europe package to accelerate Africa's clean energy transition.⁴¹⁶⁰ The package, part of the 'Scaling Up Renewables in Africa' campaign with South African President Cyril Ramaphosa, funds projects across Côte d'Ivoire, Cameroon, Republic of Congo, Lesotho, Ghana, Central Africa, Madagascar, Mozambique and Somalia. Investments support transmission lines, rural electrification, renewable generation and technical assistance, strengthening Africa's energy security, creating green jobs and advancing the continent's clean energy transition.

On 1 October 2025, the EIB signed EUR25.9 million in green financing with Iberdrola to develop the 22.5 MW Gatza wind farm in central Greece.⁴¹⁶¹ The package contains a EUR10 million loan from EIB and EUR15.9 million from the European Union's Recovery and Resilience Fund. Once operational, Iberdrola will reach a total installed capacity of 443.5 megawatts in Greece, establishing itself as one of Greece's largest wind energy farms.

On 1 October 2025, the EIB and Intesa Sanpaolo loaned EUR750 million to support the development of renewable energy in Italy.⁴¹⁶² The fund includes a EUR500 million framework loan to support photovoltaic, wind and bioenergy projects with an expected annual production of around 1,200 gigawatt hours. The package also includes a EUR250 million counter-guarantee as part of the EIB Wind Package to generate new investments in the European wind industry. The agreements are expected to mobilise more than EUR4.5 billion of investment in the economy, create thousands of jobs during construction and strengthen Italy's energy security.

On 7 October 2025, the EIB loaned EUR200 million to Dolomiti Energia Group to support renewable energy production and strengthen power grids in Italy.⁴¹⁶³ The package allocates 55 per cent of funding to new onshore wind farms in Campania and Puglia and 45 per cent to the establishment and renewal of the electricity network in Trentino. The wind farms will have a total installed capacity of 121 megawatts, enough to meet the annual energy needs of over 100,000 households.

⁴¹⁵⁹ France: La Banque Postale and EIB join forces to accelerate energy renovation of social housing and public buildings, European Investment Bank (Luxembourg) 24 September 2025. On 7 October 2025, the EIB committed USD250 million to Costa Rica to build the country's first electric train system.⁴¹⁶⁴ The project is co-financed with the Central American Bank for Economic Integration and the Green Climate Fund and will be implemented by Costa Rica's national railway authority. The investment improves public transport access, supports sustainable mobility, reduces 18,000 tonnes of carbon emissions annually and strengthens Costa Rica's climate commitments.

On 8 October 2025, the EIB secured a EUR40 million loan to advance the Navigator Company's decarbonisation efforts and support its pioneering moulded fibre packaging facility in Aveiro.⁴¹⁶⁵ The funding will introduce low-carbon production methods and create biobased alternatives to fossil-based plastics, while boosting energy efficiency and cutting greenhouse gas emissions across Navigator's pulp, paper and packaging operations in Portugal. The loan is supported by the InvestEU programme and reflects the EIB's strategic goals for climate action, the bioeconomy and the REPowerEU initiative to reduce reliance on fossil fuel imports.

On 8 October 2025, European Commission President Ursula von der Leyen announced a EUR618 million Team Europe package to accelerate Africa's clean energy transition at the Global Gateway Forum in Brussels.⁴¹⁶⁶ The package includes EUR55 million for Kenya, EUR60 million for Uganda, EUR90.14 million for the Democratic Republic of Congo, EUR125 million for Mauritania, EUR20 million for Nigeria, EUR39 million for Cabo Verde, EUR30 million for the Zambia-Tanzania interconnector and EUR199 million for Togo. The investments will expand renewable energy access, modernize power grids, create jobs and strengthen climate resilience across the continent.

On 9 October 2025, the European Commission and Team Europe committed EUR430 million to Vietnam to advance the Bac Ai Pumped Hydro Storage Project, a key investment under Vietnam's Just Energy Transition Partnership.⁴¹⁶⁷ The package brings together the European Union, EIB, French Development Agency, Proparco, Germany's KfW and Italy's CDP to enhance grid stability, integrate renewable energy at scale and support Vietnam's decarbonization goals.

On 15 October 2025, EIB Global signed a Memorandum of Understanding with the government of Mongolia to advance the country's green transition and diversify its energy mix.⁴¹⁶⁸ Up to EUR1 billion in investments will be dedicated towards supporting modern power networks, sustainable transport and other projects which will benefit the country's green transition. This investment will support new investments in clean, affordable and reliable energy for Mongolians and their businesses.

On 16 October 2025, the European Commission and the High Representative presented the new EU global climate and energy vision, reaffirming the EU's commitment to fulfil the goals of the Paris Agreement while implementing the Clean Industrial Deal.⁴¹⁶⁹ The vision describes a series of strategic actions for global energy

⁴¹⁶⁴ EIB Global backs Costa Rica's first electric train with landmark \$250 million loan, European Investment Bank (Luxembourg) 7 October 2025. ⁴¹⁶⁵ Portugal: EIB and Navigator sign a €40 million loan to support company investments towards carbon neutrality, European Investment Bank (Luxembourg) 8 October 2025. Access Date: 22 October 2025. <https://www.eib.org/en/press/all/2025-372-eib-and-navigator-sign-a-eur40-million-loan-to-support-company-investments-towards-carbon-neutrality>

⁴¹⁶⁶ President von der Leyen announces €618 million package to scale up renewables in Africa at Global Gateway Forum, European Commission (Brussels) 8 October 2025. Access Date: 22 October 2025. https://ec.europa.eu/commission/presscorner/detail/en/ip_25_2335

⁴¹⁶⁷ EU reinforces support for Vietnam's Just Energy Transition with €430 million package, European Investment Bank (Brussels) 9 October 2025. Access Date: 22 October 2025. <https://www.eib.org/en/press/all/2025-377-eu-reinforces-support-for-vietnam-s-just-energy-transition-with-eur430-million-package>

⁴¹⁶⁸ EIB Global signs memorandum of understanding with Mongolia to unlock up to €1 billion for clean energy transition, European Investment Bank (Luxembourg) 15 October 2025. Access Date: 11 November 2025. <https://www.eib.org/en/press/all/2025-387-eib-global-signs-memorandum-of-understanding-with-mongolia-to-unlock-up-to-eur1-billion-for-clean-energy-transition>

⁴¹⁶⁹ EU's new strategy to shape a global clean and resilient transition, European Commission (Brussels) 16 October 2025. Access Date: 17 October 2025. https://ec.europa.eu/commission/presscorner/detail/en/ip_25_2389

and climate engagement, including reforming global financial institutions, injecting political momentum into multilateral and bilateral initiatives and expanding clean trade global networks.

On 23 October 2025, the EIB announced EUR40 million in venture debt financing to Meva Energy AB, a cleantech company based in Sweden.⁴¹⁷⁰ This funding will support Meva Energy to deploy and upgrade its modular, climate-neutral biogas plants across Europe, support the EU's climate and energy goals and advance next-generation bioeconomy technologies.

On 2 November 2025, the European Commission announced EUR2.9 billion in funding from the Innovation Fund will be dedicated to boosting "61 cutting-edge net zero technology projects".⁴¹⁷¹ Projects chosen will cover 19 industrial sectors across 18 countries and demonstrate the EU's commitment to decarbonization through diverse technologies and applications. Key areas include "energy-intensive industries, renewable energy and energy storage, net-zero mobility and buildings, cleantech manufacturing and industrial carbon management."

On 3 November 2025, the EIB and Iberdrola signed a EUR500 million green loan dedicated towards the Windanker offshore wind farm, a clean energy project in the German Baltic Sea.⁴¹⁷² Backed by Cesce, a Spanish export credit agency, this loan contributes to the European Union's climate action and sustainability goals. This project will produce clean energy for thousands of homes, accelerate energy security and electrification and foster new jobs and economic opportunities.

On 4 November 2025, the European Climate, Infrastructure and Environment Executive Agency (CINEA) announced "a call for proposals for cross-border renewable energy projects" and has dedicated EUR150 million towards these projects.⁴¹⁷³ Through this call, the CINEA aims to support projects that enhance cross-border renewable energy generation and improve the integration of renewables into the EU energy system.

The European Union has fully complied with its commitment to recognize the need for deep, rapid and sustained reductions in greenhouse gas emissions in line with 1.5°C pathways. The EU has taken strong action to reduce greenhouse gas emissions in the energy, buildings, industry, agriculture and transport sectors through funding for renewable energy projects in Indonesia, Finland and Estonia, industrial decarbonization projects in Germany, Spain and the Netherlands, the net zero transition in the transportation sector including vehicles and vessels and renewable energy for the building sector in Latvia and Lithuania. The EU has also invested in biomethane plants to reduce methane emissions.

Thus, the European Union receives a score of +1.

Background

Like other climate change and climate-related issues, disaster risk reduction has steadily gained traction on the G20 agenda, reflecting the growing frequency and severity of climate-related catastrophes, as well as their disproportionate impact on disadvantaged communities. As climate change increases the dangers of extreme weather events, the G20 has gradually integrated disaster risk reduction into its commitments, stressing resilience, preparedness and risk management as essential components of sustainable development.

At the 2016 Hangzhou Summit, G20 leaders acknowledged disaster risk reduction as a component of a larger sustainability agenda, tying it to critical sectors such as women’s empowerment, education, information and communication technology, agriculture and food security and nutrition.⁴¹⁷⁴ This was a first step towards incorporating disaster risk reduction considerations into different policy discussions within the G20 framework.

At the 2017 Hamburg Summit, G20 leaders reiterated their commitment to disaster risk reduction by aligning their strategy with international frameworks, specifically the Sendai Framework for Disaster Risk Reduction.⁴¹⁷⁵ They stressed the necessity of integrated risk financing and insurance solutions in improving financial resilience

⁴¹⁷⁴ G20 Action Plan on the 2030 Agenda for Sustainable Development, G20 Information Centre (Toronto) 5 September 2016. Access Date: 11 February 2024. <https://www.g20.utoronto.ca/2016/g20-action-plan-on-2030-agenda.pdf>

⁴¹⁷⁵ G20 Hamburg Climate and Energy Action Plan for Growth, G20 Information Centre (Toronto) 8 July 2017. Access Date: 29 March 2025. <https://www.g20.utoronto.ca/2017/2017-g20-climate-and-energy.html>

to natural catastrophes. G20 leaders also discussed the importance of regional disaster risk pools, such as the African Risk Capacity, the Caribbean Catastrophe Risk Insurance Facility and the Pacific Catastrophe Risk Insurance Company, in addressing protection gaps in vulnerable regions, particularly Asia and Africa.

At the 2019 Osaka Summit, disaster risk reduction was further incorporated into discussions about financial resilience, with a significant emphasis on disaster risk finance and insurance schemes as methods to buffer economic shocks induced by natural disasters.⁴¹⁷⁶ G20 leaders agreed that building financial resilience to catastrophes was vital to ensuring financial stability, encouraging human capital investment and advancing the Sustainable Development Goals (SDGs).

At the 2021 Rome Summit, G20 leaders broadened the scope of catastrophe risk reduction to include nature-based solutions and ecosystem-based adaptation techniques.⁴¹⁷⁷ They emphasized the need of sustainable urban development and environmental protection in catastrophe risk reduction. G20 leaders acknowledged the importance of natural infrastructure, such as mangroves, wetlands, forested catchments and urban green spaces in increasing climate resilience and lowering catastrophe susceptibility. These commitments marked a transition from reactive catastrophe response to proactive risk reduction and long-term resilience-building measures.

At the 2022 Bali Summit, G20 leaders reaffirmed their commitment to enhancing disaster risk reduction through integrated climate action and sustainable development efforts.⁴¹⁷⁸ Recognizing the escalating frequency and intensity of climate-induced disasters, they emphasized the critical importance of disaster preparedness, early warning systems and climate adaptation strategies, particularly for vulnerable communities. They highlighted the role of nature-based solutions and ecosystem-based approaches, including the preservation and restoration of mangroves, peatlands and forests, as essential tools for building climate resilience and reducing disaster risks. Leaders also underscored the importance of mobilizing public and private investments to strengthen climate-resilient infrastructure and promote sustainable land use practices with a focus on protecting biodiversity and enhancing ecosystem services.

At the 2023 New Delhi Summit, G20 leaders prioritized disaster risk reduction by formally creating the G20 Disaster Risk Reduction Working Group to embed risk management into global economic planning.⁴¹⁷⁹ They highlighted the need for full implementation of the Sendai Framework for Disaster Risk Reduction, focusing on multi-hazard early warning systems, local response capacity building and climate-resilient infrastructure. G20 leaders also supported expanding risk pooling mechanisms like the Caribbean Catastrophe Risk Insurance Facility and encouraged private sector involvement in catastrophe bonds and other innovative financing tools. They also endorsed enhanced cooperation through the Coalition for Disaster Resilient Infrastructure to promote climate-adaptive infrastructure and knowledge sharing, particularly for developing countries, least developed countries and small island developing states.

At the 2024 Rio de Janeiro Summit, G20 leaders underscored their commitment to enhancing global disaster risk reduction by aligning their efforts with the Sendai Framework for Disaster Risk Reduction and emphasizing the importance of international cooperation in strengthening climate resilience.⁴¹⁸⁰ Leaders highlighted the disproportionate impacts of disasters on vulnerable populations like low-income communities and stressed the need for investment in resilient infrastructure, early warning systems and adaptive social protection programs. The leaders also highlighted the role of nature-based solutions, including the restoration and protection of

⁴¹⁷⁶ G20 Osaka Leaders' Declaration, G20 Information Centre (Toronto) 29 June 2019. Access Date: 4 March 2025.

⁴¹⁷⁹ G20 New Delhi Leaders' Declaration, G20 Information Centre (Toronto) 9 September 2023. Access Date: 4 March 2025. <https://www.g20.utoronto.ca/2023/230909-declaration.html>

⁴¹⁸⁰ G20 Rio de Janeiro Leaders' Declaration, G20 Information Centre (Toronto) 18 November 2024. Access Date: 4 March 2025. <https://www.g20.utoronto.ca/2024/241118-declaration.html>

forests, wetlands and coastal ecosystems, in reducing disaster risks while contributing to climate mitigation and biodiversity conservation.

Commitment Features

This commitment requires G20 members to accelerate international cooperation for disaster risk reduction in line with the Sendai Framework for Disaster Risk Reduction, specifically with regard to its priorities of understanding disaster risk, strengthening disaster risk governance, investing in disaster risk reduction for resilience and enhancing disaster preparedness for effective response and building back better in recovery, rehabilitation and reconstruction. It also requires G20 members to engage in international cooperative action.

Definitions and Concepts

“Disaster Risk Reduction” refers to policies, strategies and practices designed to prevent new disaster risks, reduce existing ones and manage residual risks to minimize disaster losses.⁴¹⁸¹ It emphasizes proactive measures like risk assessment, mitigation and preparedness to strengthen resilience and protect sustainable development gains. Disaster Risk Reduction plays a key role in safeguarding development progress and achieving the SDGs, aligning with global frameworks such as the Sendai Framework for Disaster Risk Reduction.

“The Sendai Framework” for Disaster Risk Reduction 2015-2030 was adopted on 18 March 2015 at the third UN World Conference on Disaster Risk Reduction.⁴¹⁸² The framework represents a paradigm shift from disaster response to proactive disaster risk management, emphasizing the need to integrate risk reduction into socioeconomic policies, urban planning, environmental management and resilience-building initiatives.

The framework outlines seven global targets to be achieved by 2030:

- (a) “Substantially reduce global disaster mortality by 2030, aiming to lower the average per 100,000 global mortality rate in the decade 2020–2030 compared to the period 2005–2015;
- (b) Substantially reduce the number of affected people globally by 2030, aiming to lower the average global figure per 100,000 in the decade 2020–2030 compared to the period 2005–2015;
- (c) Reduce direct disaster economic loss in relation to global gross domestic product (GDP) by 2030;
- (d) Substantially reduce disaster damage to critical infrastructure and disruption of basic services, among them health and educational facilities, including through developing their resilience by 2030;
- (e) Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020;
- (f) Substantially enhance international cooperation to developing countries through adequate and sustainable support to complement their national actions for implementation of the present Framework by 2030;
- (g) Substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to people by 2030.”⁴¹⁸³

To achieve these targets, the Sendai Framework sets out four priorities for action:

1. Understanding disaster risk

⁴¹⁸¹ Disaster Risk Reduction (DRR), United Nations Economic and Social Commission for Western Asia (Beirut) 18 March 2015. Access Date: 4 March 2025. <https://www.unescwa.org/sd-glossary/disaster-risk-reduction-drr>

⁴¹⁸² Sendai Framework for Disaster Risk Reduction 2015 - 2030, United Nations Office for Disaster Risk Reduction (Geneva) 18 March 2015. Access Date: 4 March 2025. <https://knowledge.aidr.org.au/resources/sendai-framework>

⁴¹⁸³ Sendai Framework for Disaster Risk Reduction 2015 - 2030, United Nations Office for Disaster Risk Reduction (Geneva) 18 March 2015. Access Date: 4 March 2025. <https://www.undrr.org/media/16176/download?startDownload=20250329>

2. Strengthening disaster risk governance to manage disaster risk
3. Investing in disaster risk reduction for resilience
4. Enhancing disaster preparedness for effective response and “Build Back Better” in recovery, rehabilitation and reconstruction.⁴¹⁸⁴

General Interpretive Guidelines

Full compliance, or a score of +1, will be given to a G20 member that takes strong action on at least three of the Sendai Framework’s priorities for action and to accelerate international cooperation for disaster risk reduction. Examples of strong actions include the adoption or expansion of national disaster risk reduction strategies, investing in multi-hazard preparedness, resilience building and adaptive infrastructure development, establishing community centres to promote public awareness of disaster risks, strengthening public-private partnerships to build resilient infrastructure, assessing national disaster risk capacities and incorporating disaster risk knowledge in education. Actions that satisfy international cooperation include bilateral or multilateral scientific partnerships to establish and share good practices internationally, establishing global user-friendly systems to access disaster risk reduction policies, plans and measures, contributing to the Global Platform for Disaster Risk Reduction and strengthening regional efforts for effective disaster response and recovery for multinational disasters.

Partial compliance, or a score of 0, will be assigned to a G20 member that takes strong action in at least two of the four priorities of the Sendai Framework, takes weak action in at least three priorities or fails to take international cooperative action. Weak actions include verbal reaffirmations recognizing the importance of the Sendai Framework, participating in bilateral talks where the topic is discussed or assigning disaster risk reduction as a priority to a government ministry.

Non-compliance, or a score of –1, will be assigned to a G20 member that fails to take action towards the commitment, takes weak action on only one or two priority areas of the Sendai Framework, or takes action that is directly and explicitly antithetical to the commitment. This includes countries where disaster risk reduction policies remain unchanged or underfunded, where no new efforts to align with the Sendai Framework are initiated, or where existing disaster risk reduction strategies are weakened or dismantled.

Scoring Guidelines

–1	The G20 member has not taken action to accelerate international disaster risk reduction cooperation in line with the four priorities of the Sendai Framework for Disaster Risk Reduction, has only taken weak action in one or two of the priorities, or has taken action that is directly and explicitly antithetical to the commitment.
0	The G20 member has taken strong action on two of the Sendai Framework’s four priorities, has taken weak action on at least three of the priorities, or has taken strong action but has failed to take international cooperative action.
+1	The G20 member has taken strong action on at least three of the Sendai Framework’s four priorities and has taken strong international action towards the commitment.

*Compliance Director: James Wang
Lead Analyst: Mehek Berry*

Argentina: 0

Argentina has partially complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

⁴¹⁸⁴ Sendai Framework for Disaster Risk Reduction 2015 - 2030, United Nations Office for Disaster Risk Reduction (Geneva) 18 March 2015. Access Date: 4 March 2025. <https://www.undrr.org/media/16176/download?startDownload=20250329>

On 23 December 2024, the Ministry of Security approved the Vulnerable Downstream Communities project.⁴¹⁸⁵ The project will strengthen the capabilities of agencies responsible for communities downstream from the Florentino Ameghino Dam in Chubut Province to improve their response in the event of any emergencies involving the dam.⁴¹⁸⁶

On 27 December 2024, President Javier Milei amended the Law of Ministries No. 22,520 to transfer jurisdiction over fire management from the Undersecretariat of the Environment to the Ministry of Security.⁴¹⁸⁷ The government maintains that this amendment will improve disaster response capabilities despite the ministry's non-environmental focus, citing the Ministry's capabilities in risk management.⁴¹⁸⁸

On 28 February 2025, Director of Disaster Prevention Matías Mink met with National Institute of Statistics and Census Director Marco Lavagna to integrate updated population data into the National Emergency Alert and Monitoring System.⁴¹⁸⁹ The updated data grants the government improved decision-making capabilities for dealing with disaster prevention and response.

On 28 February 2025, the Ministry of Human Capital terminated approximately 2000 employees, including teams focused on disaster and emergency relief.⁴¹⁹⁰ This action is directly and explicitly antithetical to the commitment as it hinders Argentina's ability to respond to natural disasters, coordinate an effective response to them and subsequently support the recovery of areas affected.

On 5 March 2025, Argentina attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴¹⁹¹ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 20 March 2025, President Milei issued a decree creating the Federal Emergency Agency under the Ministry of National Security.⁴¹⁹² The new agency will consolidate and coordinate disaster response resources to strengthen the preparation and response to natural disasters.

On 9 May 2025, the Ministry of National Security began transferring the Single Reconstruction Supplement to 25,000 residents in Bahía Blanca, paying ARS2-3 million per household, based on high- and medium-impact

zones.⁴¹⁹³ This action aims to strengthen post-disaster recovery capacity, standardize loss assessment and improve coordination mechanisms for future hazard events.

On 12 May 2025, the Ministry of National Security launched a Local Strengthening Program for Comprehensive Disaster Risk Management in El Hoyo, Chubut, in coordination with the Federal Emergency Agency.⁴¹⁹⁴ The initiative included inter-agency field exercises, technical workshops and the delivery of firefighting equipment to the Southern Brigade of the National Fire Management Service. These efforts enhance local response systems and improve multi-level coordination for future hazard scenarios.

On 15 May 2025, the Ministry of National Security held the Federal Council of the Federal Emergency Agency, which included officials from the security forces and firefighter systems, experts and scientists and representatives from throughout the country.⁴¹⁹⁵ The meeting saw the creation of the Federal Council for Comprehensive Risk Management and the Federal Fire Management Council. This meeting enabled a greater understanding by governmental officials on disaster and emergency risk and will also allow the country more effective governance for disaster risk mitigation.

On 3 June 2025, the Ministry of National Security issued Resolution 665 to restructure the national registry and coordination framework for non-governmental organizations involved in disaster risk management.⁴¹⁹⁶ The measure established updated registration requirements, a national activation protocol, mandatory training and annual reporting standards for participating organizations. By clarifying roles and standardizing procedures, the resolution enhances coordination between government and civil society actors during emergencies.

On 13 June 2025, the Federal Emergency Agency concluded their two-week-long series of training sessions to strengthen the country's forest fire prevention and fighting capabilities.⁴¹⁹⁷ This training sessions instructed 100 agents on different aspects of dealing with forest fires, such as the use of specialized equipment like aircraft and chainsaws, allowing emergency services to more effectively respond to forest fires.

On 23 June 2025, the Federal Emergency Agency launched its Winter Plan by convening federal security forces, armed forces and federal agencies to coordinate emergency support for provinces facing severe winter conditions.⁴¹⁹⁸ The plan establishes a multi-agency framework for joint action, enhancing readiness and logistical coordination ahead of seasonal hazards.

On 24 June 2025, President Milei vetoed Decree 238/2025 establishing a special disaster assistance regime in response to floods in Bahía Blanca.⁴¹⁹⁹ The decree was intended to create an assistance fund of up to ARS200

billion and introduced the “Single Supplement for Reconstruction” a one-time subsidy for affected households aimed at supporting the reconstruction and recovery of material assets.⁴²⁰⁰ As such, this action is antithetical to the commitment.

On 27 June 2025, the Federal Emergency Agency concluded a week-long Local Strengthening Program in Apóstoles, Misiones, with field exercises and inter-agency drills involving security forces, civil protection and local responders.⁴²⁰¹ The program also introduced a new provincial radio and telecommunications contingency plan and delivered donated firefighting equipment to the Northern Brigade.

On 4 July 2025, the Federal Emergency Agency completed a national fire management training campaign that reached over 150 agents through courses on aerial operations, motor pump use and fire behavior analysis.⁴²⁰² Conducted across multiple provinces, the program emphasized standardized field procedures and interjurisdictional coordination.

On 23 July 2025, President Milei issued a decree creating a ARS10 billion fund to aid municipalities of the Buenos Aires province affected by storms in May.⁴²⁰³ The fund will help affected residents in the region cover material damages to their property.

On 31 July 2025, the Federal Emergency Agency conducted fire management training for over 280 agents across the country, with courses meant to improve firefighting and fire prevention and mitigation capabilities.⁴²⁰⁴ This meeting develops regional fire management capabilities, particularly in climate change-induced forest fires.

On 11 August 2025, the Federal Emergency Agency held its first national congress with all key stakeholders in the national emergency response system.⁴²⁰⁵ The meeting grants the Federal Emergency Agency further coordination with other government functions, allowing the agency improved emergency response and risk reduction capacity.

On 1 October 2025, the Federal Emergency Agency and provincial representatives held a meeting for the Patagonia Regional Council.⁴²⁰⁶ The meeting addressed provincial forest fire prevention and response capabilities, along with coordination of firefighting forces.

On 7 October 2025, the Federal Emergency Agency conducted the first virtual simulation exercise for the Emergency Operations Center.⁴²⁰⁷ The exercise gave the Center hands-on experience in dealing with storms, extreme temperatures, floods, chemical spills and earthquakes, allowing for improved response capabilities in real disaster situations.

Argentina has partially complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Argentina has taken strong action to strengthen disaster risk governance by creating the Federal Emergency Agency to coordinate national disaster response capabilities, restructuring non-governmental organizations coordination and establishing new councils for disaster and fire management. It has also taken strong action to enhance disaster preparedness for effective response and “Build Back Better” in recovery, rehabilitation and reconstruction through local strengthening programs, targeted post-disaster assistance and federal training campaigns. However, Argentina has not taken significant steps to invest in disaster risk reduction for resilience or understand disaster risk and has failed to take strong international cooperative action in line with the Sendai Framework. Argentina has also taken action that is directly and explicitly antithetical to the commitment through the country’s reallocation of disaster response management to non-environmental parts of government and the firing of workers focused on disaster and emergency relief.

Thus, Argentina receives a score of 0.⁴²⁰⁸

Analyst: Zach Pederal

Australia: +1

Australia has fully complied with its commitment to accelerate international disaster risk reduction cooperation in accordance with the Sendai Framework for Disaster Risk Reduction.

On 29 November 2024, Defence Australia supported the Solomon Islands National Disaster Management Office (NDMO) with training to strengthen disaster response during high-risk weather.⁴²⁰⁹ Defence Australia members trained personnel from NDMO, the National Emergency Response Team, Correctional Service of Solomon Islands, Ministry of Health, United Nations Development Programme, Solomon Power and Solomon Water on equipment use for conducting Initial Situation Overviews, logistics management and maintenance.

On 2 December 2024, Minister for Emergency Management Jenny McAllister announced an additional AUD90 million in federal funding for the Resilient Homes Program, raising the program’s total to AUD880 million.⁴²¹⁰ The initiative enables property buybacks, retrofits and relocations for households in high-risk flood zones, aiming to reduce future disaster impacts through targeted, long-term risk reduction.

On 2 December 2024, the Australia-Indonesia Partnership on Disaster Risk Management began a four-day Garda SIAGA Policy Bootcamp in Jakarta to strengthen disaster risk management and climate change

⁴²¹⁰ Northern Rivers resilient homes program boosted to \$880 million, Senator the Hon Jenny McAllister (Canberra) 2 December 2024. Access Date: 24 July 2025. <https://minister.homeaffairs.gov.au/JennyMcAllister/Pages/northern-rivers-resilient-homes-program-boosted-to-880-million.aspx>

adaptation policies.⁴²¹¹ The event featured expert discussions, peer learning and planning, equipping national and local government agencies and local think tanks with tools and networks to advance inclusive disaster resilience that prioritizes vulnerable groups such as women, people with disabilities and Indigenous communities.

On 12 December 2024, the National Emergency Management Agency announced the creation of the Disability Inclusive Emergency Management Toolkit to equip governments, planners and organizations with principles, self-assessment tools and resources to strengthen disability inclusion in disaster response.⁴²¹² The toolkit aims to standardize inclusive emergency planning nationwide, supporting Australia's Disability Strategy and ensuring people with disabilities are not left behind in emergencies.

On 13 December 2024, Minister for Emergency Management Jenny McAllister announced a new AUD206 million recovery and resilience package for communities affected by ex-Tropical Cyclone Jasper and recent storm events.⁴²¹³ The package includes funding for rebuilding critical infrastructure to higher resilience standards, upgrading water and sewerage systems, supporting remote communities like Wujal Wujal and delivering legal assistance and monitoring of disaster recovery programs.

On 18 December 2024, the government announced a AUD2 million emergency response package to support Vanuatu following the 7.2-magnitude earthquake near Port Vila.⁴²¹⁴ The deployment included a 64-person Disaster Assistance Response Team, an Australian Medical Assistance Team, additional federal police officers and support personnel to aid with urban search and rescue, medical relief and emergency coordination.

On 19 December 2024, Minister for Territories Kristy McBain announced a AUD23.3 million climate preparedness package for the Cocos (Keeling) Islands, focused on improving emergency resilience and long-term adaptation planning.⁴²¹⁵ The package includes funding to upgrade sea walls, expand cyclone shelters and enhance community services, alongside the establishment of a Ministerial Working Group to guide future adaptation strategies.

On 29 December 2024, Australia, through the Australia-Indonesia Partnership on Disaster Risk Management, partnered with the Indonesian Red Cross and Cruz Vermelha de Timor-Leste to deliver specialist disaster preparedness training.⁴²¹⁶ By strengthening local capacity, the training supports Indonesia's national disaster management priorities and helps communities become more resilient when disasters strike.

On 1 January 2025, the National Emergency Management Agency reaffirmed its partnership with the Australian Institute for Disaster Resilience with a new contract until 2027.⁴²¹⁷ The Institute provides guidance material and

resources to help entities prepare for and manage disasters, sharing knowledge in disaster risk reduction and resilience.

On 20 January 2025, the National Emergency Management Agency launched the National Resilience Action Library.⁴²¹⁸ The resource is a collection of practical strategies and community-level resources designed to both reduce the physical impact of disasters and help homeowners strengthen their properties against bushfires, floods, and tropical cyclones.⁴²¹⁹

On 22 January 2025, Minister McAllister opened the third round of the Disaster Ready Fund, making AUD200 million available for projects that reduce disaster risk and strengthen long-term resilience across Australia.⁴²²⁰ Of this, AUD138 million is dedicated to infrastructure initiatives aimed at mitigating the impact of floods, bushfires, cyclones and other hazards.

On 6 February 2025, Prime Minister Anthony Albanese, Minister McAllister, Premier of Queensland David Crisafulli and Queensland Minister for Emergency Management Ann Leahy announced AUD8 million in joint disaster assistance under the Commonwealth-State Disaster Recovery Funding Arrangements.⁴²²¹ This funding will support recovery after flooding and severe weather in North Queensland.

On 9 February 2025, Minister McAllister announced the extension of federal disaster payments to additional communities affected by flooding in North Queensland.⁴²²² The updated support includes access to the Disaster Recovery Payment for individuals experiencing serious damage or injury and the Disaster Recovery Allowance for those who have lost income due to the event.

On 13 February 2025, Prime Minister Albanese and Premier Crisafulli announced over AUD100 million in joint disaster assistance for North Queensland, after flooding and severe weather.⁴²²³ This includes grants for primary producers, small businesses and rural landholders to recover and ensure resilience.

On 19 February 2025, the Australian Water Partnership, World Meteorological Organization and United Nations Educational, Scientific and Cultural Organization supported a Regional Hydrological Services Forum by the Fiji Meteorological and Hydrological Service Government and the Pacific Community.⁴²²⁴ The forum aimed to advance plans for a regional hydrology strategy to strengthen data, monitoring and forecasting systems ensuring Pacific Island Countries and Territories can better anticipate, prepare for and respond to water-related hazards, building resilience against climate change and extreme weather.

On 24 February 2025, Geoscience Australia, the United Nations Educational, Scientific and Cultural Organization, the Ministry of Natural Resources and Environment of Samoa and other partners organized a regional workshop in Apia to advance the development of a multi-geohazard early warning system.⁴²²⁵ By integrating Australia's geological expertise, the initiative aims to enhance the resilience of Pacific Island countries to geohazards, promoting safer and more sustainable environments.

On 25 February 2025, the Australian Safeguards and Non-Proliferation Office and the Indonesian Nuclear Regulatory Agency signed an updated Memorandum of Understanding (MoU) on nuclear safeguards and non-proliferation, including bilateral education visits and the sharing of inspection resources.⁴²²⁶

On 5 March 2025, Australia attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴²²⁷ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 7 March 2025, Minister McAllister announced the activation of an AUD15 million Community Recovery Support Fund for New South Wales councils in anticipation of Tropical Cyclone Alfred.⁴²²⁸ The fund, delivered through joint federal-state arrangements, allows eligible councils to access up to AUD1 million for immediate clean-up and restoration of essential community infrastructure once impacts are confirmed.

On 8 March 2025, Minister McAllister announced the extension of disaster assistance to the Armidale, Glen Innes Severn and Tenterfield in response to inland flooding from Tropical Cyclone Alfred.⁴²²⁹ The package includes support for emergency accommodation, essential household repairs, concessional loans and clean-up funding for local councils and primary producers.

On 11 March 2025, Minister McAllister announced more than AUD29 million in recovery assistance for communities impacted by bushfires in Western Victoria.⁴²³⁰ The package includes small business grants, business recovery services, tourism marketing support, waste disposal rebates and environmental recovery efforts in Grampians (Gariwerd) National Park.

On 12 March 2025, Minister McAllister announced over AUD50 million in extraordinary disaster assistance to support long-term flood recovery in North and Far North Queensland.⁴²³¹ The package includes funding to

repair sport and community facilities and increases recovery grants to AUD75,000 for primary producers and AUD50,000 for small businesses and not-for-profits.

On 20 March 2025, Minister Counsellor at the Australian High Commission, Solomon Islands, Lindsay Buckingham reaffirmed Australia's commitment to supporting the Solomon Islands Meteorological Service's operations through the launch of a new twinning partnership between the Solomon Islands Meteorological Service and the Australian Bureau of Meteorology.⁴²³² The collaboration will provide technical support, staff training and upgraded semi-automated weather stations to improve early warning systems and resilience to extreme weather events.

On 24 March 2025, Minister for Communications Michelle Rowland announced AUD14 million in funding to upgrade Wi-Fi services at 500 evacuation centres across the country.⁴²³³ This will support communications resilience during disasters with a focus on communities most in need. This action supports priority four of the Sendai Framework.

On 25 March 2025, Australia released its 2025-2026 federal budget, highlighting strategic investment in disaster resilience.⁴²³⁴ The budget provisioned AUD1.2 billion for disaster response and recovery, such as a recovery assistance fund for ex-Tropical Cyclone Alfred. Additionally, AUD200 million was allocated to support disaster reduction, response and recovery through the Disaster Ready Fund. The Disaster Ready Fund is guided by Australia's national disaster risk reduction priorities and obligations as detailed in the National Disaster Risk Reduction Framework and the Sendai Framework for Disaster Risk Reduction 2015-2030. This action supports priorities three and four of the Sendai Framework.

On 27 March 2025, Australia reaffirmed its commitment to Pacific climate resilience by signing a funding agreement to release AUD27 million for the Weather Ready Pacific Programme, a Pacific-led initiative strengthening communities against extreme weather and climate hazards.⁴²³⁵ Announced at the Programme's Second Planning and Steering Committee meeting in Honiara, the funding supports the implementation of activities over the next four years, building on an earlier AUD3 million investment.

On 29 March 2025, Prime Minister Albanese and Minister McAllister announced AUD269 million in funding co-financed by the federal and Queensland government to support North Queensland's flood recovery.⁴²³⁶ This includes AUD205 million to re-build the Bruce Highway in a more resilient way, AUD7.1 million to advance disaster preparedness for farmers, AUD2.1 million for ecosystem restoration and AUD9.7 million for mental health support. This action advances priority four of the Sendai Framework which focuses on disaster preparedness and Build Back Better.

On 29 March 2025, Prime Minister Albanese and Minister McAllister announced AUD5 million for an Emergency Fodder Support Package to support farmers in western Queensland to recover from flooding.⁴²³⁷ This will be co-financed by the federal and Queensland governments.

On 29 March 2025, Prime Minister Albanese and Minister McAllister announced AUD80 million in grants for Queensland's recovery from Tropical Cyclone Alfred.⁴²³⁸ Funded by the federal and Queensland governments, grants will support small businesses, farmers, non-profit organizations and rural landholders to conduct debris removal, repairs, safety inspections and other activities.

On 31 March 2025, Prime Minister Albanese, Senator Gallagher and Senator McAllister activated the Australian Government Disaster Recovery Payment, a one-time financial assistance program for eligible residents affected by a declared major disaster to support communities impacted by flooding in Western Queensland.⁴²³⁹ This action represents a direct implementation of the 2025–2026 federal budget, aimed at addressing urgent recovery needs such as replacing essential items and meeting basic living expenses, while offering additional support to communities facing climate-induced disasters.

On 1 April 2025, the Australia–New Zealand Emergency Management Committee met virtually to advance key disaster risk reduction and preparedness priorities. Members agreed to establish a Post-Disaster Accommodation Working Group bringing together jurisdictions, local governments and the Social Recovery Reference Group to identify and overcome barriers in shelter and housing transitions.⁴²⁴⁰

On 7 April 2025, Australia announced plans to extend additional financial assistance to flood-affected communities in Western Queensland through the Disaster Recovery Allowance.⁴²⁴¹ This short-term income support payment is specifically designed to help individuals who have experienced a loss of income directly due to a disaster. The decision responded to growing demand and the escalating challenges caused by flooding in Central Queensland, providing relief for those working in declared disaster areas who have suffered income loss as a result.

On 29 April 2025, Minister Rowland and Minister McBain announced AUD9.8 million in funding for Round Three of the Mobile Network Hardening Program.⁴²⁴² This round will focus on disaster resilience in four Eden-Monaro communities through the delivery of “portable and permanent generators, back-up power equipment, including batteries with 12 to 20 hours capacity and strengthened towers to better withstand significant wind, fire and storm events.” This initiative will ensure better telecommunications during disasters and quicken the restoration time after disasters.

On 7 May 2025, Australian Embassy Humanitarian Counselor Simon Flores and Indonesia's National Disaster Management Agency submitted a cooperation agreement to collaborate with Andalas University to strengthen preparedness for a potential megathrust earthquake in West Sumatra through research.⁴²⁴³

On 14 May 2025, Australia transformed the Kilsyth Sports Centre into an accessible disaster evacuation centre within the Yarra Ranges shire.⁴²⁴⁴ This transformation was made possible through funding from the Preparing Australian Communities Local Program in 2022. The center now provides shelter and assistance to individuals impacted by disasters, while offering programs and resources aimed at minimizing the dangers of harm and neglect that such individuals may encounter during relief and recovery efforts.

On 26 May 2025, Prime Minister Albanese, Minister McBain and Deputy Prime Minister and Minister of Defence Richard Marles announced that the government is deploying Australian Defence Force and Disaster Relief Australia personnel to support recovery operations in New South Wales, after severe flooding.⁴²⁴⁵ Recovery operations will be coordinated by the National Emergency Management Agency.

On 26 May 2025, the Department of Foreign Affairs and Trade funded a four-day training session on the use of Geospatial Information Technology for key stakeholders in Papua New Guinea.⁴²⁴⁶ The training helped to enhance participants' ability to anticipate hazards and make informed decisions, supporting evidence-based disaster risk reduction planning.

On 29 May 2025, the National Emergency Management agency reported hosting an Exercise Convergence from 26-28 May 2025.⁴²⁴⁷ The national exercise brought together various government officials, industry and communication specialists to collaborate to prepare, respond and recover from extreme weather crisis events. Organized by the National Crisis Exercising and Lessons Capability, the exercise included panel discussions, simulation challenges and presentations for exports to share their insights and best practices, while fostering collaboration and quick thinking to respond to real-life challenges.

On 30 May 2025, Australia announced over AUD2 million in funding from the Disaster Ready to support Indigenous-led projects.⁴²⁴⁸ The fund is being broken down into three rounds, assisting with flooding, cultural heritage protection, risk reduction and other priorities in building more resilient Indigenous communities. Announced during National Reconciliation Week, this funding aims to amplify First Nations voices, while supporting continuous progress in reconciliation.

On 3 June 2025, the National Emergency Management Agency launched its first 'Reflect' Reconciliation Action Plan, a framework to further reconciliation initiatives, while scoping and developing a vision for future plans.⁴²⁴⁹ The action plan featured a commitment to listen to perspectives and experiences of First Nations People, while ensuring the approaches to disaster resilience are inclusive.

On 18 June 2025, the National Emergency Management Agency, Natural Hazards Research Australia and the University of New England launched the updated Australian Disaster Resilience Index (ADRI-2) to provide updated, evidence-based insights on community disaster resilience.⁴²⁵⁰ ADRI-2 enhances disaster risk understanding and strengthens governance whilst guiding targeted investment for disaster risk reduction across Australia.

On 20 June 2025, the Australia-New Zealand Emergency Management Committee met and agreed on a series of measures to strengthen disaster risk reduction and resilience across both countries. Members endorsed the creation of the National Disaster Mental Health and Wellbeing Senior Officials' Group to advance the National Disaster Mental Health and Wellbeing Framework and support frontline emergency workers.⁴²⁵¹ They also finalized the first phase of the National Natural Hazards Disaster Risk Profile and agreed to develop national registration and reunification guidelines by June 2026, building on the Australian Red Cross's Register.Find.Reunite system to improve how families are reconnected after disasters.

On 25 June 2025, Australia launched a strategic groundwater purchasing tender as part of the Bridging the Gap program under the Murray-Darling Basin Plan.⁴²⁵² The initiative aims to purchase up to 3.2 gigalitres per year in the Queensland Upper Condamine Alluvium to improve long-term drought resiliency, safeguarding water resources critical to ecosystem stability and community well-being in the face of climate-induced drought.

On 27 June 2025, Minister McBain announced over AUD5 million in joint funding for 15 coastal hazard resilience projects under Round Four of the QCoast2100 program.⁴²⁵³ Twelve Queensland councils will use the funding to implement adaptation strategies such as seawalls and shoreline stabilization measures to address risks from erosion, storm tides and sea level rise.

On 3 July 2025, Australia sent emergency management experts to California to exchange lessons following the Los Angeles wildfires in January 2025.⁴²⁵⁴ Over the span of nine days, both parties shared knowledge and best practices in preparedness, evacuation, firefighting strategies and addressing urban conflagration management.

On 4 July 2025, Minister McBain announced AUD45.75 million in new flood recovery funding for western Queensland, focused on supporting primary producers, small businesses, tourism operators and community wellbeing.⁴²⁵⁵ The package includes funding for infrastructure repairs, financial counselling, tourism revitalization and enhanced access to health and emotional support services.

⁴²⁵⁵ Western Queensland flood recovery receives \$45.75 million boost, The Hon Kristy McBain MP (Canberra) 4 July 2025. Access Date: 24 July 2025. <https://minister.homeaffairs.gov.au/KristyMcBain/Pages/western-queensland-flood-recovery-receives-46-million-boost.aspx>

On 7 July 2025, Minister McBain announced a AUD169.297 million recovery package for South-East Queensland following ex-Tropical Cyclone Alfred.⁴²⁵⁶ The funding supports beach and environmental restoration, reconstruction of community and recreational facilities, mental health services, business recovery and legal assistance across impacted areas.

On 8 July 2025, Minister McBain announced the commencement of construction on two new flood-resilient bridges near Tatham in Northern Rivers as part of the Northern Rivers Recovery and Resilience Program.⁴²⁵⁷ The AUD18 million project will raise and replace the Deep Creek and Spring Gully bridges to secure evacuation and supply routes during disaster events.

On 10 July 2025, Minister for Foreign Affairs Penny Wong announced an additional AUD10 million in humanitarian assistance for the Indo-Pacific, including AUD6 million to strengthen local disaster response through partnerships with non-governmental organizations and Red Cross Societies and AUD4 million to support displaced women and girls from Myanmar via the UN Population Fund.⁴²⁵⁸

On 11 July 2025, Minister for Infrastructure Catherine King announced that construction had officially commenced on the Youngs Crossing flood-resilient bridge upgrade in Moreton Bay.⁴²⁵⁹ The AUD86 million project, co-funded by federal, state and local governments, will deliver a new four-lane bridge and improved intersections to ensure uninterrupted access during flood events.

On 16 July 2025, the National Emergency Management Ministers' Meeting was held in Darwin, where ministers endorsed several key measures to strengthen disaster preparedness and resilience.⁴²⁶⁰ Members tasked the Australia–New Zealand Emergency Management Committee to identify further opportunities to strengthen councils' ability to prepare for, respond to, and recover from natural disasters, addressed affordability concerns in the Hazards Insurance Partnership and agreed to advance the National Messaging System to improve emergency communication, committing all jurisdictions and the Australian Local Government Association to collaborate on its implementation.

On 18 July 2025, Minister McBain announced the rollout of 35 new Quick Response Vehicles (QRVs) to fire brigades across South Australia, with two vehicles funded directly by the Albanese Government under the Protecting Our Communities program.⁴²⁶¹ The QRVs are designed to operate in rugged and hard-to-reach terrain, significantly enhancing rapid response capabilities in high-risk fire zones.

On 22 July 2025, Minister McBain announced a AUD191 million joint investment by the federal and Queensland Governments to support flood recovery and resilience in western Queensland.⁴²⁶² The funding

includes a AUD155 million Betterment Program to upgrade flood-affected roads to resilient standards, alongside investments in environmental rehabilitation, community facility rebuilding and mental health services.

On 22 July 2025, Minister McBain announced three new recovery packages totaling over AUD77 million for North and Far North Queensland, jointly funded through Commonwealth-state Disaster Recovery Funding Arrangements.⁴²⁶³ The support includes AUD73 million for environmental restoration, AUD3.12 million to repair flood-damaged water and sewerage infrastructure in Charters Towers and AUD1.42 million for legal assistance to help residents navigate flood-related issues.

On 29 July 2025, Minister McBain announced nearly AUD13.4 million in funding under the Infrastructure Betterment Fund to construct a new flood-resilient ambulance station in Lismore and rebuild the Mullumbimby station.⁴²⁶⁴ Both sites suffered extensive damage during the 2022 Northern Rivers floods and will now be reconstructed to withstand future disaster events, with projects delivered by NSW Public Works in partnership with NSW Ambulance.

On 30 July 2025, Australia, the Queensland Government and James Cook University announced the continuation of the Strata Resilience Program providing up to AUD150,000 in grants per body corporate to strengthen cyclone resilience in North Queensland strata properties.⁴²⁶⁵ The program supports roof tie-down upgrades, door and window reinforcements, garage door replacements and cyclone preparedness planning.

On 31 July 2025, Minister McBain announced an AUD88 million investment through the Crucial Access Links Program to strengthen transport infrastructure in disaster-prone and remote Queensland communities.⁴²⁶⁶ The funding, provided through efficiencies in the Commonwealth–State Disaster Recovery Funding Arrangements, will support upgrades to airstrips, seaports, boat ramps, bridges and fuel and water infrastructure in 15 local government areas.

On 4 August 2025, Australia participated in a third annual regional exercise “Longreach” in Tonga to refine natural disaster strategies and strengthen partnerships.⁴²⁶⁷ The exercise simulated a Category 5 tropical cyclone event testing multi-agency coordination, logistics and humanitarian response. Delegates from Tonga, Fiji, Papua New Guinea, Australia, New Zealand, France, the UK, the US and others worked alongside the UN, Red Cross and local ministries to strengthen early warning systems, faith-based and community networks, and the integration of the Pacific Response Group.

On 6 August 2025, Minister McBain and Minister King announced AUD63 million in funding through the Safer Local Roads and Infrastructure Program to support 23 new road safety and resilience projects across regional and rural Australia.⁴²⁶⁸ These projects include realignments, shoulder sealing, bridge replacements,

flood resilience upgrades and improved heavy vehicle access to reduce isolation and improve emergency response.

On 14 August 2025, Minister McBain announced the awarding of a major construction contract to restore over 60 flood-impacted roads and landslips in Lismore, as part of a long-term recovery effort from the 2022 Northern Rivers floods.⁴²⁶⁹ Jointly funded by the Commonwealth and New South Wales Governments under the Disaster Recovery Funding Arrangements, the program also includes an additional AUD17 million to Lismore City Council for resilient infrastructure upgrades.

On 19 August 2025, Minister King announced the start of AUD18 million flood-resilience works on the Bruce Highway between Dallachy Road and Dean Road in Tully, Queensland.⁴²⁷⁰ The project, funded jointly by the Australian and Queensland Governments, involves installing reinforced concrete culverts to improve drainage and flood immunity along the route from Brisbane to Cairns.

On 22 August 2025, Minister McBain announced a Small Business Recovery Assistance Grant of up to AUD15,000 for eligible small businesses in nine Western Queensland areas impacted by severe floods between March to May 2025.⁴²⁷¹

On 27 August 2025, Minister McBain announced the launch of the AUD2 million Environmental Recovery Package to help North and Far North Queensland councils restore flood-damaged environments following the January–February 2025 floods.⁴²⁷² The jointly funded Disaster Recovery Funding Arrangements (DRFA) program provides grants of up to AUD100,000 for community-led projects such as debris removal, replanting and habitat restoration in affected areas.

On 28 August 2025, Minister McBain announced a AUD25 million project to repair and strengthen the Outback Highway in South Australia, following flooding from Cyclone Tiffany.⁴²⁷³ The jointly funded DRFA initiative by the Australian and South Australian Governments will raise the road profile and improve drainage to enhance flood resilience and maintain connectivity for regional industries and remote communities.

On 28 August 2025, Minister McBain announced a AUD20 million jointly funded initiative to support pest control and biosecurity measures following the Western Queensland floods.⁴²⁷⁴ The program, delivered under the DRFA Primary Industry Support Package, will help repair the Wild Dog Barrier Fence, manage feral pig populations and allocate up to AUD1 million for locust control in disaster-affected areas.

On 5 September 2025, Minister McBain announced the start of disaster recovery works in Cabonne Shire under the Regional Transport Resilience Fund, jointly funded by the Australian and New South Wales Governments through the DRFA.⁴²⁷⁵ The AUD3.8 million and AUD5.3 million packages will rebuild and upgrade flood-damaged bridges and causeways, including new culverts and raised bridge decks to improve drainage and flood resilience.

On 25 September 2025, Acting Minister for Infrastructure, Transport, Regional Development and Local Government Julie Collins announced the start of construction on a flood immunity upgrade for a 1.4-kilometre section of Proserpine-Shute Harbour Road at Hamilton Plains in Queensland.⁴²⁷⁶ The jointly funded project by the Australian and Queensland Governments will raise and widen the road, install larger culverts, and improve drainage to reduce flood disruptions from 17 hours to less than one hour during a one-in-ten-year flood.

On 26 September 2025, Minister McBain announced the opening of the Wildlife Vet Accommodation and Training Centre at Knockrow in New South Wales, supported by AUD401,500 from the joint Australian and New South Wales Governments under the Bushfire Local Economic Recovery Fund.⁴²⁷⁷ The facility, linked to the Byron Bay Wildlife Hospital, provides on-site accommodation and training space for vets and carers responding to wildlife emergencies during natural disasters.

Australia has fully compiled its commitment to enhancing international disaster risk reduction under the Sendai Framework for Disaster Risk Reduction. Australia has taken strong action to understand disaster risk and strengthen disaster risk governance to manage disaster risk through the Australia-Indonesia Partnership on Disaster Risk Management, a workshop to develop a multi-geohazard early warning system, partnership to improve an early warning system for Samoa and funding for the Weather Ready Pacific Programme. Through financial contributions, infrastructural upgrades and fostering collaboration between state and federal governments, Australia has also taken strong action to support disaster risk reduction for resilience and disaster preparedness including Build Back Better. In doing so, it has engaged in international cooperation with Samoa, Indonesian authorities and international organizations.

Thus, Australia receives a score of +1.

Analyst: Adrienne Tang

Brazil: +1

Brazil has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 6 December 2024, the Ministry of Environment and Climate Change launched the Brazilian Action Plan to Combat Desertification and Mitigate the Effects of Drought.⁴²⁷⁸ The action plan will outline the policies, actions and strategies that should be taken to mitigate the effects of drought and other issues.

On 13 December 2024, the Ministry of Environment and Climate Change opened the Brazilian Action Plan to Combat Desertification and Mitigate the Effects of Drought for public consultation.⁴²⁷⁹ The consultation allows the government more information on how to best implement the action plan through communication with the public.

On 24 December 2024, President Luiz Inácio Lula da Silva signed Provisional Measure No. 1,282/2024 to provide the Ministry of Cities with a credit of BRL6.5 billion.⁴²⁸⁰ The credit will allow the Ministry to increase its capabilities for the recovery and reconstruction of infrastructure affected by weather-related natural disasters.

On 16 January 2025, the Brazilian Institute of Environment and Renewable Natural Resources received new helicopter aircraft for the transport of its agents and firefighters.⁴²⁸¹ This additional equipment will allow the institute increased capability for dealing with deforestation efforts, illegal mining and forest fires.

On 23 January 2025, the Brazilian Development Bank (BNDES) BRL45 million from the Amazon Fund to equip the Mato Grosso state fire department with a helicopter, expand training and conduct community outreach on wildfire prevention.⁴²⁸²

On 7 February 2025, the BNDES signed a technical cooperation agreement with the Rio Grande do Sul state government to develop a strategic climate resilience plan for the Guaíba River basin and to design a new integrated disaster risk and logistics center.⁴²⁸³

On 12 February 2025, the Ministry of Environment and Climate Change launched the AdaptaCidades initiative.⁴²⁸⁴ The initiative will grant the country more resilience to the effects of climate change and includes 16 sectoral plans for adapting the country to the impacts of climate change.

On 12 February 2025, the BNDES and the Ministry of Environment and Climate Change announced BRL45 million in funding from the Amazon Fund to strengthen the Pará state fire department's wildfire prevention

and response capacity.⁴²⁸⁵ The project includes new vehicles, protective equipment, training programs and community outreach aimed at reducing unauthorized burning and forest degradation.

On 1 March 2025, the Brazilian Institute of Environment and Renewable Natural Resources expanded its cooperation with the Ministries of Education and Health.⁴²⁸⁶ This enhanced cooperation allows the country to better inform the public on global warming and heat waves and take action to mitigate harm and disaster risk.

On 5 March 2025, Brazil attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴²⁸⁷ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 10 March 2025, Brazil opened the Sectoral and Thematic Plans of its Climate Adaptation Plan to public consultation, which includes the country's Sectoral Plan for Risk and Disaster Reduction and Management.⁴²⁸⁸ This public consultation grants the government feedback for these plans and further information on how best to manage disaster risk.

On 26 March 2025, Minister of Environment and Climate Change Marina Silva met with Japanese Minister of the Environment Keiichiro Asao during the Brazilian state visit to Japan and Vietnam to strengthen technical and financial cooperation between the two countries in terms of their climate change adaptation, including in early warning systems for extreme weather events.⁴²⁸⁹ This cooperation will enable both countries to further develop systems for mitigating disaster risk.

On 26 March 2025, the Ministry of Environment and Climate Change launched the Pantanal Pact program after a workshop with representatives from the state governments of Mato Grosso and Mato Grosso do Sul on the prevention and control of fires in the Pantanal tropical wetland region.⁴²⁹⁰ This program allows for increased cooperation in preventing and combating wildfires in the region.

On 27 March 2025, the Ministry of Environment and Climate Change, the Ministry of Cities and the Ministry Science, Technology and Innovation held the first Meeting on the Resilient Green Cities program to promote institutional cooperation and climate adaptation strategies, maintain transparency and secure future avenues of

funding.⁴²⁹¹ The meeting also saw the selection of 50 cities around the country that will receive technical support for the creation of climate actions focused on the mitigation of the climate crisis and adaptation to the effects of the climate crisis.⁴²⁹² This will allow the government to better manage disaster risk on a federal level and selected cities will have increased capabilities for managing disaster risk on a local and regional level.

On 7 April 2025, the Ministry of Environment and Climate Change and the National Bank for Economic and Social Development invested BRL45 million for the Fire Department of the State of Maranhão through the Amazon Fund.⁴²⁹³ This investment will enable the state to expand and modernize its vehicle fleet, equipment and materials and thus prevent future forest fires caused by man-made climate change, or otherwise mitigate their effects.

On 8 April 2025, the National Fund on Climate Change approved the Annual Resource Application Plan for 2025, investing BRL11.2 billion into climate mitigation and adaptation projects throughout the country.⁴²⁹⁴ These funds will serve as key funding for the country's climate change, disaster risk reduction and resilience initiatives.

On 29 April 2025, the National Committee for Integrated Fire Management established a permanent technical committee to ensure forest fires coordination between federal, state and local authorities as well as civil society.⁴²⁹⁵ The Ministry of Environment and Climate Change also announced BRL405 million in funding for fire departments across the country through the Amazon Fund, BRL12 million for state authorities through the National Public Security Fund and BRL12 million through the "National Environmental Fund for Integrated Fire Management Plans for 12 municipalities in the Amazon and Pantanal." This action supports priority two which is focused on strengthening disaster risk governance.

On 6 May 2025, the Ministry of Environment and Climate Change held the 5th National Environment Conference where delegates from across the country discussed the climate crisis and select 100 project proposals including 20 for adaptation and disaster preparedness.⁴²⁹⁶ The ministry will designate ten of these proposals as top priority to advance disaster risk mitigation.

On 8 May 2025, Minister of Integration and Regional Development Waldez Góes and China's Minister of Emergency Management Wang Xiangxi signed a Memorandum of Understanding to cooperate on disaster risk

management and prevention.⁴²⁹⁷ The agreement includes technical and institutional exchange, investments and joint actions to prevent and mitigate disaster impacts and strengthen infrastructure and response.

On 9 May 2025, the Ministry of Integration and Regional Development and Ministry of Cities co-hosted the BRICS Ministerial Meeting on Disaster Management.⁴²⁹⁸ Representatives of the 11 members of BRICS signed a joint declaration at the meeting, recognizing the importance of disaster risk management, implementing the Sendai Framework, ensuring justice and equity and advancing sustainable resilience and development. BRICS also presented its 2025-2028 Work Plan which “outlines strategic goals and priorities to advance international cooperation in disaster risk management,” with a focus on governance frameworks, early warning systems, nature-based solutions, disaster risk reduction in communities and resilience.

On 22 May 2025, the Ministry of Science, Technology and Innovation announced the arrival of a new high-performance supercomputer at the National Institute for Space Research to enhance weather and climate forecasting capabilities.⁴²⁹⁹ Worth BRL27 million, the system significantly expands Brazil’s capacity for extreme event prediction and real-time monitoring, enabling faster alerts and more coordinated emergency response.

On 28 May 2025, the Board of Directors of the National Fund for Scientific and Technological Development approved the creation of the “SOS Clima Brasil” program to fund disaster monitoring, forecasting and response technologies.⁴³⁰⁰

On 5 June 2025, Acting President Geraldo Alckmin signed into effect Law No. 15.143/25 which strengthens the country’s forest fire response capabilities.⁴³⁰¹ The law allows more straightforward transferal of resources from the National Environmental Fund to states and municipalities, as well as allowing the use of foreign aircraft to deal with forest fires, among other initiatives.

On 5 June 2025, the Ministry of Environment and Climate Change published a call for proposals for the Resilient Green Peripheries program, with a budget of BRL10 million.⁴³⁰² This allows civil societies to support the development and adaptation of urban peripheries to climate change.

On 10 June 2025, the Ministry of Environment and Climate Change published a call for proposals for the prevention and combating of forest fires in the Amazon and Platanal, with a budget of BRL34.5 million.⁴³⁰³

The money, once proposals are chosen, will support these regions in purchasing equipment, supplies and services for fighting and preventing forest fires.

On 17 July 2025, the Amazon Fund approved BRL150 million in non-reimbursable financing to support fire prevention and response across the Cerrado and Pantanal biomes.⁴³⁰⁴ The initiative will equip fire departments, local brigades and the National Public Security Force with vehicles, protective gear and firefighting tools, extending the fund's scope beyond the Amazon and reinforcing national capacity to address escalating wildfire risks.

On 22 July 2025, the Brazilian Development Bank disbursed BRL28.8 million from the Fundo Rio Doce to strengthen social assistance in municipalities affected by the 2015 Fundão dam collapse.⁴³⁰⁵ The funding supports the national Social Assistance System, enhancing service capacity at the local level and addressing vulnerabilities exacerbated by the disaster.

On 24 July 2025, Minister of Environment and Climate Change Marina Silva met with representatives of the Guató indigenous people and traditional communities of the Pantanal region to discuss the region's forest fire prevention and combat capabilities.⁴³⁰⁶ This meeting allows the communities of the Pantanal region to inform the government of how to support their firefighting efforts, such as with the supply of equipment and training.

On 25 July 2025, the Executive Subcommittee of Brazil's Interministerial Committee on Climate Change, coordinated by the Ministry of the Environment and Climate Change, approved the National Adaptation Strategy.⁴³⁰⁷ This document outlines adaptation objectives and cross-sectoral guidelines for 16 sectoral and thematic plans aimed at reducing climate-related vulnerabilities nationwide.

On 28 July 2025, the Ministry of Environment and Climate Change published the seven sectoral plans of the National Mitigation Strategy for public consultation.⁴³⁰⁸ As the final step in the development of the country's Climate Plan, this consultation grants the ministry public input on the plan and thus greater information on how best to deal with the climate crisis in the country.

On 11 August 2025, Minister of Regional Integration and Development Waldez Góes held the inaugural China-Brazil Ministerial Dialogue on Emergency Management with China's Minister of Emergency Management Wang Xiangxi in Beijing.⁴³⁰⁹ Both parties reached a formal consensus to deepen practical cooperation in disaster risk reduction, emergency response, and post-disaster recovery.

⁴³⁰⁴ Fundo Amazônia aprova R\$ 150 milhões para prevenção e combate a incêndios no Cerrado e no Pantanal, Ministério do Meio Ambiente e Mudança do Clima (Brasília) (Brasília) 17 July 2025. On 19 August 2025, a working group within the Ministry of Environment and Climate Change conducted a final review of seven of the Climate Adaptation Plan's 16 Sectoral Plans, with review being the final phase before the plan's launch in October.⁴³¹⁰ The meeting allowed the ministry to ensure the viability and effectiveness of the plan, as well as the safety of traditional communities affected.

On 25 August 2025, the Ministry of Environment and Climate Change presented an initiative that will provide resources and financing towards achieving the Climate Plan.⁴³¹¹ This initiative will ensure that the Climate Plan is effectively carried out and implemented, allowing the country to better adapt to and combat the effects of climate change.

On 9 September 2025, President Luiz Inácio Lula da Silva and Minister Silva announced a BRL150 million agreement from the Amazon Fund to strengthen environmental and land-tenure regularization in 48 municipalities of the União com Municípios program in the Amazon.⁴³¹² The initiative supports georeferencing, ecological restoration, and access to potable water, while also funding payments for environmental services and actions to prevent forest fires in the Amazon and Pantanal.

On 10 September 2025, the Ministry of Environment and Climate Change and the Rui Barbosa Institute signed a cooperation agreement to support the preparation of Municipal Climate Change Adaptation Plans which will prepare individual cities for dealing with the climate crisis.⁴³¹³ The plans, which are a part of the broader AdaptaCidades initiative, are meant to address the lack of city resources for planning for and addressing Climate Issues.

On 11 September 2025, the Ministry of Environment and Climate Change unanimously approved the Brazilian Action Plan to Combat Desertification.⁴³¹⁴ The plan, which the country will carry out for the period of 2025-2045, seeks to combat soil degradation and drought especially in regions of the country most vulnerable to periods of dryness.

On 18 September 2025, the Ministry of Environment and Climate Change held a fifth meeting with experts to discuss the effects of climate change on the prevalence of forest fires and how to combat them.⁴³¹⁵ The meeting allowed the Ministry more insights, such as forecasts of increased forest fire risk in the coming months, demanding further preparation.

On 26 September 2025, the federal government held the third meeting of its Fire Situation Room at the Palácio do Planalto.⁴³¹⁶ The meeting allowed further collaboration between the Federal Government and its Ministries and Agencies, especially in addressing the climate crisis, COP30, reducing forest fires and improving response time and capability.

On 10 October 2025, the Ministry of Science, Technology and Innovation announced an update to Brazil's Deforestation Prediction System which now uses artificial intelligence to forecast deforestation and fire risks in the Amazon up to 15 days in advance.⁴³¹⁷ Developed by the National Institute for Space Research in partnership with the Ministry of Environment, Ibama and PUC-Rio, this modernization reduces system errors by 75 per cent and improves early detection capacity through real-time monitoring.

Brazil has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Brazil has taken action to understand disaster risk by launching an action plan for combating the effects of drought, opening public consultation for its disaster risk mitigation initiatives and holding meetings and conferences to consider the input of experts and delegates in the planning and execution of their initiatives. Brazil has also strengthened disaster risk governance by establishing a committee for intergovernmental forest fires coordination, launching the AdaptiCidades initiative and the Pantanal Pact and Resilient Green Cities programs. Brazil has invested in disaster risk reduction for resilience on a state level through federal investments into the Maranhao State Fire Department and on a national level through the National Fund on Climate Change's Annual Resource Application Plan. It has also taken action to enhance disaster preparedness for effective response and "Build Back Better" in recovery, rehabilitation and reconstruction by granting extraordinary credit for recovery to the Ministry of Cities and by providing more equipment in the form of aircraft to its disaster response units. Finally, Brazil has taken international cooperative action towards disaster risk reduction through cooperation with Japan for the development of early warning systems for extreme weather events, the Brazil-China Memorandum of Understanding and through the Joint Declaration and 2025-2028 Work Plan with BRICS.

Thus, Brazil receives a score of +1.

On 29 January 2025, Minister of Emergency Preparedness Harjit Singh Sajjan shared information on the modernized Disaster Financial Assistance Arrangements (DFAA) program at the Canadian Red Cross' Ready 2025 conference.⁴³²⁰ The modernized DFAA program, set to be in effect on 1 April 2025, will ensure appropriate disaster response by all levels of government, increase funding for strategic disaster mitigation and Build Back Better, introduce incentives for risk reduction and preparedness, enhance public awareness of hazards and increase assistance for vulnerable communities.

On 14 February 2025, Minister Sajjan announced CAD252,000 in funding for the Toronto Metropolitan University to design a tool that dynamically assigns tasks to search and rescue (SAR) operations volunteers based on mission complexity and individual experience.⁴³²¹ Researchers will monitor volunteers' physical and mental fatigue to create models that improve task allocation, optimize work-rest schedules, and enhance training methods to improve Canada's search and rescue system.

On 19 February 2025, Minister Sajjan announced CAD46,408 in funding through the Search and Rescue New Initiatives Fund to support a two-year project led by the Association des Radioamateurs de l'Abitibi-Témiscamingue.⁴³²² The initiative, called SAR Mesh, will establish a real-time information-sharing platform to improve SAR, particularly in rural and remote areas where commercial telecommunications are unreliable.

On 19 February 2025, Minister Sajjan announced CAD72,227 in funding to support a two-year research project at the University of the Fraser Valley exploring the successes and challenges faced by women members of Canadian SAR volunteer organizations.⁴³²³ This research aims to improve volunteer retention and inclusivity in Canada's SAR system.

On 20 February 2025, Minister Sajjan announced CAD23 million in funding for the Northwest Territories through the DFAA program.⁴³²⁴ This funding will support recovery and response after nearly 500 wildfires in the territories in 2023 and 2024.

On 5 March 2025, Canada attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴³²⁵ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 6 March 2025, Minister Sajjan announced over CAD35 million in payments to British Columbia through the DFAA program.⁴³²⁶ This funding supports eligible response and recovery costs associated with more than

1,600 wildfires that occurred across the province in 2024. The financial assistance reflects ongoing collaboration between the federal and provincial governments in addressing and recovering from extreme climate-related events.

On 9 March 2025, Minister Hussen announced funding for various development projects in Bangladesh and the Indo-Pacific region including CAD15 million to strengthen the resilience of the Hindu Kush Himalaya Region amidst climate change.⁴³²⁷ Canada will also provide CAD3 million for climate change resilience and nature-based solutions in the Chittagong Hill Tracts and CAD127 million to the Asian Development Bank to support climate action, disaster preparedness and other needs in vulnerable and poor member countries.

On 21 March 2025, Minister of Energy and Natural Resources Jonathan Wilkinson announced a CAD16.3 million investment in 25 wildfire training projects under the Fighting and Managing Wildfires in a Changing Climate Program.⁴³²⁸ The funding supports the training of over 2,000 individuals, including youth and Indigenous community members, in wildfire prevention, mitigation and emergency response.

On 12 June 2025, the Government of Canada, the Canadian Interagency Forest Fire Centre and the Governments of British Columbia, Alberta, Newfoundland and Labrador, Yukon, Nova Scotia, Prince Edward Island and Manitoba announced a CAD104 million investment through Canada's Resilient Communities FireSmart Program.⁴³²⁹ The funding will specifically increase the capacity to identify and reduce wildfire risks while assisting community-based projects to mitigate its impacts, specifically for communities disproportionately threatened by wildfires.

On 18 June 2025, Canada announced an investment of CAD6.8 million for the country's Flood Hazard Identification and Mapping Program.⁴³³⁰ The investment will be spent on 20 projects focused on advancing flood mapping science, as well as developing and improving regional flood modelling approaches to advance flood hazard information coverage.

On 2 July 2025, Minister of Immigration, Refugees and Citizenship Lena Metlege Diab announced immigration documentation assistance to help people and communities affected by wildfires.⁴³³¹ Canadian citizens and permanent residents can apply for free replacements for their legal documents, while temporary residents who are affected by the wildfires can replace their status documents and apply to extend their status in Canada, or renew their work or study permit free of charge.

On 3 July 2025, Parliamentary Secretary to the Minister of Northern and Arctic Affairs Brendan Hanley announced a combined CAD17 million investment from the federal and territorial governments to reduce wildfire risk in the Yukon communities of Whitehorse, Teslin and Haines Junction.⁴³³²

On 18 July 2025, Minister of Energy and Natural Resources Tim Hodgson and Minister of Emergency Management Eleanor Olszewski announced a CAD11.7 million investment over four years to launch the Wildfire Resilience Consortium of Canada (WRCC).⁴³³³ The WRCC will operate as a national centre of excellence and virtual hub for wildfire science, innovation and cross-sector collaboration.

On 18 July 2025, Secretary of State for Seniors Stephanie McLean announced a CAD3.2 million federal investment to protect the Village of Gwa'yas'dums on Gilford Island from coastal flooding and shoreline erosion.⁴³³⁴

On 29 July 2025, Member of Parliament David Myles announced a federal investment of over CAD7.9 million to help the City of Fredericton upgrade critical infrastructure against the impacts of climate change.⁴³³⁵ Projects include culvert and water system upgrades, shoreline naturalization, and underground powerline placement to reduce risks from severe weather.

On 7 August 2025, Minister of Emergency Management Eleanor Olszewski approved a Request for Federal Assistance from the Government of Newfoundland and Labrador in response to escalating wildfires.⁴³³⁶ The federal support included aircraft, planning and logistics personnel, Type 3 firefighters, essential transport, and humanitarian workforce capacity.

On 12 August 2025, Parliamentary Secretary Corey Hogan announced CAD45.7 million in federal funding for 30 projects under the Build and Mobilize Foundational Wildland Fire Knowledge program.⁴³³⁷ The investment supports wildfire risk assessment research, adaptive forestry, and Indigenous-led fire stewardship initiatives.

On 13 August 2025, Secretary of State for International Development Randeep Sarai announced CAD12 million in funding for a new project with the United Nations Development Programme to implement integrated fire management and post-fire ecosystem restoration across Colombia and Peru.⁴³³⁸ The initiative supports wildfire prevention, monitoring, sustainable agriculture, and ecological restoration through inclusive and gender-sensitive governance.

On 18 August 2025, Secretary Hogan announced a CAD540,300 investment to support firefighter training in the Yorkton Tribal Council region in Saskatchewan and Piney, Manitoba.⁴³³⁹ The funding will be used to train

individuals and community members in wildland fire management, contributing to enhanced wildfire resilience in both areas.

On 21 August 2025, Minister of Emergency Management and Community Resilience Eleanor Olszewski announced that the Government of Canada will match every dollar donated to the Canadian Red Cross 2025 Newfoundland and Labrador Wildfires Appeal. The donation-matching program, open for 30 days and retroactive to 14 August, will double contributions from individuals and corporations to support evacuation and relief efforts for communities impacted by ongoing wildfires.⁴³⁴⁰

On 22 August 2025, Minister of Environment and Climate Change Julie Dabrusin announced a CAD5.2 million investment through the Green Municipal Fund.⁴³⁴¹ This funding is intended to enhance climate resilience by supporting the development of climate adaptation plans, climate-focused asset management strategies community-wide climate risk assessments. In partnership with the Federation of Canadian Municipalities, the investment will provide local governments with the financial resources and expertise needed to engage in long-term, proactive climate adaptation planning and implement related projects.

On 27 August 2025, Parliamentary Secretary to the Minister of Emergency Management and Community Resilience Anthony Housefather announced CAD1.36 million in federal funding to St. Francis Xavier University for the project Closing the Gaps: Addressing Critical Challenges in Arctic Ground Search and Rescue.⁴³⁴² Funded through the Search and Rescue New Initiatives Fund, the three-year initiative will enhance prevention, preparedness and response capabilities by collaborating with responders from Nunavut and Nunavik to strengthen governance, training and technology in Arctic SAR operations.

On 3 September 2025, Minister of Emergency Management and Community Resilience Eleanor Olszewski announced the launch of the Canadian Centre for Recovery and Resilience in partnership with the Institute for Catastrophic Loss Reduction in Toronto.⁴³⁴³ The new centre will provide expert guidance, practical tools and training to help communities plan for recovery before and after disasters, promoting faster rebuilding and long-term risk reduction.

On 10 October 2025, Minister Olszewski issued a statement marking the International Day for Disaster Risk Reduction under the theme “Fund Resilience, Not Disasters.” Minister Olszewski highlighted Canada’s continued implementation of the Sendai Framework through the Emergency Management Strategy for Canada and noted the launch of the Canadian Centre for Recovery and Resilience.⁴³⁴⁴

China has fully complied with its commitment to accelerating international disaster risk reduction cooperation in accordance with the Sendai Framework for Disaster Risk Reduction.

On 24 November 2024, the Ministry of Emergency Management and Government of Guangdong coordinated the 2024 Belt and Road emergency rescue drill for Pacific island countries.⁴³⁴⁶ The drill focused on 12 priority areas including coordination and various rescue techniques including rope, cliff and deep well rescue. 300 individuals from eight Pacific Island countries participated in the drill to enhance their disaster preparedness and response. This action advances priorities one, two and four of the Sendai Framework.

On 22 January 2025, the Office of the National Disaster Prevention, Reduction and Relief Committee, the Ministry of Emergency Management, the China Meteorological Administration and the National Fire Rescue Bureau organized a meeting to discuss disaster prevention and response amidst a cold wave and heavy snow and rainfall in the country.⁴³⁴⁷ The meeting emphasized the need for intergovernmental coordination to ensure appropriate response to the extreme weather.

On 5 March 2025, China attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴³⁴⁸ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 19 March 2025, the Ministry of Finance announced that it will be launching a green sovereign bond worth up to CNY8 billion in London.⁴³⁴⁹ The bond will support projects including climate change mitigation and adaptation.

On 23 March 2025, China announced the launch of its National Emergency Early Warning Information Release System.⁴³⁵⁰ This system is designed to detect meteorological disasters and deliver up to 82 types of warning messages to emergency responders within one minute. The initiative is part of China's National Strategy on Climate Adaptation 2035, published in 2022, which seeks to strengthen support and adaptation capacity across a broader range of stakeholders. This action advances priority four of the Sendai Framework.

On 29 March 2025, China sent a disaster response team to assist with recovery operations in Myanmar after a large-scale earthquake.⁴³⁵¹ 82 personnel will support the country, at the request of the Myanmar government.

On 9 April 2025, Deputy Director of the National Disaster Prevention, Reduction and Relief Committee and Minister of Emergency Management Wang Xiangxi deployed disaster prevention and response in coordination with 13 provinces.⁴³⁵² This action focuses on addressing severe weather by strengthening disaster preparedness for the agriculture, transport and construction sectors, schools, preventing forest and grassland fires and conducting other disaster relief and response activities.

On 23 April 2025, Vice Minister of the Ministry of Emergency Management Xu Jiaai and United Nations Under Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator Tom Fletcher met to discuss increased cooperation for emergency management and humanitarian assistance.⁴³⁵³ Under Secretary-General Fletcher recognized China's countrywide and international disaster prevention, mitigation, relief and emergency rescue work at the meeting.

On 24 April 2025, the China Meteorological Administration unveiled FENGYUN Space Weather, a next generation integrated operational system for space weather.⁴³⁵⁴ The platform combines data processing, storage, analysis and visualization and supports key functions such as monitoring, forecasting, numerical weather prediction and impact assessments. This will significantly strengthen space weather monitoring and early warning capabilities, in line with priority one of the Sendai Framework.

On 27 April 2025, the Ministry of Finance and the Ministry of Agriculture and Rural Affairs allocated CNY376 million for disaster prevention and relief to assist with agricultural recovery after droughts.⁴³⁵⁵ The funding will support farmers in the Shanxi, Jiangsu, Anhui, Henan, Guangxi and Shaanxi provinces to implement prevention measures, mitigate drought impacts, protect seedlings, replant crops and ensure appropriate watering. This action contributes to priority four of the Sendai Framework.

On 9 May 2025, China's representatives attended the BRICS Ministerial Meeting on Disaster Management in Brazil.⁴³⁵⁶ Representatives of the 11 members of BRICS signed a joint declaration at the meeting, recognizing the importance of disaster risk management, implementing the Sendai Framework, ensuring justice and equity and advancing sustainable resilience and development. BRICS also presented its 2025-2028 Work Plan which "outlines strategic goals and priorities to advance international cooperation in disaster risk management," with a focus on governance frameworks, early warning systems, nature-based solutions, disaster risk reduction in communities and resilience.

On 8 May 2025, Minister Wang and Brazil's Minister of Integration and Regional Development Waldez Góes signed a Memorandum of Understanding to cooperate on disaster risk management and prevention.⁴³⁵⁷ The agreement includes technical and institutional exchange, investments and joint actions to prevent and mitigate disaster impacts and strengthen infrastructure and response.

On 15 May 2025, China hosted a countrywide event centered on meteorological disaster prevention and mitigation in smart cities.⁴³⁵⁸ As part of the initiative, a pilot demonstration of the Zhi Tian System, a digital Flood Prevention and Mitigation Management and Decision-Making platform, was held in Chongqing, a flood-prone city. The system integrates data from over 2,800 automatic meteorological stations and 32 hydrological stations in the Jialing River basin and enabling real-time monitoring of river water levels. Once a flood threat is detected, the system activates through the urban governance platform, delivering one-click early warnings to high-risk populations via multiple digital channels, leveraging advanced meteorological technologies in its climate risk mitigation efforts.

On 20 May 2025, the Office of the State Flood Control and Drought Relief Headquarters, the Ministry of Emergency Management and the Government of Chongqing co-hosted a flood prevention and management exercise in the Yangtze River region.⁴³⁵⁹ The exercise focused on intergovernmental coordination, an early warning and response system and flood prevention and disaster relief to enhance disaster response capabilities.

On 30 May 2025, the Ministry of Emergency Management held a meeting to discuss its three-year action plan to increase education and skills for disaster risk management.⁴³⁶⁰ The plan focuses on training young people for emergency management, in line with priority one of the Sendai Framework.

On 31 May 2025, Minister Wang, Director of the State Flood Control and Drought Relief Headquarters Office, Deputy Minister of Emergency Management and Deputy Minister of Water Resources Wang Daoxi and meteorological and water conservancy departments met to discuss flood and rainfall conditions to better support disaster prevention and response activities.⁴³⁶¹ Following this, they launched "a level 4 emergency response for flood control in Yunnan and Guizhou," sending personnel to assist with activities in the area. The

meeting also called on regions to implement monitoring, forecasting and early warning systems and increase public information and awareness.

On 11 June 2025, China launched the International Training Course on Marine Meteorological Disaster Prevention and Mitigation, specifically tailored for countries along the Indian Ocean Rim.⁴³⁶² The program brought together 37 participants including officials, meteorological experts and forecasters from nations such as Sri Lanka, Ethiopia and Thailand.

On 24 June 2025, the National Disaster Prevention, Reduction and Relief Committee and the State Council Work Safety Committee conducted the “Emergency Mission 2025” exercise across Heilongjiang, Henan and Guangdong provinces.⁴³⁶³ The drill mobilized over 2,000 emergency personnel, 9 helicopters, 10 fixed-wing aircraft and specialized rescue equipment to simulate coordinated responses to extreme disaster scenarios including urban high-rise fires, oil tank explosions, forest wildfires and flood-induced infrastructure failures.

On 4 July 2025, China announced the launch of the first artificial intelligence-driven Global Aerosol-Meteorology Forecasting System on the International Meteorological Early Warning Operational Support Platform.⁴³⁶⁴ Being adapted into the World Meteorological Centre Beijing’s Early Warning Platform, the system increases computational efficiency, allowing for global scale forecasts on ground concentrations of chemical components like dust and black carbon. This initiative enhances the operational capabilities on forecasting global aerosol pollution, providing a more accurate and timely response to assist in disaster prevention and mitigation.

On 14 July 2025, the State Flood Control and Drought Relief Headquarters Office and the Ministry of Emergency Management convened a joint consultation with 13 key provinces and multiple national agencies to assess upcoming flood and typhoon risks during the July–August peak season.⁴³⁶⁵

On 28 July 2025, the National Development and Reform Commission allocated CNY50 million to support post-flood emergency recovery and infrastructure reconstruction in Hebei Province following severe flooding.⁴³⁶⁶ The funding will be used to restore roads, bridges, schools, hospitals, and water management systems.

On 29 July 2025, Vice Minister of Emergency Management and Deputy Director of the State Flood Control and Drought Relief Headquarters Wang Daoxi chaired a joint meeting with meteorological, water resources and natural resources agencies to assess ongoing flooding in North and Northeast China and the approaching Typhoon “Zhu Jie Cao.”⁴³⁶⁷ The Ministry of Emergency Management and the State Flood Control Office sustained multiple emergency response levels, deployed five flood response working groups across Beijing, Tianjin, Hebei, Shanxi and Zhejiang and maintained two disaster relief teams in Beijing and Hebei. In addition,

CNY3.5 billion in central disaster relief funds were allocated to support needs, while specialized rescue forces and equipment were dispatched to strengthen dike patrols, flood defense and emergency communications.

On 4 August 2025, the Ministry of Water Resources activated a level four emergency response for flood control in Guangdong Province and Guangxi Zhuang Autonomous Region.⁴³⁶⁸ The Ministry also dispatched two working teams to the affected areas to guide local flood control efforts.

On 4 August 2025, the Office of the State Flood Control and Drought Relief Headquarters, together with the National Food and Strategic Reserves Administration, dispatched more than 13,000 emergency supplies, including rescue boats, drainage pumps, generators and lighting equipment, to Inner Mongolia to support flood control and rescue operations.⁴³⁶⁹

On 5 August 2025, the Ministry of Finance, the Ministry of Agriculture and Rural Affairs and the Ministry of Water Resources allocated CNY1.015 billion in disaster relief funds to multiple provincial-level regions.⁴³⁷⁰ The funds supported flood relief in Beijing, Hebei, Inner Mongolia and Guangdong through subsidies for crop replanting and repair of agricultural facilities, and aided drought relief in Shandong, Henan and Hubei by supporting fertilization, seedling preservation, irrigation and well drilling.

On 6 August 2025, the National Commission for Disaster Prevention, Reduction and Relief initiated a level four emergency response in Guangdong Province following severe rainfall and flooding and dispatched a team to the affected areas to assist with disaster relief and secure residents' basic livelihoods.⁴³⁷¹

On 7 August 2025, the National Commission for Disaster Prevention, Reduction and Relief initiated a level four emergency response to flooding in Inner Mongolia, deploying a specialized team to assist local relief operations.⁴³⁷² In coordination with the Ministry of Emergency Management and the National Food and Strategic Reserves Administration, the commission distributed 47,400 units of central relief supplies, including tents, beds, blankets and winter clothing. The National Development and Reform Commission also allocated CNY80 million to restore damaged infrastructure and public services.

On 7 August 2025, the Ministry of Finance and the Ministry of Emergency Management jointly allocated CNY430 million from China's central natural disaster relief fund to Beijing, Hebei, Inner Mongolia, Guangdong and Guangxi.⁴³⁷³ The funds will primarily support Beijing and Hebei in relocating affected residents, providing temporary living assistance and rebuilding homes, while in the other three regions they will strengthen emergency response operations and secondary disaster prevention.

On 7 August 2025, the State Energy Investment Corporation donated CNY20 million to support emergency response and recovery efforts in Gansu's Yuzhong County, which had been hit by severe rainstorms and flash floods.⁴³⁷⁴ The donation is earmarked for rescue supplies, temporary resettlement of affected residents and post-disaster reconstruction, helping restore basic living conditions and infrastructure in the disaster area.

On 11 August 2025, Minister of Emergency Management Wang Xiangxi held the inaugural China-Brazil Ministerial Dialogue on Emergency Management with Brazilian Minister of Regional Integration and Development Waldez Góes in Beijing.⁴³⁷⁵ Both parties reached a formal consensus to deepen practical cooperation in disaster risk reduction, emergency response, and post-disaster recovery.

On 13 August 2025, the Ministry of Water Resources activated a level four flood-control emergency response for Fujian, Guangdong, Guangxi, and Hunan Provinces in anticipation of heavy rainfall brought by Typhoon Podul.⁴³⁷⁶ Three work teams were dispatched to Fujian, Guangdong, and Guangxi to guide flood prevention, rainstorm response, and typhoon preparedness operations.

On 13 August 2025, the Ministry of Finance allocated CNY1.15 billion from the central budget to 13 major grain-producing provincial-level regions to strengthen agricultural disaster prevention and mitigation.⁴³⁷⁷ The funds will support the spraying of plant growth regulators, foliar fertilizers, fungicides, and insecticides on autumn crops such as corn, soybeans, and rice to reduce risks from disasters and stabilize yields.

On 22 September 2025, the Ministry of Emergency Management announced the first federal video training session for newly recruited staff across China's emergency management system. The program, conducted from 16 to 19 September with over 26,000 participants and 3,300 branch classrooms nationwide, focused on strengthening professional capacity, political responsibility and risk-awareness under the guidance of President Xi Jinping's directives on emergency management.⁴³⁷⁸

On 23 September 2025, the Office of the National Flood Control and Drought Relief Headquarters and the Ministry of Emergency Management coordinated cross-agency efforts to prepare for Typhoon Kua Jiasha.⁴³⁷⁹ The Ministry convened meteorological, water and natural resource departments to analyze risks and instruct Guangdong and Hainan on emergency measures.

On 24 September 2025, Vice Commander of the National Flood Control and Drought Relief Headquarters and Minister of Emergency Management Wang Xiangxi chaired a federal video conference to coordinate typhoon and flood prevention for Super Typhoon Kua Jiasha.⁴³⁸⁰ The Ministry, together with the Ministry of Natural Resources, the Ministry of Water Resources and the China Meteorological Administration directed Guangdong, Guangxi, and Hainan to reinforce disaster prevention, emergency response and population evacuation measures.

Security, China Meteorological Administration, National Forestry and Grassland Administration and National Fire and Rescue Administration assessed seasonal fire conditions and coordinated prevention measures.

On 27 September 2025, the State Council Earthquake Relief Headquarters Office and the Ministry of Emergency Management activated a national level-IV emergency response in response to a 5.6-magnitude earthquake struck Longxi County in Dingxi City, Gansu Province.⁴³⁸² Under the direction of Minister Wang Xiangxi, emergency teams were deployed to verify damages, conduct rescue operations and coordinate relief efforts. National fire and rescue forces, including 200 personnel and 28 vehicles from nearby brigades, were dispatched to the epicenter to perform search and evacuation operations.

China has fully complied with its commitment to accelerating international disaster risk reduction cooperation in accordance with the Sendai Framework for Disaster Risk Reduction. China has taken strong action to advance all four priorities of the Sendai Framework through implementing an early warning system, launching the FENGYUN Space Weather system, hosting drills and exercises to train personnel on disaster risk management and investing in disaster prevention and relief. China has also taken strong steps for international cooperation on disaster risk management through its Memorandum of Understanding with Brazil, response team for Myanmar, International Training Course on Marine Meteorological Disaster Prevention and Mitigation, the BRICS Joint Declaration and Work Plan and discussion with the UN Under Secretary-General. Additionally, China has allocated funding towards agricultural disaster prevention and mitigation, activated flood-control responses and supported post-flood emergency recovery and infrastructure reconstruction.

Thus, China receives a score of +1.

Analyst: Adrienne Tang

France: +1

France has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 28 November 2024, the Ministry of the Interior, the General Utilities Agency and fire and rescue services launched the forest fire capacity pacts operation to enhance France's operational capabilities for forest fire management.⁴³⁸³ This initiative demonstrates France's commitment to improving disaster risk reduction through strengthened infrastructure, collaboration between various stakeholders and fostering resilience against forest fires.

On 10 December 2024, Permanent Representative to the United Nations Nicolas de Rivière announced that France will continue to financially support the Central Emergency Response Fund in 2025.⁴³⁸⁴ The Fund is an emergency response funding mechanism in areas of humanitarian assistance and natural disaster emergencies.

On 10 December 2024, the French Development Agency's Non-Governmental Organizations Committee approved funding for several civil society organizations.⁴³⁸⁵ Of this, EUR600,000 will support climate resilience

in Burundi, and EUR1,627,920 will advance resilience against climate change, natural disasters and other vulnerabilities in Benin, Senegal and Chad.

On 12 December 2024, France took proactive measures to prepare for the arrival of tropical storm CHIDO in the southwest Indian Ocean by dispatching 110 civil security professionals including 71 rescuers from military civil security units and 39 firefighters from Reunion Island.⁴³⁸⁶ Additionally, four civil security experts were deployed to strengthen the prefecture and fire and rescue service teams. The government also provided equipment to ensure readiness before the storm's arrival, demonstrating France's commitment to enhancing disaster preparedness and response.

On 18 December 2024, France's Ambassador to Vanuatu Jean-Baptiste Jeangène Vilmer worked with Australia and New Zealand under the FRANZ partnership to mobilize support after an earthquake in Port-Vila, Vanuatu.⁴³⁸⁷ France conducted aerial reconnaissance, restored communications and delivered over 18 tonnes of humanitarian aid, including water, food and shelter materials to support 1,500 displaced individuals. Ambassador Vilmer reaffirmed France's long-term commitment to Vanuatu's recovery and resilience, ensuring continued solidarity and preparedness for future disasters.

On 9 January 2025, the French Development Agency and French Red Cross signed a EUR12 million financing agreement to support phase three of the "3 Oceans" project.⁴³⁸⁸ The project aims to improve disaster resilience, emergency preparedness and response and address other vulnerabilities including health risks in island territories in the Caribbean, Indian Ocean and Pacific basins.

On 3 February 2025, Minister delegate to Minister of the Interior François-Noël Buffet opened the third Beauvau Civil Security project in Bordeaux which aims to optimize France's crisis management model by adopting a comprehensive and ongoing approach.⁴³⁸⁹ The project focuses on improving the coordination of civil security actors that are critical in managing national and local crises including those related to climate, industrial, technological and societal risks. The initiative addresses growing risks by sustaining and scaling France's civil security model and involves multiple ministries, public institutions and local actors.

On 5 March 2025, France attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴³⁹⁰ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 10 March 2025, France launched the third National Climate Change Adaptation Plan.⁴³⁹¹ The plan includes 52 measures addressing the impacts of climate change across all regions and sectors, with a focus on territorial adaptation and increased support for local stakeholders. The Plan includes over 200 concrete actions to advance its implementation including implementing the results of the Natural Disaster Insurance Observatory, strengthening disaster prevention, increasing public awareness, supporting local authorities in implementing flood prevention and environmental management practices and monitoring systems, updating the national coastline management strategy and adapting the natural disaster compensation system.⁴³⁹² The government has allocated EUR300 million from the Barnier Fund, EUR260 million from the Green Fund and EUR1 billion from water agencies to support this plan. This plan supports all four priorities of the Sendai Framework.

On 7 May 2025, Prime Minister François Bayrou announced the initiation of “Water in our Territories” Conferences in response to the water cycles upheavals that happened in the past.⁴³⁹³ Several key themes relating to water management will be convened during the conferences, among them are anticipating climate change, water pollution reduction and improving risk management and anticipation in the events of drought and floods.

On 23 May 2025, France, New Caledonia and Vanuatu announced the launch of a call for projects under their regional cooperation agreement.⁴³⁹⁴ Financed through the Pacific Fund, and managed by the French Embassy in Port Vila and the Government of New Caledonia, the initiative provides EUR10,000 to EUR50,000 in support for local development projects. Areas of action eligible for the 2025 year include civil protection and natural disaster risk management.⁴³⁹⁵

On 1 June 2025, France issued Decree No. 2025-482 of 27 May 2025 to protect workers against extreme heat-associated risks.⁴³⁹⁶ The decree regulates the procedure employers must follow to protect the workers’ health and safety during the period of extreme heat once Météo-France alerts danger-level temperature.

On 5 June 2025, Minister of the Interior Bruno Retailleau and Minister of Ecological Transition Agnès Pannier-Runacher signed France’s National Strategy for the Defense of Forests and Non-Wooded Areas Against Fires during a visit to the Pyrénées-Orientales.⁴³⁹⁷ This strategy aims to strengthen fire prevention, forecasting, protection and response capacities by coordinating national and local actors, integrating climate adaptation and fostering shared scientific and operational knowledge.

⁴³⁹⁷ Stratégie nationale de défense des forêts et des surfaces non boisées contre les incendies, Ministère de l’Intérieur (Paris) 5 June 2025. Translated by Google Translate. Access Date: 15 July 2025. <https://www.interieur.gouv.fr/actualites/communiques-de-presse/strategie-nationale-de-defense-des-forets-et-des-surfaces-non-boisees-contre-incendies>

On 5 June 2025, Ambassador for Climate Negotiations and the Prevention of Climate Risks Benoît Faraco emphasized the importance of humility in disaster risk governance during a keynote panel at the Global Platform for Disaster Risk Reduction in Geneva.⁴³⁹⁸

On 6 June 2025, the French Development Agency and the Southern Regional Development Bank signed a EUR120 million financing partnership during the Brazil–France Economic Forum in Paris.⁴³⁹⁹ The agreement will support sustainable projects in southern Brazil including natural disaster response.

On 1 July 2025, Minister of the Economy, Finance and Industrial and Digital Sovereignty Eric Lombard, along with Minister of Regional Planning and Decentralization François Rebsamen, announced the deployment of three commitments made during the Roquelaure of local authorities that was held earlier this year on 14 April 2025.⁴⁴⁰⁰ One of the commitments made was the reform to exempt local authorities in the event of natural disasters. The decree ensures the protection of small municipalities by reducing financial burdens in the case of natural disasters.

On 4 August 2025, France participated in a third annual Regional Exercise Longreach in Tonga to refine natural disaster strategies and strengthen partnerships.⁴⁴⁰¹ The exercise simulated a Category 5 tropical cyclone event testing multi-agency coordination, logistics, and humanitarian response. Delegates from Tonga, Fiji, Papua New Guinea, Australia, New Zealand, France, the UK, the US and others worked alongside the UN, Red Cross and local ministries to strengthen early warning systems, faith-based and community networks, and the integration of the Pacific Response Group.

On 13 August 2025, the Ariane 6 program, which is part of a collaborative effort between the French National Centre for Space Studies, European Space Agency and ArianeGroup, took off from the Guiana Space Center.⁴⁴⁰² Onboard the launch vehicle was the Metop-SGA1, Europe's first second-generation meteorological satellite. The data for climate monitoring and weather forecasting collected from Metop-SGA1 will help support decision-making in the event of natural disasters. It reflects Europe's and France's commitment to independent space access that is crucial for the environment.

On 30 August 2025, the Ministry of Ecological Transition, Biodiversity, Forests, the Sea and Fisheries along with the support from the Ministry of the Interior renewed the tenth annual campaign to people threatened by the risks of intense rain and torrential flooding.⁴⁴⁰³ The campaign aims to provide information and raising awareness to communities across the Mediterranean arc which are increasingly exposed to flash floods and torrential rains. This campaign from the French government will run until 30 November 2025.

France has fully complied with its commitment to accelerate international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. France has taken action across all four Sendai Framework priority areas: investing in disaster risk reduction for resilience, enhancing disaster preparedness for effective response, and understanding disaster risk. This includes launching the forest fire capacity pacts operation, funding climate resilience in Burundi, supporting recovery operations in Vanuatu, financing the “3 Oceans” project and launching the third National Climate Change Adaptation Plan. In doing so, it has satisfied the international dimension of the commitment.

Thus, France has received a score of +1.

Analysts: Mabek Kaur, Mebek Berry, James Xiaolong Wang and Haniva Sekar Deanty

Germany: 0

Germany has partially complied with its commitment to accelerate international disaster risk reduction cooperation in accordance with the Sendai Framework for Disaster Risk Reduction.

On 9 December 2024, the Ministry for Economic Cooperation and Development provided EUR10 million in grant funding for the second phase of a program to support water resource management in Yemen.⁴⁴⁰⁴ The KfW Banking Group and International Organization for Migration will implement measures including improving flood protection entities such as rainwater reservoirs, irrigation ditches, dams and flood protection walls.

On 11 December 2024, the Cabinet approved the German Adaptation Strategy to Climate Change 2024 which includes 33 goals and 180 measures to advance preparedness for natural disasters and events including heat, drought, flooding and high precipitation.⁴⁴⁰⁵ Actions include strengthening agricultural resilience against climate change, improving public warning systems and increasing public awareness and preparedness.⁴⁴⁰⁶

On 5 March 2025, Germany attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁴⁰⁷ G20 members agreed to advance South Africa’s six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 26 March 2025, Germany hosted its annual two-day Disaster Risk Reduction Conference to discuss disaster preparedness with stakeholders from government, academia and activism.⁴⁴⁰⁸ The conference focused on cross-border collaboration to better prepare and understand disaster risk across Europe. The Advanced Disaster Damage and Loss Data Information System team presented their progress in disaster risk preparedness at the conference.

On 2 April 2025, the Ministry for Economic Cooperation and Development and the International Disability Alliance officially launched the Resilient and Inclusive Cities Hub (RICH) at the 2025 Global Disability Summit.⁴⁴⁰⁹ RICH aims to mobilize USD250 million by 2030 to support city resilience in withstanding and recovering from disasters and ensuring persons with disabilities are integrated into urban planning from the outset.

On 7 April 2025, the Ministry for the Environment, Climate Protection, Nature Conservation and Nuclear Safety announced that cities can apply for funding for climate adaptation projects under the “Measures for Adaptation to the Consequences of Climate Change” framework between 15 May and 15 August 2025.⁴⁴¹⁰ Selected municipalities will receive a total of EUR10 million to increase climate preparedness, protection, nature-based solutions and adaptation.

On 9 April 2025, researchers in partnership with the Research Institute for Sustainability published recommendations aimed at strengthening Europe’s resilience to disasters.⁴⁴¹¹ The recommendations focus on a “whole-of-society approach” that includes multi-governmental and multi-sectoral involvement to advance disaster resilience.

On 16 April 2025, Germany announced EUR57.5 million in funding for Bangladesh to improve its climate resilience.⁴⁴¹² This contributes to Germany’s efforts to enhance international cooperation for disaster risk management.

On 2 June 2025, the Global Initiative on Disaster Risk Management commissioned by the Ministry for Economic Cooperation and Development shared that it will actively contribute to the Global Platform for Disaster Risk Reduction (GPDRR) in Geneva.⁴⁴¹³ Under its fourth phase, GIDRM will showcase Germany’s whole-of-government approach to DRR at the Innovation Platform, host a knowledge exchange on risk-informed development across key sectors, and share field experience from Pakistan at the Ignite Stage.

On 1 July 2025, the Office of Civil Protection and Disaster Assistance coordinated the first full international deployment of Germany’s Analytic Task Force (ATF) in response to Austria’s request for support during a large-scale fire at a waste management facility in East Tyrol.⁴⁴¹⁴ The ATF conducted rapid on-site analysis of air, water, and soil samples to assess potential chemical, biological, radiological and nuclear (CBRN) hazards, ensuring that no harmful concentrations were present.

On 7 July 2025, the Federal Cabinet approved the second draft of the 2025 federal budget, allocating additional funds to the Office of Civil Protection and Disaster Assistance to strengthen national disaster preparedness.⁴⁴¹⁵ The funding will support early warning systems, modern protective equipment and vehicles, CBRN

measurement technologies, water security infrastructure, public education campaigns and expanded crisis management training through the Federal Academy for Civil Protection.

On 12 July 2025, Ministry of the Interior and the Office for Civil Protection and Disaster Assistance co-hosted Germany's third annual Federal and State Civil Protection Day in Rostock.⁴⁴¹⁶ The event convened key emergency response actors, including fire services, disaster relief agencies and aid organizations, to showcase demonstrations on heatwaves, droughts, floods, storm surges and water rescue.

On 19 August 2025, Minister of Foreign Affairs Johann Wadephul released a statement regarding World Humanitarian Day affirming Germany's commitment to emergency assistance by being one of the world's largest donors.⁴⁴¹⁷

On 27 September 2025, Minister Wadephul gave a speech at the General Debate of the 80th Session of the United Nations General Assembly.⁴⁴¹⁸ Minister Wadephul acknowledged the risks and consequences of rising sea-levels, as well as those whose safety and livelihoods are impacted by climate change.

Germany has partially compiled its commitment to enhancing international disaster risk reduction under the Sendai Framework for Disaster Risk Reduction by announcing the funding commitments to international climate protection financing supporting disaster resiliency at an international level. Germany has taken weak action to advance priority one of the Sendai Framework through the Disaster Risk Reduction Conference and strong action towards priority four through funding for municipalities. It has also taken strong action towards priority three and international cooperation through funding for Bangladesh and Yemen. However, Germany has not taken strong action across at least three of the four priority areas.

Thus, Germany receives a score of 0.

Analysts: Mabek Kaur, James Xiaolong Wang and Hanira Sekar Deanty

India: +1

India has fully complied with its commitment to accelerate international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 26 November 2024, a high-level committee chaired by Minister of Home Affairs and Minister of Cooperation Amit Shah approved INR11.157 billion in funding for several states under the National Disaster Mitigation Fund.⁴⁴¹⁹ This funding will support disaster mitigation and capacity building. The committee also approved INR1 billion for the National Landslide Risk Mitigation project across 15 states. These actions aim to advance disaster risk reduction in India.

⁴⁴¹⁹ A High-Level Committee, under the chairmanship of Union Home Minister and Minister of Cooperation, Shri Amit Shah approves Rs. 1115.67 crore for disaster mitigation and capacity building projects for various states, Minister of Home Affairs (New Delhi) 26 November 2024. Access Date: 1 July 2025. <https://www.pib.gov.in/PressReleasePage.aspx?PRID=2077290>

On 6 December 2024, the Ministry of Home Affairs approved INR9.448 billion in funding through the State Disaster Response Fund to support Tamil Nadu in disaster relief after the Fengal cyclone.⁴⁴²⁰ The Ministry also sent an Inter-Ministerial Central Team to assess the situation and determine if further support is needed.

On 11 December 2024, the Ministry of Defence and National Disaster Management Authority signed a Memorandum of Understanding to collaborate on disaster risk management.⁴⁴²¹ This includes a focus on disaster research, capacity building, raising public awareness and preparedness and engaging in international cooperation.

On 26 December 2024, Minister of Science and Technology and Minister of Earth Sciences Jitendra Singh highlighted India's global leadership in disaster warning systems during the commemoration of the 20th anniversary of the 2004 Indian Ocean Tsunami at the Indian National Centre for Ocean Information Services (INCOIS).⁴⁴²² He noted INCOIS has not only served India but also provided disaster warning services to other countries, particularly in safeguarding vulnerable coastal communities.

On 28 January 2025, the National Disaster Management Authority, United Nations Educational, Scientific and Cultural Organization and International Centre for the Study of the Preservation and Restoration of Cultural Property co-hosted a Consultative Workshop on Disaster Risk Management for Cultural Heritage Sites.⁴⁴²³ The workshop brought together government representatives and experts to establish a framework for protecting India's cultural heritage sites during disasters.

On 21 February 2025, Minister of External Affairs Subrahmanyam Jaishankar emphasized the importance of strong frameworks for disaster preparedness, emergency response, recovery and reconstruction during a session on G20 objectives in Johannesburg.⁴⁴²⁴ Minister Jaishankar reaffirmed India's commitment to disaster risk reduction, noting the establishment of the Disaster Risk Reduction Working Group during India's G20 Presidency and reiterated that India's commitment to these initiatives would remain steadfast.

On 5 March 2025, India attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁴²⁵ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 18 March 2025, Minister Singh reviewed key meteorological initiatives, including Mission Mausam and pushed for enhanced weather forecasting capabilities.⁴⁴²⁶ He emphasized the expansion of the Doppler Weather Radar network, with 73 radars set to be operational by 2025-26 and 126 by 2026, to improve the tracking of extreme weather events. Minister Singh also directed the India Meteorological Department to strengthen public

outreach by using social media platforms and digital applications like Mausam, Meghdoot and Umang for timely weather updates.

On 21 March 2025, the Centre for Development of Telematics and Indian Institute of Technology Delhi signed an agreement to develop an artificial intelligence (AI)-driven communication service for disaster warnings and early communications.⁴⁴²⁷ The generative AI chatbot will provide accessible and multilingual services to the public and disaster response personnel, complying with emergency communications protocols and data privacy. This action aims to advance disaster preparedness in line with priorities one and four of the Sendai Framework.

On 25 March 2025, Parliament passed an amendment to the 2005 Disaster Management Bill, aiming to enhance disaster governance through increased inter-agency coordination and efficiency.⁴⁴²⁸ The Bill also enables the National Disaster Management Authority and the State Disaster Management Authorities to develop federal and state level disaster plans.

On 28 March 2025, a high-level committee chaired by Minister Shah approved INR16,043,900,000 to improve fire services in Bihar, Gujarat, Jharkhand, Maharashtra and Kerala.⁴⁴²⁹ The committee also approved INR5,550,000,000 in funding for disaster recovery and reconstruction in Sikkim after a glacial lake flood, INR190,748,000,000 for 28 states under the State Disaster Response Fund and INR32,293,500,000 for 16 states under the State Disaster Mitigation Fund. This funding aims to increase disaster resilience and recovery, in line with priorities three and four of the Sendai Framework.

On 28 March 2025, India launched Operation Brahma, a disaster relief and response operation for Myanmar after a large-scale earthquake.⁴⁴³⁰ Between 29 March 2025 and 1 April 2025, India sent 80 search and rescue personnel, 118 members of the Indian Army Field Hospital Team, 76 tonnes of supplies and equipment and 442 metric tonnes of food aid to assist with disaster recovery in the country.

On 6 May 2025, Minister of Health and Family Welfare Jagat Prakash Nadda inaugurated the second National Workshop on Health Sector Disaster Preparedness and Response and Fire Services in Healthcare Facilities.⁴⁴³¹ The workshop focused on disaster preparedness in the health sector.

On 9 May 2025, India's representatives attended the BRICS Ministerial Meeting on Disaster Management in Brazil.⁴⁴³² Representatives of the 11 members of BRICS signed a joint declaration at the meeting, recognizing the importance of disaster risk management, implementing the Sendai Framework, ensuring justice and equity and advancing sustainable resilience and development. BRICS also presented its 2025-2028 Work Plan which "outlines strategic goals and priorities to advance international cooperation in disaster risk management," with a focus on governance frameworks, early warning systems, nature-based solutions, disaster risk reduction in communities and resilience.

On 5 June 2025, Principal Secretary to the Prime Minister Pramod Kumar Mishra participated in the G20 Disaster Risk Reduction Working Group Roundtable at the Global Platform for Disaster Risk Reduction 2025.⁴⁴³³ At the event, Secretary Mishra reaffirmed India's commitment to strengthen international cooperation and introduced the African Union as a new member of the Coalition for Disaster Resilient Infrastructure.

On 7 June 2025, Prime Minister Narendra Modi delivered opening remarks at the International Conference on Disaster Resilient Infrastructure 2025, where he proposed the creation of a global digital repository to collect and share best practices for rebuilding after disasters.⁴⁴³⁴ Prime Minister Modi also called for expanded integration of disaster resilience into education and skill-building programs, alongside improved early warning systems and financing access for vulnerable regions.

On 17 June 2025, the Ministry of Home Affairs hosted the Annual Conference of Relief Commissioners and State Disaster Response Force Commanders.⁴⁴³⁵ The conference issued ten directives, including institutionalizing approaches to preparedness and mitigation, enhancing early warning systems, mobilizing 100,000 Aapda Mitra volunteers, scaling up low-cost, high-impact interventions for urban flood mitigation and integrating the PM Gati Shakti (National Master Plan for Multi-Modal Connectivity) into disaster plans.

On 2 July 2025, Minister of Jal Shakti (Water Resources) Chandrakant Raghunath Patil inaugurated C-FLOOD, a "web-based platform that provides advance forecasts of flood inundation maps and water level predictions."⁴⁴³⁶ The system was directed to be integrated into the National Disaster Management Emergency Response portal and widely disseminated across government agencies.

On 10 July 2025, India approved the release of INR10.668 billion from the State Disaster Response Fund to Assam, Manipur, Meghalaya, Mizoram, Kerala and Uttarakhand to address damages caused by floods and landslides during the southwest monsoon.⁴⁴³⁷

On 20 July 2025, Home Minister and Minister of Cooperation Amit Shah directed the formation of a multi-sectoral central team in response to the frequency and intensity of recent natural disasters in Himachal Pradesh.⁴⁴³⁸ The team included experts from the National Disaster Management Authority, the Central Building Research Institute Roorkee, the Indian Institute of Tropical Meteorology Pune, geologists and the Indian Institute of Technology Indore. This action aligns with the Sendai Framework by improving sub-national institutional collaboration to strengthen disaster risk governance.

On 30 July 2025, India issued a comprehensive set of strategic measures and collaborations for Glacial Lake Outburst Flood risk reduction across the Indian Himalayan Region. These measures include actions taken by the Department of Science and Technology, the Wadia Institute of Himalayan Geology and the Ministry of Jal

Shakti.⁴⁴³⁹ The Ministry of Jal Shakti further established a Steering Committee on Glacier Monitoring, with the National Institute of Hydrology as the Secretariat.

On 30 July 2025, the Indian Space Research Organization (ISRO) and the National Aeronautics and Space Administration (NASA) launched the NASA-ISRO Synthetic Aperture Radar satellite from Satish Dhawan Space Centre in Sriharikota Andhra Pradesh, India. ⁴⁴⁴⁰ The satellite will track changes in Earth's ecosystems providing actionable risk information for earthquakes, landslides and floods.⁴⁴⁴¹

On 14 August 2025, the Department of Telecommunications coordinated with telecom service providers, infrastructure providers, the Uttarakhand State Government, the Army and others to restore critical telecom connectivity in Uttarkashi's disaster-hit Bhatwadi–Gangotri region after a devastating cloudburst.⁴⁴⁴² Twenty-six telecom towers were revived, temporary towers were deployed, and intra-circle roaming arrangements were enabled to ensure uninterrupted coverage.

On 19 August 2025, Minister Shah chaired a meeting of the Parliamentary Consultative Committee on “Disaster Management and Capacity Building” in New Delhi, which included key officials from the National Disaster Response Force, National Disaster Management Authority, Ministry of Home Affairs and Fire Services.⁴⁴⁴³ In the meeting, Minister Shah emphasized the government's shift from a relief-centric to rescue-centric disaster management strategy, which entails the need for disaster awareness at the district level, as well as institutional reforms, technology adoption capacity building.

On 11 September 2025, the Jawaharlal Institute of Postgraduate Medical Education and Research, in cooperation with hospital, nursing, security, fire and ancillary services, conducted a tsunami mock drill as part of the disaster preparedness initiative of the Government of Puducherry.⁴⁴⁴⁴ The drill tested key preparedness components such as ambulance mobilization, inter-agency coordination, triage protocols evacuation procedures.

On 23 September 2025, the Ministry of Home Affairs issued a notification assigning responsibilities to various Central Government ministries and departments for disaster management, early warning, prevention, mitigation, preparedness and capacity-building, in accordance with the Disaster Management Act, 2005. ⁴⁴⁴⁵

On 7 October 2025, India approved and disbursed significant disaster response funding to multiple states.⁴⁴⁴⁶ Under the leadership Minister Shah, the government released INR136 billion from the State Disaster Response

Fund (SDRF) to 27 states for the 2025-26 fiscal year. Additionally, over INR20 billion was allocated to 12 states under the National Disaster Response Fund to aid disaster relief and recovery. Extra central assistance of INR7 billion was sanctioned to Assam and Gujarat for damages caused by floods and landslides, while INR9 billion was approved to modernize fire services in Haryana, Madhya Pradesh and Rajasthan.

India has fully complied with its commitment to accelerate international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. It has taken strong domestic action across three of the four Sendai Framework priorities through the government's commitment to increasing disaster preparedness, response and resilience. It has also supported international cooperation through the BRICS Joint Declaration and 2025-2028 Work Plan and disaster response for Myanmar.

Thus, India has received a score of +1.

Analysts: Mehek Berry and Dhira Dharmakusuma

Indonesia: +1

Indonesia has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 26 November 2024, Indonesia's Centre of Disaster Protection, the Disaster Mitigation Research Centre of the Bandung Institute of Technology and the Resilience Development Initiative hosted a seminar titled "Addressing Challenges in Advancing Disaster Risk Financing."⁴⁴⁴⁷ This collaboration aimed at exploring gaps and opportunities in Indonesia's disaster risk financing landscape, targeting the Sendai Framework's goals of strengthening disaster risk governance to manage disaster risk and investing in disaster risk reduction for resilience.

On 2 December 2024, the Australia-Indonesia Partnership on Disaster Risk Management held a four day Garda SIAGA Policy Bootcamp in Jakarta to strengthen disaster risk management and climate change adaptation policies.⁴⁴⁴⁸ The event featured expert discussions, peer learning and action planning, equipping national and local government agencies and local think tanks with tools and networks to advance inclusive disaster resilience prioritizing vulnerable groups such as women, people with disabilities, and indigenous communities.

On 3 December 2024, the National Disaster Management Agency conducted a five-day simulation and testing of its disaster information dissemination and preparedness response system in West Nusa Tenggara.⁴⁴⁴⁹ This action directly supports the Sendai Framework targets to reduce disaster mortality, strengthen national strategies and expand access to multi-hazard early warning systems and disaster risk information by 2030.

On 10 December 2024, the National Disaster Management Agency and the Indonesia Disaster Resilience Initiatives Project initiated the construction of four new Disaster Management Operations Control Centres in West Nusa Tenggara.⁴⁴⁵⁰ Funded by the World Bank, this initiative aims to strengthen subnational disaster

⁴⁴⁴⁷ Addressing Challenges in Advancing Disaster Risk Financing in Indonesia with Innovations and Lessons from Global Best Practices, Resilience Development Initiative (Bandung) 26 November 2024. Access Date: 25 March 2025.

⁴⁴⁴⁹ BNPB Gelar Ujicoba Sistem Desiminasi Informasi dan Respon Kesiapsiagaan Di Provinsi NTB, Proyek Prakarsa Ketangguhan Bencana Indonesia (Central Lombok) 5 December 2025. Translation provided by Analyst. Access Date: 25 March 2025. https://idrip-ina.org/pages/news_detail/89

⁴⁴⁵⁰ Peletakkan Batu Pertama Pembangunan Gedung Penanggulangan Bencana Pusdalops Di NTB, Proyek Prakarsa Ketangguhan Bencana Indonesia (West Nusa Tenggara) 10 December 2025. Translation provided by Analyst. Access Date: 25 March 2025. https://idrip-ina.org/pages/news_detail/90

response infrastructure in the outer islands and meet the Sendai Framework's target of reducing disaster damage to critical infrastructure and disruption of basic services.

On 23 December 2024, Indonesia's geophysics agency upgraded its quake detection and tsunami warning systems in Aceh, implementing sirens audible for 100 kilometres and immediate dispatch notifications via telephone and radio.⁴⁴⁵¹ This upgrade supports the Sendai Framework's targets of substantially increasing the availability of and access to multi-hazard early warning systems and disaster risk information and assessments, in turn, reducing the number of affected individuals.

On 5 March 2025, India attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁴⁵² G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 16 April 2025, the National Disaster Management Agency led a hybrid coordination meeting to prepare an integrated forest and land fire response.⁴⁴⁵³ The meeting involved representatives from the Coordinating Ministry for Political and Security Affairs, the Ministry of Environment, the Ministry of Forestry, the National Police Force, the Ministry of Communication and Digital Affairs, the Attorney General's Office and the Riau provincial government. Preparations included an early dry season readiness drill, weather modification operations, the deployment of one patrol helicopter and three water bombing helicopters and support for local personnel and equipment. Indonesia's preparatory actions support the Sendai Framework by strengthening governance, coordination, and proactive risk reduction to strengthen subnational disaster response infrastructures and meet the target of reducing disaster damage.

On 21 April 2025, the Indonesian Emergency Medical Team, under the National Disaster Management Agency, concluded its earthquake response in Myanmar through the TCK-EMT Indonesia Medical Centre, serving over 4,800 people across 15 days.⁴⁴⁵⁴ This action supports priority four of the Sendai Framework's by providing life-saving health services and strengthening international response coordination in the long run.

On 27 April 2025, the National Agency for Disaster Countermeasure held a public consultation on the draft regulation for the Disaster Risk Reduction Forum, aimed at formalizing its structure, coordination procedures and authority in collecting and analyzing disaster risk data.⁴⁴⁵⁵ The regulation establishes the forum as a platform to consolidate inputs from government, civil society, academia and the private sector to inform risk reduction policy. This initiative directly supports priority one of the Sendai Framework by institutionalizing the understanding of disaster risk through multi-stakeholder engagement and data-sharing mechanisms.

On 6 May 2025, the National Disaster Management Agency and the National Standardization Agency conducted a socialization event for the second phase of the revised Indonesian National Standard for Disaster

Resilient Villages.⁴⁴⁵⁶ This action aims to strengthen disaster risk governance by increasing community preparedness and incorporating improved indicators related to disaster risk reduction and sustainable development.

On 9 May 2025, Indonesia's representatives attended the BRICS Ministerial Meeting on Disaster Management in Brazil.⁴⁴⁵⁷ Representatives of the 11 members of BRICS signed a joint declaration at the meeting, recognizing the importance of disaster risk management, implementing the Sendai Framework, ensuring justice and equity and advancing sustainable resilience and development. BRICS also presented its 2025-2028 Work Plan which "outlines strategic goals and priorities to advance international cooperation in disaster risk management," with a focus on governance frameworks, early warning systems, nature-based solutions, disaster risk reduction in communities and resilience.

On 15 May 2025, the Regional Disaster Management Agency conducted a preparedness drill and simulation exercise for flood disaster management at Kebon Pelok, Harjamukti District, Cirebon City. The preparedness drill aimed to strengthen coordination among various stakeholders, including local government agencies, the National Armed Forces, National Police Force and community volunteers, to enhance readiness for potential hydrometeorological disasters.⁴⁴⁵⁸

On 2 June 2025, the National Disaster Management Agency delivered 3.4 tonnes of logistical aid, including 300 blankets, mattresses and essential supplies, to Nunukan Regency following severe flooding.⁴⁴⁵⁹

On 9 June 2025, the National Disaster Management Agency delivered logistical assistance to fire victims in Kapuk Muara, North Jakarta. The aid included 100 food packages, 100 mattresses and 10 family tents and was handed over to the evacuation post for immediate use by displaced residents.⁴⁴⁶⁰

On 10 June 2025, the Disaster Management Education and Training Center supported the launch of a Training of Trainers program in Palu for 30 religious leaders and facilitators.⁴⁴⁶¹ The training covered adult education, disaster preparedness planning and the development of disaster-resilient places of worship.

On 12 June 2025, President Prabowo Subianto announced a national USD80 billion plan to build a 700-kilometre seawall stretching from Banten to East Java. By inviting foreign investors, including partners from Japan and China, the seawall project aims to protect densely populated cities from flooding and land subsidence.

On 13 June 2025, the Directorate of Physical Recovery and Improvement convened a multi-agency coordination meeting in Sukabumi to accelerate post-disaster rehabilitation and reconstruction following severe weather events in late 2024.⁴⁴⁶² The session reviewed progress on a three-year IDR2.7 trillion recovery plan and

identified implementation gaps, with participation from national, provincial and regency-level officials. By promoting joint planning, financial alignment and on-site verification, the initiative supports more accountable and inclusive recovery processes.

On 17 June 2025, the Disaster Management Education and Training Center launched three core competency modules for inclusive disaster management facilitators during an event in Bandar Lampung.⁴⁴⁶³ Developed in collaboration with organizations for people with disabilities and humanitarian non-governmental organizations, the modules aim to build local capacity in risk reduction, preparedness and emergency response.

On 23 June 2025, the National Disaster Management Agency completed a public consultation to integrate Draft Technical Guidelines for Early Warning Response Systems into local contingency planning documents.⁴⁴⁶⁴

On 8 July 2025, the National Disaster Management Agency expanded its weather modification operations in Greater Jakarta by deploying a second aircraft and conducting six sodium chloride seeding sorties over coastal and inland areas.⁴⁴⁶⁵ A total of 2,000 kilogram of seeding material was dispersed to reduce the buildup of rain-laden clouds.

On 8 July 2025, the National Disaster Management Agency held a seminar in Batu City on digitizing disaster risk maps, in collaboration with the East Java Provincial Government and Swiss Development Cooperation.⁴⁴⁶⁶ The event brought together over 1,000 participants across sectors to promote the use of platforms like InaRISK for accessible, high-resolution risk data and early warning integration.

On 11 July 2025, the National Disaster Management Agency, in partnership with the ASEAN Coordinating Centre for Humanitarian Assistance, completed a Training-of-Trainers program in Bandung for 16 personnel to localize the ASEAN Emergency Response and Assessment Team (ASEAN-ERAT).⁴⁴⁶⁷ This action strengthens Indonesia's local disaster response capacity by equipping trainers to deliver ERAT-based disaster management training across the country.

On 15 July 2025, the Meteorology, Climatology and Geophysics Agency signed an Implementation Agreement with the Institute of Geoscience Timor-Leste in Jakarta to strengthen bilateral cooperation in geophysics.⁴⁴⁶⁸ The agreement establishes technical collaboration through expert exchanges, joint development of an earthquake information dissemination system in Timor-Leste and capacity-building programs via training and consultation services.

On 17 July 2025, the National Disaster Management Agency (BNPB) conducted a two-day disaster preparedness outreach at national high schools in the Jakarta area during the new academic year orientation

week.⁴⁴⁶⁹ BNPB integrated preparedness learning into school orientations to ensure hazard awareness, such as through introducing the inaRISK application, training evacuation procedures and promoting the use of disaster readiness bags.

On 23 July 2025, the National Disaster Management Agency hosted a community knowledge and preparedness webinar titled “The Role of inaRISK in Increasing Community Capacity for Disaster Preparedness.”⁴⁴⁷⁰ The session aimed to disseminate information about inaRISK, Indonesia’s disaster information application, to the widespread Indonesian community. The application operates by providing localised data on disaster threat levels, vulnerability and risk to optimize disaster prevention and mitigation recommendations in local communities.

On 23 July 2025, the National Disaster Management Agency, supported by the World Food Program, conducted a two day multi-stakeholder revision session of the existing 16-module Disaster Resilient Village (Destana) toolkit to integrate ASEAN Multi-Hazard Preparedness and Response Directive (AMPD) approaches.⁴⁴⁷¹ This revision aimed to strengthen the Destana module by embedding anticipatory action, early warning integration and community governance into village-level preparedness planning.

On 23 July 2025, the Meteorology, Climatology and Geophysics Agency (BMKG) inaugurated the Multi-Hazard Early Warning System Command Center in Jakarta, equipped with the high-performance supercomputer SMONG.⁴⁴⁷² The system enhances BMKG’s capacity to model and issue early warnings for multiple hazards, including extreme weather, earthquakes, tsunamis, and volcanic activity, by processing large-scale data with high speed and accuracy.

On 28 July 2025, the National Disaster Management Agency, through its Directorate of Logistics and Equipment Optimization, conducted a joint disaster response exercise with the Banjarnegara District Disaster Management Agency in Central Java.⁴⁴⁷³ The training involved 450 rapid response team personnel and volunteers in search and rescue, evacuation, first aid, and shelter management simulations, alongside a disaster equipment exhibition.

On 6 August 2025, the National Disaster Management Agency provided technical assistance to the Government of Muara Enim District in South Sumatra, for the establishment of a Disaster Logistics and Equipment Cluster.⁴⁴⁷⁴ The initiative introduced stakeholders to the global humanitarian cluster approach, trained officials on logistics coordination, and showcased the LAPOR LOGPAL application for real-time monitoring and reporting of aid distribution.

On 7 August 2025, BMKG conducted an In-House Training on earthquake early warning systems at its Regional Office in Makassar, involving participants from BMKG units across the country.⁴⁴⁷⁵ The training covered technical updates to the InaEEWS prototype, use of real-time seismic and geomagnetic data, artificial intelligence-based modelling, and calibration standards to improve the accuracy and reliability of earthquake early warning services.

On 8 August 2025, the National Disaster Management Agency in collaboration with private sector partners, organized a water-rescue and flood-mitigation training session along the Ciliwung River in Lenteng Agung, Jakarta.⁴⁴⁷⁶ The training featured presentations, demonstrations, hands-on in-water drills, river navigation using boats, flood-response techniques, personal protective equipment usage information and cardiac arrest procedures.

On 13 August 2025, the National Disaster Management Agency exhibited a myriad of disaster response equipment at the Emergency Disaster Reduction and Rescue Expo held at JIExpo Kemayoran, Jakarta.⁴⁴⁷⁷ The exhibit showcased advanced firefighting technologies, tank-style mobile units, modified motorcycles for on-the-ground response, weather modification aircrafts, water-bombing helicopters, inflatable boats with life vests for flood evacuation, as well as infrastructure models like refugee shelters, sanitation units and earthquake-resistant homes.

On 14 August 2025, BMKG participated in the Emergency Disaster Risk Reduction 2025 workshop on “Early Warning for All” in Jakarta.⁴⁴⁷⁸ BMKG Chief Dwikorita Karnawati emphasized multi-sector collaboration to strengthen Indonesia’s early warning systems, highlighting integration of artificial intelligence, the Internet of Things and geospatial data for faster tsunami alerts, while also stressing community education, local guidance and inter-agency coordination.

On 25 August 2025, the Meteorology, Climatology and Geophysics Agency, in coordination with the National Disaster Management Agency, the Indonesian National Armed Forces and local governments, launched Weather Modification Operations in Riau Province to prevent forest and land fires.⁴⁴⁷⁹ The operation, conducted from 24 to 31 August, aims to induce rainfall and maintain soil moisture in high-risk areas during peak dry conditions.

On 10 September 2025, the National Disaster Management Agency, in collaboration with the Ministry of Finance and the Environmental Fund Management Agency, held a seminar on the Disaster Pooling Fund during the fourth Asia Disaster Management and Civil Protection Expo and Conference in Jakarta.⁴⁴⁸⁰ The initiative aims to strengthen national and local financial resilience by developing a pooled disaster financing mechanism supported by the World Bank.

On 11 September 2025, the National Disaster Management Agency strengthened community-based tsunami early warning systems in West Sumatra through activities in Padang Pariaman and Pesisir Selatan Regencies.⁴⁴⁸¹ The program included advocacy meetings with local governments, training for disaster-resilient villages and the installation of tsunami sirens funded under the Indonesia Disaster Resilience Initiatives Project 2025.

On 18 September 2025, the National Disaster Mitigation Agency participated in virtual G20 disaster risk reduction talks and secured support from India, the United Kingdom, Norway and China to include Indonesia's proposed language in the ministerial resolution.⁴⁴⁸² In those talks the Indonesian delegation, led by Deputy for Systems and Strategies Raditya Jati, pushed for a preamble and provisions emphasizing resilience, inclusivity and global prioritization of disaster risk reduction.

On 19 September 2025, the Government of Indonesia via the Environmental Fund under the Ministry of Environment and Forestry introduced the world's first Disaster Pooling Fund to strengthen crisis financing.⁴⁴⁸³ Announced at the 2025 Asia Disaster Management and Civil Protection Expo, the fund is designed to enhance Indonesia's disaster management financing system more sustainably, through integrated fundraising, development and distribution.

On 24 September 2025, the National Disaster Management Agency held a briefing for its Rapid Response Team in Jakarta to strengthen disaster emergency operations.⁴⁴⁸⁴ Led by Deputy for Emergency Management Major General Budi Irawan, the training emphasized quick mobilization within 48 hours, coordination and professionalism in the field.

On 26 September 2025, the National Disaster Management Agency (BNPB) deployed a rapid response team to Situbondo and Banyuwangi, East Java, following a magnitude 5.7 earthquake.⁴⁴⁸⁵ Within 24 hours, BNPB officials, led by Director of Emergency Resource Support Agus Riyanto, coordinated with local authorities to assess damages and deliver emergency relief including family tents, food packages and basic supplies. The government declared a 14-day emergency response period and activated local command posts for coordination and recovery.

On 30 September 2025, the National Disaster Management Agency inaugurated nine members of its Advisory Council to strengthen coordination and policy guidance in disaster management.⁴⁴⁸⁶ Led by Head of BNPB Lieutenant General Suharyanto, the council will provide strategic input on prevention, emergency response and post-disaster rehabilitation, ensuring transparent and evidence-based decision-making. The initiative enhances institutional governance, inter-agency synergy and community participation in risk reduction.

On 2 October 2025, the Government of Indonesia and the United Kingdom launched a joint white paper on geohazard research, titled "UK-Indonesia Partnerships for Advancing Geohazard Science for Disaster Risk

Assessment in Indonesia,” aimed at strengthening disaster risk assessment and policy-making.⁴⁴⁸⁷ The initiative aims to boost Indonesia’s research capacity and ground policy decisions in scientific risk analysis and sets out strategic steps including integrating data systems, strengthening early warning systems and embedding disaster risk reduction into national development planning.

On 2 October 2025, the BNPB and Majapahit Islamic University jointly organized a socialization event introducing disaster information systems to cultivate a disaster-aware generation.⁴⁴⁸⁸ During this event, officials explained how platforms like inaRISK and local risk data can empower students and community members to understand hazards, vulnerabilities capacities in their areas.

On 2 October 2025, the National Disaster Management Agency launched the 2025–2029 National Disaster Management Strategic Plan during the National BPBD Heads Forum in Mojokerto, East Java.⁴⁴⁸⁹ Secretary-General Rustian emphasized that the plan promotes collaborative disaster governance across national and local levels to achieve sustained resilience, aligned with Indonesia’s 2025–2029 National Development Plan.

On 4 October 2025, the National Research and Innovation Agency (BRIN) introduced ARI (Akselerograf Rakyat Indonesia), an innovative prototype device that records ground acceleration during an earthquake to support seismic analysis and earthquake risk mitigation.⁴⁴⁹⁰ In collaboration with the Regional Disaster Management Agency (BPBD) of Cianjur Regency, BRIN began the localized deployment of ten ARI devices installed in different locations throughout Cianjur, enabling real-time monitoring of seismic activity and structural response. Aside from ARI, BRIN also showcased the Seismograf Rakyat Indonesia (SRI), a device that detects and records earthquake vibrations in real time, supporting the national seismic monitoring network, the Indonesia Structure Health Monitoring (INA-SHM) system, which monitors the structural health of buildings and infrastructure such as bridges, buildings dams to detect potential damage at an early stage, the AWLR IRTIGA, an automatic water level recorder equipped with telemetry for remote flood monitoring, the ADeL, a landslide early warning device equipped with ground movement sensors for high-risk areas more.

On 8 October 2025, the National Disaster Management Agency, via its Directorate of Disaster Mitigation, organized a technical training on building vulnerability assessment in Cimahi, West Java. The training was conducted at the Faculty of Engineering of Universitas Jenderal Achmad Yani (General Achmad Yani University) and involved 55 participants, including civil engineering students, academics officials from BPBD Cimahi and West Java.⁴⁴⁹¹

On 9 October 2025, the National Disaster Management Agency launched the digital application Sistem Informasi Pelayanan Rumah Tangga dan Perlengkapan at its training center in Bogor. The application is designed to streamline internal BNPB services, such as household and equipment management, inventory of state assets and grant data for emergency equipment to regional BPBDs. The application was piloted across several units prior to full deployment to ensure system readiness.⁴⁴⁹²

Indonesia has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Indonesia has taken strong action across priorities one, two and four of the Sendai Framework through the construction of Disaster Management Operations Control Centres, development of warning systems, holding drills and exercises, coordinating with intergovernmental authorities and providing disaster recovery support to Myanmar. It has also satisfied the international component of this commitment.

Thus, Indonesia receives a score of +1.

Analyst: Dhira Dharmakusuma

Italy: +1

Italy has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 4 December 2024, Deputy Minister of the Environment and Energy Security Vannia Gava announced EUR6 million in annual funding to support disaster risk management beginning in 2026.⁴⁴⁹³ The funding will support “key personnel for planning hydrogeological risk prevention interventions and managing environmental emergencies.”

On 20 December 2024, Deputy Minister of Foreign Affairs and International Cooperation Edmondo Cirielli approved over EUR115 million for emergency initiatives under the framework of humanitarian development cooperation.⁴⁴⁹⁴ This includes EUR66 million for response to floods and other climate disasters in Africa.

On 5 March 2025, Italy attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁴⁹⁵ G20 members agreed to advance South Africa’s six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 2 April 2025, Deputy Minister Cirielli announced EUR2 million in funding for the International Federation of Red Cross and Red Crescent Societies’ disaster response efforts in Myanmar after a large-scale earthquake.⁴⁴⁹⁶ The Minister noted that Italy is committed to long-term support for the country’s affected population.

On 2 April 2025, Deputy Minister Gava announced EUR589.6 million in funding for hydrogeological risk mitigation and management.⁴⁴⁹⁷ The resources will support public safety and environmental interventions.

On 30 April 2025, the Council of Ministers approved an amendment to decree number 61 from 1 June 2023 to enhance flood recovery and prevention efforts between 2027-2037 in Emilia-Romagna, Tuscany and

Marche.⁴⁴⁹⁸ This includes an additional EUR1 billion to address hydraulic and hydrogeological risks, enhancing public and private reconstruction efforts and increasing operational capacities. This action advances priority four of the Sendai Framework.

On 13 May 2025, the Ministry of the Interior, Ministry of Economy and Finance and the Civil Protection Department allocated EUR235 million to Italian cities impacted by severe flooding in 2023.⁴⁴⁹⁹

On 22 May, Civil Protection Department Head Fabio Ciciliano and A2A Chief Executive Officer Renato Mazzoncini signed a four-year Memorandum of Understanding to enhance cooperation in managing emergencies and routine operations.⁴⁵⁰⁰ The agreement outlines joint procedures and communication flows, the exchange of optimal emergency response solutions and shared training initiatives.

On 26 May 2025, Department Head Ciciliano hosted the National Institute of Geophysics and Volcanology's President Fabio Florindo and Director General Giovanni Torre to reaffirm their long-standing collaboration in forecasting and prevention activities such as ongoing seismic studies.⁴⁵⁰¹

On 28 May 2025, the National Inspectorate for Nuclear Safety and Radiation Protection was officially recognized as a centre of expertise within the Department of Civil Protection.⁴⁵⁰² This designation strengthens specialist support for assessing nuclear and radiological risks and formalizes years of collaboration during both emergencies and routine operations, including exercises.

On 30 June 2025, Italy's Civil Protection Department hosted the first day of the Observatory on good civil protection practices, gathering 30 municipalities to discuss the National warning system for hydrogeological and hydraulic risk.⁴⁵⁰³ On 7 July 2025, a second session with regions, autonomous provinces and national stakeholders showcased additional best practices and reinforced coordination to improve prevention, preparedness and response.⁴⁵⁰⁴

On 1 July 2025, Italy deployed 25 firefighters and forest firefighting volunteers, along with 11 vehicles, to southern France to assist with combating forest fires as part of the Union Civil Protection Mechanism's forest

fire pre-positioning project.⁴⁵⁰⁵ The Italian team, accompanied by a Civil Protection Department official, will operate in Provence and the Côte d'Azur in coordination with French counterparts, while a reciprocal deployment of French firefighters to Sardinia is planned for August.

On 8 July 2025, the Civil Protection Department of the Presidency of the Council of Ministers met to discuss good civil protection procedures and methods.⁴⁵⁰⁶ The national warning system for hydrogeological and hydraulic risks was discussed with methods developed to meet disasters based on regions.

On 15 July 2025, Vice Minister for International Cooperation Edmondo Cirielli oversaw the delivery of an Italian Cooperation cargo flight carrying humanitarian goods to Yangon, Myanmar.⁴⁵⁰⁷ The shipment, organized by the Ministry of Foreign Affairs, provided tents, tarpaulins, water purification units and emergency kits for populations affected by the March earthquake.

On July 22 2025, Italy signed a EUR250 million loan agreement with Banco do Brasil to support post-flood recovery and sustainable development in the Rio Grande do Sul region, which was severely impacted by the April 2024 floods.⁴⁵⁰⁸ Half of the funds are allocated specifically to recovery projects such as drainage improvements, infrastructure repair, small-medium sized businesses support and facility relocation, contributing to disaster risk reduction by increasing resilience to future extreme weather events.

On 27 July 2025, Italy sent two Canadair firefighting aircraft to Greece on 27 July 2025, in response to large forest fires near Athens, after a request made by the EU Emergency Response Coordination Centre.⁴⁵⁰⁹ The planes, which were activated as rescEU-IT resources under the European Civil Protection Mechanism, were accompanied by Italian representatives who ensured on-site cooperation with Greek authorities.

On 8 August 2025, Major Risks Commission for the West Nile Virus convened to assess the epidemiological framework.⁴⁵¹⁰ The Commission recommended implementing measures to curb the spread of the Culex Pipiens mosquito, strengthen health surveillance and physician training on summer fevers inform the public about mosquito-bite prevention and the relatively low risk of severe virus cases.

On 20 September 2025, the Prefecture of Matera coordinated the civil protection exercise “Firevac 2025” in Metaponto, Basilicata. The operation simulated a large coastal wildfire that isolated a tourist area, requiring the evacuation of visitors and staff by sea with support from the Port Authority of Taranto.⁴⁵¹¹ About 20

participants, including seniors, were rescued and transferred to a first-assistance area in Marina di Pisticci. The drill, monitored by drones and official observers, tested coordination, speed and efficiency among civil protection units, law enforcement, firefighters, health services and the Italian Red Cross.

On 23 September 2025, Abili a proteggere launched a new initiative focused on accessibility and inclusive communication: a civil protection glossary in Italian Sign Language.⁴⁵¹² The goal of the initiative was to raise awareness among deaf individuals about key civil protection concepts while equipping operators with basic Italian Sign Language tools to improve accessible communication during emergencies.

On 26 September 2025, the Civil Protection Department announced that an IT alert would be launched on 1 October in Lombardy to simulate a large dam collapse.⁴⁵¹³ By simulating the system, the team confirmed that cell towers in the affected area would deliver the required coverage in a real emergency. The test also demonstrated that the communication procedures established in the Dam Emergency Plan function as intended.

On 1 October 2025, Deputy Minister for the Environment and Energy Security Vannia Gava announced the allocation of EUR350 million to Italian regions for priority interventions to mitigate hydrogeological risk in 2025.⁴⁵¹⁴ The funding, fully covered by the Ministry of the Environment and Energy Security, will support projects aimed at protecting communities and safeguarding the territory. Gava highlighted that the newly approved Environment Decree strengthens the role of commissioners, simplifies administrative procedures and accelerates investment implementation.

Italy has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Italy has taken strong action towards priorities two, three and four of the Sendai Framework through funding for disaster recovery, the amendment of a decree on flood recovery and prevention, financing for local authorities to advance disaster risk management and investments for hydrogeological risk mitigation and management. Italy has also engaged in international cooperation for disaster risk reduction through disaster assistance for Myanmar and Africa.

Thus, Italy receives a score of +1.

Analyst: Madeline Medensky

Japan: +1

Japan has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 22 November 2024, Japan hosted and financially supported the United Nations Institute for Training and Research (UNITAR)'s "Leave No One Behind: Rapid Response to Climate Crises through Early Warning Systems" programme.⁴⁵¹⁵ This programme, which involved 29 changemakers from 11 Pacific small island countries, provided training and education of Japan's advanced disaster early warning system tools through

interactive expert lectures and study visits, enhancing international cooperation and increasing the availability of disaster risk information to developing countries.

On 6 December 2024, Japan concluded the first phase of the Shimanami Collective Women's Leadership in Disaster Risk Reduction Training in Hiroshima.⁴⁵¹⁶ This initiative, organized by UNITAR, equipped women leaders from across the Asia-Pacific region with skills and knowledge to strengthen disaster preparedness, in line with the Sendai Framework's priority to enhance disaster risk governance and promote inclusive resilience strategies.

On 9 December 2024, the Asian Disaster Reduction Center and the Japan International Cooperation Agency Kansai launched the Knowledge Co-Creation Program "Comprehensive Disaster Risk Reduction (Toward a Resilient Society)," which concluded on 20 February 2025.⁴⁵¹⁷ This program trained six government officials from Kosovo, Pakistan, Turkey, Vietnam and Yemen to develop and implement local disaster risk reduction plans, contributing to the Sendai Framework's target of substantially enhancing international cooperation to developing countries by 2030.

On 20 December 2024, Japan pledged USD1 million to support the International Organization for Migration (IOM)'s disaster risk reduction efforts in Rwanda.⁴⁵¹⁸ This contribution aims to strengthen community resilience against climate change and extreme weather events through "the development of partnerships between IOM and the Japanese private sector," directly supporting the Sendai Framework's global targets to reduce disaster mortality, economic loss and disruption of basic services by 2030.

On 19 February 2025, Japan's Ambassador to Micronesia Nobuo Kagomiya and Chief of Mission of IOM's Micronesia Office Salvatore Sortino signed an agreement whereby Japan will provide up to JPY605 million to strengthen disaster resilience in Pacific Island countries.⁴⁵¹⁹ The project will focus on improving water supply systems to enhance resilience against climate change and natural disasters.

On 5 March 2025, Japan attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁵²⁰ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 7 March 2025, Japan introduced the use of Spectee Pro, an artificial intelligence-driven real-time crisis management platform that analyzes social media data and other sources to deliver rapid, verified disaster information to relevant authorities.⁴⁵²¹ This initiative directly supports the Sendai Framework's target to substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information by 2030.

On 7 March 2025, Japan hosted the World Bosai Forum 2025 in Sendai, reinforcing its leadership role in disaster risk reduction.⁴⁵²² The forum addressed global warming and climate change-induced risks and convened global stakeholders from government, academia and industry to promote collaboration under the Sendai Framework for Disaster Risk Reduction.

On 7 March 2025, Japan's Ambassador to Laos Tsutomu Koizumi and Chief Executive Officer of the Mekong River Commission Secretariat Busadee Santipitaks signed an agreement whereby Japan will provide up to JPY725 million for disaster risk management in the Lower Mekong Basin.⁴⁵²³ This project will focus on flood and drought early warning systems, adaptation and response capabilities, in line with priorities one and three of the Sendai Framework.

On 24 March 2025, the Japan International Cooperation Agency and Government of the Philippines signed two agreements whereby Japan will provide official development assistance for a range of issues.⁴⁵²⁴ This includes JPY45,759 million for a project to mitigate flood damage by the Pasig-Marikina River in Metro Manila and JPY14,483 million for a flood prevention and mitigation project in Cavite Province.

On 26 March 2025, Director-General of the International Cooperation Bureau at the Ministry of Foreign Affairs Hideo Ishizuki and Head of the United Nations Industrial Development Organization's Investment and Technology Promotion Office in Tokyo Fumio Adachi signed a JPY104.703 million agreement to enhance Rio Grande do Sul's disaster resilience.⁴⁵²⁵ The agreement focuses on improving disaster resilience in industries including agriculture through disaster prevention policies, infrastructure improvements and increased awareness.

On 26 March 2025, Minister of the Environment Keiichiro Asao met with Brazil's Minister of Environment and Climate Change Marina Silva during the Brazilian state visit to Japan to strengthen technical and financial cooperation between the two countries in terms of their climate change adaptation, including in early warning systems for extreme weather events.⁴⁵²⁶ This cooperation will enable both countries to further develop systems for mitigating disaster risk.

On 21 April 2025, Japan and World Bank's Tokyo Disaster Risk Management Hub hosted a knowledge exchange for a delegation of Uzbek energy sector officials.⁴⁵²⁷ The exchange focused on sharing Japan's experience in disaster risk management and resilient energy systems, aligning with Priority One of the Sendai Framework to promote the use of multi-dimensional risk knowledge to inform prevention, mitigation, preparedness and response efforts.

On 21 April 2025, the National Research Institute for Earth Science and Disaster Resilience and Taiwan's National Science and Technology Center for Disaster Reduction renewed their Memorandum of Understanding.⁴⁵²⁸ This partnership focuses on joint research in areas such as earthquakes, storms, floods, landslides, climate-related risks, post-disaster field surveys and capacity-building initiatives. The renewed agreement aims to deepen scientific cooperation and enhance the effective use of disaster risk reduction technologies, particularly in the Asia-Pacific region, aligning with priority two of the Sendai Framework to strengthen disaster risk governance through international collaboration and partnerships.

On 6 June 2025, Japan approved a JPY20 trillion project aimed at enhancing the disaster resilience of its infrastructure over the next five years.⁴⁵²⁹ The plan allocates JPY10.6 trillion for “the maintenance of vital services, which include aging infrastructure, such as transportation, communication energy,” JPY5.8 trillion for disaster prevention infrastructure, including erosion control dams and river embankments JPY1.8 trillion for disaster preparedness.

On 1 July 2025, the Central Disaster Management Council of Japan implemented a revised disaster-prevention plan with new mitigation targets for the anticipated Nankai Trough megaquake coming within the next 30 years.⁴⁵³⁰ The revised plan aims to reduce the projected death toll by 80 per cent and to halve the number of buildings expected to be destroyed in the event. These revisions are supported by 205 specific measures for ministries, agencies, local governments and private sector actors, including the development of tsunami evacuation routes, regular disaster drills, stockpiling of supplies and the establishment of comfortable evacuation centers.

On 14 July 2025, the Japan International Cooperation Agency signed a grant agreement to support the emergency rehabilitation of infrastructure damaged by an earthquake in Vanuatu, including the reconstruction of a key bridge, rehabilitation of transport and health facilities and procurement of maintenance equipment.⁴⁵³¹

On 16 July 2025, Japan and Guinea signed an agreement, whereby Japan will provide JPY400 million in grant aid under the “Economic and Social Development Programme” for firefighting equipment.⁴⁵³² This action addresses Guinea's high fire danger during the dry season by increasing its firefighting capability and disaster response capabilities.

On 22 July 2025, Japan and the European Union reaffirmed their commitment to global stability, resilience and disaster risk reduction with a Joint Statement that emphasized deeper strategic collaboration.⁴⁵³³ The establishment of the EU-Japan Competitiveness Alliance promotes risk reduction through supply chain diversity, protection from economic coercion, and the development of vital technology.

On 26 July 2025, Japan and the Maldives signed an agreement, whereby Japan will provide grant aid of JPY1.555 billion for the Project for Improving Disaster Resilience on Male Island.⁴⁵³⁴ The plan prioritizes barrier building, revetments and stormwater drainage upgrades to mitigate the island's severe susceptibility to climate change-induced disasters like as storm surges, floods, and excessive rainfall.

On 29 July 2025, the Japan International Cooperation Agency signed a grant agreement with the Turkish government to give up to JPY3.8 billion for the Programme for the Rehabilitation and Reconstruction of Earthquake-affected Areas.⁴⁵³⁵ The initiative comprises 11 provinces affected by recent earthquakes and aims to improve municipal disaster resilience and health systems in accordance with Build Back Better.

On 5 August 2025, the Digital Agency of Japan established the Digital Disaster Assistance Team (D-CERT).⁴⁵³⁶ D-CERT works by convening digital specialists from the private sector and government to deploy immediately after disasters, directly embedding digital support into disaster response across jurisdictions.

On 5 August 2025, Japan and the IOM signed an agreement whereby Japan will provide JPY578 million in grant aid to Myanmar to improve its living environment and health services post-earthquake.⁴⁵³⁷ This project responds to the effects of the magnitude 7.7 earthquake on 28 March, 2025 by reconstructing damaged houses and health facilities, as well as offering mental health and psychological treatment to impacted communities.

On 8 August 2025, Japan and Peru signed an agreement, whereby Japan will provide grant aid of JPY300 million, under the “Economic and Social Development Programme,” including fire engines and water carts to help Peru’s disaster response capabilities.⁴⁵³⁸ This effort directly helps to disaster risk reduction by strengthening Peru’s ability to respond to regular forest fires and other natural catastrophes, reducing damage and protecting livelihoods.

On 1 September 2025, Prime Minister Shigeru Ishiba, alongside all cabinet members, participated in the Fiscal Year 2025 Comprehensive Disaster Management Drills. These drills modeled simultaneous earthquakes under Tokyo and the Nankai Trough, followed by Prime Minister Ishiba convening the first Emergency Disaster Management Headquarters meeting.⁴⁵³⁹

On 9 September 2025, the Japan International Cooperation Agency signed a grant agreement with the Government of Maldives to support the Project for Disaster Resilience Enhancement in Malé Island.⁴⁵⁴⁰ The JPY1.56 billion grant will fund seawall rehabilitation, stormwater drainage equipment and consulting services to reduce damage from waves and heavy rain.

On 19 September 2025, Japan extended an emergency grant of USD1 million to Afghanistan through international organizations in areas as food, health and medical care Water, Sanitation and Hygiene, in response to damages caused by earthquakes that struck eastern Afghanistan.⁴⁵⁴¹ Additionally, the Japan also approved the decision of the Japan Platform to provide humanitarian assistance of approximately USD1.33 million to the same cause, financed by national grants.

On 24 September 2025, Japan, through its Embassy in Fiji and in collaboration with the International Organization for Migration, handed over early warning system equipment to Fiji's National Disaster Risk Management Office.⁴⁵⁴² The handover included Starlink communication devices and tsunami warning signage, set to serve remote island communities such as Ono-i-Lau. This action was completed following Japan's contribution of approximately USD1.5 million to the "Project for Upscaling Early Warning Systems in the Pacific," which targets Fiji, Papua New Guinea Vanuatu.

On 10 October 2025, the Ministry of Foreign Affairs and the Japan International Cooperation Agency delivered emergency relief goods to Vietnam in response to local damage caused by recent typhoons.⁴⁵⁴³ The assistance, which included blankets, jerry cans other essential items, was provided following a bilateral request from the Vietnamese government, in aims of supporting communities facing disaster-driven loss of housing, infrastructure damage displacement.

On 10 October 2025, the Ministry of Foreign Affairs and the Japan International Cooperation Agency delivered emergency relief goods to the Central Philippines in response to local damage caused by recent earthquakes.⁴⁵⁴⁴ The assistance, which included tents, blankets, plastic sheets, sleeping pads, jerry cans water purifiers, was provided following a bilateral request from the Philippines government, in aims of supporting communities affected by the earthquake.

Japan has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Japan has taken strong action across all four priorities of the Sendai Framework through projects focused on early warning systems, training for disaster preparedness and risk reduction, a real-time crisis management platform and funding for disaster resilience and mitigation. It has also advanced international cooperation through agreements with Brazil, Laos, the Philippines, the IOM and the United Nations Industrial Development Organization.

Thus, Japan receives a score of +1.

2025.⁴⁵⁵¹ The plan will focus on inspecting vulnerable facilities, providing weather information to strengthen ship safety and proactive evacuations in the event of natural disasters like floods, earthquakes and tsunamis.

On 14 May 2025, Korea announced its comprehensive “2025 Summer Natural Disaster Countermeasure Plan” to strengthen disaster preparedness for extreme weather.⁴⁵⁵² The plan outlines enhanced efforts to prevent damage from landslides, river flooding and underground flooding. It also prioritizes monitoring the North and South Gyeongsang regions which have been recently impacted by wildfires and are more susceptible to heat-related deaths.

On 5 June 2025, the Korea Disease Control and Prevention Agency launched SAVE, the first national archive for disease disaster response data, consolidating information from government and related agencies into a single platform.⁴⁵⁵³ The archive supports faster, more coordinated responses to public health emergencies through centralized data access, customized issue tracking and timeline services.

On 24 June 2025, the Ministry of the Interior and Safety approved amendments to the Enforcement Decree of the Framework Act on the Management of Disasters and Safety.⁴⁵⁵⁴ The revisions strengthen disaster and safety information management by regulating integrated CCTV control centres with artificial intelligence safeguards, setting conditions for requesting disaster-related video data and establishing a legal basis for the Safety E-Report system for citizen hazard reporting.

On 30 June 2025, the Ministry of Foreign Affairs conducted an emergency simulation exercise and safety mission in Bolivia to assess crisis response preparedness for Korean nationals living abroad.⁴⁵⁵⁵ The exercise tested coordination among diplomatic, police and civilian agencies under a scenario of political unrest.

On 1 July 2025, the Systematic Management and Active Use of Disaster and Safety Information for Public Protection Cabinet meeting was held to discuss the ongoing implementation of disaster preparedness information to residents.⁴⁵⁵⁶

On 15 July 2025, Korea held an emergency meeting of the Central Safety Management Public-Private Cooperation Committee.⁴⁵⁵⁷ The meeting focused on next steps for the implementation of the Public-Private Rapid Disaster Response Team to respond to increasing heatwaves.

On 30 July 2025, the APEC Emergency Preparedness Meetings for International Cooperation on Disaster Risk Reduction took place in Songdo, Incheon.⁴⁵⁵⁸ Disaster management delegations from APEC member economies gathered to discuss disaster risk reduction strategies for the Asia-Pacific region.

On 1 August 2025, APEC officials converged to pledge and strengthen their commitment to one another in the face of growing risks.⁴⁵⁵⁹ The 2025 APEC Senior Disaster Management Officials' Forum in Incheon brought together leaders from across the Asia-Pacific to strengthen collective disaster risk reduction efforts, emphasizing partnership, technology multi-level governance to build regional resilience and translate policy discussions into cooperative action.

On 17 September 2025, the National Science and Technology Center for Disaster Reduction and the National Disaster Management Research Institute signed a Memorandum of Understanding, reaffirming both Taiwan and Korea's shared commitment to strengthening regional disaster management and resilience.⁴⁵⁶⁰

On 1 October 2025, Korea participated in the International Disaster Resilience Leaders Forum in Incheon, Republic of Korea.⁴⁵⁶¹ The forum brought together over 300 local leaders, government officials, technical experts and international organizations from across Northeast Asia and beyond to exchange knowledge and innovative practices in disaster risk reduction.

Korea has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Korea has taken strong action towards priorities one, three and four of the Sendai Framework through its Summer Natural Disasters plan and disaster management plan for oceans and fisheries, funding for Cambodia's climate resilience project and initiative to restore broadcasting and telecommunications services after wildfires. It has supported international cooperation through its initiative with Cambodia.

Thus, Korea receives a score of +1.

Analyst: Madeline Medensky

Mexico: +1

Mexico has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 27 November 2024, the National Coordinator of Civil Protection (CNPC) Laura Velázquez Alzúa held a meeting with Brigadier General of the General Staff Roberto Carlos Sánchez Vázquez to strengthen the prevention measures for the risk created by pyrotechnic artifices as the Christmas season arrives.⁴⁵⁶² The

meeting helped take precautions against any fire risk that fireworks might bring and preserve the community's safety.

On 3 December 2024, the National Center for Disaster Prevention convened the talk “Inequality in disasters: differentiated impacts and challenges for women” to highlight how gender differences affect experiences during a disaster.⁴⁵⁶³ This event raised awareness of different factors such as ethnic group or socioeconomic status which might influence the extent to which a disaster impacts an individual.

On 8 January 2025, the CNPC announced the Approved National Operational Plan of the Popocatepetl Volcano which organizes the coordination of three levels of government to take precautionary measures against possible disasters.⁴⁵⁶⁴ This comprehensive plan allows risk management, increasing Mexico's preparedness for any disaster and ensuring public safety.

On 14 January 2025, the Mexican Delegation to Los Angeles, California for firefighting operations reported that numerous actions were taken in collaboration with the California authorities.⁴⁵⁶⁵ This collaboration reflects Mexico's commitment to international cooperation to fight against natural disasters.

On 5 February 2025, the Secretariat of Security and Citizen Protection held the “National Civil Protection Meeting” aimed at establishing joint prevention strategies to fight against the 2025 forest fire season.⁴⁵⁶⁶ This meeting allowed the planning of many actions related to fire management, including fire protection workshops, the training of the members of Sinaproc and inter-institutional coordination.

On 5 March 2025, Mexico attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁵⁶⁷ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 14 March 2025, the National Center for Disaster Prevention held the seminar titled “Application of remotely piloted aircraft systems in civil protection,” aiming to teach the use of aircraft systems in civil protection-related activities.⁴⁵⁶⁸ The objectives obtained from this seminar highlighted the importance of implementing new technologies to risk management strategies.

On 11 April 2025, Coordinator Alzúa and Governor of Veracruz Norma Rocío Nahle García held a working meeting where preventive and coordinated measures for integral risk management were discussed.⁴⁵⁶⁹ The meeting allowed the discussion of coordination strategies between the three levels of government against the forest fires and the preventive actions required for the upcoming rainy season.

On 13 May 2025, the CNPC led a meeting with authorities of the three levels of government to discuss prevention strategies for fighting against forest fires, rains, tropical cyclones and seismic events.⁴⁵⁷⁰ The meeting emphasized the importance of continuous work towards building prevention strategies and to keep the municipal and state risk atlas updated.

On 7 June 2025, the National Center for Disaster Prevention (CENAPRED) participated in the Eighth Global Platform for Disaster Risk Reduction in Geneva.⁴⁵⁷¹ CENAPRED emphasized anticipatory and systemic approaches to risk governance, showcased technological innovations like the National Risk Atlas and early warning systems and shared national strategies such as the National Strategy for Resilient Communities and CERT training.

On 18 June 2025, the Secretariat of Security and Citizen Protection organized a multi-agency response to Hurricane Erick with over 18,000 personnel from the military, navy, civil protection and infrastructure agencies.⁴⁵⁷² Preventive protocols, such as the identification of risk areas, the establishment of evacuation routes, the activation of temporary shelters and the deployment of emergency plans, were implemented in the states of Guerrero and Oaxaca.

On 30 June 2025, Mexico deployed preventative measures and an inter-agency Liaison and Coordination Mission in Colima ahead of Tropical Storm Flossie.⁴⁵⁷³ Authorities at various levels of government activated preparatory measures, such as public evacuation recommendations, storm shelters, family protection plans and real-time monitoring of meteorological hazards.

On 1 July 2025, Mexico directed a Liaison and Coordination Mission to Tamaulipas to help with aid and relief operations following Hurricane Barry's heavy rains.⁴⁵⁷⁴ The Ministry of National Defense and Ministry of the Navy deployed qualified troops and rescue equipment and conducted damage assessments, identification of

vulnerable regions, delivery of humanitarian supplies, preventive evacuations and restoration of important services, as well as public advisories to avoid flooded areas and obey official orders.

On 7 July 2025, CENAPRED in collaboration with the CopernicusLAC Panama Centre and the European Union Delegation to Mexico, launched a regional training program on the use of remote sensing technologies for environmental protection and forest management.⁴⁵⁷⁵ The workshop drew 27 participants from Mexico, Chile, Peru, Guatemala and Panama and intended to improve institutional capacity in Earth Observation techniques for environmental monitoring, disaster planning and risk reduction. Participants received advanced training in using Copernicus satellite data to assist informed decision-making, sustainable land management and resilience building in Latin America and the Caribbean.

On 10 October 2025, General Director of CENAPRED Enrique Guevara Ortiz and General Director of the Mexican Institute of Water Technology Patricia Herrera Ascencio signed an agreement to work collaboratively on the improvement of comprehensive risk management in areas including training of human resources and focus on research development.⁴⁵⁷⁶ This agreement will strengthen both parties in their risk management activities while allowing a know-how exchange between the institutions.

Mexico has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Mexico has taken strong action to understand disaster risk, strengthen disaster risk governance and enhance disaster preparedness for effective response and to “Build Back Better” through preventative measures, the deployment of personnel, inter-agency coordination to assist with disaster recovery and relief and the launch of a regional training program for Latin America and Caribbean. Mexico has also taken action across the commitment by discussing disaster prevention, launching the Approved National Operational Plan which focuses on intergovernmental coordination and collaborating with the United States for firefighting operations. In doing so, it has engaged in international cooperation.

Thus, Mexico receives a score of +1.

Saudi Arabia: +1

Saudi Arabia has fully complied with its commitment to accelerate international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 2 December 2024, Minister of Environment, Water and Agriculture Abdulrahman Al-Fadley announced the Riyadh Global Drought Resilience Partnership Initiative during the 16th session of the Conference of the Parties to the UN Convention to Combat Desertification (UNCCD COP16).⁴⁵⁸⁵ Saudi Arabia will allocate USD150 million to the initiative over the next ten years to support disaster risk preparedness by assessing drought risks, improving early warning systems, promoting sustainable agriculture and investing in better water infrastructure and drought-resistant crops, in line with priority four of the Sendai Framework.

On 4 December 2024, Vice Minister of Environment, Water, and Agriculture Mansour Al Mushaiti inaugurated the "Saudi Green Building Forum and the Role of Civil Society Organizations in Combating Desertification" event.⁴⁵⁸⁶ He highlighted Saudi Arabia's commitment to addressing desertification through sustainable development strategies and signed a Memorandum of Understanding with the forum to cooperate for sustainability across various sectors.

On 10 December 2024, the Ministry of Environment, Water and Agriculture and King Abdullah University of Science and Technology launched the International Water Research Center.⁴⁵⁸⁷ The center aims to advance global efforts in tackling water-related challenges including water security and pollution to support drought and land resilience.

On 11 December 2024, Saudi Arabia announced a sand and dust storm monitoring initiative to be monitored by the World Meteorological Organization at UNCCD COP16.⁴⁵⁸⁸ The initiative aims to expand global early warning system capacity. Saudi Arabia will provide USD10 million for this initiative over the next five years, supporting priorities one and three of the Sendai Framework.

On 12 February 2025, Saudi Arabia and other participants of the Sixth Arab Regional Platform for Disaster Risk Reduction session signed the Kuwait Declaration on Disaster Risk Reduction.⁴⁵⁸⁹ The declaration emphasizes the importance of implementing the Sendai Framework, calls on Arab governments and stakeholders to expand cooperation through the Arab Coordination Mechanism for Disaster Risk Reduction, strengthen disaster risk governance and increase financing for disaster risk management and reiterates the participants' commitment to this cause.

On 16 February 2025, Deputy Minister for Water at the Ministry of Environment, Water and Agriculture Abdulaziz Alshaibani highlighted Saudi Arabia's commitment to sustainable development through strategic partnerships during a dialogue session at Water and Energy Exchange Global 2025 in Spain.⁴⁵⁹⁰

On 5 March 2025, Saudi Arabia attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁵⁹¹ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 23 March 2025, the Saudi National Center for Meteorology reaffirmed its support for the United Nations' Early Warnings for All initiative on World Meteorological Day.⁴⁵⁹² The center also highlighted its previous investments in meteorological infrastructure, including the expansion of its early warning system to enhance resilience and actions to raise public awareness.

On 9 May 2025, Saudi Arabia's representatives attended the BRICS Ministerial Meeting on Disaster Management in Brazil.⁴⁵⁹³ Representatives of the 11 members of BRICS signed a joint declaration at the meeting, recognizing the importance of disaster risk management, implementing the Sendai Framework, ensuring justice and equity and advancing sustainable resilience and development. BRICS also presented its 2025-2028 Work Plan which "outlines strategic goals and priorities to advance international cooperation in disaster risk management," with a focus on governance frameworks, early warning systems, nature-based solutions, disaster risk reduction in communities and resilience.

On 25 July 2025, the King Salman Humanitarian Aid and Relief Center launched a volunteer training project in Aden Governorate, Yemen.⁴⁵⁹⁴ The effort featured a "Life Ambassador Trainer" training in first aid for 15 participants, as well as a crisis and catastrophe management course for 84 participants.

On 18 September 2025, at the G20 Agriculture Ministers' Meeting, Saudi Arabia established a Food Security Authority and launched an integrated digitized early warning system for supply chain risks to address and minimize food insecurity.⁴⁵⁹⁵

On 26 September 2025, the National Risk Council Secretariat introduced the Saudi Arabia Resilience Index, crafted around the Sendai Framework's four priorities, to aid in measuring national preparedness and strengthen risk governance.⁴⁵⁹⁶

Saudi Arabia has fully complied with its commitment to accelerate international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. South Africa: +1

South Africa has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 2 December 2024, the Ministry of Forestry, Fisheries and the Environment announced that Deputy Minister of Forestry, Fisheries and the Environment Bernice Swarts will lead South Africa's delegation at the 16th Conference of the Parties to the United Nations Convention to Combat Desertification in Riyadh between 2 December and 13 December 2024.⁴⁵⁹⁷ The conference is expected to include discussions on drought preparedness, resilience and management, increasing investment and enhancing international cooperation for desertification.

On 5 March 2025, South Africa hosted the first G20 Disaster Risk Reduction Working Group meeting under its G20 presidency.⁴⁵⁹⁸ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 12 March 2025, Minister of Finance Enoch Godongwana announced the allocation of ZAR1.7 billion over the next three years to enhance disaster management and preparedness.⁴⁵⁹⁹ The funding aims to strengthen municipal-level response capacity and ensure faster mobilization in the face of climate shocks. Minister Godongwana also announced the provisional allocation of ZAR4 billion to support recovery efforts for past disasters.

On 28 March 2025, the Department of Forestry, Fisheries and the Environment launched its Second National Coastal Management Programme for the 2025–2030 period.⁴⁶⁰⁰ The plan focuses on climate resilience, disaster risk reduction, ecosystem protection and enhancing governance while promoting sustainable coastal livelihoods.

On 31 March 2025, Minister of Cooperative Governance and Traditional Affairs Velenkosini Hlabisa announced ZAR1.440 billion in funding for disaster recovery and reconstruction in 60 cities and provincial sector departments across six provinces.⁴⁶⁰¹ This financing will support local authorities in responding to heavy precipitation, floods, thunderstorms and strong winds. The National Disaster Management Centre also

classified these weather events as natural disasters under the Disaster Management Act to improve disaster governance by requiring multisectoral collaboration, status reports and coordination by the National Executive.

On 9 May 2025, South Africa's representatives attended the BRICS Ministerial Meeting on Disaster Management in Brazil.⁴⁶⁰² Representatives of the 11 members of BRICS signed a joint declaration at the meeting, recognizing the importance of disaster risk management, implementing the Sendai Framework, ensuring justice and equity and advancing sustainable resilience and development. BRICS also presented its 2025-2028 Work Plan which "outlines strategic goals and priorities to advance international cooperation in disaster risk management," with a focus on governance frameworks, early warning systems, nature-based solutions, disaster risk reduction in communities and resilience.

On 28 June 2025, Minister of Cooperative Governance and Traditional Affairs Velenkosini Hlabisa led a community outreach program in Kliptown, Soweto in preparation for the G20 Disaster Risk Reduction Working Group engagements.⁴⁶⁰³ He engaged directly with residents to assess vulnerabilities such as poor housing infrastructure, unsafe electrical connections and recurring flooding. The outreach included public exhibitions on disaster preparedness, early warning systems and risk reduction initiatives, with the goal of increasing community awareness and resilience.

On 2 July 2025, Minister Hlabisa stated that the Municipal Disaster Response Grant and Disaster Recovery Grant will be distributed to provinces and municipalities respectively.⁴⁶⁰⁴ These funds are designed to provide immediate aid and help rehabilitation efforts in areas hit by severe weather in April 2025, particularly in the Eastern Cape.

On 22 September 2025, the Department of Cooperative Governance and Traditional Affairs and the National Disaster Management Centre presented new coastal dune restoration in KwaZulu-Natal and the Western Cape at a G20 Disaster Risk Reduction outreach event in Cape Town.⁴⁶⁰⁵

South Africa has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. South Africa has taken strong action across priorities one, two and four of the Sendai Framework through its Second National Coastal Management Programme and funding for disaster preparedness and recovery. It has also engaged in international cooperation through the BRICS Joint Declaration and Work Plan.

Thus, South Africa receives a score of +1.

country.⁴⁶⁰⁶ This action aims to enhance disaster recovery and preparedness in the country after long-term turmoil and extreme weather conditions.

On 13 February 2025, the Disaster and Emergency Management Presidency held the “Search Conference on Reducing and Managing Climate-Induced Disaster Risks” at TED University in Ankara.⁴⁶⁰⁷ The conference focused on building a common language and establishing a roadmap to reduce and manage climate-related disasters.

On 5 March 2025, Türkiye attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁶⁰⁸ G20 members agreed to advance South Africa’s six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 11 March 2025, the Directorate of Climate Change released Local Climate Change Adaptation Strategies and Action Plans for the 2025-2030 period in four pilot cities: Muğla, Konya, Samsun and Sakarya.⁴⁶⁰⁹ The plans include long-term strategic goals such as developing integrated databases, risk information systems and multi-hazard warning systems and improving erosion control systems to enhance disaster risk management. This advances priority two of the Sendai Framework.

On 17 March 2025, the Minister of Internal Affairs Ali Yerlikaya released an official notice to all municipalities to take preventive action against any flood and landslide risks, highlighting the importance of disaster risk assessments for areas where critical facilities and infrastructures are located.⁴⁶¹⁰ The notice also encourages municipalities to use early warning systems and educate the communities on how to act in cases of natural disaster.

On 24 March 2025, the Disaster and Emergency Management Presidency and Istanbul Technical University signed a protocol under the Marmara Region Disaster Risk Reduction Plan to develop a more data-focused and proactive risk management plan.⁴⁶¹¹ This cooperation aims to increase the region’s resilience the inclusion of artificial intelligence-support Geographic Information Systems in risk prevention planning. This action addresses priority one of the Sendai Framework.

On 30 April 2025, President Recep Tayyip Erdoğan announced an increase in subsidy amounts grants, loans and relocation assistance for Istanbul’s “Half is on Us.”⁴⁶¹² Grants and loans have been increased from

TRY700,000 to TRY875,000 and relocation assistance is raised from TRY100,000 to TRY125,000. This action aims to support more resilient buildings and reduce risk against earthquakes and other disasters.

On 8 May 2025, Minister of Environment, Urbanization and Climate Change Murat Kurum announced the establishment of the Istanbul Urban Transformation Commission, following the Earthquake Transformation Evaluation Meeting.⁴⁶¹³ The commission will accelerate the urban transformation process and the consideration process for requests submitted by municipalities.

On 26 May 2025, the Disaster and Emergency Management Presidency announced the commencement of Türkiye's Post-Disaster Recovery Plan.⁴⁶¹⁴ The plan focuses on ensuring effective post-disaster recovery, developing inter-institutional coordination, improving disaster management capabilities and ensuring reconstruction enables sustainable and resilient development.

On 6 June 2025, President of the Disaster and Emergency Management Presidency Ali Hamza Pehlivan highlighted the importance of school safety during his speech on disaster prevention strategies at GP2025 organized by United Nations Office for Disaster Risk Reduction in Geneva.⁴⁶¹⁵ This speech emphasized the importance of building schools resistant to natural disasters.

On 21 June 2025, the Presidency of Disaster and Emergency Management held a Disaster and Emergency Board Meeting where issues such as Marmara Region's disaster risk management, coordination between organizations during crisis management, preparation for island-centred earthquake scenarios were discussed.⁴⁶¹⁶ The meeting allowed gathering professionals and creating impactful policies for disaster prevention.

On 23 June 2025, Ali Hamza Pehlivan held a meeting with Deputy Director of the China Earthquake Department Ni Yuewei and his committee on natural disaster prevention and possible cooperation.⁴⁶¹⁷ The meeting allowed a knowledge transfer on technological infrastructure used for earthquake observations and the observation of common areas for future collaboration between parties.

On 2 July 2025, Türkiye activated its Disaster Response Plan to combat forest fires across various provinces, coordinating operations among government organizations including the Disaster and Emergency Management Authority, Forestry Department, the Ministry of National Defense and the Turkish Red Crescent.⁴⁶¹⁸ The reaction included the evacuation of 55 communities, medical care for 203 residents, damage assessments, the supply of emergency housing in containers and the distribution of TRY62 million in humanitarian help.

On 2 July 2025, Turkey passed its first Climate Law, laying the legal and institutional groundwork for lowering greenhouse gas emissions and improving climate change adaption.⁴⁶¹⁹ The legislation promotes catastrophe risk reduction by requiring national and municipal climate action plans, developing early warning systems, encouraging sustainable land and water usage, incorporating climate resilience into education and establishing a national emissions trading system.

On 3 July 2025, the Ministry of Environment, Urbanization and Climate Change finalized a draft conservation and management action plan for the Patara Specially Protected Area as part of the Mediterranean-wide “Enhancing Ecosystem Resilience in the Mediterranean Project” in collaboration with the International Union for Conservation of Nature.⁴⁶²⁰ The action plan consists of five strategic goals and eight actionable steps to improve ecosystem and community resilience through biodiversity mapping, pollution reduction, sustainable land use, invasive species control, cultural heritage preservation and community-inclusive management.

On 20 July 2025, Turkish authorities conducted a six-day forest fire response operation throughout numerous provinces, mobilizing 5,400 troops, 119 aircraft and 1,537 ground vehicles.⁴⁶²¹ Citizens from 53 communities were evacuated to safe zones, while approximately 8,200 cattle were transferred to avoid injury. These actions focused on implementing Türkiye’s Disaster Response Plan and the National Forest Fire Response Plan.

On 7 September 2025, the Ministry of Internal Affairs Disaster and Emergency Management Presidency participated to the earthquake drill organized under Euro-Atlantic Disaster Response Coordination Centre in Bulgaria, which was participated by other 32 countries and 1182 personnel from international institutions.⁴⁶²² This organization aims to professionalize the human resources while improving practical knowledge on risk management.

On September 18 2025, the Ministry of Environment, Urbanization Climate Change began building 531 disaster-resilient dwellings, village houses, workplaces mosques in the Sındırgı and Bigadiç districts of Balıkesir in response to the 10 August 2025 earthquake.⁴⁶²³ Minister Murat Kurum stated that the units, built by TOKİ with earthquake-resistant standards and integrated rural infrastructure like barns, will be delivered within a year as part of Türkiye’s countrywide urban transformation and disaster recovery program.

Türkiye has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Türkiye has taken strong action towards priorities one, two and four of the Sendai Framework through its Post-Disaster Recovery Plan, increased funding for the “Half is on Us” initiative, development of a Geographic Information Systems-supported risk management plan and Local Climate Change Adaptation Strategies and Action Plans. It has also engaged in international cooperation through disaster assistance for Afghanistan.

Thus, Türkiye receives a score of +1.

United Kingdom: +1

The United Kingdom has fully complied with its commitment to accelerate international disaster risk reduction cooperation in accordance with the Sendai Framework for Disaster Risk Reduction.

On 18 February 2025, the Advanced Research and Invention Agency awarded EUR81 million to 27 research teams developing early monitoring systems for climate tipping points through a focus on the Greenland Ice Sheet and the Subpolar Gyres.⁴⁶²⁴ This funding is intended to enhance disaster preparedness and resilience capabilities.

On 5 March 2025, the United Kingdom attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁶²⁵ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 20 November 2024, the British Embassy in Manila announced GBP1 million in funding to support disaster recovery in the Philippines after Typhoon Kristine.⁴⁶²⁶ This funding will support food, sanitation and water management and rebuilding.

On 28 November 2024, the British Embassy for Honduras announced GBP150,000 in funding for CADENA, an international non-governmental organization.⁴⁶²⁷ Through the Start Fund, this contribution will enable CADENA to provide humanitarian assistance to affected communities in the Honduras after severe flooding.

On 4 February 2025, the Department for Environment, Food and Rural Affairs and Environment Agency announced GBP2.65 billion over the next two years to address flooding as part of the Plan for Change.⁴⁶²⁸ This financing will support flood prevention and preparedness through new and improved flood defences for 66,500 properties, in line with priority three of the Sendai Framework which focuses on disaster resilience.

On 6 February 2025, the British Embassy in Guatemala City announced a three-year project with USD1 million in funding to improve climate resilience in Guatemala.⁴⁶²⁹ The project will focus on integrating “traditional and scientific knowledge” to support nature-based solutions for resilience against drought, flooding and other climate-related disasters for Indigenous and local communities. This project advances priority one of the Sendai Framework.

Sheet and the Subpolar Gyres.⁴⁶³⁰ This funding is intended to enhance disaster preparedness and resilience capabilities.

On 5 March 2025, the United Kingdom attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁶³¹ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 29 March 2025, the Foreign, Commonwealth and Development Office announced GBP10 million in disaster assistance for Myanmar after a large-scale earthquake.⁴⁶³² This funding will support shelter, food and medicine.

On 31 March 2025, the Department for Environment, Food and Rural Affairs and Environment Agency announced an additional GBP16 million in funding for internal drainage boards which “manage water levels for agricultural and environmental needs across the country.”⁴⁶³³ This will support agricultural resilience against flooding.

On 21 May 2025, the Floods Resilience Taskforce met in Aintree, Merseyside with the aim to improve the UK's flood resilience and response capabilities through discussions on early warning system modernization, improvements on identifying households and areas at risk of flood and the country's flood recovery framework.⁴⁶³⁴

On 4 June 2025, the Environment Agency launched applications for fully funded specialist assessments of water security and drought risk in farms, investing GBP1.1 million into funding the assessments.⁴⁶³⁵ These assessments will help improve the drought resilience of the assessed farms, improving the country's food security in drought conditions.

On 5 June, the Environment Agency held a meeting of the National Drought Group to discuss the risk of drought in the summer and plans to mitigate risk.⁴⁶³⁶ The meeting, which included representatives from government, water companies, farmers unions and other sectors, allowed the country to better ensure safety and water security in drought conditions.

⁴⁶³⁶ National Drought Group meets after driest spring in 132 years, Environment Agency and Department for Environment, Food & Rural Affairs (London) 5 June 2025. Access Date: 16 August 2025. <https://www.gov.uk/government/news/national-drought-group-meets-after-driest-spring-in-132-years>

On 16 June 2025, the Department of Environment, Food and Rural Affairs announced an investment of GBP7.9 billion in flood protection over a period of ten years.⁴⁶³⁷ The investment will help fund different flood protection initiatives, such as flood barrier infrastructure and natural wetland restoration, as well as helping to maintain existing flood protection measures.

On 7 July 2025, the Cabinet Office announced the United Kingdom's second national test of its emergency alert system, set to take place on 7 September 2025, with the previous test having taken place in July 2023. The test aims to ensure potential issues are addressed, ensuring more reliable service in the case of emergency events.⁴⁶³⁸

On 8 July 2025, Foreign Secretary David Lammy announced new funding into international climate support, including a GBP12 million commitment for disaster relief finance and insurance.⁴⁶³⁹ This funding will support the response and rebuilding capabilities of countries more vulnerable to climate disasters.

On 17 July 2025, the Environment Agency announced the implementation of a new flood warning service for 106 buildings along the Southborough Stream in Tonbridge and Tunbridge Wells, Kent.⁴⁶⁴⁰

On 17 July 2025, the Environment Agency introduced a new flood warning service for 59 dwellings in Pett, East Sussex, targeting residents at danger from the Marsham Sewer.⁴⁶⁴¹ This service expands on existing coastal flood alerts by introducing more targeted, risk-based warnings for inland floods, ensuring that citizens receive timely notifications customized to their unique local conditions.

On 24 July 2025, the Environment Agency expanded its flood warning service across Greater Manchester to include Cheadle, Stockport and Platt Bridge.⁴⁶⁴² The program sends out early alerts to almost 800 homes and businesses via phone, text or email, allowing homeowners to take appropriate action to safeguard their lives and property. The expansion is based on enhanced flood modeling and monitoring of rainfall, river and tidal levels, with the goal of increasing community preparation and resilience.

On 4 August 2025, the Environment Agency unveiled an upgraded flood warning service for Exeter and the Exe Estuary, to protect over 3,000 houses and businesses.⁴⁶⁴³ The system combines enhanced forecasting algorithms with existing flood defence infrastructure, such as 14 functioning flood gates, demountable barriers and pumping systems, to offer more precise and timely alerts. The government stressed the use of advanced modelling and operational improvements to effectively control flood risks, allowing households and businesses to take early precautions.

On 4 August 2025, the United Kingdom participated in a third annual regional exercise “Longreach” in Tonga to refine natural disaster strategies and strengthen partnerships.⁴⁶⁴⁴ The exercise simulated a Category 5 tropical cyclone event testing multi-agency coordination, logistics, and humanitarian response. Delegates from Tonga, Fiji, Papua New Guinea, Australia, New Zealand, France, the UK, the US and others worked alongside the UN, Red Cross, and local ministries to strengthen early warning systems, faith-based and community networks, and the integration of the Pacific Response Group.

On 12 August 2025, the Environment Agency held a meeting of the National Drought Group after immense water shortfall conditions across England, with five areas in the country being officially in drought.⁴⁶⁴⁵ The meeting allowed the group to discuss action to take to deal with the water shortfall, including advising the public, improving water infrastructure and installing smart water meter systems, among others actions.

On 22 August 2025, the Environment Agency issued drought permits to the Yorkshire Water company which allow them to reduce the amount of water being released from the Grimwith Reservoir into the River Wharfe.⁴⁶⁴⁶ This reduction helps conserve the reservoir’s water supplies and ensure public access to drinking water during times of drought.

On 29 August 2025, the Environment Agency initiated a community flash-flood awareness project in the Forest of Dean, collaborating with local governments to involve vulnerable individuals in rapid-response catchment regions.⁴⁶⁴⁷ On 2 September, the program featured door-to-door outreach in Lydney to give preparedness assistance, raise awareness of flash-flood threats strengthen community response capability.

On 4 September 2025, the government announced an extra GBP1.2 million in anticipatory flood response funds for Sindh, Pakistan, increasing the total humanitarian flood aid to the nation to GBP2.53 million.⁴⁶⁴⁸ The funds will be used to assist early warning systems, community evacuations, the pre-positioning of critical supplies the protection of vulnerable homes in advance of expected flooding.

On 8 September 2025, the Floods Resilience Taskforce met for the fourth time after close to a full year since its establishment.⁴⁶⁴⁹ During the meeting, the taskforce discussed their progress so far in ensuring flood resilience, preparations for flooding in the winter season and the United Kingdom’s progress in developing a new flood warning system.

On 11 September 2025, the Environment Agency issued additional drought permits to the Yorkshire Water company to allow better management of water supplies in the area following the declaration of drought in the region in June.⁴⁶⁵⁰

⁴⁶⁵⁰ Drought permits issued to Yorkshire Water, Environment Agency (London) 11 September 2025. Access Date: 8 October 2025. <https://www.gov.uk/government/news/drought-permits-issued-to-yorkshire-water>

On 12 September 2025, the Environment Agency completed a new flood risk management scheme in Bewdley, Worcestershire.⁴⁶⁵¹ The scheme, which includes flood walls, gates and removable barriers, is an upgrade to the previously temporary flood management systems and protects 50 local properties.

On 7 October 2025, the Environment Agency issued additional drought permits to the Yorkshire Water company to cover the Southwest group of Yorkshire Reservoirs.⁴⁶⁵²

On 7 October 2025, the UK embassy in Guatemala sponsored a GBP300,000 contribution from the Start Fund for Guatemala's anticipatory flood response.⁴⁶⁵³ This support focuses on populations at high risk of floods, landslides mudslides by allowing for early intervention to avert humanitarian consequences. As the primary contributor to the Start Fund, the United Kingdom's contribution enhances the Sendai Framework's emphasis on anticipatory funding, fast response localized disaster preparedness for vulnerable areas.

The United Kingdom has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. The United Kingdom has taken strong action to advance priorities one, three and four of the Sendai Framework through funding for a climate resilience project in Guatemala, disaster assistance for Myanmar and the Philippines, awards for the development of early monitoring systems and investing in flooding preparedness and prevention. It has also engaged in international cooperation with the Philippines, Myanmar and Guatemala.

Thus, the United Kingdom receives a score of +1.

Analysts: Zach Pedernal, Siobhan Mehrotra and Mabek Kaur

United States: -1

The United States has not complied with its commitment to accelerate international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 10 December 2024, the Federal Emergency Management Agency (FEMA) updated its National Disaster Recovery Framework.⁴⁶⁵⁴ This revised framework includes a clear division of responsibilities for various disaster personnel and a focus on enhancing collaboration for disaster recovery.

On 12 December 2024, FEMA and the Ad Council launched the "Ready" campaign which will use public service announcements to raise awareness about disasters in Asian American, Native Hawaiian and Pacific Islander communities and help enhance their disaster preparedness.⁴⁶⁵⁵ This campaign focuses on these communities as they are less likely to take disaster preparedness measures, potentially due to cultural and language barriers.

On 18 December 2024, FEMA approved over USD8 million for Tennessee to improve the ability of buildings to withstand natural disasters like floods and earthquakes.⁴⁶⁵⁶ Through the Hazard Mitigation Grant Program, this funding aims to increase disaster resilience.

On 3 January 2025, FEMA approved over USD1 million to support Mercer County after Tropical Storm Helene.⁴⁶⁵⁷

On 8 January 2025, President Joe Biden approved a federal disaster assistance declaration to support recovery efforts for wildfires in southern California.⁴⁶⁵⁸ This declaration makes federal funding available through the Federal Emergency Management Agency in the form of grants, loans and other programs to help those affected recover from uninsured damage.

On 13 January 2025, FEMA announced USD1.14 million in funding for a flood preparedness project in Grosse Pointe.⁴⁶⁵⁹ The project will focus on increasing the capacity of storm sewers to enhance resilience.

On 14 January 2025, FEMA and the Disaster Recovery Coalition of America signed a Memorandum of Understanding to cooperation on disaster recovery efforts.⁴⁶⁶⁰ The partnership will include a focus on disaster communications, mitigation, preparedness, response and recovery.

On 15 January 2025, FEMA provided USD70,000 to Eau Claire County, Wisconsin as the first installment of a USD1.2 million grant under the Hazard Mitigation Grant Program.⁴⁶⁶¹ This will advance the construction of a saferoom during disasters for mobile park residents in the Hillcrest Estates.

On 24 January 2025, President Donald Trump issued an Executive Order focused on changing water management policies in California in the aftermath of their wildfires.⁴⁶⁶² In doing so, President Trump committed to providing the state with necessary resources. This order overrides related state policies that don't align with the President's goals.

On 22 January 2025, FEMA provided USD933,750 to Detroit through the Building Resilient Infrastructure and Communities program to advance flood mitigation.⁴⁶⁶³ The funding will support a study to develop "a cost-effective flood mitigation project" for the city.

⁴⁶⁶³ FEMA Awards \$933K to the City of Detroit to Develop Flood Mitigation Strategies, Federal Emergency Management Agency (Chicago) 22 January 2025. Access Date: 1 July 2025. <https://www.fema.gov/press-release/20250204/fema-awards-933k-city-detroit-develop-flood-mitigation-strategies>

On 4 March 2025, NBC News announced that the National Weather Service and the National Oceanic and Atmospheric Administration terminated over 600 staff members over the last week.⁴⁶⁶⁴ These cuts are expected to hinder effective weather monitoring, predictions and warnings for extreme weather events like hurricanes and tsunamis. This action is directly and explicitly antithetical to priority one of the Sendai Framework.

On 5 March 2025, the United States attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁶⁶⁵ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 18 March 2025, President Trump signed an Executive Order to simplify federal preparedness and response policies.⁴⁶⁶⁶ This includes shifting infrastructure policy to a risk-informed approach and reevaluating current policies to reformulate federal responsibility. The order also shifts disaster response responsibilities from the federal government to state and local authorities, contrary to the Sendai Framework.

On 20 March 2025, FEMA and the State of Tennessee approved USD2.1 million for Unicoi County to repair its rail system after damage from Tropical Storm Helene.⁴⁶⁶⁷ This funding will be provided through the Public Assistance program for emergency work.

On 28 March 2025, FEMA froze USD9.8 billion in disaster funding for non-profit organizations to review their compliance with President Trump's immigration priorities, in line with Memorandum on "Advancing United States Interests When Funding."⁴⁶⁶⁸ This funding was meant to assist with a program to rebuild a nonprofit after disaster and a program to provide housing assistance to individuals affected by disasters. This action is directly and explicitly antithetical to the commitment as it delays and potentially cancels funding for disaster recovery.

On 4 April 2025, FEMA announced the cancellation of the Building Resilient Infrastructure and Communities program and cancelled all funding from Fiscal Years 2020-2023 that has not already been distributed.⁴⁶⁶⁹ This is expected to amount to USD882 million in cancelled grants for hazard mitigation, disaster resilience and addressing long-term disaster risks. This action is directly and explicitly antithetical to the commitment which aims to advance the Sendai Framework for Disaster Risk Reduction, with a focus on disaster resilience and preparedness.

On 11 April 2025, FEMA denied the State of Arkansas' Individual Assistance request to assist with disaster recovery after severe storms and tornadoes on 14 March 2025.⁴⁶⁷⁰ This action is directly and explicitly antithetical to the commitment to advance the Sendai Framework which calls on federal authorities to support local and state authorities with financial and other assistance to pursue disaster risk management.

On 2 May 2025, the Environmental Protection Agency informed Lane County, Oregon that it is cancelling a USD19.6 million grant for the county through the Community Change Grant.⁴⁶⁷¹ FEMA also cancelled USD141.1 million in funding for Oregon through the same grant which aims to enhance climate resilience and reduce pollution in communities. These actions are directly and explicitly antithetical to priority three of the Sendai Framework.

On 20 May 2025, the Department of Homeland Security announced an additional USD360 million for the Fiscal Year 2024 Staffing for Adequate Fire and Emergency Response grant program.⁴⁶⁷² This funding will enable hiring and training firefighters and improvements to fire prevention programs.

On 22 May 2025, FEMA announced it will resume in-person disaster training at the Center for Domestic Preparedness in Anniston, Alabama and the National Fire Academy and the National Disaster and Emergency Management University in Emmitsburg, Maryland in June.⁴⁶⁷³ This training was previously halted due to President Trump's Executive Order 14222 on cost-efficiency.

On 10 June 2025, President Trump approved a Major Disaster Declaration for Missouri, following severe storms, straight-line winds, tornadoes and flooding that occurred on 16 May 2025.⁴⁶⁷⁴ The declaration activated federal disaster assistance through FEMA, including grants for temporary housing and home repairs, low-interest loans for uninsured property losses and funding for the repair of public infrastructure on a cost-sharing basis.

On 20 June 2025, FEMA granted a Fire Management Assistance Grant (FMAG) to assist the State of Nevada in fighting the Conner Fire, which endangered around 280 houses and key infrastructure near Washoe Tribal territory.⁴⁶⁷⁵ This program reimburses up to 75 per cent of qualified firefighting expenses, such as field camps, equipment and mobilization activities.

⁴⁶⁷⁵ FEMA Fire Management Assistance Grant Approved for Conner Fire, Federal Emergency Management Agency (Washington D.C.) 20 June 2025. Access Date: 25 July 2025. <https://www.fema.gov/press-release/20250623/fema-fire-management-assistance-grant-approved-conner-fire>

On 14 July 2025, FEMA approved Oregon’s request for federal assistance via the FMAG program to suppress the Highland Fire in Crook County.⁴⁶⁷⁶ This authorization enabled funding for up to 75 per cent of qualified firefighting expenses, including equipment, supplies and mobilization activities.

On 25 July 2025, the United States issued internal FEMA memoranda revealing intentions to eliminate over USD1 billion in disaster preparedness and security funds, including programs for first responders, wildfire readiness, flood-prone communities and public warning systems.⁴⁶⁷⁷ The proposed reductions will have an impact on essential initiatives like the Urban Areas Security Initiative and the Next Generation Warning System, thereby making communities more susceptible to natural and man-made disasters.

On 29 July 2025, FEMA announced billions of dollars in funding to help state, municipal, tribal and territory governments prepare for catastrophes like as fires, floods, hurricanes and other calamities.⁴⁶⁷⁸ The funds allow authorities to purchase crucial equipment, train staff and improve emergency response capabilities.

On 4 August 2025, the United States participated in a third annual regional exercise “Longreach” in Tonga to refine natural disaster strategies and strengthen partnerships.⁴⁶⁷⁹ The exercise simulated a Category 5 tropical cyclone event testing multi-agency coordination, logistics, and humanitarian response. Delegates from Tonga, Fiji, Papua New Guinea, Australia, New Zealand, France, the UK, the US and others worked alongside the UN, Red Cross, and local ministries to strengthen early warning systems, faith-based and community networks, and the integration of the Pacific Response Group.

On 5 August 2025, a federal court prevented the federal government from reallocating more than USD4 billion in FEMA disaster relief funding, including from the Building Resilient Infrastructure and Communities program.⁴⁶⁸⁰ The Court underscored the need for resilience measures in flood-prone areas to safeguard communities and decrease threats to human life and property.

On 7 August 2025, FEMA announced USD40 million in financing for states and Tribal Nations under the Next Generation Warning System Grant Program.⁴⁶⁸¹ The initiative focuses on strengthening alert and warning capacities using sophisticated technology, as well as boosting cross-jurisdictional cooperation to provide timely public safety information.

On 2 September 2025, FEMA granted an additional USD35 million in reimbursement payments for disaster recovery in North Carolina in response to Tropical Storm Helene and other recent catastrophes.⁴⁶⁸²

⁴⁶⁸² Additional \$35 Million Approved to Support Disaster Recovery, Federal Emergency Management Agency (Washington D.C.) 2 September 2025. Access Date: 21 October 2025. <https://www.fema.gov/press-release/20250924/additional-35-million-approved-support-disaster-recovery>

On 16 September 2025, FEMA granted an extra USD64.2 million to fund the continuing Tropical Storm Helene recovery activities in North Carolina.⁴⁶⁸³ The financing is for approximately 30 infrastructure and stability projects, including significant road repairs, interim water system restoration, landslide slope stabilization, dam and power system repairs the rebuilding of important community amenities.

On 22 September 2025, FEMA announced about USD48 million in extra funding for 46 North Carolina Tropical Storm Helene and other disaster rehabilitation projects.⁴⁶⁸⁴ This contains 31 newly authorized projects as well as 18 big projects, each costing over USD1 million, funded by the Department of Homeland Security for community use.

On 22 September 2025, FEMA authorized over than USD37.1 million in federal disaster recovery assistance for Florida.⁴⁶⁸⁵ This financing aids recovery after various federally declared disasters, most recently Hurricane Milton, through approximately 3,200 state and local recovery programs handled by the Public Assistance program. These money will be used to repair roads and bridges, restore key infrastructure, remove debris take other emergency steps to safeguard lives and property.

On 24 September 2025, FEMA authorized a Fire Management Assistance Grant to help the State of Hawaii suppress the Holomua Fire in Maui County.⁴⁶⁸⁶

The United States has not complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. The United States has taken strong positive action to advance priorities one, three and four through a public awareness campaign, funding for disaster resilience and recovery through FEMA and the Department of Homeland Security's funding for fire services. However, it has also taken strong actions antithetical to priorities two and three as well as the guiding principles of the Sendai Framework, including the cancellation of USD882 million in funding through the Building Resilient Infrastructure and Communities program, denial of disaster assistance for Arkansas, halting of USD9.8 billion in funding for disaster efforts by non-profit organizations, the cancellation of USD19.6 million and USD141.1 million in disaster resilience funding for Oregon, President Trump's Executive Order from 18 March 2025 and firing of National Weather Service and the National Oceanic and Atmospheric Administration personnel.

Thus, the United States receives a score of -1 .⁴⁶⁸⁷

⁴⁶⁸⁷ This score of non-compliance was determined after consulting the following sources: <https://www.fema.gov/>, <https://www.whitehouse.gov/>, <https://www.state.gov/>, <https://www.dhs.gov/>, <https://www.epa.gov/> and <https://www.nbcnews.com>.

On 13 February 2025, the African Union held a two-day workshop for member states on the AU Guidelines for the development of National Climate Resilient Water Investment Programmes.⁴⁶⁸⁸ 15 AU member states will develop national frameworks based on these guidelines.

On 24 February 2025, the African Union Commission, the Southern Africa Development Community (SADC) secretariat, the International Federation of the Red Cross and Red Crescent Societies, the United Nations Office for the Coordination of Humanitarian Affairs and the SADC Humanitarian Operations Centre began a four-day monitoring operation in Mozambique.⁴⁶⁸⁹ The mission included discussions on disaster risk management and a visit to the National Institute for Disaster Risk Management and Reduction.

On 5 March 2025, the African Union attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁶⁹⁰ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 6 March 2025, the African Union's Peace and Security Council held its 1263rd session to address the impacts of climate change on peace and security in the continent.⁴⁶⁹¹ Member states agreed on a unified approach to address climate-induced challenges including strengthened cooperation, integrating climate change adaptation strategies into regional security frameworks and mobilizing resources to support building resilience.

On 1 April 2025, the African Union Commission, the United Nations Office for Disaster Risk Reduction, CIMA Research Foundation and SADC Secretariat trained Zambia's disaster management experts on the Africa Multi-Hazard Early Warning System for Early Action (AMHEWAS) programme.⁴⁶⁹² Over four days, the training introduced participants to the programme and provided "hands-on training on developing and disseminating multi-hazard early warnings to the communities" to assist them in creating Zambia's national multi-hazard early warning system and associated action situation room.

On 10 April 2025, the African Union, the United Nations Office for Disaster Risk Reduction, CIMA Research Foundation and Intergovernmental Authority on Development through the AMHEWAS Programme co-hosted a three-day event to discuss the implementation of the programme.⁴⁶⁹³ The meeting focused on the efficient production of AMHEWAS products including "Early Warning bulletins such as the Continental Watch, disaster situation reports, the Drought Watch and wildfire bulletins."

On 17 April 2025, the African Union, the United Nations Office for Disaster Risk Reduction Regional Office for Africa and Intergovernmental Authority on Development concluded the 22nd Session of the Africa

⁴⁶⁹³ AMHEWAS increases early-warning products, moves to strengthen disaster preparedness further, African Union Commission (Addis Ababa) 11 April 2025. Access Date: 1 July 2025. <https://au.int/sw/node/44619>

Working Group on Disaster Risk Reduction in Kampala, Uganda.⁴⁶⁹⁴ The meeting resulted in a draft Africa Common Position for GP2025 outlining continental priorities for the upcoming Global Platform for Disaster Risk Reduction in Geneva in Geneva, the Kampala Action Plan establishing mechanisms to incorporate disaster management into national development planning and the Implementation Framework for operationalizing the Windhoek Declaration over the next three years.

On 5 June 2025, the African Union Commission formally joined the Coalition for Disaster Resilient Infrastructure (CDRI), taking a step towards improving infrastructure resilience in Africa.⁴⁶⁹⁵ This action reaffirms the AU's commitment to regional catastrophe risk reduction via multilateral collaboration and capacity development. As a member of the CDRI Governing Council, the AU intends to speed the execution of its Africa Urban Resilience Programme, which aims to improve urban risk management and institutional capacity.

On 24 June 2025, the African Ministerial Conference on Meteorology Bureau met on the fringes of the Joint ClimSA and SEWA Forum to reaffirm its commitment to improving Africa's meteorological and early warning capacity.⁴⁶⁹⁶ The Bureau emphasized the importance of strengthening the National Meteorological and Hydrological Services to provide targeted climate services and increase community resilience.

On 25 July 2025, the African Union Commission, through the AMHEWAS Programme, convened technical and steering committee meetings in Accra to advance multi-hazard early warning and early action systems across the continent.⁴⁶⁹⁷ The initiative integrates drought monitoring, hazard mapping, and situation-room operations to strengthen risk knowledge and preparedness, enabling timely, life-saving responses. The African Union emphasized the importance of collaboration with member states and international partners to enhance resilience and reduce disaster-related risks to communities and livelihoods.

On 13 August 2025, the African Union-AIP Water Investment Summit convened for three days at the Cape Town International Convention Centre in South Africa.⁴⁶⁹⁸ Hosted in the context of South Africa's G20 presidency, the summit focused on accelerating water security, climate resilience and sustainable infrastructure financing to support Africa's development agenda.

The African Union has partially complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. It has taken strong action towards priority one of the Sendai Framework through training for Zambia on the AMHEWAS programme. It has also taken weak action towards the commitment by hosting an event to discuss the implementation of the AMHEWAS programme, four-day monitoring mission in Mozambique, the Kampala Action Plan, the African Union's Peace and Security Council 1263rd meeting and hosting the G20's Disaster Risk Reduction Working Group meeting. However, the African Union has not taken strong action across at least three of the four priorities of the Sendai Framework nor has it engaged in international cooperation.

Thus, the African Union receives a score of 0.

European Union: +1

The European Union has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction.

On 9 December 2024, the European Union announced EUR328 million in funding for Slovenia and EUR76 million for Greece through the European Union Solidarity Fund.⁴⁶⁹⁹ This funding will support flood recovery and reconstruction in both countries.

On 18 December 2024, the European Parliament adopted the Regional Emergency Support to Reconstruction proposal.⁴⁷⁰⁰ The proposal enables Member States affected by climate-related disasters to get a 95 per cent co-financing rate for recovery measures like repairing damaged equipment and infrastructure, providing basic material assistance, food and social and healthcare support.

On 18 December 2024, the Council of the European Union amended the regulation for the European Agricultural Fund for Rural Development.⁴⁷⁰¹ This “will give member states more flexibility to provide emergency support and targeted liquidity to farmers, forest holders, and related businesses affected by natural disasters” that have occurred since 1 January 2024.

On 19 December 2024, the European Commission allocated EUR392.2 million in funding for Italy, France and Austria through the European Union Solidarity Funding.⁴⁷⁰² This funding will support flood recovery and reconstruction in the countries.

On 24 January 2025, Commissioner for Preparedness, Crisis Management and Equality Hadja Lahbib met with Italy’s Minister for Civil Protection and Maritime Policy, Nello Musumeci to deliver a wildfire peer review report which identifies strengths and recommendations for Italy’s disaster risk management system for wildfires.⁴⁷⁰³ This action is meant to help advance effective disaster management.

On 28 January 2025, the European Union activated its Civil Protection Mechanism to provide 13 emergency generators to Ireland after a storm led to significant power outages in the country.⁴⁷⁰⁴ The EU also activated Copernicus to provide analytical support for disaster response to Ireland.

On 18 February 2025, the European Commission announced EUR98.6 million in funding for farmers in Spain, Croatia, Cyprus, Latvia and Hungary amidst natural disasters and other climate events beginning in spring 2024.⁴⁷⁰⁵ This funding will support disaster recovery and resilience.

On 5 March 2025, the European Union attended the first G20 Disaster Risk Reduction Working Group meeting under the South African G20 presidency.⁴⁷⁰⁶ G20 members agreed to advance South Africa's six disaster management priorities which aim to support the Sendai Framework including addressing inequality and vulnerabilities, enhancing global early warning systems and disaster recovery, rehabilitation, reconstruction and resilience infrastructure, increasing investments and incorporating nature and ecosystem-based solutions.

On 25 March 2025, the Commission and High Representative of the European Union launched the Preparedness Union Strategy which includes 30 key actions and a detailed Action Plan to improve disaster and emergency prevention and response capabilities.⁴⁷⁰⁷ This includes advising EU citizens to maintain a 72-hour supply of essential items like food, water and medical supplies to enhance resilience during disasters, establishing an EU Crisis Hub to enhance cooperation, increasing public-private cooperation, developing "a comprehensive risk and threat assessment" for the EU and ensuring adequate emergency supply of critical equipment and materials.

On 27 March 2025, the European Commission provided EUR2.5 million in disaster assistance to Myanmar after a large-scale earthquake.⁴⁷⁰⁸ This European Union also activated Copernicus, its earth observation program, to conduct an impact assessment for Myanmar.

On 7 April 2025, the European Commission announced EUR41 million in funding for Mozambique, Madagascar and Angola.⁴⁷⁰⁹ Of this, EUR7 million will be provided to Madagascar to enhance disaster preparedness and disaster relief efforts.

On 14 May 2025, the European Commission announced EUR120 million in humanitarian funding for Latin America and the Caribbean.⁴⁷¹⁰ This includes EUR10.1 million for disaster preparedness in Central America and EUR8.5 million for disaster preparedness in the Caribbean.

On 20 May 2025, the European Commission pledged EUR2.3 billion for humanitarian aid at the European Humanitarian Forum 2025.⁴⁷¹¹ This will include financing for climate-related disasters.

On 25 May 2025, the European Commission announced that "almost 650 firefighters from 14 European countries will be strategically positioned in key high-risk locations in France, Greece, Portugal, and Spain"

during July and August 2025 alongside 22 firefighting planes and four helicopters across ten Member States.⁴⁷¹² This action aims to bolster disaster preparedness and response capabilities during wildfires season.

On 26 May 2025, the European Union allocated EUR280 million to Austria, Czechia, Poland, Slovakia, Bosnia and Herzegovina and Moldova through the European Union Solidarity Fund.⁴⁷¹³ This funding will support flood recovery and reconstruction efforts as post-disaster relief.

On 10 June 2025, Commissioner Lahbib reaffirmed the European Union's strategic partnership with the United Nations Office for Disaster Risk Reduction at the Global Platform for Disaster Risk Reduction.⁴⁷¹⁴ Commissioner Lahbib endorsed the continued implementation of the 2022 Memorandum of Understanding with regional actors in Latin America and the Caribbean, which has become a framework for coordinated action across early warning systems, disaster preparedness and knowledge-sharing networks.

On 12 June 2025, the European Union launched a new call for proposals under the Civil Security for Society cluster of the Horizon Europe fund, allocating nearly EUR250 million to support research and innovation projects.⁴⁷¹⁵ The call covers funding priorities including disaster resilience, infrastructure protection and enhanced security research.

On 16 June 2025, the European Union announced EUR161 million in humanitarian aid for Afghanistan and the surrounding region to address a severe humanitarian crisis.⁴⁷¹⁶ The EUR141 million will support operations inside Afghanistan, while EUR 20 million is designated for Afghan refugees in Pakistan and Iran. The funding will cover food assistance, healthcare, clean water access, legal protection, education for girls and disaster preparedness measures.

On 17 June 2025, the European Commission announced it is collaborating with United Nations Environment Program to create a Water Resilience Indicators Report, which will provide data-driven tools for improving global drought preparedness.⁴⁷¹⁷ Additionally, the Commission is providing scientific input to the International Drought Resilience Observatory, which is aimed at improving global coordination and knowledge-sharing on drought resilience. This action is connected to the EU's newly developed Water Resilience Strategy which aims to improve EU-wide water management and disaster preparedness through better water retention, infrastructure and ecosystem restoration.

On 19 June 2025, the European Union awarded the Digital Communities prize to the Antiquake Risk Hunter Community, a project advancing disaster risk reduction by involving over 150 citizen scientists and multiple stakeholders in Istanbul.⁴⁷¹⁸ They collect geolocated risk data and improve local disaster preparedness, as part of the 2025 EU Prize for Citizen Science funded by the Horizon Europe program.

On 9 July 2025, the European Commission unveiled the EU stockpiling strategy with specific aims to boost the EU's material preparedness for crisis.⁴⁷¹⁹ The European Commission plans to establish an EU stockpiling network with member states and within the network enhancing the interoperability of stockpiling arrangements.

On 17 July 2025, the European Commission proposed to update the Regulation of the EU Civil Protection Mechanism to enhance preparedness and emergency response.⁴⁷²⁰ The proposed amendments include an allocation of EUR11 billion in funding for civil protection and health emergency preparedness threats. Furthermore, the proposed regulation also plans to establish a Crisis Coordination Hub that builds on the existing Emergency Response Coordination Centre to improve the anticipation, monitoring and response of crises.

On 22 July 2025, the European Union and Japan reaffirmed their commitment to global stability, resilience and disaster risk reduction with a Joint Statement that emphasized deeper strategic collaboration.⁴⁷²¹ The establishment of the EU-Japan Competitiveness Alliance promotes risk reduction through supply chain diversity, protection from economic coercion and the development of vital technology.

On 14 August 2025, the European Union activated the EU Civil Protection Mechanism to assist nations facing simultaneous large-scale forest fires, including Greece, Spain, Bulgaria, Montenegro and Albania.⁴⁷²² The EU dispatched rescEU aerial and ground assets from various member states as well as prepositioned firefighters, to ensure swift reaction and cross-border cooperation. These activities demonstrate the EU's commitment to disaster risk reduction by improving cross-border preparedness, response capability and protection of human life and property.

On 22 September 2025, the European Commission released a total of EUR3.07 billion to three member states, Austria, Croatia Belgium, through the Recovery and Resilience Facility, the centerpiece of NextGeneration EU.⁴⁷²³ These disbursements promote EU Member States' economic development and resilience by ensuring the effective execution of reforms and investments stated in each country's recovery and resilience plan.

On 2 October 2025, the European Commission offered roughly EUR1.6 billion in EU funds to help Spain recover from the disastrous 'DANA floods' of October 2024 in Valencia.⁴⁷²⁴ This comprises EUR945 million from the EU Solidarity Fund and EUR645 million redistributed from Spain's cohesion policy monies under the RESTORE mechanism.

The European Union has fully complied with its commitment to accelerating international disaster risk reduction cooperation in line with the Sendai Framework for Disaster Risk Reduction. Through legislative action, financial support mechanisms and strategic preparedness initiatives, the European Union has demonstrated strong action across priorities one, three and four of the Sendai Framework. It has also engaged

Background

Biodiversity as an environmental consideration has emerged as a principal commitment of the G20. G20 leaders have increasingly called attention to the issue of biodiversity loss, in tandem with climate change, as a major threat to healthy ecosystems and as an arena for intervention.⁴⁷²⁵ G20 leaders have most recently supported and facilitated global cooperation on the protection of biodiversity through initiatives such as the Kunming-Montreal Global Biodiversity Framework (KM-GBF), passed following the 15th Conference of Parties (COP) to the Convention on Biological Diversity (CBD).⁴⁷²⁶ Prior to the explicit foregrounding of biodiversity as an environmental consideration, leaders relatedly emphasized the environment as a factor in sustainable

⁴⁷²⁵ G20 New Delhi Leaders’ Declaration, G20 Information Centre (Toronto) 9 September 2023. Access Date: 3 March 2025. <https://www.g20.utoronto.ca/2023/230909-declaration.html>

⁴⁷²⁶ G20 Rio de Janeiro Leaders’ Declaration, G20 Information Centre (Toronto) 18 November 2024. Access Date: 3 March 2025. <https://www.g20.utoronto.ca/2024/241118-declaration.html>

development and the protection of marine ecosystems,⁴⁷²⁷ such as through the G20 Global Marine Environment Protection Initiative.⁴⁷²⁸

At the 2017 Hamburg Summit, G20 leaders committed to combating corruption linked to the illegal wildlife trade, recognizing its threat to biodiversity, economic development and security.⁴⁷²⁹

At the 2018 Buenos Aires Summit, G20 leaders reaffirmed their commitment to food security and sustainable agriculture, recognizing the importance of biodiversity in building resilient food systems.⁴⁷³⁰ They committed to promoting sustainable soil, water and riverbank management while supporting smallholder and family farmers through voluntary national efforts.

At the 2019 Osaka Summit, G20 leaders committed to promoting a virtuous cycle of environment and growth through innovation and collaboration between public and private sectors.⁴⁷³¹ The summit reaffirmed the commitment to ending illegal, unreported and unregulated fishing as a key measure to protect marine biodiversity and ensure the sustainable use of ocean resources.

At the 2020 Riyadh Summit, G20 leaders launched two key initiatives: the Global Coral Reef R&D Accelerator Platform, which aimed to protect and restore coral reefs, and the Global Initiative on Reducing Land Degradation and Enhancing Conservation of Terrestrial Habitats, which set an ambition to reduce degraded land by 50 per cent by 2040.⁴⁷³² The summit also reinforced commitments to tackling marine pollution, reaffirming support for the Osaka Blue Ocean Vision to reduce marine plastic litter and combat illegal, unreported and unregulated fishing.

At the 2021 Rome Summit, G20 leaders endorsed the UN Decade on Ecosystem Restoration (2021-2030) and pledged to achieve Land Degradation Neutrality by 2030.⁴⁷³³ The summit also reinforced commitments to protecting at least 30 per cent of global land and oceans, combating illegal activities harming biodiversity. Additionally, leaders pledged to plant one trillion trees in degraded ecosystems by 2030 and endorsed the expansion of the G20 Sustainable Finance Roadmap to include biodiversity financial disclosures.

At the 2022 Bali Summit, G20 leaders emphasized the urgent need to halt and reverse biodiversity loss, calling for the adoption of the Post-2020 Global Biodiversity Framework at COP15.⁴⁷³⁴ Additionally, leaders welcomed the World Trade Organization's Agreement on Fisheries Subsidies and supported the development of a legally binding treaty on marine biodiversity conservation under the UN Convention on the Law of the Sea (UNCLOS).

At the 2023 New Delhi Summit, G20 leaders pledged to restore at least 30 per cent of all degraded ecosystems by 2030 and endorsed the KM-GBF.⁴⁷³⁵ They supported the G20 ambition to reduce land degradation by 50 per cent by 2040 under the Global Land Initiative and emphasized gender-responsive environmental policies, advocating for increased participation of women in biodiversity conservation.

At the 2024 Rio Summit, G20 leaders committed to the implementation of the KM-GBF and urged early entry into force of the Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas beyond National Jurisdiction under UNCLOS.⁴⁷³⁶ The summit also saw the launch of the G20 Initiative on Bioeconomy with 10 voluntary High-Level Principles established to guide its development. Additionally, leaders endorsed the Call to Action on Strengthening Drinking Water and Sanitation Services, emphasizing gender-responsive water, sanitation, and hygiene systems to address biodiversity loss.

Commitment Features

The welfare target of this commitment is to achieve the four KM-GBF long-term goals for the 2050 vision for biodiversity: 1) protect and restore, 2) prosper with nature, 3) share benefits fairly and 4) invest and collaborate.⁴⁷³⁷ Hence, the scope of this commitment extends to tracking actions across all four KM-GBF goals for 2050 and 23 global targets for 2030.

Definitions and Concepts

“Swift” is understood to mean moving quickly and within a short amount of time.⁴⁷³⁸ In the context of the commitment it refers to the rapid implementation of the KM-GBF.

“Full” is understood to mean in its entirety.⁴⁷³⁹ In the context of the commitment it refers to the implementation of all aspects of the KM-GBF.

“Effective” is understood to mean operating in a way that produces the intended result.⁴⁷⁴⁰ In the context of the commitment it means that G20 members should implement the KM-GBF in a way that does not limit its work.

“Implementation” is understood to mean “the process of making something active or effective.”⁴⁷⁴¹

“Kunming-Montreal Global Biodiversity Framework” refers to the framework outlined at COP15.⁴⁷⁴² The framework consists of global targets aimed at halting and reversing global biodiversity loss. The framework also contains guidelines focused on the preservation of 30 per cent of land, sea and inland water areas and the restoration of 30 per cent of degraded ecosystems.

⁴⁷⁴¹ Compliance Coding Manual for International Commitments, G20 Information Centre (Toronto) 12 November 2020. Access Date: 9 March 2025. https://www.g7.utoronto.ca/compliance/Compliance_Coding_Manual_2020.pdf

⁴⁷⁴² Kunming-Montreal Global Biodiversity Framework, United Nations Environment Programme (Nairobi) 19 December 2022. Access Date: 9 March 2025. <https://www.unep.org/resources/kunming-montreal-global-biodiversity-framework>

The “Convention of Biological Diversity” refers to the convention signed by government leaders at the 1992 Rio Earth Summit committing to “promoting sustainable development.”⁴⁷⁴³ The three overarching goals include “1) the conservation of biodiversity; 2) sustainable use of components of biodiversity; and 3) sharing the benefits from commercial and utilization of genetic resources in a fair and equitable way.”

General Interpretive Guidelines

This commitment identifies four global goals outlined in the KM-GBF 2050 vision of biodiversity:

1. Goal A – Protect and Restore: “ecosystems will be maintained, enhanced or restored, the extinction rate has been reduced tenfold, and we have an abundance of native wild species on healthy and resilient levels”
2. Goal B – Prosper with Nature: “Biodiversity will be sustainably used and its contributions to people maintained, enhanced or restored”
3. Goal C – Share Benefits Fairly: “All benefits from genetic resources will be fairly, inclusively and equitably shared and sustainably increased”
4. Goal D – Invest and Collaborate: “The funding gap is closed. Implementation will be supported by capacity-building and strong technical and scientific cooperation.”⁴⁷⁴⁴

Full compliance, or a score of +1, will be given to a G20 member that takes strong action in three or four of the components. Strong actions that align with “Goal A – Protect and Restore” include implementing spatial planning and land management processes or adopting regulation to ensure the legal, sustainable and safe trade of wild species while preventing overexploitation. Strong actions that align with “Goal B – Prosper with Nature” include implementing policy that manages human-wildlife conflicts and implementing wild species management practices that uphold customary practices of local and indigenous communities. Strong actions that align with “Goal C – Share Benefits Fairly” include facilitating the sharing and access to genetic resources through international cooperation. Strong actions that align with “Goal D – Invest and Collaborate” include taking legal and policy measures to ensure transnational companies and financial institutions regularly assess, monitor and disclose biodiversity-related risks or increasing subsidies for conservation and biodiversity-related practices.

Partial compliance, or a score of 0, will be assigned to a G20 member that takes strong action in two of four components, or weak action in three of the four components. Weak actions include expressing verbal or written support for initiatives not taken by the member and signing memorandums of understanding with no tangible financial backing and attending international forums without active engagement.

Non-compliance, or a score of –1, will be assigned to a G20 member that fails to take any strong action in any of the four components, or takes weak action in two or fewer of the components. It will also be assigned to a G20 member that engages in activity that is directly or explicitly antithetical to the commitment. Actions that are antithetical to the commitment include providing financial incentives that increase species extinction risk, rescinding support for previous verbal or written agreements and suspending sustainable land use plans.

⁴⁷⁴³ Sustaining life on Earth: How the Convention on Biological Diversity promotes nature and human well-being, Secretariat of the Convention on Biological Diversity (Montreal) April 2000. Access Date: 12 March 2025. <https://www.cbd.int/doc/publications/cbd-sustain-en.pdf>

⁴⁷⁴⁴ Kunming-Montreal Global Biodiversity Framework 2050 Goals, Convention on Biological Diversity (Montreal) n.d. Access Date: 2 April 2025. <https://www.cbd.int/gbf/goals>

Scoring Guidelines

-1	The G20 member 1) has not taken any strong actions in any of the key components; or 2) has taken weak action in two or fewer of the key components of a) protect and restore, b) prosper with nature, c) share benefits fairly and d) invest and collaborate; or 3) has engaged in activity that is directly and explicitly antithetical to the commitment.
0	The G20 member 1) has taken strong action in two of the key components; or 2) has taken weak action in three of the four key components.
+1	The G20 member has taken strong action in at least three of the four key components.

Compliance Director: Cooper Price

Argentina: +1

Argentina has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 20 November 2024, the Undersecretariat of Environment, led by Ana María Vidal de Lamas, collaborated with Uruguayan authorities to transfer six pumas rescued from wildlife trafficking to conservation facilities in Uruguay.⁴⁷⁴⁵ This action demonstrates bilateral cooperation for biodiversity conservation under Law 22421, and aligns with Goal A – Protect and Restore.

On 27 November 2024, President Javier Milei violated Law 27.270 (the ratification of the Paris Agreement) by ordering Argentina's withdrawal from climate negotiations, rejecting multilateral climate and biodiversity agreements.⁴⁷⁴⁶ This move directly contradicts KM-GBF's principle of "swift, full, and effective implementation" and undermines Argentina's international commitments.

On 2 December 2024, the federal government approved the FLNG gas liquefaction project in Río Negro province, following an incomprehensive Environmental Impact Assessment.⁴⁷⁴⁷ This development threatens KM-GBF compliance through three major impacts: (1) thermal pollution from water discharges 5-7°C above ambient temperatures in the San Matías Gulf, a critical habitat for southern right whales; (2) exclusion of Indigenous communities from consultations, violating the Tehuelche-Mapuche sacred site "Chenque" protected under INAI Resolution 2022; and (3) projected doubling of greenhouse gas emissions compared to conventional gas, contradicting Argentina's COP15 commitments.

On 26 January 2025, the Undersecretariat of Environment participated in an awareness campaign to promote the sustainability and protection of coastal ecosystems, as well as public-private-civic society partnerships to meet international environmental sustainability standards.⁴⁷⁴⁸

On 28 January 2025, the Director of Innovation for Sustainable Development Juan Rodrigo Walsh met with Ambassador of Portugal Gonçalo Teles Gomes to discuss bilateral environmental cooperation to address

restoration of land degraded by fires and opportunities for public-private sector partnerships.⁴⁷⁴⁹ This demonstrates Argentina's commitment to advancing Goal A and D of the KM-GBF.

On 29 January 2025, Undersecretary of the Environment Ana Lamas and the National Director of Sustainable Development and Climate Management Cristina Goyenechea met with representatives from the Wildlife Foundation, the New Generation Argentina Foundation, the Avina Foundation, the CREA Foundation and the Argentine Chamber of Renewable Energy (CADER) to discuss collaborative opportunities to meet climate goals, develop tools to promote sustainable development and strengthen Argentina's environmental commitments.⁴⁷⁵⁰

On 31 January 2025, the Undersecretariat of Environment met with Chaco's Ministry of Sustainable Economic Development to discuss advancing the agenda for native forest protection.⁴⁷⁵¹ The initiative aims to bolster local biodiversity conservation efforts, focusing on the Chaco Forest and the reforestation of degraded areas. This meeting is consistent with KM-GBF Goal A, directly aligning with protecting and restoring forests and degraded ecosystems and Goal D, implicitly supporting collaboration with local governments and stakeholders for biodiversity management.

On 2 February 2025, the Undersecretariat of Environment designated Península Mitre in Tierra del Fuego as a Ramsar site, protecting 369,417 hectares of peatlands and marine ecosystems.⁴⁷⁵² This initiative directly contributes to Goal A – Protect and Restore.

On 28 February 2025, Argentina's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁷⁵³ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 11 March 2025, Undersecretary of the Environment Fernando Bloom, Director of Forests Octavio Pérez Pardo and Director of Environmental Coordination Paula Monteserin participated in a meeting with representatives from the Food and Agriculture Organization to evaluate progress on the Payment for Results (REDD+) project which aims to improve the sustainable management and environmental quality of native forests.⁴⁷⁵⁴

On 27 March 2025, the Federal Environment Council held its first 2025 assembly, during which representatives from the provinces and federal government discussed new conservation measures such as biodiversity

financing, coastal management strategies and gender-responsive policies.⁴⁷⁵⁵ Such measures support efforts to increase investments for biodiversity and collaboration between federal and provincial governments, demonstrating compliance with Goal D of the KM-GBF.

On 1 April 2025, the Undersecretariat of Environment met with environmental non-governmental organizations to review the implementation of Law 26.331, which aims to protect native forests.⁴⁷⁵⁶ This law provides a framework for deforestation prevention, land zoning and forest restoration funding, thus serving as a key step in fulfilling KM-GBF's Goal A.

On 14 April 2025, the Undersecretariat of Environment participated in a knowledge-exchange session at the National Institute of Industrial Technology focusing on furthering collaboration on bolstering technical capabilities and joint environmental efforts.⁴⁷⁵⁷ This initiative demonstrates Argentina's commitment to advancing Goal D of the KM-GBF.

On 16 April 2025, the Environmental Control Brigade (BCA) relocated two black howler monkeys to a wildlife sanctuary in Córdoba after they were confiscated from the illegal wildlife trade.⁴⁷⁵⁸ This action, by tackling wildlife trafficking, supports KM-GBF's Goal B, which addresses the sustainable use of biodiversity and its integration into local economies.

On 25 April 2025, the BCA carried out an operation in Buenos Aires, seizing illegal wildlife trophies as part of a wider anti-poaching and wildlife trafficking initiative.⁴⁷⁵⁹ This operation underscores Argentina's commitment to enforcing wildlife protection laws and fighting the illegal trade of biodiversity, which aligns with KM-GBF's Goal A.

On 26 April 2025, the Ministry of Tourism and Protected Areas established the Patagonia Azul Provincial Park as a new protected area covering 295,135 hectares of land.⁴⁷⁶⁰ The action serves to protect the coastal marine ecosystems and local biodiversity.

On 30 April 2025, the Undersecretariat of Environment coordinated a focal points meeting with representatives from various government agencies on national climate management strategies.⁴⁷⁶¹ This initiative meets Goal D of the KM-GBF through leveraging data to inform inter-ministerial work and strengthening coordinated efforts for sustainable development and climate management.

On 5 May 2025, the Undersecretariat of Environment organized a meeting on implementing a Memorandum of Understanding on the conservation of High Andean Flamingos and their habitats.⁴⁷⁶² Representatives from provincial and national governments, academic and non-governmental organizations participated in the event to strengthen collaboration on conservation efforts of species and water sources.

On 22 May 2025, the Federal Environment Subsecretariat participated in the fifth National Wetlands Forum held in Santa Fe province.⁴⁷⁶³ National officials presented updates on the comprehensive National Wetlands Inventory and reaffirmed Argentina's pledge to protect Ramsar sites and wetlands, crucial to maintaining resilient ecosystems, sustainable use of biodiversity, and scientific cooperation under KM-GBF Goals A, B, and D.

On 26 May 2025, the Undersecretariat of Environment participated in the 5th National Wetlands Forum to discuss policy measures for environmental preservation and the sustainable use of wetlands.⁴⁷⁶⁴ The forum convened representatives from the government, technical and scientific experts, non-governmental organizations and civil society to discuss tools and management cases to improve wetland planning, conversation and governance.

On 26 May 2025, the Undersecretariat of Environment chaired the Ordinary Meeting of the Southern Common Market (MERCOSUR) Working Subgroup No. 6 Environment to discuss topics related to biodiversity and climate management.⁴⁷⁶⁵ The delegations exchanged views on national biodiversity strategies, shared priorities on species repatriation action and adaptation measures for climate management.

On 29 May 2025, the Undersecretariat of Environment conducted a survey on palm groves in Córdoba to identify their conservation status, update mapping information and evaluate the effectiveness of environment management practices.⁴⁷⁶⁶

On 30 May 2025, the Minister of National Security Patricia Bullrich and the Undersecretary of the Environment Fernando Brom signed a Letter of Agreement of the Fire Prevention Plan for the north-central part of San Luis to strengthen the capacity of forest or interface fire mitigation and prevention.⁴⁷⁶⁷ It includes measures for early response capacities, strategic planning, environmental planning and sustainable environmental management. This initiative aims to reduce the loss of land and biodiversity.

On 6 June 2025, Argentina participated in the sixth Global Conference on Biodiversity Finance in Santiago, Chile, organized by the United Nations Development Programme.⁴⁷⁶⁸ Argentina presented progress on its Biodiversity Finance Plan for Misiones province, which incorporates financial instruments such as a proposed “Jaguar Conservation Insurance” mechanism to channel public-private funds into protecting Atlantic rainforest ecosystems. The plan, valued at approximately USD420 million, positions Argentina as a regional leader in closing biodiversity funding gaps under KM-GBF Goal D.

On 12 June 2025, the Environment Subsecretariat organized technical meetings with the Development Bank of Latin America and teams from the National Parks Administration to finalize operational frameworks for a USD6.3 million restoration project.⁴⁷⁶⁹ Covering seven key national parks, the project aims to restore degraded forest, grassland, and wetland ecosystems, advancing KM-GBF’s 30x30 target and Goals A and D.

On 24 June 2025, the National Desertification Committee, chaired by the Environment Subsecretariat, held its 11th session. The meeting gathered officials to review the National Action Plan to Combat Desertification.⁴⁷⁷⁰ Participants highlighted current programs rehabilitating degraded soils, combating drought and agreed to coordinate tighter reporting standards across provinces. These efforts align with KM-GBF Goals B, and D by integrating biodiversity into sustainable land use, and strengthening technical cooperation.

On 22 July 2025, the National Agricultural Technology Institute (INTA) announced its leadership role in the international CurveBend project, which aims to prove that livestock production and biodiversity conservation can coexist.⁴⁷⁷¹ In Argentina, activities will focus on native forests in Entre Ríos and grasslands in Buenos Aires, where INTA and partners will test regenerative livestock practices.

On 5 August 2025, the Subsecretariat of Environment launched a public bidding process to eliminate 180 tonnes of polychlorinated biphenyls waste and 20 tonnes of pesticides under a UNDP-supported initiative.⁴⁷⁷² The project aims to safely dispose of hazardous chemical stockpiles accumulated over decades, preventing soil and water contamination in affected ecosystems. By preventing soil and water contamination, this action works to improve biodiversity in affected regions advancing KM-GBF goals A and D.

On 20 August 2025, the Environment Subsecretariat confirmed at a Federal Environment Council’s (COFEMA) Native Forests Commission meeting that the National Fund for Native Forest Conservation would continue transferring resources to provinces.⁴⁷⁷³ The decision secures long-term financial support for sustainable forest management and accountability in conservation spending, advancing KM-GBF goal D.

On 21 August 2025, during the national COFEMA Assembly 112, the Integrated Environmental Information System was launched to consolidate national biodiversity and climate data.⁴⁷⁷⁴ During the same session, Argentina signed cooperation agreements with the FAO and the Green Climate Fund to advance sustainable forestry and wildfire prevention through new technical and financial support, advancing KM-GBF goal D.

On 25 August 2025, The Secretary of Tourism, Environment and Sports, Daniel Scioli, signed resolution 446/2025 which recognizes “other effective conservation measures” (O MEC) as a tool to support biodiversity.⁴⁷⁷⁵ O MEC’s are defined as special areas that, while not protected, are managed in a way conducive to the conservation of biodiversity and the ecosystem, advancing KM-GBF goal A.

On 7 October 2025, the Environment Subsecretariat signed a cooperation agreement with Freeland Brazil to coordinate anti-trafficking operations and training initiatives.⁴⁷⁷⁶ The partnership formalizes collaboration between government agencies and NGOs to enhance intelligence sharing and border enforcement against illegal wildlife trade, advancing KM-GBF goals A and B.

Argentina has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. The member has made significant strides in restoring ecosystems, protecting endangered species, and enhancing international cooperation for biodiversity conservation. While challenges remain in ensuring the sustainability of these efforts, particularly in securing adequate funding for restoration projects, the progress made thus far demonstrates the member’s unwavering commitment to the global biodiversity agenda.

Thus, Argentina receives a score of +1.

Analyst: Mariana Cavalc Monteiro Vieira

Australia: +1

Australia has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 25 February 2025, the Native Vegetation Council of South Australia committed AUD9,400,000 toward funding for native vegetation restoration projects.⁴⁷⁷⁷ This action directly supports the conservation and rehabilitation of threatened ecosystems and species, aligning with Goal A – Protect and Restore, and Goal D – Invest and Collaborate, by enhancing ecological resilience and enabling community-led restoration efforts.

On 28 February 2025, Australia’s delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁷⁷⁸ The strategy employs a range of instruments including public and private funding, multilateral

⁴⁷⁷⁸ Press Release: Governments agree on the way forward to mobilise the resources needed to protect biodiversity for people and planet, Convention on Biological Diversity (Rome) 28 February 2025. Access Date: 3 September 2025. <https://www.cbd.int/doc/press/2025/pr-2025-02-27-cop16-en.pdf>

development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 12 March 2025, the Department of Climate Change, Energy, the Environment and Water added 21 new species to the database of threatened species, making them eligible for greater protection and conservation efforts under national legislation.⁴⁷⁷⁹ The action aligns with Goal A, particularly concerning the extinction and abundance of species.

On 21 March 2025, the government allocated AUD250 million in the federal budget for land and water protection.⁴⁷⁸⁰ This action supports conservation efforts around the preservation of at-risk species and ecosystems, aligning with the Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 25 March 2025, the government passed legislation to bolster Tasmania's salmon farming industry through the weakening of the Environment Protection and Biodiversity Conservation.⁴⁷⁸¹ This initiative aligns with Goal B – Prosper with Nature.

On 29 March 2025, Prime Minister Anthony Albanese and Minister for Emergency Management Jenny McAllister announced an AUD2.1 million Environmental Recovery Package for the restoration of north Queensland's coastline and land ecosystems as a part of a joint Commonwealth-state Disaster recovery Funding Arrangements.⁴⁷⁸² This initiative demonstrates Australia's commitment to advancing Goal A of the KM-GBF.

On 15 May 2025, the Department of Foreign Affairs and Trade announced a renewed allotment of AUD24.75 million to the Secretariat of the Pacific Regional Environment Programme.⁴⁷⁸³ The funding will support biodiversity preservation in critical ecosystems, such as mangroves and coral reefs, and the integration of traditional knowledge in environmental governance across the Pacific in line with KM-GBF Goal A and B.

On 6 June 2025, the Department of Climate Change, Energy, the Environment and Water released a national environmental research update on offshore wind development.⁴⁷⁸⁴ The update featured progress on projects led by federal agencies and universities to strengthen biodiversity impact assessments for offshore wind farms, including research on whale migration, seabird foraging patterns, and underwater noise. This work aligns infrastructure with marine biodiversity protection, advancing Australia's scientific capacity and investment collaboration under KM-GBF Goal B and D.

⁴⁷⁸⁴ Marine and Coastal Hub offshore wind farm environmental research update, National Environmental Science Program (Canberra) 6 June 2025. Access Date: 12 July 2025. <https://www.nespmarinecoastal.edu.au/story/marine-and-coastal-hub-offshore-wind-farm-environmental-research-update-june-2025/>

On 17 June 2025, the Department of Climate Change, Energy, the Environment and Water and Parks Australia co-hosted a two-day national workshop in Canberra on offshore wind environmental research.⁴⁷⁸⁵ The event launched the Renewable Energy Environmental Research Initiative, supporting 17 federally funded projects to guide biodiversity-safe infrastructure rollout. These actions promote technical cooperation and capacity-building for biodiversity-aligned investment under KM-GBF Goal D.

On 25 July 2025, the Department of Climate Change, Energy, the Environment and Water announced a AUD2.25 million investment in wetlands management and conservation projects, including enhanced monitoring and data collection.⁴⁷⁸⁶ This investment furthers KM-GBF Goal A – Protect and Restore.

On 4 September 2025, the Commonwealth Environmental Water Holder concluded its Flow-MER Annual Forum to discuss the preservation of the Murray–Darling Basin.⁴⁷⁸⁷ The event’s focus on the protection of the basin’s water and wildlife furthers KM-GBF Goal A.

On 10 September 2025, Minister for the Environment and Water Murray Watt announced the government’s AUD4.3 million contribution to citizen-led scientific exploration through the Great Barrier Reef Citizen Science Program.⁴⁷⁸⁸ By mobilizing new resources for scientific collaboration, the financing promotes KM-GBF Goal D.

On 18 September 2025, the Department of Climate Change, Energy, the Environment and Water participated in a series of meetings hosted by the Secretariat of the Pacific Regional Environment Programme, including the 2nd Partners Dialogue, 32nd Senior Officials Meeting, Noumea Convention 18th Conference of Parties and Waigani Convention 13th Conference of Parties.⁴⁷⁸⁹ The collection of Pacific nations discussed environmental collaboration in line with KM-GBF Goal D.

Australia has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Australia has taken moderate to strong action in halting biodiversity loss through the expansion of marine protected areas and increased conservation funding, however, there is insufficient evidence of strong action that aligns with Goal C – Share Benefits Fairly.

Thus, Australia receives a score of +1.

On 27 November 2024, the National Bank for Economic and Social Development launched a BRL61 million reforestation initiative under the Living Forest program, targeting degraded areas in the Atlantic Forest biome.⁴⁷⁹⁰ The project aims to restore 5,000 hectares across four watersheds, aligning with Goal A – Protect and Restore.

On 11 December 2024, Brazil launched the National Plan for the Recovery of Native Vegetation (Planaveg), aiming to restore 12 million hectares of native vegetation by 2030.⁴⁷⁹¹ The plan prioritizes degraded areas in the Amazon, Cerrado and Atlantic forests through agroforestry systems and sustainable land use practices. Planaveg directly advances Goal A – Protect and Restore.

On 24 January 2025, the Ministry of Environment and Climate Change and the Brazilian Development Bank announced a BRL45 million investment from the Amazon Fund to strengthen firefighting capacity in Mato Grosso, a critical frontier for deforestation and wildfires.⁴⁷⁹² By prioritizing early detection systems and community-led prevention campaigns, the project directly addresses KM-GBF Target eight (climate change mitigation) and Target twelve (ecosystem resilience). Environment Minister Marina Silva emphasized that the strategy not only combats illegal fires but also protects biodiversity hotspots and Indigenous territories, aligning with Goal D – Invest and Collaborate.

On 10 February 2025, the Ministry of Environment and Climate Change and the Brazilian Forest Service launched the concession of the Jatuarana National Forest to promote sustainable forest management.⁴⁷⁹³ The project is expected to preserve 453,401 hectares of forest. The concession includes mandatory investments in research, forest protection and community support, reinforcing Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

On 20 February 2025, the Ministry of Environment and Climate Change proposed 23 National Biodiversity Targets for 2030, including zero deforestation, ecosystem restoration and sustainable land use planning.⁴⁷⁹⁴ The resolution emphasizes Brazil's commitment to halting biodiversity loss through measurable actions. It aligns with Goal A – Protect and Restore. This policy framework strengthens Brazil's compliance with the KM-GBF by institutionalizing its goals at the national level.

On 20 February 2025, the National Biodiversity Commission published Resolution No. 9/2025, outlining 23 National Biodiversity Targets (2025–2030).⁴⁷⁹⁵ Targets include zero deforestation, halting conversion of native vegetation, restoring at least 30 per cent of degraded areas in each biome, preventing species extinctions, controlling invasive species, reducing pollution and ensuring benefit-sharing from genetic resources. This resolution integrates Brazil's KM-GBF commitments into its National Biodiversity Strategy and Action Plan.

On 28 February 2025, Brazil's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁷⁹⁶ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 28 February 2025, Brazil finalised a multilateral initiative led by the BRICS countries (Brazil, Russia, India, China and South Africa) to earmark USD200 billion in annual financing for nature protection.⁴⁷⁹⁷ The funding aims to preserve biodiversity and natural environments in light of climate change.

On 28 April 2025, Brazil launched the second Eco Invest Auction, aimed at raising funds for the restoration of one million hectares of degraded land across the Atlantic Forest, Cerrado, Caatinga, Pampas and Pantanal biomes.⁴⁷⁹⁸ The auction seeks to mobilize up to USD2 billion in private capital to restore lands using sustainable practices, promoting soil recovery and environmental conservation.⁴⁷⁹⁹ The program aligns with KM-GBF Goal D by generating resources for long-term conservation and boosting Brazil's commitment to sustainable development.

On 26 May 2025, the Brazilian Ministry of Environment and Climate Change awarded BRL900,000 to 20 organizations representing Brazil's indigenous communities.⁴⁸⁰⁰ This award promotes the work of organizations that aim to protect and sustainably use traditional knowledge associated with genetic heritage to benefit the environment.

On 2 June 2025, the Ministry of Agrarian Development launched the National Program for Strengthening Sociobiodiversity (Pró-Sociobio).⁴⁸⁰¹ The program seeks to develop sustainable supply chains for products such as native fruits, nuts, latex and medicinal plants, by offering credit lines, rural extension and market access. This initiative aims to generate income for Indigenous communities through activities that conserve Brazil's biomes, directly advancing KM-GBF Goal A.

On 3 June 2025, President Luiz Inácio Lula da Silva signed decrees establishing three new federal conservation units and formally launched Brazil's updated National Biodiversity Strategy and Action Plan (EPANB).⁴⁸⁰² The EPANB serves as the guiding instrument to implement conservation targets, sustainable use goals and

ecosystem restoration commitments. This new strategy integrates Brazil's 23 national biodiversity targets for 2025–2030.

On 3 June 2025, the Ministry of Economy and the Brazilian National Development Bank announced that the Amazon Fund disbursed BRL825.7 million, the largest biodiversity-focused release in the Fund's history, to Brazilian Institute of Environment and Renewable Natural Resources (IBAMA).⁴⁸⁰³ These resources will bolster IBAMA's forest surveillance with helicopters, drones, and ground teams to enforce Brazil's zero illegal deforestation goal by 2030, a critical measure under KM-GBF Goal A.

On 4 June 2025, the Ministry of Environment and Climate Change held a joint press briefing detailing how the updated EPANB aligns Brazil's restoration efforts under the National Native Vegetation Recovery Plan (Planaveg), which targets the recovery of 12 million hectares of degraded land by 2030.⁴⁸⁰⁴ Officials highlighted that Planaveg's spatial planning and financing will be managed to explicitly support the KM-GBF's 30x30 targets (protecting 30 per cent of land, sea, and inland water and restoring 30 per cent of degraded ecosystems).

On 8 June 2025, Environment Minister Marina Silva announced that Brazil was expanding the Amazon Protected Areas program and rolling out the National Strategy for Conservation and Sustainable Use of Coral Reefs.⁴⁸⁰⁵ These measures aim to protect marine and coastal biodiversity while creating sustainable tourism and small-scale fishing opportunities, furthering KM-GBF Goal A and Goal B.

On 9 June 2025, the Ministry of Indigenous Peoples collaborated with Forest Trends and Greendata launched the Strengthening Indigenous Territories: Governance, Climate Finance, and Biodiversity Value Chains project.⁴⁸⁰⁶ The project adopts a socio-environmental approach to sustainability that couples the goals of Indigenous territorial stewardship and biodiversity conversation, particularly through preventing deforestation, in accordance with KM-GBF Goal A and Goal B.

On 10 June 2025, Minister Silva shared Brazil's endorsement of the Mangrove Breakthrough Initiative, a multilateral effort to mobilise USD4 billion in private and public sector investment for the protection of mangrove ecosystems by 2030.⁴⁸⁰⁷ With an explicit focus on the biodiversity benefits of mangrove protection, Brazil's political and financial contribution to this initiative furthers KM-GBF Goal D.

On 18 June 2025, Conabio and the Ministry of Agrarian Development formalized contracts with cooperative associations under the Pró-Sociobio program, focusing on sociobiodiversity products like açai and babaçu.⁴⁸⁰⁸ This marks the operational phase of direct investment into community-led sustainable harvesting.

⁴⁸⁰⁸ Plano Safra 25/26: Governo vai rebatizar programa de subvenção de produtos extrativistas, Globo Rural (Brasília) 30 June 2025. Translation provided by Analyst. Access Date: 4 July 2025. <https://globorural.globo.com/credito-e-investimento/noticia/2025/06/plano-safra-2526-governo-vai-rebatizar-programa-de-subvencao-de-produtos-extrativistas.ghtml>

On 1 July 2025, the Ministry of Agrarian Development launched the Program for Valorization of Sociobiodiversity and Extractivism, which guarantees minimum prices and subsidies for sociobiodiverse products harvested by indigenous and other extractivist communities.⁴⁸⁰⁹ The program aims to conserve forest ecosystems and strengthen rural livelihoods, explicitly encouraging sustainable harvesting practices, forest restoration, agroforestry and food security.

On 17 July 2025, the Chamber of Deputies passed the General Environmental Licensing Bill (Bill 2159/202), which modifies the country's environmental licensing system to minimise monitoring, evaluation and built-in protections for the natural environment.⁴⁸¹⁰ Pending Presidential approval, this bill would negatively impact progress toward the KM-GBF targets.

On 25 July 2025, President Silva signed Law No. 15,180, creating a National Policy to Incentivize Visitation in Conservation Units, which authorizes partnerships and a public fund to improve infrastructure and services in protected areas.⁴⁸¹¹ The law seeks to reconcile conservation and economic development by promoting sustainable tourism, environmental education and recreation, advancing KM-GBF Goal B and Goal C.

On 27 July 2025, ICMBio debuted the Plan for Reducing Mining Impacts on Biodiversity and Speleological Heritage, which outlines strategies to mitigate, prevent and compensate for biodiversity impacts from mining.⁴⁸¹² It identifies 690 fauna and 1,205 flora species threatened by mining and provides spatial guidelines for emergency preparedness (e.g., tailings dams), supporting KM-GBF Goal A and Goal B.

On 30 July 2025, the Ministry of Environment and Climate Change convened a major Union with Municipalities meeting in Manaus to present new satellite monitoring tools and training for local officials.⁴⁸¹³ It confirmed approximately BRL758 million in funding, with performance-based disbursements tied to reductions in deforestation. This initiative aims to strengthen land regularization, forest restoration and sustainable livelihoods to meet Brazil's target of ending Amazon deforestation by 2030.

On 8 September 2025, the Ministry of Environment and Climate Change reinstated the Brazilian Commission for the "Man and the Biosphere" Program to coordinate biodiversity conservation and sustainable development in key regions.⁴⁸¹⁴ The commission seeks to promote prosperous human-nature relations in promotion of KM-GBF Goal B.

On 9 September 2025, the Ministry of Environment and Climate Change signed two agreements with the Cerrado das Águas Consortium and the Ecological Research Institute to further the sustainable management of rural landscapes.⁴⁸¹⁵ The plans include a focus on biodiversity gains and environmental improvement, advancing KM-GBF Goal A.

On 9 September 2025, the Ministry of Environment and Climate Change announced a joint investment with the UNDP and Green Climate Fund of BRL1.5 million to the Floresta+ Amazon Project.⁴⁸¹⁶ The project financially supports the forest conservation efforts of small-scale farmers in line with KM-GBF Goal B.

On 10 September 2025, the National Commission to Combat Desertification instituted the Brazilian Action Plan to Combat Desertification and Mitigate the Effects of Drought.⁴⁸¹⁷ The plan contributes to ecosystem and habitat protection under KM-GBF Goal A.

On 15 September 2025, the Ministry of the Environment and Climate Change and the National Institute for Space Research launched the Deter Não Floresta initiative to monitor the entirety of the Amazon biome for deforestation.⁴⁸¹⁸ The collaborative effort furthers KM-GBF Goal D.

On 16 September 2025, the Chico Mendes Institute for Biodiversity Conservation (ICMBio), under the Ministry of Environment and Climate Change, launched the “Natureza com as Pessoas” program through Portaria ICMBio Nº 3.689/2025.⁴⁸¹⁹ The administrative ordinance promotes sustainable tourism in federal conservation units by fostering community-based visitation co-created with traditional and Indigenous communities.

On 17 September 2025, the Ministry of Environment and Climate Change unveiled the Environmental Monitoring Project for Mercury Exposure in Munduruku Territories.⁴⁸²⁰ The project aims to measure and counter mercury contamination from illegal mining in line with KM-GBF Goal A.

On 23 September 2025, President Luiz Inácio Lula da Silva pledged USD1 billion as Brazil’s initial contribution to the Tropical Forests Forever Facility, a South-South initiative designed to mobilize long-term, results-based finance for tropical forest conservation and restoration during the UN General Assembly in New York.⁴⁸²¹ This

⁴⁸²¹ Exclusive: B’azil’s Lula announces \$1 billion investment in global forest fund, Reuters (Brasília) 23 September 2025. Access Date: 7 October 2025. <https://www.reuters.com/sustainability/cop/brazil-invest-1-billion-global-forest-fund-sources-say-2025-09-23/>

financial commitment positions Brazil as the first investor in the fund and demonstrates its leadership under KM-GBF Goal D.

On 26 September 2025, the Ministry of Agrarian Development launched the National Productive Forests Program to restore degraded lands through agroforestry systems that integrate crops, livestock, and native trees while strengthening rural livelihoods.⁴⁸²² The federal program secured BRL200 million in funding and aims to restore 30,000 hectares by 2030.

On 2 October 2024, President Lula created the National Strategy for the Ocean Without Plastic for 2025-2030.⁴⁸²³ The initiative seeks to protect marine biodiversity in line with KM-GBF Goal A.

On 4 October 2025, the Ministry of Environment and Climate Change concluded its participation in the second international exchange on National Strategies and Action Plans for Biodiversity.⁴⁸²⁴ Representatives discussed biodiversity hotspots and the sharing of genetic resources in accordance with KM-GBF Goal A and Goal C.

On 16 October 2025, the Ministry of Environment and Climate Change, Ministry of Agrarian Development and Family Farming and National Bank for Economic and Social Development announced the beneficiaries of BRL126 million in funding for Amazon recovery efforts as part of the Restaura Amazônia program.⁴⁸²⁵ These land restoration efforts support KM-GBF Goal A.

On 17 October 2025, Extraordinary Secretary for Deforestation Control and Territorial Environmental Planning André Lima convened a workshop of state environmental departments to coordinate strategies on deforestation.⁴⁸²⁶ This workshop contributes to forest protection efforts under KM-GBF Goal A.

Brazil has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Between May and June 2025, Brazil advanced substantial actions across all four goals: creating new protected areas and restoration plans under Goal A, fostering sustainable value chains and marine conservation programs under Goal B, implementing legal and financial mechanisms to ensure equitable benefit-sharing under Goal C, and mobilizing record domestic and international biodiversity funding under Goal D.

Thus, Brazil receives a score of +1.

Canada: +1

Canada has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 22 November 2024, Minister of Environment and Climate Change Stephen Guilbeault announced CDN5.7 million in funding to enhance ecological connectivity in eight areas marked for conservation priority.⁴⁸²⁷ This action supports Goal A – Protect and Restore.

On 5 December 2024, the Committee on the Status of Endangered Wildlife in Canada added five new species to the list of at-risk wildlife, bringing the total to 860.⁴⁸²⁸ This increase demonstrates ongoing challenges in preserving at-risk species. However, the initiative advances Goal A – Protect and Restore.

On 15 January 2025, Minister Guilbeault announced the designation of new National Wildlife Areas in Nova Scotia's Country Island, Isle Haute and St. Paul Island by the Government of Canada.⁴⁸²⁹ The designations aim to provide protection for at-risk species and bolsters biodiversity conservation efforts. This demonstrates Canada's commitment to halting and reversing biodiversity loss, aligning with Goal A of the KM-GBF.

On 17 February 2025, the government announced a CAD12.2 million funding scheme through the Environmental Damages Fund to support 22 conservation and restoration projects nationwide.⁴⁸³⁰ This investment strengthens nature protection efforts, including habitat restoration and species-at-risk recovery, aligning with Goals A, B and Goal D under the KM-GBF 2050 vision.

On 24 February 2025, Member of Parliament for Northwest Territories Michael McLeod and Minister of Environment and Climate Change for the Government of Northwest Territories Jay Macdonald signed the Canada-Northwest Territories Nature Agreement to address biodiversity loss, support Indigenous conservation efforts and facilitate knowledge-exchange.⁴⁸³¹

On 27 February 2025, the government of Canada announced a CDN23.4 million federal investment to support the Inuit economy and protect northern ecosystems, in partnership with the Qikiqtani Inuit Association.⁴⁸³² The funding includes support for the Tallurutiup Imanga National Marine Conservation Area and the Tuvaijuittuq Marine Protected Area, enabling sustainable Inuit-led stewardship, economic development, and biodiversity protection across Canada's High Arctic region. This initiative exemplifies national leadership in advancing Indigenous rights, marine conservation, and inclusive biodiversity financing under KM-GBF Goals A, B, and D.

On 28 February 2025, Minister Guilbeault participated in the resumed session 16th United Nations Biodiversity Conference to advance the implementation of the KM-GBF through engaging with ministers, partners and civil society representatives.⁴⁸³³ Minister Guilbeault committed to working with key partners in advancing biodiversity efforts and global conservation goals through nature-based climate solutions.

On 28 February 2025, Canada's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁸³⁴ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 5 March 2025, the Canadian government along with the First Nations Leadership Council and the British Columbia government established the Tripartite Framework Agreement on Nature Conservation.⁴⁸³⁵ This agreement aims to advance ecosystem health and biodiversity conservation through a cooperative approach that respects Indigenous rights and stewardship roles. The initiative aligns with Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 7 March 2025, Minister Guilbeault announced a Memorandum of Understanding between the governments of Canada and Manitoba to advance nature conservation and support nature agreements that protect at-risk species, reduce biodiversity loss through establishing Protected and Conserved Areas and bolster climate resilience.⁴⁸³⁶ This initiative also includes a CAD2 million commitment in partnerships with Indigenous communities to facilitate knowledge-sharing and the development of a nature agreement. This action demonstrates Canada's commitment to supporting Goal A and D of the KM-GBF.

On 10 March 2025, Minister Guilbeault announced a Canada-Quebec accord devoting CAD100 million by 2027 to conservation activities.⁴⁸³⁷ The action furthers KM-GBF targets by protecting forests, wetlands and other keystone habitats in the province of Quebec.

On 20 March 2025, the government announced new recovery actions to protect five aquatic species at risk in British Columbia, including the endangered North Pacific Right Whale and Southern Resident Killer Whale.⁴⁸³⁸ This initiative enhances habitat protection and species recovery, supporting Goals A, B and D under the KM-GBF 2050 framework.

On 15 May 2025, the Committee on the Status of Endangered Wildlife in Canada released its updated wildlife species assessments, designating several species with new or confirmed statuses, indicating ongoing efforts to assess and identify at-risk species.⁴⁸³⁹ The action benefits species resilience in line with KM-GBF Goal A.

On 9 July 2025, Parks Canada and Secretary of State for Defense Procurement Stephen Fuhr pledged CAD5.3 million in federal funding to expand ecological corridor projects, nature conservation and Indigenous stewardship across British Columbia.⁴⁸⁴⁰ The initiative strengthens habitat connectivity as a measure of ecosystem restoration under KM-GBF Goal A.

On 15 July 2025, the government approved a contribution of CAD16.9 million to the Federation of Canadian Municipalities' Green Municipal Fund, which will be dispersed among 27 tree-planting and local biodiversity projects.⁴⁸⁴¹ The fund contributes to Canada's efforts under KM-GBF Goal A – Protect and Restore.

On 21 July 2025, the Minister of Environment and Climate Change, Julie Dabrusin, signed a partnership with the Our Land for the Future Trust to allocate CAD300 million for an Indigenous-led stewardship and conservation framework covering 380,000 square kilometres of land and inland water.⁴⁸⁴² Representing two per cent of Canadian land and freshwater areas, the program effectively supports KM-GBF Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal C – Share Benefits Fairly.

On 22 July 2025, Minister Dabrusin pledged CAD14.4 million to support environmental literacy projects targeting youth across Canada.⁴⁸⁴³ With a key objective to empower young people to improve biodiversity in local environments, the investment aligns with KM-GBF Goal B – Prosper with Nature.

On 29 September 2025, President of the Canadian Space Agency Lisa Campbell announced the allocation of CAD5 million to support twenty companies tracking Canadian biodiversity with satellite technology.⁴⁸⁴⁴ The grants encourage scientific and technical collaboration to manage a variety of biodiversity challenges as prescribed by KM-GBF Goal D.

⁴⁸⁴³ The Government of Canada invests over \$14.4 million to empower young Canadians to address climate change and support a healthy environment, Environment and Climate Change Canada (Vancouver) 22 July 2025. Access Date: 27 August 2025. <https://www.canada.ca/en/environment-climate-change/news/2025/07/the-government-of-canada-invests-over-144-million-to-empower-young-canadians-to-address-climate-change-and-support-a-healthy-environment.html>

⁴⁸⁴⁴ smartEarth: Using satellite data to preserve C'nada's natural heritage, Canadian Space Agency (Longueuil) 29 September 2025. Access Date: 20 October 2025. <https://www.canada.ca/en/space-agency/news/2025/09/smartearth-using-satellite-data-to-preserve-canadas-natural-heritage.html>

On 9 October 2025, the Council of the Canada-Chile Commission for Environmental Cooperation met for their 23rd session.⁴⁸⁴⁵ Here the council discussed cooperation in several areas including biodiversity conservation in line with KM-GBF goal A.

On 13 October 2025, Minister of Foreign Affairs Anita Anand and India's Minister of External Affairs, Subrahmanyam Jaishankar issued a joint statement outlining plans to improve bilateral cooperation.⁴⁸⁴⁶ They pledged to, among other things, address biodiversity loss contributing to KM-GBF goal A and D.

On 17 October 2025, Minister of Fisheries Joanne Thompson joined President of the Haida Nation Gaagwiis Jason Alsop to recognize the Gaw Káahlíi and Xaana Kaahlíi Marine Refuges as protected areas.⁴⁸⁴⁷ The expansion of protected areas contributes to KM-GBF goal A.

On 31 October 2025, G7 members under Canada's 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁴⁸⁴⁸ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best practice principles and barriers to biodiversity conversation including "conserving, protecting, restoring, and building resilience" for ecosystems. This initiative aligns with Goal A and D.

Canada has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Canada has initiated several policies and agreements aimed at halting biodiversity loss, preserving at-risk species, expanding protected areas, and restoring degraded ecosystems. However, it has not taken action that align with Goal C of the KM-GBF 2050 vision for biodiversity.

Thus, Canada receives a score of +1.

China: 0

China has partially complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 15 December 2024, China hosted the third China-Indian Ocean Region Forum on Blue Economy Development Cooperation, a three-day conference that facilitated normalized cooperation mechanisms between China and 17 Indian Ocean region countries, improving their remote sensing technology, maritime monitoring implementation and research focus.⁴⁸⁴⁹ This international collaboration strengthens biodiversity protection and disaster reduction regarding the sea. The initiative aligns with Goal D – Invest and Collaborate.

On 19 February 2025, the Ministry of Finance published a framework for sovereign green bonds, presenting opportunities for global capital to support its green development.⁴⁸⁵⁰ This framework is intended to support climate change mitigation, pollution control and biodiversity preservation.

On 28 February 2025, China's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁸⁵¹ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 28 February 2025, China finalised a multilateral initiative led by the BRICS countries to earmark USD200 billion in annual funding for nature protection.⁴⁸⁵² The funding aims to preserve biodiversity and natural environments in light of climate change.

On 27 March 2025, China and France signed a joint agreement on addressing issues related to climate change.⁴⁸⁵³ Key areas of cooperation include biodiversity, ecosystem protection and legal enforcement.

On 28 March 2025, representatives from the Ministry of Science and Technology, Chinese Academy of Sciences, National Science and Technology Infrastructure Center and Institute of Tibetan Plateau Research participated in the Trans-Himalaya Earth Science International Cooperation Forum to discuss joint biodiversity efforts.⁴⁸⁵⁴

On 25 April 2025, the China Coast Guard began a campaign with various targeted inspections regarding marine industries to address critical environmental issues.⁴⁸⁵⁵ This campaign tightens restrictions on activities such as shoreline modifications, offshore oil exploration, and undersea pipeline construction, demonstrating China's conservation efforts to marine ecosystems in compliance with KM-GBF Goal B.

On 27 April 2025, China released a draft of its environmental code with provisions on ecological protection, filling gaps in legislation and facilitating the enforcement of and compliance to ecological conservation efforts.⁴⁸⁵⁶ The draft contains provisions on safeguarding ecosystems and enhancing conservation efforts in a variety of ecosystems, while advancing ecosystem protection and restoration efforts.

On 12 May 2025, China introduced new regulations on eco-environmental protections that focuses on key priorities such as "ecological protection and restoration."⁴⁸⁵⁷

On 21 May 2025, the Ministry of Ecology and Environment joint with other departments announced China's two-year action plan to improve the quality of their aquatic ecosystems, including rivers and lakes.⁴⁸⁵⁸ Outlining 19 specific measures and including 2,573 water bodies, this plan aims to maintain and restore biodiversity in waters, ensure the presence of native species and control pollution. This announcement promises progress in KM-GBF Goal A by protecting ecosystems, habitats and species.

On 22 May 2025, China launched the first digital platform containing tropical biodiversity data in partnership with the Xishuangbanna ecology and environment bureau.⁴⁸⁵⁹ This initiative aligns with Goal D – Invest and Collaborate.

On 23 May 2025, Minister of Science and Technology Yin Hejun struck an agreement with Croatian officials to boost bilateral collaboration on knowledge and technology for biodiversity conservation and green development.⁴⁸⁶⁰ As a measure of capacity-building and technical and scientific cooperation between China and Croatia, the action supports KM-GBF Goal D.

On 26 May 2025, the Ministry of Agriculture and Rural Affairs co-chaired the China-Japan Fishery Cooperation Dialogue in Shanghai, where the two countries shared achievements in promoting green aquaculture, reducing illegal fishing and conserving aquatic resources.⁴⁸⁶¹ This international meeting demonstrates China's efforts in achieving KM-GBF Goal C.

On 9 June 2025, the Chinese vice president attended the third United Nations Ocean Conference (UNOC3), presenting proposals for sustainable ocean governance, expressing commitment to sustainable development and providing training opportunities for increasing maritime sustainable development to developing countries.⁴⁸⁶² The focus on developing countries demonstrates moderate action toward KM-GBF Goal C.

On 13 June 2025, the National Forestry and Grassland Administration, the Ministry of Agriculture and Rural Affairs and the National Religious Affairs Administration published guidelines on the re-introduction of wildlife into natural ecosystems.⁴⁸⁶³ The action seeks to preserve species diversity by limiting biological invasions and disease transmission.

On 17 June 2025, the Ministry of Ecology and Environment renewed China's commitment to environmental cooperation with the EU in Brussels during the 10th environment policy ministerial dialogue.⁴⁸⁶⁴ This dialogue centred around implementing the KM-GBF, creating discourse for international plastic pollution agreement, environmental pollution control, and multilateral environmental governance. This diplomatic action demonstrates China's efforts towards Goals A and D as it intends to halt global biodiversity loss and preserve land and water areas through international cooperation.

https://english.www.gov.cn/news/202506/17/content_WS6851316cc6d0868f4e8f3696.html

On 4 July 2025, the first batch of Chinese national parks completed their registration of natural resources, a new system introduced by the Ministry of Natural Resources to clarify ownership, management responsibilities and ecological boundaries of these parks to better protect and supervise natural resources.⁴⁸⁶⁵ This milestone serves Goal A as it helps maintain ecosystems and informs efforts to increase the abundance of natural resources.

On 5 July 2025, China launched “Eco Forum Global Guiyang 2025,” an international forum focused on ecological civilization.⁴⁸⁶⁶ This event gathered many leaders in many countries to discuss topics on sustainable development, climate change, biodiversity conservation and environmental governance, exemplifying Goal D as countries share their findings and successes in protecting the environment.

On 4 September 2025, 17 government bodies in China, including the National Forestry and Grassland Administration, issued a bird-protection initiative that entails a three-year campaign of enhancing habitat conservation, combating illegal hunting and promoting public awareness.⁴⁸⁶⁷ This new plan will introduce policies that reduce human impact on wildlife, strengthening China’s compliance to KM-GBF goal B.

On 10 September 2025, the State Council approved the Ministry of Natural Resources’ request to establish a national-level nature reserve at Huangyan Dao, taking an important step to safeguarding the biodiversity, stability and sustainability of the island's natural ecosystem.⁴⁸⁶⁸ This new land management measure demonstrates China’s effort towards KM-GBF goal A.

On 28 September 2025, the government participated in the 26th Tripartite Environment Ministers Meeting among Japan, Korea and China, during which the Tripartite Joint Action Plan on Environmental Cooperation (2026-2030) was adopted.⁴⁸⁶⁹ The cooperative agreement’s inclusion of biodiversity as a priority area furthers KM-GBF goal A.

China has partially complied with its commitment to the swift, full, and effective implementation of the KM-GBF. China has taken strong action under Goal A – Protect and Restore, such as through its comprehensive aquatic ecosystem protections, but the prominence of dialogues and expressions of verbal support in lieu of concrete actions and financial contributions in the other three goal areas represents only moderate commitment.

Thus, China receives a score of 0.

resilient, sustainable and inclusive cities as part of the “Sustainable City and Innovative buildings” research program.⁴⁸⁷⁰ The funding aligns with the KM-GBF targets by responding to biodiversity preservation, specifically Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 3 December 2024, the French Development Agency pledged EUR1.35 million to sustainable water management in Kazakhstan’s Lake Balkhash.⁴⁸⁷¹ The funding seeks to promote water and ecosystem preservation beyond France’s borders. The initiative aligns with Goal A – Protect and Restore and Goal B – Prosper with Nature.

On 8 January 2025, the Critical Ecosystem Partnership Fund (CEPF), a joint initiative of l’Agence Française de Développement, announced its partnership with Conservation International to implement the Global Environment Facility Small Grants Program.⁴⁸⁷² The CEPF serves to empower civil society organisations to better conserve global biodiversity hotspots. The initiative aligns with Goal D – Invest and Collaborate.

On 14 January 2025, Prime Minister François Bayrou delivered his general policy statement to the National Assembly, calling for the continuation and expansion of efforts to address environmental challenges.⁴⁸⁷³ Key pledges included the organisation of a national conference on water, in line with KM-GBF 2050 vision of biodiversity including Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 23 January 2025, Minister of Ecological Transition, Biodiversity, Forests, the Sea and Fisheries Agnès Pannier-Runacher and Secretary General for Investment Bruno Bonnell announced the 26 winning projects of the France 2030 “Innov Eau” initiative.⁴⁸⁷⁴ A total of EUR25.2 million will be given to the selected projects in improving recourse quality and water-use efficiency. The initiative aligns with Goal D – Invest and Collaborate.

On 13 February 2025, various French ministries launched the CONRIMER Low Carbon Ships initiative aiming to decarbonize maritime transport by encouraging innovative solutions and developing new components and equipment.⁴⁸⁷⁵ It represents the government’s commitment to reducing maritime emissions and pollution, which will contribute to the protection and sustainable development of marine ecosystems.

On 28 February 2025, France’s delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁸⁷⁶ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention’s financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 3 March 2025, the government announced a series of initiatives, aimed at strengthening food independence and accelerating the environmental transition.⁴⁸⁷⁷ Key actions included developing agreements and a collective approach to improving the nutritional quality and sustainability of food products, creating public-private funds to support the modernization and ecological transition of the agri-food sector, and developing bio-sourced materials.

On 27 March 2025, France and China signed a joint agreement on addressing issues related to climate change.⁴⁸⁷⁸ Key areas of cooperation include biodiversity, ecosystem protection and legal enforcement.

On 28 April 2025, the French Office for Biodiversity launched the third edition of the “Mission Nature” scratch card game, aimed at preserving biodiversity and raising public awareness.⁴⁸⁷⁹ It supports 21 new projects throughout France in favor of the restoration of degraded ecosystems, preservation of endangered species and the elimination of exotic plants.

On 7 May 2025, Prime Minister Bayrou and the Minister Pannier-Runacher launched the “Water in our Territories” conferences.⁴⁸⁸⁰ These conferences aim to address climate adaptation challenges, through territorial dialogue on water cycle, its impacts and improving water management strategies. It reflects government’s commitment on sustainable water management and its response to current ecological pressures.

On 23 May 2025, the government launched the “Acting to Restore Nature” national plan, inviting citizens to engage in discourses related to biodiversity loss and ecosystem restoration.⁴⁸⁸¹ Initiatives included a preliminary consultation with guarantors and the 19th edition of the nature festival. This action contributes to KM-GBF biodiversity goal by promoting public engagement and raising awareness on ecological current ecological challenges.

On 26 May 2025, Prime Minister Bayrou held an interministerial committee meeting on the sea.⁴⁸⁸² Key discussions included addressing illegal fishing, plastic pollution, decarbonization and developing renewable

marine energy. This action underscores the government's approach to protecting marine ecosystem while strengthening scientific cooperation.

On 28 May 2025, President Emmanuel Macron met with the President of Indonesia Prabowo Subianto where the leaders welcomed the commencement of the UN Convention on the Biodiversity Beyond National Jurisdiction.⁴⁸⁸³

On 5 June 2025, various ministries signed a national strategy to fight against fires in forest, vegetation, and other non-wood areas.⁴⁸⁸⁴ The strategy is built on four guiding principles: focusing on international cooperation, continuous scientific development, enhancing national capacity for fire anticipation and resilience to the impacts of climate change. It highlights France's continuous commitment to biodiversity protection and its call to scientific advancement through collaboration across different regions and territories.

On 9 June 2025, France and Costa Rica co-hosted the Third United Nations Ocean Conference, in support of Sustainable Development Goal 14, which focuses on the conservation and sustainable use of marine resources.⁴⁸⁸⁵ Key topics included ocean protection, financial investments in building a strong maritime economy and support for scientific research to enhance policy-making capacity. This action aligns with KM-GBF Goals B and D by advancing marine management and promoting long-term sustainable development.

On 10 June 2025, the Interministerial Delegation for Mediterranean coordinated the Mediterranean Day at the Centre universitaire méditerranéen, along with high-level private and public stakeholders.⁴⁸⁸⁶ The event aimed to foster discussion on marine conservation and to promote practical, concrete solutions for building a sustainable, inclusive blue economy in the Mediterranean region. This action is in line with KM-GBF Goals B and D through developing sustainable strategies focusing on biodiversity protection and pollution reduction through international collaboration.

On 19 June 2025, various ministries announced eleven new winners of the call for projects "Support for the development of an innovative, circular, and lower environmental impact digital economy (ECONUM)," alongside the launch of a research program on sustainable digital technologies.⁴⁸⁸⁷ These initiatives promote sustainable digital technologies to address challenges beyond the technical and material dimensions. They align with KM-GBF 2050 vision of biodiversity by fostering scientific collaboration on sustainable development and supporting innovative projects.

On 24 June 2025, various ministries launched the second Green Engineering Roadmap 2030.⁴⁸⁸⁸ This initiative aims for laying a foundation for a forthcoming public policy that promotes biodiversity in mainland France and overseas territories. It outlines concrete measures to encourage investment, foster innovation and to integrate ecological engineering into territorial planning and public procurement. It meets KM-GBF Goal B by implementing policies focused on sustainable biodiversity conservation.

On 1 July 2025, Minister of Transport Philippe Tabarot and Minister of Labour and Employment Astrid Panosyan-Bouvet presented a national report focused on fighting social dumping in the maritime sector.⁴⁸⁸⁹ This initiative contributes to KM-GBF Goals A and D by reinforcing regulatory tools to reduce environmentally harmful activities, while enhancing institutional cooperation.

On 11 July 2025, Minister Delegate for Francophonie and International Partnerships Thani Mohamed-Soilihi, Ambassador for the Environment Barbara Pompili and Deputy CEO of the French Development Agency Bertrand Walckenaer met with Director General of the International Union for the Conservation of Nature (IUCN) Grethel Aguilar to solidify a new partnership between France and the IUCN for the 2026-2029 period.⁴⁸⁹⁰ The agreement facilitates French contributions to various international conservation regimes and institutions, in line with KM-GBF Goal D.

On 11 July 2025, the Ministry of Environment and the French Treasury pledged EUR580,000 to the International Advisory Panel on Biodiversity Credits, which aims to mobilise global climate financing.⁴⁸⁹¹ The commitment contributes to KM-GBF Goal D.

On 17 July 2025, Minister of Agriculture and Food Sovereignty Annie Genevard met with stakeholders in the Provence-Alpes-Côte d'Azur region to promote measures in favour of food sovereignty and climate action in the agricultural sector.⁴⁸⁹² This action contributes to KM-GBF Goals A, C and D by promoting climate-resilient practices, supporting agricultural systems integral to local ecosystems and closely cooperating with local stakeholders.

On 23 July 2025, the Ministry of Agriculture and Food Sovereignty raised awareness on the presence of the Japanese beetle, while emphasizing its threat to plants and potential economic impacts.⁴⁸⁹³ Key measures include establishing a quarantine zone, using traps to detect the beetle's presence and demarcating the infested area with increased surveillance. This action aligns with KM-GBF Goals A and D by taking pest-control measures and collaborating with authorities in deploying alert systems that reflect governance over biodiversity-harmful factors.

On 24 July 2025, the Ministry of Regional Planning and Decentralization released an action plan aimed at preserving forest soils.⁴⁸⁹⁴ The plan seeks to maintain the chemical fertility and the integrity of forest soils, restore the carbon sink and preserve the biodiversity and its role in the water cycle, as a response to climate change and current challenges to biodiversity and forest ecosystems. This action aligns with KM-GBF Goals A and D by establishing actionable plans for ecosystem restoration, which involve the participation of multiple stakeholders.

On 29 July 2025, Minister Pannier-Runacher visited the Beauval Nature Care Centre to discuss strategies for raising public awareness of species and ecosystem conservation.⁴⁸⁹⁵ This action aligns with KM-GBF biodiversity Goal B by fostering public engagement and promoting an understanding of biodiversity issues through the development of plans with local educational institutions.

On 30 July 2025, the Ministry of Ecology, in collaboration with the Ministry of Health, launched an action plan on PFAS (per-and polyfluoroalkyl substances), allowing public access to information regarding the impacts of these chemicals on ecosystems and human health.⁴⁸⁹⁶ This action contributes to KM-GBF Goal B by raising awareness and promoting the public's understanding of issues related to biodiversity.

On 25 August 2025, the French Office of Biodiversity released ten captive-bred European minks into the wild as part of the National Action Plan for endangered mink population in France.⁴⁸⁹⁷ This action contributes to the conservation of endangered species by establishing a scientific program for European mink breeding, aligning with KM-GBF goal B.

On 3 September 2025, various ministries announced forty new winners for France 2030, with a total state funding of EUR120 million allocated to selected training programs.⁴⁸⁹⁸ This initiative aims at upskilling individuals who seek trainings in ecological and digital sector, as well as strengthening the adaptability of the training programs for future career needs, aligning with KM-GBF Goal D by financially supporting the development of ecological training programs.

On 5 September 2025, Minister Pannier-Runacher launched a project dedicated to establishing a dolphin shelter and protection centre in response to the closure of Marineland dolphinariums and other similar establishments across Europe.⁴⁸⁹⁹ This initiative contributes to KM-GBF goals C and D by accommodating nearly 65 dolphins through funding allocation and strengthening international cooperation on this matter.

⁴⁸⁹⁹ Agnès PANNIER-RUNACHER annonce une avancée majeure pour la protection des dauphins en captivité : vers la création d'un centre d'accueil France, Gouvernement Français (Paris) 5 September 2025. Translation provided by Google Translate. Access Date: 10 October 2025. <https://www.ecologie.gouv.fr/presse/agnes-pannier-runacher-annonce-avancee-majeure-protection-dauphins-captivite-creation-dun>

On 7 September 2025, Minister Pennier-Runacher allocated EUR500,000 for forest fire protection following the Ribaute fire incident that happened in Corbières.⁴⁹⁰⁰ This action contributes to KM-GBF Goals A and D by implementing special measures in response to natural disasters and financially supporting local stakeholders.

On 23 September 2025, President Macron signed an agreement on the Conservation and Sustainable Use of Marine Biological Diversity of Areas Beyond National Jurisdiction.⁴⁹⁰¹ This action aligns with GM-GBF Goal C by facilitating the ecological transition and the protection of marine biodiversity through international cooperation, while enhancing the accountability of these actions through transnational regulations.

On 25 September 2025, various ministries launched the DOM Water Plan, aiming at improving the quality of drinking water and sanitation services of French overseas communities.⁴⁹⁰² This initiative aligns with KM-GBF Goal A through integrating water and sanitation related policies into regional planning and development strategies.

On 7 October 2025, the first edition of Climate Mariannes initiative announced fifteen winners who committed to an equitable and sustainable ecological transition in all French territories.⁴⁹⁰³ This action contributes to KM-GBF Goal A through promoting sustainable use of natural resources and effective waste management practices.

On 31 October 2025, G7 members under Canada's 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁴⁹⁰⁴ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best practice principles and barriers to biodiversity conservation including "conserving, protecting, restoring, and building resilience" for ecosystems. This initiative aligns with Goal A and D.

France has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. France has mobilised financing to support strong action in the domain of water preservation and action in biodiversity preservation, aligning with Goal A, Goal B and Goal D of the KM-GBF 2050 vision of biodiversity.

Thus, France receives a score of +1.

Germany: +1

Germany has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 20 November 2024, the Federal Environment Ministry and the Federal Foreign Office announced a contribution of EUR60 million to the Adaptation Fund, which helps at-risk nations to develop resilient infrastructure and strategies to combat climate change.⁴⁹⁰⁵ The approach aims to combine climate resilience with ecosystem-focused initiatives to prioritize the protection of local biodiversity in the affected nations. This initiative aligns with Goal D – Invest and Collaborate.

On 21 November 2024, Federal Environment Minister Steffi Lemke participated in the Nature Day at the UN climate conference in Baku, where she discussed the importance of intertwining climate change and nature conservation goals into a coherent agenda.⁴⁹⁰⁶ Minister Lemke stressed that biodiversity remains an essential first step to pursuing climate adaptation.

On 25 November 2024, the Federal Agency for Nature Conservation, along with the Secretariat of the Ramsar Convention and the European Coordinator of the Scientific and Technical Review Panel, hosted a workshop on National Wetland Inventories.⁴⁹⁰⁷ The participants discussed strategies for developing wetland inventories and the utility of remote sensing methods to facilitate the mapping and management of these resources. The workshop illustrated the importance of wetland inventories as essential sites of biodiversity and their applications for furthering environmental commitments such as the KM-GBF.

On 28 November 2024, the European Commission adopted increased regulations to protect marine habitats in the Baltic Sea, after joint efforts from the Federal Environment Agency, the Federal Ministry of Agriculture and Germany's joint efforts with other nations in the Baltic region.⁴⁹⁰⁸ Minister Lemke noted that these regulations, which include the prohibition of trawl fishing in protected areas, would contribute to the preservation of biodiversity and the conservation of endangered habitats and species.

On 29 November 2024, the Federal Agency for Nature Conservation, in collaboration with the United Nations Educational, Scientific and Cultural Organization, concluded an expert meeting discussing the importance of the World Heritage Convention in upholding the KM-GBF.⁴⁹⁰⁹ The participants outlined 19 priority actions for the conservation of biodiversity, including the recommendation that States Parties should integrate the World Heritage Convention into their National Biodiversity Strategies and Action Plans, in order to ensure access to biodiversity funding for World Heritage Sites.

⁴⁹⁰⁹ Experts offer guidance on using the World Heritage Convention in support of the Kunming-Montreal Global Biodiversity Framework, UNESCO World Heritage Convention (Vilm) 24 February 2025. Access Date: 9 May 2025. <https://whc.unesco.org/en/news/2748>

On 2 December 2024, the International Climate Initiative announced the successful establishment of spirulina farms in Indonesia through their Seagrass Ecosystem Service Project.⁴⁹¹⁰ The International Climate Initiative was conceived by the Federal Government to support biodiversity projects in developing nations.⁴⁹¹¹ Their work in Indonesia promotes the conservation of seagrass meadows, which act as valuable marine habitats and houses endangered species such as the dugong. This initiative aligns with Goal A – Protect and Restore.

On 4 December 2024, the Federal Cabinet enacted the National Circular Economy Strategy, with the goal of reducing the extraction of raw materials and shifting Germany's consumption to recyclable products.⁴⁹¹² This plan aims to reduce environmental degradation by working towards a more sustainable form of resource management. This initiative aligns with Goal B – Prosper with Nature.

On 12 December 2024, Parliamentary State Secretary Bettina Hoffmann, on behalf of the Federal Ministry for the Environment, gave a subsidy check of EUR1.5 million towards sustainable climate protection efforts at the Bad Sulza park in Thuringia.⁴⁹¹³ This initiative aims to increase biodiversity by promoting tree and soil health, which increases water retention to combat floods and contributes to the long-term preservation of a diverse ecosystem in the area.

On 18 December 2024, the Federal Cabinet adopted the National Strategy on Biological Diversity 2030, which details 21 fields of action and 64 specific goals relating to environmental conservation.⁴⁹¹⁴ In light of increased environmental challenges caused by global warming and pollution, Minister Lemke stressed the urgent need to protect natural resources and endangered species through ecosystem restoration. The National Biodiversity Strategy 2030 is Germany's key instrument for implementing the KM-GBF on the national level and contributes to all four goals.

On 16 January 2025, the Federal Ministry announced its donation of EUR5 million to an initiative aiming to combat environmental crime, as pioneered by INTERPOL and the World Wildlife Fund.⁴⁹¹⁵ This three-year project targets offences such as illegal mining and wildlife crime, which lead to biodiversity loss and the destruction of natural resources. This initiative aligns with Goal D – Invest and Collaborate.

On 18 January 2025, Germany hosted the 17th Berlin Agriculture Ministers' Conference with ministers from 62 nations to discuss their goals for creating a sustainable bioeconomy, particularly in African nations and Small

Island Developing States.⁴⁹¹⁶ The move aligns with the KM-GBF through using alternative water resources, the reversal of land degradation and the regeneration of ecosystems.

On 23 January 2025, Parliamentary State Secretary Jan-Niclas Gesenhues presented a EUR1 million scheme to support revitalization projects in the Lobach and Eschbach valleys, as part of the Federal Environment Ministry's Federal Action Plan on Nature-based Solutions for Climate and Biodiversity (ANK) program.⁴⁹¹⁷ This initiative intends to promote biodiversity and climate resilience by eliminating non-native plant species, creating new habitats and implementing flood-prevention initiatives.

On 24 January 2025, Minister Lemke presented EUR26 million in funding from the Federal Ministry for the Environment, which will go towards eight projects in Germany's coastal states, falling under the ANK program.⁴⁹¹⁸ These projects aim to restore algae forests, seagrass meadows and other marine ecosystems found in the North and Baltic Seas, thus contributing to the goals of climate protection, habitat restoration and biodiversity.

On 12 February 2025, the Federal Cabinet adopted a General Administrative Regulation on the Protection of Species, which aims to apply uniform nationwide regulations for protecting wild bird species.⁴⁹¹⁹ Given the risks that electric railway lines pose to birds' well-being, this regulation intends to align the goals of railway modernization and animal conservation so that both objectives are made more efficient.

On 27 February 2025, Germany participated in the continuation of the World Conservation Conference (CBD COP 16) in Rome, which succeeded in implementing monitoring mechanisms to facilitate the measurement of biodiversity strategies.⁴⁹²⁰

On 28 February 2025, Germany's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁹²¹ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 5 March 2025, the Federal Ministry for the Environment announced the expansion of its Natural Climate Protection in Municipalities program, in which municipalities may receive subsidies for the implementation and

development of green areas in cities, which can represent up to 90 per cent of financing costs.⁴⁹²² The program now includes funding for desalination measures to restore and preserve natural soils, which works towards increased water retention and biodiversity in cities.

On 18 March 2025, the Federal Ministry for the Environment and the Federal Agency for Nature Conservation announced a EUR10 million funding scheme for a biodiversity project on the East Pomeranian coast, which falls under the wider ANK program.⁴⁹²³ Minister Lemke stated that the project would allow for human activities and natural ecosystems to coexist, as it includes measures to conserve ray populations, restore vital coastal habitats and render the area less vulnerable to extreme climate events.

On 19 March 2025, the Federal Agency for Nature Conservation announced the selection of 25 students from different nationalities to participate in a course about international nature conservation and environmental protection, which took place on Vilm Island.⁴⁹²⁴ This initiative aims to promote education and capacity-building that contributes to international biodiversity.

On 21 March 2025, the Federal Ministry of Food and Agriculture published its National Strategy on Genetic Resources for Food, Agriculture, Forestry and Fisheries, which details measures to ensure the sustainable management of agricultural resources that aligns with sustainable development.⁴⁹²⁵ In particular, the strategy aims to comply with the KM-GBF through the preservation of genetic resources in the environment, the funding of research and conservation initiatives, as well as increased regional and international cooperation in matters relating to biodiversity.

On 1 April 2025, Minister Lemke and Minister Özdemir approved the launch of the “toMOORow” initiative in the Brandenburg-Sernitz Moor, with the aim of re-wetting bogs to allow for more sustainable agriculture practices, the reduction of greenhouse gas emissions and the re-establishment of native flora and fauna in the ecosystem.⁴⁹²⁶ The Federal Ministry of Food and Agriculture provided EUR2 million in funding for this initiative, as it recognizes the role of environmental conservation in ensuring equitable long-term access to genetic resources for rural populations.

On 7 April 2025, Minister Lemke visited a wildcat conservation project in Saxony-Anhalt called “Wildcat Forests of Tomorrow,” in which he announced a EUR6.9 million funding scheme from the Federal Agency for Nature Conservation and the Federal Ministry for the Environment until 2028.⁴⁹²⁷ This project seeks to protect endangered European wildcat populations in Germany and illustrates the intertwined nature of forest revitalization and species protection to pursue biodiversity goals.

On 8 April 2025, the Federal Ministry for the Environment announced the launch of regional offices for their ANK program in 13 of Germany's federal states, as a way to facilitate the implementation of climate protection projects across the country.⁴⁹²⁸ These regional offices allow for a more efficient management of the Ministry's various biodiversity initiatives and allows regional actors to better identify local environmental challenges in collaboration with federal institutions.

On 1 May 2025, Germany enacted new regulations for the disposal of compost under the pre-existing Biowaste Ordinance, specifying that organic waste cannot contain more than 0.5 per cent plastic.⁴⁹²⁹ By limiting the amount of microplastics that seep into the environment, this legislation effectively prevents the degradation of soil and water, thus working towards the preservation of biodiversity.

On 5 May 2025, Germany and the International Trade Centre (ITC) funded the ABS Workshop in Abidjan focussed on the improvement of the global conservation and sustainable use of coffee genetic resources by implementing the global strategy for their conservation and access.⁴⁹³⁰ The workshop focussed on enabling conditions for the effective exchange of genetic material for research and breeding and the sharing of benefits from its utilization, through strengthening the policy framework and building equal partnerships with stakeholders.

On 6 May 2025, Minister Lemke took part in the first National Ocean Conference in Berlin, to discuss marine protection initiatives with high-profile regional and international actors.⁴⁹³¹ This conference, which was organized by the Federal Ministry for the Environment, featured presentations of various initiatives in the North and Baltic Seas relating to marine pollution and munition recovery. The participants, including Minister Lemke and UN Special Envoy for the Ocean Peter Thomson, emphasized Germany's crucial role in preserving aquatic biodiversity through marine conservation projects.

On 10 May 2025, the Federal Agency for Nature Conservation, along with the Bavarian Nature Conservation Association, the Bavarian State Office for the Environment and the Federation of German Avifaunists, held an Alpine Bird Symposium, which gathered around 90 participants in Berchtesgaden.⁴⁹³² The event served to launch the new bird monitoring system established by these institutions, which aims to collect data to better protect the various bird species that exist in the Bavarian Alps. This initiative aligns with Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 12 May 2025, the Federal Agency for Nature Conservation organized a conference in Hamburg, which was attended by around 100 marine experts, to discuss the importance of the Baltic and North Seas in natural climate protection measures.⁴⁹³³ The conference specifically focused on establishing methods to measure the

carbon storing capacities of marine ecosystems, which will be further investigated by over 20 ANK-funded projects in Germany's coastal regions. This action falls under Goal D – Invest and Collaborate.

On 16 May 2025, the Federal Agency for Nature Conservation and the Federal Environmental Foundation organized a Youth Biodiversity Congress with funding from the Federal Ministry for the Environment, which gathered 100 youth aged 16 to 27 to discuss issues of marine conservation.⁴⁹³⁴ This initiative aimed to involve youth in creating solutions to biodiversity loss, and featured presentations of 11 conservation projects created by the participants. This initiative falls under Goal D – Invest and Collaborate.

On 19 May 2025, the Federal Agency for Nature Conservation began *NaturschutzDigital*, a three-day conference with the goal of preventing violations of nature conservation rules during leisure and tourism activities.⁴⁹³⁵ The conference aims to make the rules of conduct for protected areas more widely accessible, gathering around 60 professionals at the state and local level to discuss the digitization of nature conservation information. This conference focuses on Goal A – Protect and Restore.

On 27 May 2025, the Federal Agency for Nature Conservation began a long-term research project on the German Green Belt and its relevance in preserving ecosystems and biodiversity.⁴⁹³⁶ This research, funded by the Federal Ministry for the Environment, intends to facilitate conservation initiatives through its particular focus on flying insect species such as wild bees. This initiative aligns with Goal D – Invest and Collaborate.

From 9 to 13 June 2025, Federal Environment Minister Carsten Schneider took part in the UN Ocean Conference in Nice, which gathered over 40 heads of state to discuss international issues in marine conservation.⁴⁹³⁷ At this summit, the German delegation emphasised progress to reduce marine plastic waste, further pushing for the establishment of marine protected areas and advocating for a precautionary break in deep-sea mining.⁴⁹³⁸ Germany's participation in this event corresponds with Goal A – Protect and Restore.

On 10 June 2025, Minister Schneider signed an intergovernmental agreement with French Minister for Ecological Change Agnès Pannier-Runacher at the UN Ocean Conference.⁴⁹³⁹ This agreement was dedicated to marine protection, as both governments reaffirmed their commitment to reduce plastic waste, recover old ammunition and pursue marine research initiatives. Both countries also agreed that a precautionary break in deep sea mining was necessary and ultimately remained committed to the international goal of protecting at least 30 per cent of sea area by 2030. This agreement fulfills the requirements of Goal A – Protect and Restore.

On 16 June 2025, the Federal Ministry for the Environment announced that it would be launching a collaborative research initiative on soil biodiversity.⁴⁹⁴⁰ This project is funded by the ANK program and seeks to overcome the lack of knowledge related to biological soil condition, which will allow government agencies to effectively combat soil pollution and biodiversity loss. As such, this project aligns with Goal D – Invest and Collaborate.

On 2 July 2025, Minister Schneider visited various environmental conservation projects in the state of Mecklenburg-Vorpommern, including various bog restoration sites as well as the UNESCO Biosphere Reserve Südost-Rügen.⁴⁹⁴¹ Minister Schneider specifically noted the importance of bog re-wetting initiatives under the ANK program, both as a source of natural climate protection to combat droughts and as a crucial habitat for various wildlife species. This action aligns with Goal A – Protect and Restore.

On 2 July 2025, State Secretary Jochen Flasbarth travelled to Brasília to meet with the presidency of the World Climate Conference (2030) to be held in Brazil this year.⁴⁹⁴² In addition to reiterating Germany's support for the conference, Minister Flasbarth took the opportunity to strengthen bilateral collaboration in conserving Brazil's unique forest ecosystems and habitats. As such, this action falls under Goal D – Invest and Collaborate.

On 4 July 2025, the Thuringian Nature Conservation Foundation and the Waterways and Shipping Administration launched the "Blue Ribbon meets Green Belt" project with the help of EUR2.7 million in funding from the Federal Ministry for the Environment.⁴⁹⁴³ This project aims to renaturalize the floodplains around the Werra River, resulting in enhanced flood protection and the revitalization of key habitats for rare plant and animal species. This initiative aligns with Goal A – Protect and Restore.

On 20 July 2025, the Federal Agency for Nature Conservation wrapped up a two-week biodiversity monitoring excursion in the German North Sea, which led a group of scientists to take soil samples and take recordings of relevant species.⁴⁹⁴⁴ These findings are crucial for monitoring the success of nature conservation measures and assessing the current state of marine habitat biodiversity. This initiative aims to fulfill Goal D – Invest and Collaborate.

On 21 July 2025, Minister Schneider launched a new forest restoration and bog rewetting project to provide additional water storage and drought prevention in both rural and urban environments.⁴⁹⁴⁵ Minister Schneider also allocated increased funding for conservation and climate protection initiatives, including an additional

EUR205 million for the “Natural Climate Protection in Municipalities” project, and a EUR10 million yearly increase in funding for the “Climate-Adapter Forest Management” initiative. This action falls under both Goal D – Invest and Collaborate and Goal A – Protect and Restore.

On 22 July 2025, Germany participated in the High-level Political Forum (HLPF) at the United Nations in New York, delivering a presentation evaluating current progress towards the 2030 Agenda for Sustainable Development.⁴⁹⁴⁶ Germany also hosted a side event titled “Unlocking the Power of the Ocean: Turning the Tide,” in which researchers, activists, and government officials gathered to discuss methods to improve the protection of the world’s ocean ecosystems. Therefore, this action falls under Goal D – Invest and Collaborate.

On 22 July 2025, Parliamentary State Secretary Rita Schwarzelühr-Sutter signed the Women Ocean Guardians Voluntary Commitment at the United Nations HLPF on Sustainable Development in New York.⁴⁹⁴⁷ This commitment aims to enhance women’s participation in marine conservation projects and research, thereby increasing inclusivity and amplifying female voices in the sector. Thus, this action aligns with Goal A – Protect and Restore.

On 23 July 2025, Minister Schneider visited Romania and Moldova to meet with local political representatives and strengthen pre-existing partnerships towards environmental protection.⁴⁹⁴⁸ As part of this trip, Minister Schneider visited forest conservation projects in the Carpathians to gain a better understanding of how conservation laws can help restore vital forest ecosystems. This visit falls under Goal D – Invest and Collaborate.

On 30 July 2025, the Federal Cabinet adopted the draft of the 2026 budget, which includes significant financial contributions to environmental conservation and climate protection projects.⁴⁹⁴⁹ Notably, the budget allots around EUR2.85 billion to the Federal Ministry for the Environment in the coming year. It provides EUR500 million for nature-based climate protection through the newly created Climate and Transformation Fund (KTF). Thus, this funding aligns with Goal D – Invest and Collaborate.

On 31 July 2025, the Federal Ministry for the Environment as well as the Federal Agency for Nature Conservation concluded their participation in the 15th meeting of the Conference of the Contracting Parties of the Ramsar Convention on Wetlands in Victoria Falls, Zimbabwe.⁴⁹⁵⁰ During this conference, participants succeeded in establishing a plan for the sustainable use and restoration of wetlands by 2034, as well as awarding cities that remain dedicated to the preservation of urban wetlands. This action helps to fulfil Goal A – Protect and Restore.

On 4 August 2025, the Federal Agency for Nature Conservation helped organize a four-day seminar on “Putting Nature on a Path to Recovery – Innovations in Ecosystem Restoration.”⁴⁹⁵¹ This meeting brought guests from 16 countries to discuss the role of environmental conservation to promote sustainable development and is part of a wider seminar series seeking to promote international cooperation and exchange around the topic of biodiversity. This action aligns with Goal D – Invest and Collaborate.

On 1 September 2025, the Federal Ministry for the Environment and the Federal Agency for Nature Conservation established an online platform for citizens, organizations and other stakeholders to participate in the development of Germany’s National Recovery Plan.⁴⁹⁵² This plan must comply with the EU Nature Restoration Regulation, and should include measures to preserve biodiversity in forests, wetlands, soils and a variety of other natural ecosystems. This measure complies with Goal D – Invest and Collaborate.

On 1 September 2025, the Federal Agency for Nature Conservation gathered 31 students from German universities to participate in an Interdisciplinary Science Conference on Biodiversity Research.⁴⁹⁵³ The participants took part in a variety of discussions surrounding conservation initiatives around the world, particularly through the framework of the Convention on Biological Diversity. This event complies with Goal D – Invest and Collaborate.

On 3 September 2025, the Federal Cabinet drafted an amendment to the Federal Nature Conservation Act, which seeks to prohibit the extraction of oil and natural gas within the protected areas of Germany’s exclusive economic zone in the North and Baltic Seas.⁴⁹⁵⁴ This draft law intends to reduce human activity in vital marine ecosystems, in hopes of improving marine conservation and protecting endangered aquatic species. As such, this aligns with Goal B – Prosper with Nature.

On 5 September 2025, Minister Schneider allocated EUR2.5 million towards forest management projects in the city of Cologne, which will be spread out over the next ten years.⁴⁹⁵⁵ These projects aim to pursue reforestation to restore biodiversity, preserve groundwater sources and create a healthy urban climate. Thus, this initiative falls under Goal A – Protect and Restore.

On 8 September 2025, the Federal Ministry for the Environment and the Federal Agency for Nature Conservation held an online event to discuss the application of the EU Nature Restoration Regulation, specifically in relation to marine environments.⁴⁹⁵⁶ The event, attended by over 190 stakeholders, produced valuable inputs for the development of Germany’s National Recovery Plan and illustrated the need for

collaboration to overcome competing interests in the aquatic sector. This action thus aligns with Goal D – Invest and Collaborate.

On 25 September 2025, the Federal Agency for Nature Conservation organized a panel discussion at the Berlin Zoo, gathering approximately 100 participants from scientific and political fields to discuss the importance of environmental education for the public.⁴⁹⁵⁷ The guests agreed that zoos and botanical gardens can raise awareness about biodiversity topics within society, thus helping to counteract environmental degradation and climate change. Thus, this initiative falls under Goal D – Invest and Collaborate.

On 29 September 2025, Minister Schneider presented his proposal for the second implementation phase of the ANK program, with an emphasis on restoring soils, forests and bogs.⁴⁹⁵⁸ Among other measures, this initiative seeks to improve natural water storage in these areas, to preserve habitats and increase carbon dioxide absorption. This aligns with Goal A – Protect and Restore.

On 11 October 2025, the KfW Development Bank and the International Union for Conservation of Nature signed a cooperation agreement for the next four years.⁴⁹⁵⁹ The agreement continues the bodies' collaboration to halt global biodiversity loss.

On 31 October 2025, G7 members under Canada's 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁴⁹⁶⁰ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best practice principles and barriers to biodiversity conservation including "conserving, protecting, restoring, and building resilience" for ecosystems. This initiative aligns with Goal A and D.

Germany has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Germany has taken strong action in protecting and restoring ecosystems, through the ANK program, which has succeeded in restoring crucial habitats such as bogs and algae forests, as well as its efforts to preserve the European wild cat. Germany has also taken strong action in promoting peaceful co-existence between humans and wildlife, through policies targeting the protection of wild birds from railway electrification, as well as the implementation of sustainable agricultural practices in moorlands. Finally, Germany has taken strong action in its goal to invest and collaborate to achieve biodiversity goals, as shown by the robust funding opportunities offered by the Natural Climate Protection in Municipalities program, as well as its support for environmental projects in developing nations. Germany has taken strong action to advance Goal A, Goal B and Goal D of the KM-GBF 2050 vision for biodiversity.

Thus, Germany receives a score of +1.

India: +1

India has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 17 December 2024, the Ministry of Environment Forest and Climate Change and the Central Zoo Authority proposed a National Wildlife Health Policy.⁴⁹⁶¹ The policy supports KM-GBF's Goal A – Protect and Restore.

On 1 February 2025, India allocated INR27 billion to the fisheries sector in the Union Budget to promote sustainable marine fishing practices, including the harnessing of fish in the Exclusive Economic Zone (EEZ), enhancing financial inclusion and reducing customs duties to ease the financial burden on fishers.⁴⁹⁶²

On 2 February 2025, the Union Minister of State for External Affairs, Forest, Environment and Climate Change Shri Kirti Vardhan Singh held the Regional Workshop on Conservation and Wise Use of Wetlands in Ayodhya.⁴⁹⁶³ The event featured education related to 89 important wetland sites around the country, the announcement of various state-level programs related to wetland conservation and discussions around the sustainable use of wetland environments.

On 3 February 2025, the Ministry of External Affairs officially established the International Big Cat Alliance (ICBA), providing a regulatory standard for big cat conservation practices.⁴⁹⁶⁴ The IBCA aims to facilitate collaboration between stakeholders, international and national wildlife conservation organizations and 27 different countries for the purpose of conserving seven big cat species including tigers, lions, leopards, snow leopards, cheetahs, jaguars and pumas.

On 4 February 2025, the Ministry of Animal Husbandry, Dairying and Fisheries implemented the Pradhan Mantri Matsya Sampada Yojana (PMMSY), which will support the development of modern coastal fishing villages using an investment of INR200 billion for a five-year period.⁴⁹⁶⁵ The development of 100 coastal villages aims promote sustainable practices within the new fisheries, such as deploying artificial reefs to support conservation efforts, promoting green fuel, seaweed cultivation and marine ranching, which will allow for enhanced marine biodiversity.

On 28 February 2025, India's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁹⁶⁶ The strategy employs a range of instruments including public and private funding, multilateral development banks, and

⁴⁹⁶⁶ Press Release: Governments agree on the way forward to mobilise the resources needed to protect biodiversity for people and planet, Convention on Biological Diversity (Rome) 28 February 2025. Access Date: 3 September 2025. <https://www.cbd.int/doc/press/2025/pr-2025-02-27-cop16-en.pdf>

formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 28 February 2025, India finalized a multilateral initiative led by the BRICS countries to earmark USD200 billion in annual financing for nature protection.⁴⁹⁶⁷ The funding aims to preserve biodiversity and natural environments in light of climate change.

On 11 March 2025, Minister of State for Fisheries, Animal Husbandry and Dairying George Kurian approved proposals to support fisheries in reducing water and land use while enabling fish farmers to cultivate a more diverse range of species.⁴⁹⁶⁸ The initiative includes the establishment of 12,000 Recirculatory Aquaculture Systems at a cost of INR9 billion and 4,205 biofloc units at a cost of INR5.2 billion.

On 12 March 2025, the Ministry of Animal Husbandry, Dairying and Fisheries announced funding of INR2 billion towards the development of Climate Resilient Coastal Fishermen Villages within 100 currently existing coastal villages.⁴⁹⁶⁹ This will promote biodiversity and sustainability initiatives such as establishing biofloc ponds, open sea cage culture, artificial reefs, seaweed units, integrated aquaparks and fish landing centers.

On 25 March 2025, India established the National Surveillance Programme for Aquatic Animal Diseases framework to survey aquatic ecosystems around the country and identify risk factors for disease, thus improving disease management among aquatic animals.⁴⁹⁷⁰ This initiative, which also provides fish farmers direct access to experts through a mobile app, supports Goal B and Goal D under the KM-GBF 2050 framework.

On 1 April 2025, the Department of Fisheries announced several initiatives in the Bay of Bengal region to promote sustainable fishing practices.⁴⁹⁷¹ Initiatives include two-month fishing bans to allow the protection of breeding fish species, an increase in financial assistance to support traditional fishers during the fishing ban periods, prohibition of destructive fishing practices such as the use of artificial lights in EEZ, installation of sea turtle-detecting devices to protect species from capture and co-operative practices with other countries to protect and support shark populations through the National Plan of Action for Sharks.

On 29 April 2025, the government greenlit the National Biodiversity Authority's Biological Diversity Regulation 2025.⁴⁹⁷² The regulation outlines technical guidelines for the sharing of benefits from biological resources, consistent with KM-GBF Goal C.

On 16 May 2025, Minister of Environment, Forest and Climate Change Bhupender Yadav participated in the global dialogue "Sagarmatha Sambaad," to discuss key priority issues related to regional and global initiatives on climate change and conservation.⁴⁹⁷³ Minister Yadav met with the Minister for Forests and Environment of Nepal Ain Bahadur Shahi Thakuri to discuss progress on regional and bilateral environment initiatives and reiterated their commitment to further cooperation on climate action and environmental conservation. In

⁴⁹⁷³ Visit of Shri Bhupender Yadav, Union Minister of Environment, Forest & Climate Change, to Nepal (May 15-17, 2025), Government of India Press Information Bureau (New Delhi) 16 May 2025. Access Date: 1 July 2025. <https://www.pib.gov.in/PressReleaseDetail.aspx?PRID=2129186>

addition, Minister Yadav discussed opportunities to strengthen India and Nepal's cooperation on environmental cooperation.

On 22 May 2025, the Ministry of the Environment, Forest and Climate Change launched the "One Nation, One Mission: End Plastic Pollution" campaign.⁴⁹⁷⁴ The campaign, which marks World Environment Day, aims to promote Goal B - Prosper with Nature by increasing awareness about plastic use and pollution while also organizing clean up drives.

On 5 June 2025, the Ministry of Environment, Forest and Climate Change marked World Environment Day by calling for the reduction of plastic pollution as a strategy of biodiversity conservation.⁴⁹⁷⁵ The Ministry launched a series of initiatives, including the Government Initiatives on Ending Plastic Pollution publication, the Compendium on Eco alternatives to banned single use plastics, the National Plastic Waste Reporting Portal and the National Plastic Pollution Reduction Campaign. The event supported KM-GBF Goal A.

On 23 July 2025, the Department of Fisheries requested a review and amendment of the Marine Fisheries Regulation Act of all coastal states and Union Territories to integrate the marine turtle conservation program.⁴⁹⁷⁶ In addition to the use of Turtle Excluder Devices, coastal states and UTs were asked to designate turtle conservation zones and ensure the fishermen's compliance with conservation measures. This initiative meets Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

On 28 July 2025, Union Minister of State for Earth Sciences Jitendra Singh announced 14 new scientific initiatives, including reports on marine biodiversity and updated seabed charts.⁴⁹⁷⁷ These services, developed by the Ministry of Earth Sciences, will aim to increase citizen engagement and interest in climate and biodiversity-related topics. These services meet Goal D – Invest and Collaborate.

On 29 July 2025, the Union Minister of State for Environment, Forest and Climate Change Shri Bhupender Yadav announced several initiatives including an effort to plant 2,000 indigenous plant saplings in each of 58 tiger reservation sites to promote habitat restoration, eliminate single-use plastics in tiger reserves as part of the "Plastic-Free Tiger Reserves" campaign and establish three forest nurseries which will foster ecological resilience.⁴⁹⁷⁸ These initiatives satisfy Goal A – Protect and Restore and Goal B – Prosper with Nature.

On 31 July 2025, Union Minister Singh announced collaborative initiatives across ocean-related sectors, bringing together 25 central ministries and departments, coastal states and union territory partners to invest in and advance research on blue infrastructure and innovation projects. Such projects include income-supplementing seaweed cultivation, single-use plastic bans and eco-friendly infrastructure to protect coral reefs. This collaborative effort satisfies Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

⁴⁹⁷⁴ Ministry of Environment, Forest and Climate Change launches campaign to mark World Environment Day 2025 (WED 2025) celebrations, Government of India Press Information Bureau (New Delhi) 22 May 2025. Access Date: 29 May 2025.

⁴⁹⁷⁸ Union Minister Shri Bhupender Yadav presided over Global Tiger Day 2025 celebrations in New Delhi today, Press Information Bureau (Delhi) 29 July 2025. Access Date: 20 August 2025.

<https://www.pib.gov.in/PressReleasePage.aspx?PRID=2149581>

On 26 September 2025, Minister Yadav announced the addition of two new Ramsar conservation sites from Bihar and Udaipur Jheel.⁴⁹⁷⁹ This initiative protects the biodiversity of wetland ecosystems and works towards Goal A – Protect and Restore.

On 29 September 2025, the National Biodiversity Authority approved INR8,200,000 in funding for the Andhra Pradesh Biodiversity Board's Red Sanders conservation initiative.⁴⁹⁸⁰ With the involvement of local and indigenous communities, 100,000 of these threatened native trees are expected to be planted and conserved. This initiative works towards Goal A – Protect and Restore, Goal C – Share Benefits Fairly and Goal D – Invest and Collaborate.

On 9 October 2025, Union Minister of State Singh launched the National Red List Roadmap and Vision 2025-2030 at the IUCN World Conservation Congress 2025.⁴⁹⁸¹ This species assessment and conservation policy aligns with Goal A – Protect and Restore.

On 13 October 2025, Minister of External Affairs, Subrahmanyam Jaishankar and Canadian Minister of Foreign Affairs Anita Anand issued a joint statement outlining plans to improve bilateral cooperation.⁴⁹⁸² They pledged to, among other things, address biodiversity loss contributing to KM-GBF goal A and D.

India has fully complied with its commitment to the KM-GBF. India has taken strong action toward Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate through initiatives such as PMMSY, climate-resilient fishing villages and marine conservation programs. However, India has not demonstrated meaningful progress toward Goal C – Share Benefits Fairly, nor has it taken significant steps to protect inland ecosystems or support at-risk non-marine communities. The current scope of biodiversity efforts remains heavily concentrated in coastal and aquatic sectors, leaving a gap in ecosystem coverage and equitable benefit distribution.

Thus, India receives a score of +1.

Analyst: Khabish Kaur

Indonesia: +1

Indonesia has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 12 December 2024, the Ministry of Forestry partnered with the United States Agency for International Development to host the Orangutan Symposium.⁴⁹⁸³ The symposium convened various actors to build

strategies for the protection of orangutan in Indonesia and aligns with Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 30 December 2024, Minister of Forestry Raja Juli Antoni announced the designation of 20 million hectares of forest as sites of conversion to food and energy production.⁴⁹⁸⁴ This directly contradicts KM-GBF Goal A – Protect and Restore.

On 25 January 2025, President Prabowo Subianto instructed the initiation of a large-scale seawall project valued at USD13.3 million.⁴⁹⁸⁵ The initiative aims to preserve land in coastal areas facing flooding, abrasion and subsidence. It aligns with Goal A – Protect and Restore.

On 21 February 2025, the Ministry of Education launched the “Research Call for Wallacea 2025” to support biodiversity conservation and ecotourism in Wallacea.⁴⁹⁸⁶ Wallacea is a key site due to its endemic biodiversity. This funding scheme aims to increase Indonesia’s research capacity and bolster sustainable development initiatives. The initiative aligns with Goal D – Invest and Collaborate.

On 25 February 2025, the House of Representatives initiated revisions of the Forestry Law to emphasize Indigenous rights and integrated governance.⁴⁹⁸⁷ This revision aims to ensure Indigenous peoples’ rights, participation and traditional knowledge in biodiversity governance and promotes the integration of biodiversity into policies across sectors through inclusive and equitable governance systems.

On 28 February 2025, Indonesia’s delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁴⁹⁸⁸ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention’s financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 4 March 2025, the National Research and Innovative Agency collaborated with researchers at the University of British Columbia to conserve endangered species like seahorses.⁴⁹⁸⁹ This demonstrates a commitment to biodiversity protection and aligns with Goal D – Invest and Collaborate.

On 12 March 2025, President Prabowo instructed Minister of Agrarian Affairs and Spatial Planning of Indonesia, Agus Harimurti Yudhoyono, to form a waste management task force.⁴⁹⁹⁰ As part of its mandate, the

taskforce was charged with cleaning up wastes from the natural environment, contributing to the restoration of ecosystems. The initiative aligns with Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 19 April 2025, representatives of the Ministry of Environment and Forestry began the U.S. Department of State’s International Visitor Leadership Program (IVLP) on “Improving Forest Management.”⁴⁹⁹¹ The IVLP serves to facilitate collaborative forest management learning that bolsters biodiversity and wildlife protection, furthering KM-GBF Goal D.

On 5 May 2025, Indonesian forestry professionals, government officials and journalists participated in the U.S. Department of State’s International Visitor Leadership program.⁴⁹⁹² The program aims to promote sustainable forest governance and use within Indonesia. This demonstrates Indonesia’s commitment to supporting with Goal B – Prosper with Nature of the KM-GBF.

On 22 May 2025, Environment Minister Hanif Faisol Nurofiq announced the Indonesia Biodiversity Strategy and action plan to support biodiversity-related initiatives and regulations.⁴⁹⁹³ Minister Nurofiq underscored the importance of public and private sector, and central and regional government engagement with biodiversity policies and challenges. This demonstrates Indonesia’s commitment to meeting Goal A and D of the KM-GBF.

On 9 June 2025, the Ministry of Forestry gained official endorsement from the Global Environment Facility to proceed with its collaborative projects, “Excelling Protected Area Management Effectiveness for Biodiversity Conservation through Landscape-Based Approach” (ENABLE) and “Spatial-based Natural Forest Planning and Governance for Robust Ecosystems” (SPARE).⁴⁹⁹⁴ The projects seek to conserve critical landscapes to boost species protection and counter unsustainable land use practices in line with Goal A – Protect and Restore and Goal B – Prosper with Nature of the KM-GBF 2050 vision for biodiversity.

On 10 June 2025, the government formally terminated four mining permits in the Raja Ampat area following violations of environmental regulations and the geopark’s area status.⁴⁹⁹⁵ This action is deemed as a commitment to preserving Indonesia’s biodiversity whilst strengthening Raja Ampat’s position as a world centre for marine conservation. Hence, this action supports Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal C – Share Benefits Fairly of the KM-GBF 2050 vision for biodiversity.

On 15 June 2025, the Minister of Marine Affairs and Fisheries Sakti Wahyu Trenggono announced the launch of a new financial instrument called the Coral Reef Bond which aims at raising funds for marine conservation.⁴⁹⁹⁶ The funding targets three priority conservation areas: the National Conservation Area of Raja Ampat, the Regional Conservation Area of Raja Ampat and the Regional Conservation Area in the Alor Islands. This bond seeks to aid in generating USD 200 million annually to support the management and protection of marine conservation areas across Indonesia. This action supports Goal A – Protect and Restore and Goal D – Invest and Collaborate of the KM-GBF 2050 vision for biodiversity.

On 18 June 2025, Minister Antoni alongside British Ambassador to Indonesia Dominic Jermy visited the Central Aceh Regency to assess progress on the Peusangan Elephant Conservation Initiative (PECI).⁴⁹⁹⁷ PEGI seeks to protect the endangered Sumatran elephant (*Elephas maximus sumatranus*) across 20000 of habitat. This action supports Goal A – Protect and Restore of the KM-GBF 2050 vision for biodiversity.

On 18 June 2025, Minister Antoni visited the Central Aceh Regency to assess progress on the Peusangan Elephant Conservation Initiative.⁴⁹⁹⁸ This collaborative effort mobilises the Indonesian government, WWF-Indonesia, PT Tusam Hutani Lestari and local and international partners to protect the endangered Sumatran elephant. This action supports Goal A – Protect and Restore of the KM-GBF 2050 vision for biodiversity.

On 22 July 2025, Minister Antoni signed a MoU with non-profit organisation Muhammadiyah to bolster civil society partnerships in favour of the restoration and protection of forest resources.⁴⁹⁹⁹ The agreement aligns with Goal D – Invest and Collaborate.

On 30 July 2025, Deputy Minister of Forestry Sulaiman Umar Siddiq commemorated World Mangrove Day with Mangrofest 2025 in Alas Purwo National Park.⁵⁰⁰⁰ The event aimed to promote cross-sectoral collaboration in the protection of mangroves in line with Goal D – Invest and Collaborate.

On 10 September 2025, Minister Antoni announced the start of Mangroves for Coastal Resilience program in North Sumatra.⁵⁰⁰¹ Through this program, the Ministry aims to rehabilitate 15,387 hectares of mangroves in 2025. The restoration of mangrove ecosystems aligns with KM-GBF Goal A.

On 14 September 2025, the Ministry of Marine Affairs and Fisheries found 226 mining permits operating on 477 small islands, in violation of Indonesian law prohibiting mining activities on islands under 100 kilometres in size.⁵⁰⁰² The issuance of these mining permits opposes Goal A – Protect and Restore and Goal B – Prosper with Nature of the KM-GBF 2050 vision for biodiversity.

On 9 October 2025, Head of the Center for Socio-Economic Development of Forest Communities of the Ministry of Forestry Dodi Sumardi announced the Ministry's contribution to the establishment of the Giam Siak Kecil-Bukit Batu Biosphere Reserve Management Coordination and Communication Forum.⁵⁰⁰³ This forum will serve to protect the biosphere reserve which supports KM-GBF Goal A.

Indonesia fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. While the country has taken strong action through initiatives such as research and legal reforms, these developments have only been undertaken in Goal A – Protect and Restore, Goal B - Prosper with Nature and

Goal D - Invest and collaborate. However, Indonesia has not taken action to promote Goal C – Share Benefits Fairly.

Thus, Indonesia receives a score of +1.

Analyst: Shazia Aura Fatbraya

Italy: +1

Italy has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 25 November 2024, Italy formed the Italian Network for Ecological Restoration (INER/RIRE), connecting experts from academia, public institutions, businesses and NGOs to ensure the enforcement of the European Union's Nature Restoration Regulation.⁵⁰⁰⁴ This platform promotes the principles and standards of ecological restoration, aiming to facilitate long-term and sustained recovery of biodiversity and resilience. The initiative aligns with Goal D – Invest and Collaborate.

On 17 December 2024, the Ministry of Environment and Energy Security in collaboration with Federparchi-Europarc Italia held the General Assembly of Protected Areas to facilitate discussions between key stakeholders to protect and enhance protected areas national parks, marine protected areas, state nature reserves, regional parks, regional reserves and geomineral parks.⁵⁰⁰⁵ This initiative aligns with Goal B of the KM-GBF.

On 24 December 2024, the Ministry of Agriculture, Food Sovereignty and Forestry allocated approximately EUR290,000 for the implementation of the National Forest Sector Activity Plan.⁵⁰⁰⁶ This initiative improves the management of forests, addresses climate change, water scarcity and biodiversity loss in the Mediterranean region and promotes sustainable processes in Italy's wood industry. This decree furthers government commitment and financial capacity in achieving biodiversity conservation. The initiative aligns with Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 22 January 2025, Italy hosted XVIII Alpine Conference and began their two-year command of the Alpine Convention, promising to conserve the Alps through four pillars: biodiversity, climate change, Alpine population and culture and international cooperation.⁵⁰⁰⁷ Italian leadership committed to the development of an Action Plan for Alpine Biodiversity, careful territorial planning, involvement of local communities and relations with other mountain regions of the world to implement effective practices to protect the Alps.

On 24 January 2025, the Italian Agency for Cooperation and Development (AICS) contributed EUR3 million to the project, “Shar Dinaric,” to support sustainable development, protection and preservation of the natural and cultural heritage of the Dinaric Alps region located between North Macedonia and Kosovo.⁵⁰⁰⁸

On 29 January 2025, the Ministry of Environment and Energy Security extended the Implementation Agreement No. 56 of 21 December 2023 between DG-VA and Sogesid for the provision of “Technical-specialist service to support the General Directorate for Environmental Assessments.”⁵⁰⁰⁹ The continued collaboration between the government and Sogesid allows the government to access specialized technical support when approaching environmental strategy.

On 25 February 2025, representatives from the Ministry of the Environment and Energy Security, the Ministry for the Environment and the Protection of Land and Sea, the National Research Council and the Agency for Development Cooperation attended the second session of COP16.⁵⁰¹⁰ This active international participation demonstrates Italy’s commitment to ecological conservation efforts and effective sustainability policies.

On 28 February 2025, Italy along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵⁰¹¹ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention’s financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 13 March 2025, the Ministry of Environment and Energy Security launched the “RiforestAzione” project to enhance urban and suburban green spaces as a part of its National Recovery and Resilience Plan (PNRR).⁵⁰¹² As a part of the project, the Ministry invested EUR210 million to plant 4.5 million trees, aligning with the broader European Union Forest Strategy for 2030. The initiative also features educational campaigns, a digital information platform and a two-year observatory to monitor public perception of urban greenery.

On 21 March 2025, the General Directorate of Mountain Economy and Forests launched the National Network of Ancient Forests, which protects Italian forest heritage by identifying old growths, increasing research and regulations for identified forest and elevating public awareness.⁵⁰¹³ This program contributes to preservation of natural land and biodiversity.

On 28 March 2025, the Banca d’Italia and the Carabinieri Forestry, Environmental and Agrifood Command Unit began efforts to plant 2700 trees in the Bergamo and Mezzocammino areas.⁵⁰¹⁴ The action contributes to reforestation and urban biodiversity.

On 22 April 2025, the Ministry of Environment and Energy Security created the nation's 25th national park, identifying the perimeter, zoning and safeguard measures of the Matese National Park.⁵⁰¹⁵ This action contributes to the preservation of land and biodiversity as federally protected areas in the nation is expanded.

On 1 May 2025, the AIC committed EUR1,999,185 to project “CAMBIO!” which aims to mitigate the impacts of human activity on biodiversity in Mozambique.⁵⁰¹⁶

On 19 May 2025, the government funded the National Biodiversity Future Centre to host the National Biodiversity Forum in Milan, gathering researchers, businesses and representatives from across the EU to discuss and debate topics of biodiversity while presenting joint scientific publications, reports and Key Exploitable Results.⁵⁰¹⁷ By facilitating international discourse, Italy contributes to KM-GBF Goal C.

On 20 June 2025, the Ministry of Agriculture, Food Sovereignty and Forests presented a draft bill translated to “Rules for the protection of warm-blooded wildlife and hunting,” beginning the parliamentary journey for better protection of biodiversity and local species.⁵⁰¹⁸ This action affirms Goal B as the government works to implement rules against overexploitation of nature.

On 20 June 2025, President Sergio Mattarella co-chaired the Mattei Plan for Africa and Global Gateway: A common effort with the African Continent, committing to sustainable agriculture and development.⁵⁰¹⁹ This international effort contributes to Goal C and halting global biodiversity loss.

On 23 June 2025, Italy committed EUR6.5 million at the United Nations Ocean Conference to strengthen surveillance by the Coast Guard in marine protected areas, increasing efficiency of oil spill detection.⁵⁰²⁰ The involvement in the international convention demonstrates effort in Goal C while the specific financial commitment aligns with Goal D – Invest and Collaborate.

On 1 July 2025, the Ministry of the Environment and Energy Security commenced the National Program for General Mineral Exploration, relaunching Italy's mining sector and initiating extraction processes of natural resources in various areas across the country.⁵⁰²¹ This is a harmful practice to the environment, fragmenting or destroying natural habitats, creating pollution and endangering wildlife.⁵⁰²² Thus, this action undermines Goals A and B by increasing dangers to biodiversity.

On 17 July 2025, Minister of Environment and Energy Security Pichetto Fratin met with Deputy Prime Minister and Minister of the Environment of Slovakia Tomáš Taraba to finalise a Technical Memorandum of

Understanding on environmental cooperation and the restoration of polluted areas.⁵⁰²³ The collaboration supports Goal D.

On 31 July 2025, Undersecretary for the Environment and Energy Security Claudius Barbaro participated in a bilateral dialogue on environmental sustainability and biodiversity protection with the Japanese Vice Minister of Environment Kiyoshi Igarashi in a conference held at the Italian Pavilion.⁵⁰²⁴ This conference focused on the protection of terrestrial and marine biodiversity and the implementation of the KM-GBF, demonstrating Italy's active participation and efforts in complying with this framework and aligning with Goal C.

On 31 October 2025, G7 members under Canada's 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁵⁰²⁵ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best practice principles and barriers to biodiversity conservation including "conserving, protecting, restoring, and building resilience" for ecosystems. This initiative aligns with Goal A and D.

Italy has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Italy has taken strong action in aligning with Goal A, B and D of the KM-GBF 2050 vision of biodiversity by allocating fundings for related projects and continuing environmental assessment partnerships with experts. However, Italy's actions in the mining sector detract from KM-GBF biodiversity objectives and its overall progress is also mitigated by its few substantial actions under Goal B. Still, they have taken multiple substantial actions towards the promotion of biodiversity globally.

Thus, Italy receives a score of +1.

Facility Small Grants Program.⁵⁰²⁷ The CEPF serves to empower civil society organisations to better conserve global biodiversity hotspots.

On 13 January 2025, the Ministry of the Environment represented by State Minister of the Environment Kobayashi Fumiaki participated in the 2nd Philippines-Japan Environment Week and Environmental Policy Dialogue where the two ministries exchanged views and future cooperation on biodiversity cooperation.⁵⁰²⁸

On 19 February 2025, the Ministry of the Environment discussed peatland conservation as a key of interest for future projects during the 4th Meeting of Joint Crediting Mechanism Global Partnership.⁵⁰²⁹ The meeting included government representatives and organizations from 19 partner countries. This demonstrates Japan's commitment to advancing Goal A and D of the KM-GBF.

On 28 February 2025, Japan's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵⁰³⁰ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 25 March 2025, Minister of the Environment Asao Keiichiro held a meeting with the Minister of Environment and Climate Change of Brazil Marina Silva where they signed a Memorandum of Cooperation (MOC) to advance cooperation in key environmental areas.⁵⁰³¹ The ministers underscored the urgency of addressing biodiversity loss. Japan further committed to facilitating cooperation and information sharing on biodiversity-related challenges.

On 28 March 2025, the Japan International Cooperation Agency signed new loan agreements to provide JPY191.736 billion in Official Development Assistance to the government of India for environmentally sustainable initiatives.⁵⁰³² The loans will target forest management, aquaculture, biodiversity conservation and investment promotion in line with KM-GBF Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 13 May 2025, the Ministry of the Environment and the Environment Authority of the Sultanate of Oman signed a Memorandum of Cooperation (MoU) reaffirming the two governments' commitment to advancing environmental cooperation.⁵⁰³³ The MoU includes "biodiversity conservation as nature-based solutions",

“environmental monitoring” and “climate change mitigation and adaptation” as key areas of cooperation.⁵⁰³⁴ This initiative demonstrates Japan’s commitment to advancing Goal A and Goal D of the KM-GBF.

On 22 May 2025, the government co-organized an International Symposium on Urban Ecosystem Regeneration titled “Nature, Culture, and Community: Rethinking Urban Connections from Kanazawa,” in celebration of International Biodiversity Day.⁵⁰³⁵ The event aligns with KM-GBF Goal B – Prosper with Nature.

On 26 May 2025, Japan partook in the China-Japan Fishery Cooperation Dialogue in Shanghai, where the two countries shared achievements in promoting green aquaculture, reducing illegal fishing and conserving aquatic resources.⁵⁰³⁶ This international meeting aligns with KM-GBF Goal C.

On 6 June 2025, the Cabinet approved the 2025 Environment White Paper, Circular Economy White Paper and Biodiversity White Paper to document environmental trends and call for accelerated multidisciplinary solutions.⁵⁰³⁷ With biodiversity loss as a key focus, the action relates to KM-GBF Goal A.

On 27 June 2025, Vice-Minister for Global Environmental Affairs Matsuzawa Yutaka signed a Memorandum of Cooperation with State Secretary for the Ministry of Environment and Climate Change of Mongolia Urtnasan Tsetsegmaa regarding environmental initiatives.⁵⁰³⁸ The two parties addressed shared measures for biodiversity preservation, furthering KM-GBF Goal D.

On 31 July 2025, Japanese Vice Minister of Environment Kiyoshi Igarashi participated in a bilateral dialogue on environmental sustainability and biodiversity protection with Italian Undersecretary for the Environment and Energy Security Claudius Barbaro with the in a conference held at the Italian Pavilion.⁵⁰³⁹ This conference focused on the protection of terrestrial and marine biodiversity and the implementation of the KM-GBF, demonstrating Italy’s active participation and efforts in complying with this framework and aligning with Goal C.

On 1 August 2025, Japan launched the application process for the “Certificate of Support for Nature-Coexistence Sites.”⁵⁰⁴⁰ This certificate aims to encourage private-sector involvement in biodiversity conservation by formally recognizing companies and organizations that support certified conservation areas. Alongside this initiative, a support matching program was also introduced. This program connects certified Nature-Coexistence Sites in need of financial or technical assistance with companies or individuals willing to contribute, using the official 30by30 Alliance website as the coordination platform. This initiative strengthens Japan’s commitment to the 30by30 target, which aligns with the KM-GBF.

On 20 August 2025, Vice-Minister for Global Environmental Affairs Doi Kentaro signed a statement of intent aiming to deepen collaboration with the African Development Bank on environmental conservation.⁵⁰⁴¹ This partnership helps further KM-GBF Goal D.

On 16 September 2025, relevant ministries officially designated 201 sites as “Nature Symbiosis Sites” under the newly enacted Act on the Enhancement of Regional Biodiversity.⁵⁰⁴² This initiative supports Japan’s commitment to KM-GBF Goal A.

On 28 September 2025, Minister Keiichiro represented Japan at the 26th Tripartite Environment Ministers Meeting among Japan, Korea and China, during which the Tripartite Joint Action Plan on Environmental Cooperation (2026-2030) was adopted.⁵⁰⁴³ The cooperative agreement’s inclusion of biodiversity as a priority area furthers the KM-GBF objectives.

On 31 October 2025, G7 members under Canada’s 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁵⁰⁴⁴ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best practice principles and barriers to biodiversity conservation including “conserving, protecting, restoring, and building resilience” for ecosystems. This initiative aligns with Goal A and D.

Japan has partially complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Japan has taken strong action that aligns with Goal A and D of the KM-GBF 2050 vision of biodiversity. However, continued efforts are needed to strengthen biodiversity conservation policies and ensure their effective implementation and alignment with Goal B and C of the KM-GBF 2050 vision of biodiversity.

Thus, Japan receives a score of 0.

⁵⁰⁴⁵ Decisive fifth session of negotiations on a global plastic pollution treaty opens in Busan, UN Environment Programme (Busan) 25 November 2024. Access Date: 18 March 2025. <https://www.unep.org/news-and-stories/press-release/decisive-fifth-session-negotiations-global-plastic-pollution-treaty>

Monitor, Manage.”⁵⁰⁴⁶ This commemoration serves to acknowledge the importance of soil conservation, discuss measures for soil and groundwater investigation and design systems to promote the recycling of purified soil.

On 6 December 2024, Korea concluded its participation in Operation Thunder 2024, a global initiative coordinated by INTERPOL and the World Customs Organization that resulted in the seizure of nearly 20,000 live animals and the arrest of 365 suspects worldwide.⁵⁰⁴⁷ The government’s involvement shows its commitment to disrupting illegal wildlife trade networks.

On 10 December 2024, the Ministry of Oceans and Fisheries announced the expansion of the wetland protection zone in the Muan Tidal Flats in Jeollanam-do from 42 km to 113.34 km.⁵⁰⁴⁸ With this expansion, the habitats of endangered species, such as the Chinese Egret and Black-faced Spoonbill, will be preserved.

On 16 December 2024, the Ministry of Oceans and Fisheries, Jeollanam-do and Yeosu-si hosted the first Yeosu International Ocean Tourism Forum.⁵⁰⁴⁹ This forum focused on marine tourism, urban space and climate and explored ways to integrate marine ecology, healing, and recreation into the tourism sector.

On 18 December 2024, the Ministry of Oceans and Fisheries signed a memorandum of understanding (MoU) with GS Retail to promote Environmental, Social, and Governance initiatives in the marine environment sector.⁵⁰⁵⁰ Through this MoU, private and public sector efforts will jointly promote activities to protect marine protected species, including the research of indicator species of climate change in the waters and underwater cleanup operations to remove marine debris that poses a threat to endangered species such as sea turtles.

On 9 January 2025, the Ministry of Oceans and Fisheries presented the Development Plan for the Oyster Aquaculture Industry at the Cabinet Meeting on State Affairs and the Economic Ministers’ Meeting.⁵⁰⁵¹ This strategy will accelerate the installation of facilities to prevent the penetration of pollutants from land and sea, preserve clean oyster waters and produce safe oysters.

On 17 January 2025, the Ministry of Oceans and Fisheries and the Ministry of Environment announced that they would sign a memorandum of understanding for sustainable environmental conservation on land and sea.⁵⁰⁵² By signing this MOU, the two ministries plan to strengthen cooperation to respond effectively to the impact of the climate crisis on the marine and fisheries sectors, establishing measures to solve the marine waste problem and expanding marine waste recycling.

On 21 January 2025, Korea announced that it will reduce subsidies for biomass energy after domestic and international concerns about its link to deforestation.⁵⁰⁵³ Under this policy, subsidies for six existing state-owned plants co-firing coal and biomass will end this year, while the value of renewable energy certificates for three state-owned dedicated biomass plants will be phased down by 2027.

On 2 January 2025, the Ministry of Oceans and Fisheries announced the 2025 MOF Task Execution Plan, focusing on 16 tasks in five major fields.⁵⁰⁵⁴ The MOF Task Execution Plan will foster safe and clean ocean environments, designating two new large marine protected zones, and working alongside the Ministry of Environment to execute a pilot project for blocking the inflow of land-based waste into the sea and strengthening the management of discarded fishing gear.

On 31 January 2025, the National Institute of Biological Resources updated the National Species List of Korea.⁵⁰⁵⁵ This list, which now includes 61,230 species, aids in monitoring biodiversity and designing conservation strategies.

On 28 February 2025, Korea's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵⁰⁵⁶ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 13 March 2025, the National Assembly of Korea passed the "Agreement on the Conservation and Sustainable Use of Marine Biological Diversity of Areas Beyond National Jurisdiction" under the United Nations Convention on the Law of the Sea.⁵⁰⁵⁷ With this, Korea officially endorsed the ratification of the BBNJ Agreement, which addresses measures and mandates environmental impact assessments for activities on the high seas.

On 20 March 2025, the government ratified the Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas Beyond National Jurisdiction.⁵⁰⁵⁸ The agreement constitutes an international legal framework to ensure the conservation and sustainable use of marine biodiversity in the high seas and deep-sea areas.

On 4 April 2025, the National Park Service under the Ministry of Environment announced that it has selected 10 native tree species from national parks that are relatively effective at absorbing carbon dioxide.⁵⁰⁵⁹ These

⁵⁰⁵⁸ Republic of Korea Deposits Instrument of Ratification for BBNJ Agreement, Ministry of Foreign Affairs (Seoul) 20 March 2025. Access Date: 5 May 2025. https://www.mofa.go.kr/eng/brd/m_5676/view.do?seq=322766

⁵⁰⁵⁹ 10 Native Tree Species in National Parks with Excellent Carbon Absorption Revealed, Ministry of Environment (Sejong-si) 4 April 2025. Access Date: 4 May 2025. <http://eng.me.go.kr/eng/web/board/read.do?pagerOffset=0&maxPageItems=10&maxIndexPages=10&searchKey=titleOrContent&searchValue=biodiversity&menuId=461&orgCd=&boardId=1735580&boardMasterId=522&boardCategoryId=&decorator=>

findings encourage the planting of native tree species, promoting carbon neutrality and biodiversity conservation.

On 9 April 2025, the Ministry of Environment began a pilot operation of the Animal Road Accident Prevention System.⁵⁰⁶⁰ This system uses artificial intelligence-based CCTV and LiDAR sensors to detect the presence of animals and predict appearances through data collection. Beyond helping to prevent accidents, the system contributes to biodiversity conservation, aligning with Goal A of the KM-GBF.

On 11 April 2025, the Ministry of Oceans and Fisheries officially designated the waters surrounding Gwantaldo Island in Jeju as a Marine Ecosystem Protected Area and the waters near Sindo-ri as a Marine Species Protected Area.⁵⁰⁶¹ With this announcement, the total number of Marine Protected Areas (MPAs) designated by the Ministry increased to 57.

On 28 April 2025, the Ministry of Oceans and Fisheries hosted the two-day “Our Ocean Conference” in Busan.⁵⁰⁶² Korea committed to investing in marine biodiversity conservation, capacity-building efforts, integrated marine climate data, coastal restoration projects and supporting the aquaculture sector.

On 29 April 2025, the Ministry of Environment held the opening ceremony for the UNESCO Global Research and Training Centre for Internationally Designated Areas (GCIDA) in Jeju.⁵⁰⁶³ The Ministry committed to supporting GCIDA’s goal of becoming a global leader in sustainable conservation and development of internationally designated areas.

On 1 May 2025, the Ministry of Oceans and Fisheries created two new Marine Protected Areas (MPA) in Jeju.⁵⁰⁶⁴ This milestone involves the Gwantaldo Island, which represents the first MPA in Korea that is over 1000 square kilometers, and Sindo-ri. These actions have a major impact on biodiversity conservation as they these MPAs are habitats for marine protected species, including seaweed and corals.

On 1 May 2025, the government hosted the meeting of the Asia-Pacific Economic Cooperation Ministers responsible for Oceans and Fisheries in Busan.⁵⁰⁶⁵ During the meeting, ministers committed to strengthening cooperation, enhancing marine disaster data monitoring, improving waste management, restoring and conserving marine ecosystems biodiversity and protecting threatened marine species.

Access Date: 6 June 2025. <https://www.apec.org/meeting-papers/sectoral-ministerial-meetings/oceanrelated/chair-s-statement-on-the-2025-apec-oceans-related-ministerial-meeting>

On 5 May 2025, Minister of Environment Kim Wansup led a water industry cooperation delegation that visited Cambodia.⁵⁰⁶⁶ This bilateral meeting had the objective to strengthen water management cooperation with Cambodia through smart technologies, public and private sector partnerships and the signing of a Memorandum of Understanding (MoU) to develop climate resilience and conduct institutional improvements. These measures will in turn reduce pollution in water systems and protect marine ecosystems and habitats through greater monitoring of species and use of marine resources.

On 13 May 2025, Korea National Park Service Chairman Joo Dae-young announced the strengthening of visitor guidelines for Jirisan National Park.⁵⁰⁶⁷ This control measure will protect wildlife biodiversity by directly responding to the increase in volumes of tourism during mating season of the Asiatic black bear, which is a critically endangered species.

On 20 May 2025, National Institute of Biological Resources (NIBR) Director Yoo Ho announced school education programs in the Seoul metropolitan area with the theme of World Bee Day.⁵⁰⁶⁸ This education campaign, which is a part of the NIBR's project "Capacity Building Program for Biodiversity Field Workers", serves to spread awareness about the protection of wild bees, fosters the upskilling of instructors and expands the relevance of biodiversity conservation.

On 22 May 2025, the Ministry of Environment represented by Minister Kim Wansup held the "Harmony with Nature and Sustainable Development" event for the 2025 International Day for Biological Diversity individuals and organizations advancing "the conservation of biodiversity, wetlands, and migratory birds" were recognized for their efforts.⁵⁰⁶⁹ This demonstrates Korea's commitment to advancing Goal A and Goal D of the KM-GBF.

On 5 June 2025, the Republic of Korea hosted the World Environment Day 2025 from the United Nations Environment Programme in Jeju.⁵⁰⁷⁰ This international event focused on ending plastic pollution for the protection of water bodies and marine species and the restoration of ecosystems that have been impacted by the consequences of human activities and waste mismanagement.

On 17 June 2025, the Aquaculture Stewardship Council of the Netherlands signed a MoU with the National Institute of Fisheries Science of the Republic of South Korea.⁵⁰⁷¹ Under the agreement, they will collaborate to

⁵⁰⁷¹ ASC signs MoU with South Korea's National Institute of Fisheries Science to advance responsible seafood farming, Aquaculture Stewardship Council (Haenam) 17 June 2025. Access Date: 5 July 2025. <https://asc-aqua.org/news/asc-signs-mou-with-south-koreas-national-institute-of-fisheries-science-to-advance-responsible-seafood-farming/>

build technologies for ecosystem-based certification, enhance the farming conditions for seafood and boost knowledge-sharing between international stakeholders and scientists.

On 25 June 2025, NIBR Director Yoo shared with the public the 2024 implementation status of the fifth National Biodiversity Strategy (2024-2028).⁵⁰⁷² This is a cross-ministerial plan that showcases the collaboration between diverse areas of expertise in the sustainability and biodiversity field. Aligned with target 21 of KM-GBF regarding data accessibility, the act of providing information about biodiversity conservation efforts serves to increase public awareness, foster cooperation between ministers and revealed areas for improvement, including the lack of biodiversity-related funding for the implementation of projects in the long-term.

On 4 July 2025, Minister Kim provided equipment and personnel for the control of the *Plecia longiforceps* outbreak.⁵⁰⁷³ The deployment of many human resources and physical tools shows the commitment to tackle biodiversity problems through collaboration, rapidness and transparency.

On 25 August 2025, the Korea Forest Service hosted the Global Workshop dedicated to the Forest Ecosystem Restoration Initiative.⁵⁰⁷⁴ The Korea Forest Service and the Secretariat of the Convention on Biological Diversity agreed to sign a Memorandum of Understanding at the outset of the meeting. This action reinforces the commitment to improve planning to stop habitat loss and promote the sustainable use of wildlife and fisheries, inclusive governance for biodiversity decisions and the conservation of protected areas.

On 12 September 2025, NIBR and the Korea Arboretum Garden Management Center announced the signing of a Business Agreement for the Conservation and Increased Utilization of Native Plant Diversity.⁵⁰⁷⁵ This agreement will increase cooperation in the conservation of native plant seeds, the exchange and use of native plants and seeds and the standardization of research methods on wild plant seeds.

On 25 September 2025, the NIBR announced the opening of Biological Specimen Room on Palawan Island, Philippines.⁵⁰⁷⁶ The biological specimen room aims to lay the foundations for continued collaboration between the NIBR and the Philippines in the area of biodiversity helping to fulfill KM-GBF goal A.

On 28 September 2025, the government participated in the 26th Tripartite Environment Ministers Meeting among Japan, Korea and China, during which the Tripartite Joint Action Plan on Environmental Cooperation (2026-2030) was adopted.⁵⁰⁷⁷ The cooperative agreement's inclusion of biodiversity as a priority area furthers the KM-GBF objectives.

⁵⁰⁷⁷ Outcome of the 26th Tripartite Environment Ministers Meeting among Japan, Korea and China, Ministry of the Environment (Yantai) 29 September 2025. Access Date: 19 October 2025. https://www.env.go.jp/en/press_00006.html

On 30 September 2025, the Ministry of the Environment announced the opening of a new lifelong sanctuary for captive bears in Gurye.⁵⁰⁷⁸ This initiative comes as part of the Korean government's attempts to end bear farming and protect remaining bears directly aligning with KM-GBF goal A.

Korea has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Korea has taken strong action across most of the key components of the commitment, including halting biodiversity loss, preserving at-risk species, and restoring degraded ecosystems. Korea has taken the initiative to host global forums about natural conservation, has expanded protected areas to guarantee the wellbeing of species, has fostered collaboration between the public and private sector, and has implemented measures to improve waste management and reduce pollution. Korea has taken strong action that aligns with Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate of KM-GBF 2050 vision of biodiversity.

Thus, Korea receives a score of +1.

Analyst: Vera Allue

Mexico: +1

Mexico has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 29 November 2024, the Ministry of Environment and Natural Resources, the Federal Attorney General's Office for Environmental Protection and the National Commission of Natural Protected Areas signed the joint agreement "Sea Shepherd Conservation Society" to preserve marine biodiversity.⁵⁰⁷⁹ The initiative also includes collecting and disseminating data and information to facilitate species monitoring and conduct environmental assessments. These joint efforts demonstrate Mexico's commitment to protect and conserve marine biodiversity and natural resources, aligning with Goal A and Goal D of the KM-GBF.

On 12 December 2024, the Ministry of Environment and Natural Resources (SEMARNAT), with the support of national and international organizations, led the formulation of the National Restoration Program.⁵⁰⁸⁰ The program will serve as the strategic framework for environmental restoration in Mexico during the current presidential term and seeks to involve active participation from key actors across all sectors.

On 12 December 2024, the Ministry of Environment, the Government of Mexico City and the National Commission for Knowledge and Use of Biodiversity (CONABIO) launched the Urban Biodiversity Index.⁵⁰⁸¹ This initiative aims to improve urban conservation strategies and guide resource allocation in alignment with sustainable development goals.

On 15 January 2025, Secretary of Environment and Natural Resources Alicia Bárcena Ibarra met with national and international organizations to strengthen collaboration on environmental policy.⁵⁰⁸² The discussions aligned on establishing policies that promote technical tools for environmental conservation and restoration.

On 17 January 2025, the Minister of Environment and Natural Resources announced Mexico's objective to restore 150 million ha of key ecosystems, including forests, jungles and mangroves, by 2030.⁵⁰⁸³

On 28 January 2025, the Ministry of Environment and Natural Resources, the National Commission of Protected Natural Areas of Mexico and the Mexican Agency for International Development Cooperation announced funding for a partnership with the Butterfly Pavilion to protect monarch butterflies in the Butterfly Biosphere Reserve.⁵⁰⁸⁴ The program aims to restore declining monarch populations and protect the ecosystems on which the butterflies rely for migration and habitat.

On 5 February 2025, Mexico joined the international Mangrove Breakthrough initiative to conserve and restore these vital ecosystems.⁵⁰⁸⁵ This commitment aligns with global conservation goals.

On 11 February 2025, Secretary Bárcena committed to strengthening coordination strategies for tackling priority environmental areas including the conservation of protected natural areas during a meeting with Governor of Jalisco Pablo Lemus.⁵⁰⁸⁶ Secretary Bárcena reiterated the Ministry's interest in further collaboration on climate action and the restoration of contaminated sites.

On 13 February 2025, Mexico and EU representatives met at the Secretariat of Environment and Natural Resources in Mexico City to strengthen climate and environmental cooperation.⁵⁰⁸⁷ Participants explored opportunities for closer cooperation climate adaptation, biodiversity conservation and restoration and sustainable use of natural resources in line with the Kunming-Montreal Global Biodiversity Framework, the Paris Agreement on Climate Change and other international commitments.

On 27 February 2025, the Ministry of Environment and Natural Resources participated in a working meeting with residents of various municipalities to present progress on the Ecological Restoration Program of the Endhó dam and to facilitate the participatory process.⁵⁰⁸⁸

On 28 February 2025, Mexico's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-

GBF.⁵⁰⁸⁹ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 10 March 2025, head of the International Affairs Coordinating Unit of the Ministry of Environment and Natural Resources Camila Zepeda Lizama represented Mexico at the Euroclima Programme Annual Meeting.⁵⁰⁹⁰ Participants exchanged experiences and knowledge on climate action and sustainable development implementation strategies. Furthermore, participants identified biodiversity and ecosystem conservation as priorities for the Latin America and Caribbean region.

On 13 March 2025, Secretary Bárcena presented the Mangrove Reforestation Program in partnership with local communities during a working visit to Yucatán.⁵⁰⁹¹

On 14 March 2025, the Ministry of Environment and Natural Resources published new Internal Regulations which includes the creation of a new role, the Undersecretariat of Biodiversity and Environmental Restoration, which addresses issues related to environmental deterioration and ecosystem degradation, and conservation efforts.⁵⁰⁹²

On 27 March 2025, officials from Mexico and Canada committed to strengthening traditional knowledge and Indigenous leadership in biodiversity conservation during the “Virtual Dialogue on Community- and Indigenous-Led Conservation Programs and Projects.”⁵⁰⁹³ Furthermore, representatives reaffirmed their commitment to strengthening bilateral cooperation and promoting Indigenous conservation efforts.

On 4 April 2025, the Ministry of Environment and Natural Resources in partnership with municipal governments held five roundtable discussions with participation from civil society organizations, government authorities and the Autonomous University of Ciudad Juárez to develop the El Chamizal Restoration Program.⁵⁰⁹⁴ This initiative demonstrates Mexico's commitment to restoring and protecting the environment (aligning with Goal A of the KM-GBF).

On 8 April 2025, environmental authorities from Mexico and Germany agreed to strengthen bilateral cooperation on biodiversity.⁵⁰⁹⁵ Mexico highlighted the role in the National Environmental Restoration Program. Representatives from both countries renewed their knowledge-exchange partnership and collaboration on initiatives such as the NDC Partnership, Climate Promise and Climate Club. This initiative demonstrates Mexico's commitment to advancing Goal A and Goal D of the KM-GBF.

On 9 April 2025, Secretary Bárcena participated in the Mexico-UK Summit, organized by the Canning House, where she stated the importance of strengthening strategic partnerships with the United Kingdom.⁵⁰⁹⁶ Secretary Ibarra reiterated progress from ongoing partnerships facilitating the participation of companies in contributing resources and implementing nature-based solutions such as ecosystem restoration. This initiative aligns with Goal A and Goal D of the KM-GBF.

On 10 April 2025, Secretary Bárcena met with representatives from the National Association of State Environmental Authorities to present Mexico's Humanist Ecological and Environmental Policy on environmental restoration and sustainable development.⁵⁰⁹⁷ Secretary Bárcena reiterated Mexico's 10 goals for 2030, including environmental restoration and recovery and protecting marine territory. Further, this initiative reflects Mexico's commitment to leveraging collaborative efforts and partnerships to advance environmental priorities (aligning with Goal D of the KM-GBF).

On 27 April 2025, Secretary Bárcena stated the importance of multi-sector and civil society engagement in environmental policy, and taking action that advances environmental conservation at the "Our Power, Our Planet" forum.⁵⁰⁹⁸

On 28 April 2025, the governments of Mexico and the United States announced an agreement to address challenges related to the Rio Grande water allocations based on a five-year water delivery cycle under the 1944 Treaty.⁵⁰⁹⁹ The assurance of water supplies for human consumption acknowledges the need for equitable access to natural resources, aligning with Goal C of the KM-GBF. The ongoing planning and monitoring of actions reflect Mexico's commitment to preserving biodiversity and maintaining ecosystem integrity, aligning with Goal A of the KM-GBF.

On 6 May 2025, the Ministry of Environment and Natural Resources supported security authorities from Mexico City in strengthening surveillance, enforcement and environmental protection actions in Los

Dinamos.⁵¹⁰⁰ The area is a protected site under the Community Environmental Restoration and Conservation Area with diverse ecological diversity. In addition, the river in the area supplies large amounts of water for human consumption. This initiative reflects Mexico's commitment to protecting and restoring ecosystems (aligning with Goal A) and ensuring all benefits from natural resources are shared and sustainably used (aligning with Goal C).

On 12 May 2025, Secretary Bárcena met with members of the Social Movement for Land where the Ministry of Environment and Natural Resources agreed to a consultation on the ecological restoration program for the Endhó dam.⁵¹⁰¹ The meeting aimed to integrate feedback from stakeholders into the project. This demonstrates Mexico's commitment to advancing Goal A and Goal D of the KM-GBF.

On 16 May 2025, the Ministry of Environment and Natural Resources held the first national meeting of Environmental Authorities including 30 state environmental secretaries to strengthen coordination within the government on environmental challenges.⁵¹⁰² During the meeting, representatives discussed environmental regulation and governance; conservation efforts; environmental restoration; the "National Agreement on Forests, Jungles and Mangroves." This initiative demonstrates Mexico's commitment to protecting and restoring ecosystems (aligning with Goal A) and aligning collaborative efforts to build a roadmap to address environmental priorities (aligning with Goal D).

On 21 May 2025, the Ministry of Environment and Natural Resources held the sixth working session for the development of the El Chamizal Ecological Restoration Program.⁵¹⁰³ The event convenes representatives from federal and municipal governments, academia and civil society organizations to discuss three lines of action: 1) promoting awareness of biodiversity and ecological benefits, 2) disseminating information on restoration efforts and 3) facilitating community, academia and private sector participation. This initiative reflects Mexico's commitment to advancing Goal A and Goal D of the KM-GBF.

On 26 May 2025, the Inter-Secretarial Commission on Climate Change (CICC) held a working session to discuss Mexico's policy for climate change mitigation and adaptation.⁵¹⁰⁴ Secretary of Agriculture and Rural Development Julio Berdagué Sacristán underscored the importance of reducing deforestation and biodiversity loss. This demonstrates Mexico's commitment to advancing Goal A of the KM-GBF.

On 9 June 2025, Environment and Natural Resources Secretary Alicia Bárcena Ibarra led the Mexican delegation to the Third United Nations Ocean Conference, where the Secretary announced the updated National Policy for the Sustainable Management of Mexico's Seas and Coasts, the National Environmental Restoration Program and the National Strategy for the Clean-up and Conservation of Mexico's Beaches and

Coasts 2025-2030.⁵¹⁰⁵ The announcements illustrate Mexico's progress toward KM-GBF Goal A, particularly for marine ecosystems.

On 17 June 2025, the Ministry of Agriculture and Rural Development announced plans to triple its marine refuge zones by 2026 through a new National System of Fishing Refuge Zones.⁵¹⁰⁶ This initiative expands protected areas from 28 to 83 across nine coastal states, covering 2.2 million hectares. The program directly advances KM-GBF Target 3 (30x30 protection) by restoring fisheries for over 130 species (octopus, lobster, sharks) through community-inclusive conservation.

On 26 June 2025, the Senate and the Chamber of Deputies passed an amendment to the General Wildlife Law banning the use and ownership of marine mammals for purposes not related to conservation or scientific research.⁵¹⁰⁷ The legislation supports the protection of marine wildlife under KM-GBF Goal A.

On 10 July 2025, SEMARNAT welcomed 300 representatives of national and international organisations at the International Cooperation and Financing Dialogues, where 60 projects on technical and financial collaboration for environmental protection were presented.⁵¹⁰⁸ The event supports KM-GBF Goal D – Invest and Collaborate.

On 12 July 2025, Mexico's Ambassador to Cairo Leonora Rueda Gutiérrez met with Egypt's Minister of Environment Yasmine Fouad to explore expanded cooperation on desertification, climate change and waste management under the Rio Conventions.⁵¹⁰⁹ This high-level dialogue reflects Mexico's effort to integrate biodiversity conservation into broader environmental and nature-based solutions—a core requirement of KM-GBF Goal B (Sustainable Use) and Goal D—by mobilising international partnerships to address interconnected land- and water-based threats.

On 18 July 2025, Mexico and Cuba formalized a bilateral agreement to jointly conserve and study the Sierra de Manantlán Biosphere Reserve in Mexico and the Sierra del Rosario Biosphere Reserve in Cuba.⁵¹¹⁰ Through commitments to strengthen biological connectivity, integrate ancestral and scientific knowledge, and develop sustainable production systems, the two national governments are advancing KM-GBF Goal A (Protect and Restore) and Goal D by enhancing cross-border ecosystem management and collaboration.

On 22 July 2025, SEMARNAT signed a cooperation agreement with the civil association ECOCE to install free collection stations for recyclable waste across beaches and coastal areas under Mexico's National Beach and Coastal Cleanup and Conservation Strategy 2025–2030.⁵¹¹¹ By coordinating federal agencies with private partners to sort and divert plastics and other inorganic materials, the national government is directly addressing marine pollution, in line with KM-GBF Goal A – Protect and Restore.

On 22 July 2025, SEMARNAT launched a workshop for SEMARNAT representative offices on combating illegal mining in collaboration with the UNDP.⁵¹¹² The initiative supports KM-GBF Goal B – Prosper with Nature.

On 25 July 2025, Secretary Ibarra announced the signing of the Mexico-United States Memorandum of Understanding on Health and Environmental Care in the Tijuana-San Diego Region, which aims to restore the ecosystem of the Tijuana River.⁵¹¹³ The action contributes to KM-GBF Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 15 August 2025, the governments of Mexico, Guatemala and Belize signed the Declaración de Calakmul establishing the Corredor Biocultural de la Gran Selva Maya.⁵¹¹⁴ The trinational biocultural corridor protects some 5.7 million hectares of contiguous tropical forest. This inter-governmental declaration advances KM-GBF ambitions by protecting and connecting large landscapes (supporting Goal A – Protect and Restore), committing national authorities to stop destructive megaprojects within the reserve and to coordinate transboundary governance.

On 3 September 2025, the federal government issued a presidential decree prohibiting the production, importation, commercialization and use of 35 highly hazardous pesticides.⁵¹¹⁵ Reducing toxic agrochemical pressure on ecosystems directly supports KM-GBF goal A.

On 4 September 2025, SEMARNAT delivered the Diagnóstico del Estado del Ambiente Marino-Costero del Pacífico Centro Sur de México.⁵¹¹⁶ The diagnostic assessment identifies areas of concern within Mexico's marine ecosystems, allowing officials to better design conservation policies to address critical biodiversity concerns.

On 30 September 2025, CONANP in partnership with the UN Development Program announced the provision of lead-free food for endangered California condors in the Sierra de San Pedro Mártir National Park.⁵¹¹⁷ By protecting California condors, this action aligns with KM-GBF goal A.

On 3 October 2025, SEMARNAT signed a coordination accord with the Government of Oaxaca and CONANP, certifying five new Áreas Destinadas Voluntariamente a la Conservación in Oaxaca, expanding federal recognition of community-led conservation areas and advancing Mexico's national target to protect 30

percent of its territory by 2035.⁵¹¹⁸ By formalizing federal-level support and certification, this national action strengthens governance and effective management of conservation lands thus supporting KM-GBF goal A.

On 15 October 2025, SEMARNAT launched the Climate and Biodiversity Action through Circular Economy Solutions project in collaboration with the United Nations Industrial Development Organization.⁵¹¹⁹ The project integrates other environmental concerns into national biodiversity actions in line with KM-GBF Goal A.

Mexico has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Mexico has taken strong action to achieve Goal A – Protect and Restore and Goal, Goal C – Share Benefits and Fairly D – Invest and Collaborate of the commitment through initiatives such as Ecological Restoration Programs, and partnerships with regional governments, stakeholders and other countries. However, it has not taken steps to advance Goal B of the KM-GBF 2050 vision of biodiversity.

Thus, Mexico receives a score of +1.

Analyst: Cheng Li

Russia: 0

Russia has partially complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 16 January 2025, Minister of Emergency Situations Alexander Kurenkov assessed ongoing clean-up efforts in response to an oil spill along the coastal strip of Sevastopol.⁵¹²⁰ This action underscores the commitment to minimizing environmental damage.

On 7 February 2025, President Vladimir Putin signed a decree approving the creation of a presidential fund for environmental and nature conservation projects.⁵¹²¹ The fund will allocate RUB1 billion annually to support projects focused on environmental protection, wildlife conservation and volunteer training in these areas.

On 25 February 2025, Deputy Head of the Ministry of Emergency Situations Roman Kurynin opened the photo exhibition “Safe Arctic 2025.”⁵¹²² The exhibition highlights governmental efforts to ensure safety and protect the population and the unique ecosystem of the Arctic region.

On 28 February 2025, Russia’s delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵¹²³ The strategy employs a range of instruments including public and private funding, multilateral development banks, and

formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 28 February 2025, Russia finalised a multilateral initiative led by the BRICS countries to earmark USD200 billion in annual financing for nature protection.⁵¹²⁴ The funding aims to preserve biodiversity and natural environments in light of climate change.

On 22 May 2025, Council First Deputy Speaker Andrey Yatskin called for joint efforts among Caspian states Russia, Azerbaijan, Iran and Kazakhstan to protect the ecosystem of Caspian basin.⁵¹²⁵ Yatskin also emphasized the need for comprehensive approaches that adapt to climate change to protect diversity and support the development of a sustainable economy. This initiative partially meets the KM-GBF biodiversity Goal D by promoting international cooperation on environmental challenges.

On 23 May 2025, Deputy Prime Minister Dmitry Patrushev took part in the 11th Nevsky International Ecological Congress, together with Federation Council Speaker Valentina Matviyenko and foreign colleagues.⁵¹²⁶ This action contributes to KM-GBF version of biodiversity Goal D by fostering public engagement and supporting environmental education.

On 23 May 2025, Deputy Prime Minister Patrushev hosted two international meetings with Iran and Azerbaijan, focusing on topics on marine protection, climate change and the preservation of Persian Leopard.⁵¹²⁷ The Deputy Prime Minister proposed establishing a common regulatory and legal framework to address environmental challenges. This initiative aligns with KM-GBF version of biodiversity Goal B through implementing measures to protect wildlife species. It also partially aligns with Goal D by promoting future international cooperation on environmental protection.

On 30 May 2025, Minister of Justice Konstantin Chuichenko announced that a quarter of the Amur Tiger habitat in Russia is officially designed as protected land, with its population on the rise.⁵¹²⁸ Key achievements in tiger preservation include the strengthening of criminal liability for poaching and illegal trade in tiger parts and derivatives. These initiatives align with KM-GBF Goal A- Protect and Restore by enforcing regulations and preventing the over-exploitation of Amur Tiger and its habitat.

On 19 June 2025, the government launched the Clean Arctic public environmental project, set to begin later this year, to collect and remove waste in the region.⁵¹²⁹ This initiative partially aligns with KM-GBF biodiversity Goal A, as it demonstrates Russia's support for Arctic cleanup, though specific regulations and measures remain undefined.

On 4 July 2025, Russian law enforcement authorities investigated the environmental damage caused by the Yuzhuralzoloto company in the Chelyabinsk region, estimating the loss at RUB6 million.⁵¹³⁰ The Russian Office of the General Prosecutor filed a claim with the regional court to forfeit shares held by the company's owner.

⁵¹²⁹ Standard for collecting, removing waste from Arctic to be adapted in 2025, TASS (Moscow) 19 June 2025. Access Date: 4 July 2025. <https://tass.com/economy/1976459>

⁵¹³⁰ Environmental damages in Yuzhuralzoloto case estimated at \$76 mln, TASS (Chelyabinsk) 4 July 2025. Access Date: 17 August 2025. <https://tass.com/society/1985507>

This action aligns with KM-GBF Goal A by evaluating ecological harm and reinforcing legal accountability to prevent further overexploitation.

On 5 August 2025, Deputy Prime Minister Patrushev participated in a meeting of deputy heads of government of the Caspian states to discuss efforts to mitigate the consequences of the Caspian Sea's shallowing.⁵¹³¹ Topics covered include proposals such as developing common standards and methodologies for better assessing and monitoring biodiversity-related risks, intensifying regional dialogue on Caspian's shallowing under the Tehran Convention, aligning with KM-GBF Goals A and D.

On 30 August 2025, President Putin participated in the Shanghai Cooperation Organization (SCO) summit in Tianjin.⁵¹³² During the meeting, SCO member countries committed to strengthen cooperation on waste management and resource use, restoration of biodiversity, combating desertification, dust storms and land degradation, and the conservation of mountain ecosystems. The action aligns with KM-GBF Goals A and B by showing attention and commitment to environmental issues and mitigating biodiversity-related risks.

On 9 October 2025, President Putin signed a joint agreement with Tajik President Emomali Rahmon to build a fairer trading system between two countries.⁵¹³³ The agreement stressed ongoing cooperation in protecting natural areas, conserving biodiversity and glaciers, and facilitating the interaction of research institutions. This action demonstrates commitment to biodiversity-related issues while promoting sustainable development through legal agreement, aligning with KM-GBF Goal D.

Russia has partially complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Russia has taken actions under Goal A by strengthening legal protection for endangered species such as Amur tiger and initiating Arctic cleanup projects. Russia has also acted under Goal B and Goal D through clean-up efforts, hosting international forums and proposing future cooperation with other countries on marine protection and permafrost research. However, these actions are often limited to verbal commitments without policy frameworks. And there is no clear evidence of actions taken under Goal C on fair and equitable benefit-sharing. Therefore, more concrete strategies and plans are required for full compliance.

Thus, Russia receives a score of 0.

Analyst: Jingshuang Wang

Saudi Arabia: 0

Saudi Arabia has partially complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 23 December 2024, Saudi Arabia shared success stories and emphasized innovative approaches to environmental sustainability during the COP16 in Cali, Colombia.⁵¹³⁴

On 23 December 2024, the National Center for Wildlife released 66 endangered species, including Arabian Oryx, Addax, Nubian Ibex and Houbara Bustards, into the King Khalid Royal Reserve as part of a breeding and reintroduction program.⁵¹³⁵

On 9 January 2025, Saudi Arabia assumed the chairmanship of the International Coral Reef Initiative for the 2025–2027 term.⁵¹³⁶ This leadership role positions Saudi Arabia at the forefront of global coral reef conservation, directly supporting efforts to halt and reverse marine biodiversity loss through coordinated international action, scientific collaboration and funding mobilization.

On 28 February 2025, Saudi Arabia’s delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵¹³⁷ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention’s financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 27 March 2025, Crown Prince and Prime Minister Mohammed bin Salman marked the celebration of the second annual Saudi Green Initiative Day, featuring public campaigns around the theme of “Promoting a Culture of Environmental Stewardship.”⁵¹³⁸ The event’s core goals included afforestation, land restoration and the preservation of marine and terrestrial ecosystems.

On 18 April 2025, the National Center for Wildlife signed a Memorandum of Understanding with the UK’s National Oceanography Center to facilitate collaboration on marine biodiversity.⁵¹³⁹ The partnership aims to employ advanced technologies to monitor and protect at-risk marine species.

On 20 April 2025, the National Center for Wildlife completed surveys of marine biodiversity at 64 coastal sites and of marine temperatures at 37 sites in the Red Sea.⁵¹⁴⁰ The surveys form part of the center’s plan to monitor coastal biodiversity and ecosystem health in line with KM-GBF Goal A – Protect and Restore.

On 22 April 2025, the National Center for Vegetation Cover Development and Combating Desertification unveiled an executive plan to combat desertification and manage drought.⁵¹⁴¹ The plan will involve implementing new technologies and policy programs at various levels of government to protect land areas and native biodiversity in line with Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 24 April 2025, the National Center for Wildlife released 32 endangered animals—including Arabian oryx, Reem gazelles, mountain gazelles and steppe eagles—into King Khalid Royal Reserve under the Kingdom’s

rewilding program.⁵¹⁴² This activity is part of an ongoing species reintroduction and restoration initiative aimed at reviving native ecosystems and increasing the populations of at-risk fauna in their natural habitats.

On 26 April 2025, Saudi Arabia concluded its national Environment Week, during which the Ministry of Environment, Water and Agriculture, along with public and private sector entities, organized nationwide activities including tree planting, coastal cleanups and biodiversity education workshops.⁵¹⁴³ These initiatives aimed to raise public awareness and promote environmental protection, aligning with Goal A – Protect and Restore and Goal D – Invest and Collaborate under the KM-GBF 2050 framework.

On 28 April 2025, the National Center for Wildlife and Saudi Arabian Mining Co. launched a tree-planting initiative to bring three million mangroves to the Jubail Marine Protected Area.⁵¹⁴⁴ The campaign seeks to bolster coastal biodiversity.

On 7 May 2025, the National Center for Vegetation Cover Development and Combating Desertification held the “Towards Achieving the Target of Rehabilitating 40 Million Hectares” workshop and launched the “Land Rehabilitation Guide for Non-Agricultural Areas in Saudi Arabia” publication as part of the National Greening Program.⁵¹⁴⁵ The event sought to conform standards for ecosystem conservation across the country, supporting KM-GBF Goal A.

On 12 May 2025, Saudi Arabia officially joined the Ramsar Convention on Wetlands of International Importance.⁵¹⁴⁶ The joining of Ramsar reaffirms Saudi Arabia’s commitment to environmental conservation and biodiversity support.

On 4 June 2025, the Saudi Press Agency (SPA) reported that NEOM had reintroduced over 1,100 animals across six species to its Nature Reserve, including Arabian Sand Gazelles and Nubian Ibex, as part of a rewilding strategy to restore the region's natural balance.⁵¹⁴⁷ The action bolsters species abundance and diversity in accordance with KM-GBF Goal A.

On 23 June 2025, the King Abdulaziz Royal Reserve Development Authority updated regulations for entry and recreational use of the Al-Suman and Al-Dahna areas within the royal reserve.⁵¹⁴⁸ These updates prohibit activities such as hunting, wood gathering, and open fires to safeguard ecological integrity and natural habitats.

On 2 July 2025, the National Center for Wildlife signed a memorandum of understanding with BirdLife International to promote cooperation for bird protection.⁵¹⁴⁹ The agreement’s focus on species and habitat conservation aligns with KM-GBF Goal A – Protect and Restore.

On 14 August 2025, the National Center for Wildlife inaugurated the Decade Land Expedition for Terrestrial Ecosystem Exploration project to survey Saudi Arabia's terrestrial biodiversity, with a concentration on endemic and endangered species.⁵¹⁵⁰ This collaborative research effort promotes KM-GBF Goal D – Invest and Collaborate.

On 23 October 2024, the National Center for Wildlife in cooperation with King Abdullah University of Science and Technology launched a program to protect the Red Sea and Arabian Gulf from non-native invasive species.⁵¹⁵¹ This initiative aims to protect and improve the biodiversity of the region by preserving habitat for native species thus fulfilling KM-GBF goal A.

Saudi Arabia has partially complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Per Goal A and Goal D, it has taken strong action to preserve at risk species in diverse natural ecosystems and to foster strong technical cooperation. However, it has not taken any action to advance Goal B or Goal C of the KM-GBF 2050 vision of biodiversity.

Thus, Saudi Arabia receives a score of 0.

Analyst: Olivia Du

South Africa: +1

South Africa has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 28 November 2024, Minister of Forestry, Fisheries and the Environment Dion Travers George released the draft Biodiversity Management Plan for Pelargonium Sidoides, a native plant species, and opened the legislation for public comment.⁵¹⁵² The legislation will enhance conservation efforts for the plant species.

On 16 January 2025, Permanent Representative to the Food and Agriculture Organization of the United Nations Nosipho Nausca-Jean Jezile signed South Africa onto the International Treaty on Plant Genetic Resources for Food and Agriculture.⁵¹⁵³ The treaty advances the conservation of biodiversity across global agricultural systems.

On 10 February 2025, South African National Parks introduced a digital system to improve biodiversity data management for national parks and marine protected areas.⁵¹⁵⁴ These improvements further KM-GBF Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 28 February 2025, South Africa's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵¹⁵⁵ The strategy employs a range of instruments including public and private funding, multilateral

development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 28 February 2025, South Africa finalised a multilateral initiative led by the BRICS countries to earmark USD200 billion in annual financing for nature protection.⁵¹⁵⁶ The funding aims to preserve biodiversity and natural environments in light of climate change.

On 12 March 2025, the Department of Forestry, Fisheries and the Environment (DFFE) committed to facilitating the implementation of a settlement agreement between the fishing industry and conservation actors on the African Penguin.⁵¹⁵⁷ The agreement will promote the preservation of biodiversity by establishing protected habitat spaces for the endangered bird species.

On 18 March 2025, the High Court of South Africa ruled in favour of temporary fishing restrictions around the African penguin breeding colonies at Dassen Island, Robben Island, Stony Point, Dyer Island, St Croix Island and Bird Island for a 10-year period.⁵¹⁵⁸ This action serves to protect the endangered penguin as a species and its habitat.

On 23 March 2025, Minister George led the G20 Environment and Climate Sustainability Working Group (ECSWG) to advance the 2030 Agenda for Sustainable Development and enhance cooperation between G20 members and invitees on key priority areas including the implementation of the Global Biodiversity Framework, land degradation neutrality targets and marine spatial planning.⁵¹⁵⁹

On 15 April 2025, the DFFE commemorated Indigenous Tree Day by joining governmental and civil society partners to plant indigenous trees at various sites nationwide.⁵¹⁶⁰ This builds capacity for the preservation and growth of indigenous woodland ecosystems.

On 24 April 2025, the DFFE partnered with the Global Humane Conservation Fund of Africa to demarcate the Brad and Alice Andrews Preserve, expanding the biodiversity corridor of the Tanglewood Conservation Area.⁵¹⁶¹ The expansion will tackle habitat fragmentation and biodiversity loss.

On 7 May 2025, Minister George represented South Africa at the Copenhagen Climate Ministerial in Denmark to advance the Paris Agreement's 1.5°C target and promote solutions to enhance biodiversity conservation and protect wildlife and marine resources.⁵¹⁶²

On 11 May 2025, Deputy Minister of Forestry, Fisheries and the Environment Bernice Swarts opened the Global Land Degradation — Integrated Land Use Planning Inception Workshop Phase 2 of the Global Land Degradation Neutrality Target Setting Programme of the United Nations Convention to Combat Desertification.⁵¹⁶³ The initiative provides a platform for collaboration and discussion on land degradation, desertification and drought, in addition to promoting sustainable land management practices across different sectors.

On 19 May 2025, the government commenced the Regional Dialogue on the Update and Revision of Regional and National Biodiversity Strategies and Action Plans for southern and eastern African actors in the sector.⁵¹⁶⁴ The dialogue emphasised both species and habitat diversity as well as the accommodation of human activity in biodiversity paradigms and opportunities for multilateral engagement, further KM-GBF Goals A, B and D.

On 22 May 2025, DFFE, SANParks, the South African National Biodiversity Institute (SANBI) and the Development Bank of Southern Africa (DBSA) commenced their hosting of the National Biodiversity Offset Conference.⁵¹⁶⁵ Pursuant to the theme of "Harmony with Nature and Sustainable Development," the event served KM-GBF Goal B.

On 22 May 2025, the DFFE, in collaboration with the United Nations Development Programme, marked the beginning of the National Biodiversity Offset Conference and International Day for Biological Diversity.⁵¹⁶⁶ The DFFE called for enhanced action to protect biodiversity domestically and internationally, reaffirming South Africa's commitment to preserving biodiversity.

On 23 May 2025, SANParks launched South Africa's first Biodiversity Offset Bank to balance development and conservation.⁵¹⁶⁷ This supports KM-GBF Target 19 by creating a market for biodiversity credits.

On 26 May 2025, Minister George underscored the work of the DFFE Oceans and Coasts branch in protecting biodiversity, specifically the Prince Edward Islands (PEIs) in the Southern Ocean.⁵¹⁶⁸

On 28 June 2025, Minister George signed draft regulations to manage offshore ship-to-ship fuel transfers, aiming to strengthen the protection of the African penguin.⁵¹⁶⁹ This advances KM-GBF Target 7 (reducing pollution risks) and Target 3 (marine protection).

⁵¹⁶⁹ Minister George signs draft regulations to manage offshore ship-to-ship transfers, The Bulrushes (Cape Town) 28 June 2025. Access Date: 2 July 2025. <https://thebulrushes.com/2025/06/28/minister-george-signs-draft-regulations-to-manage-offshore-ship-to-ship-transfers/>

On 28 June 2025, the DFFE finalized plans to extend the iSimangaliso Wetland Park into Mozambique by 2025.⁵¹⁷⁰ This cross-border Ramsar site expansion enhances ecological connectivity for migratory species, fulfilling KM-GBF Target 3 (transboundary conservation).

On 30 June 2025, South Africa identified 59 biodiversity projects to unlock ZAR450,000 in green finance.⁵¹⁷¹ These projects focus on habitat restoration and sustainable resource use, directly supporting KM-GBF Goal D (financial resource mobilization) and Target 9 (sustainable management of wild species).

On 8 July 2025, Deputy Minister Bernice Swarts announced the “One Million Trees in One Day” campaign under the Presidential “Ten Million Trees Programme,” calling on all South Africans to plant trees as nature’s carbon sinks and biodiversity shelters.⁵¹⁷² This mass planting drive exemplifies South Africa’s commitment to the KM-GBF’s 2050 vision by restoring ecosystems at scale (Goal A) and mobilizing a whole-of-society approach to climate resilience (Goal D).

On 18 July 2025, Minister George launched the Pangolin Pact at the conclusion of the G20 Environment and Climate Sustainability Working Group meeting to draw attention to the biodiversity implications of illegal wildlife trade within G20 countries.⁵¹⁷³ The initiative connects to KM-GBF Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

On 31 July 2025, the South African National Biodiversity Institute celebrated World Conservation Day by reaffirming its commitment to science-based conservation through the identification and rigorous management of Key Biodiversity Areas (KBAs) across the country.⁵¹⁷⁴ By applying all eleven global KBA criteria and updating 263 terrestrial sites covering over 357,000 km², SANBI is directly protecting critical habitats—such as Fynbos landscapes and seabird breeding colonies—thereby advancing the KM-GBF’s Goal A (Protect and Restore) and Goal D (Invest and Collaborate) through science-driven prioritization and international collaboration.

On 1 August 2025, Minister George issued a national call to protect South Africa’s oceans for Marine Protectors Day, urging reduced plastic pollution, sustainable seafood choices and community coastal action.⁵¹⁷⁵ The national outreach and policy signal that links directly to KM-GBF objectives on marine biodiversity, pollution reduction and public participation required for full and effective implementation.

On 29 August 2025, SANParks launched a small, medium, and micro enterprises (SMME) incubation programme in the Eastern Cape to develop 20 biodiversity-linked enterprises with GEF funding.⁵¹⁷⁶ The national programme operationalises KM-GBF goals on mobilising finance, supporting inclusive biodiversity economies and strengthening local stewardship as part of rapid and effective implementation.

⁵¹⁷⁰ Plans to extend iSimangaliso Wetland Park into Mozambique by 2025, IOL (Cape Town) 28 June 2025. Access Date: 2 July 2025. <https://iol.co.za/news/south-africa/kwazulu-natal/2025-06-28-plans-to-extend-isimangaliso-wetland-park-into-mozambique-by-2025/>

⁵¹⁷⁴ Celebrating World Conservation Day: South Africa’s commitment to biodiversity, Weekend Argus (Cape Town) 31 July 2025. Access Date: 5 August 2025. <https://iol.co.za/weekend-argus/news/2025-07-29-celebrating-world-conservation-day-south-africas-commitment-to-biodiversity/>

⁵¹⁷⁵ Call to protect the nation’s oceans, SAnews (Tshwane) 1 August 2025. Access Date: 11 October 2025. <https://www.sanews.gov.za/south-africa/call-protect-nations-oceans>

⁵¹⁷⁶ SANParks Launches SMME Incubation Programme to Boost Biodiversity Economy in Eastern Cape, ATTA (London) 29 August 2025. Access Date: 11 October 2025. <https://atta.travel/resource/sanparks-launches-smme-incubation-programme-to-boost-biodiversity-economy-in-eastern-cape.html>

On 2 September 2025, SANParks opened its Vision 2040 conference (Vision 2040 Indaba) focusing on national park conservation and climate-resilient landscapes with strong community involvement.⁵¹⁷⁷ The national initiative supports KM-GBF Goals A and D by aiming to protect and restore ecosystems while investing in collaborative governance and community participation for effective implementation.

On 20 September 2025, Deputy Minister of Forestry, Fisheries and the Environment Narend Singh commemorated International Coastal Cleanup Day with an event raising awareness of coastal pollution in Isipingo.⁵¹⁷⁸ The event contributes to KM-GBF Goal A's focus on the protection of marine ecosystems.

On 23 September 2025, President Cyril Ramaphosa publicly championed Transfrontier Conservation Areas (TFCAs) at a high-level launch of the Africa Keystone Partnership at UNGA, reaffirming South Africa's leadership in transboundary conservation and pledging further dialogue and support.⁵¹⁷⁹ The presidential-level commitment that directly supports KM-GBF priorities on connectivity, large-scale protected-area networks, and international collaboration for protecting and restoring biodiversity at scale.

On 24 September 2025, Deputy Minister Swarts commemorated Heritage Day with the One Million Trees Campaign in Pretoria and Oudtshoorn.⁵¹⁸⁰ The large-scale tree planting effort supports KM-GBF Goal A.

On 6 October 2025, Minister George reaffirmed South Africa's commitment to ensuring vulture conservation.⁵¹⁸¹ Preserving the vulture population helps to fulfill KM-GBF Goal A.

On 11 October 2025, Minister George announced the designation of Middelpunt Nature Reserve as a Ramsar site in celebration of World Migratory Bird Day.⁵¹⁸² By designation this reserve as a Ramsar site, South Africa protects vital wetland habitat and species thus supporting KM-GBF Goal A.

South Africa has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. South Africa has taken steps toward protecting its biodiversity by advancing Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate of the KM-GBF. However, gaps remain in the comprehensive integration of long-term monitoring and community feedback mechanisms. South Africa has not taken steps towards advancing Goal C of the KM-GBF 2050 vision of biodiversity.

Thus, South Africa receives a score of +1.

Türkiye: 0

Türkiye has partially complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 16 January 2025, Minister of Environment, Urbanisation and Climate Change Murat Kurum joined the Minister of Environment and Climate Change of Mongolia in signing an Intergovernmental Agreement on Cooperation in Environment.⁵¹⁸³ Both governments highlighted the conservation of biodiversity and the management of protected areas as key priorities of the partnership.

On 25 February 2025, the Ministry of Environment, Urbanization and Climate Change submitted a draft of the nation's first Climate Law. This legislative proposal aims to enhance Türkiye's legal framework for combating climate change, supporting green growth and achieving the 2053 Net-Zero Emission Target.⁵¹⁸⁴ The law promotes the widespread use of nature-based solutions and climate-resilient practices to maintain a balance between protecting and sustainably using natural resources, ecosystems and biodiversity.

On 28 February 2025, Türkiye's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵¹⁸⁵ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 12 May 2025, Minister Kurum announced the launch of a bird protection project for the Milleyha Bird Paradise, an area now declared a natural protected zone.⁵¹⁸⁶ This project aims to preserve the biodiversity and ecological integrity of the area, which is a critical habitat for various bird species. The initiative reflects Türkiye's commitment to conserving natural habitats and aligns with the country's broader environmental protection strategies.

On 20 May 2025, Türkiye commenced its hosting of the Seventeenth Meeting of the Specially Protected Areas Regional Activity Centre (SPA/RAC) Focal Points.⁵¹⁸⁷ The conference sought to foster greater ecological monitoring and biodiversity conservation efforts among Mediterranean nations in support of KM-GBF Goal D.

On 24 June 2025, the Ministry of Agriculture and Forestry co-organised a Stakeholder Consultation Workshop on the 2026–2035 Strategy for the Turkish International Forestry Training Centre (TIFTC) with the FAO.⁵¹⁸⁸ By connecting forest fire management to biodiversity preservation, the initiative support KM-GBF Goal A.

⁵¹⁸³ Mongolia and the Republic of Türkiye Establish a Strategic Partnership, Office of the President of Mongolia (Ankara) 17 January 2025. Access Date: 7 April 2025. <https://president.mn/en/2025/01/17/mongolia-and-the-republic-of-turkiye-establish-a-strategic-artnership/>

⁵¹⁸⁸ Charting the future of forestry – stakeholders convene to develop 10-year strategy for Turkish International Forestry Training Centre, FAO (Ankara) 26 June 2025. Access Date: 14 July 2025. <https://www.fao.org/turkiye/news/detail-news/en/c/1739799/>

On 10 July 2025, Türkiye adopted its first-ever Climate Law.⁵¹⁸⁹ The law introduces key measures, including a national Emissions Trading System (ETS), mandatory local climate action plans by 2027, carbon border regulations, and climate education across all school levels. It aims to ensure regional inclusiveness and support affected communities, particularly those dependent on coal. The law aligns with the KM-GBF by contributing to halting and reversing biodiversity loss and enhancing ecosystem resilience.

On 18 August 2025, the FAO and the Turkish Cooperation and Coordination Agency (TİKA) met in Uzbekistan to discuss strengthening cooperation between Türkiye and Central Asian countries in biodiversity conservation and sustainable forest management.⁵¹⁹⁰ TİKA identified Zarafshan National Park, Zaamin National Nature Park, and Pap National Nature Park as potential pilot sites to demonstrate integrated approaches combining ecosystem protection, community engagement, and sustainable resource use. This collaboration supports the Global Biodiversity Framework's goal of preserving 30 per cent of land, sea, and inland water areas.

On 8 September 2025, Türkiye declared Hatay's Milleyha Wetland a natural conservation site and expanded its protected area to 383 hectares.⁵¹⁹¹ The wetland serves as a vital habitat for migratory birds and sea turtles. This action supports the Global Biodiversity Framework's goal of preserving 30 per cent of land, sea, and inland water areas.

Türkiye has partially complied with its commitment to the swift, full, and effective implementation of the KM-GBF. Türkiye has taken strong action to advance Goal A – Protect and Restore and Goal D – Invest and Collaborative through signing an intergovernmental agreement and passing environmental and climate laws. However, continued efforts are needed to strengthen biodiversity conservation policies and ensure their effective implementation and alignment with Goal B and Goal C of the KM-GBF 2050 vision of biodiversity.

Thus, the Türkiye receives a score of 0.

United Kingdom: +1

The United Kingdom has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 21 November 2024, Nature Minister Mary Creagh announced funding from Round One of the Ocean Community Empowerment and Nature (OCEAN) Grants Programme for 20 projects related to strengthening and building resilience in global marine environments against climate change.⁵¹⁹² Projects under the OCEAN Grants Programme will focus on restoring marine ecosystems and supporting impoverished coastal communities in 13 countries.

On 21 November 2024, Energy Secretary Ed Miliband announced funding of GBP239 million to halt and reverse deforestation in countries containing forests that play a critical role as carbon sinks.⁵¹⁹³ GBP188 million of the fund will support developments to drive carbon emission reductions in forest carbon markets through the Scaling Climate Action by Lowering Emissions programme. GBP48 million of the fund will finance investments in activities for the restoration and protection of vulnerable forests. GBP3 million of the fund will allow the Agriculture, Forestry and Other Land Use Unit of the United Nations Framework Convention on Climate Change to assist countries in recognizing, protecting and restoring their forests.

On 27 November 2024, Royal Navy Maritime Domain Awareness Programme and Global Fishing Watch signed a letter of intent for the sharing of information and data on maritime activity to combat illegal, unreported and unregulated fishing activity.⁵¹⁹⁴ Minister for the Indo-Pacific Catherine West stated that this information-sharing will allow for more effective management of fisheries, protection of vulnerable coastal species in the Indo-Pacific and sustainable economic developments.

On 3 December 2024, the Environment Agency announced the Ching Action Plan, a partnership between the London Borough of Waltham Forest, Ching Action Group, City of London Corporation, Ching Working Group and Thames 21 to address complex issues related to the Ching Brook, including the pollution of river water and the state of local wildlife.⁵¹⁹⁵ The Ching Action Plan will improve water quality and wildlife habitats, restore biodiversity and combat climate change effects across the Epping Forest.

On 9 December 2024, the government pledged a GBP200 million investment in the Animal Plant Health Agency's (APHA) laboratories located in Weybridge.⁵¹⁹⁶ The APHA laboratories provide scientific and veterinary services key for the prevention, detection and response against zoonotic diseases and major outbreaks.

On 19 December 2024, the Environment Agency, Stockton-on-Tees Borough Council, Tees Rivers Trust and National Highways concluded the Billingham Beck wetland restoration project.⁵¹⁹⁷ This initiative aimed to provide a larger river habitat for fish, allow species thriving in wetland habitats to return to the river and construct a natural measure for against floods.

On 22 January 2025, the government announced that it will include nature restoration projects at a one-to-one scale with infrastructure projects in the proposals for the Planning and Infrastructure Bill in 2025.⁵¹⁹⁸ Through this initiative, the government will set up a Nature Restoration Fund to assist construction projects with meeting their environment recovery responsibilities. Natural England and similar bodies will ensure the implementation of land and species restoration strategies that are unable to be initiated by construction projects independently.

⁵¹⁹⁸ Planning proposals to unblock vital infrastructure and drive nature's recovery, Department for Environment, Food & Rural Affairs, Ministry of Housing, Communities and Local Government, The Rt Hon Angela Rayner MP and The Rt Hon Steve Reed OBE MP (London) 22 January 2025. Access Date: 27 March 2025. <https://www.gov.uk/government/news/planning-proposals-to-unblock-vital-infrastructure-and-drive-natures-recovery>

Funding of GBP70 million to support these 150 infrastructure projects will also work towards the improvement and implementation of effective land and species protection strategies.

On 28 January 2025, the government extended the scope of the Ivory Act to include hippopotamuses, narwhals, killer whales and sperm whales under its strict legal protections.⁵¹⁹⁹ The Ivory Act bans the trading and dealing of items containing ivory from the animals under its protections and punishes offenders of this act with an unlimited fine or up to five years in jail.

On 28 February 2025, the UK's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵²⁰⁰ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 28 February 2025, the government announced the release of Eurasian beavers into the wetland ecosystems of England.⁵²⁰¹ Beavers are considered a keystone species as they support wetland habitats and other species residing in them and construct natural flood defenses such as dams and canals, which remove pollutants from the water as well as carbon-catching ponds.

On 6 March 2025, Natural England declared the taking of birds of prey from the wild as non-essential for falconry and aviculture practices.⁵²⁰² The Department for Environment, Food & Rural Affairs endorsed this recommendation to grant wild-take licenses to falconry communities only under exceptional circumstances. This initiative will protect vulnerable bird species in wild habitats from being disturbed and potentially subjected to illegal exportation. This initiative aligns with Goal A of the KM-GBF.

On 10 March 2025, the government pledged to restore Windermere Lake through sewage pollution reduction innovations and increased maintenance of water treatment plants.⁵²⁰³ An investment of GBP200 million from United Utilities will upgrade Windermere wastewater treatment plants, along with a GBP11 million fund provided by the government for local schemes to clean up waterways. This initiative will restore the lake's water quality, protect the existing biodiversity and increase climate change resilience.

On 10 March 2025, the government enacted a joint research project to combat River Wye's water quality concerns, namely the decline in wildlife and extreme pollution.⁵²⁰⁴ Water Minister Emma Hardy announced funding of GBP100 billion from the private sector to improve infrastructure and conduct the research program to find ways to improve water quality, recover the degraded ecosystems in the river and put in place landscape-scale intervention measures.

⁵¹⁹⁹ Ivory Act protections come into force for four more species, Department for Environment, Food & Rural Affairs and Mary Creagh CBE MP (London) 28 January 2025. Access Date: 27 March 2025. <https://www.gov.uk/government/news/ivory-act-protections-come-into-force-for-four-more-species>

On 21 March 2025, all four UK Governments announced a new UK National Action Plan on Pesticides which aims to reduce the pesticides' harmful impact on the environment by 10 per cent by 2030.⁵²⁰⁵ This initiative aims to increase the use of sustainable pesticides, allowing key pollinators, such as bees, to flourish in agricultural environments.

On 31 March 2025, the UK Government set out plans to ban the burning of heather and other vegetation on peatlands.⁵²⁰⁶ This initiative allows peatlands to more efficiently perform as carbon stores, improve their water quality and support the existing wildlife within peatland habitats. The government pledged GBP400 million towards tree-planting and the restoration of peatlands across the country.

On 5 April 2025, the Forest Research agency mapped England's non-woodland trees for the purpose of supporting conservation groups and locals to make tree planting efforts more effective and provide better supported habitats for local wildlife.⁵²⁰⁷ This effort is supported by the government's GBP400 million pledge towards the Nature for Climate Fund.

On 18 April 2025, the National Oceanography Center signed a Memorandum of Understanding with Saudi Arabia's National Center for Wildlife to facilitate collaboration on marine biodiversity.⁵²⁰⁸ The partnership will employ advanced technologies to monitor and protect at-risk marine species.

On 22 April 2025, the government pledged GBP7 million to the Food and Agriculture Organization's Accelerating Innovative Monitoring for Nature Restoration (AIM4NatuRe).⁵²⁰⁹ AIM4NatuRe will build capacities for monitoring and reporting around global efforts to restore ecosystems.

On 6 May 2025, Forest Research, the research agency of the Forestry Commission, announced 17 joint research projects between the Royal Botanic Gardens and the Centre for Forest Protection to protect treescapes vulnerable to climate change and pests and diseases as a part of the Government's Plan for Change.⁵²¹⁰

On 10 May 2025, Natural England announced the launch of the England Peat Map, the most in-depth peatland map in England, to support the protection and restoration of the ecosystem through land use practices and targeted conservation efforts.⁵²¹¹

On 12 May 2025, scientists at Natural England released a detailed map of England's peatlands to provide key decision makers with a better understanding of peatland conditions, their carbon emissions and the balance of

⁵²¹¹ England's peatlands mapped for first time in major step towards their recovery, Natural England (York) 12 May 2025. Access Date: 1 July 2025. <https://www.gov.uk/government/news/englands-peatlands-mapped-for-first-time-in-major-step-towards-their-recovery>

biodiversity within peatland habitats.⁵²¹² Nature Minister Mary Creagh announced a fund of GBP400,000,000 towards the restoration of nature, including peatlands, in accordance with the Plan for Change. This initiative is in line with the KM-GBF 2050 vision of biodiversity, including Goal A – Protect and Restore, Goal B – Prosper with Nature, and Goal D – Invest and Collaborate.

On 13 May 2025, Natural England announced the creation of the Bradford Pennine Gateway National Nature Reserve, one of the newest national nature reserves, to protect several priority habits and endangered wildlife.⁵²¹³

On 21 May 2025, the Environment Agency announced a collaboration with the Centre for Environment, Fisheries and Aquaculture Science (CEFAS) to find alternative water sampling methods which will protect vulnerable Atlantic Blue Mussel populations.⁵²¹⁴ Replacement methods utilizing passive sampler devices are being trialed as part of the Coastal Health, Livelihoods and Environment Shared Outcomes Fund project. This initiative aligns with KM-GBF 2050 vision of biodiversity including Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 23 May 2025, the Environment Agency in partnership with the Hull’s Dynamic Drains began the next phase of the Hull water project to transform urban watercourses in Yorkshire and improve wildlife habitats.⁵²¹⁵

On 28 May 2025, Minister of State at the Department for Environment, Food and Rural affairs Daniel Zeichner announced a GBP30 million funding scheme to boost habitat restoration and environmental protection efforts by farmers as a part of the Higher Level Stewardship (HLS) scheme.⁵²¹⁶

On 28 May 2025, the Environment Agency announced the river restoration project of River Gade in Gadebridge Park to include an ultrasonic structure to improve wildlife habitats and facilitate the movement of fish and mammals.⁵²¹⁷

On 30 May 2025, Natural England announced the eighth National Nature Reserve in the King’s Coronation Series as part of the UK Government’s Plan for Change.⁵²¹⁸ This reserve site hosts key species such as Man and Lady orchids, Maidstone mining bees, Hazel dormouse and skylarks, wildflower meadows and grasslands, as well as a carbon-negative vineyard. This initiative is in line with KM-GBF 2050 vision of biodiversity including Goal A – Protect and Restore and Goal B – Prosper with Nature.

On 3 June 2025, Environment Agency Fisheries Team Leader Peter Gray announced a research project to monitor the development of critically endangered glass eels residing in nine locations along the Kennet chalk

⁵²¹² England’s peatlands mapped for first time in major step towards their recovery, Natural England (York) 12 May 2025. Access Date: 8 July 2025. <https://www.gov.uk/government/news/englands-peatlands-mapped-for-first-time-in-major-step-towards-their-recovery>

⁵²¹⁸ Historic Garden of England protected with new sparkling National Nature Reserve, Department for Environment, Food & Rural Affairs and Mary Creagh CBE MP (London) 30 May 2025. Access Date: 8 July 2025. <https://www.gov.uk/government/news/historic-garden-of-england-protected-with-new-sparkling-national-nature-reserve>

stream after their relocation in April.⁵²¹⁹ This project is in line with KM-GBF 2050 vision for biodiversity Goal A – Protect and Restore.

On 9 June 2025, the UK Government outlined plans to ban bottom trawling, a destructive fishing method involved large nets dragged along the sea floor, in an additional 40 Marine Protected Areas (MPAs).⁵²²⁰ This ban aims to protect marine species residing in a wide range of marine habitats such as on the seabed or sandbanks and allow the seabed to recover from previous harm caused by bottom trawling. This initiative shows the Government’s commitment to protect 30 percent of the ocean by 2030 and meets Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 10 June 2025, Marine Minister Emma Hardy announced the introduction of a bill later this year to ratify the High Seas Treaty.⁵²²¹ This agreement will allow for the first legal creation of MPAs in international waters outside of UK national jurisdiction for the purpose of recovering affected marine life, enhancing resilience against unsustainable fishing methods and protecting key species such as sharks, whales and sea turtles. This initiative meets KM-GBF 2050 vision for biodiversity Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

On 17 June 2025, the British Embassy Guatemala City announced the UK Government and The Nature Conservancy Guatemala’s joint support of the Zunil-Atitlán-Balam Juyu sustainable development corridor in Guatemala.⁵²²² Key efforts within this project include the establishment of protected areas and measures to benefit conservation, protection of local biodiversity and reduction of local poverty by involvement of communities in related industries such as beekeeping and sustainable forest management. These points are in line with KM-GBF 2050 vision for biodiversity Goal A – Protect and Restore, Goal B – Prosper with Nature, Goal C – Share Benefits Fairly and Goal D – Invest and Collaborate.

On 26 June 2025, the Environment Agency announced a collaborative operation with Acumen Waste Services Ltd to remove 30,000 tones of harmful waste from Hoad’s Wood woodlands.⁵²²³ This initiative aims to restore the wildlife sanctuary and aligns with KM-GBF 2050 vision for biodiversity including Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

On 27 June 2025, Natural England announced the collaborative establishment of the Wealden Heaths National Nature Reserve, the ninth National Nature Reserve of the King’s Series.⁵²²⁴ This reserve provides a habitat for rare species such as Nightjars, Sand Lizards, Adders and Natterjack Toads and additionally spans several types of habitats such as acidic grasslands, woodlands, and dry and wet heathlands. This initiative is in line with KM-GBF 2050 vision for biodiversity including Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal D – Invest and Collaborate.

⁵²¹⁹ Pilot restocking project boosts rare glass eels in the Kennet, Environment Agency (Rotherham) 3 June 2025. Access Date: 8 July 2025. <https://www.gov.uk/government/news/pilot-restocking-project-boosts-rare-glass-eels-in-the-kennet>

On 11 July 2025, the government pledged GBP500,000 to the International Advisory Panel on Biodiversity Credits, which aims to mobilise global climate financing.⁵²²⁵ The commitment contributes to KM-GBF Goal D.

On 14 July 2025, the Environment Agency began construction on an improved eel pass in Cumbria.⁵²²⁶ This pass will allow for safer migration of the endangered European eel in the River Leven. This initiative meets Goal A – Protect and Restore.

On 15 July 2025, the Environment Agency announced the completion of a new fish pass allowing for improved fish migration in a chalk stream and access to key habitats.⁵²²⁷ The Environment Agency provided funding for this project from the Water Environment Improvement Fund in partnership with Natural England, Anglian Water and other local authorities. This initiative meets Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 31 July 2025, Natural England Deputy Dive Officer Lucy May announced a planned underwater site survey of the Fal and Helford rivers to monitor kelp forest communities, coastal habitat conditions and species diversity.⁵²²⁸ Regular monitoring of kelp forests will inform conservation efforts for marine biodiversity and help manage water quality. This initiative meets Goal A – Protect and Restore.

On 3 September 2025, Special Representative for Nature Ruth Davis met with Philippine Environment Secretary Raphael Lotilla to reaffirm the nations’ partnership on climate and conservation, launched the Innovation Grant Fund in the Philippines and launched the Climate and Ocean Adaptation and Sustainable Transition (COAST) Facility.⁵²²⁹ Through COAST, local organisations will be able to apply for GBP500,000 in funding for sustainable aquaculture projects. This initiative works towards Goal D – Invest and Collaborate.

On 5 September 2025, Natural England announced the addition of Ingleborough National Nature Reserve to the King’s Series of National Nature Reserves.⁵²³⁰ This action protects 179 hectares of biodiversity-rich landscape, allowing degraded habitats to be restored and preservation of degraded species such as ferns, mosses, lichens, curlew, black grouse and ring ouzel. The King’s Series National Nature Reserve initiative works towards Goal A – Protect and Restore and Goal B – Prosper with Nature.

On 9 September 2025, the Department for Environment, Food & Rural Affairs announced the extension of the heather and grass burning ban on peatlands and pledged GBP400 million in funding for tree planting and peatland restoration.⁵²³¹ This announcement affirms actions taken towards Goal A – Protect and Restore and Goal D – Invest and Collaborate.

⁵²³¹ Burning banned on England’s deep peat to protect wildlife, Department for Environment, Food & Rural Affairs (London) 9 September 2025. Access Date: 13 October 2025. <https://www.gov.uk/government/news/burning-banned-on-englands-deep-peat-to-protect-wildlife>

On 10 September 2025, the government announced the Biodiversity Beyond National Jurisdiction bill to protect the world's ocean.⁵²³² This agreement protects marine species and ecosystems in areas beyond national jurisdiction and facilitates research on the shared use of marine organisms' genetic materials. This legislation acts towards Goal A – Protect and Restore, Goal B – Prosper with Nature and Goal C – Share Benefits Fairly.

On 11 September 2025, the Health and Safety Executive revised the guidelines for authorisation of pesticide use for emergency purposes.⁵²³³ These revised guidelines ensure the recognition of pesticide impacts on pollinators. This action work towards Goal A – Protect and Restore and Goal B – Prosper with Nature.

On 18 September 2025, Natural England announced the launch of a conservation research science hub at Lindisfarne National Nature Reserve.⁵²³⁴ The research at this hub will focus on various projects related to the reserve's landscapes, water pollution impacts, seagrass conservation, seal population monitoring, invasive species monitoring and encouraging community involvement in conservation efforts. This initiative works towards Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 3 October 2025, the Environment Agency safely released white-clawed Crayfish back into the River Wharfe.⁵²³⁵ This initiative supported the native crayfish population against the invasive American signal crayfish. This initiative works towards Goal A – Protect and Restore.

On 3 October 2025, Environment Secretary Emma Reynolds announced over GBP10,000,000 in funding from the Water Restoration Fund for 51 floodplains restoration and rewilding projects.⁵²³⁶ The funds come from water company fines to remedy sewage pollution. This initiative works towards Goal D – Invest and Collaborate.

On 9 October 2025, the government announced GBP35,000,000 in funding across 80 projects spanning 38 developing countries and 12 UK Territories for the purpose of protecting vital landscapes, restoring degraded ecosystems and improving the livelihoods of indigenous communities.⁵²³⁷ This funding initiative works towards Goal A – Protect and Restore, Goal B – Prosper with Nature, Goal C – Share Benefits Fairly and Goal D – Invest and Collaborate.

On 31 October 2025, G7 members under Canada's 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁵²³⁸ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best

⁵²³⁸ G7 Water Coalition Workplan, G7 (Kananaskis) 31 October 2025. Access Date: 12 November 2025. <https://g7.canada.ca/en/news-and-media/news/g7-water-coalition-workplan>

practice principles and barriers to biodiversity conservation including “conserving, protecting, restoring, and building resilience” for ecosystems. This initiative aligns with Goal A and D.

The United Kingdom has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. The UK has acted to preserve at-risk and vulnerable species through enforcement of special licensing and expanding legislation. It has also established and funded initiatives to restore degraded marine and land environments, support existing wildlife species, and protect vulnerable species that have been reintroduced to their native environments. It has taken strong action to advance Goal A, Goal B and Goal D of the KM-GBF 2050 vision of biodiversity.

Thus, the United Kingdom receives a score of +1.

Analyst: Khabish Kaur

United States: -1

The United States has failed to comply with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 2 December 2024, the National Fish and Wildlife Foundation announced 61 grants, totalling USD122.4 million in public and private funds, for conservation projects.⁵²³⁹ Grants were designated to support the protection and conservation of land and water, to the benefit of endangered species.

On 12 December 2024, the United States Agency for International Development (USAID) partnered with Indonesia’s Ministry of Forestry to host the Orangutan Symposium.⁵²⁴⁰ The symposium convened various actors to build strategies for the protection of orangutans in Indonesia.

On 20 January 2025, President Donald Trump ordered expanded water access and resource extraction.⁵²⁴¹ Protections for sensitive habits in the Sacramento-San Joaquin Delta and the State of Alaska, in particular, were weakened through this order.⁵²⁴²

On 20 January 2025, the administration of President Trump declared a “national energy emergency”, allowing it to fast-track environmental permitting processes and bypass provisions of the Endangered Species Act (ESA).⁵²⁴³ The declaration facilitates the expansion of otherwise prohibited activities in critical habitats.

On 20 February 2025, the Department of Government Efficiency laid off around 6000 employees from the US Department of Agriculture, including specialized staff responsible for inspecting plants and food imports.⁵²⁴⁴ The resultant reduced inspection capacities raise risks of invasive species entering national ecosystems.

⁵²⁴⁴ Here are all the agencies that Elon Musk and DOGE have been trying to dismantle so far, ABC News (New York) 27 February 2025. Access Date: 25 March 2025. <https://abcnews.go.com/Politics/elon-musks-government-dismantling-fight-stop/story?id=118576033>

On 3 February 2025, the Trump administration ordered the closure of the USAID freezing large sums of environmental funding previously supplied to recipient countries.⁵²⁴⁵ The closure undermines the United States' contributions to international biodiversity financing.

On 20 February 2025, the Department of Government Efficiency laid off around 6000 employees from the US Department of Agriculture, including hundreds of specialized staff responsible for inspecting plants and food imports.⁵²⁴⁶ The resultant reduced inspection capacities raise concerns that food products or plants could rot at ports, increasing the risk of invasive species entering the country, threatening domestic biodiversity.

On 1 March 2025, President Trump announced “Immediate Expansion of American Timber Production” to strengthen the US timber industry, reducing reliance on foreign imports and improving overall forest ecosystem health through enhanced land management practices.⁵²⁴⁷ However, the Trump administration failed to release public information on forest protections, undermining wildlife conservation efforts.⁵²⁴⁸

On 10 April 2025, the Trump administration announced the dismantling of the Interagency Grizzly Bear Research Team, responsible for long-term research efforts on grizzly bears in the Greater Yellowstone and the Northern Continental Divide ecosystems.⁵²⁴⁹ This initiative threatens federal protections for grizzly bears and undermines ongoing research efforts for endangered species and ecosystems.

On 16 April 2025, the Fish and Wildlife Service and National Marine Fisheries Service proposed new rules to limit the protections afforded to endangered species.⁵²⁵⁰ The change open the habitats of endangered species to greater industrial activity, threatening habitat and species biodiversity.

On 17 April 2025, the Fish and Wildlife Service, Department of the Interior, the National Oceanic and Atmospheric Administration and the Department of Commerce announced the rescinding the definition of “harm” in the Endangered Species Act regulations.⁵²⁵¹ This initiative eliminates wildlife habitat protections and species decline, threatening biodiversity and protected ecosystems.⁵²⁵²

⁵²⁵¹ Rescinding the Definition of “Harm” Under the Endangered Species Act, Federal Register (Washington D.C.) 17 April 2025. Access Date: 1 July 2025. <https://www.federalregister.gov/documents/2025/04/17/2025-06746/rescinding-the-definition-of-harm-under-the-endangered-species-act>

⁵²⁵² Scientists, Legal Experts Urge Halt to Trump Assault on Imperiled Wildlife Habitat, Center for Biological Diversity (Washington D.C.) 19 May 2025. Access Date: 1 July 2025. <https://biologicaldiversity.org/w/news/press-releases/scientists-legal-experts-urge-halt-to-trump-assault-on-imperiled-wildlife-habitat-2025-05-19>

On 28 April 2025, the government dismissed all contributors to the sixth National Climate Assessment.⁵²⁵³ The assessment acts as a guide for federal and local governments on how to respond to the effects of climate change. The multi-year, peer-reviewed assessment was set to be published in 2028.

On 22 May 2025, the House of Representatives passed a bill to dismantle the Inflation Reduction Act (IRA) of 2022.⁵²⁵⁴ The bill threatens to reverse the progress made in reducing US greenhouse gas emissions by terminating tax credits for renewable energy projects, electric vehicles and other clean energy technologies. This action opposes Goal D – Invest and Collaborate of the KM-GBF 2050 vision for biodiversity.

On 29 July 2025, the Department of Energy issued a report to overturn a 2009 scientific finding regarding the human causes of climate change.⁵²⁵⁵ This action is directly antithetical to Goal B – Prosper with Nature of the KM-GBF 2050.

On 15 September 2025, staff from the Center for Biological Diversity reported the construction of a new segment of border wall on a biodiversity hotspot along the Arizona-Mexico border.⁵²⁵⁶ This construction obstructs migration for dozens of species which roam across the border. This action opposes Goal A – Protect and Restore and Goal B – Prosper with Nature of the KM-GBF 2050.

On 31 October 2025, G7 members under Canada’s 2025 G7 Presidency announced the G7 Water Coalition Workplan.⁵²⁵⁷ The Workplan covers a 3-year period between 2025 to 2028, advancing intergovernmental action and supporting technical exchange to support international water efforts. It identifies areas to expand integrated approaches that acknowledge the interconnections between water and ecosystems. Further, it discusses best practice principles and barriers to biodiversity conversation including “conserving, protecting, restoring, and building resilience” for ecosystems. This initiative aligns with Goal A and D.

The United States has failed to comply with its commitment to the swift, full, and effective implementation of the KM-GBF. The administration has retracted key environmental protections, scrapped climate and biodiversity-oriented programs, cut necessary staffing and funding sources, and retreated from international accords. These actions undermine the country's ability to meet its obligations in the face of the climate crisis, loss of biodiversity and environmental justice.

Thus, the United States receives a score of –1.⁵²⁵⁸

African Union: +1

The African Union has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 3 December 2024, the African Union Network of Centres of Excellence in Fisheries, Aquaculture and Aquatic Biodiversity began its second meeting, which focused on the importance of sustainable aquaculture in African fisheries.⁵²⁵⁹ This meeting, which brought together important regional actors and international stakeholders, served to reaffirm the African Union's strong commitment to protecting marine ecosystems and biodiversity through sustainable resource management, as well as its fight against aquatic pollution and illegal fishing practices.

On 4 December 2024, the African Union Inter-African Bureau for Animal Resources (AU-IBAR) began a Technical Coordination Committee in Addis Ababa for its Fisheries Governance Project (FishGov 2).⁵²⁶⁰ The African Union and its partners reinforced their shared commitment to sustainable aquaculture.

On 6 December 2024, AU-IBAR organized a meeting with regional partners and key stakeholders to discuss the FishGov 2 project.⁵²⁶¹ This session produced various recommendations for the implementation of this project and reaffirmed the importance of regional collaboration to pursue a sustainable future in aquaculture.

On 16 December 2024, AU-IBAR and members of the International Coalition of Working Equines signed a Memorandum of Understanding reaffirming their commitment to protecting donkey species.⁵²⁶² By focusing on the escalating donkey skin trade, this partnership intends to promote animal welfare and the sustainable management of natural resources.

On 9 January 2025, representatives of the African Union Member States gathered at the Comprehensive Africa Agriculture Development Programme (CAADP) Extraordinary Summit in Kampala, Uganda.⁵²⁶³ This summit launched the CAADP 10-year Strategy and Action Plan, which promotes the sustainable management of livestock and marine resources in order to preserve Africa's natural ecosystems and agricultural economy.

On 16 January 2025, AU-IBAR signed a Memorandum of Understanding with the Fisheries Transparency Initiative in order to improve the quality and distribution of data regarding fisheries management.⁵²⁶⁴ By allowing this data to be made publicly available, this initiative aims to reduce overfishing and illegal maritime activities, thus allowing for a sustainable future for marine ecosystems.

On 30 January 2025, Director of AU-IBAR Huyam Salid led a discussion with regional experts and policymakers called “FISH-FRIENDLY: Policy Innovations for Sustainable Fisheries and Aquaculture in Africa.”⁵²⁶⁵ This dialogue, taking place during the 15th Malabo Montpellier Forum, emphasized the importance of conserving marine biodiversity, particularly by targeting the issues of overfishing and habitat degradation.

On 18 February 2025, AU-IBAR organized a preparatory meeting with representatives from the African Union, several AU member states and the University of Cape Coast in anticipation of the 4th Biennial Conference on Fisheries and Coastal Environment in the coming months.⁵²⁶⁶ The participants noted the role of sustainable aquaculture in furthering the economic development of the African continent.

On 19 February 2025, AU-IBAR joined various regional stakeholders at the National Stakeholders Consultative Meeting in Antananarivo, Madagascar.⁵²⁶⁷ The meeting focused on the sustainable management of the countries’ Marine Protected Areas. AU-IBAR Fisheries and Aquatic Resources Management Expert Rafik Noualli emphasized the importance of scientific research on aquatic ecosystems such as coral reefs, which would inform future approaches to marine conservation. AU-IBAR illustrated its commitment to promoting biodiversity initiatives and conservation efforts in all AU member states.

On 25 February 2025, AU-IBAR collaborated with the Government of Cameroon to host a two-day National Consultative Workshop on Gender Mainstreaming in Aquatic Biodiversity Conservation and Environmental Management in Yaoundé, Cameroon.⁵²⁶⁸ This meeting gathered various regional actors and stakeholders to support Cameroon in implementing gender equality objectives within its marine conservation efforts and worked towards amplifying women’s voices in the development of Africa’s blue economy project.

On 27 February 2025, the African Union Development Agency (AUDA-NEPAD) provided funding support to the African Group of Negotiators during several UN Biodiversity Conferences which took place in Rome, Italy.⁵²⁶⁹ Through this support, AUDA-NEPAD has ensured that Africa remains an important figure in global biodiversity discussions, particularly to ensure more inclusive and sustainable financing mechanisms that promote the continent’s environmental needs.

On 28 February 2025, the AUDA-NEPAD along with participating government delegations at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the KM-GBF.⁵²⁷⁰ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention’s financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 25 March 2025, AU-IBAR began a National Stakeholders' Consultative and Validation Workshop in collaboration with South Sudan, which took place in Juba.⁵²⁷¹ AU-IBAR gathered key stakeholders to create recommendations for the sustainable development and management of South Sudan's fisheries, in accordance with the African Union Policy Framework and Reform Strategy for Fisheries and Aquaculture.

On 7 April 2025, AU-IBAR and AUDA-NEPAD organized the 3rd Awareness Enhancing Workshop on the Importance of Fisheries, Aquaculture and Blue Economy in Africa's Socio-Economic Development, taking place in Johannesburg, South Africa.⁵²⁷² Through the involvement of key regional actors, this workshop strived to increase awareness about the importance of sustainable resource management and the need for increased investment in aquaculture initiatives.

On 7 April 2025, AU-IBAR began a four-day meeting in Ouagadougou, Uganda, to discuss the creation of a Pan-African Donkey Strategy.⁵²⁷³ The participants, composed of representatives from Regional Economic Communities, AU member states and animal welfare groups, proposed initiatives to address the growing donkey skin trade and facilitate the conservation of donkey species in Africa.

On 15 April 2025, AU-IBAR participated in organizing a National Consultative Workshop in Dakar, Senegal, to establish guidelines for the management of the country's Marine Protected Areas (MPAs).⁵²⁷⁴ This workshop, organized in collaboration with the Ministry of Fisheries and Maritime Affairs of Senegal, emphasized the role of MPAs in ensuring the conservation of aquatic biodiversity within the wider framework of the Africa Blue Economy Strategy.

On 17 April 2025, AU-IBAR Expert Rafik Nouaili attended the second edition of the Forum of Young Africans on the Blue Economy in Toliara, Madagascar.⁵²⁷⁵ This event, attended by over 1,000 participants, aimed to promote youth engagement in the management and conservation of Africa's aquatic resources and illustrated AU-IBAR's commitment to incorporating youth voices into biodiversity policies.

On 23 April 2025, AU-IBAR and AUDA-NEPAD arranged the 5th Internal Coordination Meeting of the FishGov2 project and were joined by regional stakeholders to begin creating a proposal for the future management of fisheries and aquaculture food systems.⁵²⁷⁶ Following a reflection on the results of previous initiatives, the meeting paved the way for creating a potential FishGov3 proposal, which would allow for the continued conservation of Africa's aquatic ecosystems.

On 29 April 2025, AU-IBAR hosted a workshop with relevant stakeholders to discuss the development of the Continental Strategy for Mainstreaming Gender in Aquatic Biodiversity Conservation and Environmental

Management, with support from the Swedish International Development Cooperation Agency.⁵²⁷⁷ The workshop featured expert presentations, including one from the Swedish Agency for Marine and Water Management, resulting in the creation of tangible goals to promote equitable gender participation in biodiversity initiatives on the continent.

On 2 May 2025, AU-IBAR donated a batch of aquaculture lab equipment valued at USD55,266 to the University of Ibadan, which is a designated AU Centre of Excellence in Fisheries and Aquaculture.⁵²⁷⁸ As part of the wider FishGov2 initiative, this donation promotes the sustainable management of Africa's aquatic resources and highlights the African Union's commitment to research and capacity building to protect the continent's biodiversity.

On 5 May 2025, the African Union officially launched the Kampala CAADP Strategy and Action Plan (2026-2035), which aims to promote sustainable agricultural development in the continent.⁵²⁷⁹ African Union Commissioner for Agriculture, Rural Development, Blue Economy and Sustainable Environment H.E. Moses Vilakati stated that adopting this plan would promote biodiversity objectives and facilitate the restoration of key ecosystems.

On 12 May 2025, AU-IBAR announced that it would host the Second Pan African Donkey Conference in Abidjan, Côte d'Ivoire, from 26-27 June 2025.⁵²⁸⁰ This conference, organized with various partners including the Government of Côte d'Ivoire and the UN Food and Agriculture Organization, aimed to facilitate dialogue on donkey preservation and animal welfare in Africa, specifically focusing on the negative ramifications of the donkey skin trade.

On 16 May 2025, AU-IBAR participated in the 7th World Bee Day hosted in Kenya, which celebrates the crucial role that bees and other pollinators play in the continent's biodiversity.⁵²⁸¹ AU-IBAR's representative Annie Lewa emphasized the importance of sustainable apiculture practices, to preserve bee species and promote food security. This action aligns with Goal A – Protect and Restore.

On 22 May 2025, Ministers of Foreign Affairs of Member States of the European Union and the AU concluded the 3rd Ministerial meeting where the ministers reaffirmed their commitment to tackling environmental degradation through facilitating sustainable development.⁵²⁸²

On 5 June 2025, AU-IBAR and the Swedish International Development Cooperation Agency hosted a stakeholders' workshop in Mombasa, Kenya to create a strategy for improving the environmental sustainability,

gender equality and climate change adaptation of small octopus fisheries in the Western Indian Ocean.⁵²⁸³ Participants acknowledged the vital role that these fisheries play in coastal communities and emphasized the importance of sustainable practices to ensure that these resources are managed adequately. This action thus corresponds with Goal B – Prosper with Nature.

On 10 June 2025, AU-IBAR and the FAO began the Regional Forum on Sustainable Livestock Transformation in Africa, which took place in Nairobi, Kenya, focusing on sustainable practices and climate resilience in the continent's livestock sector.⁵²⁸⁴ In light of the International Year of Camels, the forum emphasized the cultural and social importance of camelids in African communities and highlighted the need for sustainable management of livestock resources to protect these species. This action aligns with Goal C – Share Benefits Fairly.

On 16 June 2025, AU-IBAR and the FAO began hosting capacity building workshops in Uganda, Zambia, Nigeria and Eswatini with the aim of understanding and improving data collection practices for genetic resources.⁵²⁸⁵ Through the framework of the Global Plan of Action on Animal Genetic Resources, this workshop focused on the collection of breed population information in order to better identify extinction threats. As such, this action falls under Goal C – Share Benefits Fairly.

On 16 June 2025, AU-IBAR, in collaboration with the Zambian Ministry of Fisheries and Livestock, held a consultation workshop with regional stakeholders to elaborate a national aquaculture strategy that aligns with the African Union's Policy Framework and Reform Strategy for Fisheries and Aquaculture in Africa, which focuses on sustainable development of aquatic resources.⁵²⁸⁶ Over the course of four days, the participants developed policy recommendations relating to sustainability, the conservation of biodiversity and food safety. This initiative seeks to fulfill Goal D – Invest and Collaborate.

On 24 June 2025, the African Union announced its participation in the World Aquaculture Safari 2025, a three-day conference taking place in Kampala Uganda, which gathered experts and policymakers to discuss the continent's growing role in aquaculture and marine conservation.⁵²⁸⁷ Through this event, the African Union sought to push for policies that promote the sustainable management of fisheries and host capacity-building workshops to foster further understanding of the continent's goals going forward. This event aligns with Goal D – Invest and Collaborate.

On 26 June 2025, AU-IBAR and the International Coalition for Working Equids organized the Second Pan-African Donkey Conference, which gathered around 200 professionals in Abidjan, Côte d'Ivoire.⁵²⁸⁸ Among the outcomes of this meeting, Ministers from across Africa adopted a continental moratorium that prohibits donkey slaughter for skins and encourages governments to punish illegal trade. This action falls under Goal B – Prosper with Nature.

On 2 July 2025, the AU, supported by AU-IBAR and AUDA-NEPAD, organized a two-day workshop in Cape Town to develop fisheries in aquaculture strategies that conform to the continent's previous sustainability frameworks, such as the African Blue Economy Strategy.⁵²⁸⁹ This event provided AU member states with tools and methodologies to implement their own national aquaculture strategies, which is critical to sustaining coastal livelihoods and preserving marine environments. As such, this initiative aligns with Goal D – Invest and Collaborate.

On 18 July 2025, the African Union and the European Union announced the Continental Circular Economy Action Plan for Africa (2024-2034), which aims to promote environmental sustainability and climate resilience.⁵²⁹⁰ This plan seeks to support biodiversity conservation by shifting African economies to a circular framework that encourages recycling and reuse. This action aligns with Goal A – Protect and Restore.

On 22 July 2025, the African Peer Review Mechanism (APRM) and the OECD organized a high-level event on sustainable ocean management at the AU Permanent Observer Mission offices in New York.⁵²⁹¹ At this event, AUC Deputy Chairperson Selma Malika Haddadi emphasized the AU's commitment to preserving ocean health, sustainably using marine resources, and combating pollution and overfishing. This action aligns with Goal A – Protect and Restore.

On 30 July 2025, AU-IBAR hosted the Fifth Annual Dialogue with Regional Economic Communities in Naivasha, Kenya with the aim of discussing progress on the ongoing FishGov2 project and the future management of the aquaculture industry across Africa.⁵²⁹² During this meeting, participants reflected on the progress that has been made in marine sustainability and discussed future initiatives to improve food security and biodiversity conservation. This initiative aligns with Goal D – Invest and Collaborate.

On 15 August 2025, AU-IBAR and the Government of Kenya, with funding from the European Union, organized the 3rd Meeting of the Revised African Fisheries Reform Mechanism in Mombasa, Kenya.⁵²⁹³ This action aligns with Goal D – Invest and Collaborate.

On 21 August 2025, AU-IBAR oversaw a leadership workshop with the African Women Fish Processors and Traders Network in Nairobi, Kenya.⁵²⁹⁴ The workshop featured capacity-building sessions to provide women with concrete tools to actively participate in sustainable fisheries management and marine conservation initiatives across the continent. As such, this event falls under Goal D – Invest and Collaborate.

On 26 August 2025, AU-IBAR met with African and international stakeholders at a workshop in Naivasha, Kenya, with the aim of developing the Africa Common Position on Sustainable, Resilient, and Nature-Positive

Livestock Food Systems.⁵²⁹⁵ Participants reviewed Africa's existing agricultural policies, identifying gaps where biodiversity, gender and climate commitments could be addressed more effectively to promote sustainable development. Thus, this initiative aligns with Goal D – Invest and Collaborate.

On 8 September 2025, the African Union organized the second Africa Climate Summit in Addis Ababa, Ethiopia, where AU-IBAR presented its strategies to protect aquatic biodiversity by implementing marine protected areas, combatting illegal fishing and supporting gender-inclusive projects.⁵²⁹⁶ This event aligns with Goal A – Protect and Restore, and Goal D – Invest and Collaborate.

On 23 September 2025, the African Union collaborated with the UNDP to host the second iteration of Africa Blue Economy Week in Addis Ababa, Ethiopia.⁵²⁹⁷ The event brings together regional leaders, policymakers and scientific experts to discuss the conservation of aquatic resources and shape the future of Africa's blue economy policies. Therefore, this event corresponds with Goal A – Protect and Restore, as well as Goal D – Invest and Collaborate.

On 29 September 2025, Commissioner for Agriculture, Rural Development, Blue Economy, and Sustainable Environment Moses Vilakati joined various African leaders to launch the Africa Keystone Protected Area Partnership.⁵²⁹⁸ With its commitment to preserve 162 vital ecosystems across the continent, this partnership illustrates the African Union's progress towards Goal A – Protect and Restore and Goal D – Invest and Collaborate.

On 10 October 2025, AU-IBAR held a high-level meeting in Chad to support the implementation of the Pan-African Donkey Strategy, which tackles the harmful effects of the illegal donkey skin trade.⁵²⁹⁹ Participants noted the urgent threats towards the genetic diversity of donkey species, as well as the important ecological role that donkeys play in soil fertilization and the preservation of rural ecosystems. The session produced a variety of policy recommendations, including the establishment of sanctuaries to ensure the conservation and reproduction of donkey populations. Thus, this meeting aligns with Goal B – Prosper with Nature.

The African Union has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. The African Union has taken strong action to protect and restore ecosystems, through the promotion of sustainable aquaculture practices within the FishGov2 initiative and has worked towards promoting human coexistence with nature by tackling harmful practices such as the donkey skin trade. The African Union has also taken strong action towards investing in research initiatives, as it has collaborated with universities and provided research equipment to further innovation in aquaculture and fisheries. Finally, the African Union has collaborated with various governments and regional organizations to promote capacity building and policymaking workshops, which serves to promote biodiversity goals across the continent.

Thus, the African Union receives a score of +1.

European Union: +1

The European Union has fully complied with its commitment to the swift, full, and effective implementation of the Kunming-Montreal Global Biodiversity Framework (KM-GBF) adopted at the 15th Conference of the Parties (COP15) to the Convention on Biological Diversity.

On 4 December 2024, the European Research Council released a report highlighting over 300 projects in the context of the 11th plenary of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES).⁵³⁰⁰ The Council's participation in the plenary highlights its commitment to addressing the critical global challenges of biodiversity loss, climate change, pollution and social disparities resulting from them.

On 17 December 2024, DTO-BioFlow, under the Horizon Europe Framework Programme, opened its second call for marine biodiversity monitoring data.⁵³⁰¹ This project addresses the existing challenges in the collection, harmonisation, accessibility, and analysis of marine biodiversity data for policy-relevant needs and uses.

On 17 December 2024, environment ministers of the Council of the European Union reached a joint negotiating position to reduce microplastic pollution by 30 per cent before the end of 2030.⁵³⁰² EU Member States backed a plan to strengthen regulations aimed at reducing microplastics by tightening rules for companies that handle plastic pellets.

On 18 December 2024, the European Commission formally adopted the regulation on the postponement of application of the EU deforestation law by one year.⁵³⁰³ The EU Deforestation Regulation saw its compliance deadline for large companies move from 31 December 2024 to 30 December 2025.

On 8 January 2025, the Critical Ecosystem Partnership Fund (CEPF), a joint initiative of the European Union, announced its partnership with Conservation International to implement the Global Environment Facility Small Grants Program.⁵³⁰⁴ The CEPF serves to empower civil society organisations to better conserve global biodiversity hotspots.

On 20 January 2025, the European Commission reviewed its Marine Strategy Framework Directive to assess progress.⁵³⁰⁵ This framework is aimed at enhancing marine biodiversity protection and ecosystem restoration across European seas, introducing updated guidelines to reduce pollution and recommending greater investment and ambition for the design and implementation of measures for marine species and habitats restoration.

⁵³⁰⁵ Member States introduce better measures to protect coastal and marine environments, but further action needed, European Commission (Brussels) 4 February 2025. Access Date: 24 March 2025. https://environment.ec.europa.eu/news/eu-member-states-introduce-more-measures-protect-coastal-and-marine-environments-2025-02-04_en

On 7 February 2025, the European Union awarded the International Consortium on Combating Wildlife Crime (ICWC) EUR27 million to tackle organized crime networks trafficking in wildlife globally and reduce the demand driving this illicit trade.⁵³⁰⁶ The goal of this initiative is to conserve endangered species and biodiversity for future generations.

On 7 February 2025, the European Union awarded the ICWC EUR27 million to tackle organized crime networks trafficking in wildlife globally and reduce the demand driving this illicit trade.⁵³⁰⁷ This initiative aims to conserve endangered species and biodiversity for future generations.

On 7 February 2025, the European Commission adopted the eighteenth update of the list of sites of Community importance for the Atlantic biogeographical region.⁵³⁰⁸ This region comprises Ireland, the Netherlands, and parts of the Union territories of Belgium, Denmark, Germany, Spain, France and Portugal. These sites form part of the Natura 2000 network, which is an essential element of the protection of biodiversity in the European Union.

On 11 February 2025, the European Parliament approved a tuna fishing agreement with Cabo Verde.⁵³⁰⁹ This agreement allows 56 EU vessels to fish tuna and related species during the next five years, promotes the creation of a sustainable fisheries policy in Cabo Verde, and enhances the fight against illegal, unreported and unregulated fishing.

On 13 February 2025, the European Union and Mexico met at the Secretariat of Environment and Natural Resources in Mexico City to strengthen climate and environmental cooperation.⁵³¹⁰ Participants explored opportunities for closer cooperation on industrial decarbonisation, climate adaptation, biodiversity conservation and restoration and sustainable use of natural resources in line with the KM-GBF, the Paris Agreement on Climate Change and other international commitments.

On 19 February 2025, the European Commission presented its Vision for Agriculture and Food.⁵³¹¹ This roadmap targets the future of farming and food in Europe and will address food waste and societal concerns about animal welfare.

On 26 February 2025, the European Commission announced the 2025 edition of the European Business & Nature Summit.⁵³¹² This event, held in October in Helsinki, Finland, will gather leaders from the business and finance sectors to explore ways to integrate nature and biodiversity into business strategies and practices.

On 28 February 2025, the European Union's delegation along with participating governments at the extended session of COP16 released a resource mobilization strategy to protect biodiversity and advance the targets of the

⁵³¹² Save the Date: European Business & Nature Summit 2025 to be held on 23-24 October, European Commission (Brussels) 26 February 2025. Access Date: 20 March 2025. <https://green-forum.ec.europa.eu/news/save-date-european-business-nature-summit-2025-be-held-23-24-october-2025-02-26>

KM-GBF.⁵³¹³ The strategy employs a range of instruments including public and private funding, multilateral development banks, and formalizes permanent arrangements for the Convention's financial mechanism. Parties to the Convention agreed to mobilize at least USD200 billion annually by 2030.

On 3 March 2025, the European Commission hosted the European Ocean Days.⁵³¹⁴ This is a week-long event about the EU's sustainable blue economy, highlighting fisheries science outcomes, showcasing blue investments and Mission Restore our Ocean and Waters actions, and including dialogues with key stakeholders.

On 4 March 2025, the European Court of Auditors published a report assessing the EU's actions tackling sea pollution by ships.⁵³¹⁵ This report contributed to the anticipated revision of the Marine Strategy Framework Directive and to improvements in EU maritime pollution checks and data.

On 6 March 2025, the European Commission published an evaluation of the Marine Strategy Framework Directive.⁵³¹⁶ The evaluation identified potential for improvement to the directive that seeks to protect marine biodiversity from pollution.

On 7 March 2025, the European Commission proposed a direct amendment of the wolf protection status under the Habitats Directive.⁵³¹⁷ This proposal follows the decision to downlist the wolf under the Bern Convention from strictly protected fauna species to protected fauna species as it has successfully recovered across the European continent.

On 12 March 2025, the European Commission published its research study titled "Mapping of Marine Protected Areas and their associated fishing activities in the Mediterranean and Black Seas."⁵³¹⁸ This study, funded under the European Maritime, Fisheries and Aquaculture Fund, provides an up-to-date overview of marine protected areas in the region.

On 27 March 2025, the Environmental Council gathered in Brussels to discuss the environmental dimension of the clean industrial deal.⁵³¹⁹ Ministers discussed ways to help EU industries to stay competitive in the net-zero transition and exchanged views on mechanisms to incentivize farmers to protect soil, water, air, nature and biodiversity.

On 31 March 2025, the European Commission hosted the 16th EU Platform on Animal Welfare.⁵³²⁰ In this meeting, European Commissioner for Health and Animal Welfare Olivér Várhelyi announced the Commission's decision to renew the EU Platform on Animal Welfare mandate until June 2030, acknowledging the importance of addressing transport, poultry and dog and cat welfare.

On 8 April 2025, the European Parliament and the Council of the European Union reached a provisional agreement on the Commission's proposal to regulate and prevent microplastic pollution from plastic pellets.⁵³²¹ The new rules are expected to reduce plastic pellet losses by up to 74 per cent, which will help preserve ecosystems and biodiversity.

On 10 April 2025, the Council of the European Union reached a provisional deal with the European Parliament on a directive establishing a framework for soil monitoring.⁵³²² This deal aims to improve soil resilience, manage the risks of contaminated sites and establish land-take mitigation principles, with a focus on soil sealing and removal.

On 15 April 2025, the European Commission introduced administrative simplifications to facilitate the implementation of the EU Deforestation Regulation.⁵³²³ The regulation will harmonise standards for reducing deforestation across European markets.

On 24 April 2025, the European Commission proposed integrating the international Biodiversity Beyond National Jurisdiction (BBNJ) Agreement into EU law.⁵³²⁴ The BBNJ Agreement aims to protect the ocean, tackle environmental degradation, fight climate change and curb biodiversity loss.

On 29 April 2025, the European Commission pledged EUR301 million in funding for ocean conservation efforts at the Our Ocean Conference.⁵³²⁵ This funding will support actions in the sustainable blue economy, marine pollution, marine protected areas, digital oceans, sustainable fisheries, ocean and climate change.

On 13 May 2025, the Polish Presidency of the Council of the European Union held the meeting of EU directors-general for nature.⁵³²⁶ In this meeting, stakeholders discussed the implementation of the EU Nature Restoration Law, including the presentation of nature recovery strategies, the visit to Kampinos National Park and the dialogue on the protection of ecosystems, the restoration of habitats for wolf populations and the employment of sustainable forest management practices to ensure diversity among species.

On 14 May 2025, the European Commission adopted the Horizon Europe work programme for 2025.⁵³²⁷ This research and innovation initiative has determined that 8.8 per cent of the budget for the year, which totals EUR7.3 billion, will be directed towards biodiversity-related projects that support the EU's climate and biodiversity conservation targets.

On 15 May 2025, the EU Common Agriculture Policy Network Thematic Group on Enhancing Biodiversity on Farmland for Improved Resilience published a briefing on biodiversity actions to provide inspiration and encourage action.⁵³²⁸ This briefing explores farming management projects executed by Member States that

restore habitats as well as policy recommendations and presents a call to action for greater investment in the sustainable farming sector.

On 15 May 2025, the European Circular Economy Stakeholder Platform, the International Union for Conservation of Nature, the European Economic and Social Committee and the European Commission Directorate-General for the Environment hosted an online accelerator session to delve into role of biodiversity credits.⁵³²⁹ This shows how the European Union looks to foster dialogue and collaboration between different stakeholders and find innovative practices for biodiversity conservation while sharing knowledge and providing capacity-building to the public.

On 22 May 2025, Ministers of Foreign Affairs of Member States of the EU and the AU concluded the 3rd Ministerial meeting where the ministers reaffirmed their commitment to tackling environmental degradation through facilitating sustainable development.⁵³³⁰

On 28 May 2025, the Directorate-General for Maritime Affairs and Fisheries ratified the Treaty of the High Seas.⁵³³¹ This action highlights the commitment of the European Union towards biodiversity preservation and the responsible use of marine resources, as well as the establishment of marine protected areas to ensure the continuity and resilience of habitats and ecosystems.

On 4 June 2025, the European Commission launched European Water Academy.⁵³³² This project is led by the Joint Research Centre and aims to increase water resilience across the EU through providing training, capacity building and forging partnerships between the public and private sector. These efforts showcase the willingness for collaboration between stakeholders and the sharing of knowledge about new technologies for restoring the water cycle and protecting marine ecosystems.

On 9 June 2025, European Commission President Ursula von der Leyen presented the European Ocean Pact at the third United Nations Ocean Conference in Nice.⁵³³³ Through this pact, the European Union will mobilize EUR40 million for the Global Ocean Programme in aims of supporting partner countries in ratifying the Agreement on Marine Biological Diversity of Areas beyond National Jurisdiction (BBNJ Agreement). This shows how the European Union is actively investing economical resources and advancing global collaboration on biodiversity matters.

On 13 June 2025, the Council of the European Union agreed on a mandate to negotiate rules that would enhance the bioavailability of forest reproductive material (FRM).⁵³³⁴ This action seeks to guarantee that FRM is genetically diverse and climate-resilient in aims of preserving populations of native species.

⁵³²⁹ Highlights of the ECESP's WCEF2025 accelerator session/EUCT on biodiversity as a catalyst for circular economy: The role of biodiversity credits, Biodiversity actions at scale for sustainable and resilient agriculture, European Circular Economy Stakeholder Platform (Brussels) 15 May 2025. Access Date: 2 July 2025. <https://www.consilium.europa.eu/en/press/press-releases/2025/06/13/improved-eu-rules-for-forest-reproductive-material-council-approves-negotiating-position/>

On 19 June 2025, the European Parliament adopted amendments on the proposal for a regulation of the European Parliament and of the Council of the European Union on the welfare of dogs and cats and their traceability.⁵³³⁵ These amendments, which recognize the threat of illegal trade of pets as a driver for biodiversity loss, include the explicit inclusion of language such as animal welfare, risk to biodiversity and enhanced cooperation between Member States to identify and dismantle illegal breeding establishments.

On 23 June 2025, the European Union held the 20th EU-Canada Summit in Brussels.⁵³³⁶ The purpose of this event was to strengthen multilateral collaboration, remarkably noting the threat of biodiversity loss and land degradation and reaffirming the commitment to the swift and full implementation of the goals contained in the KM-GBF.

On 24 June 2025, the European Council approved a new monitoring framework that would enhance the sustainable management of forests.⁵³³⁷ This framework will allow for tracking the progress made for achieving biodiversity conservation goals, provide more accurate and accessible information and introduce a data sharing mechanism which will facilitate knowledge-sharing between Member States.

On 7 July 2025, the European Commission published the Roadmap towards Nature Credits.⁵³³⁸ This framework aims to encourage private investment in nature protection and restoration actions. It also provides quality standards and rewards individuals or groups engaging in biodiversity actions.

On 8 July 2025, the European Parliament gave its consent to the EU-Greenland and Denmark Sustainable Fisheries Partnership Agreement: Implementing Protocol 2025-2030.⁵³³⁹ This binding agreement addresses the sustainable management of marine resources and their compliance with EU targets under the Biodiversity Strategy for 2030.

On 24 July 2025, the European Commission, through the Joint Research Centre, published research on the spatial-temporal assessment of the Black Sea ecosystem using the Blue2 modelling framework.⁵³⁴⁰ This tool simulates marine environments and interactions in the ecosystem to advise management strategies to preserve biodiversity.

On 15 August 2025, the EU launched the Nature Nourishes Territorial Approach for Local Development project in Sierra Leone in collaboration with the United Nations World Food Programme.⁵³⁴¹ The project aims to mitigate biodiversity loss in Sierra Leone pursuant to KM-GBF Goal A and Goal D.

⁵³⁴¹ EU and WFP Launch EUR 9 Million to Protect Biodiversity and Promote Climate-Resilient Livelihoods and Inclusive Development in Sierra Leone, Delegation of the European Union to Sierra Leone (Freetown) 15 August 2025. Access Date: 19 October 2025. https://www.eeas.europa.eu/delegations/sierra-leone/eu-and-wfp-launch-eur-9-million-protect-biodiversity-and-promote-climate-resilient-livelihoods-and_en

On 22 August 2025, the EU publicly announced the selection of 13 projects in which it will invest EUR116 million to restore oceans and waters.⁵³⁴² The selected projects focus on the preservation of offshore marine protected areas, restoration of habitats of migratory fish in the Danube area and the reduction of the environmental impact of fisheries on species and habitats.

On 9 September 2025, the European co-funded biodiversity partnership, Biodiversa+, launched a call for research on biodiversity conservation and ecosystem restoration with a budget of approximately EUR40 million.⁵³⁴³ Through increased knowledge, the EU aims to revisit restoration targets, scale nature restoration efforts and guarantee greater resilience of restoration efforts.

On 23 September 2025, the Council of the EU and the European Parliament reached a provisional agreement to update the list of priority pollutants in surface water and groundwater.⁵³⁴⁴ This deal entails the review of current environmental quality standards for several pollutants and the addition of new ones to the list. This action highlights how the EU is better monitoring and addressing harmful substances for marine ecosystems.

On 30 September 2025, Copernicus Marine Service of the EU Space Programme published the ninth edition of the Copernicus Ocean State Report.⁵³⁴⁵ This report provides insights into the state and natural variations of global oceans while describing advanced monitoring tools for marine ecosystems to track environmental factors, species and trends.

The European Union has fully complied with its commitment to the swift, full, and effective implementation of the KM-GBF. The European Union has taken strong action across most of the key components of the commitment, including halting biodiversity loss, preserving at-risk species, and restoring degraded ecosystems. The European Union has invested in biodiversity research to inform its policies, has reviewed its existing regulations and measures to assess their effectiveness, has committed to reducing wildlife trafficking and illegal fishing, and strengthened collaboration with other states to preserve the natural environment and species. It has advanced all four goals of the KM-GBF 2050 vision of biodiversity.

Thus, the European Union receives a score of +1.

Background

Health has been on the G20 agenda since 2009, with G20 leaders recognizing the importance of social safety nets and access to healthcare to support sustainable economic growth and resilience.⁵³⁴⁶ During the Ebola Virus Outbreak in 2014, G20 leaders began prioritizing health objectives, committing to strengthening health systems and addressing infectious diseases and antimicrobial resistance.⁵³⁴⁷ G20 leaders have also demonstrated their commitment to universal health coverage since 2017, taking strong action to strengthen public health preparedness, increase access to effective and equitable medical countermeasures, implement the One Health approach and address prominent diseases such as Covid-19, AIDS, polio, tuberculosis and malaria.⁵³⁴⁸ In doing so, the G20 has consistently recognized the importance of the World Health Organization (WHO) and other international institutions in addressing health hazards and strengthening health systems and governance.

⁵³⁴⁶ G20 Leaders Statement: The Pittsburgh Summit, G20 Information Centre (Toronto) 24 September 2009. Access Date: 6 March 2025. <https://www.g20.utoronto.ca/2009/2009communiqu0925.html>

⁵³⁴⁸ G20 Leaders’ Declaration: Shaping an Interconnected World, G20 Information Centre (Toronto) 8 July 2017. Access Date: 6 March 2025. <https://www.g20.utoronto.ca/2017/2017-G20-leaders-declaration.html>

At the 2009 Pittsburgh Summit, G20 leaders acknowledged the importance of investing in healthcare and social safety nets to support people and Sustainable Economic Activity.⁵³⁴⁹

At the 2010 Toronto Summit, G20 leaders reaffirmed strengthening social safety nets including public health care, recognizing the importance of social protection for economic resilience and growth stability.⁵³⁵⁰

At the 2013 St. Petersburg Summit, G20 leaders encouraged enhanced compliance with the WHO's International Health Regulations.⁵³⁵¹ The leaders noted the importance of these regulations to respond quickly and effectively to disease outbreaks.

At the 2014 Brisbane Summit, G20 leaders committed financial assistance, medical personnel and countermeasures such as medicines, treatments and equipment to address the Ebola Virus outbreak in Guinea, Liberia and Sierra Leone.⁵³⁵² G20 leaders also called on the World Bank Group and International Monetary Fund to increase their efforts to support countries affected by Ebola, while encouraging multi-stakeholder public-private partnerships to address the outbreak. Additionally, the leaders recognized the importance of strengthening global health systems to improve preparedness and capabilities to respond to infectious diseases and antimicrobial resistance.

At the 2015 Antalya Summit, G20 leaders acknowledged the importance of addressing “global health risks, such as antimicrobial resistance, infectious disease threats and weak health systems.”⁵³⁵³ G20 leaders also committed to finalizing a plan for coordinated international response to health risks within one year.

At the 2016 Hangzhou Summit, G20 leaders reiterated their commitment to addressing antimicrobial resistance (AMR) which is a significant public health concern.⁵³⁵⁴ They affirmed the need for research, development and coordination to address AMR and encouraged the work of the WHO, Food and Agriculture Organization of the United Nations and World Organisation for Animal Health on this issue.

At the 2017 Hamburg Summit, G20 leaders reaffirmed their commitment to strengthen health systems and support universal health coverage in accordance with the United Nations 2030 Agenda.⁵³⁵⁵ In this regard, G20 leaders emphasized the need for cooperation and research and development to ensure “efficient prevention, preparedness and response efforts.” The leaders also encouraged sustainable and rapid funding to strengthen health systems and support the WHO's Health Emergencies Programme.

At the 2018 Buenos Aires Summit, G20 leaders reaffirmed their pledge to strengthen health systems by improving their affordability and quality in accordance with universal health coverage.⁵³⁵⁶ G20 leaders also committed to strengthening the public health emergency “prevention, detection and response” rates in line with the WHO's International Health Regulations.

⁵³⁵⁴ G20 Leaders' Communiqué: Hangzhou Summit, G20 Information Centre (Toronto) 5 September 2016. Access Date: 6 March 2025. <https://www.g20.utoronto.ca/2016/160905-communique.html>

⁵³⁵⁵ G20 Leaders' Declaration: Shaping an Interconnected World, G20 Information Centre (Toronto) 8 July 2017. Access Date: 6 March 2025. <https://www.g20.utoronto.ca/2017/2017-G20-leaders-declaration.html>

⁵³⁵⁶ G20 Leaders' Declaration: Building Consensus for Fair and Sustainable Development, G20 Information Centre (Toronto) 1 December 2018. Access Date: 6 March 2025. <https://www.g20.utoronto.ca/2018/2018-leaders-declaration.html>

At the 2019 Osaka Summit, G20 leaders committed to strengthen public health preparedness strategies through increasing medical personnel and financing innovative technologies in the public and private sector.⁵³⁵⁷ G20 leaders also reaffirmed their commitment to offer financial and technical support to countries suffering from Ebola, polio, AIDS, tuberculosis and malaria.

At the 2020 Riyadh Summit, G20 leaders committed to mobilizing resources to provide financial assistance for the “research, development, manufacturing, and distribution of safe and effective COVID-19 diagnostics, therapeutics and vaccines” as a part of the Covid-19 preparedness and response strategy.⁵³⁵⁸ G20 leaders also pledged to support collaborative efforts through the “Access to COVID-19 Tools Accelerator (ACT-A) initiative” and other similar initiatives.

At the 2021 Rome Summit, G20 leaders pledged to “vaccinating at least 40 percent of the population in all countries by the end of 2021 and 70 percent by mid-2022” as a part of the global vaccination strategy.⁵³⁵⁹ G20 leaders also committed to increasing the supply of medical countermeasures and vaccines in developing countries and removing financial and supply chain barriers.

At the 2022 Bali Summit, G20 leaders committed to strengthening health systems, universal health coverage and global health governance.⁵³⁶⁰ G20 leaders reaffirmed their commitment to integrating the One Health approach and surveillance technology to detect threats to human health. G20 leaders also advanced efforts to ensure “timely, equitable and universal access to safe, affordable, quality and effective vaccines, therapeutics and diagnostics” as a part of the Covid-19 immunization scheme.

At the 2023 New Delhi Summit, G20 leaders committed to strengthening global health and the One Health approach through enhancing pandemic preparedness and infectious disease surveillance strategies.⁵³⁶¹ G20 leaders also committed to facilitating equitable access to medical countermeasures including vaccines, therapeutics and diagnostics in Low- and Middle-income Countries, Least Developed Countries and Small Island Developing States.

Building on previous commitments, the 2024 Rio de Janeiro Summit focused on social inclusion and strengthening global health architecture. G20 leaders underscored the importance of coordinating “adequate, predictable, transparent, flexible and sustainable financing” for global health systems. G20 leaders committed to improving essential health services and ensuring health systems exceed pre-pandemic levels. They also pledged to “building more resilient, equitable, sustainable, and inclusive health systems.” This emphasizes a human-centered approach that also supports neglected diseases, individuals in vulnerable environments and inclusive and sustainable health coverage that advances the One Health approach.

Commitment Features

This commitment has two overarching dimensions, to be further broken down: 1) building more resilient, equitable, sustainable and inclusive health systems and 2) providing integrated people-centered health services, including mental health. G20 members must take strong action across all criteria of both dimensions for full compliance.

Definitions and Concepts

“Commit” is understood to mean “to do or perform, to pledge or bind (a person or an organization) to a certain course or policy.”⁵³⁶² In the context of this commitment, G20 members are expected to continue pledging or performing actions to support inclusive health systems.

“Building” is understood to mean “the process of creating or developing something.”⁵³⁶³

“Resilient” refers to “the ability of a system...to resist, absorb, accommodate to and recover from the effects of a hazard in a timely and efficient manner, including through the preservation and restoration of its essential basic structures and functions.”⁵³⁶⁴ Resilience, in the context of healthcare, refers to “strengthening the capacity of health actors, institutions and populations to prepare for, and effectively respond to, public health crises.”⁵³⁶⁵

“Equitable” is understood to mean “fair and just as indicated by law.”⁵³⁶⁶

“Sustainable” refers to something that is “able to be maintained or continued.”⁵³⁶⁷

“Inclusive” is understood to mean “including everything or all types of people.”⁵³⁶⁸

“Health” is understood to mean “the state of complete physical, mental and social wellbeing and not merely the absence of disease or infirmity.”⁵³⁶⁹

“Health systems” refers to “(i) all the activities whose primary purpose is to promote, restore and/or maintain health; (ii) the people, institutions and resources, arranged together in accordance with established policies, to improve the health of the population they serve, while responding to people’s legitimate expectations and protecting them against the cost of ill-health through a variety of activities whose primary intent is to improve health.”⁵³⁷⁰

“Provision” refers to “the act of providing something.”⁵³⁷¹

“Health services” are “any service[s] (i.e. not limited to medical or clinical services) aimed at contributing to improved health or to the diagnosis, treatment and rehabilitation of sick people.”⁵³⁷²

⁵³⁷² World Health Organization Health Systems Strengthening Glossary, World Health Organization (Geneva) n.d. Access Date: 4 March 2025. <https://www.who.int/docs/default-source/documents/health-systems-strengthening-glossary.pdf>

“Integrated” is understood to mean “form[ed], coordinate[d], or blend[ed] into a functioning or unified whole.”⁵³⁷³ In the context of this commitment, integrated health services are “health services that are managed and delivered so that people receive a continuum of health promotion, disease prevention, diagnosis, treatment, disease-management, rehabilitation and palliative care services, coordinated across the different levels and sites of care within and beyond the health sector and according to their needs throughout the life course.”

“People-centered” healthcare is “an approach to care that consciously adopts individuals’, carers’, families’ and communities’ perspectives as participants in, and beneficiaries of, trusted health systems that are organized around the comprehensive needs of people rather than individual diseases and respects social preferences. People-centred care also requires that patients have the education and support they need to make decisions and participate in their own care and that carers are able to attain maximal function within a supportive working environment. People-centred care is broader than patient and person-centred care, encompassing not only clinical encounters, but also including attention to the health of people in their communities and their crucial role in shaping health policy and health services.”⁵³⁷⁴

“Mental health” is defined as “a state of mental well-being that enables people to cope with the stresses of life, realize their abilities, learn well and work well and contribute to their community.”⁵³⁷⁵ Mental health services, in this regard, are “services devoted to the treatment of mental illnesses and the improvement of mental health in people with mental disorders or problems.”⁵³⁷⁶

General Interpretive Guidelines

Full compliance, or a score of +1, will be given to a G20 member that takes strong action across all criteria in both commitment dimensions. Part 1 requires strong action to build health systems that are a) more resilient, b) more equitable, c) more sustainable and d) more inclusive. Part 2 requires strong action to provide a) integrated people-centered health services, b) including mental health. Examples of strong actions include offering financial aid to support public health services; passing legislation to support universal healthcare coverage or pharmacare; cooperating with the pharmaceutical and medical technology sectors to increase the availability of medical equipment, medications or other countermeasures; allocating resources for the provision of psychological services and addiction treatment; developing programs to vaccinate populations against infectious diseases; launching programs to increase the availability of medical practitioners in underserved communities; and signing or ratifying international treaties.

Partial compliance, or a score of 0, will be assigned to a G20 member that takes strong action on at least three of the six commitment criteria or less than strong action across at least four of the six criteria. Examples of less than strong actions include verbal reaffirmations for inclusive health systems, such as releasing statements, or participating in meetings where the topic is discussed, other diplomatic efforts.

Non-compliance, or a score of -1, will be assigned to a G20 member that fails to take action on any commitment criteria, only takes weak action across three or less criteria, or takes action that is directly and explicitly antithetical to the commitment.

⁵³⁷⁵ Mental health, World Health Organization (Geneva) n.d. Access Date: 4 March 2025. <https://www.who.int/health-topics/mental-health>

⁵³⁷⁶ Mental health care, Collins Dictionary (Glasgow) n.d. Access Date: 4 March 2025. <https://www.collinsdictionary.com/dictionary/english/mentalese>

Scoring Guidelines

-1	The G20 member has failed to take action on any commitment criteria, has only taken weak action across three or less criteria or has taken action that is directly and explicitly antithetical to the commitment.
0	The G20 member has taken strong action in at least three of the six commitment criteria or less than strong action in at least four of the six criteria.
+1	The G20 member has taken strong action across all six commitment criteria to 1) build health systems that are a) more resilient, b) more equitable, c) more sustainable and d) more inclusive and 2) to provide a) integrated people-centered health services, b) including mental health.

Compliance Director: Mathula Mubundan

Argentina: 0

Argentina has partially complied with its commitment to remain committed to building more resilient, equitable, sustainable and inclusive health systems for the provision of integrated people-centered health services, including mental health.

On 28 November 2024, the Ministry of Health announced changes in the delivery of cancer medications to improve access to them.⁵³⁷⁷ The initiative attempts to modernize the distribution of medicines to simplify the management of patient care and reduce factors that prevent patients from receiving medications.

On 23 December 2024, the Ministry of Health published resolution 6155/2024 to meet demands for mental health care.⁵³⁷⁸ This resolution seeks to increase the accessibility, safety and quality of institutional treatments for mental health by establishing minimum standards for the authorization of mental health establishments and services and mental health services supervision.

On 1 January 2025, the Ministry of Health implemented electronic prescriptions throughout the country in accordance with Decree 345/2024 to enable the operation of a digital health ecosystem.⁵³⁷⁹ This implementation attempts to streamline prescription and medicinal dispensing and simplify administrative treatment decisions.

On 17 January 2025, the Ministry of Health held the First Meeting of Coordination and Update for the Diagnosis of Dengue and Other Arboviruses in convention with the National Institute of Human Viral Diseases to strengthen surveillance, diagnosis and response to outbreaks.⁵³⁸⁰ This convention aims to improve virological surveillance and adjusting strategies to control and prevent epidemiological issues.

On 5 February 2025, Argentina announced its intention to pull out of the World Health Organization (WHO).⁵³⁸¹ President Javier Milei justified the decision by stating that Argentina would not allow an international organization to interfere in the country's sovereignty or health.

On 6 March 2025, the Ministry of Health announced the closure of the National Cancer Institute amidst President Javier Milei's claims that it was inefficiently delivering medications including expired doses.⁵³⁸² This action follows other cuts to medical supplies and healthcare funding since President Milei took office in December 2023.

On 7 March 2025, the Ministry of Health announced coordination with Buenos Aires to contain the measles outbreak.⁵³⁸³ By cooperating, the entities attempt to provide follow-up and technical assistance in containing measles through treatments and vaccinations.

On 27 March 2025, the government announced the creation of the National Agency for the Evaluation of Financing Health Technologies to evaluate the effectiveness of medicinal treatments.⁵³⁸⁴ This action seeks to ensure the national health system is functional and transparent by addressing funding and judicial requirements to implement treatments.

On 1 April 2025, the Ministry of Health began delivering 250,000 measles vaccine doses as part of a strategy to manage an outbreak in the Buenos Aires Metropolitan Area.⁵³⁸⁵ These doses are part of the nine million double viral vaccines purchased by the government.

On 7 April 2025, Minister of Health Mario Lugones met with delegates from the National Administration of Laboratories and Health Institutes and members of hospital councils to sign an agreement to strengthen capacities in fighting antimicrobial resistance.⁵³⁸⁶ This agreement aims to strengthen capacities of microbial laboratories to prevent morbidity and mortality and reduce costs.

On 25 April 2025, the Ministry of Health of the Nation published the "Strategic Plan for Preparedness and Response for Mpox 2025-2026" to strengthen national capacity for prevention and treatment of the virus' transmission.⁵³⁸⁷ The plan attempts to improve the surveillance, response and cooperation of health systems in targeting Mpox.

On 15 May 2025, the Ministry of Health sent technical teams to Tucumán to help monitor and strengthen the province's response to dengue fever.⁵³⁸⁸ This includes a focus on surveillance, containment and prevention.

On 26 May 2025, Minister Lugones and United States Secretary of Health and Human Services Robert F. Kennedy Jr met in Argentina to discuss cooperation for healthcare.⁵³⁸⁹ The officials discussed a focus on preventing chronic diseases, “fast-track authorizations for high-cost medications,” improving management and focusing on the “reform and deregulation of the health system.”

On 27 May 2025, Argentina announced that it has ratified its decision to end participation in the WHO during a meeting between Minister Lugones and Secretary Kennedy.⁵³⁹⁰ This action is antithetical to the commitment as it prevents the provision of equitable, resilient, inclusive and integrated global health systems, limits international cooperation for health and undermines the right to health.⁵³⁹¹

On 9 June 2025, the Ministry of Health organized a series of workshops to establish a healthcare agenda for the Mercosur trade bloc which includes Argentina, Brazil, Bolivia, Paraguay, Uruguay and Chile.⁵³⁹² The workshops discussed topics including digital health, the judicialization of health and well-being and nutrition. The aim of these workshops was to incorporate new technologies into improving regional health systems.

On 12 June 2025, Argentina passed resolution 1938/2025 to incentivize a greater supply of health services and reduce economic barriers to access these services.⁵³⁹³ By eliminating fees for health establishments and practitioners, the resolution aims to strengthen healthcare access, decentralize the health system and fortify equitable health services.

On 23 June 2025, Minister Lugones met with health ministries across Argentina to discuss vaccination coverage across the country.⁵³⁹⁴ The meeting involved the presentation of new dashboards for monitoring the targeted measles vaccination strategy, the analysis of vaccination rates, overviews of respiratory virus epidemiology and a joint statement on the importance of maintaining coverage for all scheduled vaccinations.

On 8 July 2025, the Ministry of the Health passed resolutions 458/2025, 459/2025 and 460/2025 to reorganize the national health system to improve articulation domestically and strengthen public resource usage.⁵³⁹⁵ By operationalizing health services responsibility among 24 jurisdictions, these measures aim to provide technical

accompaniment, guide policies and ensure health services quality whilst abstaining from overlapping responsibilities.

On 18 July 2025, the Argentine Coordinating Institute for Organ Transplantation (INCUCAI) and the “Prof. Dr. Juan P. Garrahan” Pediatric Hospital concluded the second international course on pediatric liver transplantation.⁵³⁹⁶ The course was attended by healthcare professionals from across the region, including professionals from Bolivia, Ecuador, Paraguay and Peru. The course aimed to strengthen the ability of healthcare professionals to provide quality care and improve the capacities of regional health system in donation and transplantation.

On 22 July 2025, the Ministry of Health met with representatives from Paraguay’s Ministry of Health to advance the implementation of the Joint Vector Control and Epidemiological Surveillance of Arboviruses Project between border cities.⁵³⁹⁷ The initiative aims to strengthen capacities in infectious disease surveillance, with a particular focus on dengue and other arboviruses, through a collaborative joint management plan.

On 8 August 2025, Deputy Minister of Health Cecilia Loccisano met with the United States’ Ministry of Health and Human Services and the Pan American Health Organization to define steps for common guidelines for health management.⁵³⁹⁸ In deepening cooperation prevention, food safety standards and healthcare through efficient and evidence-based interventions, this partnership attempts to revitalize innovative approaches to protect and improve public health.

On 13 August 2025, the Ministry of Health announced that the yellow fever vaccine would only be free in areas where the disease is endemic.⁵³⁹⁹ The move aligns with the ministry’s resource efficiency policy and prevents public funding being allocated to disease protection that does not serve public health interests and is antithetical to the commitment.

On 25 August 2025, Minister Lugones met with the Director of the National Administration of Laboratories and Health Institutes and private sector laboratories to promote collaboration on optimizing surveillance and control of antimicrobial resistance.⁵⁴⁰⁰ This meeting resulted in a cooperative framework that consolidates diagnostic performance and strengthens training and diagnostic innovation.

On 28 August 2025, the Ministry of the Health passed Resolution 2461/2025 to establish framework of actions that will regulate the representation of the State in the hearings held within the Pre-Judicial Mediation Procedure in Health Matters.⁵⁴⁰¹ By establishing specific directions to health authorities, defining duties for intervention and solidifying authorities of the national health portfolio, this resolution aims to ensure lawyers act with transparency in health disputes.

On 3 September 2025, the Ministry of the Health collaborated with PAHO and the Undersecretariat for Health Promotion and Disease Prevention of the provincial health portfolio to provide technical assistance in the reorganization of health services.⁵⁴⁰² By addressing central aspects of hospital management, analyzing improvement opportunities in facilities and generating new frameworks for Nation-province cooperation, this initiative seeks to strengthen the response of jurisdictions to outbreaks of diseases.

On 12 September 2025, the Ministry of the Health presented the National Measles Control Dashboard to the provinces and the Buenos Aires to strengthen epidemiological surveillance and decision-making.⁵⁴⁰³ By developing surveillance quality indicator monitors, health system and service visualization tabs and incorporating vaccination monitors, this measure facilitates case monitoring and the health system's response capacity.

On 25 September 2025, Minister Lugones participated in the High-Level meeting on Noncommunicable Diseases and Mental Health as part of the 80th UN General Assembly to guarantee science-based health policies.⁵⁴⁰⁴ Minister Lugones highlighted Argentina's steps to build prevention, evidence and clinical freedom-based health policies.

On 26 September 2025, Minister Lugones met with the United States Health Secretary Kennedy Jr. at the 80th United Nations General Assembly to deepen dialogue between the two countries.⁵⁴⁰⁵ By prioritizing a cooperative agreement on food regulation, vaccine safety, medicines and medical supplies, this dialogue aims to built modern and efficient health systems that guarantee population safety.

On 3 October 2025, the Ministry of Health announced approximately ARS30 billion in funding for Garrahan Hospital's construction and equipment acquisition plan.⁵⁴⁰⁶ The funding will support modernization, increased technology, develop a Pediatric Linear Accelerator to support 400-600 children per year and develop the Bone Marrow Transplant Inpatient Unit.

On 14 October 2025, the Ministry of Health announced its plans to send an additional 44,600 doses of the yellow fever vaccine to high-risk areas including the provinces of Formosa, Misiones and Corrientes and departments of Jujuy, Salta and Chaco.⁵⁴⁰⁷

Argentina has partially complied with its commitment to build more resilient, equitable, sustainable, and inclusive health systems for the provision of integrated people-centered health services, including mental health. It has taken action to build more resilient, equitable, sustainable and inclusive health systems through the delivery of measles vaccines, a strategic plan for Mpox, bilateral talks on healthcare with the United States, an agreement to address antimicrobial resistance, resolution 1938/2025 and an international course on pediatric liver transplantation. However, Argentina has also taken actions antithetical to the commitment by eradicating

the National Cancer Institute and withdrawing from the World Health Organization. Its focus on deregulating the health system and revocation of free yellow fever vaccines for non-endemic areas is also antithetical to the commitment objectives.

Thus, Argentina receives a score of 0.

Analyst: Ankur Phadke

Australia: +1

Australia has fully complied with its commitment to remain committed to building more resilient, equitable, sustainable and inclusive health systems for the provision of integrated people-centered health services, including mental health.

On 22 November 2024, the Department of Health, Disability and Ageing published a consultation draft of the Fifth National Sexually Transmissible Infections Strategy 2024-2030, a five-part framework of national strategies that aim to coordinate a national response against bloodborne viruses and sexually transmissible infections (STIs).⁵⁴⁰⁸ This strategy contributes to national efforts in highlighting key areas for improvement in public health and primary health care systems to reduce the impact of STIs by 2030.

On 27 November 2024, the Department of Health, Disability and Ageing announced the opening of three new Medical Research Future Funds (MRFF) totaling AUD55 million to support healthcare research on intellectual disabilities, chronic respiratory conditions and traumatic brain injuries.⁵⁴⁰⁹ These grants will contribute to the advancement of diagnosis, prevention and treatment for these conditions.

On 28 November 2024, Minister for International Development and the Pacific Pat Conroy and Minister for Social Services Amanda Rishworth announced a new International Disability Equity and Rights Strategy to support humanitarian and development initiatives geared towards people with disabilities.⁵⁴¹⁰ As part of this strategy, the government will allocate AUD12 million to increase access to assistive technologies like wheelchairs, hearing aids and prosthetics in the Indo-Pacific region.

On 3 December 2024, oral health sector representatives attended a two-day workshop held by HealthConsult in Canberra to build an evidence base for the next National Oral Health Plan 2025-2034.⁵⁴¹¹ The workshop enabled representatives to assess oral health in Australia, identify policy gaps and determine the direction of the next plan.

On 13 December 2024, the Department of Health, Disability and Ageing allocated AUD40 million to the 2024 Rapid Applied Research Translation Grant to help accelerate the application of clinical research into policy and practice.⁵⁴¹² These grant opportunities will contribute to the planning, design and implementation of current research findings with the involvement of relevant stakeholders and expertise.

On 18 December 2024, Minister for Foreign Affairs Penny Wong, Deputy Prime Minister Richard Marles, Attorney General Mark Dreyfus, Acting Minister for Emergency Management Catherine King and Acting Minister for International Development and the Pacific Matt Keogh announced that Australia allocated AUD2 million to respond to the large-scale earthquake in Vanuatu.⁵⁴¹³ This funding will support an Australian Medical Assistance Team, Disaster Assistance Response Team and other aid.

On 22 December 2024, Minister Wong, Minister Conroy, Attorney General Dreyfus, Acting Minister King and Minister Keogh announced an additional AUD5 million to support humanitarian efforts in Vanuatu after a large-scale earthquake.⁵⁴¹⁴ Of this, AUD2.5 million was allocated towards medical care, water, sanitation and hygiene to help reinforce the health system.

On 1 January 2025, the Department of Health, Disability and Ageing introduced a freeze on the maximum cost for all Pharmaceutical Benefit Scheme (PBS) medicines in 2025.⁵⁴¹⁵ This decision aims to alleviate medical costs of patients and maintain accessibility to costly medical treatments.

On 3 January 2025, the Department of Health, Disability and Ageing pledged AUD18.5 million to the Medical Research Commercialisation Initiative to support startup companies developing interventions for critical health issues, such as cancer treatment, inflammatory bowel disease and pregnancy complication detection.⁵⁴¹⁶ This funding will help support innovative treatment development and accelerate its accessibility to healthcare providers and institutions.

On 6 January 2025, the Department of Health, Disability and Ageing pledged AUD35.7 million to the 2024 Clinical Trial Enabling Infrastructure Grant to improve collaboration and resource allocation for key areas of clinical research.⁵⁴¹⁷ This funding will help streamline research infrastructure to enable researchers to better address areas with unmet medical need.

On 20 January 2025, the National Immunisation Program announced the availability of respiratory syncytial virus (RSV) vaccines for pregnant women who are 28 to 36 weeks pregnant starting 3 February 2025.⁵⁴¹⁸ This action aims to prevent the severe impacts of RSV on newborns and infants.

On 1 February 2025, Minister for Health and Ageing and Minister for Disability and the National Disability Insurance Scheme Mark Butler announced almost AUD20 million in funding to advance national research into childhood brain cancers, particularly Diffuse Intrinsic Pontine Glioma (DIPG).⁵⁴¹⁹ Through the MRFF, AUD14 million will establish the CoACT-Brain Cancer clinical trial consortium led by Monash University,

while AUD6 million will support early-stage research across three universities. Monash University also received AUD2 million for therapy development targeting high-grade gliomas, the University of Newcastle was awarded AUD2 million to apply artificial intelligence-driven treatment strategies for diffuse midline glioma and the University of Western Australia received AUD1.1 million to explore safer treatments for rare infant brain cancers.

On 3 February 2025, Minister Wong and Minister Butler met with Indonesia's Minister of Health Budi Gunadi Sadikin to strengthen health cooperation between the two countries.⁵⁴²⁰ The meeting focused on increasing Indonesian medical personnel training in Australia and standardizing nursing in both countries. Indonesia and Australia also expressed their commitment to health resilience and discussed the Indonesia-Australia health cooperation strategy 2025-2033 which is expected to be finalized soon.

On 6 February 2025, Interim First Nations Aged Care Commissioner Andrea Kelly released a report titled "Transforming Aged Care for Aboriginal and Torres Strait Islander People," calling for urgent reforms to create a culturally safe, community-led aged care system.⁵⁴²¹ The report highlights systemic failures and recommends a transformation plan co-designed with Aboriginal and Torres Strait Islander people, aligned with the Closing the Gap Priority Reforms. It also urges the establishment of a permanent independent Commissioner and outlines 27 priority actions for immediate government commitment. A Community Booklet capturing lived experiences has also been released alongside the report.

On 7 February 2025, the Department of Health, Disability and Ageing announced new legislation mandating that all vaccination providers report antenatal status to the Australian Immunisation Register at the time of vaccine administration, effective 1 March 2025.⁵⁴²² This critical reform aims to strengthen maternal immunisation data collection and ensure a more complete national health dataset to monitor vaccine coverage, safety and effectiveness for pregnant individuals. This initiative underscores the government's commitment to safeguarding maternal and infant health and enhancing data-driven public health policy through improved surveillance and accountability mechanisms.

On 7 February 2025, the Department of Health, Disability and Ageing released the National Mental Health and Suicide Prevention Evaluation Framework and Sharing Guidelines developed under the National Mental Health and Suicide Prevention Agreement 2022.⁵⁴²³ These guidelines aim to enhance accountability and evidence-based policymaking and improve the quality, transparency and impact of evaluations across the sector. This initiative represents a key step toward strengthening the national mental health system and supporting more effective, coordinated responses to mental health and suicide prevention challenges.

On 7 February 2025, the Department of Health, Disability and Ageing announced changes to the National Cervical Screening Program (NCSP) clinical guidelines, set to take effect in April 2025.⁵⁴²⁴ The updated guidelines introduce key revisions to Test of Cure protocols, surveillance and follow-up after adenocarcinoma

in situ and intervals for unsatisfactory tests. These initiatives aim to support consistent, evidence-based implementation of the revised NCSP guidelines countrywide.

On 12 February 2025, Minister Butler announced an investment of over AUD22 million to advance primary care research through the MRFF.⁵⁴²⁵ The initiative supports seven innovative projects led by top universities to improve access, efficiency and equity in primary care and unite six research groups, a consumer network and 100 investigators to pioneer new models of care. The funding is part of the AUD50 million Primary Health Research Plan developed to further strengthen Medicare following expert panel recommendations.

On 23 February 2025, Prime Minister Anthony Albanese pledged AUD8.5 billion for Medicare, reinstating previously cut funding.⁵⁴²⁶ This will account for an estimated 18 million bulk-billed general practitioner visits annually and fund hundreds of nursing and physician scholarships in support of medical education. This investment aims to drive down out-of-pocket healthcare costs, increase the number of healthcare providers and support increased equity and accessibility to healthcare in Australia.

On 25 February 2025, the Department of Health, Disability and Ageing released new toolkits as part of the countrywide “Own It” campaign which aims to raise awareness about cervical cancer prevention through regular screening and a self-testing option.⁵⁴²⁷ The toolkits provide accessible resources to help healthcare organizations and community groups increase screening rates and accessibility, aiming to improve health outcomes and early detection through increased participation in cervical screening.

On 25 February 2025, the Australian Government released the “National Roadmap to Improve the Health and Mental Health of Autistic People 2025–2035,” outlining a decade-long strategy to eliminate health and mental health inequities faced by autistic Australians.⁵⁴²⁸ The Roadmap is informed by consultations with autistic individuals, stakeholders, clinicians and academic experts and aims to develop an inclusive and responsive health system to support autistic people.

On 26 February 2025, the Department of Health, Disability and Ageing announced an investment of approximately AUD98 million for health and medical research with the launch of four new MRFF grant opportunities.⁵⁴²⁹ Of this, AUD24 million will go to the 2025 Cardiovascular Health opportunity which aims to reduce disease burden and AUD13 million will fund the 2025 International Clinical Trial Collaborations, reinforcing Australia’s role in global research efforts by supporting local trial sites for novel treatments. AUD44.8 million will go towards the 2025 Early to Mid-Career Researchers grant opportunity to help improve the health system for vulnerable groups, address major health issues and ensure optimal health policies.

On 6 March 2025, the Department of Health, Disability and Ageing released a new “Handbook of Tools to Support Medicine Management in Multimorbidity and Polypharmacy,” developed by the University of South Australia.⁵⁴³⁰ This comprehensive resource is designed to assist health professionals in managing the

complexities of multiple medication use and reducing the risk of medication-related harm. This represents a step toward safer, more effective medicine use, particularly in older populations and those living with multiple chronic conditions.

On 7 March 2025, the Department of Health, Disability and Ageing announced a AUD37.5 million investment to boost consumer health literacy and enhance health professional education to promote safer and more effective use of medicines and diagnostics.⁵⁴³¹ Funded through the Quality Use of Diagnostics, Therapeutics and Pathology program, this initiative supports Australia's National Medicines Policy and the National Strategy for Quality Use of Medicines, reflecting its commitment to improving health outcomes by empowering both consumers and health professionals with critical, accessible knowledge.

On 7 March 2025, the Department of Health, Disability and Ageing released an updated Roadmap and Implementation Plan for the AUD500.1 million Genomics Health Futures Mission under the MRFF, marking a renewed commitment to harnessing genomic technology to transform healthcare.⁵⁴³² The updated framework will guide future investments to improve testing and diagnosis, personalize treatment, and reduce unnecessary healthcare interventions.

On 14 March 2025, the Department of Health, Disability and Ageing announced AUD55.8 million in new MRFF grant opportunities to advance stem cell therapies and improve outcomes in dementia, ageing and aged care. The 2025 Stem Cell Therapies grant opportunity will provide up to AUD31.5 million for early-stage clinical trials and foundational research to build public confidence in novel therapies.⁵⁴³³ An additional AUD24.3 million is available through the 2025 Dementia, Ageing and Aged Care grant opportunity. These investments, delivered under the MRFF's Stem Cell Therapies and Dementia, Ageing and Aged Care Missions, reinforce Australia's commitment to equitable, evidence-based innovation in healthcare.

On 4 April 2025, the Department of Health, Disability and Ageing opened applications for the Support at Home Thin Markets grant, supporting the availability of aged care for people from diverse backgrounds and life experiences.⁵⁴³⁴ This funding has a particular focus on operations in rural and remote regions or specialized markets to maintain affordability and viability of Support at Home services.

On 24 April 2025, the Department of Health, Disability and Ageing, Amplar Health and La Trobe University launched a new initiative to test a framework for delivering virtual nursing services in 30 selected residential aged care homes.⁵⁴³⁵ This project aims to support aged care providers facing workforce shortages, particularly those located in rural and remote areas or those caring for First Nations or culturally and linguistically diverse older people.

On 2 May 2025, the Department of Defence announced that the Army and Air Force would be provided with improved "definitive care capability."⁵⁴³⁶ This will increase to healthcare and medical needs including physiotherapy, dental and blood services for soldiers and aviators.

On 8 May 2025, Australia took part in the Indo-Pacific health security alliance meeting.⁵⁴³⁷ The event was attended by defence and security health representatives. The meeting focused on bringing together military, civilian and non-governmental organization health stakeholders to discuss building health systems resilient to climate change, conflict, disease outbreaks and natural disasters.

On 12 May 2025, Australia pledged AUD2.89 million to support reproductive health in Laos.⁵⁴³⁸ The funding will benefit more than 500,000 people in the remote areas of Bokeo and Luang Namtha province. The project also aims to remove cultural and social barriers that limit access to healthcare for women and girls, therefore enhancing the inclusivity of the healthcare system.

On 15 May 2025, Prime Minister Albanese met with the President of Indonesia Prabowo Subianto for the Australia-Indonesia Annual Leaders' Meeting.⁵⁴³⁹ In the meeting, Prime Minister Albanese pledged AUD100 million to strengthen Indonesia's healthcare system alongside AUD3.5 million for an anti-malaria drug trial for the Indonesian army.

On 20 May 2025, Minister Wong announced that the government pledged FJD5.7 million to support Fiji's national HIV response plan.⁵⁴⁴⁰ The move aims to support community-led HIV prevention and treatment initiatives, expanded disease surveillance and improved HIV testing.

On 21 May 2025, Australia welcomed the adoption of the World Health Organization (WHO)'s Pandemic Agreement.⁵⁴⁴¹ The government's support for the agreement enables collective action towards pandemic preparedness and building a more resilient healthcare system by enhancing vaccine access and expanding multi-sectoral disease surveillance.

On 21 May 2025, Minister for International Development, Small Business and Multicultural Affairs Anne Aly and Minister Conroy released a joint statement announcing AUD5 million in funding support for Papua New Guinea's polio preparedness and response effort.⁵⁴⁴² This funding will be delivered through the WHO and aims to support the integration of polio with other childhood vaccinations, thus mitigating the spread of communicable disease.

On 3 June 2025, Australian High Commissioner Ewen McDonald launched a tripartite health partnership with Papua New Guinea and the WHO.⁵⁴⁴³ The DFAT-WHO-NDoh Partnership 2025-2028 is valued at AUD15 million and focuses on improving primary healthcare, increasing access to essential medicines, expanding the health workforce and improving maternal and child health services.

On 9 June 2025, Minister Butler announced that the government will provide AUD4.5 million in funding for effective treatments and cures for motor neurone disease.⁵⁴⁴⁴ Minister Butler also announced the inclusion of Edaravone (Radicava®) within the Pharmaceutical Benefits System (PBS), offering another treatment option for Australians with amyotrophic lateral sclerosis, the most common type of motor neurone disease. This will support access to affordable and effective treatment for patients.

On 12 June 2025, the Department of Health, Disability and Ageing released a new National Immunisation Strategy for 2025-2030, aiming to decrease vaccine-preventable diseases through strategies that promote awareness and increase access to immunization.⁵⁴⁴⁵ This includes improving immunization access for underserved populations, strengthening public trust and sentiment towards immunization and increasing healthcare workforce participation in immunization strategies.

On 18 June 2025, Minister Butler announced the start of the free Medicare chronic wound care program.⁵⁴⁴⁶ The program aims to improve equity in access to chronic wound care products for older Australians with diabetes and enhance the quality of life of diabetes patients requiring wound care.

On 20 June 2025, Minister Butler announced the allocation of AUD12 million in funding to support Australia's Research Translation Centres.⁵⁴⁴⁷ The initiative aims to enhance collaborative research and discovery to improve health services and the effectiveness of available care.

On 27 June 2025, Minister Wong and Minister Aly pledged AUD386 million towards Gavi, the Vaccine Alliance from 2026-2030.⁵⁴⁴⁸ The funding will directly contribute to Gavi's work with child vaccinations, cervical cancer prevention and COVID vaccines, supporting access to lifesaving treatment and contributing to more inclusive global healthcare systems.

On 28 June 2025, Minister Butler announced that, from 1 July 2025, four additional items will be included under Medicare to expand access to equitable care for women and girls in Australia.⁵⁴⁴⁹ Minister Butler stated that the government has invested more than AUD49 million to provide services addressing complex gynecological issues such as endometriosis, polycystic ovarian syndrome and chronic pelvic pain. Additionally, new menopause and perimenopause health assessments will be available under Medicare. This initiative aims to improve access to necessary health services for women and girls in Australia.

On 30 June 2025, Minister Butler announced an investment of AUD12 million to develop new medical devices and medicines for heart disease and diabetes.⁵⁴⁵⁰ This pledge will support 14 startup companies targeting cardiovascular disease or metabolic complications related to Type 1 or Type 2 diabetes. The funding is provided

through the MRFF's Preventive and Public Health Research Initiative as part of the Targeted Translation Research Accelerator program, alongside additional industry investments to drive innovative and advanced medical solutions for widespread chronic diseases.

On 1 July 2025, the Department of Health, Disability and Ageing launched the new National Lung Cancer Screening Program in efforts to increase early detection rates of lung cancer in older adults.⁵⁴⁵¹ This program uses low dose computed tomography to screen for early stages of lung cancer in older adults with a history of smoking, as early detection and intervention have been shown to successfully treat 65 per cent of lung cancer cases. There are also increased efforts to make this system more culturally safe and accessible for First Nations people, promoting inclusivity for all populations throughout this national screening program.

On 3 July 2025, the Department of Health, Disability and Ageing pledged AUD32 million towards models of care and risk prediction for cardiovascular disease and diabetes.⁵⁴⁵² This fund will support technology-centered care models and data-driven solutions for cardiovascular disease or metabolic complications related to Type 1 or Type 2 diabetes. The funding is provided through the MRFF's Preventive and Public Health Research Initiative as part of the Targeted Translation Research Accelerator program to drive innovative and advanced medical solutions for widespread chronic diseases.

On 10 July 2025, Minister Wong announced additional humanitarian funding for the Indo-Pacific region.⁵⁴⁵³ In partnership with the Australian Red Cross and the Australian Humanitarian Partnership, the government will provide AUD6 million in funding to assist rapid disaster response and AUD4 million to the United Nations Population Fund for maternal health, childcare and gender-based violence mental health and psychosocial support services. This funding aims to improve the resilience of health systems in emergency situations and enhance equity and accessibility in disaster response systems for women and children.

On 11 July 2025, National Rural Health Commissioner Jenny May and the Council of Presidents of Medical Colleges proposed a three-faceted approach for specialist medical colleges to increase rural-based medical professionals.⁵⁴⁵⁴ If implemented, the guidelines will increase specialized medical workforce in rural communities, increasing accessibility to specialized medical care.

On 11 July 2025, Minister Butler pledged AUD98.9 million for the development of new biomedical and medical technology as part of the Medical Research Commercialisation initiative under the MRFF.⁵⁴⁵⁵ The funding will go to three organizations that will act as incubators for small and medium enterprises with early-stage medical innovations, advancing medical innovation and manufacturing in Australia.

On 11 July 2025, Minister Butler announced the opening of the government-funded Meadowbrook Health Centre to the public.⁵⁴⁵⁶ The health centre aims to provide accessible health services to the Queensland

population and improves the sustainability of the health system by efficiently allocating resources within a non-urgent care setting to reduce strain on emergency health services.

On 20 July 2025, Minister Butler announced that Australians with life-threatening conditions such as post-transplant cytomegalovirus, breast, bile duct and urothelial cancer will have access to an increased range of medications at a lower cost through the PBS.⁵⁴⁵⁷ This initiative aims to increase accessibility and equity within the health system to ensure those suffering from severe conditions are able to immediately obtain the treatments they need.

On 27 July 2025, the National Health and Medical Research Council announced AUD3 million in funding for two international teams studying dementia in Indigenous communities in Canada and Australia as part of the Canadian Consortium on Neurodegeneration in Aging grant.⁵⁴⁵⁸ This initiative, in partnership with Canada, aims to increase the access and quality of dementia and age-related healthcare for Indigenous communities, supporting more equitable health systems.

On 28 July 2025, Minister Butler announced the launch of Genomics Australia.⁵⁴⁵⁹ This new federal body aims to improve research in genomic medicine and accelerate advances in technologies to prevent and treat cancer and other diseases in Australians, therefore enhancing the quality of available treatment options.

On 28 July 2025, Minister Butler announced that legislation introduced in government would ensure that a prescription on the PBS would cost Australians no more than AUD25 from 1 January 2026.⁵⁴⁶⁰ The legislation aims to further improve the accessibility of medications to the Australian population.

On 29 July 2025, Assistant Minister for Mental Health and Suicide Prevention and Rural and Regional Health Emma McBride announced the opening of the Tuggeranong Medicare Mental Health Centre in Canberra.⁵⁴⁶¹ The center will provide accessible and free mental health support for residents in Canberra's southern suburbs.

On 30 July 2025, the Department of Health, Disability and Ageing announced an update on Australia's Disability Strategy to incorporate public feedback.⁵⁴⁶² Changes include three targeted plans that focus on community inclusivity strategies, improved data reporting plans and a provided guide to applying Australia's Disability Strategy. These efforts contribute to increasing widespread consideration of disability access across Australia.

On 30 July 2025, Assistant Minister McBride announced that a new headspace location is set to open on Hobart's eastern shore, aimed at providing greater access to free mental health support for young people.⁵⁴⁶³

The new headspace location will provide services such as support and care for mental health, physical health, work and study and alcohol and drug use issues.

On 31 July 2025, the Department of Health, Disability and Ageing invested AUD50 million towards genomic research as part of the MRFF's Genomics Health Futures Mission.⁵⁴⁶⁴ This funding will support thirty projects that improve personalized medicine and diagnostic medicine, including childhood Type 1 diabetes, genetic risks in common cancers and side effects of common medicines in First Nations people.

On 4 August 2025, Minister Wong and Minister Aly announced an additional AUD20 million in humanitarian assistance for Gaza.⁵⁴⁶⁵ The funding will support the delivery of medical supplies for field hospitals, food and lifesaving support for women and children in Gaza.

On 7 August 2025, the Department of Health, Disability and Ageing pledged AUD50 million towards maternal health and lifestyle research and research data infrastructure.⁵⁴⁶⁶ This funding, which falls under the Maternal Health and Healthy Lifestyles grant opportunity and the Research Data Infrastructure grant opportunity, will support research that supports perinatal and early childhood health and other underfunded research areas.

On 7 August 2025, Minister for Aged Care and Seniors Sam Rae announced AUD30.8 million in funding for the regional and rural aged care workforce.⁵⁴⁶⁷ This funding aims to attract and support more than 6,000 extra skilled age care workers, providing aged populations with inclusive and appropriate high-quality care, particularly improving accessibility to care for older people in rural areas.

On 7 August 2025, Minister Butler announced that 90 Medicate Urgent Care Clinics are now open in Australia. Three existing clinics in Victoria have transitioned to the Medicare Urgent Care Clinic network, and all clinics are open extended hours seven days a week.⁵⁴⁶⁸ The clinics reduce the pressure on local hospitals and provide residents with accessible high-quality urgent care, thereby improving the sustainability and resource allocation efficiency of the health system.

On 11 August 2025, Minister Butler announced new and expanded PBS listings for Parkinson's disease, neuroblastoma, endometrial cancer, cystic fibrosis and melanoma from 1 August 2025.⁵⁴⁶⁹ The new listings expand access to effective medications for Australians living with these chronic and non-communicable diseases, improving the quality and accessibility of the treatments that they can receive.
